The prima donna Miss Gene Luneska, as the princess was far beyond anything that has been said of her by the Press

"The Spring Maid" in her different impersonations was certainly most charming, in fact every character was well sustained and it would be difficult to pick a flaw. Tecumseh can well feel highly favored in having such an entertainment and Mr. Marks deserves much praise for his persistant efforts to give the best that can be secured for his patrons.

Comments—"The Spring Maid" was the best ever given in Lenawee Co not excepting Madam Sherry or the Merry Widow."

"Never saw anything like it. The best ever."

"Roland and his troupe were great."

BIRTHDAY SURPRISE

Mrs. Susan Crosby had a birthday Sunday, and her friends knowing of this met at the home of Miss Emma Rogers Saturday noon, where Mrs. Crosby and her niece, Miss Hattie Crosby of Canada, had been invited to dinner. There were forty-two present, and each one came laden with good things for a chicken dinner. Tables were spread on the lawn, and a merry company enjoyed the mid-day meal, After this part of the program had been disposed of, Mrs. Frank Temple in a very charming manner made a short speech, in which in behalf of the ladies, she presented Mrs. Crosby with a purse of money, as a slight testimonial of the esteem in which she is held.

The afternoon was spent in social chat, and when the hour of parting came each one wished Mrs. Crosby many happy returns of the day, and complimented Miss Rogers and Mrs. Albert Waring on the delightful manner in which they had planned and executed this party. Among the many plans was an auto ride for Mrs. Crosby and her niece while the guests were arriving. Mr. Ernest Coller kindly offered himself and auto and took the ladies all over the village, and also conveyed several ladies to the party.

Mrs Crosby also received letters and remembrances from three sisters in Canada, also from Mrs. (Dr) Jarvis of London, and many postal cards from friends in Indiana and Ohio.

BAD ACCIDENT

Mrs. Fred Goheen met with a serious accident last week, her attention was attracted to the window just in time to see a pair of colts start up, with a little nephew alone in the wagon. She started for the door, but tripped and fell in such a way as to break her leg above the knee. Dr. Hardy was called and set the break, but as she is suffering with sciatica, she is not as comfortable as one would wish her.

Deceiving.

Minister—I'm sorry to find you coming out of a public house again, Hamish, after all you promised me. Hamish—Aye, sir, it's wonnerful what an awfu' deceivin' thing this mist is. D'ye ken, I went in there the noo thinkin' 'twas the butcher's shop.—London Tit-Bits.

She Hated Flattery.

"I hate flattery," she said.

"Of course you do," he replied "Every pretty girl does."

Then she drew a long, deep sigh and permitted him to press her cheek against his own.—Chicago Record-Herald

Grim Humor Saved His Life.

When a spy was caught and brought before Marshal Bassompiere the marshal addressed him with the formula he always used when sentencing a man to death: "Brother, you or I must certainly be hanged!" Next day as the spy was being dragged to the gallows he adjured his jailers to allow him a last interview with the marshal, as he had something of supreme importance to say to him. The jailers were so impressed by his intense earnestness that they begged the marshal to give him audience.

"Bring the dog in!" cried Bassompiere. "What's your business?", he asked the spy impatiently when he was dragged in. "Only this, my lord. At our last interview you said either you or I must be hanged. Did you really mean that? It's of supreme importance to you or me, because if you won't be hanged I must, that's all." The marshal was so tickled with the man's humor that he ordered his release.—London Mail.

The Fuel Supply Needs Attention Only Three Times Each Day

The makers of **Cole's Hot Blast Heater** guarantee this stove to hold fire with soft coal 36 hours without attention. Your old stove and imitation stoves leak air and waste fuel because they are not air-tight, because they have putty joints.

Cole's Original Hot Blast Heater

—by means of the patented Hot Blast Draft and other patented features which make it tight, doing away with the use of stove putty—requires less attention than any other heater made.

All fuel—Soft Coal, Hard Coal, Lignite, Wood or Corn Cobs—contains a large amount of gas. Fully one-half of the heating power (carbon) in soft coal is gas. This is the part of the fuel this wonderful heater saves, by burning it with the Top Hot Blast Draft. This makes Cole's Hot Blast Heater the most satisfactory, the most economical, the most convenient heater you can buy. Imitations and other styles of stoves allow this gas-half of the coal to pass up the chimney with the smoke, unburned.

Thousands of these stoves are in use and the sale continues to increase year after year.

This heater will give you more comfort than you ever thought possible by using any kind of a stove which uses soft coal for fuel.

Right *now* is the time to decide and select the size you should have. Come in and see complete line of styles and sizes.

Price $12.00 and Upwards—According to Size and Finish.

"It's The Best Polish I Ever Used"
BLACK SILK STOVE POLISH
"A Shine in Every Drop"

That's What Every One Says Who Tries

Black Silk Stove Polish

DON'T imagine for a moment that *all* brands of stove polish are the same. Don't get the idea that to keep a nice glossy shine on your stove you must black it *every few days*. It's not a question of oft-repeated application. It's a question of the stove polish to use.

Black Silk Stove Polish is so much better than other stove polishes that there is absolutely no comparison—*it's in a class all by itself.*

It makes a brilliant glossy shine that don't *rub or dust off*. It *anneals* to the iron—becomes a part of the stove. It makes old stoves *look like new* and lasts *four times as long* as any other shine.

Get a can and give it a trial. Try it on your parlor stove, your cook stove, or your gas range. If you do not find it the *best stove polish* you ever used, your dealer is authorized to *refund your money*. Black Silk Stove Polish has been made by the same formula and sold under one name for 30 years.

Here is what some of the ladies write us:

"I sent to you for a can of Black Silk Stove Polish and found it so much better than any I had ever used that I asked my hardware dealer to order a supply. He did so, and is now selling nearly everyone in the place your polish. I had no idea there *could be such a difference in stove polishes.*"

"I was visiting friends and they used Black Silk Stove Polish on their stoves. It made the best shine I ever saw, and after blacking, the polish did not rub or dust off. It is way ahead of any polish I have ever used."

Ask Your Dealer for Black Silk Stove Polish and refuse a counterfeit brand. Costs you no more than the *ordinary kind*, so why not have the *best*. Made in liquid or paste—one quality.

Black Silk Stove Polish Works, Sterling, Ill.

Use Black Silk Air-Drying Iron Enamel for grates, fenders, registers, stove pipes, etc. Prevents rusting. Not affected by heat or cold. Produces a permanent glossy black surface. Can, with brush for applying enamel, only 25 cents. Ask your dealer.

Use Black Silk Metal Polish for nickel, brass, silverware or tinware. It has no equal for use on automobiles.

The Coal Situation.

Owing to the severe winter the surplus stock of Hard Coal was used up, then came the strike which lasted two months, when the mines started to work again there was only 60% of the miners ready, it took some time to get the mines working full time, the result that there is a shortage of over 9,000,000 tons, it will take several months to work off this shortage.

The Independant mines are in a position to offer rather prompt shipment just now but the situation will grow steadly worse until after the first of the year.

You can depend upon high priced Hard Coal. If you have not made arrangements for your supply up to Jan. 1st. you better do so at once or you may be forced to use some other coal.

Nearly all soft coals and cokes have advanced their prices to be in sympathy with the hard.

Place your orders with us and we will fill them,

Hercules Bed Springs

FOR REAL, RESTFUL REST

The Spring That Never Sags.

The coil spring used are of the finest oil tempered steel—each coil is rivited at the base and connected at the top by six tiew ires. As a result, Hercules Springs are not noisy, and cannot get noisy.

The frame construction of Hercules Springs is extremely strong, made of steel angles, instead of the usual iron bands so easly buckled. Either one or two sections, as desired.

Hercules hangers are ajustable to different widths, and any Hercules Bed Springs can be used on either wood or metal bed steads with equal satisfaction.

Sleep on the Hercules Springs for 30 nights.

If you don't agree with us that it is the best spring you ever slept on, we will refund your money.

Hercules Bed Springs are guaranteed for all time. The guarantee tag is attached to every spring.

CERTAIN RESULTS

Many a Tecumseh Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Tecumseh. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

W. W. Shurtz, Killbuck St., Tecumseh, Mich., says: "I have taken Doan's Kidney Pills at different times for the past ten years and they have always given me relief from distressing symptoms of kidney complaint. I have obtained my supply of Doan's Kidney Pills from Wright & Son's Drug Store and my experience has been so satisfactory that I willingly give this public account of it."

(Statement given December 7, 1908.)

A willing Re Endorsement.

When Mr. Shurtz was interviewed on August 29, 1911, he said: I am only too willing to endorse Doan's Kidney Pills, for I know that they act as represented. You may continue to use my name as a reference."

Antoine Deloais, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."

Many Driven From Home

Every year, in many parts of the country, thousands are driven from their homes by coughs and lung diseases. Friends and business are left behind for other climates, but this is costly and not always sure. A better way—the way of multitudes—is to use Dr. King's New Discovery and and cure yourself at home. Stay right there, with your friends, and take this safe medicine. Throat and lung troubles find quick relief and health returns. Its help in coughs, colds, grip, croup, whooping-cough and sore lungs make it a positive blessing. 50c. and $1.00. Trial bottle free. Guaranteed by C. A. Wright & Son.

U. A. Smith, Bridgeton, Ind., had kidney trouble for years, and was so crippled with rheumatism he could not dress without help. He started using Foley Kidney Pills and says: "I began to get better at once, and now all my trouble has left me and I do not feel that I ever had rheumatism. I rest well all night and tho' 59 years old, can now do the work of a man of 35 years. I would like to be the means of others getting benefit from Foley Kidney Pills." Refuse substitutes.

SOURCE OF SHELLAC.

East India Insects and Trees That Produce the Substance.

India is the home of the Coccus lacca, the insects that produce the resinous substance known as shellac. The females puncture the twigs of several different kinds of trees, among them the bo, the bihar and the butea, and the twigs become incrusted with a hard, nearly transparent, reddish, resinous substance that serves the double purpose of protecting the eggs and finally furnishing food for the young insects.

The incrusted twigs are broken from the trees before the young insects escape and are thoroughly dried in the sun. These dried twigs are called "stick lac," and from them shellac and a dye analogous to cochineal are prepared. "Seed lac" is the resinous concretion separated from the twigs, coarsely pounded and triturated with water in a mortar, by which nearly all of the coloring matter is removed.

To prepare shellac the seed lac is put into oblong cotton cloth bags and warmed over a charcoal fire. When the resin begins to melt the bags are twisted, and the pure clear resin is allowed to flow over [illegible] planks or the smooth stems of the [illegible] tree and cools in the thin plates or shells which constitute shellac.

Pure shellac is very valuable. It is much harder than colophony and is easily soluble in alcohol.

They Have an 'Arbor.

A member of the London county council was regretting the lack of art sense displayed by his fellows when they placed an open space at the disposal of the people. He pleaded eloquently for fountains, goldfish in ornamental basins, lions and unicorns in stucco and emerald green garden seats.

"Why," said he, in a splendid peroration, "we want something homely and countrylike—a little arbor here and there. If a foreigner came to this country and asked to see one we've never an arbor worth showing to show him."

Then up and spake another member, who, prior to attaining the height of his civic ambitions, had been a petty officer in the navy.

"Oh, we 'aven't, 'aven't we? And wot about Portsmouth 'arbor?"—London Strand.

Other Wilson candidates were persuaded by the Democratic national committee to withdraw, so that all the Wilson strength could be centered on Wescott against Smith.

VALUE OF A PASSPORT.

The Odd Experience of a Stranded Tourist In Paris.

"Until you go broke in a foreign country you never can realize just what a useful thing a passport is," said the returned traveler. "It not only enables you to get into a country; it also helps you to get out, sometimes in a most unexpected way. Everybody abroad thinks well of a passport, but nobody sets quite so high a value on it as a pawnbroker.

"Owing to a delayed remittance I had occasion to visit one of those men in Paris. The article I offered for security was worth many times the loan requested, but he refused an advance on account of unsatisfactory references. My temporary address in Paris and my permanent address in Washington were not sufficient guarantee of my honesty.

"Just as the case assumed a desperate complexion the broker suggested a solution of the difficulty.

"'Have you a passport?' he asked.

"I had, at the hotel.

"'Fetch it,' he said. 'If that looks all right, I'll let you have the money.'

"Up to that time my passport had been a useless piece of luggage; then I blessed the foresight that had bidden me secure it."—Washington Star.

His Conquest.

He was a simon pure, edition de luxe lady killer. The girl in the seat opposite him was easy to look at. Further, she looked demure and shy and impressionable. It wasn't long before he had things going right—he thought. He had raised the window for her and readjusted the blind; he had fished her bag from under the seat, where the porter had shoved it; he had placed her pillow in a better position for her; he had handed her a magazine; he had looked after her comfort in every way he possibly could, and she had been very sweet about it besides. He thought he was coming along splendidly. She started to get off the train before he expected her to leave, but he carried her luggage to the platform for her. Then she turned and handed him a nickel with a sweet smile and the remark, "I think it is so nice of the railway company to furnish an assistant porter."—Argonaut.

Are the Fly and Mosquito Dangerous?

The fly, with spongy feet, collects the invisible germs of diseases, spreads them over our food and poisons us with typhoid and cholera. The mosquito with its bite injects into our veins malaria and yellow fever. The bacteria of consumption, or grip, are everywhere present for us to breathe into our lungs. The blood which flows through our veins and arteries is our protection. It should contain healthy red and white blood corpuscles—capable of warding off these disease germs. Dr. Pierce's Golden Medical Discovery is a blood medicine and alterative made entirely without alcohol, a pure glyceric extract of bloodroot, golden seal, Oregon grape root, queen's root, mandrake and stone root, which has enjoyed a good reputation for over forty years. The refreshing influence of this extract is like Nature's influence—the blood is bathed in the tonic which gives life to the blood—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which has accumulated during the winter.

"About forty years ago while in Newark, New Jersey, I had chills and fever," writes MR. MICHAEL MAGUIRE, of National Military Home, Kans. "I went to Kansas City and in the spring of 1877 the chills and fever returned. Doctors and everything I tried failed to do me good. Finally I saw Dr. Pierce's Golden Medical Discovery advertised. I took one bottle of it and the chills vanished. In about a year afterward I felt them coming back so I got another bottle and have never had any symptoms of fever or ague since. That is all of twenty years ago, for I had the chills about twelve years before I started to take 'Golden Medical Discovery.'"

Grant's Graceful Act.

When General Grant was in Japan the emperor invited him to cross the imperial footbridge near the palace at Tokyo, across which none but those of royal blood had ever passed. General Grant accepted the invitation and walked beside the mikado until they reached the center of the bridge. Then he stopped, profoundly saluted the emperor and said: "Your majesty, I have come so far to show you that I am not insensible to the honor you would do me, but I cannot violate your traditions. Let us return the way we came." It was a graceful act, gracefully done. —St. Louis Globe-Democrat.

And He Got That Wrong.

Ernst Thalman, the international banker, was greatly liked by newspaper men in Wall street. He spoke as an authority on all banking questions—in a strong German accent, however. Shortly before his death a reporter—one of his friends—interviewed him in regard to European finances.

The next day he met Mr. Thalman in Broad street and was halted by the banker, who made a great show of anger.

"I saw you yesterday," he said. "I told you noddings, and you got that wrong in your paper."—New York Mail.

Measuring Nature.

Nature is not benevolent. Nature is just, gives pound for pound, measure for measure, makes no exceptions, never tempers her decrees with mercy or winks at any infringement of her laws. And in the end is not this best? Could the universe be run as a charity or a benevolent institution or as a poorhouse of the most approved pattern? Without this merciless justice this irrefragible law, where would we have brought up long ago? It is a hard gospel, but rocks are hard, too, yet they form the foundations of the hills. Man introduces benevolence, mercy, altruism into the world, and he pays the price in his added burdens, and he reaps his reward in the vast social and civic organizations that were impossible without these things.—John Burroughs in Century.

BETTY REPENTS

By DOROTHY DOUGLAS

(Copyright, 1911, by Associated Literary Press.)

Betty had shown signs of rebellion since the moment the nurse had plunged her into her first small tub; at the age of ten she was pretty but self willed; at eighteen she threatened to elope with a second-rate actor because she was refused a racing motor car. Arriving at twenty-one, beautiful and headstrong, Betty considered herself a very much abused person.

But with all her faults Betty was adorable and adored. Her parents loved her with a devotion that spoke well for her ultimate good; they knew that her perversity would one day melt before the light of reason. In many small instances Betty had already succumbed to their tactful methods, but in big things she was obdurate; she disliked giving in to the will of another.

The crisis came when Betty's parents flatly refused to let her take a trip to Paris with Mathilda Davis. Mathilda had a husband somewhere on the globe but she preferred to study painting in the Latin quarter to living in domestic bliss. So vividly had she painted the joys of student life to the untutored Betty that the latter felt life no longer possible without some of those joys. After trying every wile at her command in order to gain her parents' consent and failing, Betty defied parental authority and skipped off with Mathilda to Paris.

Before taking her leave Betty's father had looked long and steadily into his wayward daughter's half-shamed eyes.

"Remember!" he said with stern visage, "you are leaving my house for the last time. In accepting the chaperonage of that woman you are no longer a daughter of mine! We have given you every comfort in life, and now if you prefer to galavant through the streets of Paris with a woman of that caliber to living respectably with your parents you are at liberty to do so." Peter Girard turned from his daughter without so much as a second glance.

By force of will Betty swallowed the great lump in her throat. Had her father taken her in his arms she would probably never have sailed for Paris, but he did not and Betty's eyes flashed.

"Very well!" she cried back defiantly, "I will not come back!" And for fear lest the threatened tears fall Betty went hurriedly from her father's house and into the waiting village omnibus. Once inside its musty depths Betty had a good cry. Through her tears she could se her mother's calm, beautiful face when she had said, "I hope you are going to be happy in your new life, Betty."

And when the rumble of departing carriage wheels died away Peter Girard turned to his wife and there was a twinkle in his eyes. He took his wife in his arms.

'Cheer up, dear," he told her, "our daughter has merely gone on a trip of disillusionment and she will come flying back to her little mother and her daddy before another two moons have waned."

"Two months is a long time without Betty," smiled the mother.

If two months seemed long to her parents in Long Island, they proved endless to Betty in Paris.

She had enjoyed the ocean trip to the utmost. The newness of it all and the pleasure of meeting so many interesting persons cast out all homesickness for the time being. But try as she might to retard it, Betty felt herself drawing within her shell as far as Mathilda Davis was concerned. The intimacy brought about by sharing one cabin had not enhanced the woman's charm.

Betty had been led to expect that those persons on the boat who had seemed such good friends would prove the same on land. It would take a third or even fourth trip to convince Betty that the friendship of shipboard is only a passing fancy. So Betty met her first disillusionment. In Paris she saw two of the men who had been charmed by her presence on shipboard, but things were not the same and after a dinner at a cafe or an evening at the opera they, too, dropped out of her life. At the end of a fortnight Betty found herself a stranger in a strange land.

That she was paying the greater half of the expenses did not bother her, but the type of men who frequented their studio disgusted her. Betty found herself longing for big clean-minded Tom Hillary, who thought all women pure and beautiful and sweet.

She realized that Paris and many things Parisian would have been beautiful to her had she not been so lonely. It stole over Betty's consciousness gradually that happiness did not come with having one's own way.

After a few weary days of trying for the first time in her twenty-one years to plan her own life, Betty decided to go to London, where she would at least be among her own people. It was a relief to walk along the London streets and find herself unmolested by dapper little men with black mustaches. No one looked at her upon the street and no one seemed even to notice her presence.

Betty's eyes grew wistful and her lips dropped at the corners. No one out of the thousands of human beings in the largest of all cities loved her. She was completely and absolutely alone.

With stubbornness greatly diminished in her nature and pliability augmented Betty walked thoughtfully past St. Paul's cathedral and down Cheapside.

As little things change the current of life, just so a little thing sent a rush of tears to Betty's eyes. It was the sight of four tiny typewriters in a window on Cheapside. Betty's father had bought her one of those very portable machines with the hope that she would develop a budding sense of poesy in her nature.

"Daddy loves me and so does mamma," she told herself, "and I have been a selfish little cat! I am going down to the old Bow street church and think things out."

Betty walked on down toward the church whose bells had told Dick Whittington to turn back again toward London. "Perhaps I, too, can hear something in the bells," sighed Betty.

A sense of awe stole over her when she stood within the ancient, historic edifice and she slipped quietly into a pew. There was no one in the church and Betty was glad because she felt like crying. In an effort to divert her mind from the lump that was rising in her throat she glanced about at the wonderful windows, and as her eyes rested on the one above the altar the tears came unheeded.

The Virgin Mother was there with her Christ Child in her arms. Betty suddenly realized that since the time she herself had been a baby in arms her mother had guarded her from all trouble and care; had petted and loved her and now—

Betty slipped down to her knees on the worn hassock and buried her head in her arms. Her slight frame shook with the sobs she had been forcing back since the hour she had left her father's house.

A soft footfall sounded, but Betty scarcely heard, so deep was her repentance.

Tom Hillary stopped at sight of the weeping girl, then caught a surprised breath. He slipped an arm about her.

"Betty girl," was all he said, because his own voice was not quite steady. He had drawn her up until she stood beside him.

Her eyes clung to his in wonderment. Something deep and steady was glowing there and Tom Hillary knew his moment had come.

When he spoke the gladness in his voice brought the color to Betty's cheeks.

"I sailed from home the week after you left and have been roaming the streets of Paris looking for either you or Mathilda. Yesterday I gave up and crossed over to London." He looked down into her happy eyes. "When are you going to marry me? Nothing else matters."

Betty looked down at the little ring Tom had put on her finger when they were children, and smiled. After a moment she said shyly, "Just as soon as I have sent a cable home saying 'Betty repents.'"

Brown-Haired Pygmies.

Their frizzly hair is not black, as is that of their neighbors of the coast, the Papuan and Melanesian negroes, but is predominantly brown. On this feature Mr. Williamson lays a good deal of stress, because he finds the same tinge to be characteristic of other pygmy peoples, such as the Andamanese, the Semang of the Malay Peninsula and the Aetas of the Philippines. Anthropologists have hitherto been divided over the question whether these dwarf peoples represent a distinct branch of the negroids, or merely stand for so many sporadic failures on the part of the negro stock to display its full power of physical development. Our author plausibly argues that, if further observations bear out his contention that amongst pygmies generally a dwarf stature goes together with brown hair, we must concede to them the status of a separate type on the strength of this double variation.—London Athenaeum.

RUBBER AND HUMOR.

A Closely Clinging Garment and a Laughable Request.

In 1839 Professor Emmet of the University of Virginia visited in New York with his family and while there received from abroad a pair of India rubber cloth boots. His son, Dr. Thomas Addis Emmet, in his book, "Incidents of My Life," says that his distinguished father was happier in his new possessions than a child with a new toy and spent most of his time standing like a heron in the water to test them.

Their shape was not such as would have fascinated Packelan, the famous bootmaker. They were made like a long stocking of coarse canvas, with a leather sole, and over all was smeared a paste of rubber which might have answered in cold weather, but which was sticky and ill smelling under a moderately hot sun. In very few articles has there been more improvement than in rubber goods since they first came into use.

My father took back with him a "raincoat" as a present to our old negro coachman, but he could never be induced to wear it in the rain, and when expostulated with his answer was, "Does you t'ink I's gwine wear dis new coat in de rain?" He never wore it except in the bright sunshine and on a warm day, so that when he got off the box at the stable it was necessary to take with him the cushion and remove his trousers before he could get his coat off.

I recollect as a child the first "gum shoes" in use, which were hideous to look at and most uncomfortable over a shoe, but which to the bare feet of the old negroes were a joy and a comfort. The first rubber shoe was shaped like a large sausage, and from one end along the side a piece was removed to permit the introduction of the foot. After the foot was inserted the elastic substance shaped itself about it.

They were always called "gum shoes." While a medical student I was present at the opening of the Girard House in Philadelphia, and I remember that there were printed notices at each entrance with the request, "Please wipe your gums on the mat."

THE OLD OAKEN BUCKET.

That Famous Moss Covered One That Hung In the Well.

Not far from Boston is located the well which inspired the familiar lines of Samuel Woodworth to the "Old Oaken Bucket." Every time the place is visited many new traditions are told concerning the famous old bucket about which people have been singing these many years. Having drunk deep of the sparkling waters between whistled snatches of the familiar refrain, how disconcerting it was to have the charm broken by learning that the original "old oaken bucket" was stolen shortly after his well known poem became famous!

The youngest daughter of Samuel Woodworth, the author, who died in Berkeley, Cal., often used to tell about the real old oaken bucket and of the sadness which came over the household on the day it was stolen. It seemed as if one of the family were missing. In this age of souvenir collection who knows but that some day the real old "moss covered bucket that hung in the well" may turn up in a museum or serve as a water tank in the show windows of some enterprising advertiser?

There is no other water bucket in the world so enshrined in homely, genuine romance as this one. Even the golden goblets of royalty and the treasured chalices of the crusaders have never awakened the universal and popular interest attained by the "old oaken bucket that hung in the well" until it was stolen and carried away in the zenith of its fame.—Joe Mitchell Chapple in National Magazine.

Two Ways.

A pompous physician who was inclined to criticise others was watching a stonemason build a fence for his neighbor, and thought the mason was using too much mortar. He said, "Jim, mortar covers up a good many mistakes, does it not?"

"Yes, doctor," replied the mason, "and so does the spade."—Ladies' Home Journal.

REBELS MENACE HEARST ESTATE

Consul Letcher Makes Request for Troops for Defense.

SOUTHERN SITUATION SERIOUS

General Aguilar Works Up Formidable Revolt in Vera Cruz and Zapata Continues at Robbery and Pillage.

Washington, Sept. 30.—Rebels are threatening to attack the Hearst estate at Babicora, in the state of Chihuahua, Mexico, according to dispatches received here. Consul Letcher has been informed, and has already made a request to the Mexican government to send troops there at once. He reports that assurances of protection for the Hearst property has been given him.

Southern Rebels Most Active.

No change in the situation was apparent in any of the dispatches received. The southern situation is now the most serious, owing to the two revolutions in progress in the region surrounding Mexico City. Zapata is still at his work of robbing and pillaging, and the former federal General Aguilar has got a formidable revolt under way in the state of Vera Cruz. Orozco is inactive in the north, but it is feared may become a serious menace against the government at any time.

Much interest is attached here to the reports from Los Angeles regarding the report of the senate sub-committee which investigated the relations of the United States and Mexico to the Madero and Orozco revolutions just north of the border. Reports that Senator Smith, who has been one of the active members of the committee, is in favor of intervention, created great surprise. The Michigan senator, though a Republican, has been one of the strongest opponents to the administration's policy.

Intervention Not Probable.

Reports that intervention has been decided upon by the president are unofficially denounced in official circles. Only the force of circumstance can ever bring a decision to intervene in Mexico, it is stated, and then the administration will content itself with reluctantly recommending such a step to congress.

BURN NORTHCOTT PORTRAIT

Insurgent Woodmen Show Disapproval While Band Plays Dirge.

Sterling, Ill., Sept. 30. — The Rock Falls camp of Woodmen burned the oil portrait of Former Lieutenant Governor Northcott, one of the founders of the order, purchased fifteen years ago. The ceremony was attended by fully 1,000 members of the order from northern Illinois specially invited to witness the affair.

Following several inflammatory speeches by insurgent Woodmen, Joseph Wright, local insurgent leader, poured tar over the oil picture. While the picture burned the Woodmen stood with heads uncovered and the Sterling, Rock Falls and Morrison bands played a dirge. At the conclusion the united bands played "Down Went McGinty."

Peacemaker Shot to Death.

Aberdeen, S. D., Sept. 30.—Charles Gorton, a peacemaker, was killed by a bullet intended for another man at Britton, S. D. Ole Knutson, who fired the shot, is under arrest for murder in the first degree.

Convicted of Slaying Wife.

Cherokee, Ia., Sept. 30. — The jury in the case of E. P. Hessenius, a wealthy farmer living near here, accused of killing his wife, returned a verdict of manslaughter.

GOVERNOR HADLEY

States Conditions Under Which He Will Support President.

TRIAL BEGINS TUESDAY

Fifty-One Persons Accused as Labor Dynamiters.

Four Hundred Persons Will Be Called as Witnesses in Government's Fight at Indianapolis.

Indianapolis, Sept. 30. — Over 400 witnesses are being subpoenaed for the trial of the fifty-one alleged labor dynamiters who will be placed on trial in the federal court here next Tuesday.

In the original indictments charging conspiracy to ship explosives from one state to another for the purpose of dynamiting plants with which unions had had trouble there were fifty-four named.

Two of these defendants, however, John J. McNamara, and his brother, James B. McNamara, are serving sentences in the California state prison, and a third, John J. McCray, formerly a member of the eexcutive board of the International Association of Bridge and Structural Iron Workers, never has been arrested. It is believed from investigations made by government agents that McCray is dead. He once lived in Wheeling, W. Va.

It will take approximately two months for the government to present its side of the case. If the present plans are carried out, it is estimated that it will be Christmas, at least, before the trials are ended.

PLANS AGGRESSIVE FIGHT

Nicaraguan Government to Proceed Aggressively Against Rebels.

Washington, Sept. 30.—Information reached the state department that the Nicaraguan government forces are about to wage an aggressive campaign against the rebel force which is still against the administration. The news of an attack by federals upon the rebels at Basanquly is expected soon.

In case General Zeledon, who commands the rebels, prefers to fight it out with the government troops, Admiral Southerland will probably not intervene so long as General Zeledon does not attempt to interfere with the communications reopened by the American forces.

ROOSEVELT TOUR ALMOST FINISHED

Will Complete Swing Around Country on Wednesday.

HE COMES WEST IN OCTOBER

Supporters of Colonel Make Predictions as to What States He Will Carry and What Others He Must Fight For.

Chattanooga, Tenn., Sept. 30.—Colonel Roosevelt will finish on Wednesday next his swing around the country. When he arrives in New York he will have completed a tour of 10,000 miles and have visited every section of the republic.

He will have made his appeal for Progressive support to the people of twenty-seven states.

October in Middle West.

During the month of October he will speak in the middle west, including Illinois, Michigan, Indiana and Ohio, address a few crowds in Pennsylvania and make short dashes into New England. The last five days of the campaign he will devote to New York. The colonel will not permit himself to rest more than a day or two at Oyster Bay. He must appear before the Clapp senatorial investigating committee on Oct. 4 and immediately thereafter resume his stumping. The colonel will be ready for the inquisitors. He will bring to Washington his letter press copy books and will be prepared to answer in detail any question in connection with his attitude toward the Standard Oil company.

The latest threat of William R. Hearst, that if the colonel does not tell the whole truth he will make public incriminating letters, Mr. Roosevelt meets with the statement he heretofore has made—that if Mr. Hearst has any documentary evidence he should give it to the public; or if he has knowledge of any letter written by the colonel and will indicate its character and date the former says he will hunt through his letter press books and, if he finds it, will give it out himself. The colonel does not intend to answer Hearst until he appears before the committee.

How Colonel Aligns States.

The states in which the colonel has visited and in which he has an excellent chance of winning are: Iowa, Minnesota, Washington, Oregon, Texas. The states in which the colonel has more than a fighting chance are North Dakota, Idaho, Colorado, Nebraska, Missouri and Tennessee.

The states for which the colonel must struggle are: Connecticut, Montana and Oklahoma.

Governor Wilson looks to be the victor in the following states, though in them the Progressives have formed militant organizations: Arizona, New Mexico, Texas, Louisiana, Alabama and Georgia.

The colonel's prospects of carrying North Dakota are lessened by the hostile attitude of Senators LaFollette and Gronna, but in the end it is believed he will get its electoral vote.

Senator Borah is opposing Mr. Taft in Idaho and is using his influence quietly for the colonel.

Ill; Takes His Life.

Athens, Ill., Sept. 30.—Henry Lorton of Tallula committed suicide. Ill health was the cause.

Jesse James' Kin Sentenced.

Columbus, Ind., Sept. 30.—Pleading guilty in the city court here to a charge of giving intoxicating liquors to minors, Ed James, thirty-five years old, who claims to be a cousin of Frank and Jesse James, former Missouri outlaws, was sentenced to sixty days on the stone pile.

MARCHERS CLASH WITH THE POLICE

In Mix-up One Officer Stabbed and Another Beaten.

MORE DISORDER AT LAWRENCE

Old Conflict Between Operatives and Mill Owners Breaks Out Again in Massachusetts Town.

Lawrence, Mass., Sept. 30.—Marching members of the Industrial Workers of the World clashed with the police of Lawrence and during the melee one of the officers was stabbed and one beaten almost into unconsciousness. Many of the paraders sustained cracked heads through encountering the policemen's billies.

Parade Is Small One.

The widely advertised parade proved a fizzle, for instead of there being more than 10,000 in line, as planned, there were not more than half that number and while many did not participate because of a downfall of rain there is no question that thousands of others kept away purposely.

Just what the majority of workers will do in answer to a request for a second twenty-four-hour strike is problematical.

The parade was for the purpose of marching to the cemetery where the Lapezzi woman is buried, but the procession for some unexplained reason failed to reach the burying ground with a carriage load of flowers to place upon her grave. Carlo Tresca, one of the organizers, marched the people from Lexington hall and marched them back again without turning from Broadway to go to the cemetery and in the meantime Elizabeth Gurley Flinn, Fread Heslewood and Miss Marcotte, all prominent in the I. W. W., were waiting at the graves to deliver speeches. When they finally heard that the procession had gone back to headquarters they hurried there.

Two Arrests Are Made.

The trouble with the police began on Essex street and continued to the door of the station when five policemen were forced up the steps. They drew their revolvers and pointed them at the mob, which thereupon dispersed. There were two arrests made during the mix-up.

The strikers and their friends did some marching on Common street afterward, but eventually they calmed down and all hands went to the I. W. W. quarters at Lexington hall. Here they were addressed in the different languages and advised to keep out of trouble, as violent actions would prejudice the case of Ettor and Giovannitti.

CAR STRIKE IMPENDING

Chicago Intramural Traffic May Be Paralyzed Wednesday.

Chicago, Sept. 30. — Unless Mayor Harrison can once more intervene to bring peace, a strike on all Chicago traction lines will be declared Wednesday.

The trouble is more acute than at any time since the negotiations between the car companies and the men started and Chicago is directly facing a paralysis of all traffic on both surface and elevated lines which will disrupt virtually all of the city's activities.

Failure of the two arbiters to select an umpire and the statement of Judge Kickham Scanlan, acting for the carmen, that there is no possibility of selecting a fair tribunal to hear the wage controversy of the carmen were given as the causes for the serious situation that has developed.

HEAD OFF FILIBUSTERERS

Expedition Said to Be Outfitting at Some Southern Port.

Mobile, Ala., Sept. 30. — A report that a filibustering expedition is being organized at this or some other gulf port for either Honduras or Guadalupe has incited activity on the part of the government. It was stated here that there are more than two score of secret service agents seeking knowledge of the promoters.

Recently revenue officers searched a schooner on the Mississippi coast. Nothing was found. This vessel now lies off Mobile, according to report, awaiting opportunity to take on arms and ammunition. A revenue cutter was said to be lying off Mobile to intercept any suspicious looking vessel.

SEEKS DAMAGES OF $10,000

South Bend Man Sues to Recover for Son's Death.

South Bend, Ind., Sept. 30. — The Central Union Telephone company and the Indiana and Michigan Electric company were made defendants in a $10,000 damage suit filed in the circuit court by Michael Szabo.

Action is the result of the electrocution of John Szabo, a nine-year-old son of the plaintiff, who met his death July 13 last. A guywire supporting a telephone pole came in contact with a live wire belonging to the electric company, carrying 2,300 volts, and the lad, while at play, received the full voltage.

SHAKEN BY EARTHQUAKE.

Persons Living In and Near Sterling Frightened by Tremors.

Sterling, Ill., Sept. 30.—What were said to be earthquake shocks were felt in several sections of Whiteside county. Pictures were shaken from the walls, doors were jarred open and dishes were scattered from shelves. The shocks caused much alarm.

The vibration was from east to west and the shocks were repeated during about five seconds. Foundations were loosened and cement silos damaged by the tremor. Reports of the quake came in from a radius of fifteen miles. No satisfactory explanation of the shocks has been made.

Take Hall's Family Pills for constipation.

Every man has a lot of old debts due him that he can't collect, and knows he can't collect, and yet talks about them a great deal.

Antoine Deloaia, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."

For sale by all Druggists of Tecumseh.

It is possible to make a great reputation with a little sense; a man with a little sense is really quite a genius.

Philip Desormeau, Prop, the Farmer's Home Hotel, Schaffer, Mich., says: "Last winter I could not sleep nights on account of a bad cough that would start at bed time and keep me awake. I started using Foley's Honey and Tar Compound and was greatly pleased to find that the cough left me, my appetite increased and I slept soundly at night." For sale by all Druggists of Tecumseh.

There are a thousand things the people ought to do, and although they admit it, they will never do them,

FORTUNES IN FACES

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it, Impure blood is back of them all, and shows the need of Dr. King's New Life Pills They promote health and beauty. Try them, 25 cents at C. A. Wright & Son's.

A man should either be able to keep his temper, or be abe to whip the man he is quarreling with.

SAVES LEG OF BOY

"It seemed that my 14-year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c. at C A. Wright & Son's.

Some people are so strong on talk that they try to pay their bills with it

Mrs. Dora Ray, 720 Brord St., St. Joseph, states: I suffered much misery from my kidneys and bladder and all I tried failed to help me. My kidney action was irregular with a burning pain, and I had headaches and dizzy spells, with swollen ankles. I gave Foley Kiduey Pills a good trial and improvement followed promptly and in fact, I've felt exceptionally well since taking Foley Kidney Pills."

Do You Know

That Women Vote
In Wyoming, Colorado, Utah,
Idaho, Washington
and California?

Why Not In Michigan?

Do You Know That women vote in Norway, Finland, Australia and New Zealand and have partial suffrage in other countries?

Do You Know That women can now vote in China?

WHO CAN'T VOTE!

Children, Insane, Idiots, Aliens, Criminals and Women.

IS THAT A SQUARE DEAL FOR WOMEN?

Vote For Woman's Suffrage Next November.

MRS. JENNY C. LAW HARDY.

Mrs. Jenny C. Law Hardy is a native of Australia and comes of a family that has suffered much for its convictions. Ludwig Feuerbach, the philosopher, and Anselm Feuerbach, the artist, were relatives of hers. One of the family wrote a pamphlet against the great Napoleon and fled to Scotland, where he became a friend of Walter Scott, who mentions him in his diary, and he died in exile.

Mrs. Hardy participated in the suffrage victory in New Zealand in 1893, was through the suffrage campaign which culminated in the granting of the ballot to the women of Australia in 1902, and she has lectured for suffrage for the last seven years in Michigan; besides speaking in Austria-Hungary and Italy for the same cause. She is a member of the Royal Geographical society, of the Australian Society For the Advancement of Science and holds a diploma of honor from the Danta society in Rome. She was chairman of the legislative committee of the Michigan Equal Suffrage association when the legislature passed the suffrage bill and is now chairman of the press committee.

Having circumnavigated the globe three and one-half times and lived in many countries, Mrs. Hardy has been able to see personally the great progress of the suffrage countries—the humane laws for the benefit of women, children, the destitute, the aged and the worker, culminating in the marvelous success and prosperity of New Zealand, where there is not a pauper in the land.

WILLIAM ALDEN SMITH.

Makes Emphatic Statement Favoring Equal Suffrage.

UNITED STATES SENATOR SMITH.

William Alden Smith was born at Dowagiac, Mich., May 12, 1859. In 1872 he removed with his parents to Grand Rapids. Besides a common school education he studied law and was admitted to the bar in 1883. He was honored by Dartmouth college in 1901 with the degree of master of arts. In 1879 he served as page in the house of the state legislature, was elected to congress seven consecutive terms, resigning to take a seat in the United States senate, to which he was elected in 1907 to fill the unexpired term of Senator Alger and also for the ensuing full term.

Senator Smith is positive in his support of woman's suffrage in his home commonwealth. He says:

"I am in favor of the constitutional amendment to be submitted to the Michigan electorate in November proposing equal suffrage.

"I find no warrant, either in justice or ethics, for discrimination against citizens on account of sex. I believe the amendment proposed should be adopted and that thereby a vast army of painstaking, patriotic, country loving, worthy women will be given the privilege in government which they deserve."

Women should vote because it would increase the moral and law abiding vote very much, while increasing the vicious and criminal vote very little. Women form a minority of all the criminal and vicious classes (less than 2 per cent in Michigan) and a majority of all the classes working for human advancement. Vote for the equal suffrage amendment in November.

They Argue For Woman's Suffrage.

None of the Michigan congressional delegation at Washington is opposed to votes for Wolverene women. A few are inclined to await the November referendum But Senators Townsend and Smith and Congressmen Loud and Hamilton present potential arguments why the voters of this state should vote "Yes" on the woman's suffrage constitutional amendment at the November polls The Herald prophesies success for the suffrage movement in this state—if right makes might.—Grand Rapids Herald

HAPPENINGS IN OUR NEIGHBORING VILLAGES

Britton has begun preparations for the building of a new town hall It is to be a two story building, the lower room to be used for the storing of their fire protection equipment, which will soon be purchased for the village.

In Adrian the County Court House is under going some much needed repairs. Copper gutters were placed on the roof, and now they are placing copper valleys from the tower to the troughs. When this is done there will be no danger from leakage.

Deerfield is boasting of a fine new building which has been in course of building for some time, but is now receiving the finishing touches. This is the Edgar Daykin building and is quite artistic in every detail. The front is of solid plate glass braced with copper, and the two displayed windows are the finest to be procured. The main floor has been arranged for a Dry goods store, and the I. O. O. F. expect to occupy the upper floor W. F. Weisinger has also been im the store lately bought by him, repairing and renovating it in fine style.

A LOST DOG.

While travelling through the West, a man lost a valuable dog, and immediately proceeded to the office of the Hustler's Review in the town where he was stopping Entering abruptly, he said to the editor; "I've lost a dog. I'd like to have you insert this ad for me:

"Seventy-five dollars reward for the return of a French bulldog answering to the name of Darwin. Last seen on Turner's Road."

"We're just goin' to press," said the editor, "but we'll manage to hold the edition for your ad."

After returning to the hotel, the owner of the dog decided it might be best to add to his advertisement, "No questions asked." He returned to the office, to fine the place entirely deserted, save for a red-haired youth, who sat gazing intently out of the window. "Where is everybody?" he asked.

"Gone to hunt th' dawg," replied the lad, without removing his gaze from the distant fields.

NO OTHER STOVE DOES THIS

Cole's Hot Blast Heater maintains a continuous fire: also a steady, even heat. It will hold fire from Saturday night until Monday morning (48 hours). It will hold fire over night with less coal than any other stove. Open the drafts in the morning and the rooms are quickly heated with the coal put in the night before. Come in and examine Cole's Original Hot Blast Heater. Price $12.00 and up, according to size. (8-11)

THE TIME HAS COME FOR WOMEN TO VOTE.

Have you ever thought why your mother, wife, sister and daughter are not allowed to vote?

The only reason for not enfranchising any class of people in a democracy is because they are mentally or morally incompetent to vote.

The reason why women are not enfranchised is because when our constitution was made 125 years ago women were considered mentally incompetent to vote.

One hundred and twenty-five years ago girls were not admitted to the public grammar schools: women were not admitted to the colleges; women were not admitted to many of the trades and professions; married women could not own property, and married women did not own their own children.

During the past 125 years the status of women has completely changed.

At the present time our high schools are graduating more girls than boys; 40,000 women are in our colleges; nearly 8,000,000 women are working in the trades and professions; married women can own property, and in sixteen states married women are equal guardians of their children with the father.

The mental competence of woman is now recognized in all phases of social responsibility, except that of the franchise.

The time has come to change the political status of women and to make it accord with her present social, economic and intellectual status. This change has already been recognized.

Women vote on equal terms with men in Norway, Australia, New Zealand, Finland, Colorado, Idaho, Utah, Wyoming, Washington and California.

Vote "Yes" on the constitutional amendment granting the ballot to women in Michigan.

Women Work For Good Laws.

Congressman Edward T. Taylor of Colorado in a speech to congress April 24, 1912, on equal suffrage in Colorado made this emphatic declaration:

"I believe the securing of universal franchise for the women of this country would be the greatest step in advancement that civilization has made in centuries. There never has been a good law enacted in the state of Colorado in the past nineteen years that the women have not actively worked for."

How About Michigan?

Women vote in California, Colorado, Utah, Washington, Idaho and Wyoming. Suffrage will be voted upon within the coming months in Michigan, Ohio, Kansas, Wisconsin, Oregon and Nevada. It is almost certain to win in Oregon, Kansas and Nevada. How about Michigan? Mr. Voter Man, it's up to you.

As the perfect family cannot be produced except by the equal co-operation of the father and mother, so no scheme of government will ever be just that does not build upon this principle.—Samuel M. Jones, Late "Golden Rule Mayor" of Toledo.

VISITING SPECIALISTS
from the
CLEVELAND INSTITUTE OF MEDICINE AND SURGERY
OF CLEVELAND, OHIO,
WILL PAY THEIR FIRST VISIT
TO
TECUMSEH, MICHIGAN,
and will be at the
BARRETT HOTEL
Wednesday October 9th.

TELL YOUR SICK FRIENDS
ONE DAY ONLY
8 A. M. TO 6 P. M.
FREE

This Institute, composed of a group of regularly graduated physicians and surgeons, licensed, legally associated under the laws of the State of Ohio, sends at its own expense these eminent medical specialists in order to introduce the newest methods and discoveries in medicine and surgery such as the system of treatment under X ray, Violet ray, Finsen ray, Hydrotheraphy, Etc., to give to those who call on the above date, consultation, examination, advice and all medicines required to complete a cure, absolutely free. These specialists will diagnose your case and give you the benefit of their skill and medical knowledge free.

There is in this case no experimenting or guess work at your expense. You will be told whether you can be cured or not. If your case is curable they will put you under treatment immediately; if incurable they will give you such advice as may prolong your life. Their treatment always gives quick relief, and ultimately positively cures. Being prepared to cope with each individual case the human system is thoroughly cleansed of the disease in a natural and direct manner, and improvement is noticed at once; even the worst cases are treated without any inconvenience to the patient or the pursuing of his or her daily vocation.

If you are improving under your family physician, do not come and take up their valuable time, as they absolutely refuse to treat any one who is under the care of the local physicans. They wish besides to give each patient plenty of time and their undivided attention, but can not listen to long stories not pertaining to your trouble. They have discarded the old methods and remedies used for ages by the medical world, and which it would be folly to depend upon any longer, for they are not known to cure, as thousands die, depending on them for relief. The following list of diseases only are taken under treatment, to-wit: Diseases of the Nervous System, Heart, Stomach, Lungs, Kidney, Catarrh, (purlent or dry), Consumption, Epilepsy, Deafness Diseases of Women, Tumors, Pseudo Cancers, Piles, of a Chronic Nature only. They treat Deafness by an entirely new method, and hearing in many cases is restored at once. Catarrh in all its varied forms, like other diseases if once taken under treatment, is cured permanently to remain so and to never return. It matters not whom you have seen, or with whom treated, do not fail to call, as a visit will cost you nothing, and may restore you to health, or even save or prolong your life, as thousands of persons will testify by unassailable testimonials in all parts of the country. If you suspect Kidney Trouble, bring a two ounce bottle of your Urine for chemical and microscopical analysis.

REMEMBER:—The free offer is during this visit only, and will not be repeated. Persons commencing treatment upon their future visits will be required to pay, but not one cent will be asked from those commencing treatment during this visit for any medicine necessary to effect a cure, Irrespective of your position in life, or those who come on above date. Whensoever, or by whom wanted, a positive guarantee to cure will be given under their system of treatment. Those having long standing and complicated disease, who have failed to get well and become discouraged, are particularly invited to call.

NOTICE:—Married ladies without their HUSBANDS, and minors without their FATHERS, will positively not be admitted to consultation unless accompanied by one of their local physicians

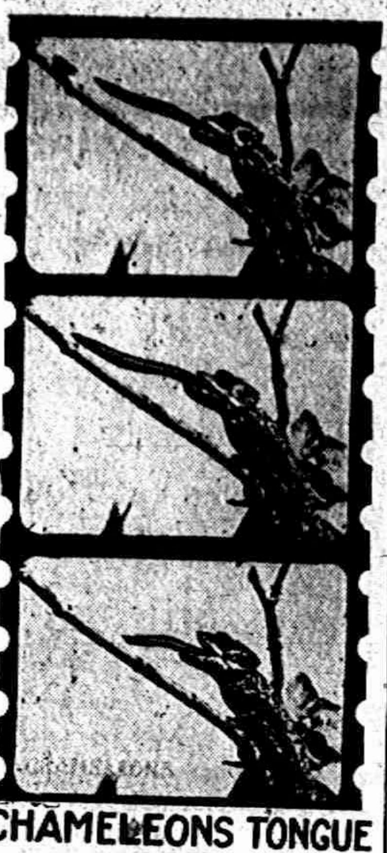
AMUSEMENTS

A QUICK LUNCH

An amazing fact, heretofore unknown even to biologists, was recently discovered in a most unexpected way by means of animated photography. It discloses the actual speed of the chameleon's tongue in "striking" out for its prey and bringing back the "dinner," in this instance, a fly. The whole incident takes place like a flash of lightning, and heretofore the exact time required could never be determined So called "still" photography could never disclose it because it cannot depict movement, yet in this case the movement is even more remarkable than the length of the tongue. The discovery was made accidently during a novel nature study of the chameleon to be reproduced by Lyman H. Howe at the BRADLEY OPERA HOUSE on WEDNESDAY EVENING, OCT. 2. In order to enable the human eye to see just what takes place, the subject was highly magnified, and a fly was placed within "reach" of the chameleon.



CHAMELEONS TONGUE
IN ACTION
LYMAN H. HOWE'S
TRAVEL FESTIVAL

The motion pictures were then taken at the rate of sixteen per second, and three particular tiny negatives show the exact positions of the tongue for sixteenth of one second These three positions are shown in the above illustration. The first shows the tongue (which is twice the length of the chameleon's body) shoot out for the unsuspecting fly. The second shows just what took place when, with incredible swiftness, the tongue enveloped the fly. The third shows the tongue returning with the fly in an infinitesimal fraction of a second. The pictures prove conclusively "striking" illustration of the scientific value of animated pictures.

An infinite variety of scenes of Paris and its environs, including the historic Palace of Versailles with its wonderful fountains and a trip along the picturesque rivers of France—all presented in the myriad hues and tints of nature: the burial of the Maine; whaling; a thrilling race between a hydroplane and a fleet of the swiftest motor boats, including the 800 horse power Ursula, and the bee industry, are only a few of the many other big features to be presented.

"THE ROSARY"

Rowland and Clifford's play, "The Rosary" is repeating this season with remarkable success. This play, as everybody remembers, was the the hit of the season, when it broke many house records. The play was written by Edward E. Rose, author of "The Prisoner of Zenda," and many other successes and has become as much of a favorite with theatregoers throughout the country as any of Mr. Rose's former dramas. The play from the start tells how Bruce Wilton has amassed a fortune which he lavishes upon his wife, Vera. Their home is a happy one until there creeps into it a note of menace, No one hears of it at first except Fr. Kelley, a priest, the former tutor of Bruce. Quietly he goes to work to find the person who is causing the adverse influence in the household. Almost on the verge of discovering the cause, calamity descends upon the Wilton house. Bruce's fortune is swept away, and in such a way that he believes his wife the cause of his ruin. Husband and wife are separated, the home is destroyed, and yet the cause of this disaster is unknown. Fr. Kelley, however with resolute zeal, perseveres in his work to fathom the mystery and finally succeeds in his undertaking. He finds the one who has caused all the misery and eventually restores the home. The scenic environments of the play are extremely attractive, and plads much credit on Rowland and Clifford's efforts. The play will be seen at the BRADLEY next THURSDAY OCTOBER 3rd.

NATIONAL TROUBADOURS

Christine Link, Director

This entertainment given under the auspices of the ladies of the M. E church on Friday evening, was a very pretty one, and deserved a much larger house to greet it.

The 40 little Butterflies in the first scene were worth the price of admission as they appeared when the curtain rose, they were perfectly unconcerned and adjusted their wings and dainty robes in a most delightful manner. At the touch of the Fairy queen they are changed into fairies, and flit away as only fairies can

The solos and choruses by the older ones were all rendered finely, and the costumes added much to the beauty of the scene. Special mention should be made of the "Newsies" in their various stunts, the Dutch Kids" and "The Dude," who certainly carried the house by storm.

The whole performance was a very fine one, and reflects great credit upon those who have had it in charge.

Keeps Your Stove
"Always Ready for Company"

A bright, clean, *glossy* stove is the joy and pride of every housekeeper. But it is hard to *keep* a stove nice and shiny—unless Black Silk Stove Polish is used.

Here is the reason: Black Silk Stove Polish *sticks right to the iron*. It doesn't *rub off or dust off*. Its shine lasts *four times* longer than the shine of any *other* polish. You only need to polish *one-fourth* as often, yet your stove will be *cleaner*, *brighter* and *better looking* than it has been since you first bought it. Use

BLACK SILK
STOVE POLISH

on your parlor stove, kitchen stove or gas stove. Get a can from your hardware or stove dealer. If you do not find it *better* than any other stove polish you have *ever* used *before*, your dealer is authorized to refund your money. But we feel sure you will agree with the *thousands* of *other* up-to-date women who are now using Black Silk Stove Polish and who say it is the "*best stove polish ever made.*"

LIQUID OR PASTE
ONE QUALITY

Be sure to get the *genuine*. Black Silk Stove Polish costs you *no more* than the ordinary kind.

Keep your grates, registers, fenders and stove pipes bright and free from rusting by using BLACK SILK AIR-DRYING ENAMEL. Brush free with each can of enamel only.

Use BLACK SILK METAL POLISH for silverware, nickel, tinware or brass. It works quickly, easily, and leaves a brilliant surface. It has no equal for use on automobiles.

THEY ARE CITIZENS.

Reasons Why Michigan Men Should Give Ballot to Women.

Women are citizens of this country "whether officially recognized or not."

Women should receive their right to vote for the same political reasons that men receive theirs and not because they ask.

What are the political reasons for giving the vote to women?

First.—Women are people. No one dare deny that. Abraham Lincoln defined an ideal republic as a "government of the people, by the people and for the people," but ours is a government of the people by half the people.

Second.—We cannot make this an ideal republic if we leave half the people irresponsible and unprotected.

Third.—The country needs the working power of all its citizens.

Fourth.—Men and women need the chance to make good together and on equal terms.

Who can give women their right to vote?

Michigan men can give Michigan women the ballot at the next election.

Discrimination.

"Did you ever tell that young man that late hours were bad for one?" asked the father at the breakfast table.

"Well, father," replied the wise daughter, "late hours may be bad for one, but they're all right for two."—Yonkers Statesman.

Blot out vain pomp, check impulse, keep reason under its own control.—Marcus Aurelius.

His Many Titles.

The old caretaker of an Episcopal church, as he sat on a tombstone in the churchyard, dismissed as trivial the question of his proper title. "The good old creed keeps the same for all," he said, "though they may change the words they use. Look at me! here I used to be the janitor. Then we had a parson who called me the sexton. Dr. Thirdly gave me the name of virgin. And the young man we've got now says I'm the sacrilege."

Lead Pencils.

I don't think I'm exactly lazy and I have a fair amount of intelligence, but I cannot sharpen a lead pencil I've been trying to learn for—well, I won't say how long, but it's many, many years. I couldn't sharpen them when I was little. I couldn't sharpen them when I was big. I can't sharpen them now that I am bigger. Pencil sharpeners don't sharpen them any better than I do. Or than you do, I wager, if you're a woman! When I'm rich I shall hire a man to sharpen my pencils for me every morning.—Exchange.

Doing Good by the Way.

I expect to pass through this life but once. If, therefore, there is any kindness I can show, or any good I can do to any fellow being, let me do it now, let me not defer or neglect it, for I shall not pass this way again.—Mrs. A. B. Hegeman.

1913 MICHIGAN ON EXHIBITION.

We have just closed arrangements with the Michigan Buggy Co. (one of the largest manufacturers in this part of the country) for the sale of their buggies.

This arrangement lets us in on the very lowest prices. We are after volumes of business rather than big profits from few sales, therefore will sell on very close margins.

Have just received five advance jobs on 1913 models, embodying the very latest ideas of construction and painting in the new colors, all being different.

These buggies will be sold, but before they go they will be on display in our new buggy sales room. Come and see the styles and colors for next year.

The first buyers can get the buggy they want at practically next year's terms in order to introduce the line. Be one of the first to have the pleasure of driving a 1913 model these fine fall days. Would suggest you call at once while the assortment is complete.

It may not be known that Jack Hoy is quite a gardener as well as a steady worker of the foundry but when one sees the display of squash, pumpkin potatoes etc, at Aldrich & Son's grocery store they will be convinced that he is going some in that line.

Miss Mildred VanWinkle was ten years old last week, and her mother invited in ten little girls to celebrate the occasion. Games of various kinds filled the passing hours, Ice cream, cake and pop corn were served and the little maid received many pretty presents.

Married at the home of the bride's parents, Mr. and Mrs. E I. Niles at ten o'clock Tuesday morning by the bride's father, Miss Olive Niles and Arthur Lewis of Onsted. They will be at home to their friends in Onsted after this week.

The reception given to the Rev. G. H Whitney at the Methodist church Monday evening, was a very pleasant affair. Rev. W. B. Hartzog in a very happy manner extended a cordial welcome to the new pastor in behalf of the churches of Tecumseh. A short musical program followed. Refreshments were served, anp with hearty hand shaking and words of greeting, Mr. Whitney and family were made one with the people of Tecumseh.

No Duplicates Here.

If in this month of weddings all the brides-to-be copied the little brides of Holland they would not have so many duplicate gifts. The practical folk of the Netherlands consult the bride as to what she needs, and she has a list from which each article is checked off as it is "taken" by a prospective donor. This list is kept as an heirloom, so that every generation knows what has been given to its grandmothers. Incidentally, the list has almost the value of an inventory.

At our demonstration we used a paper stovepipe, showing that the heat was in the range where it belongs and not going up the pipe. The Majestic will not warp or break and has a fire back 10 to 12 pounds heavier than you find on most ranges. If in the market for a range it will pay you to see the Majestic before buying.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Herald readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

W. C. Witherell, W. Potawatamie St., Tecumseh, Mich., says: "I have had no reason to change my high opinion of Doan's Kidney Pills which I publicly expressed some years ago and I willingly confirm all I have previously said in their praise

I had acute pains across the small of my back and in my hips and often after stopping, a sharp twinge darted through my loins, obliging me to lie down. I was laid in bed for several days and I believe that my trouble was caused by excessive stooping. When I learned of Doan's Kidney Pills I obtained a supply at Wright & Son's Drug Store and the contents of a few boxes restored me to good health Since then whenever I have felt in need of a kidney medicine, I have taken this preparation and the results have been very pleasing."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

U. M. M. Wheelihan, 326 Fort St., Port Huron, states: "I have used various medicines for kidney trouble that has bothered me for some years and I can honestly say that Foley Kidney Pills did more for me than any of them. They relieved me greatly and I will always be pleased to recommend them."

For sale by all druggists of Tecumseh.

SAVED BY HIS WIFE

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is one of that kind "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough, when I was so weak my friends all thought I had a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quincy, tonsilitis, hemorrhages. A trial will convince you. 50cts and $1.00. Guaranteed by C. A. Wright & Son.

Chas. C Collison, a liverman living at 930 No. 4th St., Saginaw, states: "I had a severe case of acute kidney trouble with pain across my back and irregular kidney action. I finally took Foley Kidney Pills, and in a few days time the pain left my back, my kidney action became regular and today I am entirely free of all kidney trouble." For Sale by all Druggists of Tecumseh.

WOMAN IDENTIFIES ADAMS

Lulu Wilson Says He Beat Lieutenant Burns In Chicago.

Chicago, Sept. 30.—Double identification of the St Louis prisoner as "Doc" Danzell, charged with the assault on Lieutenant B. J. Burns, convinced the Chicago police that the prisoner must be brought back to Chicago. The St. Louis force shows a preference for shipping Danzell to the Canadian authorities to stand trial for the $272,000 bank robbery at New Westminster.

Danzell, known also as J. W. Stacey, Walter Stacey, Frank West, and J. C. Adams, was spotted without difficulty by Lulu Wilson, former habitue of Sidias' saloon, where Burns received his beating. She is one of the two women in the saloon during the fight.

PLAIN JUSTICE TO THE WOMEN

Demands That They Be Given Right to Vote.

EQUAL SUFFRAGE STANDS TEST

What the Women of Colorado Have Done Since Receiving the Ballot. Many Reforms Promoted and Good Laws Enacted—They Have Never Been Responsible For a Bad Law.

By HARRIET G. R. WRIGHT,
President of Colorado Equal Suffrage Association.

It would take much time to tell all the various new laws in Colorado that women have helped to pass, all the reforms they have initiated and all the abuses they have corrected. I will give a few touching the most important legislation in which they have been interested.

The real reason for demanding suffrage is that it is a matter of plain justice, and I like to see emphasis laid on this argument. As a prominent friend of suffrage said a few days ago, a man of splendid legal ability, "There are no valid arguments against woman suffrage that might not apply against manhood suffrage."

If we believe in self government, the right of people to make their own laws and regulations, then surely women are entitled to participation in all governmental functions.

One of the first laws in the first legislature held after women obtained suffrage was an act making women joint guardians of their own children. An act raising the "age of consent" to eighteen years. An act for establishing a state home for neglected and dependent children. Then an act establishing an industrial school for girls. An indeterminate sentence and parole law. Compulsory education law for children between eight and fourteen years. Prohibiting a woman from working more than eight hours in any store, factory, etc.

Another law introduced at the request of the State Federation of Women's Clubs and unanimously supported by all women was a splendid pure food and drug law. Then the act for establishing juvenile courts, with all its amendments for improving and strengthening the law, has had the enthusiastic support of all the women of the state. This law has been copied in many other states and praised by all who are interested in juvenile work.

JANE ADDAMS.

In a current booklet on "Why Women Should Vote" Jane Addams says: "If woman would fulfill her traditional responsibility to her own children, if she would educate and protect from danger factory children who must find their recreation on the street, if she would bring the cultural forces to bear upon our materialistic civilization and if she would do it all with the dignity and directness fitting one who carries on her immemorial duties, then she must bring herself to the use of the ballot, that latest implement for self government. May we not fairly say that American women need this implement in order to preserve the home?"

Another law that women supported was a schoolteachers' pension act.

There are two other measures that were initiated by women's clubs—the first a primary law and the next an act establishing an initiative and referendum law.

Then there has been nothing that women have worked harder for than a factory inspection law, providing for a woman factory inspector who should inspect all places where women work, to see that all conditions are decent and sanitary, and among the last laws to be obtained was an almost perfect child labor law. We have very little child labor, but we wished to provide against possibilities.

There are many other questions women are interested in, but these stand out large in our minds. As time to enumerate is limited and space also, I have gathered up the most important as they seem to me. There is one thing to our credit—we have never been responsible for a bad law.

To take an equal number of citizens new and unused to public business and let them make such a record is something to their credit. We know the women of Michigan will do as well, and we shall rejoice if they do better.

We are waiting impatiently for the returns from Michigan. Will your men prove as just as the noble men of Colorado?

The Free States.

The commonwealths that adopt woman suffrage are coming to be known as free states, while those that reject it or do not adopt it are classed as white slave states It is sincerely hoped that both Ohio and Michigan, by the just action of their male voters, will be known after the elections as the first fully free states formed out of the territory northwest of the Ohio river, in which negro slavery was prohibited by the famous ordinance of 1787.—Jackson Patriot.

Too Full For Utterance.

"He invented a dandy story to tell his wife when he got home after midnight."

"Good one was it?"

"A peach: it would satisfy any woman."

"Did it satisfy her?"

"It would have, but he couldn't tell it."—Houston Post

Give Them the Ballot.

The social and moral uplift that is so clearly apparent where women are permitted to vote ought to appeal to every man in Michigan and induce him to vote for equal suffrage next fall.—Adrian Daily [illegible]

WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an alterative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

MRS. HESSHIMER.

MRS. LIZZIE M. HESSHIMER, of Lincoln, Neb., 530 "O" St., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured.

"I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial.

Gem Worth Remembering.

With malice toward none; with charity for all; with firmness in the right, as God gives us to see the right, let us strive on to finish the work we are in; to bind up the Nation's wound; to care for him who shall have borne the battle and for his widow and orphan—to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations. —Abraham Lincoln.

SHARE RESPONSIBILITY.

Dr. Vaughan of the U. of M. on the Right of Women to Vote.

Dr. V. C. Vaughan, dean of the department of medicine and surgery at the University of Michigan, is reputed one of the greatest physiological chemists and experimental therapeutists in the world. He is known in all the hospitals of Europe as well as in this country. A large part of his life has been spent at the University of Michigan, where he began as an assistant in 1876.

Dr. Vaughan thus tersely states his reasons why women should be given the ballot:

"I am in favor of woman's suffrage because I am sure that there are many things, such as the employment of women in factories, etc., municipal hygiene, the pure food laws, etc., to which women will give more attention than man has given. These things are of the greatest importance, and the men should have woman's help in solving this problem. There is another reason why I believe in woman's suffrage. I believe that women should bear the responsibility with men. I think that woman herself will be benefited by having the electoral responsibility fall upon her. I am deeply interested in the subject, and I will be glad to do everything I possibly can to aid the cause and secure for woman the right to vote."

LET WOMEN VOTE.

They Will Know How to Use Ballot For Civic Housecleaning.

Men are responsible for the conditions under which the children live, but we hold women responsible for the results of those conditions. If we hold women responsible for the results must we not in simple justice let them have something to say as to what these conditions shall be? There is one simple way of doing this. Give them the same means that men have—let women vote.

Women are by nature and training housekeepers. Let them have a hand in the city's housekeeping, even if they introduce an occasional housecleaning. Let them vote in Michigan.

NEEDS WOMAN'S HELP.

California College President Tells Why He Favors Suffrage.

When the women of California were campaigning for suffrage a year ago they received the following letter from the foremost educator of the state, David Starr Jordan, president of Leland Stanford university:

"I favor the extension of suffrage to women because I believe that we need woman's help in the work of the state. I do not believe that anybody has a right to vote unless such voting is for the advantage of the commonwealth. I believe that we can tell what is right only by finding out what works best in practice. I do not expect any great or instant advantages in votes for women. I see large dangers in the absentee vote, which is likely to be greater with women than with men. To be consulted in public affairs makes voting a duty. I believe that to be thus consulted will lead women to more serious studies of public interests. I believe that this will tend to lift us out of the slough of partisan politics. I believe that in the long run the enlightened interest of women will strengthen the state in its most important lines of work—the securing of justice among men, of education to our children, the sanitation of our homes and the insuring of peace within and without the borders of our nation. Very truly yours,

"DAVID STARR JORDAN."

RESULT OF EQUAL SUFFRAGE.

Colorado Has Sanest, Most Humane, Laws Relating to the Child.

If the man who asks what woman will do with the vote really wants to judge the future by the past he can see that she has helped make the state of Colorado what it is. The interparliamentary union, an organization which meets in various European countries for the study and comparison of legislation in all civilized countries and whose members are famous jurists sent as delegates to these congresses, said, "Colorado has the sanest, the most humane, the most progressive, the most scientific laws relating to the child to be found on any statute books of the world."

So one of the things that woman will do with the vote will be to perfect her old, immemorial work of looking after the children.

Home Treatment.

"Here," began a woman known to the writer in the Canadian Courier—"here's an article in the evening paper on 'Women's Work For the Feeble Minded.'"

Her husband grunted, being in a reactionary mood "I'd like to know," he said, "what women have ever done for the feeble minded."

"They usually marry them, dear," replied his wife sweetly

President Taft In Plea for No Economic Change.

Points to Present Industrial Activity and Asks if People Would Like a Change.

Beverly, Mass., Sept. 30.—Your correspondent asked President Taft for an interview on the present political situation. In reply Mr. Taft said in part:

"A chief issue of the most important kind in this campaign is whether we shall allow prosperity to remain and expand or whether we shall halt it by our political action.

"And prosperity is here. The evidences of industrial activity are abundant. Commerce has grown by leaps and bounds. The great transportation systems of the country are hard pressed to move the myriads of products that enter into interstate commerce. The activities of the financial institutions that furnish the funds for the successful carrying on of the various branches of business have never been so extensive. The American working man and mechanic has never been before so well and steadily employed, nor so well paid.

"Let us cultivate prosperity by maintaining our present economic business basis and by the encouragement of business expansion and progress through legitimate use of capital."

HADLEY ISSUES ULTIMATUM

Tells Only Condition Under Which He Will Support Taft.

St. Louis, Mo., Sept. 30.—Governor H. S. Hadley issued an ultimatum in which he said that the only condition on which he would support President Taft was that the latter declare himself for presidential preference primaries and against boss controlled delegations from southern states to national conventions. The governor said such a pledge was needed to prevent in future conventions the charges of fraud such as existed in the Republican national convention at Chicago.

The ultimatum was issued after an all day wrangle with the Republican state committee, the members of which sought to force him to pledge himself to Taft.

The Secret Out.

"Why are taxes so high this year?" demanded the indignant citizen.

"Will you consider it confidential if I tell you why?" whispered the clerk in the county treasurer's office.

"Yes, sir."

WILSON IN LEAD, SAYS PAPER POLL

New York Herald Straw Vote Puts Roosevelt Second.

TAFT RUNNING A POOR THIRD

President Does Not Lead in Any State, According to Figures—Colonel Draws from All Three Big Parties.

New York, Sept. 30. — The Herald publishes its first installment of its countrywide review of the presidential situation. Its indications are that Wilson is leading Roosevelt, with Taft running a poor third, according to the straw ballots. More than 24,000 test ballots were taken in various parts of the country. Taft does not lead in any state.

Straw Vote by States.

The results in the various states follow:

New York — Taft, 583; Roosevelt, 1,011; Wilson, 1,147.

Connecticut—Taft, 85; Roosevelt, 127; Wilson, 96.

Delaware — Taft, 266; Roosevelt, 381; Wilson, 927.

New Jersey—Taft, 245; Roosevelt, 300; Wilson, 477.

Pennsylvania—Taft, 543; Roosevelt, 575; Wilson, 567.

Maryland—Taft, 48; Roosevelt, 126; Wilson, 193.

Ohio — Taft, 942; Roosevelt, 818; Wilson, 1914.

Indiana—Taft, 891; Roosevelt, 1,711; Wilson, 2,100.

Kentucky—Taft, 773; Roosevelt, 1,452; Wilson, 2,764.

West Virginia — Taft, 232; Roosevelt, 530; Wilson, 775.

Wyoming — Taft, 176; Roosevelt, 118; Wilson, 204.

Draws from Three Parties.

Of the total straw vote taken in the above states the result was as follows: Wilson, 11,164; Roosevelt, 7,147; Taft, 4,784; Debs, 1,800.

The figures show Roosevelt has drawn 4,150 votes from the Republican party, 576 from the Democrats and 20 from Debs.

SPURNED BY HIS WIFE

Rugby Man Drinks Carbolic Acid in Shelbyville.

Angry Husband Throws Money Into Street and Then Commits Suicide.

Shelbyville, Ind., Sept. 30.—Charles Williams, thirty-eight years old, of Rugby, Ind., committed suicide here in a most dramatic manner in front of the home of his brother-in-law, W. C. Rominger. He drank carbolic acid because his wife, who had left him a year ago, refused to see him or hold any conversation with him. Mr. Rominger met him at the walk and told him he should not enter the house, because Mrs. Williams, who is a sister of Mr. Rominger, had requested that he be kept away.

Williams talked in a friendly manner and then asked Mr. Rominger to take some money to Mrs. Williams. At Rominger's refusal Williams dashed the money on the walk, threw a bottle of whisky after it and then swallowed the contents of a bottle of carbolic acid. He lived but a few minutes.

Mrs. Williams is said to have feared her husband, and had refused to talk to him except in the presence of an officer. The couple had lived at Hartsville and also at Hope before their separation and since then Williams had been living with his father, George Williams, at Rugby, and Mrs. Williams had been living with her brother.

She had sued for a divorce and the case was set for hearing in the circuit court at Columbus, Oct. 10. Mrs. Williams is thirty years old. They had no children.

CHARGED WITH BIG THEFT

Rhode Island A. O. U. W. Recorder Is Arrested at Providence.

Providence, R. I., Sept. 30.—Charged with embezzling $36,000 from the grand lodge of the Rhode Island branch of the Ancient Order of United Workmen, J. Irving Davis, grand recorder of the lodge, and well known in fraternal circles throughout New England, was arrested here. While the warrant charged Davis with embezzling $36,000, the police say that the deficiency will amount to more than that.

Delayed payment to beneficiaries led to the discovery of the alleged shortage. Davis was released on bonds. Robert C. [illegible], grand master of the order, stated that it was expected the order would continue business.

NICARAGUAN REVOLT BROUGHT TO A CLOSE

General Mena Surrenders to an American Admiral.

Granada Now Completely Under Control of the United States Forces —Inhabitants Are Facing Starvation.

General Mena, who has been the leader of the Nicaraguan revolutionists, is to be sent to Panama under guard of American sailors and marines.

Minister Weitzel reported to the state department that Rear Admiral Sutherland had accepted the surrender of Mena and 700 followers.

His capture is taken to indicate the collapse of the revolution, and his removal to Panama probably means exile.

Sent Mena to Safety, Is Belief.

Officials here believe General Mena requested that he be permitted to surrender to Admiral Sutherland from fear of summary action at the hands of the Nicaraguan federals, and the admiral doubtless thought it advisable to get the rebel leader out of the country as soon as possible.

Granada now is completely under control of United States forces. Conditions are reported pitiful in the extreme. The inhabitants face famine in consequence of their long isolation. Red Cross provisions have been distributed with the greatest haste.

Irias' Leadership Ignored.

It is not thought that General Zeledon and his force will attempt to hold out now that the head of the revolution has given up.

Little importance is attached here to the announcement by Juan Irias, former follower of Zelaya, of his intention to succeed General Mena.

Irias made known his ambition before leaving San Jose, Costa Rica, several days ago. Nothing since has been heard of his whereabouts.

WILSON ADHERANT WINS

Former Representative Hughes Indorsed in New Jersey.

Returns from the primary elections held throughout New Jersey show that former Representative William Hughes, of Paterson, had received the endorsement of 20,000 majority or the Democratic voters for the nomination for U. S. senator. With a few exceptions the returns seemed to justify the conclusion that Hughes carried the various counties by from two to three times the vote cast for former United States Senator Smith, Jr., his principal Democratic antagonist. Hughes was running as the picked candidate of Gov. Wilson and Smith was allied with the anti-Wilson forces throughout the state.

The vote for the third Democratic candidate, Frank H. McDermitt, of Newark, was a negligible quantity, as his candidacy was never taken seriously.

The Republican preferential vote was cast almost unanimously for United States Senator Frank O. Briggs, the only member of his party to file a petition.

KANSAS FAMILY MURDERED

Robbers Kill Father and Daughter and Fatally Wound Mother.

Near Wellington, Kan., Theodore McKnelly, a car repairer, and his daughter, Gretta, were found dead, and Mrs. McKnelly probably fatally injured in a tent on the outskirts of Wellington, whither they recently had moved for the daughter's health.

All three had been shot and their skulls crushed. Robbery is believed to have been the motive.

REPUBLICANS OF NEW YORK NAME A TICKET

Spirited Convention Contests Over Three Offices.

Senator Elihu Root Places Seal of Approval on What He Says Is a "Healthy and Wholesome Ticket."

The Republican state convention at Saratoga, N. Y., nominated the following candidates for state offices:

For Governor — Job E. Hedges of New York county.

Lieutenant Governor — James W. Wadsworth, Jr., of Livingston.

Secretary of State—Francis M. Hugo of Jefferson.

Comptroller—William D. Cunningham of Ulster.

State Treasurer—William Archer of Westchester.

Attorney General—Meier E. Steinbrink of Kings.

For State Engineer and Surveyor—Frank M. Williams of Orange.

Associate Judge of the Court of Appeals—Frank H. Hiscock of Onondaga, now a supreme court justice for the Fifth judicial district.

Session Eight Hours Long.

The convention was in session eight hours. There were spirited contests over the nominations for governor, comptroller and attorney general. Senator Root before leaving for New York said:

"It is a healthy and wholesome ticket. It is a ticket nominated by the delegates themselves. It would have been a most cruel and wicked thing for any man here to have attempted to frustrate the ambitions of the three candidates for governor who presented themselves to the people. It would have stifled ambition, it would have choked natural aspiration for any Republican here to have attempted to set aside either Mr. Hedges, Mr. Wadsworth or Mr. Bennett. Judge Hedges will make an excellent candidate for governor."

Underground Operations Fail.

Permanent Chairman Brackett had no more got the convention under way in the morning when word came through the delegations that there was a colored gentleman in the woodpile, and, after Hedges and Wadsworth and Bennett had worn themselves out in the ballots, this "behind the door" candidate was to appear. But, as things worked out, it appeared that such negotiations were disappointing.

TROOPS FIRE ON CITIZENS

One Person Is Killed and Others Are Wounded at Augusta, Ga.

At Augusta, Ga., one citizen was killed, another was probably fatally shot, a third seriously injured and a number of persons fired upon by state guardsmen called out to protect the power plant of the local street railway company from possible violence of its striking employes.

The guardsmen were summoned when it was reported the plant was to be dynamited and they hastily established a "dead line."

Alfred Dorn was killed when he and Ben F. Baker attempted to pass the line in a buggy. When challenged, Baker whipped up his horse and the soldiers fired. Dorn was shot to pieces and Baker was hit, but not dangerously wounded.

Robert Christie attempted to drive through the lines in an automobile and it is said did not hear the sentry's challenge. He had gone only a few feet when he was shot through the lungs, and at the hospital it is said he is not expected to live.

$70,000 Loot Taken.

About $70,000 in currency is said to have been stolen from a Louisville and Nashville train Wednesday between Pensacola and Flomaton, Ala. News of the robbery did not become known until now.

FOUR BEATEN TO DEATH

Robbers Burn Illinois Farm House to Conceal Crime.

Hammered to death with clubs and their bodies then burned to obliterate traces of slaughter, was the fate of four persons whose charred remains were found in the ruins of the Pfanschmidt farmhouse near Payson, sixteen miles southeast of Quincy, Ill.

The dead are: C. A. Pfanschmidt, owner of the place; Mrs. Pfanschmidt, Blanche, the fifteen-year-old daughter of the Pfanschmidts, and Miss Emma Kaempen, a school teacher who boarded in the Pfanschmidt home.

Robbery, obviously was the motive for the quadruple murder and incineration, for it was generally understood that Pfanschmidt kept large sums of money in his home.

The sheriff of Adams county, with a posse of deputies led by a pack of keen trailer bloodhounds, is searching the countryside for the murderers.

Hundreds of neighbors of the ill-fated family are also searching, and the cry for summary vengeance as soon as the murderers are captured sounds ominously throughout the Payson neighborhood.

That there is no doubt of murder is evidenced by the fact that, while the bodies of the victims are charred almost beyond recognition, the head of Miss Kaempen is well preserved, and at the top of the skull is a fearful wound, evidently made with a club.

GREAT CROP FOR NORTHWEST

Expert Declares Value of 1912 Products Will Be $721,000,000.

The northwest crop is worth $721,000,000, according to an expert writer's article for an agricultural publication in this city which will appear in a few days.

He declares that the crop exceeds in value that of 1911 by $150,000,000. The states included in the estimate are Minnesota, North Dakota, South Dakota, Wyoming, Idaho, Montana, Oregon and Washington. The value, he says is greatly enhanced by the unusual output of fruits and vegetables.

KAVANAUGH RE-ELECTED

Heads Lakes-to-Gulf Deep Waterway Association.

At Little, Rock, Ark., William K. Kavanaugh, of St. Louis, Mo., was re-elected president of the Lakes-to-the Gulf Deep Waterways association at the annual election of officers. Although Mr. Kavanaugh was prevented by illness from attending the convention, no one else was considered for the presidency.

A board of governors with one member from each state directly interested in the proposed waterway was also elected.

BIG HOTEL COLLAPSES

Many Workmen Buried in the Ruins—Six Bodies Recovered.

At Kansas City, Mo., a number of workmen were buried in the collapse of Walter Davis' new hotel under construction on Tenth street and The Paseo at 4 p. m.

The bodies of W. W. McBride, foreman of brick work, and five others have been recovered. Rescuers believe many plumbers and assistants not seen after the collapse are entombed in the basement.

Between fifty and sixty men were working on the building. How many escaped is not known.

Sold Liquor to Minor; Convicted.

Jackson, Mich., Sept. 30.—William Slattery was found guilty in circuit court of violating the liquor law. It was charged that he sold liquor to a minor, Roland Raymo. A stay of sentence for one week was granted in which to make a motion for a new trial.

MISS JANE ADDAMS

Who Was Refused Use of Hall at the University of Michigan.

© 1912, by American Press Association.

JANE ADDAMS BARRED

Michigan University Refuses Her the Use of a Hall.

Ann Arbor, Mich., Oct. 1.—If Jane Addams of Chicago delivers an address in this city on Oct. 9 she probably will have to speak in the open air, the university officials having refused permission for the use of University hall for her speech. Miss Addam was secured for an address by the Ann Arbor Equal Suffrage club and as University hall is the largest public building in the city the club tried to secure it.

University officials agreed that it might be used if Miss Addams would confine her remarks to a discussion of social questions or any other question not connected with politics. An appeal to Governor Osborn probably will be made for permission to use the state property.

MICHIGAN DEMOCRATS

Complete State Ticket in Harmonious Convention.

Platform Adopted Which Is Characterized As Strongly Progressive —Wilson Indorsed.

Grand Rapids, Mich., Sept. 28.—Harmony marked the Democratic state convention, which adopted a platform characterized as strongly progressive, indorsed the party's candidates for president and vice president and for Michigan's representation in congress, as well as the men selected at the recent primary as nominees for chief state offices.

The delegates defeated an effort to retire a majority of the old members of the state central committee. Nineteen of the twenty-four members were re-elected.

The resolutions include declarations for the direct election of United States senators, the initiative and referendum, the recall for all executive, legislative and administrative public officials, the reduction of state expenditures, "the adoption of real Australian ballot" and the enactment of laws limiting the issues of stocks and bonds of all foreign and public utility corporations to actual investment.

The state ticket was completed as follows:

Secretary of state, J. B. Balch of Kalamazoo; auditor, Peter Primeau of Marquette; treasurer, John H. Rolson of St. Johns; attorney general, Lewis C. Howlett of Howell; commissioner state land office, Orlando F. Barnes of Roscommon; justice of supreme court, long term, George L. Yaple of Mendo; short term, R. E. Person of Lansing.

LAKE STEAMER SINKS

Captain and Sailors Saved After Tossing in Small Boats.

Marquette, Mich., Sept. 30.—Captain Henry Richardson and his crew of sixteen narrowly escaped death when the steamer Culligan sank in Lake Superior twenty miles west of Grand Island.

The sailors were tossed about for several hours in small boats until rescued by the fishing tug Columbia.

MAY REVIVE DEATH PENALTY

Michigan Case Is First of Kind in Four Years.

Detroit, Mich., Sept. 27.—For the first time in many years, Michigan jurors were asked in court here if the possibility of inflicting the death penalty upon the defendant in the case would have any influence on their verdict. The incident occurred at the trial of William Ferguson in federal court, charged with the fatal shooting of Canadian Immigration Inspector Herbert on a ferry boat as it crossed from Detroit to Windsor some weeks ago.

Capital punishment was abolished in this state many years ago, but the death penalty may result from conviction in the United States court. Milton A. McRae, newspaper publisher and former president of the Detroit board of commerce, was among the prospective jurors who declared his inability to condemn a man to death.

DYNAMITE IN MINE STRIKE

Union Officials Declare Explosive Was Planted to Discredit Cause.

Men guarding the Bingham & Garfield railroad, owned by the Utah Copper company, reported the finding of three boxes of dynamite beneath the Freeman canon bridge, a short distance below the Bingham, Utah, depot.

Union officials declare that their men are not responsible and that they have evidence it was put there so it might be found and suspicion cast against the strikers.

Take Hall's Family Pills for constipation.

Every man has a lot of old debts due him that he can't collect, and knows he can't collect, and yet talks about them a great deal.

Antoine Deloala, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."

For sale by all Druggists of Tecumseh.

It is possible to make a great reputation with a little sense; a man with a little sense is really quite a genius.

Philip Desormeau, Prop, the Farmer's Home Hotel, Schaffer, Mich., says: "Last winter I could not sleep nights on account of a bad cough that would start at bed time and keep me awake. I started using Foley's Honey and Tar Compound and was greatly pleased to find that the cough left me, my appetite increased and I slept soundly at night." For sale by all Druggists of Tecumseh.

There are a thousand things the people ought to do, and although they admit it, they will never do them.

FORTUNES IN FACES

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it. Impure blood is back of them all, and shows the need of Dr. King's New Life Pills. They promote health and beauty. Try them, 25 cents at C. A. Wright & Son's.

A man should either be able to keep his temper, or be abe to whip the man he is quarreling with.

A LOG ON THE TRACK

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing indigestion. Michael Hessheimer of Lincoln, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents at C. A. Wright & Son's.

SAVES LEG OF BOY

"It seemed that my 14-year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c. at C. A. Wright & Son's.

Some people are so strong on talk that they try to pay their bills with it.

Mrs. Dora Ray, 720 Brord St., St. Joseph, states: I suffered much misery from my kidneys and bladder and all I tried failed to help me. My kidney action was irregular with a burning pain, and I had headaches and dizzy spells, with swollen ankles. I gave Foley Kidney Pills a good trial and improvement followed promptly and in fact, I've felt exceptionally well since taking Foley Kidney Pills."

JOHN BARNEY PASSES AWAY

Well Known Des Moines Traveling Man Dies in New York

John C Barney of 1312 Thirteenth street died at Buffalo, N. Y. Thursday morning at 8 o'clock at the home of his sister, Mrs. M. A. Sickles. He was born in Lockport, N. Y., Nov. 4, 1838.

Mr. Barney was one of the oldest traveling men in the state, and was one of the first members of the Iowa State Traveling Men's association, having join it when it was first organized. The last four years Mr. Barney has been in failing health. The news of his death, however, was a great shock to his friends in the city and state, where he has resided for twenty-five years.

Mr. Barney has been in the carriage business for fifty years, having come here from Peoria, Ill., where he was engaged in the manufacture of carriages. Of late years he has been connected with the Kratzer Carriage company, as superintendent and sales man.

Mr. Barney's death was due to asthma, with which he has been afflicted for many years. He is survived by his wife, two sons, Charles L. and Leslie J. Barney, and one daughter, Miss Lulu Maud Barney, all of this city.

Interment will be at Tecumseh, Mich.

The above was taken from the Des Moins Register and Leader. As Mr. Barney was a former resident of Tecumseh, it will be of interest to his many friends.

FRIENDS PROTEST

We are beginning to feel old in the pastorate at Tecumseh. Since assuming the leadership of this church there have been two pastors at the Presbyterian church, two at the Friends church, two Episcopal rectors and three pastors of the Methodist church.

The little article appearing above was clipped from the Baptist Messenger of which Rev. W. B. Hartzog is editor and we cannot help commenting on it. Dr. Hartzog has so endeared himself to everyone in the community that we know a protest would be made by everyone should be even think of leaving. Four years is not a long time to hold pastorate no matter if the other churches should change once a year.

W. C. T. U. CONVENTION

The County Convention of the W. C. T. U. will be held in the Methodist church, Tuesday and Wednesday, Oct. 8 and 9.

It had been hoped that the full program might be given in this issue, but it has not yet arrived. There will be an address Tuesday evening by Rev. W. B. Hartzog, and Wednesday evening by Rev. McLain of Hudson. Fine music consisting of solos and choruses will be given through the meeting. The State President, Mrs. Caulkins and Miss Leonie T. Field of Ann Arbor, District President will be present.

FREE

This Institute, composed of a group of regularly graduated physicians and surgeons, licensed, legally associated under the laws of the State of Ohio, sends at its own expense these eminent medical specialists in order to introduce the newest methods and discoveries in medicine and surgery such as the system of treatment under X ray, Violet ray, Finsen ray, Hydrotheraphy, Etc., to give to those who call on the above date, consultation, examination, advice and all medicines required to complete a cure, absolutely free. These specialists will diagnose your case and give you the benefit of their skill and medical knowledge free.

There is in this case no experimenting or guess work at your expense. You will be told whether you can be cured or not. If your case is curable they will put you under treatment immediately; if incurable they will give you such advice as may prolong your life. Their treatment always gives quick relief, and ultimately positively cures. Being prepared to cope with each individual case the human system is thoroughly cleansed of the disease in a natural and direct manner, and improvement is noticed at once; even the worst cases are treated without any inconvenience to the patient or the pursuing of his or her daily vocation.

If you are improving under your family physician, do not come and take up their valuable time, as they absolutely refuse to treat any one who is under the care of the local physicans. They wish besides to give each patient plenty of time and their undivided attention, but can not listen to long stories not pertaining to your trouble. They have discarded the old methods and remedies used for ages by the medical world, and which it would be folly to depend upon any longer, for they are not known to cure, as thousands die, depending on them for relief. The following list of diseases only are taken under treatment, to-wit: Diseases of the Nervous System, Heart, Stomach, Lungs, Kidney, Catarrh, (purlent or dry), Consumption, Epliepsy, Deafness Diseases of Women, Tumors, Pseudo Cancers, Piles, of a Chronic Nature only. They treat Deafness by an entirely new method, and hearing in many cases is restored at once. Catarrh in all its varied forms, like other diseases if once taken under treatment, is cured permanently to remain so and to never return. It matters not whom you have seen, or with whom treated, do not fail to call, as a visit will cost you nothing, and may restore you to health, or even save or prolong your life, as thousands of persons will testify by unassailable testimonials in all parts of the country. If you suspect Kidney Trouble, bring a two ounce bottle of your Urine for chemical and microscopical analysis.

REMEMBER:—The free offer is during this visit only, and will not be repeated. Persons commencing treatment upon their future visits will be required to pay, but not one cent will be asked from those commencing treatment during this visit for any medicine necessary to effect a cure, Irrespective of your position in life, or those who come on above date. Whensoever, or by whom wanted, a positive guarantee to cure will be given under their system of treatment. Those having long standing and complicated disease, who have failed to get well and become discouraged, are particularly invited to call.

NOTICE:—Married ladies without their HUSBANDS, and minors without their FATHERS, will positively not be admitted to consultation unless accompanied by one of their local physicians

MERRY-GO-ROUND

The Merry-go-round Club held its opening meeting for the season, Monday evening, at the home of Mesdames ..ger and Adamson the ladies entertaining together. There were 10 tables of cards. Four prizes were given as follows; Mrs. Fay Anderson, Mrs. Paul Bowen and Messrs. R. A. Heesen and Herbert Temple.

A fine picnic supper was served and the evening was voted one of the pleasantest

SURPRISE PARTY.

Monday evening the 'Dignified Dozen in a most undignified manner dropped in on Mrs. J. F. N. Bowen one of their dignified members, just as she was preparing her evening meal, feeling that the supply was hardly adequate for a hungry crowd, they proceeded to empty boxes and baskets and a fine pot-luck supper was soon served. Mrs Bowen expects to spend the winter with her son in Washington Court House Ohio and a number of the other ladies expect to spend the winter in other places, so this was a sort of farewell party.

HUNTERS TAKE NOTICE.

The Hunting and Killing of Fox, Black and Gray Squirrel in this State is prohibited until 1914.

Several reports have come to me of the violation of this law, that the report of firearms had been heard in certain woods. To those who defy the law, I wish to say if they are caught will be dealt with for trespassing and violating the game laws amounting to not less than $50.00 fine and imprisonment under the discretion of the court and no discrimination will be made between friends and relatives. A METROPOLITAN TRIUMPH.

Three pairs of hands gave her a gentle push. Then the blinding glare of the footlights was in her eyes and vaguely she saw the audince' expectant faces white from the same fierce glare, stretching out and up, as it seemed, to infinity. The leading man came toward her with the flippant sally which opened their dialogue.

Mary hung her head. She trembled so that the daisies in her basket shook as she stammered out her response.

"That's the stuff!" muttered the leading man to her under his breath.

After the first glimpse she did not dare look at the house again. She kept her head half-bowed; she fidgeted from one foot to another; her lines came out halting awkward. And the house roared with delight—just as it was meant to roar! They saw merely a perfect rendering of the shy country girl, vivfied by a subtly pervasive temperament, and had no idea that Mary could not have behaved otherwise had her life depended upon it—that she was frightened almost to the fainting point.

And when at last Mary felt that she could "keep it up" no longer, that her knees would give away beneath her, the curtain came mercifull down on the close of the first act. Instantly it was swaying and rippling under the tumult of clapping hands hurled at it by the audience. Floor, balcony and gallery were a unit in that mad acclaim. The applause which had gone before was as nothing in comparison. Up went the curtain again and, as the leading man conducted her down front, Mary for the first time fully realized that she had achieved that elusive thing, a "metropolitan success."—"Mary in Stage Land," in The Ladies' Word for October.

WETS AND DRYS

Already the wets have over 1,700 signatures to their petitions, asking an election in the matter of local option, filed with the county clerk. These petitions will be turned over to the supervisors on Oct. 14th, when that body meets for consideration of county affairs.

The petitions are from Dover, Tecumseh, 3 wards of Adrian, Rome, Cambridge, Palmyra, Blissfield, Ogden Deerfield and Madison.

The Temperance workers are making a determined fight to keep the county dry and will let no opportunity pass to help the good work along.

Fault.

Nothing can work me damage except myself; the harm that I sustain I carry about with me, and never am a real sufferer by my own fault.—St. Bernard.

"THE SHEPHERD OF THE HILLS" A FINE ATTRACTION

The following telegram received by the local management from Mr. Bryce, Mgr. of the Stone Theatre at Flint a fine indorsement for Gaskill & MacVitty's new attraction:

Flint, Mich.
Sept. 24, 1912.

Mgr. Opera House, Tecumseh:

"The Shepherd of the Hills" played here tonight and delighted a capacity house. The cast is an extraordinary good one and you can assure your patrons a dramatic treat and excellent performance. The play is superior to the book.

(Signed) Frank W. Bryce, Mgr.
"Stones Theatre" Flint.

This same cast and production complete that has been playing Battle Creek, Ann Arbor, Jackson, Adrian and towns of the size will be the attraction at the Bradley Opera House next Thursday, Oct. 10. Messrs. Gaskill & MacVitty, the producers, have mounted the play in a sumptous manner, all special scenery and effects being carried by the company. The play is dramatized from Harold Bell Wright's most popular novel.

Stabbed by Umbrella.

Perhaps the strangest weapon ever used for killing was an umbrella. In October, 1908, a man named Ernest Smith was found dead in Chiswick High street, England. He had a punctured wound in the eye which had reached his brain and which the doctors agreed had undoubtedly been caused by the steel ferrule of an umbrella.

1913 MICHIGAN ON EXHIBITION.

We have just closed arrangements with the Michigan Buggy Co. (one of the largest manufacturers in this part of the country) for the sale of their buggies.

This arrangement lets us in on the very lowest prices. We are after volumes of business rather than big profits from few sales, therefore will sell on very close margins.

Have just received five advance jobs on 1913 models, embodying the very latest ideas of construction and painting in the new colors, all being different.

These buggies will be sold, but before they go they will be on display in our new buggy sales room. Come and see the styles and colors for next year.

The first buyers can get the buggy they want at practically next year's terms in order to introduce the line. Be one of the first to have the pleasure of driving a 1913 model these fine fall days. Would suggest you call at once while the assortment is complete.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well Earned Reputation.

For months Herald readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

W. C. Witherell, W. Potawatamie St., Tecumseh, Mich., says: "I have had no reason to change my high opinion of Doan's Kidney Pills which I publicly expressed some years ago and I willingly confirm all I have previously said in their praise

I had acute pains across the small of my back and in my hips and often after stopping, a sharp twinge darted through my loins, obliging me to lie down. I was laid in bed for several days and I believe that my trouble was caused by excessive stooping. When I learned of Doan's Kidney Pills I obtained a supply at Wright & Son's Drug Store and the contents of a few boxes restored me to good health. Since then whenever I have felt in need of a kidney medicine. I have taken this preparation and the results have been very pleasing"

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other

C. M. M. Wheellihan, 326 Fort St., Port Huron, states: "I have used various medicines for kidney trouble that has bothered me for some years and I can honestly say that Foley Kidney Pills did more for me than any of them. They relieved me greatly and I will always be pleased to recommend them."

SAVED BY HIS WIFE

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is one of that kind "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough. when I was so weak my friends all thought I had a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quincy, tonsilitis, hemorrhages. A trial will convince you. 50cts and $1 00. Guaranteed by C. A. Wright & Son.

Chas. C Collison, a liverman living at 930 No. 4th St., Saginaw, states: "I had a severe case of acute kidney trouble with pain across my back and irregular kidney action. I finally took Foley Kidney Pills, and in a few days time the pain left my back, my kidney action became regular and today I am entirely free of all kidney trouble."

STATE OF MICHIGAN, County of Lenawee, ss.

Probate Court for said County.

At a session of the Probate Court for the County of Lenawee, holden at the Probate office in the City of Adrian on the 13th day of September in the year one thousand, nine hundred and twelve.

Present, HARRY L. LARWILL, Judge of Probate

In the matter of the estate of RICHARD E. ANDERSON deceased.

On reading and filing the petition, of Fred B. Wood, administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased, and the expenses of adminstration thus far incurred, have been fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this Court shall seem proper.

It is ordered that Monday, the 14th day of October next at nine o'clock in the forenoon be assigned for the hearing of said petition

And it is further Ordered, That a copy of this order be published in the Tecumseh Herald, a newspaper printed and circulating in said County of Lenawee, for three successive weeks previous to said day of hearing.

KALAMAZOO—At least a score of persons were considerably injured, several fatally, and others sustained severe cuts and bruises; at a recreation park here where the southern Michigan and northern Indiana fair was being held, when the box section of the grand stand gave way, precipitating about 200 to the ground. They fell twenty feet. The collapse occurred during a display of fireworks. Those seriously hurt were on the front tier of seats and fell under the mass of wreckage. The section that fell was about 100 feet long and forty feet wide.

DETROIT—Edward R. Schreiter, the former clerk of the city council, testifying at the hearing of himself and seventeen aldermen, charged with conspiracy to defraud the city, admitted that he was the first to suggest the acceptance of money from the Wabash railroad in return for municipal favors. Also prior to the arrest of the councilmen each had actually received bribe money or had promised to take it. Charges of promising to accept a bribe on which Aldermen Merritt, Zoeller and Skrzycki were arrested, were dismissed.

MICHIGAN STATE NEWS.

GRAND RAPIDS—More than 200 public school teachers in Grand Rapids public schools notified the board of education that unless their salaries were increased this month in accordance with the promises of the board last spring they would seek employment in schools of other cities. While not in the nature of a strike, the instructors say they are making their demand upon the board because of the continued promises of increased salaries from year to year. The teachers' action has placed the school board in a peculiar position. It has not the money to meet the salary increase demand and the estimates placed in the spring budget were cut out by the board of estimates and council.

LANSING—Eat plenty of beans and you will have taken one step toward reducing the cost of living. This is the advice of the state dairy and food commission, which has just issued a bulletin on the cost of living. In beans there is a great amount of the protein necessary in sustaining life, and to depend upon meat for this property would cost 18 cents a day, while beans would cost but five cents. The bulletin also sets forth that if you eat beans you not only get proper nourishment, but you boost along a great industry in Michigan Potatoes are also cheaper than the cereals and contain more carbon hydrates than the cereals and are more easily digested.

JACKSON—A coroner's jury, which has been thoroughly investigating the death of John Eisy, who was shot and killed on Sept. 14 while attempting to purchase military rifles from soldiers on guard at the state prison, returned a verdict that Eisy came to his death by a shot from a weapon in the hands of either Frank L. Blackman or Private Howard Jackson. Blackman was captain of a company of militia on duty at the prison, where rioting occurred among the convicts several weeks ago. A military court investigating the shooting on behalf of the state troops has not yet reported its findings.

DIMONDALE—The heavy, frequent rains which have visited this community for the past couple of weeks have done considerable damage to the beans and the farmers estimate that probably 50 per cent of this year's crop has been destroyed.

Rome's Triumphal Crown.

The triumphal crown of Rome was made of laurel leaves and was given to the general who achieved a great victory over an enemy. He entered the city not by a gate, but over a portion of the wall which was thrown down to afford a passage. At his funeral his laurel crown was placed in his bier and buried with the body.

Power of a Song.

A pleasant incident happened at the Crystal palace in London when Mme Albani was once singing the "French Partridge." As soon as the concert was over one of the audience, a gentleman well known as a good shot and keen sportsman, called upon Mme. Albani and said, "Madam, I am sorry to say that I have shot many a little 'red leg' in my time, but after hearing you sing that song I will never kill another," a delicate compliment to a great singer—and to a song.

ULSTERITES SIGN COVENANT

Great Demonstration In Belfast at an Anti-Home-Rule Meeting.

At Belfast, in Ireland, the singing of the national anthem by an audience of 3,000 persons comprising everybody representative of Belfast's great industrial, mercantile, civil and religious community, brought to a close a great anti-home-rule meeting at Ulster hall amid a fervor which was not equalled even by the anti-home-rule convention of 1892. The Ulsterites then signed the covenant.

The supreme dramatic moment of the memorable gathering was the unfurling and presentation to Sir Edward Carson, the chief propagandist against home rule, of the flag carried by King William at the Battle of the Boyne.

MRS. FRANCES E. BURNS.

Among the various organizations working earnestly in favor of the equal suffrage amendment to the state constitution, to be voted on in November, is the Ladies of the Modern Maccabees, of which Mrs. Frances E. Burns of St. Louis, Mich., is great commander.

As long ago as 1900 this organization adopted resolutions in favor of equal suffrage on these grounds: That the influence of women is appealed to perhaps as never before for the betterment of the world; that good laws and their enforcement are necessary for the "right that needs protection and the wrongs that need rejection;" that the ballot is the direct agency for electing lawmakers and law enforcers.

In a letter to all of the local hives in Michigan urging active co-operation in the present campaign for equal suffrage Mrs. Burns writes:

"We trust that the Ladies of the Modern Maccabees may take a foremost place in bringing to its women this great privilege and protection, for this is what the ballot will prove."

A Title as Long as a Preface.

Many old pamphlets are distinguished by titles as long as prefaces. The author of one, published in 1646, evidently did not share in the modern editor's enthusiasm for short title headings, for this is the name under which his publication was ushered into the world: "Scotlands publick Acknowledgement of Gods Just Judgment upon their Nation for their Frequent Breach of Faith, Leagues, and Solemne Oathes made to their Neighbours of England in former ages, to gratifie their Treacherous Confederates of France."—London Globe

How The Body Kills Germs.

Germs that get into the body are killed in two ways—by the white corpuscles of the blood, and by a *germ-killing substance* that is in the blood. Just what this substance is, we do not know. The blood of a healthy person always has some germ-killing substance in it to ward off the attack of disease. The fountain head of life is the stomach. A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished. To put the body in healthy condition, to feed the system on rich, red blood and throw out the poisons from the body, nothing in the past forty years has excelled Dr. Pierce's Golden Medical Discovery, a pure glyceric extract (without alcohol), of bloodroot, golden seal and Oregon grape root, stone root, mandrake and queen's root with black cherrybark.

"My husband was a sufferer from stomach trouble and impure blood," writes MRS. JAMES H. MARTIN, of Frankfort, Ky. "He had a sore on his face that would form a scab which would dry and drop off in about a month, then another would immediately form. It continued this way for a long time. He tried every remedy that any one would suggest but found no relief. He then tried Dr. Pierce's Golden Medical Discovery which completely cured him. He has stayed cured now for two years, and I recommend this valuable medicine for impurities of the blood."

The laying of the Corner stone for the Chapel at Riverside Cemetery Saturday, was one of the events of the season. Promptly at 3 o'clock the officers of the Grand Lodge of Free Masonry, escorted by Clinton Lodge and visiting members marched to the cemetery and proceeded with the ceremony of laying the Corner stone, which was given by the Maple City Granite Co. of Adrian. After the ceremony which was a great treat for all present and new to many, the Rev. Hewitt in his usual bright way gave a short address on, "Enduring Life," Mrs. Herman Halladay's "History of the Chapel" giving much credit to all interested in the work and the public in general, Mrs. Jane Clark an original poem, given in her usual witty way, music by twelve ladies voices which was especially fine completed the program. After which the audience joined in singing "America," thus completed one of the best days ever held in Clinton. The Chapel is under the supervision of the "Clinton Culture Club" and is to cost $2350 of which $1843.00 is pledged.

ALLEGAN—One of the largest business deals made here in recent years was the organization of the Allegan Milling company, which has filed articles of incorporation with a capital of $75,000. The incorporators are Messrs Fairfield, Kolvoord, Young and Stratton and they will build at once a large elevator.

KALAMAZOO—All of the score of persons injured when the boxes in the grandstand at Recreation park collapsed, will probably live, according to physicians. While some are in a dangerous condition and suffering intense pain, it is not believed their injuries will result in death.

Ypsi Normal Enrollment Big.

Ypsilanti, Mich., Sept. 30.—In spite of the rumors that the attendance at the Michigan State Normal college would fall off on account of the new rules and regulations for students, the enrollment for the first day at 5 p. m. was 671, which is 57 more than for a corresponding period of time last year.

INDICT N. C. DOUGHERTY

Former Head of Peoria Schools Held on Forgery Charge.

Peoria, Ill., Sept. 25.—Fifteen indictments against Newton C. Dougherty, former head of the schools of Peoria, were returned by the grand jury which has been in session three weeks.

The true bills charge forgery.

The embezzlement charge, which it was said the evidence found warranted, has become outlawed. Judge Worthington fixed the bond at $800 for each, or a total of $12,000.

A young woman's dream led to an investigation that resulted in the discovery of a serious flaw in the Dougherty indictments.

Miss Lillian Adams, private secretary to State's Attorney Schools, was the young woman who had the dream. For several days she has been directing a corps of assistants in the compilation of the blank indictments and she dreamed that the indictments were faulty.

She remembers nothing about the dream except that. In the morning when she entered her office in the courthouse, she took up the indictments and began to read them. She soon found the error.

On a great many of the true bills to be voted against the former school man the final charge had been omitted, the words "against the form of law prescribed, etc.," having been overlooked in the great rush of the last week.

She at once informed the state's attorney.

CHICORY COMING TO MILLS

Crops Will Be Much Better Than Was Expected.

Bay City, Mich., Sept. 30.—The first load of chicory was delivered to the E. B. Mueller & Co. plant on Center avenue by Lawrence Rynerzewski of Beaver township. He reported that the crop this year will not equal that of last season, but it is very much better than was expected after the rainy weather of the summer.

It is expected that this plant will start drying about Oct. 15. The farmers will, from now on, haul their crop to the different plants and the season will open about the same in all plants.

WRECK ON GRAND TRUNK

High School Teacher Killed and a Score of Persons Injured.

Detroit, Mich., Sept. 28.—Grand Trunk passenger train No. 16, known as the eastern flyer, which left this city for Toronto, was wrecked near Chatham, Ont. Spreading rails are blamed for the accident. Two coaches telescoped and overturned in a ditch.

Miss Lafferty, a Chatham high school teacher, was killed. A score were injured.

LIFE LOST IN $15,000 FIRE

Livery Stable, Residence and Church Burn at Point Mills.

Calumet, Mich., Sept. 28.—In a fire which destroyed a livery stable, residence and the Catholic church at Point Mills with a loss of $15,000, J. A. Brunnell was burned to death.

It is believed Brunnell was smoking in the barn and started the fire which cost him his life.

PROGRESSIVE CONVENTION

Delegates Meet at Lansing and Complete Ticket.

O'NEIL RENAMED STATE CHAIRMAN

Speaker Baker, of the House, Chosen for One of the Candidates—Roosevelt's Portrait for Party Emblem on the Official Ballot.

Lansing, Oct. —An attendance of 1,050 delegates made up the Progressive state convention held here today. On the floor of the convention sat several women as delegates, and about half the spectators in the galleries were women. The convention was ever ready to respond to demonstrations of enthusiasm, especially when Roosevelt's name was mentioned or reference made to the party's leader.

Charles P. O'Neil of Detroit, chairman of the state central committee, called the convention to order, and made a short speech that evoked repeated outbursts of applause and cheers.

Julius B. Kirby of Saginaw, after being introduced as temporary chairman of the convention, delivered a keynote speech of about 45 minutes' duration that was received with frequent manifestations of approval by cheering and applause.

At the afternoon session the temporary organization was made permanent. Members of the state central committee, selected by the district caucuses, were announced and confirmed.

Charles P. O'Neil was unanimously re-elected chairman of the state central committee.

Presidential electors by districts and at large, as chosen at the Jackson convention, were re-named, with a few changes necessitated by resignations of those who have been nominated as candidates on the ticket.

Hon. Bainbridge Colby of New York was present as the guest of honor, and addressed the convention.

For secretary of state, Howard H. Batdorf of Battle Creek was nominated by acclamation.

For state treasurer, Frank A. Rothlisberger of Hillsdale and Frank C. Holmes of Alpena were named. The vote was taken by districts and resulted, Holmes 760, Rothlisberger 506. Holmes was declared the nominee.

For auditor-general, P. G. Davis of Detroit and Herbert F. Baker of Cheboygan, speaker of the house of representatives, were presented. The demonstration among delegates was so favorable for Baker that the name of Davis was withdrawn and Baker was given the unanimous vote of the convention.

Julius B. Kirby of Saginaw was unanimously nominated for attorney-general.

The state ticket was completed by the following nominations:

For land commissioner, O. V. Linden of Escanaba.

For supreme court justice, long term, Edwin H. Lyons, of St. Johns.

For supreme court justice, short term, Willard J. Turney of Muskegon.

The platform adopted was along the usual line of Progressive party principles. It provided for a legislative committee of one from each congressional district and three at large which was selected, to work at Lansing during sessions of the legislature for the enactment of laws in accord with the platform.

The state central committee decided to put a vignette portrait of Col. Roosevelt on the official ballot as the party emblem.

DECLARES KILLING OF EISY JUSTIFIABLE

Military Court Holds Militiamen Not Responsible.

No Legal Penalty for Slaying of Jackson Syrian—Soldiers Only Obeying Orders.

Lansing, Mich., Sept. 30.—"The court finds as a matter of law that Captain Frank L. Blackman, Lieutenant B. F. Smith, Privates Howard Jackson and Clare McArdle, are not legally responsible for the death of John Eisy and that their action in the matter of his death was due to their obedience to the order to aid in maintaining order and protecting property at the prison; in other words, that the homicide was justifiable."

This is the opinion of the court of inquiry which investigated the shooting of John Eisy at Jackson two weeks ago by Captain Frank L. Blackman and Private Howard Jackson of the M. N. G.

The report is a voluminous one, including all the testimony taken.

CHEBOYGAN—Very unusual hard luck pursues the family of Captain M. Tellefson of this city. Last Saturday his youngest son, Teddy, fell from a tree and his arm was broken. Later his son Edward, sixteen years old, went hunting. While resting he left his gun leaning against a fence. In some way the rifle fell and was discharged, the bullet passing through the boy's left arm.

ANN ARBOR — While he was attempting to stop a runaway team of horses, August Rhode, a rural mail carrier, was thrown under the animals' feet and seriously injured. His head and legs were badly cut, and one rib was broken. His wife is also suffering from three broken ribs, fractures received several days ago.

MANISTEE — One of the most epoch making events of recent years in Manistee took place when the electric current from the new power dam on the Little Manistee river was connected with the street car service. It is also expected the electric lighting system will soon be connected with the new power.

TERROR AT TAMPA, FLA.

Assassin Slays Eight Persons and Taunts Police.

Twenty-One Fires Occur in Three Days After Man Threatens to Burn the City.

Tampa, Fla., Oct. 7.—Eight assassinations in the last two weeks and twenty-one fires in three days, interspersed with receipts of threatening letters, has thrown the population of this city into a high state of excitement.

The series of crimes was marked by the killing of Estados Candos, who was shot as he sat in front of his store. The police not only are baffled in their attempt to capture the criminal, but are taunted by letters apparently in the same writing, in which the writer boasts of having committed the crimes.

The police say the handwriting is the same as that in a letter in which the writer threatened to burn the town recently. Within three days after its receipt there were twenty-one fires here.

Viola Danford, who was shot while seated in her home, has died. The other victims were Mrs. Juan Roderguez and five negro women. The police believe the crimes have been committed by a demented negro, but are absolutely without a clew.

RALPH DE PALMA INJURED

Caleb Bragg Wins Grand Prix Race Over Wauwatosa Course.

Milwaukee, Wis., Oct. 7.—Ralph De Palma, in a desperate effort to win the Grand Prix race, was perhaps fatally injured when the Mercedes car he was driving crashed into Caleb Bragg's machine, traveling 100 miles an hour, and overturned. Tom Alley, De Palma's mechanic, escaped with minor injuries.

Bragg's car leaped from the tangle and carried its driver to victory. Bragg's victory without De Palma's competition was decisive. His time for the 410 miles was 5:59:25; an average of 69.3 miles per hour.

Erwin Bergdoll, the Philadelphia millionaire, was second, 31.9 seconds ahead of Albert Anderson in the Stutz, the only American car to complete the race. Bergdoll's time was 6:14:53; Anderson's 6:15:22.

WILSON IN LEAD BY STRAW VOTE

New York Herald Canvass Reveals Unchanged Condition.

ROOSEVELT IN SECOND PLACE

President Taft Running Third in Almost Every State—Month of Campaign Left May Work Many Changes.

New York, Oct. 7. — With election day four weeks away, the results of the national political poll made by the Herald show that the candidates are maintaining the same relative strength they displayed a week ago—Wilson leading, Roosevelt second, Taft in the rear.

The final month of the campaign stretches before them, a period strewn with hazards and pitfalls in every closely fought election—the fight might be won and lost a dozen times over in the thirty days between Oct. 7 and Nov. 5.

Figures in Middle West.

Following are the figures in several western states:

Illinois—Taft, 884; Roosevelt, 2,176; Wilson, 1,329.

Minnesota—Taft, 263; Roosevelt, 392; Wilson, 678.

Wisconsin — Taft, 86; Roosevelt, 118; Wilson, 175.

Iowa—Taft, 102; Roosevelt, 138; Wilson, 186.

Michigan — Taft, 119; Roosevelt, 157; Wilson, 151.

Reports from the polls in various other scattered states follow:

Missouri—Taft, 668; Roosevelt, 1,369; Wilson, 2,591.

Nebraska—Taft, 1,181; Roosevelt, 1,779; Wilson, 2,150.

Oklahoma—Taft, 286; Roosevelt, 1,675; Wilson, 1,018.

Kansas—Taft, 1,158; Roosevelt, 1,324; Wilson, 2,544.

California—Taft, 6,122; Roosevelt, 9,094; Wilson, 11,433.

Arizona—Taft, 1,892; Roosevelt, 2,063; Wilson, 3,304.

Wilson Ahead in the East.

The group of eastern states centering about New York shows, according to the poll, that Wilson is ahead, with Roosevelt second, and Taft lagging as third.

New York — Taft, 643; Roosevelt, 709; Wilson, 838.

Connecticut—Taft, 34; Roosevelt, 71; Wilson, 101.

New Jersey—Taft, 60; Roosevelt, 101; Wilson, 306.

Pennsylvania—Taft, 403; Roosevelt, 320; Wilson, 452.

Maryland — Taft, 317; Roosevelt, 640; Wilson, 727.

Kentucky—Taft, 1,136; Roosevelt, 2,030; Wilson, 3,394.

NINE KILLED AS AUTOS COLLIDE

Wild Car Dashes Into Two Others in Philadelphia.

OVER EMBANKMENT WITH SIX

All Perish and Three in Second Machine Are Crushed Under Wreckage—Carelessness of One of Dead Man.

Philadelphia, Oct. 7.—Nine persons are dead as a result of a collision between three automobiles on the edge of Fairmount Park. One of the cars running at high speed, struck another, which was hurled against a third. The "wild" car, containing six men crashed through a railing on a bridge and fell forty feet, killing all of the occupants. Three men in the second car also met death. The dead, all residents of Philadelphia, are:

Robert A. Boyd, Edward Shaw, Jr., Daniel Wilkes, William H. Lawrence, Gordon H. Miller, Leon Navin, Jess Holmes, Robert Glefel, Ernest Shofield.

Park Driveways Crowded.

The accident took place at Thirty-Third and Thompson streets, just outside of Fairmount Park. The park, one of the largest in the country, is noted for its beautiful drives and all day and night strings of motor cars are passing along some of the roadways.

Charles J. Spade, who escaped uninjured from the crash except for slight cuts and bruises, said that his car had just come out of the park and was crossing Thompson street at Thirty-Third when another car, seemingly running wild, came flying up out of the darkness and crashed into his car before he could avoid it.

Then the wild car, which it was later learned belonged to Edward Shaw of 1310 Morris street, swung around by the force of the impact, plunged across the sidewalk through a guard rail on the edge of the street to the Pennsylvania railroad tracks, forty feet below. Two of the men in the Spade car were killed instantly and another was so badly injured that he died in a short time.

Third Car Speeds Away.

When the Shaw car struck Spade's machine the latter was hurled backward and into the third automobile, which was passing in Thompson street. This car seems to have escaped injury, for it made off in the darkness.

The crash of the three automobiles, the splintering of wood as the Shaw car plunged through the guard rail to the tracks, and the cries of the occupants of the cars aroused residents for blocks around.

Other cars that came out of the park stopped at once. Three of the men were picked up and put into one of these cars, which was started at full speed to the German hospital, more than a mile away.

A track walker on the Pennsylvania railroad below, who had discovered the wreck of the Shaw car on the rails and who heard the excited cries of the persons in the street, made his way up and led the police down to the railroad. There they found the other automobile completely wrecked with the six dead, the bodies caught in the wreckage or lying within a few feet of it.

SANDY JURY GIVES VERDICT

Putnam County Man Charged with Intend to Kill Fined $5.

Danville, Ind., Oct. 7. — A circuit court jury brought in a verdict of assault and battery and assessed a fine of $5 and costs against Everett Sandy of Broad Park, Putnam county, against whom a bill was returned by the grand jury charging him with assault with intent to kill Harvey McAuvinch in his store at Coatesville more than a year ago, when it is said Sandy stabbed McAuvinch in the back and neck, causing partial paralysis.

Sandy pleaded self-defense and showed that McAuvinch attempted to hit him with a pair of ice hooks. In the civil suit against Sandy, a Putnam county jury recently awarded McAuvinch $8,500 damages.

Rockford, Ill., Oct. 7. — A woman who registered as "J. M. Bowtor" was found unconscious in a room in a local hotel with a bullet wound in her side. She was removed to a hospital, where it is said she will recover. At the hotel it is thought she came from Moline.

GREEKS READY TO GO TO WAR

Four Ships Will Carry Them from New York.

6,400 FIGHTING MEN TO SAIL

Ottoman Ambassador to the United States Gives a Statement Summarizing the Turkish View of the Trouble.

New York, Oct. 7.—The four steamers of the National Steam Navigation company of Greece have been chartered by the Greek government to transport from this city about 6,400 American Greeks, volunteers and reservists of the Greek army, to fight the Turks.

The first of these steamers, the Macedonia, heavily laden with ammunition and stores, is anchored off the Brooklyn water front ready to sail at a moment's notice. It carries 1,600 fighting men as passengers.

The three other ships will sail Oct. 17, Oct. 28 and Nov. 10, each carrying about the same number of men.

Ottoman Ambassador Gives View

The Ottoman ambassador to the United States, Youssouf Zia Pasha, who is at present in New York city, summarized the Ottoman view of the Balkan situation in a statement published here. The statement says in part:

"The pretext for attacking Turkey in the case of Bulgaria, Servia and Greece is their dissatisfaction with the treatment of Macedonia. The recent disturbances arose from the desire of the new government after the establishment of the constitution and of parliamentary government to decentralize the administration in some degree.

"There was no idea of erecting the province into anything like states, but it seemed desirable that many local affairs should be settled by the local authorities. That measure of self-government has proved satisfactory in many parts of the empire.

YOUSSOUF ZIA PASHA.

Population Mixed.

"In Macedonia, however, the population is inextricably mixed, Serbs, Bulgars, Greeks, Turks are neighbors and often hostile to each other. Instead of combination to develop their local administration into a form of self government as Ottoman subjects each nationality began to conspire for 'autonomy,' each hoping to get the better of the others if the revolt was successful, and each encouraged by the independent state of its own nationality, which hopes to annex the whole country to its territory."

POLITICIAN KILLS HIMSELF

Thos. J. Ryan, Pennsylvania Democratic Leader, Is a Suicide.

Philadelphia, Oct. 7. — Thomas J. Ryan, Democratic leader of Pennsylvania, member of the Ryan-Guffey-Donnelly triumvirate that for so long controlled the organization of that party in this state, ended his life in his office in the Land Title and Trust Building by shooting himself with a revolver.

Ryan was hopelessly involved financially and from a man of great wealth it is understood that he has through unfortunate investments become practically penniless.

20 HURT IN CAR CRASH

Broken Glass Amputates Legs and Hands of Passenger.

Kansas City, Mo., Oct. 7. — Twenty persons were injured when two street cars crashed together on the L road at the James street staion here. The trolley of one came off the wire and while the car was dark and the conductor on top of the coach a second car, coming at full speed, ran into it.

Both cars were wrecked, but neither left the structure. Many suffered broken arms, and the legs and both hands of one passenger were cut off by glass.

CHICAGO COAL YARD BURNS

Fifteen Thousand Spectators Make Fire Fighting Difficult.

Chicago, Oct. 7.—Fire swept through the four-acre coal yard of the Philadelphia-Reading Coal and Iron company at Grand Crossing, causing an uninsured property loss of more than $100,000 and probably causing the death of an employe. The man tried frantically to save the life of a horse imprisoned in the burning stables of the company and was himself the subject of a thrilling rescue.

Fifteen thousand spectators, against whom the police struggled ineffectually, swarmed about the scene, making doubly difficult and doubly hazardous the work of the firemen.

HOW'S THIS

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

NATIONAL BANK OF COMMERCE
Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Every man has a lot of old debts due him that he can't collect, and knows he can't collect, and yet talks about them a great deal.

Antoine Deloais, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."

For sale by all Druggists of Tecumseh.

It is possible to make a great reputation with a little sense; a man with a little sense is really quite a genius.

Philip Desormeau, Prop, the Farmer's Home Hotel. Schaffer, Mich., says: "Last winter I could not sleep nights on account of a bad cough that would start at bed time and keep me awake. I started using Foley's Honey and Tar Compound and was greatly pleased to find that the cough left me, my appetite increased and I slept soundly at night." For sale by all Druggists of Tecumseh.

There are a thousand things the people ought to do, and although they admit it, they will never do them.

FORTUNES IN FACES

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it. Impure blood is back of them all, and shows the need of *Dr. King's New Life Pills*. They promote health and beauty. Try them, 25 cents at C. A. Wright & Son's.

A man should either be able to keep his temper, or be abe to whip the man he is quarreling with.

A LOG ON THE TRACK

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing indigestion. Michael Hesshelmer of Lincoln, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents at C. A. Wright & Son's.

Those riding in automobiles are not as happy and comfortable as those on foot think they are.

R. J. Gunberg, Merchant of Copper City, Mich., says; "For a good many years we have used Foley's Honey and Tar Compound in our family. It will quickly cure a cough or cold and we consider it a safe and sure cure." For sale by all Druggist of Tecumseh.

Laugh when a friend tells a joke; it is one of the numerous taxes you must pay.

SAVES LEG OF BOY

"It seemed that my 14-year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c. at C. A. Wright & Son's.

Some people are so strong on talk that they try to pay their bills with it.

Mrs. Dora Ray, 720 Brord St., St. Joseph, states: I suffered much misery from my kidneys and bladder and all I tried failed to help me. My kidney action was irregular with a burning pain, and I had headaches and dizzy spells, with swollen ankles. I gave Foley Kidney Pills a good trial and improvement followed promptly and in fact, I've felt exceptionally well since taking Foley Kidney Pills." For Sale by all Druggists of Tecumseh.

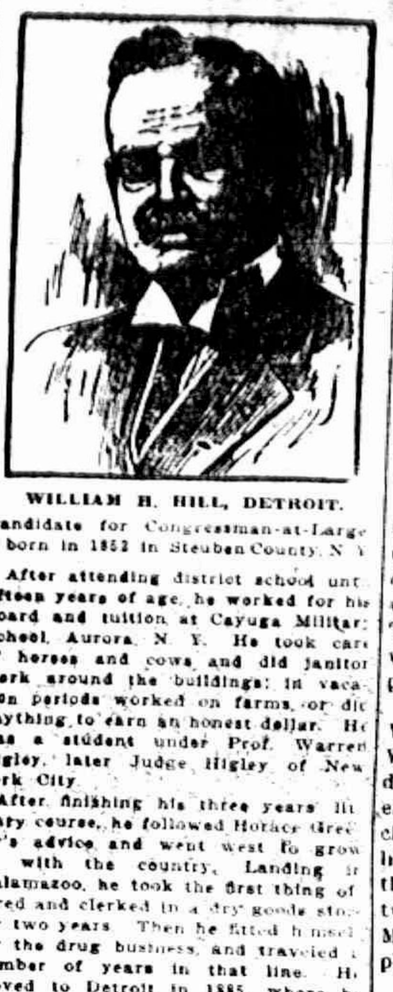
O'Brien's boy Danny lost two baseball bats. O'Brien in a day or two supplied the youngster with a third, but accompanied the presentation with this warning: "Now see here, Danny, if yez lose this wan loike yez did the others, O'll take it an' break it over yer head, so O'i will."—Boston Transcript.



WILLIAM H. HILL, DETROIT.

Candidate for Congressman-at-Large born in 1852 in Steuben County, N. Y.

After attending district school until fifteen years of age, he worked for his board and tuition at Cayuga Military School, Aurora, N. Y. He took care of horses and cows and did janitor work around the buildings; in vacation periods worked on farms, or did anything to earn an honest dollar. He was a student under Prof. Warren Higley, later Judge Higley of New York City.

After finishing his three years' literary course, he followed Horace Greeley's advice and went west to grow up with the country. Landing in Kalamazoo, he took the first thing offered and clerked in a dry goods store for two years. Then he fitted himself for the drug business, and traveled a number of years in that line. He moved to Detroit in 1885, where he has been manufacturing drug specialties and metallic furniture with marked success.

Mr. Hill has been a life-long Republican, and has always been known as a Progressive. He was a staunch supporter of the late Mayor Pingree at the time he made his fight for the Municipal Lighting System, which was successful. He was also a strong supporter of the Pingree plan for municipal ownership of street railways at the time he tried to take over the street car facilities for the benefit of the people, and still advocates public ownership.

Mr. Hill has always felt there should be some law whereby combinations of capital and great corporations can be controlled, and believes that an industrial commission should be appointed with full power to control all corporations engaged in interstate commerce, on a plan similar to that which now controls the national banks and thereby give the small business men the same opportunity, under the laws, as the corporations.

ECONOMY IN LITTLE THINGS

May Seem Small, but in Course of Year, They Will Amount to Considerable Sum.

"During the time of high prices, there are many little economies that may be practiced to advantage if one will only read and heed," says a wise housekeeper. "It has been several years since I have had to break extra eggs for coffee. It is the thin membrane lining that clears the coffee. I skin these out of the shells whenever I break an egg for cooking or baking, and keep them in a small cup for use each day.

"All fryings, including bacon (not mutton), may be nicely cleared and sweetened by stirring in a heaping teaspoon of powdered borax to each pint of melted fat. Strain into small jar and cool. Good for use in cookies, ginger or molasses cakes, and corn bread.

"Corn starch is a good substitute for eggs—one tablespoon equals one egg. Use less in this proportion for custards, cookies and doughnuts.

"Always order the feet of fowl sent from the market when buying. Skin and cut off toes and stew with the chicken to enrich the liquor, as two will jelly over a quart of broth; or stew them in split peas or other vegetables for a cream soup. Remove as soon as the good is boiled out of them. Too few use the coarse stalks of celery and many learn to enjoy it cooked. Dress, cut in cubes, cook in salted water and it is ready to cream or escallop. Cooked celery is more digestible."

HAVE LUNCHEONS ON LAWN

Idea Will Delight the Little Ones, and Is Also Pleasant for the Grownups.

An easy way of making the little daughter's summer pleasant is to allow her to give a series of informal lawn luncheons. The first requisite is one of the big umbrellas or canopies of umbrella shape which are mounted upon substantial wooden handles and are usually to be found serving as permanent sun-shelters at seaside resorts. A discarded dining table, freshly painted and shortened as to its legs, will answer as a standard for the big umbrella-canopy and about this should be set from six to eight of the folding chairs which are used chiefly in mountain camps and are the cheapest and most easily carried of all seats. Then buy for the little daughter a set of enameled tin plates, cups and saucers, a dozen "near" silver forks, spoons and knives, a white oilcloth spread and a hundred paper napkins and she will be a perfectly contented hostess, presiding over guests delighted with the novel environment of the entertainment.

Plum Salad.

Into a glass salad bowl put one-half pint each of green gages, stoned and cut in half, bananas, peeled and cut in slices, and any other fresh fruit that is at hand. Sprinkle well with powdered sugar; cover and let stand one hour, then add one wineglass of syrup of preserved cherries, one of lemon juice and the green gage kernels, blanched and cut in half. Cover again and let stand until required. Serve with whipped cream and lady fingers. The cream and lady fingers should not be put on the salad but should be served separately.

Cleaning Silver Forks.

Silver forks that have been used for fish are apt to retain a fishy taste, especially if they have been used in eating kippered herrings or soused mackerels. This fishy taste can be removed readily by washing the forks in cold water before washing them in the dishpan with the other dishes in hot soap water. Cold water, used first, will completely take away the objectionable taste.

Mixed Vegetables.

Boil one-third carrots chopped fine with two-thirds peas, a small piece of butter, salt and pepper to taste. Can be served on lettuce leaves.

AMUSEMENTS

"THE SHEPHERD OF THE HILLS"

Harold Bell Wright, the author of "THE SHEPERD OF THE HILLS," which comes to the Bradley Opera House on Thursday Oct. 10, is conceded to be the most popular American novelist. No modern author's books have had anything like the sale that has been accorded to Mr. Wright's works.

Nearly every one is familiar with the characters in "THE SHEPERD OF THE HILLS." They are people out of the ordinary run of life, people whose veins run good, rich, red, blood. They do things in a natural, human way; they love and hate with deep passion.

In making a play of his novel, Mr. Wright with the assistance of Elsbury W. Reynolds has retained all the dramatic moments of the story and enlarged upon the character of "Preachin' Bill," making a character of him that will be long remembered by theatre goers. Naturally the love between "Sammy Lane" and "Young Matt" is the pivot upon which the play revolves.

It tells a beautiful story of the Ozark mountains, a story that holds the auditor by its thrills from the beginning to the end. It is unique in character drawing, giving to the stage a somewhat new atmosphere. The beauty of the Ozark mountain region lends itself to some very affective stage pictures, and Gaskill and Mac Vitty, the producers, are said to have given the play an exceptionally beautiful mounting.

A PROGRESSIVE OF THE PROGRESSIVES

The speeches scheduled for Monday morning by the Progressive candidates for Governor and Representative to Congress were duly given, though Mr Probert failed to appear.

C. H. Bramble introduced the speakers in a few well chosen words. T. M Joslin was the first speaker and made some very pertinent remarks. He was followed by Lucius Whitney Watkins candidate for Governor. The one point he made in answer to the accusation that they had stolen their platform was, "We have taken the best from every party platform and from the Bible also, and are determined to make a good fight." He made a good impression on his hearers with his very eloquent address. The speakers left for Ridgeway at the close of the speeches.

ARABIAN JUSTICE

Convicting a Thief by the Ordeal of the Redhot Knife.

The ordeal of the redhot knife is thus described by Abdullah Mansur (G. Wyman Bury) as he saw it in "The Land of Uz." The case was one of theft from a caravan. Two young men were implicated, one a palace slave, the other a young Arab, a native of the oasis. Each accused the other, with many oaths and much mutual vilification. Finally both invoked the ordeal of the knife.

In due course a venerable Arab appeared, bringing the instrument with him. His family for generations had possessed the hereditary right to administer the ordeal. The knife seemed a very ordinary piece of hoop iron, shaped roughly into a sort of blade about eighteen inches long. The name and attributes of Allah were engraved upon it, and it was fitted with a plain wooden haft.

An attendant brought a bowl of water and a brazier of live charcoal, in which the knife was inserted. The Arab youth received the ordeal first. He repeated his assertions of innocence and, rinsing out his mouth with water, put out his tongue, which was seized at the tip by the owner of the knife. The instrument, glowing dull red, was drawn from the brazier, and with it three light blows were struck upon the victim's tongue, which was then inspected. It merely showed slight white marks where the hot iron had fallen.

The slave's turn then came, and whether he flinched at the contact of the hot iron or had failed to keep his tongue sufficiently moist I cannot say, but the heat of the blade picked off a small patch of skin and showed a bleeding surface. According to the rules of the ordeal, that proved his guilt, and he was led away to durance vile.

LUNA'S MIGHTY PEAKS.

Peculiarity of the Ring Mountains of the Moon.

The moon is really and truly a great planet of mountains, its whole visible surface being dotted with elevations of curious shapes and of extraordinary height. We say "its whole visible surface" and hasten to explain that we make this statement simply because the eye of man has never seen but one side of the surface of the moon.

What we see convinces us that the little planet is extremely mountainous, for on the "end" exposed to our view there are no fewer than 33,000 peaks, varying in height from 2,000 feet to four miles. When we consider the fact that this lunarian world is only one thirty-second part as large as the earth we can easily see why it deserves the title of the "planet of great mountains."

There is a peculiar thing about these 30,000 moon peaks. Each and every one of them has a ringlike form, the open end of the conical point being of greater or lesser diameter, according to the height of the mountain. In a low grade telescope these peaks resemble true volcanoes, but when viewed through a high grade glass it is seen that the depression in the center of the queer "ring mountain" is often so great as to be below the general level of the surrounding country.

The depth of these depressions is calculated in a curious manner, by figuring on the relative shadows they cast when the sun is shining full upon them. The diameter of these "ring mountains" varies greatly, some of the larger ones being 50, 100 or even 150 miles, while the smaller look like post holes when viewed through a good telescope.

HAPPENINGS IN OUR NEIGHBORING VILLAGES

One of the most peculiar farms is that located in Seneca and operated by a woman, on a farm of 140 acres, she raises the same crops as any other farmer but in addition, she is cultivating children not feeble minded ones but those who are below the normal, in many cases physically weak and unable to keep up with the stronger ones in school.

Miss Furnam has eight children at present all from well to do homes and well educated families. "The whole farm is a school room," and the children are kept out of doors as much as possible summer and winter. A nurse is kept in the home to assist in the care of the children and "Furmandale" is one of the most wonderful farm in the county.

The report for the first year of the Bixby Hospital in Adrian shows a wonderful amount of work accomplished with the amount of funds on hand. 184 patients have been treated since the hospital was opened to the public. Surgical cases major importance 91, Minor cases 47, Medical cases 38, Moribund cases 9, deaths 18, Births 8. It is estimated that the cost per patient was $3 02 per day.

The increase in the school in Adrian is reported as much above that of last years. A slight increase in salary has been a great factor in promoting a better feeling among the teachers making them more appreciative and contented. The report of the first month has given great satisfaction.

Morenci is on the boom, a new brick business block was begun last week the building is being erected by E. L. Metcalf on Main St. opposite the T & W. station. It is to be a two story strictly modern building.

The basement to be used for the manufacture of ice cream the ground floor an up to date skating rink. The building will be in readiness for occupancy by Dec. 1st.

The Culture Club of Clinton have laid the corner stone of the mortuary Chapel and work is progressing finely. The origin of this project is traced back to Mr. Geo. Kies who has cared for the cemetery for a number of years since the work has been taken up, he has been of great help to the Club in promoting this enterprise.

Leighton Larzelere, who lives five miles west of Clinton, had quite an experience last Friday. He had a hired man, who evidently belonged to the tramp order. Last Friday Mr. and Mrs Larzelere and their tenants went to Hillsdale to attend the Fair, leaving the man in charge. Mr. Larzelere had bargained for the sale of several calves and expected to deliver them Saturday, but the purchaser came Friday and paid the money to the hired man, some $40, he immediately left for parts unknown and Mr. Larzelere and the sheriff have been searching for him, up to last reports nothing had been heard from him.

Clinton is busy just now organizing a band. A meeting of the business men and those interested was held last week and much enthusiasm was shown. An association was formed and officers elected. Business Manager, C. J. Robison: President of Band, Dr Foreman; Secretary and Treasurer, Ed Brazee; Advisory Committee, L. B. Hittle, George Hard and Dr. Foreman.

PRICES HAVE BEEN HIGHER

Those Who Lived in 1865 are Sure of it.

In looking over some old papers lately Mrs. Oscar Palmer came across the following copy of a bill of goods bought in Oct. 1865.

We are all complaining of the high cost of living but with double the wages of 1865 we can only wonder how people managed to live at that time.

THIRTEEN A LUCKY NUMBER FOR THE DETROIT TIMES

The Detroit Times celebrated the beginning of its 13th year on Tuesday October 1st, by exercising the recall on the ancient superstition. Tom May, the famous cartoonist, sets his progressive pen to work for the paper: the postoffice department puts into effect an honest advertising law that vindicates The Times long fight for this principle; and the publisher announces a circulation gain of 1,000 a month since the first of the year. It is as hard to discover any evil omen in all this as it is to find offensive line in the independent Times which is willing the millionaire newspapers of Detroit shall revile and belabor each other while it keeps sweet and prints the news.

The above taken from a late issue of the Detroit Times speaks highly for the standing of the paper.

Dyspepsia is our national ailment. Burdock Blood Bitters is the national cure for it. It strengthens stomach membranes, promotes flow of digestive juices, purifies the blood, builds you up.

Pleased Everybody.

Obituary

LeROY SHERMAN

LeRoy Sherman the youngest son of Mr. and Mrs. John Sherman, passed away Saturday Oct. 5, at 7:30 a. m. of tetanus, in his 22nd year.

Just two weeks before his death he stepped on some rusty nails, and the next day was taken seriously ill. Indication of the terrible disease were discovered, and a desperate fight for life followed. Last Tuesday he was so much better that he rode out, but was taken worse that same day and death came as a relief to his terrible sufferings.

LeRoy has been a resident of Tecumseh for the last four years, and was engaged in the wholesale butcher business. He was a member of the Eagle lodge, under whose auspices the funeral is being conducted this afternoon, from the home of his parents, burial in Brookside cemetery.

While death is the common lot of all, yet when it comes to one just in the flush of young manhood, it seems very sad. The sympathy of the whole community goes out to his family in their hour of sorrow.

MRS. VERNIE KOTTS.

Mrs. Vernie Kotts daughter of Mr. and Mrs. C. W. Olds was born in Macon Mich., May 4, 1888 and departed Sept. 30, 1912 age 24 yrs. 4 mo. 25 days. She was the mother of five children Eva, Adah, Louise, Charles and Lucile besides these she leaves to mourn her great loss, her parents, four sisters and two brothers, Mrs. Ernest Eggert, Miss Susie and Orpha Olds, Orrel Olds of Tecumseh, Mrs. Leo Faulhaber of Jackson and Williamliam Olds of Pekin China who was not able to attend. Funeral was held at the home of her parents Thursday p. m. at 2 o'clock burial at Raisin cemetery.

CARD OF THANKS.

We wish to thank thru the columns of this paper the friends and neighbors for their kindness and sympathy during our great bereavement and also for the floral offering. We wish especially to thank Rev. Crawford for his kind and comforting words and Mrs. Hodges and Mrs. R. Mead for their beautiful singing.

Mr. C. W. Olds and family.

SERIOUS ACCIDENT.

Mr. John Houghtby while at work on a silo in Rochester met with a painful accident, while stretching the wire around the silo it flew back and struck him in the eye taking it out entirely, fears are entertained that he may lose the other eye. Mr. Houghtby was a former resident of Tipton and his many friends will be grieved to hear of this terrible accident.

MUSIC IN THE CHURCHES

At the Presbyterian and Episcopal Churches the new choirs gave their initial Sunday of church music under the leadership of Miss Stella Brush Presbyterian and Mrs. F. B. Wood Episcopal.

Miss Stella Brush has organized a chorus choir of whom ten were present on Sunday. The regular church music was given at the morning service. Miss Brush soloist, rendering "The Heavenly Song.

At Vesper Service the opening chorus was "Fairest Lord Jesus." Mr. F. R. Fenn soloist singing "Face to Face," the second chorus rendered was "Lift up Your Heads."

The music was most enjoyable and much to be commended for the first appearance as a chorus choir.

At the four o'clock service at St. Peters Church, Mrs. F. B. Wood had charge and presided at the Organ. The beautiful musical services of the Episcopal Church was given in a charming manner by a vested choir of fifteen. Miss Houck a sister of Mrs. Charles Bidwell rendered a solo, "But the Lord is mindful of His Own," Miss Houck has an unusual voice and it was a great treat to the people of Tecumseh to hear her.

The music is always so much to the Episcopal Service and under the leadership of Mrs. Wood will gain in prominence.

Lucky 13

F. D. Teachout believes in the luck of 13, as was evidenced by his success at the races in Charlotte last Thursday when he won the 3-13 race. There were 13 horses entered and his horse Michigan King drew the 13th place. At Hillsdale Friday his horse Ruth Strongwold won the free for all race. This week he goes to Angola with his horses for the races there.

A Costly Pair of Shoes

Bert Ward at one time of Tecumseh and in the employ of the American Steel & Wire Co., is wearing a costly pair of shoes. The shoes were bought of F. C. Snell on time as Ward stated he had steady work with the factory. He left for Lansing without paying for the shoes. Snell finding out the deception, reported to the officers, and John Smith brought him back to Tecumseh where he was arranged before Justice Hosmer. Still wearing the shoes, he plead guilty and was fined $10 and costs, amounting in all to $10.25.

Quite a high price for shoes, even at this time.

"IT'S THE BEST POLISH I EVER USED"

That's What Every One Says Who Tries

Black Silk Stove Polish

DON'T imagine for a moment that *all* brands of stove polish are the same. Don't get the idea that to keep a nice glossy shine on your stove you must black it *every few days*. It's not a question of oft-repeated application. It's a question of the stove polish to use.

Black Silk Stove Polish is so much better than other stove polishes that there is absolutely no comparison—*it's in a class all by itself*.

It makes a brilliant glossy shine that don't *rub or dust off*. It *anneals* to the iron—becomes a part of the stove. It makes old stoves *look like new* and lasts *four times as long* as any other shine.

Get a can and give it a trial. Try it on your parlor stove, your cook stove, or your gas range. If you do not find it the *best stove polish* you ever used, your dealer is authorized to *refund your money*. Black Silk Stove Polish has been made by the same formula and sold under one name for 30 years.

Here is what some of the ladies write us:

"I sent to you for a can of Black Silk Stove Polish and found it so much better than any I had ever used that I asked my hardware dealer to order a supply. He did so, and is now selling nearly everyone in the place your polish. I had no idea there *could be such a difference in stove polishes.*"

"I was visiting friends and they used Black Silk Stove Polish on their stoves. It made the best shine I ever saw, and after blacking, the polish did not rub or dust off. It is way ahead of any polish I have ever used."

Ask Your Dealer for Black Silk Stove Polish and refuse a counterfeit brand. Costs you no more than the *ordinary kind*, so why not have the *best*. Made in liquid or paste—one quality.

Black Silk Stove Polish Works, Sterling, Ill.

Use Black Silk Air-Drying Iron Enamel for grates, fenders, registers, stove pipes, etc. Prevents rusting. Not affected by heat or cold. Produces a permanent glossy black surface. Can, with brush for applying enamel, only 25 cents. Ask your dealer.

Use Black Silk Metal Polish for nickel, brass, silverware or tinware. It has no equal for use on automobiles.

Warm Floors and Healthy Children Make Happy Homes

There is no better way for you to avoid worry and expense than by insuring your children's health.

Warm floors in the home, which is the children's play house in winter, are assured when using Cole's Original Hot Blast Heater.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

Cole's Original Hot Blast Heater

The Cleanest—Easiest to Care For

Burns Soft Coal, Lignite, Hard Coal, Crushed Coke, Wood and Cobs.

Users of coal must remember that the ordinary heater is a big care to operate. That its smoke and ashes entail dusting, curtain washing and carpet sweeping. Think then of the ease of operation and the cleanliness of Cole's Hot Blast.

Cole's Hot Blast has a guaranteed smoke-proof feed door—open the feed door and the current of air draws the smoke directly across the top of stove to the stove pipe—away from the opening. Contrast this simple, cleanly feed with the side door in an ordinary heater. The side door used on other stoves permits escape of dirty smoke, unpleasant gas and accumulated soot drops from it. If you overfill a side door stove, coal falls to the floor. And note this, you cannot make a side door heater air-tight—an everlasting advantage in favor of Cole's Hot Blast which is air-tight and guaranteed to remain so always.

No fires to build—the fire is never out in this remarkable heater from fall until taken down in the spring.

Better select one today—surely it is the heater you need—

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well Earned Reputation.

For months Herald readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

W. O. Witherell, W. Potawatamie St., Tecumseh, Mich., says: "I have had no reason to change my high opinion of Doan's Kidney Pills which I publicly expressed some years ago and I willingly confirm all I have previously said in their praise

I had acute pains across the small of my back and in my hips and often after stooping, a sharp twinge darted through my loins, obliging me to lie down. I was laid in bed for several days and I believe that my trouble was caused by excessive stooping. When I learned of Doan's Kidney Pills I obtained a supply at Wright & Son's Drug Store and the contents of a few boxes restored me to good health Since then whenever I have felt in need of a kidney medicine, I have taken this preparation and the results have been very pleasing"

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other

C. M. M. Wheelihan, 326 Fort St., Port Huron, states: "I have used various medicines for kidney trouble that has bothered me for some years and I can honestly say that Foley Kidney Pills did more for me than any of them. They relieved me greatly and I will always be pleased to recommend them."
For sale by all druggists of Tecumseh.

SAVED BY HIS WIFE

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is one of that kind "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough. when I was so weak my friends all thought I had a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quincy, tonsilitis, hemorrhages. A trial will convince you. 50cts and $1 00. Guaranteed by C. A. Wright & Son.

Chas. C Collison, a liverman living at 930 No. 4th St., Saginaw, states: "I had a severe case of acute kidney trouble with pain across my back and irregular kidney action. I finally took Foley Kidney Pills, and in a few days time the pain left my back, my kidney action became regular and today I am entirely free of all kidney trouble."
For Sale by all Druggists of Tecumseh.

STATE OF MICHIGAN, County of Lenawee, ss.
Probate Court for said County.

At a session of the Probate Court for the County of Lenawee, holden at the Probate Office in the City of Adrian on the 18th day of September in the year one thousand, nine hundred and twelve.

Present, HARRY L. LARWILL, Judge of Probate

In the matter of the estate of RICHARD E. ANDERSON deceased.

On reading and filing the petition, of Fred B. Wood, administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased, and the expenses of administration thus far incurred, have been fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this Court shall seem proper.

It is ordered that Monday, the 14th day of October next at nine o'clock in the forenoon be assigned for the hearing of said petition

And it is further Ordered, That a copy of this order be published in the Tecumseh Herald, a newspaper printed and circulating in said County of Lenawee, for three successive weeks previous to said day of hearing.

Some Quaint Hotels.

The hotel that stands out the most prominently in my recollection is one in Iquique, where, even while you are sitting at the dining tables, venders come in from the streets to sell you food. At this same hotel they have two charges for baths—8 shillings if you insist upon clean water and about 4 shillings if you are willing to take a second turn at the tub

Another instance of a quaint hotel is in the town of Africa, in Peru. Here they are using at the present time the hull of an old American man-of-war, which was taken inland by a great tidal wave many years ago and has since been fitted up as a hotel and is in great demand.—London Answers

The Way They Struck.

A company of Italian laborers engaged in the construction of a railway in Germany had their wages reduced. They said nothing, but during the night each of the men cut an inch of the end of his shovel. In reply to the foreman who took them to task about it one of them said, "Not so much pay, not lift so much earth So much longer last work. Italian not fool like German. Italians not strike!"—London Mail.

MEN YELL FOR A ROPE

Crumley Must Answer for Murder of His Wife.

Coroner's Verdict Holds Attica (Ind.) Man for Grand Jury Investigation.

Attica, Ind., Oct. 7.—Excitement ran high in this city following the brutal murder of Mrs. Gilbert Crumley. One of the largest crowds ever gathered here througed the streets anxiously awaiting the action of the coroner's jury, which returned its verdict, holding Crumley for the grand jury on the charge of murder.

Following the verdict, Crumley was taken to the gallery of a local studio and photographed. While the photographer was doing his work a crowd of probably 1,000 gathered at the entrance to the studio and many threats were heard. When the prisoner was taken to the train, to be removed to of "Get a rope!" but the officers soon of "Get a rope-" but the officers soon quieted the crowd and no trouble ensued.

Strong circumstantial evidence was brought out at the coroner's inquest and the grand jury will be called to consider the case early in the week. The trial probably will be held within a few days, as circuit court is now in session.

Crumley told his story well, stoutly denying killing his wife. Throughout the sitting he remained calm and unshaken.

Didn't Forget Eve.

In an equal suffrage parade in England banners were carried bearing portraits of women of accomplishments through the ages. At the very end of the procession (where, of course, the women could not see him) came a lone man with a sense of humor. This individual bore a pike, from which hung a large fig leaf framed and at the top of which was an apple—a modest tribute to Eve, who had been quite overlooked in this brilliant galaxy.

Straw Hats.

The straw hat is a relative newcome. in the world of dress It was not until 1784, according to Les Nouvelles, that it first appeared, and its adoption was originally exclusive to women Men did not make use of it until the Waterloo year, and the foundation of the great Alsatian industry was only in 1854, when the first big factories were erected. Our contemporary adds that it is not generally known that many so called "straw" hats are made entirely of wood. But they are none the less efficient as protectors against the effects of glare and sunshine.

How The Body Kills Germs.

Germs that get into the body are killed in two ways—by the white corpuscles of the blood, and by a *germ-killing substance* that is in the blood. Just what this substance is, we do not know. The blood of a healthy person always has some germ-killing substance in it to ward off the attack of disease. The fountain head of life is the stomach. A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished. To put the body in healthy condition, to feed the system on rich, red blood and throw out the poisons from the body, nothing in the past forty years has excelled Dr. Pierce's Golden Medical Discovery, a pure glyceric extract (without alcohol), of bloodroot, golden seal and Oregon grape root, stone root, mandrake and queen's root with black cherrybark.

J. H. MARTIN, Esq

"My husband was a sufferer from stomach trouble and impure blood," writes MRS. JAMES H. MARTIN, of Frankfort, Ky. "He had a sore on his face that would form a scab which would dry and drop off in about a month, then another would immediately form. It continued this way for a long time. He tried every remedy that any one would suggest but found no relief. He then tried Dr. Pierce's Golden Medical Discovery which completely cured him. He has stayed cured now for two years, and I recommend this valuable medicine for impurities of the blood."

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

Chills and Hot Baths.

Hot water bathing is beneficial in counteracting the effect of a chill. First, it undoes another mischief worked by the chill. The latter has sent too much blood internally, so risking congestion. Heat brings the blood to the surface. Heat is not life, but it is one of the factors of life. Indeed, dissolution always occurs when the internal bodily temperature is greatly lowered. Heat will not keep a body alive and great heat will kill it. In many morbid states of the system, as rheumatism, hot baths are of great service. Warm baths are useless. The heat should be as great as can be borne without pain.

A Problem He Hadn't Solved.

In 1865 there went to Paris a young Belgian named De Groof, who was fully convinced that he had solved the problem of aerial flight. He did not succeed in interesting French experts, but later in England met with some encouragement. Finally, in the presence of a large crowd De Groof made his attempt. His machine was attached to a balloon, and after reaching a height of 4,000 feet he cut himself loose. The machine fell like a stone and crashed down upon the rough pavement of Robert street, Chelsea, with a sickening thud. De Groof was dead.—New York Tribune.

Everlasting Yeast.

A yeast that is always ready, in hot weather or cold, in town or on the farm, may be had if at each baking is saved a small quantity of the bread sponge before any salt has been used. To this must be added about one-half the same amount of sugar for a preservative. I have used the same yeast in this way for two and one-half years now, and it is as good as ever. Freezing does it no harm. No salt should be used. If in warm weather it seems to be without life, try it with a little flour and water, and it will be all right. This makes the finest possible bread.—National Magazine.

Another Way to Put It.

"After all," said the moralist, "the almighty dollar is man's greatest enemy. It"—

"If that's so," interrupted old Rossey, "I guess that young wife of mine merely loves me for the enemies I've made."—Philadelphia Ledger.

THE HISTORY OF ZINC.

Introduced Into Europe From India Under Several Names.

Zinc was introduced into Europe in the seventeenth or eighteenth century by men from India. It was known then as calaem, spiauter or tuttanego and was the same metal which the famous alchemist, Andreas Lebavius, described in 1606 and which he declared consisted of silver, cadmia, mercury and arsenic.

Late in the sixteenth century keen competition was going on between the Portuguese and the Dutch in the Indian seas, and a Portuguese ship having been captured by the Dutch, her cargo of calaem or "Indian tin" found its way into Europe. Nobody at that time knew what it was, and it was a piece of this cargo that became the subject of analysis by Lebavius.

Zinc, it seems, was first produced in India, but soon became an important industry in China. The first Chinese book which mentions zinc, calling it ya-yuen, according to the Engineering and Mining Journal, is the Tienkonggaiou, or Technical Encyclopedia. China was the sole producer of zinc until the middle of the eighteenth century, disregarding a minute quantity of that metal which was occasionally obtained as a byproduct in the lead furnaces of Goslar in the Harz mountains.—New York Post.

AMERICANS KILL 13 NICARAGUANS

U. S. Marines in Second Serious Clash with Rebels.

ATTACK LONG AND HIS PARTY

Lieutenant Is Searching for Bombs Meant to Destroy Railroad, When He Is Surrounded and Fired Upon.

Washington, Oct. 7. — News of another clash between American marines and rebel forces in Nicaragua was received at the state department in a further dispatch from Admiral Southerland. As a result of the fight five Americans were slightly wounded, while thirteen of the rebel force were killed and a large number wounded.

Long's Detachment Surrounded.

The skirmish occurred on the morning of the battle at Barranca though in a different place. Lieutenant Long, commanding the marines from the steamship Denver at Chichigalpa, on the line of the railroad from Corinto to Granada, was endeavoring to secure a number of dynamite bombs which the rebels had prepared, presumably for use against the American forces or the railroad.

Lieutenant Long and his men were surrounded by a mob of rebels, armed with rifles and machetes. The rebels opened fire on the marines and the fire was promptly returned. Thirteen of the rebels were killed instantly and a greater number were wounded. All who were able to ran from the scene. Five American marines were slightly wounded, but it is stated that all of the wounded on the American side will recover. The dynamite bombs were destroyed.

Rebel Losses Are Heavy.

Admiral Southerland further reports that the rebels lost more than forty dead in the assault upon Barranca. Twenty of their number are known to be seriously wounded and fourteen were made prisoners. The total rebel force in the engagement numbered 640. They were dislodged from their position only after the marines and bluejackets had actually reached the top of the hill. They then fled into Masaya, where the government troops of Nicaragua met them and another serious engagement took place. It is stated that the government forces lost 200 dead at Masaya, while the number of rebels killed is thought to be much greater.

$200,000 PACKAGE GONE

Registered Parcel from Havana Disappears on Way to New York.

New York, Oct. 7. — Postoffice inspectors of two countries, secret service men and the W. J. Burns detective agency are investigating the mysterious disappearance of a registered mail package containing $200,000, consigned from Havana to the National Park bank of this city.

The loss was discovered last Wednesday or Thursday when the registered mail pouch from Havana was opened in the New York postoffice. When and where the package disappeared, whether in Havana, aboard the ship or train which brought it, or thereafter, no one has been able to discover.

JAPANESE AVIATOR KILLED

Falls to Death When Aeroplane Collides with Windmill.

Corning, N. Y., Oct. 7.—M. Kondo, a Japanese, was thrown to his death from a plunging aeroplane held fast by the fans of a windmill at Savona.

The aviator had made a desperate effort to avoid a collision with the mill, but had been caught almost when his efforts seemed crowned with success, and he was thrown out before he had time to stop his motor and prevent the plunging of the machine which if checked might have saved his life.

TEAM HIT ON RAIL CROSSING

Farm Hand Slightly Hurt—Both Horses Killed Near Princeton.

Princeton, Ind., Oct. 7.—Frank Deering, a farm hand, was injured and a team of horses he was driving were killed when the rig was struck at the King's Station crossing, three miles south of here, by a south-bound C. & E. I. passenger train.

One of the horses was carried for a quarter of a mile on the pilot of the engine before the train could be brought to a stop. Deering sustained severe bruises, but will recover.

OFFER AID TO FARMERS

Fargo Business Men Willing to Spare Portions of Their Forces.

Fargo, N. D., Oct. 7.—At a meeting of business men, many employers said they could spare from one to half a dozen men and run on a short force for two or three weeks to help the farmers complete their thrashing.

Some Minnesota and South Dakota men are arriving in the state and are planning to help the local farmers.

THE CANDLE BUOY

A Friend of the Mississippi Pilots in the Old Days.

QUEER LITTLE LIGHTSHIPS.

They Were Floated and Anchored In the Channel of the River on Dark Nights and Showed the Navigator on Down Trips Where Reefs Were Not.

In the old steamboat days on the Mississippi, before the government had undertaken the duty of marking and lighting the "crossings" where the channel swings over from one bank to the other, the river pilots had to devise their own means of finding their way through these difficult and dangerous places.

In the daytime it was not hard to do, and on moonlight nights the landmarks, which every pilot knew by heart, could be seen plainly enough to make the crossing possible. But there were many nights so dark or foggy that the shore marks were not visible; then the reefs had to be "candled."

Candling was resorted to only on the down trip. Going up the river the pilot might "feel" of the reef with his boat, and if he did not find the best water the first time he could back off and try again a little to one side or the other, wherever the soundings showed the deepest water to be.

In going down the river, however, that was impossible. The pilot had to find the channel the first time, for if the boat struck the current would drive her hard on the reef or else swing her broadside on the bar and in ten minutes imbed her in the very midst of it with tons of drifting sand.

To guard against such a disaster when nearing Pig's Eye, Beef Slough or Trempeleau bars—or any one of a dozen bars of equal difficulty—on a dark or hazy night the pilot stopped the boat at the head of the reef. With two men to row, a mate or watchman to steer, a "cub" pilot to manipulate the "candle buoys" and an older pilot to take soundings, the yawl was lowered and permitted to drop down the channel below the steamboat.

After the pilot had determined the best course by taking soundings the "cub," under his direction, anchored two, three or even four of the candle buoys, one after the other, in the center of the channel, and then the men let the yawl drop down below the reef, where it lay a little outside the channel. Then one of the men swung a lantern—a signal at which the pilot on watch came ahead, steering for the tiny lighthouses and running over them, one by one, until the reef was passed.

The candle buoy was made of a piece of two inch light pine plank, beveled for four inches at the "bow" in order to prevent its "diving" as the current pressed against it. A tin "sconce" with three legs, three or four inches long, was tacked down to the plank. Half of a common candle was placed in each sconce, and after being lighted an oiled paper chimney, with a base corresponding to that of the candlestick, was placed over the light to protect it from the wind. The outer ends of the tin "legs" of the sconce were turned back over the base of the paper chimney to hold it in place, and the buoy was ready for launching.

A hole was bored about six inches from the end of the plank. Through the hole a small cord some ten or twelve feet in length was rove and knotted, and to this cord a lump of coal weighing perhaps ten pounds was tied. This served as an anchor to hold the buoy in its place in the center of the channel.

Such was the procedure fifty years ago or more. Since the government boats began patrolling the river and establishing permanent lights at all bad crossings it is seldom necessary for the pilots to go out in a sounding boat, although it is not an unheard of proceeding even now.

But the candle buoy is a thing of the past. Probably there are scores of present day pilots who never even heard of the makeshift little lightships that their puzzled predecessors were wont to launch amid the darkness and doubt of former years.—Youth's Companion.

Emergency Gas Pliers.

If at any time you need a pair of gas pliers, perhaps to take off a gas tip that is not working well, and you have none at hand you can always make a pair that will do the work for the moment, although they might not be just the thing for a gas fitter. Take a large pair of scissors, and you will find that where the handles join the blades they usually open out into a sort of oval. By putting a piece of sandpaper or anything rough round the base of the gas burner you can place this open part of the handle of the scissors round it and then press the blades of the scissors together so as to get leverage enough to twist the burner loose. There are many little light jobs that can be done with a pair of pliers made out of a pair of scissors if you are careful to have something between the handle and the object so as to prevent the scissors from slipping off.—New York Sun.

The Baby and the Junk Scales.

When a son was born to the head of a certain family in an Ohio town the proud father rushed out of the house to borrow a pair of scales. Just as he dashed out of the gateway he ran into a junk dealer, who was calling out at the top of his lungs:

"Any rags, any bottles, any"—

"Look here!" exclaimed the excited parent. "Come into the house! I want you to weigh something for me."

The man did as requested. The pink mite was tied up in a towel and hooked on to the scales.

"Six pounds!" cried the nurse.

"Six pounds!" repeated the disappointed father.

The junkman smiled. "Don't let that worry you, my friend," said he. "Them is the scales I buys by. I guess the kid weighs ten pounds, maybe a little over that."—Detroit Free Press.

His Plea.

"'Bleeged to yo', sah," said a disgruntled looking negro who had edged his way into the office of a prominent Arkansas attorney, "and I wants to git a divo'ce fum muh wife on de grounds dat she has done been th'owin' things at me fo' de last seven yeahs."

"Ah! And have any of the missiles seriously injured you?"

"Sah? No, sah! She didn't th'ow none o' dem sawt-uh ar-tickles at me; she dess flung dishes, and stove han'les, and skillets, and a 'casional cat or dog, or suppin' dat-uh-way. And dey didn't none of 'em hit me—dat is, twell yit. But wid all dis yuh practisin' some o' dese days she's gwine to git to be what they call a' expert and bust muh head!"—Woman's Home Companion.

ACTS AS DETECTIVE; HAS MAN ARRESTED

Girl Has Assault Case Suppressed for a Purpose.

Causes Arrest of Man Who, She Alleges, Attacked and Choked Her Three Weeks Ago.

Flint, Mich., Oct. 7.—Joe Hoag is under arrest on the charge of having committed a vicious assault upon Miss Anna Bryant, nineteen years old, on the night of Sept. 18. That night the girl was followed by a stranger as she left a street car and started to walk to her home. Just as she reached the front yard she was overtaken by her pursuer, who grabbed and began to choke her. The girl's screams aroused the neighborhood and when her mother and others put in an appearance the assaulter hurriedly decamped.

Though reported to the police the case was suppressed in the hope that the identity of the stranger would be more easily discovered than if publicity was given the affair. The girl acted as her own detective in the matter and after more than two weeks of patient watching and waiting, she furnished the police with the clue that resulted in the arrest of Hoag, whom she positively identifies as her assailant. The accused denied any knowledge of the assault when arraigned and was remanded to jail for a hearing Oct. 10.

Friends of the accused secured his release on bail.

AREBACH PLEADS NOT GUILTY

Examination of Chicagoan Held on Murder Charge Set for Oct. 10.

Baldwin, Mich., Oct. 7.—O. M. Arebach of Chicago pleaded not guilty before the local justice of the peace to the charge of murdering Harry W. Fisher, a Chicago promoter, while hunting near here a few weeks ago. His examination was set for Oct. 10. The two men were business associates and Arebach had been spending some time at Fisher's home here.

Mrs. Fisher has declared that she believes that Arebach is innocent. The latter claims that Fisher accidently shot himself. Arebach is a Princeton graduate and is said to be a member of the Chicago University club.

WAR IN FAR EAST

Montenegro Declares It on Turkey and Hostilities Begin.

Montenegro formally declared war on Turkey.

The declaration of war was delivered to the porte by the Montenegrin charge d'affaires early in the day.

Heavy fighting is already in progress along the frontier.

Nine battalions of Turkish troops which were proceeding from Scutari to Tusi along the Montenegrin frontier, were attacked by a detachment of Malissori tribesmen.

The fighting began just outside Tusi and continued all night with vigor. The battle was still in progress in the morning.

Turks and Christians Fight.

A sanguinary engagement is reported to have occurred in the Berana district between Turkish troops and insurgent Christians.

The Sobranje has addressed a telegram to the parliaments at Belgrade, Athens and Cettinje, expressing the hope that "the Christian states are indissolubly united in the common struggle against the anarchy which is oppressing their countrymen in Turkey and that they will achieve a triumph of order, justice and liberty."

PERRY VICTORY CENTENNIAL

Committee Fixes Date for Celebrations in Various Cities.

At a well attended meeting at Detroit of the inter-city committee for the Perry's victory centennial celebration in 1913, the itinerary of the naval parade which will fix the dates of local celebrations around the lakes was tentatively arranged. Every large city on the lakes and several of the smaller ones were represented at the meeting.

Erie, Pa., was given the first dates, during the week of July 6, 1913. The other dates follow: Cleveland, July 13; Detroit, July 20; Toledo, July 27; Milwaukee and Green Bay, Wis., Aug. 10; Chicago, Aug. 17; Buffalo, Sept. -; Lorain, O., Sept. 5; Sandusky and Put-in-Bay, Sept. 10; Louisville, week of Sept. 23.

EGG MARKET MAY CRASH

Mild Winter May Mean Big Slump in Prices.

Big Packers Will Lose Millions if Hens Lay—Good Crop of Turkeys Promised.

Grand Rapids, Mich., Oct. 7.—"If there is a hard winter it will be the salvation of the egg market of the country," said A. T. Pearson, New York representative of the National Carlot Poultry Shippers' association, here.

"There are too many eggs in cold storage. New York has about 200,000 more cases in storage than last year. If the winter is an open one, and the hens continue laying, there is a good chance for a slump in the market, with millions of dollars lost.

"Poultry receipts this year will be heavy, but springers will be a lighter crops than last year.

"Michigan will have a larger crop of turkeys for the holidays than last year. Turkey prices will prevail about the same as last year."

PAINTER FALLS TO DEATH

Plunges from Skylight in Bank Twenty-Five Feet—Neck Is Broken.

Gladwin, Mich., Oct. 8.—Hugo Lange, local painter, met his death while working in the state bank here. He was working on a skylight and fell about twenty-five feet. His head struck a shelf, breaking his neck. When picked up by his fellow workers he was dead. He had been joking a short time before about falling.

It is supposed that in trying to move a plank Lange lost his balance and fell. He was fifty years old and had been a resident of this city about fourteen years. He was an artist in his trade and had just received an offer to do some work in New York.

DENIES MURDER CONFESSION

Prisoner Held for Child's Death Says He Saw the Killing.

Detroit, Mich., Oct. 7.—George Brown Spengler in rambling and incoherent statements denied the confession he made that he was the slayer of twelve-year-old Matilda Reis, whose mutilated body was found near her home, Tuesday night.

Instead of killing the child, he insisted that he stood within three feet of her when another man committed the crime. The police, however, insist that Spengler is the guilty man.

The Crantara.

Crantara was a military signal employed by the Scottish highland chiefs. It was a fire brand or wooden cross, which after being dipped in the blood of a goat was sent by a swift footed herald, who delivered it without a word save the name of the place of rendezvous. The fleetest runner of that hamlet was instantly dispatched with the signal to the next, whence it was borne to a third, and so on until every village within the chief's domain had received the summons. It was last circulated in 1745.

TRAIN ROBBERS GET LARGE SUM IN CASH

Kansas City Southern Is Held Up in Oklahoma.

Two Safes in the Express and Baggage Cars Blown and Plundered —Pasengers Not Molested.

Four men held up Kansas City Southern passenger train No. 4 north bound, three and a half miles north of Poteau, Okla., ransacked the mail, blew open the safe in the express car and escaped into the wood-covered hills that skirt the railroad at that point.

The robbers' loot is said to be $10,000 in cash and ten or twelve registered letters. The pasengers were not molested.

The men boarded the train as it stopped at a crossing a short distance from Poteau. Crawling over the tender, two of them covered the engineer and firemen with revolvers, while the others robbed the mail and express cars.

Demanded "Through" Mail.

After wrecking the express car safe with nitroglycerin, the robers entered the mail car and demanded all the "through" mail. Refusing to accept the clerk's word that there was none, they ransacked the pouch, getting not more than a dozen letters that are believed to contain little of value.

Their work done, the robbers ordered the trainmen to "go ahead," commanding them not to look back, and disappeared into the woods.

Posses were organized at Poteau and went in pursuit of the men. A bank at Havenor, Okla., is said to have had $7,000 on the train.

William West, twelve years old, who resides near by saw the men climb aboard. Two men went into the express cars. Young West saw the men who entered the express car brandish their revolvers and called to passengers that robbers were aboard.

Brought Train to a Stop.

His cries were disregarded. Two miles further on a man on the tender cut the air and brought the train to a stop. As he did so he leaped to the ground and the bandidts inside the express car started to work.

L. H. Kerr, express messenger and J. L. Williams, baggageman, both of Kansas City, at the point of revolvers were driven behind a pile of trunks and were forced to turn their backs while the bandits worked.

There were two safes aboard—a local safe containing packages to be delivered along the route, and another containing valuables for Kansas City and points beyond. Both were wrecked.

No Resistence Offered.

The top of the local safe was blown through the roof of the car. During the explosion the mask of one robber was blown off. Kerr believes he can identify the man.

Every man on the train was so frightened that there was no resistance to the robbers. Conductor J. B. Seisk stepped from the train to learn why it had stopped.

The bandit said: "Oh, please, chapple, get back or I'll have to blow out your light."

Seisk plunged into the coach and locked the door.

9 DIE IN AUTO SMASH

Wild Machine Dashes Into Two Others on Philadelphia Bridge.

Nine persons at Philadelphia, Pa., are dead as a result of a collision between three automobiles on the edge of Fairmount Park. One of the cars, running at high speed, struck another, which was hurled against a third. The "wild" car, containing six men, crashed through a railing on a bridge and fell forty feet, killing all of the occupants. Three men in the second car also met death. The dead, all residents of Philadelphia, are:

Robert A. Boyd, Edward Shaw, Jr., Daniel Wilkes, William H. Lawrence, Gordon H. Miller, Leon Navin, Jess Holmes, Robert Giefel, Ernest Shofield.

The crash of the three automobiles, the splintering of wood as the Shaw car plunged through the guard rail to the tracks, and the cries of the occupants of the cars aroused residents for blocks around.

Gibson Held to Grand Jury.

At Goshen, N. Y., Burton W. Gibson, an attorney of New York city, was held to the grand jury on a charge of murdering Mrs. Rosa Menschik Szabo, his client, who perished in Greenwood Lake last July. The grand jury will meet Monday.

ASKS THE SENATE TO EXPEL PENROSE

Colonel Roosevelt an Explosive Witness before Senators.

Claims that Pennsylvania Senator Made Admissions Before Committee Which Should Bar Him from Senate.

At Washington, as an explosive climax to his bitter denunciation of those who sought to attribute improper motives to his seeing John D. Archbold, of the Standard Oil company, and in view of his communications with E. H. Harriman, Colonel Theodore Roosevelt demanded that Senator Boies Penrose of Pennsylvania should be "thrown out of the United States senate." He made the demand to the senate committee which is investigating campaign ocntributions.

"I hold that he should be thrown out because of his own admissions before this committee, that he advised John D. Archbold to try to purchase immunity from prosecution by the government," the colonel asserted.

Colonel Dislikes Penrose.

"Archbold testified that Bliss tried to blackmail him," he went on explosively. "I don't believe that. As you have seen by these letters as soon as there was any rumor about improper contributions, I ordered them returned and I have the assurance of Cortelyou and Bliss that there were no such contributions. Loeb had assurance over the telephone that Standard Oil didn't give anything. Penrose says he advised Archbold to submit to blackmail 'because of hostility in certain quarters' they could only obtain the hostility of myself and they could incur that only if they violated the law. The purpose of Penrose in such advice could only have been to secure the Standard Oil company against government action if it violated the law."

Roosevelt Springs Sensation.

Roosevelt sprang another sensation, when, in a voice that vibrated with emphasis, he asserted that he had "never asked Mr. Harriman, directly or indirectly for a dollar to help in the 1904 campaign, or in any other."

Colonel Roosevelt was on the witness stand all day and was excused at 4:06 p. m.

Sheldon and Morgan Testify.

G. R. Sheldon, ex-treasurer of the Republican national committee, testified before the Clapp committee that in 1904 the Standard Oil company contributed $100,000, J. P. Morgan & Co., $100,000; H. C. Frick, $100,000, and George J. Gould, $100,000.

J. P. Morgan testifying of his $150,000 gift to the Roosevelt campaign fund, said:

That in October, 1904, he gave $100,000.

That on Nov. 1 he gave $50,000 more.

That the bulk of the second as well as all the first went to the national committee.

That "I had a great deal to do with Mr. Cortelyou during the campaign."

That his relations with the elder Cornelius N. Bliss were very intimate.

That "We were especially interested in the campaign of 1904."

That he received no hint of the amount desired—that "they would have taken anything they could get."

That he understood the $240,000 Harriman fund, in reality was given to the national, not the New York state committee.

That $30,000 was given to the campaign fund of 1908.

That no gratitude for his gifts was shown by anyone connected with the campaign.

SEVEN ON DEATH LIST

Mail Clerk Injured in Connecticut Wreck May Die.

A newly revised and corrected list of those who were killed or injured when the second section of the Boston Express jumped the track while trying to "take" a cross-over at high speed some yards west of the station at Westport, Conn., on Thursday afternoon, places the number of dead at seven.

Eight of the injured were still in the Norwalk City hospital. One of the eight, a mail clerk, named E. J. Bridgett, twenty-three years old, of Wallingford, Conn., is in a dangerous condition, according to the hospital surgeons.

Investigations into the cause of and liability for the wreck were begun simultaneously by railroad men and county and state officials of Connecticut.

BOMB JURY COMPLETE

Names of the Men Who Will Try the Dynamite Conspiracy Cases.

The jury at Indianapolis, Ind., that is to try the McNamara dynamiting cases was finally selected. The men selected are:

Samuel Morrison, North Vernon; James N. Smith, Winchester; Seneca Chambers, Anderson; William Jackson, Greencastle; Marion E. Dobbins, Maxwell; Frank Dare, New Lisbon; Job I. Thomas, Jamestown; Allen Spaulding, Sharpsville; Martin P. Davis, Forest; T. D. Brookshire, Roachdale; Frank Sutton, Nebraska, and Jesse D. Barger, Ridgeville.

Senator J. W. Kern, counsel for the defense, asked the veniremen whether they "sympathized with corporations which would try to break up labor unions." The answers were negative.

Edward Clark of Cincinnati, one of the forty-five defendants, pleaded guilty to the government conspiracy charges and was sent to jail to await sentence.

HOW'S THIS

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

NATIONAL BANK OF COMMERCE
Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Every man has a lot of old debts due him that he can't collect, and knows he can't collect, and yet talks about them a great deal.

Antoine Deloala, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."

For sale by all Druggists of Tecumseh.

It is possible to make a great reputation with a little sense; a man with a little sense is really quite a genius.

Phillip Desormeau, Prop, the Farmer's Home Hotel, Schaffer, Mich., says: "Last winter I could not sleep nights on account of a bad cough that would start at bed time and keep me awake. I started using Foley's Honey and Tar Compound and was greatly pleased to find that the cough left me, my appetite increased and I slept soundly at night." For sale by all Druggists of Tecumseh.

There are a thousand things the people ought to do, and although they admit it, they will never do them.

FORTUNES IN FACES

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it. Impure blood is back of them all, and shows the need of Dr. King's New Life Pills. They promote health and beauty. Try them, 25 cents at C. A. Wright & Son's.

A man should either be able to keep his temper, or be abe to whip the man he is quarreling with.

A LOG ON THE TRACK

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing indigestion. Michael Hessheimer of Lincoln, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents at C. A. Wright & Son's.

Those riding in automobiles are not as happy and comfortable as those on foot think they are.

R. J. Gunberg, Merchant of Copper City, Mich., says; "For a good many years we have used Foley's Honey and Tar Compound in our family. It will quickly cure a cough or cold and we consider it a safe and sure cure." For sale by all Druggist of Tecumseh.

Laugh when a friend tells a joke; it is one of the numerous taxes you must pay.

SAVES LEG OF BOY

"It seemed that my 14-year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c. at C. A. Wright & Son's.

Some people are so strong on talk that they try to pay their bills with it.

Mrs. Dora Ray, 720 Brord St., St. Joseph, states: I suffered much misery from my kidneys and bladder and all I tried failed to help me. My kidney action was irregular with a burning pain, and I had headaches and dizzy spells, with swollen ankles. I gave Foley Kidney Pills a good trial and improvement followed promptly and in fact, I've felt exceptionally well since taking Foley Kidney Pills."

For Sale by all Druggists of Tecumseh.

WILLIAM H. HILL, DETROIT.
Candidate for Congressman-at-Large born in 1852 in Steuben County, N. Y.

After attending district school until fifteen years of age, he worked for his board and tuition at Cayuga Military School, Aurora, N. Y. He took care of horses and cows and did general work around the buildings; in vacation periods worked on farms, or did anything to earn an honest dollar. He was a student under Prof. Warren Higley, later Judge Higley of New York City.

After finishing his three years' literary course, he followed Horace Greeley's advice and went west to grow up with the country. Landing in Kalamazoo, he took the first thing offered and clerked in a dry goods store for two years. Then he fitted himself for the drug business, and traveled a number of years in that line. He moved to Detroit in 1865, where he has been manufacturing drug specialties and metalic furniture with marked success.

Mr. Hill has been a life-long Republican, and has always been known as a Progressive. He was a staunch supporter of the late Mayor Pingree at the time he made his fight for the Municipal Lighting System, which was successful. He was also a strong supporter of the Pingree plan for municipal ownership of street railways at the time he tried to take over the street car facilities for the benefit of the people, and still advocates public ownership.

Mr. Hill has always felt there should be some law whereby combinations of capital and great corporations can be controlled and believes that an industrial commission should be appointed with full power to control all corporations engaged in interstate commerce, on a plan similar to that which now controls the national banks, and thereby give the small business men the same opportunity, under the laws, as the corporations.

W. C. T. U. CONVENTION.

Held at Tecumseh Oct. 8, 9, 1912
A Good Attendance of Delegates

The 35 annual meeting of the W. C. T. U. County Convention was held in the M. E. Church Tuesday and Wednesday of this week. Opening of services Tuesday 10:30 a. m. Mrs. G. W. Jackson local President conducting the consecrations services, at roll call each officer responded by why I am for suffrage.

An executive board meeting was held at 10:00 a. m., Mrs. Cheeney of Jasper County President, Mrs. Mary Wood of Tecumseh gave the welcoming address response, Mrs. Hattie Older of Adrian, recitation by Miss Bertha LaFraugh, "The Auction block," which was given in a pleasing manner. At 2:30 p. m. reports from the various unions were heard Mrs. E. L. Calkins gave reports of superintendents of the different temperance associations also speaking ernestly on the local option movement. Rev. W. B. Hartzog gave an address on local option in Lenawee Co in the evening.

The devotional exercises were given by Rev. G. H. Whitney, Mrs. E. L. Calkins following with an address along the lines of equal suffrage. Wednesday morning was given up to the business of the executive board with the reports from local unions of superintendances Treasurers and Secretary and the committees, election of officers resulted in the election of Mrs. Ada C Muniford of Adrian President, Mrs. Hattie Older of Adrian Vice President all the others being elected to succeed themselves.

Memorial Services were held Wednesday afternoon conducted by Mrs. Mary Wood of Tecumseh, 12 deaths reported during the year. Nearly three hundred school children were present at the afternoon session and listened to an address by Mrs. Humphrey of Adrian on the "Effects of Cigarettes on the Body and Mind". It was a goodly sight to watch the animated faces of the crowd.

Rev. McLain of the congregational church of Hudson spoke in the evening on "Suffrage" in a very fine manner. Music formed one of the pleasing features of the meetings the local talent doing much to help along the work. Among these were Mrs. Kerdrick, Miss Metta McKinney, Mrs. Richard Mead, and F. R. Fenn gave most delightful solos, Mrs. Ruthruff and Mrs. Hodges giving a duet, Lynn Rogers also favored the meeting with a violin solo.

NOTHING GAINED BY WORRY

Oppose Depressing Thoughts With Good Nature and Hustle, and Note the Results.

Sickness may come; death may be at the door; but the man who does not give up cuts down the doctor bills and cheats the undertaker altogether.

Business deals may go wrong and financial disaster may threaten, but the man who takes stock in himself and remains on the job seldom enters the bankruptcy court.

Poverty may be at the door, and hard luck may bring adversity, but the man who takes his fortune with a smile will be at the dock when his ship comes in.

So, why worry?

Worry saps vitality, brings gray hairs, produces wrinkles, and it can turn a sunshiny day into a dreary one.

Without a cloud in the sky, worry can make one believe there will be a downpour any minute.

Worry discounts bills receivable, adds interest to those which are to be paid, and disturbs the scheme of things generally.

It never won a battle. It never cleared a situation. It never solved a problem.

Its antithesis, good nature, and its lifelong enemy, optimism, have many victories to their credit. Its antidote, hustle, is responsible for many good things which man has enjoyed.

So, again, why worry?

U. OF M. FOOT BALL

Ann Arbor, Mich.

As has been the rule since 1906 Case opened the Michigan schedule Saturday at Ann Arbor and the Wolverines were returned victors by a 35 to 0 score. It only partially tells the good news of the game however, as the most encouraging part of the entire affair was the showing made by the pupils of Yost. In contrast to their actions of last year the wearers of the Maizes and Blue were fighting and trying for every inch all the time. True, there work in every respect was ragged but when it is considered that this is the first game of the season such raggedness is to be expected. In addition to this, the weather conditions were far from being ideal. The heat was so intense that toward the end of the clash the players of both teams wilted.

Yost used a host of subs in some places making three shifts and Case on the other hand made but one change. The changes in the Michigan lineup did not seem to slow up the locals to any great extent, though it was in the third quarter that Michigan failed to score, and this was just after one of the flocks of subs had gone in.

Boyle was used at quarter in this period and made his first appearence in Ferry field since two years ago when he starred on the All-Fresh. He showed the same ability at carrying the ball that he formerly had, but his lack of familiarity with the signals was an apparent handicap. Huebel started the game and went two periods in good shape while Bushnell was on the job in the last session and also showed well.

The attendance was the largest that has ever witnessed a Case-Michigan game and the open air mass meeting held before the game proved a fair success though the lack of preparation was easily seen. This will be a regular feature however in the futnre and should prove a big attraction.

The offense of the Wolverines is much stronger than the deffense, at least judging by the result of Saturday's game. Craig, Carpell, Thomas, Huebel and Boyle had little trouble tearing of long runs around end and off tackles and the success of the forward pass was one of the most promising parts of the afternoon's passtiming. Thomas did the hurling while Burton did the receiving. Case had a world of peculiar formations from which they developed either an end run or a forward pass though they did not meet with the success in this that Michigan did. The Michigan line showed fair form but it is evident that it is here that Yost has his work cut out for him. The backfield especially the first string, present a much better interference for the runner and showed better in blocking that was the case last year at this time.

Yost made his first training table selections after the game and placed 17 men at the coveted board. Capt. Thomas, Carpell, McHale, Peterson, Clem Quinn, Torbet, Barton, Boyle, Crgig, Huebel, Patterson, Raynsford, Ailmendinger, Cole, Musser, Pontius and Collette were the ones seclected.

The securing of South Dakota for the open date, Nov. 2, on the home schedule of the Wolverines is a big stroke for Michigan as it will afford the fans a chance to see the team in action that defeated Minnesota, though the winning of the game is going to bring some new gray hairs to the head of Yost. There is a team of veterans out there in the wilds and when they come to Ann Arbor the first Saturday in November it will be to win.

M. A. C. is the next problem for Yost to face and from reports Macklin and has his charges in great shape for the annual clash this coming Saturday. The Farmers have proved a hardcut for Michigan in the past and it is certain that they will put up some pretty battles in Ann Arbor Oct. 1th.

That First Game of the World's Series in N. Y. Oct. 8

So great was the enthusiasm over the World's Series of base ball games for the championship of the world, that forty thousand were in the vast Brush Station on Tuesday, when the New York Giants and the Boston Red Sox crossed bats. Hundreds gathered the night before to secure the first choice of seats. The game was a close one throughout and it was doubtful which would come out ahead but the Red Sox won the victory with a score of 4 to 3.

Obituary

LeROY J. SHERMAN

The last sad rites were performed Tuesday afternoon over all that was mortal of LeRoy Sherman. A large concourse of people gathered at the home, where the beautiful burial service of the Episcopal church was read by the Rev. Fredrick Hewitt followed by a service by the Eagles of which lodge he was a member. He was borne to the grave by Ralph, Henry and Don Smith, Charles and Oley Hanna and Floyd Russell. The closing services at the grave were conducted by the Rev. Hewitt, followed by the Eagles with their impressive work. Over forty Eagles were in line to pay their last respects to their departed brother.

LeRoy John Sherman was born in Ridgeway, Michigan, Feb. 21, 1891 and died in Tecumseh, Michigan, Saturday morning, Oct. 5, 1912. He leaves father, mother, one brother, two nephews, many relatives and friends to mourn his loss.

"Our loved one has gone to his
Heavenly home,
Where pain and suffering is known
no more
To dwell with our loved ones who
have gone before."

CARD OF THANKS.

We wish to extend our heartfelt thanks to our neighbors and friends from far and near who have extended to us so much kindness and sympathy in our great bereavement.

Mr. and Mrs. J. H. Sherman

Apricot Marshmallows.

Drain the sirup from a can of apricots and arrange the halves on a serving dish. Place on top of each half a marshmallow which has been partly melted, and top with another apricot half; decorate the plate with leaves or ferns, and serve with small cakes. The sirup from the apricots should be heated, and when they are served it should be poured over them. This makes a delicious and simple dessert.

Cleaning Silver Forks.

Silver forks that have been used for fish are apt to retain a fishy taste, especially if they have been used in eating kippered herring or soused mackerel. This fishy taste can be removed readily by washing the forks in cold water before washing them in the dishpan with the other dishes in hot soap water. Cold water, used first, will completely take away the objectionable taste.

How to Flavor Gravy.

To give gravy a dark brown color and impart to it a delicious flavor, use a little sugar that has been browned in the following way: Place several teaspoonfuls of granulated sugar in a saucepan with very little water. It will, in a few minutes, turn a deep brown, and have a burnt flavor. This browned sugar can be kept indefinitely in a small glass bottle.

"The Shepherd of the Hills"

A good house greeted the presentation of "The Shepherd of the Hills" Thursday evening. The play was full of interest from the very beginning and each character was well sustained. Miss Halley Myers, as 'Pete' impersonated the child of nature in a manner that touched the hearts of everyone, and deserves special mention. It would be hard to discriminate among the others, for all were good

REPORT FROM THE CIGARMAKERS INTERNATIONAL UNION AT BALTIMORE.

The twenty-second session of the Cigarmakers International Union was held in Baltimore, Md., Sept. 17 to Oct 4, with sessions from 9 to 12 a. m. and 1:30 to 6 p. m. Four hundred were in attendance, Mayor Prentice of the city gave the address of welcome giving over the keys of the city into their hands. Response was given by G. W. Perkins of Chicago. The business of the meeting was then taken up, among which was the revising of the constitution, and the admittance of other societies.

When we arrived there was a great hustle for accommodations. The United Cigarmakers of Baltimore for the entertainment for the first Sunday chartered sightseeing, and took all of the visiting members to Curtis Bay, where they were treated to crab feast and fish dinner, the amusing thing about it being that every thing was free but the cigars. With the rides about the city and the visit to the parks, after the business of the day, our visit was made very pleasant.

I also had the pleasure of meeting among the delegates an old resident of Tecumseh, C. H. Fish, whose father used to run the Mansion House, and who is now a resident of Salt Lake City, Utah. He wished to be remembered to his old acquaintances and friends.

DEMOCRATIC MEETING.

Wednesday October, 9th.

W. B. Ferris the nominee for Governor, on the Democratic ticket made a most telling speech on the four corners Wednesday afternoon. He commanded the Bull Moose movement in that it had taken some of the best from the Democratic party for its platform. He said he would not say anything against Taft or Roosevelt, they know each other better than a father does his own child, but they are telling truths about each other that only they themselves know. It would be useless for an outsider to say anything more against them.

Mr. Ferris went on to say that he would not vote for Woodrow Wilson because he was a scholar, nor would he vote against him for that same reason, he had not conquered the chair of governor six months before he proved himself a great statesman, this being one of the reasons why all should vote for him. His stand for Woman Suffrage was strongly taken paying high tribute to the [illegible], any man [illegible] but a man [illegible] a good woman for a mother. A good crowd listened to this speech considering the stormy day and also their appreciation by close attention.

Chinese Medicine.

Chinese medicine may be regarded to some extent as a survival of the dark ages, much of it being based upon a belief that diseases are due to supernatural causes and are mainly occasioned by offended evil spirits which the native practitioner seeks to propitiate or drive off by charms, incantations or other devices. CLUB LIFE

TECUMSEH PROUD OF BOTH HER SOCIAL AND INTELLECTUAL ATTAINMENTS.

Opening Days of the Prominent Clubs.

October brings the beginning of Club life in Tecumseh, both in the study Clubs and the social life. Tecumseh is noted for its Clubs in both lines and after the seasons rest, the well attended opening afternoons and evenings attest to the interest in both sides of our village life.

Among the most noted of the Literary Clubs are the Monday Club, The Research Circle and The Wit and Wisdom Club The Monday Club was organized in 1894, the first President being Mrs. Mary Wright who served four years.

The Research Circle was organized in 1893 with Mrs. Chas. Burridge Sr. as first President, Mrs. Milburn Key occupying that position at the present time, membership unlimited.

The Wit and Wisdom Club was organized in 1894 with Mrs. George Knapp President, this Club is limited to 40 members has a literary program followed by light refreshments Mrs. Charles Kemp is President for the coming year..

In each of these Clubs are found many bright and gifted minds and the work is truly progressive. The oldest Social Club is The Merry-go-round which was organized in 1900 and limited to 40 members and one has only to attend one of the meetings to know that the fun has increased as the years passed by.

There are many other social Clubs but as yet their years are few since their organization.

* * * *

The opening meeting of The Research Circle was held Wednesday Oct. 2nd, at the home of A. C. Aylsworth. A business meeting was first in order, the President Mrs. Milburn Keysor extending a cordial welcome to the members for the coming year.

The subject for the years work is "American Literature," there were about 35 present an opening address by the President was followed by a paper on "The Colonial Period," by Mrs. Wm. Mobbs, a fine pot luck supper was served and a most delightful afternoon was the verdict of all present.

* * * *

The Wit and Wisdom Club held their first meeting of the season Monevening Oct. 7th, at the home of Mr. and Mrs. B. Hurry, there was a large attendance and the evening was a very interesting one, Chautauqua was the subject of the evening and was finely illustrated by pictures shown by a Reflectoscope. At the close of the business session, refreshments were served and an hour given to social converse.

* * * *

The opening meeting of the Monday Club was held at the home of Mrs. J. D. Shull Monday Oct. 7th, with a full attendance there being about one hundred of members and their guests. The meeting was called to order by the President and the first number on the program was then given being an instrumental duet selection from "Regeolloto" by Verdi by Mrs. F. B. Wood and Mrs. Ella Hodges, the President gave an address in which she stated that she would give the best she had to the work for the coming year and would have the good of each member at heart and wished for a successful year giving the members and guests a most cordial welcome Miss Houck gave two selections in Italian for an encore giving one in English "Canst thou believe," the literary part of the program was a most interesting talk on the "Pagan Religion" given by Mrs. Mary Wright this subject was given in a most comprehensive and thourough manner beginning with the early myths and ringing it down to the early Christian Era this subject was given in such an interesting manner that it held each listener till you could almost hear a pin drop.

Duaine Service accompanied by Mrs. F. B. Wood charmed and hypnotized each one by his wonderful sweet and sympathetic notes on the violin and received four encores to which he gracefully responded.

The committee of decorations made the house gay with autumn flowers and foliage red and green being the colors, dahlias, salvia, and zinna being used in profusion.

The guests from out of town were Miss Houck of Cal., Mrs. Ellis of New York, Mrs. Rector of Cal., Mrs. Hattie McDonald from Oregon and Mrs. Gaisford from Washington most appetising refreshments were served.

COAL

The coal situation is a curious one this fall and probably coal will continue to be a scarce article until the middle of the winter at least. We advise all those who have not put in or ordered their supply to get filled up with some sort of coal before price advances or it becomes hard to get.

We have good stocks of Coke, Manhattan Lump, Dixie Gem and Pocohontas. The prices are as follows; Coke, $6.00: Manhattan $4.50; Dixie Gem $5.50; Pocohontas $5.50 shoveled; $6.00 Coal not delivered 50c per ton less. We expect an advance on all coal within a month and to hear by phone or letter from all those wishing to place an order for any of these coals. We have cars on track now and can fill all orders promptly.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Herald readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

W. C. Witherell, W. Potawatamie St., Tecumseh, Mich., says: "I have had no reason to change my high opinion of Doan's Kidney Pills which I publicly expressed some years ago and I willingly confirm all I have previously said in their praise

I had acute pains across the small of my back and in my hips and often after stooping, a sharp twinge darted through my loins, obliging me to lie down. I was laid in bed for several days and I believe that my trouble was caused by excessive stooping When I learned of Doan's Kidney Pills I obtained a supply at Wright & Son's Drug Store and the contents of a few boxes restored me to good health Since then whenever I have felt in need of a kidney medicine, I have taken this preparation and the results have been very pleasing."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

C. M. M. Wheellhan, 326 Fort St., Port Huron, states: "I have used various medicines for kidney trouble that has bothered me for some years and I can honestly say that Foley Kidney Pills did more for me than any of them. They relieved me greatly and I will always be pleased to recommend them."
For sale by all druggists of Tecumseh.

SAVED BY HIS WIFE

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is one of that kind "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough, when I was so weak my friends all thought I had a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quincy, tonsilitis, hemorrhages. A trial will convince you. 50cts and $1.00. Guaranteed by C. A. Wright & Son.

Chas. O Collison, a liverman living at 930 No. 4th St., Saginaw, states: "I had a severe case of acute kidney trouble with pain across my back and irregular kidney action. I finally took Foley Kidney Pills, and in a few days time the pain left my back, my kidney action became regular and today I am entirely free of all kidney trouble."
For Sale by all Druggists of Tecumseh.

CRAZED MAN HURTS CITIZEN

Makes Murderous Attack on Two Families Before Being Subdued.

Charlotte, Mich., Oct. 8. — Alonzo Wirtz, a Sunfield man, frenzied with liquor, ran amuck, driving the town marshal and authorities from the streets. He attacked the families of J. P. and J. W. Hanner and seriously injured J. P. Hanner, sixty-five years old, who sustained several broken ribs and was hurt internally when Wirtz jumped on him.

Sheriff Donovan went to Sunfield and brought Wirtz to jail here. Wirtz will be held pending the results of Hanner's injuries, who is said to be in a critical condition.

Ingrowing Hair May Cost Life.

Grand Rapids, Mich., Oct. 7.—William Murphy, a prominent wholesaler, lies at the point of death here as the result of having an ingrowing hair extracted from his cheek. After the barber removed the hair blood poisoning developed. Several operations have been performed to save his life.

MICHIGAN STATE NEWS.

LANSING—The supreme court of Michigan held that Howard Messmore, deputy sheriff of Macomb county, is entitled to receive from county funds which had been allowed him by the supervisors to reimburse him for money spent in defending a suit against him for false imprisonment. At the time the case arose Messmore was deputy under the late Sheriff Matthews, who was shot by Benny Govare, a Belgian lad. Messmore went to the home of Henry Zimmerman, an aged man, to arrest him for failure to send his grandchildren to school. The children lived in Detroit and were visiting the old people. The shock of arresting her husband caused Mrs. Zimmerman to die of heart trouble on the spot, it was alleged. Zimmerman sued Messmore for false imprisonment and Justice Kuhn acted as his attorney. Zimmerman lost the case and Messmore presented his bill to the supervisors for the money he spent in attorneys' fees. The board allowed the bill, but County Clerk William Kracht, as clerk of the board, refused to sign the warrants.

LANSING—Considerable enthusiasm pervaded the Michigan state convention of the national Progressive party in naming its first state ticket. The in naming it first state ticket thus: Secretary of state, Howahr H. Battdorf, Battle Creek; state treasurer, Frank C. Holmes, Alpena; auditor general, Herbert F. Baker, Cheboygan; attorney general, Julius B. Kirby, Saginaw. The resolutions adopted denounce the Chicago Republican convention and repudiate its action; condemn the present primary law and pledge a statewide one; favor a presidential primary; favor the initiative, referendum, and recall; condemn "the use of injunction by the courts for ulterior purposes," and declare for separation of the judiciary from politics.

PETOSKEY—Owing to fact that he underwent an operation on his nose several years ago, which deprived him of the sense of smell, a Petoskey man slept three consecutive nights in his home with the gas in his room turned on without detecting the odor. His wife was away from the city on a visit. During the seventy-two hours the gas leaked into the man's room, and the only reason he escaped death was the fact that a window in his room was wide open. The return of his wife brought about the detection of the leaking gas and no doubt saved his life, as he probably would have closed the window for some purpose within a short time.

BATTLE CREEK—Being led by a nine-year-old lad, Versal Glanfield, a party of officers conducted a raid on the Macomber & Johnson drug store and found it to be a veritable saloon. Glanfield's father had taken him to the drug store early in the morning, and, it is claimed, drank plentifully, after which he went home and started to abuse his wife. She telephoned the police and sent her son down to show the officers where the father had purchased the liquor.

GRAND RAPIDS — About three hundred irate subscribers of the Citizens' Telephone company in Rockford tore their 'phones from the walls of their homes and their stores. A delegation came here and protested against an increase from $18 to $24 for business 'phones and $15 to $18 for residences. The protest was ignored and the new rates went into effect. The Bell company has sent crews to install 'phones at the old rate.

MARINE CITY—Lluos Pesha, who was one of the best known photographers in the state and who was prominent in business circles of this city, was instantly killed in an automobile accident near Innwood, Ont. Mr. Pesha and his boy were pinned underneath the wrecked car. Mr. Pesha was dead when removed from under the car, his skull having been crushed. The boy was only slightly injured and will recover.

GRANT—The recent heavy frosts in this section of Newaygo county have done much damage to the corn and late potatoes. Some potatoes were planted extremely late on account of the late and wet spring and these are greatly damaged, it being thought doubtful if the potatoes are far enough along to be of much use except for light feeding to stock.

BATTLE CREEK—That there is not a man in the city of Battle Creek out of a job is the declaration of C. H. Wheelock, a local labor diagnostician, who spent the last week looking over the labor situation. Wheelock claims that because of the enormous amount of construction work that is going on the city could supply 200 more men with jobs.

TRAVERSE CITY—Godfrey Kevwitch, who was sixty years old, a pioneer resident of Garfield township, died at his home. He came from Germany twenty-five years ago and settled on a farm where he has lived ever since.

MUSKEGON — Thrown violently from a load of lumber he was taking to his home in Fruitland township, when his horses ran away, Ole Johnson, fifty-eight years old, struck on his head, his neck being broken. He died at Hackley hospital, never having regained consciousness.

BALKANITES ARE PATRIOTIC

Battle Creek Colony Ready to Go Home and Fight.

Battle Creek, Mich., Oct. 7.—In order to secure all information about the war situation in the Balkans 300 Bulgarians and Macedonians in this city held a massmeeting and appointed A. Z. Zopoff to communicate with the proper officials at once.

The meeting was enthusiastic and the foreigners expressed themselves willing to pack up and return to their native states at a moment's notice.

DETROIT ALLEGED GRAFTERS

Many of Them Are Held and Several Acquitted.

Detroit, Mich., Oct. 7.—Aldermen Glinnan, Brozo, Walsh, Mason, Eckel, Rosenthal, Tossy, Pindle and Ostrowski were held and Aldermen Watson, Lynch, Ellis, O'Brien, Merritt, Koenig and Zoebller were acquitted by Justice Jeffries in police court, charged with accepting bribes for official favor or with conspiracy to accept such bribes.

WOMAN'S TRIALS.

The burdens a woman has to carry through life are many but they can be lightened if she will turn to Dr. Pierce's Favorite Prescription. A soothing and strengthening nervine—subduing nervous excitability, prostration, hysteria, hot flashes and the many symptoms which may be caused by distressing ills peculiar to women. For those "dragging-down" pains or distress and for the derangements and irregularities the "Favorite Prescription" has had many thousands of testimonials from people living in every part of America. Another important thing to *every woman* is that this medicine is made from efficient medicinal roots, without the use of alcohol, narcotics, or any injurious agents. Full list of ingredients given on bottle-wrapper and sworn to by Dr. R. V. Pierce—who is President of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Every woman is invited to write to this Institute and receive confidential and sound medical advice, entirely without cost from one who makes the diseases of women his specialty.

"I can cheerfully recommend your remedies, especially your 'Favorite Prescription,' for all female disorders," writes Mrs. M. M. Morrell, of Bluff City, Tenn., Route 2. "During the past seven years I suffered from pains in the back and ovaries. Tried many remedies but found only transient relief until I was persuaded by a friend to try Dr. Pierce's Favorite Prescription. After giving this remedy a fair trial, I found that it would do just what it is recommended to do. I used in all seven bottles. I cannot speak too highly of Dr. Pierce's remedies for all female derangements."

PEACOCK FEATHERS

By Clarence O. Robbins

(Copyright, 1912, by Associated Literary Press.)

"I wouldn't have the critters around," muttered Aunt Agatha as the beautiful peacocks strutted proudly along the terrace.

"Why don't you like them, Aunty?" asked Bess Long as she tossed a biscuit to one of the birds.

Mrs. Long shook her head mournfully. "It means bad luck to have 'em around," she said.

"I don't believe it," declared Bess stoutly. "I think I am lucky to own them. I always admired Hester's peacocks, and when she went to Europe and gave these to me—you know how delighted I am!"

"My Aunt Emeline had a peacock feather fan that I believe caused her death," declared Aunt Agatha dismally.

"But Aunt Emeline was nearly ninety when she died; I thought she died from the effects of a fall."

"She was carrying the fan when she fell. She always carried it, although the whole family warned her against ill-luck. She dropped the fan and stooped to pick it up. She turned dizzy and fell down the front stairs."

"But she might have been picking up her handkerchief in the same manner," protested Bess.

"She was picking up the peacock feather fan," returned Aunt Agatha obstinately, "and so we burned the fan in the kitchen stove."

"It was a pity," murmured Bess, watching the sunlight play on the gorgeous feathers of the outspread tails of her pets.

Aunt Agatha arose and shook out her cashmere skirts. "I must be getting back to the farm," she said primly. "I can't abide the screech of those birds. 'Tain't fine feathers make fine birds, nor never will!"

Bess said nothing, for she was quite accustomed to her aunt's openly expressed dislike for the peafowls, but herself a great lover of beauty in anything, she almost loved the splendid coloring of the feathers of the peacocks that strutted on the terrace.

She watched the old-fashioned figure of her country-bred aunt enter the modern automobile which Uncle Fred insisted was a necessity on the farm, and waved them a gay good-bye before she returned to her slow pacing of the terrace.

Woodmere was a beautiful estate, for Mr. Long was very rich, and this country place was his pride. The peacocks were the finishing touch to the formal garden with its clipped hedges, fancifully trimmed trees and stiff beds of glowing flowers.

"Aunt Agatha has declared against peacocks," she said to her father at dinner that night.

"Agatha nourishes a foolish vein of superstition," observed Mr. Long. "By the way, have you seen our new neighbors?"

"You mean the Allyns?"

"Yes."

"No, Nora said they were occupying the house, but of course we cannot even get a glimpse of it except from the west terrace, and I haven't walked there."

The next afternoon when the sun slanted warmly on the western terrace of the Long house the peacocks took a sudden fancy to sun themselves there,

Bess, drowsing in a hammock in an upper balcony, saw the beautiful creatures leave the terrace and drag their sweeping plumage across the grass to the brick wall that separated the two estates. It had been Mr. Long's great grief that he could not purchase the adjoining property and thus enlarge his own grounds on that side; but the Allyns had had a long lease of the property, and had never occupied it until this season.

From the upper windows of the Long house one could see quite over the high brick wall into the quiet garden of the other house.

"I do hope that the peacocks will not bring bad luck—to—old Mr. Allyn," thought Bess, as she dropped into a light slumber.

The harsh scream of one of the birds brought her to her feet wide awake and trembling.

"How dreadful—it fitted into my dream so vividly. I must go down and bring them back." Bess yawned and shook a dimpled fist at the peacocks now sitting on the brick wall and screeching outrageously.

At that moment she saw a lean hand reach up from the other side of the wall and neatly catch one of the birds by its ugly feet and drag it down out of sight. An instant later the other frightened bird also made its screeching exit only to be promptly muffled in some manner. Then followed intense silence.

Miss Long stared incredulously from the window for several moments and, seeing nothing except the tangle of the old garden beyond the wall, and hearing not a sound of her vanished birds or of their captor, she marched grimly downstairs and, obtaining a big rusty key from the gardener, she made her way through the little pine grove to a small door set in the brick wall.

The lock was rusted and the key was unwieldy. Bess struggled bravely until the key turned creakingly and she could pull open the closed door.

It admitted her to a long, vine-covered arbor where in the green gloom a young man swung in a hammock, reading a magazine and smoking industriously.

"Hello!" he exclaimed at the sudden apparition of a white-gowned maiden in his retreat, and then having slipped to his feet he stared blankly at the extremely scornful though charming countenance presented to him.

"Er—is anything the matter?" he stammered.

"Nothing—much!" retorted Bess warmly, "but I would be greatly obliged if you will return the peacocks to my garden."

"Return the what to your garden?" he asked in ludicrous dismay.

"My peacocks."

"But, I haven't seen your birds—I wouldn't steal 'em anyway—I detest the creatures," he returned frankly.

"They are very beautiful," said Bess stiffly. And then in a few words she described the scene she had witnessed while the young man rumpled his hair and looked very much as if he believed she had been dreaming.

All at once his face cleared. "By Jove, I believe it was Yang!" he shouted, and dashed out of sight.

"He is crazy," said Bess darkly. "I never was mixed up in such mysterious happenings in my life. I wonder if it can be the ill-luck that follows peacock feathers?"

She lingered uneasily near the door of the garden wall. In the distance she heard shrill protesting shrieks, and the thunder of a deep masculine voice lifted in stern reproof. Then there followed a scuffling sound on the graveled path, and presently her new acquaintance appeared, dragging the reluctant form of a Chinese cook. In the Chinaman's grasp were the limp and lifeless forms of her precious peacocks.

"Oh!" cried Bess sharply, and bit her lip to keep back the tears.

"I can't tell you how sorry I am," said young Mr. Allyn humbly. "Yang swears by all his gods that he believed the birds were common barnyard fowls, and he was about to prepare them for my dinner. As a matter of fact I think he had a covetous eye upon the plumage. What can I do to rectify this matter?"

"It is too late now," murmured Bess. "They ought not to have been trespassing, of course. It was horrid of your man to kill them—they are so beautiful and looked so splendid trailing back and forth on the terrace."

"If you would permit me to replace them—" he was beginning, but Bess shook her head decidedly.

"I would rather not, please. Aunt Agatha said they would bring bad luck, and I believe there is something in it after all. You see they've lost their own lives to begin with."

"And Yang has lost his job," said Allyn darkly.

"Ai Yi!" wailed Yang mournfully.

A little smile dimpled the corner of the girl's mouth. "Let's change things about," she said suddenly. "If peacocks have always carried ill-luck, we will have things different. To begin with, Yang shall keep his job, and that means good luck to him, see?"

"Now that's real sporting of you, Miss Long," said Allyn heartily, and when Bess blushed beautifully he added: "I wonder what luck they will have for me—I was going to sail for Europe Wednesday, but I've changed my mind. I'm going to stay right here."

"That sounds like bad luck," remarked Bess.

"It seems like mighty good luck to me," declared Allyn.

Bess pretended not to understand, but her heart beat faster as he held open the door in the wall and she passed through to the other side.

That was only the beginning, and when October came with her golden measure of days Bess Long became the bride of Jack Allyn. His gift to her was a splendidly jeweled fan of peacock feathers at sight of which Aunt Agatha threw up mittened hands in horror.

"But peacock feathers bring such bad luck," she groaned.

"Not for us," explained Jack, meeting his bride's trusting eyes. "We have changed all that. Peacock feathers means nothing but happiness and good fortune for us."

Ralph De Palma Injured.

Near Milwaukee, Wis., Ralph De Palma, in a desperate effort to win the Grand Prix race, was perhaps fatally injured when the Mercedes car he was driving crashed into Caleb Bragg's machine, traveling 100 miles an hour, and overturned. Tom Alley, De Palma's mechanic, escaped with minor injuries.

Lepers and the Law.

The Norman-English laws enacted that a leper had neither power to sue in any court nor to inherit property. 127 WARSHIPS ARE MOBILIZED

Armada of Sea Fighters Assembled In Hudson River.

WILL BE REVIEWED BY TAFT

President Will Be Accompanied by Secretary of the Navy Meyer—Admiral Osterhaus in Command.

New York, Oct. 14.—The great fleet of American battleships which President Taft and Secretary of the Navy Meyer will review lies at anchor in the Hudson river here.

The mobilization was completed before dawn. The ships will be outlined at night in incandescent lights and Grant's tomb, the Soldiers' and Sailors' monument, and Riverside drive, all overlooking the Hudson, will be similarly illuminated.

There are more than three-quarters of a million tons of fighting craft present, manned by 1,000 commissioned officers, 300 warrant officers and more than 26,000 sailors.

127 Ships Present.

One hundred and twenty-seven ships of war of all classes, with a total displacement of 741,590 tons, were picked by the navy department for this mobilization. Officers and crews total 28,000 persons.

Thirty-two first class battleships fringe the Manhattan shore from West Forty-ninth street to Fort Washington. These, the backbone of the navy, vary in size from the superdreadnaughts Arkansas and Wyoming, twins of 26,000 tons displacement each, to the Indiana and Massachusetts, babies of the battleship fleet with 10,000 odd tons each.

Behind them, in the current of the river and hugging the New Jersey shore, is a double line of torpedo boats, destroyers, armored cruisers, scout cruisers and, at the northern tip of the jagged line, a fleet of naval militia craft. Submarines, to a half score, and their tenders, are tied up to their docks at the foot of west One Hundred and Thirty-third street.

Taft to Review Armada.

President Taft, accompanied by the secretary of the navy, will inspect the assembled fighting craft Monday. It has been planned to have the secretary's boat head a long line of craft, with the mayor's boat immediately following his, and private yachts and excursion boats behind the mayor's boat. On Monday night the official dinner in honor of the president, the cabinet and officers of the fleet will be held here.

Rear Admiral Osterhaus is in command of the entire fleet. His flagship, the Wyoming, heads the battleship division. The battleships have been divided into four divisions, under the respective commands of Rear Admirals Fiske, Usher, Winslow and Fletcher.

RUN ON POSTAL BANK

Postoffice Forced to Call on Treasury at Washington for Funds.

Omaha, Neb., Oct. 14.—A "run" on the postal savings bank at South Omaha by 100 Greeks made it necessary for that institution to call on the treasury at Washington for funds. The Greeks, who have been heavy depositors, withdrew their money in order to start to the aid of their country in the event of war with Turkey.

An emergency fund is kept in Washington to meet such demands, but this is said to be the first time a call has been made against it to meet withdrawals.

KIMMEL CASE COMES UP

Famous Insurance Suit in St. Louis On This Week.

Mrs. Bonslett of Niles, Mich., Sues New York Life Insurance Company for $20,000.

Niles, Mich., Oct. 14.—Several Niles people have been notified to hold themselves in readiness to report for duty in the court at St. Louis, Mo., this week, when the famous Kimmel insurance case is to be brought on for another trial, this time in the state instead of the federal court.

In this case, rMs. Edna Bonslett of Chicago, sister of George A. Kimmel, the banker who disappeared in 1893, will appear as plaintiff. She sues the New York Life Insurance company to collect on two $10,000 policies on her brother's life of which she was beneficiary.

The Kimmel claimant, the former Auburn, N. Y., prisoner who claims to be the missing banker, is working in the office of a lumber company at Portland, Ore., and will be produced as a witness by the insurance company.

GEORGIA BANKER SLAIN

Wife in Fit of Sudden Insanity Kills Husband and Self.

Adel, Ga., Oct. 14.—The corpses of M. A. Crosby, cashier of the Bank of Adel, and his wife, were found in their bedroom about 8 a. m. by their six-year-old son. The woman was lying on the floor with a 38-caliber revolver clasped in her fingers and a bullet through her brain. Crosby was in bed with the covers still drawn over him and had met his death by a shot in the right eye.

At the inquest it was decided that Mrs. Crosby had killed her husband as he slept and then killed herself. Sudden insanity on the part of the woman caused the tragedy, is the only solution that intimate friends can offer.

WORKS THROWS OFF PARTY BOND

California Senator Comes Out for Woodrow Wilson.

CONDEMNS THE PROGRESSIVES

Says New Organization Holds Power In His State by Fraud and Deception and Argues for a Reunited Republican Party.

Washington, Oct. 14.—In an extended statement given out here, Senator John D. Works of California, a Progressive Republican, comes out openly for Woodrow Wilson and advises all Progressives to vote for the Democratic candidate for president.

In his statement Senator Works bitterly condemns the Progressive party of California and affirms that the third party obtained possession of that state through fraud and reception.

Throws Ambition to Winds.

In announcing his intention to vote for Governor Wilson, Senator Works says that he does in effect throw all personal ambition to the winds; that the Progressives of California, his former friends, have already denounced him as a traitor and are urging him to resign his seat in the senate.

"Wilson is a real and sincere progressive," said Senator Works. "He has proved it by his course and conduct as a public officer and as a candidate. He is running on a sane progressive platform. Nothing of benefit to progressive principles or honest politics can be gained by voting for either Taft or Roosevelt. The best service Progressive Republicans can render to their party and to their country, under these unfortunate circumstances, is to vote for Wilson. It will help to teach dishonest manipulators of politics a wholesome lesson.

Moral Courage Is Needed.

"What we need in politics right now, more than anything else, is moral courage. Courage to stand firmly for right, honesty and justice. Nothing else will do so much as this to purify politics, drive out of it all privilege seekers, dishonest politicians and corrupt bosses and protect the rights and interests of the people.

"The regular Republicans, so called, will take the same course if they are wise. Taft cannot carry California. Everybody knows that. Therefore a vote for him is worse than a vote thrown away. It is a vote for Roosevelt and the destruction of the Republican party in the state. With the new party scheme defeated, the Republican party can be reunited as a progressive party, as it was before some of its members were led away from it into a sham Progressive party by men who assumed to be its leaders, and who care more for political success than for the honor of any party."

[illegible] Wife Is Suicide.

McLeansboro, Ill., Oct. 14. — Mrs. William Fann committed suicide here with her husband's razor.

Fire Follows an Explosion.

Adell, Wis., Oct. 14.—Following the dynamiting of the postoffice safe here by robbers, the big general store of Seaman & Ziegler, next door, was destroyed by fire, supposed to have started from the explosion. The robbers stole several hundred dollars from the postoffice.

Wandering Patient Killed.

Lincoln, Neb., Oct. 14.—The lifeless body of Miss Ella Harper was found on the railroad track near College View. She had been a patient at a sanitarium, but escaped and was killed.

MONTENEGRO IS POORLY FITTED

Correspondent Writes Her Unpreparedness Is Appalling.

PODGORITZA ALMOST STARVING

Little Country Shows Splendid Fighting Spirit, but Has Lost Nearly 1,000 Men, and War Equipment Is Poor.

London, Oct. 14.—The correspondent of the Daily Mirror, who has been with the Montenegrin army on the frontier for the last few days, telegraphs from Cattaro that "the splendid fighting spirit of the Montenegrins is admirable, but the tragedy of their inadequate war equipment is appalling. Podgoritza is on the verge of starvation. There is only enough maize to feed the army to the end of October.

Nearly 1,000 Killed and Wounded.

"Nearly a thousand men have already been killed and wounded. The fighting takes place on a vast mountain slope and anybody who is hit falls among the rocks. There is no proper ambulance service to find the wounded and no time to attend the dead. Many wounded die because they have not been found and attended to.

Hospital Arrangements Inadequate.

"There are 378 severely wounded men in the Podgoritza hospital, where the king's physician, Dr. Martinovich, is toiling night and day with one male assistant and a few devoted women. Dr. Martinovich dealt with twelve cases in one hour. The contrast between his modern skill and the old time conditions in which he worked was gruesome.

"Every man between the ages of eighteen and sixty-five is on the firing line and the women convey the ammunition and food to the front in bullock wagons."

TURKEY IS KEPT BUSY

Must Answer Italy Tuesday and Has Received Ultimatum Besides.

Paris, Oct. 14.—The Temps says the time limit within which Turkey must accept the peace terms offered by Italy will expire on Tuesday. It is believed in official circles that Turkey will refuse to accedt to the terms, as their acceptance on the eve of a Balkan war would demoralize the army.

The ultimatum of the allies to Turkey has been handed to the representatives of the porte at Sofia, Belgrade and Athens. Turkey is allowed until Oct. 15 to reply. This unusual procedure was made necessary owing to the fact that the Turkish censorship prohibits the sending of code messages over the telegraph lines and this made it impossible to instruct the representatives of the allies at Constantinople to present the ultimatum there.

GIBSON STAYS AT HAVANA

Assaulted Charge d'Affaires Will Not Be Transferred to Brussels.

Washington, Oct. 14.—An aftermath of the assault upon Hugh Gibson, charge d'affaires of the American legation in Havana, by a Cuban newspaper reporter, came in the announcement at the state department that Mr. Gibson's appointment to be secretary of legation at Brussels has been revoked and he is reappointed secretary at Havana.

The chief purpose of this reappointment of Mr. Gibson to the Havana post is to remove any possible excuse for the charge already made in Cuba that Mr. Gibson was transferred from that post because his conduct as charge d'affaires had been unsatisfactory to the department of state.

TAFT SENTIMENT GAINING

Nation-Wide Straw Vote Shows Wilson Still in Lead.

Chicago, Oct. 14.—A nation-wide poll now being made by a syndicate of newspapers shows Wilson still in the lead, Roosevelt second, and Taft third.

The most noticeable development of the past week has been the strengthening of the Taft forces in certain sections.

PRESIDENT IN NEW YORK

With Mrs. Taft and Their Guests He Will Review Fleet.

Woods Hole, Mass., Oct. 14. — The president and Mrs. Taft and their guests left on the Mayflower for New York, where today and Tuesday they participate in the review of the big American fleet now in the Hudson.

The Mayflower was expected to reach New York about noon today.

Valuable Letter Stolen.

Rome, Oct. 14.—A registered letter containing $20,000 sent from New York to the Commercial bank of Milan was stolen between Turin and Milan.

BIG FIND OF AMBERGRIS

Sick Whale Detains Fishermen—To Their Great Profit.

Tacoma, Wash., Oct. 14.—Dr. Elliot and George Bowes consider themselves $30,000 richer because they were detained half an hour in Seward, Alaska, harbor, by a whale that apparently was in some distress. They were in a launch enroute to the fishing grounds when their way was barred by a big whale that was thrashing about on the surface, seemingly in great agony.

When the whale departed he left floating on the surface of the water nine lumps of ambergris strung together, weighing fifty-two pounds. The two men harvested the crop and it is worth $40 an ounce.

Take Hall's Family Pills for constipation.

Every man has a lot of old debts due him that he can't collect, and knows he can't collect, and yet talks about them a great deal.

Antoine Deloaia, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills." For sale by all Druggists of Tecumseh.

It is possible to make a great reputation with a little sense; a man with a little sense is really quite a genius.

Philip Desormeau, Prop, the Farmer's Home Hotel, Schaffer, Mich., says: "Last winter I could not sleep nights on account of a bad cough that would start at bed time and keep me awake. I started using Foley's Honey and Tar Compound and was greatly pleased to find that the cough left me, my appetite increased and I slept soundly at night." For sale by all Druggists of Tecumseh.

There are a thousand things the people ought to do, and although they admit it, they will never do them.

FORTUNES IN FACES

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it, Impure blood is back of them all, and shows the need of Dr. King's New Life Pills They promote health and beauty. Try them, 25 cents at C. A. Wright & Son's.

A man should either be able to keep his temper, or be abe to whip the man he is quarreling with.

A LOG ON THE TRACK

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing indigestion. Michael Hessheimer of Lincoln, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents at C. A. Wright & Son's.

Those riding in automobiles are not as happy and comfortable as those on foot think they are.

R. J. Gunberg, Merchant of Copper City, Mich., says; "For a good many years we have used Foley's Honey and Tar Compound in our family. It will quickly cure a cough or cold and we consider it a safe and sure cure." For sale by all Druggist of Tecumseh.

SAVES LEG OF BOY

"It seemed that my 14 year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c. at C A. Wright & Son's.

Some people are so strong on talk that they try to pay their bills with it.

Mrs. Dora Ray, 720 Brord St., St. Joseph, states: I suffered much misery from my kidneys and bladder and all I tried failed to help me. My kidney action was irregular with a burning pain, and I had headaches and dizzy spells, with swollen ankles I gave Foley Kidney Pills a good trial and improvement followed promptly and in fact, I've felt exceptionally well since taking Foley Kidney Pills." For Sale by all Druggists of Tecumseh.

WILLIAM H. HILL, DETROIT.
Candidate for Congressman-at-Large born in 1852 in Steuben County, N. Y.

After attending district school until fifteen years of age, he worked for his board and tuition at Cayuga Military School, Aurora, N. Y. He took care of horses and cows and did janitor work around the buildings; in vacation periods worked on farms, or did anything to earn an honest dollar. He was a student under Prof. Warren Higley, later Judge Higley of New York City.

After finishing his three years' literary course, he followed Horace Greeley's advice and went west to grow up with the country. Landing in Kalamazoo, he took the first thing offered and clerked in a dry goods store for two years. Then he fitted himself for the drug business, and traveled a number of years in that line. He moved to Detroit in 1885, where he has been manufacturing drug specialties and metallic furniture with marked success.

Mr. Hill has been a life-long Republican, and has always been known as a Progressive. He was a staunch supporter of the late Mayor Pingree at the time he made his fight for the Municipal Lighting System, which was successful. He was also a strong supporter of the Pingree plan for municipal ownership of street railways at the time he tried to take over the street car facilities for the benefit of the people, and still advocates public ownership.

Mr. Hill has always felt there should be some law whereby combinations of capital and great corporations can be controlled and believes that an industrial commission should be appointed with full power to control all corporations engaged in interstate commerce, on a plan similar to that which now controls the national banks and thereby give the small business men the same opportunity, under the laws, as the corporations.

BLACK SILK STOVE POLISH

Not An Experiment

Over a million of Cole's Original Hot Blast Heating Stoves used in America today. They have been proven superior to all other heating stoves by years of use by hundreds of thousands of users. They are in use in every state in the Union; in the homes of capitalists and wage earners; and the most enthusiastic testimonials are received at the factory of the Cole Manufacturing Co. at Chicago every day. Cole's Hot Blast is guaranteed to reduce the fuel bill a third over any lower draft stove of the same size. Guaranteed to hold fire from Saturday night until Monday morning. Guaranteed to give uniform heat day and night with soft coal, hard coal or lignite. Let us show you these stoves and demonstrate their marvelous points of superiority. (R-15)

Lady Cake.

Take two and a half scant teacupfuls of flour and after sifting well mix with one level teaspoonful of baking powder and sift again; add one and one-half teacupfuls of powdered sugar blended with one-half teacupful of butter. Beat the whites of two eggs to a froth; add gradually to the flour one-half teacupful of milk, follow with whites of the eggs, finishing with a few drops of the essence of almond. Bake in a hot oven for three-quarters of an hour

Flour Starch.

Dampness will not render limp, nor ordinary wear remove, the crispness of garments and curtains stiffened with starch made of flour, according to Suburban Life. Use a flat-bottomed utensil and take the open hand to press out any lumps while mixing the flour and cold water. Add a few drops of bluing and boiling water to thicken. If not clear looking, let it boil up once. Add butter, paraffin or kerosene to keep it from sticking to the irons.

STAG DINNER PARTY

A party of fifteen men were invited to a dinner party given by his daughter, Sena Friday evening, Oct 11. to celebrate the 70th birthday of S. P. Hosmer. A fine 6 o'clock dinner was served followed by a smoker

Those who were present for the occasion were R. A. Heesen, J. H. Smith, E. C. Brown, Charles Bidwell, Alfred James, Levi C. Hayden, F. D. Teachout, Dr. P. B. Hardy, Fred B. Wood, Eugene Service, A. D. Lawrence, W. S. Dickinson and J. B. Smith. One or two others were unable to be present. His many friends wish Mr. Hosmer many happy returns of the day.

BIRTHDAY SURPRISE

R. A. Heesen had a birthday last Friday, and in the evening a number of his friends made him a surprise. Cards furnished the amusement of the evening, there being five tables of 500 played. Mr. Heesen as presented with a box of cigars with a card enclosed marked "Vote for Wilson." Needless to say being a Stand Patter, he declined the invitation with thanks.

REGISTRATION NOTICE

Notice is hereby given to the Qualified Elector of the Township of Tecumseh, County of Lenawee, State of Michigan. That a meeting of the Board of Registration of said Township will be held at the Council Building within said Township, on Saturday, Oct. 26, A. D. 1912, for the purpose of registering the names of all such persons who shall be possessed of the necessary qualifications of electors, who may apply for that purpose. Note the change, from the first to the second Saturday proceeding the general election.

WOMEN ELECTORS

In accordance with Section 4 of article 3 of the Constitution of the State of Michigan and Act 206, of the Public Acts of 1909, the Board of Registration of said Township will register the names of all women possesing the qualifications of male electors who make personal application for such registration; PROVIDED, that all such applicants must own property assesed for taxes somewhere within the COUNTY above named, except that any woman otherwise qualified who owns property within said county jointly with her husband or other person, or who owns property, within said County on contract and pays the taxes thereon, shall be entitled to registration. Following are the qualifications of male electors in the State of Michigan: Every male inhabitant of this state, being a citizen of the United States,; every male inhabitant residing in this State on the twenty-fourth day of June, eighteen hundred thirty-five; every male inhabitant residing in this state on the first day of January, eighteen hundred fifty; every male inhabitant of foreign birth who, having resided in this state two years and six months prior to the eighth day of November, eighteen hundred ninety-four; and having declared his intention to become a citizen of the United States two years and six months prior to said last named day, and every civilized male inhabitant of Indian descent, a native of the United States and not a member of any tribe, shall be an elector and entitled to vote, but no one shall be an elector or entitled to vote at any election unless he shall be above the age of twenty-one years, and has resided in this state six months and in the township or ward in which he offers to vote twenty days next proceding such election.

Said Board of Registration will be in session on the day and at the place aforesaid from 9 o'clock in the forenoon until 5 o'clock in the afternoon for the purpose aforesaid.

Dated this 14th day of October, A. D. 1912.

Guy E. Nemire,
Clerk of said Township.

NOTE—The law requiring a new registration throughout for the coming election applies only to certain cities in Michigan, and not to townships An elector who is duly registered, will not be required to re register, in this township, unless he has changed his residence.

Iced Meat Jelly.

Cut into small pieces a pound of soup meat and add water enough to cover; simmer slowly until all the nutriment is cooked out. Two hours before removing from the stove add a teaspoonful of savory herbs and a little salt. Keep the top clear of scum and when done drain and set in a cold place. When it has jellied remove the grease from the top and place the jelly or ice. When ready to serve break into pieces with a spoon and serve in bouillon cups.

Washing Quilts.

It is impossible to successfully wash quilts without having the cotton filling become matted and lumpy. If the cotton batting is covered with cheesecloth and tied before covering is knotted over the cotton the latter may be removed at any time and washed. Afterward it may be replaced and knotted, making the quilt perfectly new again.

Mexican Spaghetti.

Melt two tablespoonfuls of butter in a granite saucepan. When hot add four ounces of spaghetti, broken small, half an onion chopped fine, a teacupful of canned tomatoes, half a teaspoonful of salt, and a little cayenne pepper. Stir till slightly browned, and then add a large cupful of hot water, and simmer till the water is absorbed and the spaghetti tender.

U. OF M. FOOTBALL

Ann Arbor, Mich.

Using the Case game for the time honored purpose of being a test for the Wolverine football material there are some men who, barring a big reversal of form or the sudden uprising of a star are certain to place on the first string The game itself was too hollow a victory for any great rejoicing but the encouraging thing was the pep shown by Michigan. Crimmage with the strong All-Fresh team this week have merely served to emphasize the points brought out in the Case game.

In the first place Patterson at center is certain to have a steady job with the varsity this fall as he did last season. The big boy weighs 200 and is handling his beef in good shape as evidenced by the fact that in the game last Saturday he intercepted a forward pass and tore of a substantial gain before he was stopped. Clem Quinn, playing at left guard also showed well, in fact getting into the game much better than in either of his two previous years on the varsity. Almendinger at the other guard also displayed increased form and was fighting them all of the time in direct contrast to his actions of last year which lost him his letter. The tackles are another question however, Musser, Raynsford and McHale are the leading candidates at present and there is not a one who does not work in under a handicap of actual faults of inexperience. Cole is the one that will bear watching as his greatest fault is not knowing how to handle himself or what to do and every practice is reducing this He is fast and big and if had a year of big games to his credit would be a whirlwind, as it is he looks the best of the bunch Raynsford and McHale are the possibilities for the other tackle with the odds in favor of the latter if he gets to work. Musser does not seem to be able to get over the idea of charging straight up but if he masters this his 200 pounds will make him a formidable candidate.

At quarter, Huebel Boyle and Bushnell are still in the fight with Huebel the best bet for the M. A. C. game Saturday Oct. 12, as Boyle is suffering from a badly banged elbow that may keep him out till the O. S. U. clash. He is better ball advancer than Huebel but the latter knows the signals better at present. Captain Thomas at full is certain with Cyril Quinn as his understudy. Craig is a fixture at left half and Carpell is playing right half in much better form than he did last year. Torbet will probably be used at end in place of Barton who was injured this week in a motorcycle accident and Pontius is certain of the other wing unless a man is found who can fit in at end in good shape in which event Pontius will be shoved in at tackle. Collette and Hughitt have also shown good form in the scrimmages this week working in backfield jobs.

The All-Fresh should mop up on their schedule this year. They have a bunch of heavy fast men, outweigh the varsity about ten pounds to the man and have lots of experience The first game is with Alma at Alma on Oct, 12th, the same day that Michigan Varsity plays M. A. C. at Ann Arbor and as M. A. C. played Alma last week the results of the two games will be watched with a lot of interest It will be the last chance the fans will have to see the varsity in action till the South Dakota game Nov. 2nd and a big attendance is looked for. The following are the men who are showing best on the All-Fresh squad-James and Scott at end, Norton, Benton and Quail in the tackle scrap, Cochrane, Beechler and Smith at center and guards, Young at quarter, Boehm Galt and Dillman at half and Norton, Benton, Scott and Mead at full, Coach Conklin has been assisted by general assistant coach Douglass the past week.

By the end of the week it is expected that the first call for soccer football candidates will have been issued and it is expected that an inter departmental series will be arranged. The cross country club have issued the first call and there will be at least two cup races run this fall and a good chance for the sending of a team east for the annual fall run. The fall tennis practice has brought out a world of material and prospects are bright for a winning net team this year. The match for places on the team have not been started as yet.

Crops In The Country Large

The Crop report from Washington, says that the minor crops all over the country are exceptionally large. They are from 5 per cent to 32 per cent larger than last year Clover seed 32 per cent, Millet hay 20.6 per cent, Millet seed. 24.5 per cent, Corn 18 per cent, Kaffir corn 12.6 per cent, Lima beans 6.4 per cent, Dry beans 5.6 per cent, Hemp 18.5 per cent, the yield of Hops 10 per cent greater by the acre than last year, The composite condition of all crops Oct 1, was better than last year in the States with but few exceptions, Michigan being one of these.

Her Version of It.

"But didn't you promise when we were married that I should smoke in the house whenever I pleased?"

"Yes, but you never please by smoking in the house You displease—me" Exchange.

Neat, Inexpensive Tablecloth.

Take six flour sacks that have been previously bleached and sew them together so the cloth will be two wide and three long, joining corners nicely and sewing so there will be no raw seams on either side. Hem the ends or if you have time and wish it to look neater, draw threads and hemstitch. You will now have a neat, inexpensive tablecloth that will last a long time and launder easily.

Rhubarb Custard.

Stew about 1½ pounds rhubarb and 1 cup of sugar. Make a soft custard of 1 pint milk, 2 eggs, ½ cup sugar and 1 tablespoonful cornstarch in a double boiler. Let both cool, then pour custard over the rhubarb. Rhubarb is much better stewed in double boiler, too, using no water.

FRANCIS HARRING

Francis Harring, who was stricken with paralysis about three weeks ago passed away Sunday, Oct. 13, 1912, at 7:45 p. m. aged 74 years, celebrating his birthday Sept 36 The funeral will be held Wednesday afternoon at 1:30, Rev. B. R. Weld officiating. It will be under the auspices of the G. A. R. of which he has long been been a faithful member. He was a member of the 1st New Jersey Cavalry Volunteers

For years Mr. Harring has been a unique figure on our streets and every one had a pleasant word for him, respecting the infirmity that made him peculiar.

He was a most ardent veteran of our Civil war, and it was his pride to don his old uniform and march in the ranks with the G. ... R whenever they were on parade.

For a long time he has been unable to do much manual labor, but has been ready and willing to do anything that he could. He was a self constituted guardian of the railroad crossing on Chicago Street and more than one has been saved from accident by his timely interference.

Now may he rest in quiet peaceful sleep.

Biscuit Dough Pudding.

Beat three eggs with one cup of sugar; add three tablespoons of cornstarch or four of flour, one and one-half tablespoons of butter, the grated rind of one lemon and the juice of two in four cups of water. Line pudding pan with biscuit dough, put in mixture, cover with another piece of dough, prick with a fork, sprinkle with sugar and bits of butter and bake for 30 minutes in a quick oven. Got hot or cold with milk or cream.

Pilgrim Salad Dressing.

Break three eggs into a porcelain lined boiler; mix into them a teaspoon of salt and a tablespoon of sugar; beat vigorously together with a wire egg beater for four minutes and then add half cup of good cider vinegar. Beat thoroughly and add a cup of sweet milk and beat again. Boil until it assumes the consistency of cream, then remove from fire and beat into it nearly half a cup of butter.

Pepper Sandwiches.

Three green sweet peppers, three hard-boiled eggs, small cupful of mayonnaise, thin slices of buttered bread. Run the peppers and the eggs through the meat chopper or chop them finely in a chopping bowl. Cover the chopped material with sufficient mayonnaise to give it the proper consistency for spreading. Trim the crusts from the buttered bread and put in a substantial [illegible] of the slices

DREAM REALIZED

Tecumseh's White Way Completed and Lights turned on for the first time Saturday Night.

HURRAH! HURRAH! HURRAH!

Tecumseh as the "Biggest Little Town on Earth" has completed one more of the many improvements which adds so much to her beauty and that has gained for her this name. "Our Commerce Club," composed of the most enterprising men of the village and having the village good at heart have done much in the past. The last great work being for the sanitary condition of the village, in the construction of the sewer, this being such a gigantic and unusual sewering of the whole town at once, after they had swollowed it like the boa constrictor they have lain dormant ever since, but fortunately the lethergy that had held them so long passed away at feeding time which occurred at the Barrett House at a banquet.

Here the embryo seed that had lain dormant in many of their minds began to unfold its wings and then was planned our beautiful White Way which was viewed by a large and interested crowd Saturday night.

In the beginning this White Way was estimated to cost $2,400. but it grew and grew, the lights being placed closer together and more of them, until the expense has now reached the neighborhood of $3000, and when the people of Tecumseh understand that this money was raised entirely by subscription, by the business men engaged in business here and given to the village people free, it would seem they could not show their enjoyment and appreciation in a more emphatic and pleasing manner than by patronizing their home merchants and thus help sharing in the expense of this added attraction to our village.

The Electric Light Co., have done much to make this a success in their estimation of the material used. They brought samples of different styles of posts and globe lighting.

The cable measuring about 3000 ft. was placed in trenches through the gutters about sixteen inches underground. The posts, of which there are 34, weighing 634 lbs. each, have a fluted column and a handsome base and artistic cross arms with four drop lights and one upright, the four lower lights are 60 watts or 45 candle power the upper one 100 wats or 80 candle power, making a very brilliant light. The lights are called the Mazda Tunston, this light being thirty per cent cheaper than the old arc light.

The light lighted a street not in its usual condition, being very muddy, and as a good quaker friend of ours sat in the Herald Office, she remarked, "Thee does not pave thy streets paved as we do in Pasadena, does thee?" The seed again in embryo for the Commerce Club.

Attempted Assassination

Roosevelt Shot While on His Way to the Auditorium in Milwaukee

ASSASSIN ARRESTED

Col Roosevelt while on his way to the Auditorium in Milwaukee, was shot in the breast by a man in the crowd, Roosevelt staggered back into the automobile in which he was standing at the time, when he saw that the man was arrested, he raised himself and called out "Don't hurt him."

Not realizing that he was hurt, he proceeded to the Auditorium and gave his speech. He was rushed to a hospital as quickly as possible after the speech. Three doctors worked over him to locate the bullet, but had to use the X-Ray at last. The bullet was lodged in the chest. but did not pierce his lungs.

The Assassin claimed to be appointed by of God to do his deed, and had writings on his person of visions he had seen. He also had the itinerary of Col. Roosevelt on a sheet of note paper. He gave his name as John Schrank of New York.

Col. Roosevelt was taken to Chicago on the night train. While the wound will be a very painful one, yet it is hoped that nothing serious will come of it.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Herald readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

W. C. Witherell, W. Potawajamie St., Tecumseh, Mich., says: "I have had no reason to change my high opinion of Doan's Kidney Pills which I publicly expressed some years ago and I willingly confirm all I have previously said in their praise

I had acute pains across the small of my back and in my hips and often after stooping, a sharp twinge darted through my loins, obliging me to lie down. I was laid in bed for several days and I believe that my trouble was caused by excessive stooping. When I learned of Doan's Kidney Pills I obtained a supply at Wright & Son's Drug Store and the contents of a few boxes restored me to good health. Since then whenever I have felt in need of a kidney medicine, I have taken this preparation and the results have been very pleasing."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

C. M. M. Wheellhan, 326 Fort St., Port Huron, states: "I have used various medicines for kidney trouble that has bothered me for some years and I can honestly say that Foley Kidney Pills did more for me than any of them. They relieved me greatly and I will always be pleased to recommend them."

For sale by all druggists of Tecumseh.

SAVED BY HIS WIFE

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is one of that kind. "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough, when I was so weak my friends all thought I had a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quincy, tonsilitis, hemorrhages. A trial will convince you. 50cts and $1.00. Guaranteed by C. A. Wright & Son.

Chas. C Collison, a liverman living at 920 No. 4th St., Saginaw, states: "I had a severe case of acute kidney trouble with pain across my back and irregular kidney action. I finally took Foley Kidney Pills, and in a few days time the pain left my back, my kidney action became regular and today I am entirely free of all kidney trouble."

For Sale by all Druggists of Tecumseh.

STATE OF MICHIGAN, County of Lenawee, ss.

Probate Court for said County.

At a session of the Probate Court for the County of Lenawee, holden at the Probate Office in the City of Adrian on the 18th day of September in the year one thousand, nine hundred and twelve.

Present, HARRY L. LARWILL, Judge of Probate.

In the matter of the estate of RICHARD E. ANDERSON, deceased.

On reading and filing the petition, of Fred B. Wood, administrator upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased, and the expenses of administration thus far incurred, have been fully paid, and praying that his final administration account may be allowed and for such other order and decree as to this Court shall seem proper.

It is ordered that Monday, the 14th day of October next at nine o'clock in the forenoon be assigned for the hearing of said petition.

And it is further Ordered, That a copy of this order be published in the Tecumseh Herald, a newspaper printed and circulating in said County of Lenawee, for three successive weeks previous to said day of hearing.

WYOMING CONVICTS ESCAPE

Ten Desperate Men Are Still at Large Near Rawlins.

Rawlins, Wyo., Oct. 14.—Ten of the nineteen convicts who, led by the notorious Jim Dalton, member of the Whitney gang of bank robbers, fled through a broken fence in the penitentiary yard, are still at large and the possibility of their recapture is remote, since they are believed to have gained the hills north of the town before nightfall.

The town is being patrolled by armed citizens and men and women sit in their homes with weapons close at hand listening for intruders. The fugitives are known to be the most desperate of the penitentiary's in-

Government Produces Evidence In Dynamite Conspiracy Trial Tending to Support Confession of Clark.

Indianapolis, Oct. 14.—At the "dynamite conspiracy" trial E. L. Shipp, a hotel clerk at Cincinnati, told of the arrival in Cincinnati on May 1, 1908, of Herbert S. Hockin.

Edward Clark, who has pleaded guilty, said he was induced on that date by Hockin to dynamite a bridge at Dayton, O. The explosion occurred three days after Hockin's visit.

William H. Sturmer, assistant manager of a Chicago hotel, testified that Eugene A. Clancy, San Francisco, was in Chicago Oct. 14, 1910, two weeks after the Los Angeles Times explosion. The government contends that Clancy took part in hiding J. B. McNamara.

SON FINDS FATHER KILLED

Clifton Billhymer Returns Home and Discovers Body Lying In Blood.

Noblesville, Ind., Oct. 14.—Erastus Billhymer, fifty-six years old, was found dead at his home near this city by his son Clifton, when he returned from his work after an absence of two days. Mystery surrounds the death. There was blood spattered about the room and a wound on the back of his head appears to have been inflicted with some blunt instrument. There was no knife or revolver wound to indicate suicide.

The body was lying in the center of the room and partially nude. Physicians say there is evidence that the man had been dead for two days. The remains were brought to this city and the authorities will begin an investigation. The deceased and his son were living together. He and his wife had separated several months ago.

MORE TROOPS AT AUGUSTA

Georgia's Governor Prepares for General Strike of Union Men.

Augusta, Ga., Oct. 14.—Four more companies of troops were ordered out by Governor Brown to aid in maintaining martial law in the event of a general strike of union men being declared in connection with the street railway strike which has been on here for three weeks.

The action was taken at the request of Mayor Barrett after 400 members of the carpenters', tinners,' sheet metal workers' and painters' unions went on a strike. Sympathy for the striking carmen was aroused by the action of the merchants in urging citizens to raise the boycott on the street railway company.

TALKS, THOUGH CUT IN TWO

Boy Is Conscious Two Hours After Body Is Severed by Train.

Chicago, Oct. 14.—Richard Polland, ten years old, whose body was cut in two by a railway train, died at a hospital after a period of consciousness lasting more than two hours.

Polland's body was severed just above the hips. His mother went to the hospital and talked with him before he died. Physicians were at a loss to explain how consciousness, during which the boy talked in response to questions, could be retained for so long a time.

PROTESTS AGAINST CHARGES

Mrs. Fisher, Widow of Slain Man, Asserts Arebach's Innocence.

Chicago, Oct. 14.—With Oscar N. Arebach of Chicago, formally held in Michigan on a charge of having killed Harry W. Fisher, his personal friend and business associate, in the woods near Baldwin, Mich., on Sept. 20, Mrs. Fisher, whose name in the court proceedings was linked unpleasantly with that of Arebach, again appeared in the role of defender of the accused man.

"There is absolutely no foundation for the accusation against Arebach," she says. "He did not kill my husband. Of course I am positive. He will be cleared of the charge that is hanging over his head when he comes to trial."

WOMAN'S TRIALS.

The burdens a woman has to carry through life are many but they can be lightened if she will turn to Dr. Pierce's Favorite Prescription. A soothing and strengthening nervine—subduing nervous excitability, prostration, hysteria, hot flashes and the many symptoms which may be caused by distressing [illegible] peculiar to women. For those "dragging-down" pains or distress and for the derangements and irregularities the "Favorite Prescription" has had many thousands of testimonials from people living in every part of America. Another important thing to *every woman* is that this medicine is made from efficient medicinal roots, without the use of alcohol, narcotics, or any injurious agents. Full list of ingredients given on bottle-wrapper and sworn to by Dr. R. V. Pierce—who is President of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. Every woman is invited to write to this Institute and receive confidential and sound medical advice, entirely without cost from one who makes the diseases of women his specialty.

"I can cheerfully recommend your remedies, especially your 'Favorite Prescription,' for all female disorders," writes Mrs. M. M. Morrell, of Bluff City, Tenn., Route 2. "During the past seven years I suffered from pains in the back and ovaries. Tried many remedies but found only transient relief until I was persuaded by a friend to try Dr. Pierce's Favorite Prescription. After giving this remedy a fair trial I found that it would do just what it is recommended to do. I used in all seven bottles. I cannot speak too highly of Dr. Pierce's remedies for all female derangements."

BIRTHDAY SURPRISE

John Bachman and daughter, Miss Carrie, were entire unaware of the fact that his children, with other relatives and near neighbors were planning on spending the evening with them Thursday, and help them celebrate Mr. Bachman's 82nd birthday. About thirty of them walked in without warning, with well filled baskets. As soon as they could overcome their surprise, preparations were made for a splendid supper, which they soon had in readiness, one of the chief features being the large birthday cake for Mr. Bachman. The rest of the evening was spent socially in relating old stories which every one enjoyed, making the time a very pleasant one for all. Those from away were Mr. and Mrs. George Bachman and son, Thurlow and John Bachman of Toledo, Mr. and Mrs. Mike Bachman of Macon, Mr. and Mrs. Lewis Bachman of Ridgeway, and Mrs. Carrie Bendel and Miss Mary May Miller of Milan.

COLOR ILLUSIONS.

Curious Effects From Red and Blue on a Black Background.

If on a screen of black velvet placed at a distance of ten feet from the spectator large letters are pasted, some blue, some red, they will not appear to be at an equal distance from the eyes. To some persons the red letters will seem nearer than blue letters, while to other persons the contrary effect will be manifested.

To produce this effect both eyes must be employed. When one eye is closed the letters are all seen at the same distance. On opening the other eye one set of letters immediately appears to take a position in advance of the others.

The explanation offered for this effect is that a sort of stereoscopic illusion is produced in the eye itself, depending upon color. The image of a blue object is shifted by the eye toward one side and that of a red object toward the other side.

If on looking at blue and red letters on a black background placed ten or twelve feet away you see the red letters nearer than the blue, screen off one-half of the pupil of each eye on the outside and you will see the red letters retire behind the blue ones.

If you screen the pupils on the side toward the nose you will see the red letters advance apparently still farther ahead of the blue ones.

If, on the other hand, you naturally see the blue in advance, screen the inner side of the pupils of your eyes and the red will come to the front.

Beautiful effects are produced with one eye alone when, instead of letters, red or blue rings are pasted on a background of the opposite color. Placing red rings on blue paper and using the right eye with the inner side of the pupil covered, the appearance is that of circular red hillocks resting on a blue ground.

To produce this effect in its highest degree the paper must be held to the left and sloping in that direction. When the outer side of the pupil is screened the red rings will become circular trenches in the blue paper.—New York Sun.

MAKE YOUR OWN ICE CREAM

Attention to Details Will Insure Delicacy Being Turned Out in Perfect Fashion.

As in candy making, the essential thing to perfect success is attention to details. Carelessness with the freezing is responsible for most of the failures with this delicious dainty. In packing the freezer for the service, it must be remembered that the smaller the ice is broken the better, while the salt should never be too fine. A salt prepared especially for the purpose is known as "ice cream salt." This salt and the finely broken ice are put in alternate layers about the cream can, which is generally set in a washtub. Begin with a layer of ice, making this about three inches deep. Then put in a layer of salt about an inch in depth, and continue in this alternate way up to the top of the cream can. The ice can be put in a gunny sack and then broken up with a heavy hammer or hatchet. To prevent the cream from "lumping," as it will do if frozen rapidly, turn the freezer slowly at first, increasing the speed as the freezing progresses. If the lid of the freezer does not fit securely the salt water will get into the cream, when it will be ruined for sensitive palates.

Every utensil used in making the cream should be kept scrupulously clean. See that the can is carefully cleaned after every using and also well sunned. Before using it again give it another scalding. Be careful, too, of letting the children eat cream that has stood over night in the can. There is always danger of ptomaine in stale ice cream or in ice cream made in an imperfectly cleansed can.

THINGS WORTH KNOWING

When juice is left from canning it may be boiled low, made into jelly or sirup for flavoring purposes.

The skin of new potatoes can be removed more quickly with a stiff vegetable brush than by scraping.

Rub your stove off daily with newspaper. It will keep it in fine polish and it will not be so hard on the hands.

Don't use a galvanized iron lemon squeezer. When brought in contact with the lemon it forms a poisonous salt.

When anything is accidentally made too salt it can be counteracted by adding a tablespoonful of vinegar and a tablespoonful of sugar.

For the destruction of ants, spiders and cockroaches, a strong solution of alum in boiling water, poured over the infested parts, will be found excellent.

Whisky will take out every kind of fruit stain. A child's dress will be entirely ruined by the dark stain on it; but if whisky is poured on the discolored places before sending it into wash it will come out as good as new.

Turbot a la Creme.

A pint of cooked white fish, picked from the bone. Make a sauce of a pint of milk, a few sprigs of parsley and a slice of onion. Simmer together until well flavored; wet one tablespoonful of flour and stir in with butter the size of an egg. Season with a teaspoonful of salt and dash of pepper. Use individual fish dishes. Put a little sauce in a dish, then a layer of fish and so on, putting sauce on the top. Cover with rolled crackers or bread crumbs and brown in a moderately heated oven.

Cream Scones.

Sift one and one-half cupfuls flour into a basin, add one teaspoonful sugar and one teaspoonful baking powder. Rub in one heaping tablespoonful butter, then make into soft paste with some cream. Divide it in two pieces. Take one piece and roll it out quite thin and round; then roll out the second piece and cut them into eight pieces. Lay them on hot griddle and bake them for five minutes, turning them once.

Short Oatcake.

One pound of oatmeal, ½ pound of butter, ½ teaspoon carbonate of soda, 1 teaspoon salt; put the oatmeal in a bowl, add the soda and salt, rub in the butter, make into a paste with about ½ pint of cold water, cover the pasteboard with meal, turn paste on to it; make it into a small ball, flatten it with the backs of your fingers, roll out to the thickness of a crown piece, cut into shapes and bake on a hot stove or griddle.

Tape Should Always Be on Hand.

If a roll of inch wide tape is kept on hand a great deal of time may be saved. It is a strong, easily applied binding for the armholes of waists and similar garments, serves to strengthen tucks and is invaluable for mending breaks in many ordinary cotton garments. It can be used speedily and without bulky seams.

When Breaking Eggs.

Very frequently when separating the whites from the yolks of eggs, the yolk becomes broken and falls into the white.

Dip a cloth in warm water, wring it dry and touch the yolk with a corner. The yolk will adhere to the cloth and can easily be removed.

Cookie Hint.

When rolling out cookies, try this: Take a piece of muslin, pin and stretch it tightly over the bread board; then cover the muslin with flour and you will find that you can roll the dough as soft and thin as you want. Or stretch a piece of muslin around the rolling pin.

Potted Chicken.

A chicken is cut up as for fricassee, and to each pound of meat allow two tablespoonfuls of flour, one scant half teaspoonful of salt and dust of pepper. Mix thoroughly and roll each piece of meat in the mixture. Pack closely in a large bean pot, and cover with boiling water. Bake for three hours and a half. Cover after 10 or 15 minutes, but not before it boils. Serve in the dish in which it was baked.

Spanish Puffs.

Put into a saucepan a teacup of water, one tablespoon of powdered sugar, half a teaspoon of salt, two ounces of butter. While this is boiling add sufficient flour for it to leave the saucepan. Stir in, one by one, the yolks of four eggs, drop a teaspoonful at a time in boiling lard and fry a light brown.

Canned Rhubarb and Gooseberries.

[illegible] as for cooking, put in cans [illegible], cover with water, seal and they will never spoil.

PUSH EDUCATION IN PHILIPPINES

Insular Department Makes Report Showing Progress.

HALF MILLION CHILDREN LEARN

Full Course Is Taught by 9,000 American and Filipino Teachers, Manual Training Idea Being Prominent.

Washington, Oct. 14.—To make good Filipinos, not good Americans, is the object of the system of education which the United States is conducting in the Philippines, according to the report of the department of education of the insular government received here.

Making Them Good Filipinos.

"We are not trying to make good Americans of them, but to make good Filipinos of them, and we are succeeding. We have established as generally as possible throughout the archipelago an educational system which we hope will give the greatest possible number of the islanders the kind of education which will do them the greatest possible good—as islanders." Such is the statement of policy that is made.

500,000 Children Enrolled.

More than half a million children are now enrolled in the public schools of the Philippines. They are being taught and supervised by more than 9,000 American and Filipino teachers with practical courses of study from the primary grades up through the professional college of the Philippine university.

The greater part of the theory of educational system of the islands is in the direction of manual training.

MONEY AT LOW RATES

President Has Plan to Reduce High Cost of Living.

Makes Nation-Wide Appeal to Governors to Assist, Legislation for Land Mortgage Banks.

Beverly, Mass., Oct. 14.—"We must establish a credit system of, for and by the farmers of the United States."

In this statement President Taft summarizes a nation-wide plan to assist in the financing of the needs of the American farmers, thereby reducing the cost of production of food products and resulting in a relief to the consumer from the high cost of living.

In a word, President Taft declares that the farmer should be provided with money at the same rate of interest as other lines of business.

President Taft's plan was set forth in a letter sent to all the governors of the states. He urges that steps be taken in every state in the Union to bring about legislation for the creation of state land mortgage banks. In addition, he urges the starting of a movement for the enactment of laws by congress permitting the organization of national land mortgage banks, to be operated under strict government supervision.

In this manner he proposes to put the guarantee of the national government back of the farmer's credit. The national farm bank, according to the president's plan, shall have the power to guarantee and market the debenture bonds of the state land mortgage banks or co-operative societies.

BIG PARADE IN PROTEST

Thousands at Lawrence, Mass., Show Disapproval of Industrial Workers.

Lawrence, Mass., Oct. 14. — Thirty thousand American flags were carried through three miles of muddy streets by 30,000 men, women and children in a unique demonstration against the Industrial Workers of the World. Scarcely a building in the city was without decorations.

Lining the streets through which the parade passed the spectators stood ten deep, and almost without exception they all waved the Stars and Stripes or wore a minature flag on their coats.

ROOSEVELT IS SHOT BY MAN IN MILWAUKEE

Hurt Is Not Serious and Colonel Makes His Speech.

WOULD-BE ASSASSIN IS JOHN SCHRANK, SOCIALIST

Assailant, Who Is Evidently Crazy, Had Been Following Progressive Leader for Several Weeks—Almost Lynched by an Angry Crowd.

Colonel Theodore Roosevelt was shot and slightly wounded at Milwaukee, Wis., as he was leaving his hotel for the Auditorium, where he was to deliver his speech of the evening.

The man who did the shooting has been identified as John Schrank and his last residence is supposed to have been 370 East Tenth street, New York city.

The assailant, who later issued a proclamation saying that any man who wanted to be president for a third term should be shot, was all but lynched by a mob of 10,000 persons who had gathered about the hotel to see Colonel Roosevelt.

Assailant Evidently Insane.

The assailant is evidently a maniac, for his proclamation, as he termed it, was incoherent in places. The man gave evidence by a memorandum of the Roosevelt schedule that he had been following Colonel Roosevelt for a week, the first item on the schedule being a Carolina date on Sept. 21.

The colonel was at first supposed to have escaped uninjured, for after a momentary start he smiled but, putting his hand under his coat for a minute, was seen to wince for an instant, and then he moved forward, stepped into the automobile, spoke a word to his associates and in an instant the automobile was whirling away toward the Auditorium. The fact that he had left for the Auditorium gave every reason to believe that he had been unhurt. When he rose to speak at the Auditorium, however, the colonel said:

"An attempt has just been made to kill me. I am carrying the bullet in my body now, and so I will have to cut my speech short." He repeated this statement repeatedly during the meeting.

That Colonel Roosevelt was actually shot was seen by the crowd in the Auditorium when his white vest was seen to be streaked with blood, which was oozing from the wound in the right breast.

Shooting In Front of Hotel.

The scene of the shooting was directly in front of the Hotel Gilpatrick, where 10,000 people had gathered previous to a speech on the issues of his campaign for the presidency.

As the ex-president stepped from the hotel a slovenly dressed man brushed out from the dense crowd around the colonel's automobile. Quick as a flash he drew a revolver and shot Roosevelt.

The bullet bored through the fleshy part of the right side, below the shoulder.

Roosevelt staggered back into the automobile and then, raising himself, called out, "Don't hurt him."

A crowd pounced on the would-be assassin and he was dragged into the kitchen of the hotel. Roosevelt, considering himself not hurt, went on to the Auditorium.

Stenographer Seizes Assassin.

The would-be assassin was grabbed by Albert Martin, one of the colonel's stenographers, who leaped upon him and bore him to the ground. Captain A. J. Girard, a rough rider with Roosevelt, helped subdue the man, who is said to be a Socialist. He was locked up in police headquarters and refused to say a word.

Colonel Lynn, the colonel's bodyguard, knocked the revolver from the man's hand.

Groans and cries came from the throats of the throng. A scene of turmoil never before witnessed in Milwaukee took place. The din was quieted only when it was learned that the colonel's injury was not serious.

An examination of the wound by Dr. Eatton of Milwaukee and three other surgeons showed that the bullet had entered the fleshy part of the right chest.

The wound bled freely for some time, but Colonel Roosevelt said he was suffering no pain and so far as could be learned there was no internal hemorrhage.

Manuscript Saves Colonel's Life.

The manuscript of his speech doubtless did much to save his life. When he had come upon the platform at the Auditorium and drew the manuscript from his pocket during the first few words he spoke, the torn sheets of paper, showing many stains of blood, showed also that the bullet had gone through the manuscript.

"You see," cried the colonel, holding up the manuscript so that his audience could see the bullet's hole through the sheets of paper, "it takes more than that to kill a bull moose."

COLONEL ROOSEVELT

Recent Snapshot of Man Whom Maniac Attempted to Murder.

It was learned later that the bullet had passed through the colonel's overcoat, his coat, his manuscript and edge of his spectacle case and n through his waistcoat and underclothing, and had stopped about two inches under the skin.

Rambling Talk of Assassin.

The man who shot him is an undersized German, evidently mentally unbalanced. In a rambling, innocuous statement he said he had tried to do his duty—that he considered it the duty of every citizen to kill a third term aspirant, as that course would soon develop a monarchy.

When Schank finally told the police his name and address in New York he became quite calm and sat down to tell more about himself.

He was in the saloon business in New York, with his uncle, when Roosevelt became police commissioner. "He closed out our saloon and I have hated him ever since."

He claims to have a spirit message from Former President McKinley directing him to kill Roosevelt, who rose to power upon the assassination of McKinley. In his effects were found many inflammatory circulars, excerpts from anarchist and socialist papers, etc.

At Mercy hospital in Chicago the bullet was located near the right nipple deeply imbedded in the flesh. It was said not to be dangerous but the colonel will be confined several days.

TURKS GIVE UP TUSHI

Way to Scutari Now Open to the Montenegrins.

The Turkish town of Tushi surrendered to the Montenegrins. This opens the way to Scutari, where Turkish forces are said to be concentrating and on which the Montenegrin troops are now advancing.

After a heavy bombardment the Montenegrin infantry prepared to assault Tushi under cover of the artillery. A Turkish officer bearing a white flag appeared and unconditionally surrendered the garrison to Crown Prince Danilo.

Several guns were found in the defense works, all badly damaged by the Montenegrin fire. The spoils included eight machine guns and 7,000 rifles. The captured garrison numbered 3,000 regulars.

The Montenegrins made a triumphal entry into Tushi headed by the crown prince and his staff.

BANDITS IN AUTO GET $3,000

Robbers Waylay St. Louis Saloonkeeper—Hold Pursuers at Bay.

At St. Louis, Mo., several bandits who used an automobile waylaid Thomas J. O'Meara, a saloon keeper, and took from him a grip containing $3,000 in cash.

They held off a crowd of pursuers with revolvers and escaped. The number of the automobile was obtained by the police. O'Meara had drawn the money from a bank to cash workers' checks in his saloon.

AREBACH'S NERVE UNSHAKEN

Evidence of Charge of Murdering Partner Causes No Emotion.

Baldwin, Mich., Oct. 14.—No evidence of a sensational nature developed at the preliminary examination of Oscar M. Arebach, a Chicago business man and college graduate, charged with the murder of Henry W. Fisher, Arebach's partner in business. Arebach, apparently cool and collected, seemed to take little interest in the hearing.

Sheriff Bates testified that Arebach, to his knowledge, displayed no emotion when telling of the death of his friend. The evidence offered was considered of a circumstantial nature. Recently Fisher's body, with a gunshot wound in the back, was found in the woods near his fruit farm here. Arebach asserted the former had accidentally shot himself while they were hunting.

OFFICER ORDERED ROSENTHAL'S DEATH

Becker said Gambler Must be Put Out of Way.

Witness Tells of the Quarrel Between Lieutenant and Rosenthal and of Positive Order for the Latter's Death.

In New York city "Bald Jack" Rose, self confessed go-between in the collection of police graft, took the witness stand at the trial of former Lieutenant Charles Becker for the murder of Herman Rosenthal.

He told of the quarrel between Becker and Rosenthal, of Rosenthal's apparent efforts to break away from Becker's domination, of his gradual exposure of relations between them and of Becker's final demand:

"I want him (Rosenthal) murdered—shot—croaked—dynamited—or anything."

"Becker told me," said Rose, "that Rosenthal meant to do what he had threatened after they quarreled—to squeal and break him. 'We have got to put Rosenthal,' he said, 'where you nor I nor anybody else will ever have to worry about him again.'"

Saw Leader of Gangmen.

Rose said he protested at this, but Becker was obdurate. At Becker's orders, he continued, he saw Jack Zelig, a gang leader, in the Tombs, and got the gunmen to kill Rosenthal.

Before the details were finally completed, he told Becker that a detective had "scared the boys off."

"'Detective!' he said. 'Walk up and shoot Rosenthal in front of a policeman. Get through with it; get it over.'"

"Becker," Rose testified, "said Rosenthal had made a proposition to him that he go into partnership with Rosenthal in running a gambling house and had asked him to invest $5,000 in it. I said no one ever made any money in the gambling business with Rosenthal.

Becker Held Rosenthal Mortgage.

"Becker, however," continued the witness, "did not agree and made a proposition to allow Rose to take a 25 per cent share in the business of the proposed establishment. Backer took a $2,500 chattel mortgage on Rosenthal's property and arranged for a "dummy" to hold the mortgage.

"Becker asked me," the witness went on, "if I would take charge and I said I would."

The witness told of conversations with Becker in which the police lieutenant inquired what were the profits of the gambling house.

"I reported to him on one occasion that the house had made several thousand dollars," said Rose. "He told me to tell Rosenthal to send him $500.

Rosenthal's Place Raided.

"Several days later Backer told me that complaints were pouring in and he would have to raid the place. He told me to see Rosenthal and tell him to do him a favor.

"'Tell him he has to stand for a raid,' Becker said. 'I did him a favor and he must do one for me. I'll raid the place and it will relieve me from worry, and in a few days he can reopen the place and everything will be all right.'"

Rosenthal would not agree to this proposition so Becker had the place raided. The emnity between the two men then became acute.

Rose said he went to the home of the four gunmen—"Gyp the Blood" and his pals—and explained the Rosenthal-Becker situation. He told them, he said, that Becker would "frame them up" if they did not "croak Rosenthal."

TROLLEY CARS IN CRASH

Passengers Hurled Through Windows and into River.

Passengers on a car of the Southern Michigan Railroad company, running from South Bend, Ind., to St. Joseph, Mich., were hurled through the windows of the car into the St. Joseph river, thirty feet below, in a rear-end collision upon a trestle at Berrien Springs, ten miles north of here. One man was probably fatally hurt and nine persons were severely injured in the crash.

Failure of a flagman to run back far enough to stop an approaching car after his own had been derailed is believed to have caused the accident. Both cars were wrecked, but remained on the trestle.

BIG GUNS IN SALUTE

President Taft Inspects Fleet of Warships in Hudson River.

A New York a navy salute of nineteen guns greeted Secretary Meyer of the navy as his flag on the Dolphin fluttered to the breeze as a signal for the opening of the great naval review. President Taft made port on the Mayflower just about the time that the secretary finished his review, and when the president broke his flag every ship with guns boomed a salute.

There never was so large a fleet of warships assembled in American waters, therefore never such a roar of salutes as marked the president's arrival.

SHOT BY TWIN BROTHER

Gun Is Accidentally Discharged While Two Are in Boat.

Bay City, Mich., Oct. 15.—Car Arnes, twenty-three years old, of Gifford, Tuscola county, lies in Mercy hospital in a critical condition from a gunshot wound in the abdomen, the result of a hunting accident. Arnes and his twin brother, Fred, went duck shooting at Quanicassee, twelve miles from here. They were in a boat when in some manner Fred accidentally discharged his shotgun, the charge taking effect in his brother's body.

Fred at once rowed to Vanderbilt's hotel and the wounded man was rushed to the hospital here in an auto. Physicians gave out little hope for his recovery.

Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

NATIONAL BANK OF COMMERCE
Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Every man has a lot of old debts due him that he can't collect, and knows he can't collect, and yet talks about them a great deal.

Antoine Deloais, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills." For sale by all Druggists of Tecumseh.

It is possible to make a great reputation with a little sense; a man with a little sense is really quite a genius.

Philip Desormeau, Prop, the Farmer's Home Hotel, Schaffer, Mich., says: "Last winter I could not sleep nights on account of a bad cough that would start at bed time and keep me awake. I started using Foley's Honey and Tar Compound and was greatly pleased to find that the cough left me, my appetite increased and I slept soundly at night." For sale by all Druggists of Tecumseh.

There are a thousand things the people ought to do, and although they admit it, they will never do them.

FORTUNES IN FACES

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it, Impure blood is back of them all, and shows the need of Dr. King's New Life Pills They promote health and beauty. Try them, 25 cents at C. A. Wright & Son's.

A man should either be able to keep his temper, or be abe to whip the man he is quarreling with.

A LOG ON THE TRACK

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing indigestion. Michael Hessheimer of Lincoln, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents at C. A. Wright & Son's.

Those riding in automobiles are not as happy and comfortable as those on foot think they are.

R. J. Gunberg, Merchant of Copper City, Mich., says; "For a good many years we have used Foley's Honey and Tar Compound in our family. It will quickly cure a cough or cold and we consider it a safe and sure cure" For sale by all Druggist of Tecumseh.

Laugh when a friend tells a joke; it is one of the numerous taxes you must pay.

SAVES LEG OF BOY

"It seemed that my 14-year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c. at C A. Wright & Son's.

Some people are so strong on talk that they try to pay their bills with it

Mrs. Dora Ray, 720 Brord St., St. Joseph, states: I suffered much misery from my kidneys and bladder and all I tried failed to help me. My kidney action was irregular with a burning pain, and I had headaches and dizzy spells, with swollen ankles. I gave Foley Kidney Pills a good trial and improvement followed promptly and in fact, I've felt exceptionally well since taking Foley Kidney Pills." For Sale by all Druggists of Tecumseh.

WILLIAM H. HILL
Progressive Candidate Congressman at-Large.

Every voter has the right to vote for this office, it is a State office and your vote for me will not affect any district Congressman.

MR. VOTER:—What is your standard for the man who is to represent the whole State of Michigan at Washington as Congressman-at-Large? Should he not be a man who has proven his ability and made a marked success in his chosen line of work—a man of standing, whose record is clear in every way?

All thinking people concede that existing conditions are far from being right and, necessarily, measures of the utmost importance to all the people will be introduced in Congress. Therefore, would it not be well to have as your Congressman-at-Large a man of experience, a successful business man, who can vote and work for beneficial measures without a thought of political expediency and in fear of or in favor of no one? I can do just that, AND I PLEDGE MYSELF TO DO IT.

War in the Air.

A strange drama of bird life was witnessed recently by some Portland fishermen on the south coast of England. A homing pigeon was attacked by a large hawk, when two rooks and a seagull joined forces and attempted to deprive the hawk of its prey. The fight lasted some five minutes when the hawk, tearing the pigeon's head from its body, let the latter fall and flew away.

The annual session of the Michigan Presbyterian Synod just closed in Saginaw. Will hold its next meeting in Adrian. It is estimated that there will be 300 Presbyterians present at the meeting and some of the very best talent of the state will be heard at that time

Why She is Silent.

It is said that women nowadays are less prone than men to weary those they meet with long discourses upon their favorite hobbies, and that furthermore, the beauty doctor is responsible for this feminine peculiarity. The woman absorbed in beauty culture has little time for any other hobby, and the secrets of the toilet are not such as can be discussed with all and sundry.

WOMAN SUFFRAGE.

New York advocates of equal suffrage feel very much elated over the unusual victories scored in all the State political conventions this fall. The latest to incorporate a woman suffrage plank was the State Democracy in convention at Syracuse October 2. Every political party in New York State has now placed itself on record as favoring the submission of the question to the voters, and a vigorous campaign is being planned by suffrage leaders of the Empire State.

The Republican convention of New Jersey, at its session October 1, offered a resolution that a plank favoring woman suffrage be inserted in its platform, and the motion was carried by acclaim. The Democratic convention has taken similar action

Arizona campaign reports show that about eighty per cent of the voters of the State are in favor of the woman suffrage amendment.

The Michigan "Votes for Women" campaign, though a quiet one and lacking in the spectacular, is being pushed to every section of the State. Efforts to reach the individual voters continue to be the first aim of the active workers. the distribution of literature is being systematically pursued, meetings are held in every city, town and village, and the newspapers supplied with all kinds of material to prove the justice of the cause.

RAILROAD NEWS

For the purpose of keeping the Toledo terminal clear and to avoid the congestion of last year the Pere Marquette has placed an embargo on all soft coal shipped through Toledo, consigned either to the Michigan Central or the Grand Trunk at Detroit as they control the major part of the Detroit terminals. Already there are signs of a congestion, as Detroit is unable to receive freight through the Toledo gateways Because of the rush of freight the car situation is already in a critical state.

The sugar beet crop has also to be moved. The Pere Marquette alone expects to move about 20,000 carloads of beets from Michigan to the factories in Ohio.

STATE FEDERATION OF CLUBS SAGINAW, MICH.

The Convention was formally opened Tuesday, with about 200 delegates present. Mrs. Emma A. Fox of Detroit, conducted a conference of parliamentary usage. Mrs. Fox is one of the leading parliamentarians of the country. Conservation Conference was in charge of Mrs. Louis L. Mautuer of Saginaw. A resolution was passed recommending an investigation of Germany's sytem of the disposal of sewerage, and the passing of proper state legislation for the protection of river fronts.

The delegates of the Federation also discussed a plan proposed by the Saginaw reading club, to be presented to the federation before the closing of the convention, to have the State federation and the General federation appoint a committee to wait on the National legislature, judiciary and executive departments of the United States to give woman an opportunity to criticise from the department of the home, hygiene, sanitation etc.

The first social event was held Tuesday noon, when the Woman's Club of Saginaw gave a luncheon to the State officers, at the home of Mrs. Hamilton Watson. Covers were laid for 20, all the State officers and directors being present.

Wednesday afternoon Jane Addams of Chicago, the Equal Suffrage Champion, Social and Settlement worker, and supporter of the Progressive party spoke to an audience of 4,000 people in the Auditorium, Her subject was "Suffrage," and she urged the clubs to support Suffrage at this time. She told of the condition and reforms in Chicago, and the need of the ballot. Miss Addams was given an ovation before and after her talk.

The routine business of the meeting Thursday was closed in time to listen to an address by Miss Sui Wang a Chinese student at Albion, also an appeal from Dr. Caroline E. Gestel on "Sex hygiene," Election of officers was in order for this morning and the closing of the meeting.

Still It Persists.

Obituary

JOHN HENRY NYLAND.

John Henry Nyland was born in Gilderland Holland June 15, 1830, coming to America in 1854, he located in Cleveland Ohio where he was united in marriage to Miss Hendina Heesen April 1858.

In 1859 they came to Tecumseh where he engaged in the shoe business and continued in that occupation for nearly 40 years. of late years he has devoted his time to farming.

He passed away Oct. 15, 1912 after a brief illness. Mrs. Nyland proceeded him into the better world in Nov, 1907. The funeral was held from the home this afternoon at 2:30, his pastor Rev. B. R. Weld officiating burial at Brookside Cemetery.

A. W. GOULD, M. D

Dr Alvan Wadsworth Gould of Wildwood, Bradley County, East Tennesse, died Sept. 17. 1912, aged 75 yrs. 5 months and 10 days, of heart disease

He was in town in the barber shop when stricken and was taken home in an automobile. He never regained consciousness dying the next day. He leaves a widow and one son.—The Cleveland Herald, East Tennessee.

Many of the older residents of Tecumseh will remember Dr. Gould, who at one time was one of the firm of Gould & Waldo in a drug store, located in the store now occupied as headquarters by the Progressives and residing in the house now owned by James Eccles. He also practiced medicine here. and was highly esteemed,

DeWITT WILSON DROWNED

Body Found Floating on Swan Creek Toledo, October 15.

The body of DeWitt Wilson a former resident of Holloway, and of late working in and around Tecumseh was discovered floating on Swan Creek, Toledo Tuesday by Charles Shellinger, who lives in a houseboat at the foot of Lafayette Street. From papers found on his person. he was located as belonging here, and John Smith was duly notified and requested to find relatives if any. He telephoned Ira Wilson of Holloway, a brother, who identified the body. The remains arrived in Tecumseh Wednesday, and were taken to Holloway by Stahl & Service. who conducted the funeral Thursday afternoon. Two brothers George and Ira are left, Deceased was about 57 yrs. old and unmarried.

DR. W. H. JONES

Prominent Adrian Osteopath Died Monday Evening

The sudden death of Dr. W. H. Jones of Adrian, cast a gloom over his many friends throughout the country, where he was so well known not only as a physician, but also in a political and social life.

His death followed a serious operation at Bixby hospital, and he was sick only two days. The operation disclosed an obstruction of the intestines by a large blood clot and this is thought to be the result of a fall he had in August when he fell from porch steps while north, striking on his abdomen on the cement walk

The doctor realized his condition and was conscious almost to the last, he had a farewell talk with his wife, and soon after lapsed into unconsciousness.

Dr. Jones has been located in Adrian about twelve years, and was a prominent worker in his profession He was President of the State Association at the time of his death. He was a prominent Mason, also a member of several other secret societies. He leaves a widow, Dr. Gertrude Jones, and one brother, John Wesley Jones, an Osteopath of Baltimore Md. The funeral was held from the Jones Sanitarium Thursday at 2:30 p. m.

Dr. Jones had many patients in Tecumseh who appreciated his worth and mourn his untimely death,

The Youth's Companion For 1913

The Youth's Companion appeals to every interest of family life, from housekeeping to athletics. It begins with stories of youthful vim and vigor, with articles which disclose the secrets of successful play in the great games, with charming tales of life at the girls' colleges. But The Companion does not surrender these readers when they have entered the more serious paths of life. Mothers will welcome the page for little children and the weekly doctor's article. Fathers will find the important news of the day as it is, and not as it is rumored to be. The entire household will appreciate the sketches which touch gently on common foibles or caricature eccentricity. In short, for less than four cents a week The Companion brings into the home clean entertainment, pure inspiration, fine ideals, increase of knowledge.

Names rarely seen in tables of contents will be found in The Companion's Announcement for 1913, which will be sent upon request—with samples of the paper, to those not familiar with it.

Every new subscriber for 1913 will receive free all the issues for the remaining weeks of 1912; also, free, The Companion Window Transparency and Calendar for 1913, in rich, translucent colors—the most beautiful of all Companion souvenirs.

PENSION BILL FOR TEACHERS

Half Pay for Teachers who have Served for 30 years.

A campaign has been begun by the Michigan State Federation of Teachers Clubs by the scattering of circulars in all schools in Michigan, as a means of educating the people on the matter of teachers pension by a bill proposed for retirement salaries. The bill was framed by the legislative committee of the Michigan Federation of Teachers Clubs, a simular measure was urged at the last session of the legislature and came within a few votes of passing. The legislation asked for now is the voluntary retirement after 30 years of teaching providing the last 15 years of teaching are passed in the public schools of the State.

The retirement salary is to equal one half the average salary of the last 5 years of service but is in no case to exceed $500 a year. The funds are to be paid out of a contribution of 1 per cent of their salary from all public school teachers but no annual contribution is to exceed $10, if there be any deficit the bill asks for an appropriation from the State funds.

Sheep, Hogs, Horses and Cattle are all troubled with worms in different form, which often kill the animals and always keep them in poor condition. An animal in sickly condition takes more feed and does not show any gain in weight. By feeding a good medicated stock salt these worms and parasits are thrown off, the animal gets new life and puts on weight. A bunch of sheep will put on enough extra wool to more than pay for the cost of the salt to say nothing of the weight gain.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Herald readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

W. C. Witherell, W. Potawatamie St., Tecumseh, Mich., says: "I have had no reason to change my high opinion of Doan's Kidney Pills which I publicly expressed some years ago and I willingly confirm all I have previously said in their praise.

I had acute pains across the small of my back and in my hips and often after stooping, a sharp twinge darted through my loins, obliging me to lie down. I was laid in bed for several days and I believe that my trouble was caused by excessive stooping. When I learned of Doan's Kidney Pills I obtained a supply at Wright & Son's Drug Store and the contents of a few boxes restored me to good health. Since then whenever I have felt in need of a kidney medicine, I have taken this preparation and the results have been very pleasing."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

C. M. M. Wheelihan, 326 Fort St., Port Huron, states: "I have used various medicines for kidney trouble that has bothered me for some years and I can honestly say that Foley Kidney Pills did more for me than any of them. They relieved me greatly and I will always be pleased to recommend them."

For sale by all druggists of Tecumseh.

SAVED BY HIS WIFE

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is one of that kind. "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough, when I was so weak my friends all thought I had a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quincy, tonsilitis, hemorrhages. A trial will convince you. 50cts and $1.00. Guaranteed by C. A. Wright & Son.

Chas. C Collison, a liveryman living at 930 No. 4th St., Saginaw, states: "I had a severe case of acute kidney trouble with pain across my back and irregular kidney action. I finally took Foley Kidney Pills, and in a few days time the pain left my back, my kidney action became regular and today I am entirely free of all kidney trouble."

For Sale by all Druggists of Tecumseh.

TRAVERSE CITY AT TOP

Has Highest Rate of Death from White Plague.

Rate of Deaths from Tuberculosis for All Cities of Over 5,000 Population Compiled.

Lansing, Mich., Oct. 12.—Secretary Dixon has compiled the death rate from tuberculosis in all the cities in the state having more than 5,000 inhabitants. The table is based on estimated population of 100,000. The average rate for each 100,000 for the first eight months of the present year is 100 deaths. The upper peninsula cities, and those situated near the lakes have the highest rates, almost without exception. Detroit has a rate of 90 per 100,000.

The table follows: Traverse City, 230; Alpena, 150; Pontiac, 140; Coldwater, 130; Negaunee, 130; Iron Mountain, 120; Ionia, 120; Benton Harbor 110; Wyandotte, 110; Kalamazoo 100; Bay City, 100; Marquette, 100; Cadillac, 100; Mt. Clemens, 100; Saginaw, 90; Detroit, 90; Ann Arbor, 90; Ludington, 80; Owosso, 80; Menominee, 70; Cheboygan, 70; Lansing, 70; Soo, 70; Grand Rapids, 70; Adrian, 70; St. Joseph, 70; Hancock, 70; Battle Creek, 60; Flint, 60; Manistee, 60; Holland, 60; Jackson, 60; Ishpeming, 60; Monroe, 60; Ironwood, 50; Port Huron, 50; Escanaba, 50; Dowagiac, 40; Ypsilanti, 40; Grand Haven, 40; Albion, 40; Niles, 30; Boyne City, 30. Hillsdale and Three Rivers had no deaths.

But twelve counties of the state have availed themselves of the law which permits them to build and maintain hospitals for the care of patients afflicted with the white plague. The legislature gave the board of supervisors of each county authority to levy taxes to the extent of one-tenth of one mill on all assessed property in the county for the purpose of building such a hospital. The law also allows them to appropriate not to exceed $1,000 yearly for the maintenance of such hospitals. More may be appropriated if the expenditure is submitted to the voters.

CONDUCTOR IS ACQUITTED

Woman He Ejected from Car Fails to Get Revenge.

Jackson, Mich., Oct. 11.—Judge Dahlen returned a verdict of not guilty in the case of David Snedicor, a conductor on the local city lines of the M. U. T. Snedicor was charged with assault and battery in ejecting Mrs. J. A. Phillips from a Ganson street car after she had refused to pay her fare.

Mrs. Phillips fell to the ground after being ejected from the car. One of the bones in her hand was broken during the trouble and she had the conductor arrested. The trouble arose when Mrs. Phillips refused to pay a second fare after being carried by her destination.

SCHOOL CLOSED FOR HARVEST

Labor So Scarce Children Are Being Used to Harvest Crops.

Vernon, Mich., Oct. 12.—Miss Leah Dean is home for a vacation. She teaches school in a district near Lake Orion, where the school trustees closed the school in order that the children might assist their parents in taking care of the bountiful potato crop and in harvesting corn and beans.

Miss Dean says the farmers have found it next to impossible to hire men to help in the harvest.

NEWAYGO—For the third time Clyde Brown is confined in Jackson prison for the murder of his wife, Vera, at Oak Grove in 1909. Twice he was convicted and sentenced, and twice granted a new trial. His third trial ended in conviction of murder in the second degree and his sentence to life imprisonment. He was immediately taken to Jackson.

SHEBOYGAN—State warrants have been sworn out for Henry Leclair and Henry Demara, charged with enticing two young girls from their homes for immoral purposes. The two girls, Lillian Morrow, fourteen, and Mary Bassette, fifteen years old, met the two young men who under promises of a good time induced them to go to Onaway.

BAY CITY—August Snyder, who was ten years old, was fatally injured when he fell between moving flat cars on the Michigan Central railroad near his home on Euclid avenue. The lad wouldn't wait for the train, which was switching, to clear the crossing. Both legs were cut off at the hips.

Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, mandrake and stone root, golden seal, Oregon grape root and cherrybark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature's own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue."

"More than a week ago I was suffering with an awful cold in my head, throat, breast, and body," writes MR. JAMES G. KENT, of 710 L Street, S. E., Washington, D. C. "Some called it La Grippe, some pneumonia. I was advised by a friend to try a bottle of your 'Golden Medical Discovery.' I tried a bottle and it did me so much good that I feel safe in saying it is the greatest and best medicine that I ever took. My health is much better than it was before using your medicine. It does all you claim for it and is satisfactory."

Friends will be pleased to learn that two of our most popular young people William Osgood and Miss H. Zelma Putt, were married Oct. 3, 1912, at noon at the home of the bride's parents, on 408 East Cass street,

The wedding was a very quiet one, only the immediate relatives of the couple were present. The home was prettily trimmed with flowers, the color scheme being pink and white. The bride was beautifully gowned in a dainty dress of white silk marquisette over white messaline. The couple were unattended, the ceremony being performed by Rev. W. E. Putt of Cedarville, O., a great uncle of the bride. A dainty four-course luncheon was served

Miss Putt is a daughter of Mr. and Mrs. C. A. Putt of this city, living here all her life. She has been employed as teacher at the high school building.

Mr. Osgood, son of Mr. and Mrs. Ed Osgood of this city. He has been employed at the post office, for some time having filled the fine position as assistant mailing clerk.

Mr. and Mrs. Osgood left immediately after the ceremony for a two weeks visit with Mr. Osgood's relatives in the southern part of the state. Their pretty home on 205 Wight street is furnished and waiting for the happy couple.

Their many friends extend to them heartiest congratulations and best wishes for a very happy married life.

IN THE FARM KITCHEN

GENERALLY TOO MANY THINGS ARE LEFT TO GUESSWORK.

For Correct Results in Bread Making, for Example, Temperature Should Be Gauged Accurately—Use of the Thermometer.

In the modern up-to-date bakery the thermometer controls the working of the plant, water, flour, dough, fermenting room and oven. The temperature is gauged accurately so as to produce the correct results. Every move is dependent upon the thermometer.

In the olden days and even yet, where old-fashioned methods prevail, the thumb of the baker was the guide as to temperature of water, flour, dough and oven. In the home the word "tepid" covers the ground, each woman to decide for herself what may be tepid or otherwise.

No dairyman would think of conducting his business without a dairying thermometer, and this same thermometer, costing from 25 to 30 cents, should be in every woman's kitchen who pretends to be a good breadmaker and who wants her bread the same every time.

Making bread by rule of thumb in the kitchen is the cause of much of the "bad luck" you head discussed and why this baking was so much poorer than the last.

There need be no guess work about how hot your dough will be if a simple rule be followed. Let us presume you wish to set your dough at 90 degrees F. by the thermometer. You ascertain the temperature of the room, then place the thermometer in the flour you are to use for a minute and that tells how warm it is. Let us suppose your kitchen is 70 degrees F. and your flour 70 degrees. Now, how hot should the added water and milk be to bring the dough up to 90 degrees? Multiply 90 by three and that gives you 270 degree. Add the flour and room temperature together and you get 140. You heat your liquid to 130 degrees by the thermometer and test your dough and you will find it is close to 90 degrees, the temperature required. Room 70, flour 70, water 130, total up to 270.

It is said that the insane asylums of the northwest are harboring more farmers wives than any other class of women; overwork because of lack of kitchen and domestic facilities generally, and many other reasons, not the least of which is worry, worry, worry!

How much has the making of the daily loaf to do with this worry? What effect has the chilling of the sponge or dough and perhaps the subsequent souring of the dough and no bread for a meal or two on the table, unless baking powder biscuits are made, upon the nerves of an overburdened, overworked housewife with farm help to feed and a horde of husky, hungry children?

Dandy Cheese Croquettes.

Cut into small dice one pound of American cheese. Have ready one cup of hot cream sauce in a saucepan; add the cheese and the yolks of two beaten eggs, diluted with a little cream. Stir until well blended, and let the mixture remain on the stove for a moment until the cheese gets steady. Season with salt, red and white pepper, and a little nutmeg. Set on the ice until cold, then form croquettes and roll in fine bread crumbs. Dip in egg, then in crumbs again and fry in deep, hot fat until a delicate brown.

Progressive Milkman.

Competition among the milkmen is active in Evanston. A few mornings ago a woman moving to Evanston from Kansas City was surprised as she approached her new residence on her way from the train to see a stranger come up to her and call her by name. "I'm the milkman," he explained. "I heard that you were coming today. Let me carry your grips." He got her trade.—Chicago Tribune.

BEST FLOOR COVERING

RUGS AND MATTINGS COME IN MANY DESIGNS.

Housewife Has a Wide Variety to Select From for Use in the Summer Months—New Patterns Are All Artistic.

Prettiest of all the mattings to be laid down when the carpet is taken up for the summer is the Japanese kind, which comes in flower and lattice patterns and in an extensive variety of colors and shades. Next in favor and practicability to these mattings are the carpets of a vegetable fiber printed in conventional ingrain patterns and, like the old fashioned ingrains, reversible.

If the floor of the living room is of hard wood and can be polished, it will be more sanitary if not wholly covered. Instead have a number of small and easily shaken rugs. All of the new patterns in woven rag rugs are artistic as well as abnormally cheap, and there are also attractive looking rugs of braided woolen strips which will stand any amount of abuse.

Palm leaf and Navajo blanket designs are among the rugs of Dutch or palm fiber, which are just the thing for a summer living room floor, and in woven grass there are rugs in two colors—yellow, with blue, green, tan or white, and tan with rose or green. Others are in natural tone with a color stencilled border. Bright hues band the braided rush mats which answer equally well for the living room or the veranda of the summer home, and in either place may be used the rugs of Japanese cotton, which are prettiest in white and blue, but which come in other colors.

If, however, the housekeeper wishes to put on her floor a rug which harmonizes with her printed cretonne draperies and furniture coverings, she should have one of the Eastern rugs of cloth woven in a rag fashion, with a white warp, patterned with colored flowers.

Practical Bed Spreads.

Practical housekeepers who believe in saving themselves unnecessary work are using the "cottage" type of bedspread in lieu of those of heavier and more expensive materials like Marseilles and Irish linen. Really artistic are the bedspreads of English printed cotton showing a white ground and a pattern in quaint shades of various standard colors. And truly American are the blue and white spreads in Kentucky designs which are said to be non-fadable and equally enduring are the natural linen covers which have plain centers and colored borders. Rather more unique and just the thing for a summer sleeping room are the covers in German linen in Biedermeiser design showing an allover connecting pattern in gold, white and black; green, white and black or blue, black and white. Any of these covers may be finished at top and bottom with fringe or a valance of one of the plain colors may be attached to their sides.

Cucumber Fritters.

Peel and grate three full grown, tender cucumbers. Press all the juice out of the pulp and add to two cupfuls of the pulp one-half cupful of cream, a cupful of flour, one teaspoonful of melted butter, a level teaspoonful of salt and half a saltspoonful of white pepper. Beat four eggs, yolks and whites, separately, very light, and add to the batter, which should be thick. Have ready a kettle of boiling fat and drop in one large spoonful at a time, removing as soon as crisp and brown. Serve as you would fried oysters, which cucumber fritters greatly resemble.

GOOD LUNCHEON IDEAS

RECIPES CULLED FROM VERY OLD COOK BOOK.

Method of Carrying Cold Meats When Traveling Is Worth Keeping in the Memory—Variation on the Sandwich.

The needs of travelers, people at picnics, or out door parties, church suppers, etc., have been provided for by the makers of cook books for several centuries back. Recently in a splendid and sensible old book, published in 1730, is found an idea in reference to a nice means of carrying cold meats when traveling that is worth remembering.

If, instead of the loaves mentioned, small rolls were used, the inside buttered before they were filled with a dainty minced meat, we should have a variation of the sandwich. The following is the recipe in question:

"Traveling Loaves—Take chickens or pullets, pheasants, or partridges, or rabbits, and a neck of mutton or lamb, and roast it off cold, and cut your fowl in joints and your mutton into cutlets; take large French loaves of three pence apiece, or other bread; cut a hole in the top and scoop out the most part of the crumbs. You may put fowl into one loaf, mutton or lamb into another, a salad mogundy into another, and sliced ham and tongue into another, putting a little salt in a paper with your fresh meat, and as you travel you may eat anywhere on the road in your coach without staying by the way."

The author of this recipe had served as cook for lords on "splendid embassies," for earls and barons, and for great generals sent into Spain and elsewhere to command. He thus had ample experience in preparing food for traveling expeditions.

The next recipe is somewhat rambling. It was written out for a certain pastor's wife when her husband changed from one charge to another. She vouches for the excellence of the meat so prepared in a large quantity.

"Pressed Fresh Meat—Take the lower end of the shin for the sake of the jelly and the lower part of the round for the solid meat. Boil the two together slowly until the meat drops off the bone. Then chop the meat, but not very fine, and add salt and pepper and powdered sage, seasoning to taste. Add the liquor left in the kettle to the chopped meat and stir well; then pack the meat in small bread pans to cool. It will harden and be solid without any weight upon it to press it. For a large quantity you will need the entire shin if you are to have plenty of liquor to add to the meat, say a quart or three pints, according to the amount of meat. You may think this amount will make it too soft, but it will not. The fat may need to be skimmed from the liquor if much rises."

MICHIGAN STATE NEWS.

STANDISH—James W. Purdy, who is a well known resident of Au Gres, while riding in a wagon with William Marlow, of that place, got in a fight with Marlow over some money which Marlow claimed had been stolen from him. Marlow was knocked out of the wagon and injured so badly that he lived only a few hours. Purdy was brought here by Sheriff Hasty and arraigned before Judge Elwell. He stood mute and was bound over to the next term of circuit court in December. Purdy could not secure bail and now languishes in the jail.

CROSWELL—Charles Delong, who recently was arrested by the Detroit police for the Sanilac county officers, was arraigned on the charge of forgery. He entered a plea of guilty. Delong forged the name of a prominent Carsonville man to several checks and then passed them in Carsonville. When arrested at Detroit it was found that he had spent $2.40 out of the $450 he secured. Delong was once an inmate of the Coldwater school, having been sent there from Detroit.

KALAMAZOO — Kalamazoo county will, the coming year, build twenty-five miles of new road, stated Chairman William M. Bryant of the road commission. There was a meeting of the road commissioners with the board of supervisors when the matter was discussed. Nearly thirty miles of roads have been built during the present summer. When the twenty-five miles have been completed next year, nearly every trunk road in Kalamazoo will have been finished.

BATTLE CREEK — Deputy Sheriff Charles W. Corwin and Assistant Prosecuting Attorney Loud will leave for Los Angeles, where they will secure George W. Charvis, wanted in this county for obtaining $75 from a food company under false pretenses. Loud is alleged to have represented him as an advertising solicitor for the railroad porters' and waiters' magazine and secured the money on a contract.

LANSING — The following Michigan corporations filed articles of incorporation with the secretary of state: Ontonagon Herald company, Ontonogan, increased $4,800 to $10,000; Saginaw Valley Development company, Saginaw, $25,000 to $100,000; Universal Auto Supply and Repair company, Detroit, $2,000, stock holders, Adolph Sherman, Robert St John and Edmund M. Sloman.

LIVINGSTONE CUT TO BE OPENED SOON

Stupendous Engineering Work to Be Used Saturday.

President Livingstone of Carriers to Pilot First Ship Through Channel of His Name.

Detroit, Oct. 14.—Four and one-half years after it was begun, the Livingstone channel in the Detroit river, one of the two most stupendous and most important engineering feats on the Great Lakes, which has cost the United States government fully $10,000,000, will be formally opened next Saturday.

The lake carriers and the board of commerce will join in arranging a celebration by ceremonies in keeping with the importance of the lakes, as well as marking recognition by business interests of Detroit of the enormous expenditure the government has made in improvement work just beyond the city.

The entertainment committee of the board of commerce, Clyde I. Webster, chairman, will supervise.

As a tribute of esteem to William Livingstone, president of the Lake Carriers' association, in whose honor the channel is named and who was actively instrumental in obtaining appropriations from congress to undertake and complete the great work, it has been decided that to him shall be accorded the distinction of piloting through the channel the first ship sent down the rock-bound cut. This will be the steamer William A. Livingstone, a 10,000 ton steel bulk freighter of the G. A. Tomlinson fleet.

Life Insurance.

Twenty years ago the average life insurance policy was for $2,500. Now it is more than $3,000.

Washington's End.

Washington survived the perils of the wilderness, the dangers of Indian warfare, all the bullets and balls of a score of Revolutionary battles and the hardships of a seven years' campaign, only to be bled to death by his doctors.

CONSULS' SAFETY CAMMITTEE

Prisoners in Vera Cruz Fortress Mutiny and Many Are Killed in Bombardment by Warships—News Given Out Is Inaccurate.

Mexico City, Oct. 21.—The war department confirms the report that General Zozaya, chief of the Thirteenth battalion, has joined the revolutionists under General Felix Diaz at Vera Cruz with 600 men. He captured the town of Santa Lucrecia, which he now occupies, after having garrisoned Sierra Blanca.

The government forces have not yet attacked Vera Cruz. They are being mobilized at Terjeria, a station on the Mexican Central railroad, by General Boltram, who is awaiting reinforcements from the north. Four hundred men with artillery have left Texcoco for Terjeria.

Published News Is Inaccurate.

The news published here in regard to the situation at Vera Cruz is very inaccurate, as the government controls the newspapers and all sorts of ridiculous stories are being printed. Some of the untrue statements printed are that General Felix Diaz is a prisoner; that he and General Ordas have been assassinated and that General Zozaya (who has gone over to the rebels) is bombarding Vera Cruz.

Montgomery Schuyler, Jr., the American charge d'affaires, has been informed that the consuls at Vera Cruz have organized a committee of safety among themselves to protect the foreigners at that place. The American government, through Mr. Schuyler, has asked Mexico not to injure American interests at Vera Cruz.

Three Hundred Prisoners Mutiny.

The minister of gobernacion stated that 300 prisoners in the historic fortification of San Juan Ullao at Vera Cruz mutinied. The Mexican gunboats, which are still loyal to the government, according to the secretary, bombarded the fortress, killing the 300 prisoners. It is believed here the rebels have the gunboats, despite the government's statement to the contrary.

Three hundred and fifty engineers of the geodetic survey offered their services to the government to go fight the rebels. Their offer was accepted, but when the men arrived at Vera Cruz they joined the rebels.

KIMMEL DEFENSE LOSES

Defeated on Motions to Restrict Pleadings in Suit.

St. Louis, Oct. 21.—The defense in the Kimmel insurance case in the state circuit court began to present its evidence after a demurrer to the testimony offered by Mrs. Edna Bonslett, the plaintiff, had been overruled. Another motion to require counsel for the plaintiff to elect on which count the petition in the case should be tried was overruled.

This motion had reference to the allegations in one count that George A. Kimmel, the insured, died prior to 1903, and in another count that his death took place prior to 1905. Only documentary evidence was offered. It consisted of depositions read at the trial in the United States district court last March.

LIVING COST ON WANE, SAYS TAFT

Issues Statement after Getting Agricultural Report

MEAT PRICES DUE TO RECEDE

Secretary Wilson Gives Bumper Crops as Reason for Deduction; Saving $500,000,000—Farmers Still to Profit.

Beverly, Mass., Oct. 21.—In a statemen, based upon reports from Secretary of Agriculture James Wilson, President Taft declares that the wave of high prices for food throughout the world has begun to subside in this country.

"The wave of extremely high prices for food throughout the civilized world," read the president's statement, "has reached its height in the United States and is subsiding.

"The American people have cause to be thankful first because of our industrial prosperity it has not been attended here with the great hardship which has prevailed in some of the countries where high prices have combined with low wages to reduce the working people to a point bordering on starvation."

Bumper Crops Will Affect Prices.

According to the announcement of White House officials, Secretary Wilson made an investigation of the causes of the prices and the effect of the bumper crops in the United States upon such prices.

The great prosperity of the American farmer, the report to the president showed, has brought about a material decrease in the cost of food products, although in many instances the reduction will not become apparent to the consumer for several months. The report promises that the price of meat will decrease notably on account of the bumper corn crop after cattle, sheep and hogs fed from that crop reach the consumer.

Savings Will Be $500,000,000.

Secretary Wilson advised the president that of the nine great crops of the country, corn, wheat, oats, barley, rye, buckwheat, potatoes, flaxseed, and hay, the Oct. 1 prices indicated a saving to the consumer of about 9 per cent, or nearly $500,000,000.

The crop increase will make up to farmers, however, reductions in price. Mr. Wilson shows that while the return to the producers on Oct. 1, 1911, amounted to $3,868,000,000 at the prices prevailing Oct. 1 of this year, their return will be $4,454,000,000.

Mr. Wilson's report, according to officials here, shows that the aggregate crop in the United States will be about 20 per cent greater than it has been for years. He shows that the wheat crop of the year is nearly 100,000,000 bushels greater than last year, and says that one high grade flour is costing at the mills 80 cents a barrel less than it did a year ago.

Corn Crop Record Breaker.

The corn crop, Mr. Wilson points out, exceeds 3,000,000,000 bushels, and there has already been a decrease in price of corn of 7 cents per bushel.

The hay crop, he says, has increased more than 17,000,000 tons over a year ago, and he declares that in consequence the price per ton has fallen $2.74.

This decrease, he maintains, will not only decrease the price of meats, but of milk, butter, cheese, etc.

ROOSEVELT GOES TO OYSTER BAY

Leaves Chicago at 8;15 This Morning over Pennsylvania.

NO MORE SPEECHES EXPECTED

Physicians Order that Patient Must Keep Very Quiet for Next Two Weeks—Plans for Remainder of Campaign.

Chicago, Oct. 21. — Colonel Roosevelt, accompanied by Mrs. Roosevelt, Miss Ethel, Theodore, Jr., Dr. Alexander Lambert, the Roosevelt family physician; Dr. S. Curry Terrell, the specialist who accompanied tse colonel on his speaking tour, and who was with him when the bullet from Schrank's pistol in Milwaukee brought the speaking tour to an end, and the colonel's two secretaries, E. R. Martin and Albert McGrath, departed over the Pennsylvania railroad at 8:15 a. m. and will arrive in New York Tuesday morning. The private car was attached to one of the railroad's regular trains and on its arrival in New York it will be switched to an Oyster Bay train."

Plans for Rest of Campaign.

In connection with the departure of the colonel his plans for the rest of the campaign—the subject of animated conference between the presidential candidate and Governor Hiram Johnson, his running mate, developed.

Governor Johnson will fill all of the eastern dates scheduled for the colonel, and will act as his direct personal representative. In compliance with this arrangement Governor Johnson left for New York Sunday afternoon, instead of going to California as he had intended. It also developed that the colonel's doctors have practically forbidden him to make any speeches in the netx two weeks, and, though the colonel had indicated an intention of attending the Madison Square Garden rally the last week of the campaign, it is doubtful if he does more than sit on the platform.

Condition Continues to Improve.

The doctors made two examinations of the patient and both showed continued improvement. The latest bulletin, issued previous to his departure, showed pulse, 72; temperature, 98.2, and respiration, 18. It continued: "General condition good, blood count normal, respiratory movement comfortable. The general condition of the patient justifies his leaving the hospital for his home in Oyster Bay, but it is deemed advisable in order to lessen the possibility of complications that he should not be disturbed in any way and he will not be allowed to see any one enroute."

TRACE BOMB TO SMITH

Authorities Hear Witness Tell How McManigal Sent Fuse from Chicago.

Indianapolis, Oct. 21. — Delivery through the mail of a package which the government charges contained fuse used to blow up a building at Akron, O., July 4, 1910, was described by R. G. Boyd, postmaster at Cleveland, as a witness in the "dynamite conspiracy" trial. He testified from records that the package sent by Ortie E. McManigal from Chicago was received by special delivery at the home of Peter J. Smith, an ironworkers' union official in Cleveland.

According to the government Herbert S. Hockin and McManigal had taken to Cleveland from Rochester, Pa., on a passenger train a quantity of nitroglycerine to carry out orders of J. J. McNamara that "there must be a Fourth of July celebration at Akron."

BULGARS PUSH ON FOR ADRIANOPLE

Troops Are Encouraged by Victory at Mustapha Pasha.

ELASSEN TAKEN BY GREEKS

Outflank Turks and Drive Them Back to Sorfidje — Military Men See Deliberate Plan in Fighting.

London, Oct. 21.—The Bulgars are pushing along steadily in their advance on Adrianople, where the Turks have massed one division of their army. Encouraged by their victory at Mustapha Pasha, the door to Adrianople on northern frontier, one division of the army of Bulgaria is pushing along both banks of the Meritza. The right wing is moving across the heights commanding the valley of Arda, and the advancing guard is capturing and blowing up bridges on the roads to Adrianople.

A second division of the Bulgars is said to be shelling Kirk-Killiseh, where already there has been severe fighting, and the capture of that town, thirty-two miles from Adrianople, is said to be imminent.

Greeks Capture Elassen.

Further details of the battle between the Greeks and Turks at Elassen, in Thessaly, on Saturday show that the Greeks captured that town after a spirited engagement. The Turks were attacked on their flank and at the same time the Greeks made a spirited frontal attack. Infantry and cavalry stormed the Turkish entrenchments. There was bayonet play and then the Turks, finding they had been outflanked, retreated. The Turks halted at Sorfidje, to the north on the same road, and there fortified, awaiting a further attack.

They left seven guns behind them and the victorious Greeks captured eighty prisoners. The Greek advance guard has captured a village twenty miles from the Turkish frontier.

Eleven Greek warships have been seen off the Turkish island of Lemnos and a bombardment there is expected.

The Montenegrins have captured Plava and Gussinje on their advance upon Scutari.

See Carefully Devised Plan.

In all those movements of the allies military men see a carefully thought-out plan of action on the part of the strategists of the Balkans, the evident result of long study in case of any such contingency as the present. If the allies take Adrianople they can march on along the route ff the Orient railway from Vienna to the very entrance to Constantinople and the Bosphorus and at the same time fling a division to the west on Salonika on the Aegean that will cut off the Turkish troops in Macedonia and Albania.

Uskub, upon which the Serbs are advancing, is one of the points where the Turks have concentrated and Scutari, for which the armies of little Montenegro are striving, is another.

The censorship of all war news is being most rigidly maintained. Nothing but news favorable to the Bulgarians can pass the censor at Sofia and the same holds true in the other capitals.

War Material Going Forward.

Palermo, Oct. 21.—Four Greek torpedo boat destroyers convoying transports which are carrying war material, arrived here. They took on food supplies and sailed under sealed orders.

Cretans Join Greek Army.

Athens, Oct. 21.—Twenty-five hundred Cretan soldiers arrived here for service with the Greek army.

HONORS NEWSBOY HERO

Gary Makes Memorable Occasion of Last Rites.

Officials and Citizens Turn Out En Masse for Billy Rugh's Funeral.

Gary, Ind., Oct. 21.—The populace of the city of Gary turned out en masse to pay their last respects to their dead hero, Billy Rugh, the newsboy. No like demonstration probably ever will be seen in the Steel City again. Not only did fraternal orders and civic bodies turn out, but every department in the Gary steel mills that could possibly do so, closed in order that the employes might march in the funeral procession.

Mayor Knotts issued two proclamations, one calling for subscriptions to the Rugh memorial fund and the second asking citizens to attend the funeral, which was in charge of the city.

At 2 p. m. Rugh's body was taken from the Hoover morgue to the Methodist church. Rev. Dr. J. M. Avann conducted the services.

The pallbearers were six police officers. Honorary pallbearers were the superintendents of the three steel plants of Gary and men prominent in the city. The Musicians' Union of Lake county played the funeral dirges. The band was composed of more than 100 members.

Following the services Rugh's body was taken to Rock Island, Ill., where it was laid beside that of his mother, as was his request.

Dramatic Deaths.

What is a dramatic death? Of course the most dramatic death ever recorded was that of Placut, who dropped dead while buying a bill. Then there was the death of Fabius, who was choked by a hair in some milk; that of Louis VI., who met his doom because a pig ran under his horse and caused him to stumble; that of Saufeius, who was poisoned by the albumen in a soft boiled egg, and that of Zeuxis, who died from laughter at sight of a hag he had painted.

Every man has a lot of old debts due him that he can't collect, and knows he can't collect, and yet talks about them a great deal.

Antoine Deloaia, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."

For sale by all Druggists of Tecumseh,

It is possible to make a great reputation with a little sense; a man with a little sense is really quite a genius.

Philip Desormeau, Prop, the Farmer's Home Hotel, Schaffer, Mich., says: "Last winter I could not sleep nights on account of a bad cough that would start at bed time and keep me awake. I started using Foley's Honey and Tar Compound and was greatly pleased to find that the cough left me, my appetite increased and I slept soundly at night." For sale by all Druggists of Tecumseh.

Not His Game.

A minor league club had signed a new outfielder, and the manager was watching him closely. His first play was unfortunate. He got a slow grounder, started to throw to second base, changed his mind, and started to throw to third. Finally he threw to first, two men having scored. At the end of the inning the manager called him aside. "I don't think you'll do for baseball," said the manager, not unkindly. "Why not?" "You're not fast enough for baseball, son." "Then what am I to do?" "Better go in for chess."

FARM PRICES ADVANCE

According to statistics the emigration of farmers from Ohio and Indiana into Michigan has been many times greater than ever before Not only have they bought up the cultivated land, but also much of the so called "wild" land of the state. The land is being used for fruit farms in many places, and has increased the value twofold. The influx has also raised the value of the cultivated farms to a great extend the average price being now $100 per acre where ten years ago it could be bought for half that price.

What They Did With the Prophets.

"A little girl at our morning service recently," relates a clergyman, "knelt beside her mother while the commandments were being read. When the rector read, 'On these two commandments hang all the law and the prophets,' the little girl whispered: 'Mamma, how many—' 'Sh!' hissed her mamma. 'But mamma, how many prophets are there?' 'Why, Isaiah, Jeremiah, Habbakuk, Jonah, Haggai, Malachi, Zephaniah, dearie. I can't think of all of them without looking them up, but I fancy there must have been about 20.' 'Twenty? And they hanged 'em all on two commandments?'"

Fish Took Cold Easily.

Fish are not equipped to combat rapid changes in temperature because the temperature of the water in the ocean, lakes and rivers beneath the surface remains virtually stable. Some fish, such as carp and trout, when taken from warm water and placed in water several degrees colder take cold. The cold attacks the skin and the fins, and various portions of the skin present a cracked, ridgelike appearance. If returned to warm water the fish usually recover, but sometimes the disease, which seems to be a sort of eczema, eats into the muscles of the fish and proves mortal.—New York Sun.

HUDSON—An Adrian girl who was visiting in our city was introduced to one of the real Hudson dudes, who asked her to go to a picture show Looking surprised, she said; "If you mean photographic illustrations of animated nature displayed in shadowy form on a screen, I think I will take great pleasure in accompanying you." Then he fainted and when he recovered a half hour later he wanted to know whether the Adrian girl was still on earth, or had floated heavenward on the bouyancy of her animated vacabulary.—Post

Following are the qualifications of male electors in the State of Michigan: Every male inhabitant of this state, being a citizen of the United States,; every male inhabitant residing in this State on the twenty-fourth day of June, eighteen hundred thirty-five; every male inhabitant residing in this state on the first day of January, eighteen hundred fifty; every male inhabitant of foreign birth who, having resided in this state two years and six months prior to the eighth day of November, eighteen hundred ninety four; and having declared his intentions to become a citizen of the United States two years and six months prior to said last named day, and every civilized male inhabitant of Indian descent, a native of the United States and not a member of any tribe, shall be an elector and entitled to vote, but no one shall be an elector or entitled to vote at any election unless he shall be above the age of twenty-one years, and has resided in this state six months and in the towuship or ward in which he offers to vote twenty days next proceeding such election.

Said Board of Registration will be in session on the day and at the place aforesaid from 9 o'clock in the forenoon until 5 o'clock in the afternoon for the purpose aforsaid

Dated this 14th day of October, A. D. 1912

Guy E. Nemire.
Clerk of said Township.

NOTE—The law requiring a new registration throughout for the coming election applies only to certain cities in Michigan. and not to townships, An elector who is duly register, will not be required to register, in this townsnip, unless he has changed his residence.

But One Official War Cry.

In the very early days the French had their "Cri de guerre," the Scotch their slogan, and the English their war cries, but so many cries were launched by the different great British lords that in 1495 parliament passed a special law forbidding these cries, on the ground that they produced disorder, allowing but one battle cry, "St. George and the King."

A. GRAHAM, GEM

How would you like, dear reader, to have a Graham gem for sheriff of your county. That's what Lenawee will have if the Progressive ticket is successful. Albert Graham one of the largest farmers in our county is the Progressive candidate for sheriff.

Mr Graham owns and operates a 200 acre farm in Madison township. He has always been an active progressive in farm, grange and political work. He is not an office seeker but when no one could be found to take the sheriff's nomination on the progressive ticket he was drafted and like the good reform soldier that he has always been, accepted for the good of the service. Mr. Graham has attained a competency by strict economy and hard work. If elected he will run the sheriff's office the same way and save Lenawee taxpayers hundreds of dollars. Mr, Graham don't have to have sheriff's office to earn a living and he would therefore run the office for public service instead of private gain. Why not try a man of this type instead of a professional office seeker ?—The Michigan Patron.

To All It Might Concern.

Old Uncle Ben's business carried him each night past a high-walled garden infested at this season of the year with bad boys and green apples. Naturally the bad former got to ambushing themselves in the branches and throwing the green latter at passersby. One evening an unusually firm Ben Davis of anonymous character caught the old darky behind the left ear. He rubbed the place a moment and peered wrathfully into the trees in a vain endeavor to see who did it. Then he raised his voice so that all the world might hear, and said with deadly emphasis: "I don' know who you is, an' I don' know where you is, but if I had a gun I'd shoot you!"

Radium Baths.

More than 10,000 baths of radium charged water have now been administered at the Austrian state mines at Joachimsthal, and an official report summarizes what has been learned of their curative value. The experiments with cancer have been too brief to justify any positive conclusions. But good effects have been noticed, not merely in rheumatism and gout, but in spinal paralysis of children, hemorrhage of the brain and certain cases of nervous exhaustion. Corpulence is reduced by the baths, while washing the teeth with radium water has made firm those loosened by chronic inflammation.

SONG

Tune—"Auld Lang Syne"

THE GOLDEN WEDDING

—of—

John and Mary Goheen Rosebrugh.

Sept. 8th, 1868.

Long miles we've come, this festal day,
To the bridal of the olden.
O'er hills and lakes from far away,
To the wedding that is golden
Of the Rosebughs and Goheen;
With their daughters and their sons
With their neighbors and their weens,
And with many other ones.

Oh joy! to meet thus, face to face,
Once more upon this earth,
We bless the time and bless the place,
That gave us all our birth.—
We, Rosebrughs and Goheen
And Groveland's other ones,
Who love those bygone scenes
And tell them to their sons.

Can we bring back those fond days done
When friends were gathered there—
Burns, Doty, Johnson, Patterson,
Jones, Cowdry, Smith, McNair,
At Rosebrugh's and Goheen's
At Roupe's or Henderson's,
Or at Stillwell's, were the scenes
That thrilled those happy ones?

But our eyes grow dim and our bosoms swell,
As we dream of days gone by,
Of the blessed forms we loved so well—
Now safe beyond the sky.
Of Rosebrughs and Goheens
Of Vances, Culbertson,
Of Kellys and Leamings—
All gone—dear sainted ones.

At the quily schoolhouse on the hill
In the graveyard down below
Where the pine trees rise aloft so still
Or are sighing faint and low.
O'er Rosebrughs and Goheens.
Singing solemn requiem
Those waving evergreens—
Nothing disturbing them.

But fifty years ago those forms
That sleep so quiet there
Were lithe and strong to brave the storms
Of life's consuming,
Those Roseburghs and Goheens
And many other ones,
Who graced these wedding scenes,—
Groveland beloved ones.

In looking over some old papers left by his sister, Miss Sarah Stocking W. P. Stocking came accross the above poem on the 50th anniversary of Mr. and Mrs. John Roseburgh, old time residents of Tecumseh, and grandparents of Miss Asenath Hosmer.

PROGRESSIVE MEETING

Witherell Hall, Friday Evening

In spite of the unpleasant weather a fine crowd assembled to hear the Hon. Julius B. Kirby of Saginaw, candidate for Attorney General. Mr. Kirby was detained at home by illness, but Hubert F. Probert of Jackson, Representative to congress on the progressive ticket and McLain of Hudson made two very fine speeches which were enthusiastically received. The Tecumseh band furnished good music, and from a progressive standpoint the meeting was a good one.

BOGUS TWENTY DOLLAR BILL IN CIRCULATION

Well what of it, there seems no immediate danger of the average person, being the victim, $20 bills are not coming their way very often, how ever it is well to look a little out. The portrait of Washington is said to be very poor, and should lead to its detection. The bill bears the check letter "D," plate number 147 and the signature of W. T. Version, register of treasury and Charles H. Treat treasurer.

Daniel Ketcham, 84 Years Old Saturday October 19.

Daniel Ketcham who for 54 years was an employe of the Lake Shore Railroad Co. and for many years a passenger conductor between Adrian and Monroe, celebrated his 84th birthday at his home in Adrian Saturday. He gave up his work just a short time ago. He will be remembered by the travelling public who met him so often during his long service.

CARD OF THANKS.

We wish to thank the friends and neighbors for their kindness during the sickness and death of our father, Francis Harring. Especially the old soldiers for their kind attention and their beatiful services at the grave.

Mr. and Mrs. John Bennett,
and family.

Unconscious Humor.

Our school teachers need no comic papers. Funny enough things come their way in the shape of letters from the parents of their pupils, as witness the following received by a teacher out in Kansas: "Respected Miss: Please excuse Willie for absents. He has fell down stairs and we feered his internal insides was hurt at first, but they ain't. The doctor says that no part of his anattomy was hurt but the brewsing of the eppydermis of the outside hide and also his hipp hurt some. But he narrowly escaped fatal death. So kindly excuse."

Can You Believe It?

Louis Ludden, member of a clam bake party at Winsted, Connecticut, stood beside a barrel of clams which was partially covered. In taking some matches from his trousers pocket, he pulled out a $5 gold piece, which dropped into the barrel. The barrel was emptied but no coin was to be found. In due course of time the clams, after being washed, were placed in a steamer with other sea food. When the man who lost the gold piece got his portion of clams he found his lost coin reposing in a shell with a steamed clam.

Warm Floors Insure the Children's Health

Cole's Hot Blast Draft on top of the fire burns the coal from the top—burns the gas, which is wasted with all other stoves.

The force of this down draft forces the heat to the base which is made of steel—cannot burn out—and heats the floor.

Thousands of testimonials have been written regarding the base heating qualities of

Cole's Original Hot Blast Heater

The ideal heating stove is one which radiates all the heat thrown off from the fuel—into the rooms—instead of letting it go up the chimney.

The durable heater is the one which will withstand the severe use, year after year, which a heating stove is necessarily subjected to. Sheet steel is the quickest radiator of heat and is used as radiating surface only in Cole's Hot Blast heater. Wherever the fuel comes in contact with the linings—only first quality gray cast iron is used.

Cast iron withstands the wear of the heat from active combustion better than any other material, and the large, sensitive, sheet metal body and base radiate all the heat into the rooms.

Burns Soft Coal, Slack, Lignite, Hard Coal, Wood and lighter fuel.

A reorganization of the board was made necessary by the death of Dr. W. H. Jones of Adrian. It is estimated that there are now 200 Osteopaths in Michigan and the number is steadily increasing.

Does it pay to advertise in the Tecumseh Herald. How is this: Mrs Abner Wilson put an Ad in the Friday's issue of the Herald for potatoes for sale, before supper time that night a customer came and bought 200 bushels having just read the Ad in the Herald. She ordered the Ad out as customers were coming so fast she could not wait on them.

KING'S DAUGHTERS ENTERTAINMENT

At this time of the year with winter close at hand the society of King's Daughters finds that the financial aid as expressed in provisions, clothing and fuel which they hope to distribute among the needy and suffering the coming season, can not be forth coming without the co-operation and assistance of our community. It has been the custom in the past to give an annual entertainment of some kind at this season,

This year the King's Daughters have arranged to give a Charity Ball on Thursday evening Oct. 31, at Witherell Hall. The Apollo Saxophone Quartette of Quincy has been secured to furnish music for the dancing, and tables will be in readiness in the parlor for those who wish to play cards.

The bill for the dance including supper will be $1.50. Single tickets 75 cents

Although a few invitations will be sent out, the King's Daughters realized their inability to reach every one and take this occasion to say that the public are all cordially invited to participate in the festivities of the evening.

AS THEY USE TO DO

The pole raising in Holloway last Saturday was quite the event of the season, a large crowd gathered for the occasion many going from Tecumseh Ridgeway, Macon and Palmyra. The pole was about 100 ft high and was surmounted by a 10 foot flag bearing the names of Wilson and Marshall the crowd was very enthusiastic.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Herald readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

W. C. Witherell, W. Potawatamie St., Tecumseh, Mich., says: "I have had no reason to change my high opinion of Doan's Kidney Pills which I publicly expressed some years ago and I willingly confirm all I have previously said in their praise

I had acute pains across the small of my back and in my hips and often after stopping, a sharp twinge darted through my loins, obliging me to lie down. I was laid in bed for several days and I believe that my trouble was caused by excessive stooping. When I learned of Doan's Kidney Pills I obtained a supply at Wright & Son's Drug Store and the contents of a few boxes restored me to good health Since then whenever I have felt in need of a kidney medicine, I have taken this preparation and the results have been very pleasing."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

C. M. M. Wheellhan, 326 Fort St., Port Huron, states: "I have used various medicines for kidney trouble that has bothered me for some years and I can honestly say that Foley Kidney Pills did more for me than any of them. They relieved me greatly and I will always be pleased to recommend them."

For sale by all druggists of Tecumseh,

SAVED BY HIS WIFE

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is one of that kind. "She insisted on my using Dr. King's New Discovery," writes Mr. F. 'for a dreadful cough, when I was so weak my friends all thought I had a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quincy, tonsilitis, hemorrhages. A trial will convince you. 50cts and $1 00. Guaranteed by C. A. Wright & Son.

Chas. C Collison, a liverman living at 930 No. 4th St., Saginaw, states: "I had a severe case of acute kidney trouble with pain across my back and irregular kidney action. I finally took Foley Kidney Pills, and in a few days time the pain left my back, my kidney action became regular and today I am entirely free of all kidney trouble." For Sale by all Druggists of Tecumseh.

FIRE IN HOLD OF SHIP

Twenty-One Passengers Imperiled on Steamer Berkshire.

Boat Now In Lookout Cove with Crew Fighting Furiously to Subdue Flames.

Norfolk, Va., Oct. 21.—With smoke still pouring from her closed hatches from a fire raging in her forward freight hold, the Merchants' and Miners' steamer Berkshire is at anchor in Lookout Cove near Cape Lookout awaiting the arrival of the revenue cutter Seminole to take off the twenty-one passengers the distressed vessel has on board.

With a high northeast gale and a blinding rain sweeping the coast the Berkshire is partly sheltered from the storm in Lookout Cove and her crew, with the assistance of life savers from Cape Lookout station, are endeavoring to subdue the flames.

Life savers after considerable effort managed to reach the burning steamer, but made no effort to take off her passengers. The sea was so high it was considered dangerous to attempt to land the passengers through the raging surf and as the ship appeared to be in no immediate danger they were told to remain on board until the Seminole arrived. For many hours, since the fire was first discovered, the crew on the Berkshire has been fighting the flames in the hold of the ship.

Nature's Way Is The Best.

Buried deep in our American forest we find bloodroot, queen's root, mandrake and stone root, golden seal, Oregon grape root and cherrybark. Of these Dr. R. V. Pierce made a pure glyceric extract which has been favorably known for over forty years. He called it "Golden Medical Discovery."

This "Discovery" purifies the blood and tones up the stomach and the entire system in Nature' own way. It's just the tissue builder and tonic you require when recovering from a hard cold, grip, or pneumonia. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body. The weak, nervous, run-down, debilitated condition which so many people experience at this time of the year is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin—you feel "blue."

"More than a week ago I was suffering with an awful cold in my head, throat, breast, and body," writes Mr. James G. Kerr, of 710 L. Street, S. E., Washington, D. C. "Some called it La Grippe, some pneumonia. I was advised by a friend to try a bottle of your 'Golden Medical Discovery.' I tried a bottle and it did me so much good that I feel safe in saying it is the greatest and best medicine that I ever took. My health is much better than it was before using your medicine. It does all you claim for it and is satisfactory."

After simmering for about ten minutes remove from the fire and allow to cool slightly. Then beat to a creamy consistency and spread on crackers or fresh rye bread.

A Dollar Up in the Air.

A Lakewood correspondent is honest enough to allow this printed: "I stuck a man for a dollar Saturday, telling him that $1.75 and $2.25 made $5; I believed it at the time, and, apparently, so did he. Now I want to give him his dollar back. What can you do about it? I think what I've said is enough to bring the incident back to the mind of the right man. I forget his name. If he will let me know his address, through you, I shall treat it as confidential." We are very glad to take care of such honesty, and to further its workings. We are doubly glad that we didn't bite on the joke.—Cleveland Plain Dealer.

BANISH ODORS FROM ICE BOX

Simple Precautions Will Keep Food Placed in Refrigerator Always Dainty and Palatable.

It was a friendly grocery clerk who suggested a remedy for the possible odor in an ice box affecting prints of butter. It so happened that the purchaser had only an ice chest of rather contracted proportions in which to keep her provisions, and in order to delay the melting of the ice (partly owing to a piece of the valve having come off) she used heavy brown paper to keep the chilly block from touching the sides of the box. So far, the idea worked well, but it is hard to find paper that will be absolutely without a "refrigerator smell" when the contact with the ice has made it damp. For a time this did not matter, as the milk was in closed bottles and the butter she was used to buying came in sanitary waxed pasteboard boxes. But when she was no longer able to get that brand and had to take ordinary one pound prints, without other protection than waxed paper, the grocery boy met her objections by suggesting the use of the oblong tin boxes in which half pounds of American teas are packed. They are good teas, too, but she did not even have to purchase them, as he offered to save her a box, and into it the pound print fitted with just the little margin to spare that would make it easy to slide the butter out when wanted. Since then she has also learned that a good lump of charcoal in the corner of the ice box helps to keep the air in it sweet—quite as much as it keeps fresh and odorless the water in which cut-flowers are placed in vases or other receptacles.

OVEN HEAT NOT THE BEST

Hot Water Should Be Employed When Necessity Arises to Keep Prepared Food Warm.

To keep food warm is a very important detail, to which sufficient attention is not paid. First of all, food should never be put into the oven to keep warm. This is a common practice and a bad one. The kind of heat to which the article of food is subjected tends to dry the surfaces, sometimes to a leather, sometimes to a crisp. This spoils the flavor and renders the dish unappetizing.

There is but one right way to keep warm. Put it upon a dish, plate, or bowl, according to its consistency; cover it closely with an inverted bowl, dish, or plate; make it as air-tight as possible. Half fill with boiling water a pot or saucepan, into the top of which the vessel containing the food will fit; set it back on the stove where the water will be kept at boiling point, place the dish or bowl under it, and leave until required.

If this suggestion is followed, it will be found that most dishes can be kept for a while without losing caste.

Croquettes and all fried foods are the exception. By standing they become limp and soggy. If they cannot be fried at the last moment, they may be kept hot a short time in the front of an open oven.

Fried Perch.

Be sure the fish are fresh. Lay the fish on a board, outdoors if possible, take a dull knife and holding fish by the tail with knife nearly flat, scrape toward the head. See that they are perfectly cleaned, thoroughly rinse and dry, then roll lightly in flour. Use beef fat if you have it, if not use lard, but never butter, as the color is not so good. Be sure that your fat is proper temperature before putting in your fish. If not sufficiently experienced to tell when the right point is reached, drop in a bit of bread; if it browns in a minute the fat is at the right heat. As soon as the fish is browned on both sides move your pan to the back of the stove, cover and let cook slowly. Serve on a hot platter garnished with sprigs of parsley.

Nut Biscuit.

Sift together two cups flour, one-half teaspoonful salt, one heaping teaspoonful baking powder. Rub in one heaping tablespoonful butter, add one cup finely chopped nuts, either walnuts, hickory nuts or almonds, and two tablespoonfuls sugar; mix to a soft dough with milk. Mold with the hands into small balls, place well apart on greased pans, brush each with milk, put a pinch of chopped nuts on back, and bake in quick oven.

Hickory Macaroons.

Put one-half of a pound of hickory nut meats through the food chopper, using a fine knife. In a dish beat very slightly the whites of three small eggs, then stir in one-half of a pound of sifted powdered sugar, the chopped nuts, a pinch of salt, one scant teaspoonful of baking powder. Drop by the half teaspoonful an inch apart on flat buttered pans and bake in a very moderate oven.

To Soften Candied Fruit.

Take candied fruit which has become too hard to use, put in a crock or earthen dish, and place in a moderate oven for 15 minutes and remove from the oven. It will be soft and juicy as when first purchased. Hard lemons may be softened in the same way.

To Save Linen.

If you desire to store your linen for any length of time, never starch it. It will crack and wear more quickly than if constantly in use.

Rinse the articles quite free from starch, dry and fold away in blue paper. This will prevent them from turning yellow.

Reminiscence.

"You never speculated in corn?" said the Chicago man. "No," replied Mr. Cumrox, "I got an idea that my luck didn't run that way. Finding a red ear at a husking bee was how I come to get engaged."

Advice to Bores.

A successful after-dinner speaker said the other day at Atlantic City: "I owe my success to the fact that I'm always brief and to the point. I once asked Senator Depew how long an after-dinner speaker ought to speak. 'About two minutes—unless by that time he has struck rich ore,' the senator replied. 'And if he hasn't struck it, he should at once stop boring.'"

Sounds So.

"How oddly the man cleaning the machinery talks." "How do you mean?" "I heard him telling his helper to save the waste."

The Idea.

"So you are going to call on the other end of the family to strengthen their nerve." "Yes, so to speak, a week end visit."

DISSOLUTION NO FARCE

Wickersham Contends Standard Oil Is Now No Trust.

Publishes Letter In Which Independent Refiner Says He Now Has "a Chance to Live."

Washington, Oct. 21. — Attorney General Wickersham has made public a document which deals a hard blow to Colonel Roosevelt's contention that the dissolution of the Standard Oil company has been a farce and ineffective.

Mr. Wickersham's answer to this is a letter written to him by C. D. Chamberlain, secretary and general counsel of the National Petroleum association, an organization of independent refining companies.

Mr. Chamberlain says that the decision in the Standard Oil case has not only afforded the independents relief, but has given them a chance to live—"an unrestricted and uncontrolled opportunity to carry on their business without unfair, secret and oppressive competition."

Mr. Chamberlain says further that there has been a very substantial increase in the proportion of the trade controlled by the independents.

The Chamberlain letter is regarded as one of the most effective documents put out by the Taft people in the present campaign.

COLLEGE MOB IN FIGHT

Students of University of Illinois Attack Opera House.

Champaign, Ill., Oct. 21.—One thousand University of Illinois students, celebrating a football victory over Indiana, attacked the Walker Opera House in Champaign and many persons were injured in the battle with local police and stage hands. University authorities declared drastic action would be taken against student rioters. Ray Warnock, assistant dean of men, was present, and is said to have obtained a long list of names which will be presented to the faculty with a recommendation for punishment.

Charles Adkins, speaker of the Illinois house of representatives, was the first victim of the students, who interrupted his open-air speech for Taft and McKinley by crowding around his automobile and yelling and shooting revolvers.

WILSON STILL IN LEAD

Straw Vote Shows Democrat Apparent Favorite for Election.

Chicago, Oct. 21.—A straw vote of nation-wide scope, now being taken by a syndicate of newspapers, discloses apparently that Woodrow Wilson is in the lead as favorite for election as president.

Roosevelt, still running second, seems to be gaining ground. Taft comes third, and his strength is apparently gathering increased force.

CHILD, AGED 3, SAVES WOMAN

Little Girl Brings Aid When Flames Imperil Grandmother.

Hammond, Ind., Oct. 21.—Her three-year-old granddaughter, Ellen, saved Mrs. William Ogden of Wabash from burning to death.

Mrs. Ogden, carrying a lighted lamp, fell down a flight of stairs and was enveloped in burning oil. She was unconscious and her clothes afire when the little girl ran to a neighbor's house and brought help.

South Prays for Roosevelt.

Mobile, Ala., Oct. 21.—Prayers were offered here in a number of churches for the recovery of Ex-President Roosevelt, who was shot at Milwaukee.

PROGNOSTICATION OF DEBS

Predicts Great Gain for Socialists and Denies Wilson the Labor Vote.

Washington, Oct. 21. — Eugene V. Debs, the Socialist candidate for president, has covered practically the entire United States on his stumping tour and has had exceptional opportunities for sizing up the political situation.

He said in an interview here that Governor Wilson will not get the labor vote in the country. Mr. Debs regards President Taft as practically eliminated as a possibility. Debs predicts an immense gain in the Socialist vote.

Petersburg Fire Costs $12,000.

Petersburg, Ind., Oct. 21.—Fire destroyed the Rodimel mill and nearby buildings, causing a loss of $12,000. The fire originated in the Robert Swain feed store and spread to four other stores. Rodimel's loss of $8,000 is partly covered by insurance. The blaze is thought to have been of incendiary origin.

RYAN GAVE $450,000

Contributed Sum to Democratic Campaign of 1904.

At Washington Thomas Fortune Ryan was a witness before the senate committee probing campaign contributions. Mr. Ryan first told the committee that he shouldered $350,000 of the debts of the Democratic national committee in 1904.

"Early in the campaign," he said, "I gave $50,000 to the fund, although I was opposed to the nomination of Parker. I gave probably $50,000 in smaller contributions. When the end of the campaign was drawing near and it was apparent that Mr. Parker could not be elected, some of my friends came to me and told me the campaign would collapse unless the committee received financial assistance. I finally agreed, in order to pay the party workers and preserve the integrity of the party, to furnish $350,000. This made a total of $450,000 that I gave personally. I did not give the money to try to elect Parker. I merely wanted to preserve the Democratic organization."

In reply to questions concerning the preconvention campaign of 1912 Mr. Ryan said he had contributed between $75,000 and $80,000 to Governor Harmon's campaign and more than $30,- to Representative Underwood's.

George W. Perkins followed Mr. Ryan and testified that the total of his gifts to Theodore Roosevelt's preconvention campaign in 1912 was $123,000.

TRACE BOMB TO SMITH

Authorities Hear Witness Tell How McManigal Sent Fuse from Chicago.

At Indianapolis, Ind., the delivery through the mail of a package which the government charges contained fuse used to blow up a building at Akron, O., July 4, 1910, was described by R. G. Boyd, postmaster at Cleveland, as a witness in the "dynamite conspiracy" trial. He testified from records that the package sent by Ortie E. McManigal from Chicago was received by special delivery at the home of Peter J. Smith, an ironworkers' union official in Cleveland.

According to the government Herbert S. Hockin and McManigal had taken to Cleveland from Rochester, Pa., on a passenger train a quantity of nitroglycerine to carry out orders of J. J. McNamara that "there must be a Fourth of July celebration at Akron."

DETROIT WATERWAY OPENED

New $10,000,000 Channel in Use by Lake Vessels.

Detroit, Oct. 21.—With the booming of guns and blowing of steamship whistles, the Livingstone channel from the lower Detroit river into Lake Erie was formally opened to commerce and a fleet of fifteen vessels passed through it.

The new channel was completed at a cost of $10,000,000 and will relieve congestion in the dangerous Lime Kiln crossing. The ceremonies were under the auspices of the Lake Carriers' association.

HAS SEVEN DOGS IN HOUSE

Lansing Negro's Pack Causes Police to Investigate.

Lansing, Mich., Oct. 22.—The police are investigating the case of Debuc, the colored man whose pack of dogs attacked the little white girl, with a view of forcing him to eliminate some of the animals if possible.

Debuc has all of his animals licensed, it is said, so that there is no chance for the dog warden to get busy on that score. The officials claim that the dogs, seven in number, occupy the greater part of the house.

NEW I. O. O. F. OFFICERS

Scupholm, Port Huron; grand guardian, H. J. Neville, Manistique; grand herald, George Harland, Detroit; grand chaplain, Rev. W. F. Jerome, Algonac.

Officers of the Rebekah assembly installed: President, Nora Conlin, Crystal Falls; vice president, Irene F. Boise, Boyne City; secretary, Hannah Ballargeon, Detroit; treasurer, Addie B. Smith, Marshall; marshal, Mrs. Jessie Thompson, Williamston; conductor, Myrta Rheinfrank, Battle Creek; inside guardian, Etta M. Smith, Grand Rapids; chaplain, Ida M. Davis, Hamilton.

The installation work in the grand lodge was impressively performed by Past Grand Master B. J. Orr of Highland Park.

TRACED BY SWOLLEN NOSE

Kicked in Face by Man He Was Robbing, Is Quickly Convicted.

Grand Rapids, Mich., Oct. 18.—Kicked in the nose and out of a window by the man whose room he was robbing, Reindert Kulpers was quickly convicted of burglary here. The swollen proboscis caused his conviction. The jury was out thirteen minutes.

Kulpers was surprised while robbing a local residence, the owner kicking him out of a second story window. Identification and arrest occurred three days later, when detectives spotted the enlarged olfactory organ while Kulpers was listening to the world series baseball reports.

ACCUSED OF BREAKING SEAL

Three Suspected Car Thieves Are Jailed at Monroe, Mich.

Monroe, Mich., Oct. 22.—Sheriff Renner [illegible] in Frank Cry, John Beyers and Thomas Wood, aged seventeen to twenty-four, claiming to hail from Kentucky, Ohio and West Virginia, respectively, and lodged them in jail for breaking a seal on a Lake Shore freight car.

Frank Jones, aged twenty-eight, was also taken in custody and held as a witness. Jones lives in this city. The men were found about a bonfire in the Warren yards of the road.

SENATOR HEYBURN DEAD

Had Suffered for Several Months from Heart Trouble.

At Washington Friday Weldon Brinton Heyburn, United States senator from Idaho, died at his apartment in the Wyoming hotel. The senator had been suffering for several months from heart trouble and grave concern had been expressed over his condition for a week or more.

Mr. Heyburn had the rep[illegible] of being one of the most h[illegible] [illegible] and also, on occasion, one of the most stubborn men in congress.

GREAT U. S. ARSENAL DESTROYED BY FIRE

Government Storehouse at Benicia, Cal., in Ruins.

U. S. Troops Fight the Flames Bravely in Spite of the Steady Explosion of Hugh Quantities of Ammunition.

The Benicia arsenal, located at Benicia, Cal., the government's principal storehouse for army supplies on the Pacific coast, was destroyed by fire early in the day.

The loss is estimated at $4,000,000. Spontaneous combustion or crossed electric wires is assigned as the origin of the fire.

Sixty thousand stands of small arms and 12,000,000 rounds of ammunition were destroyed. Because of the explosion of the cartridges, the work of fighting the fire was extremely hazardous.

Fire Soon Beyond Control.

Despite the steady explosion of the huge quantities of ammunition, the troops approached near enough to the building to reach it with their streams of water.

Soon, however, the fire was beyond control. The three-story stone structure filled with inflammable material, made a blaze visible for miles.

The Benicia arsenal was the main equiping station for both the Pacific coast and the orient. The building was erected in 1859.

None in the Arsenal.

Colonel Charles Ruggles, in charge of the ordnance department of the western division, commanded the soldiers who fought the fire.

It is positively stated no one had been in the arsenal since 4:30 p. m., when the keys were turned over to the guard in charge. No powder or large shells were stored in the building.

ROOSEVELT GOES TO OYSTER BAY

He Leaves Chicago over Pennsylvania Railroad.

NO MORE SPEECHES EXPECTED

Physicians Order that Patient Must Keep Very Quiet for Next Two Weeks—Plans for Remainder of Campaign.

Colonel Roosevelt is resting quietly in his home at Oyster Bay, N. Y. He stood the trip from Chicago remarkably well and expressed himself as feeling fine.

Colonel Theodore Roosevelt, being accompanied by Mrs. Roosevelt, velt, accompanied by Mrs. Roosevelt, Miss Ethel, Theodore, Jr., Dr. Alexander Lambert, the Roosevelt family physician; Dr. S. Curry Terrell, the specialist who accompanied the colonel on his speaking tour, and who was with him when the bullet from Schrank's pistol in Milwaukee brought the speaking tour to an end, and the colonel's two secretaries, E. R. Martin and Albert McGrath, departed from Chicago over the Pennsylvania railroad for his home at Oyster Bay.

Plans for Rest of Campaign.

In connection with the departure of the colonel his plans for the rest of the campaign—the subject of animated conference between the presidential candidate and Governor Hiram Johnson, his running mate, developed.

Governor Johnson will fill all of the eastern dates scheduled for the colonel, and will act as his direct personal representative. In compliance with this arrangement Governor Johnson left for New York Sunday afternoon, instead of going to California as he had intended. It also developed that the colonel's doctors have practically forbidden him to make any speeches in the next two weeks, and, though the colonel had indicated an intention of attending the Madison Square Garden rally the last week of the campaign, it is doubtful if he does more than sit on the platform.

Condition Continues to Improve.

The doctors made two examinations of the patient and both showed continued improvement. The latest bulletin, issued previous to his departure, showed pulse, 72; temperature, 98.2, and respiration, 18. It continued: "General condition good, blood count normal, respiratory movement comfortable. The general condition of the patient justifies his leaving the hospital for his home in Oyster Bay, but it is deemed advisable in order to lessen the possibility of complications that he should not be disturbed in any way and he will not be allowed to see any one enroute."

Johnson May Lose Seat.

In going east instead of to California, Governor Johnson faces possible loss of his seat as governor of California. The statutes of California provide that if the governor is absent from the state for more than sixty days he will automatically lose his office. At the last session of the legislature, before Governor Johnson had been thought of as a vice presidential candidate, the legislature passed a resolution giving the governor permission to use his discretion about the matter of absenting himself from the state.

Governor Johnson will have been absent from the state sixty days next Wednesday and in a statement he says he expects an attempt will be made to unseat him. Before going east, however, he said that he had received an opinion from Attorney General Webb that the resolution was effective and that he would be safe in remaining away from home.

At Milwaukee, Wis., John Schrank, in a prolonged interview with the district attorney, declared that an intimation that New York newspaper comment on Colonel Roosevelt was the cause for his attempted assasination was not correct, and that he is willing to assume full responsibility for what he had done.

BECKER DEFENCE BEGINS

Newspaper Reporter Gives Important Evidence in His Favor.

It was the turn in New York city of the defense in the trial of Lieutenant Becker and the day was not without important advantages for the policeman, accused of being the real murderer of Herman Rosenthal.

The most telling witness in Becker's behalf was Frederick H. Hawley, a reporter for an evening newspaper, who swore that he was with Lieutenant Becker almost constantly from 3:30 until 8:30 o'clock on the morning of the murder, and that Becker did not see or talk to Jack Rose and Bridgie Webber. This testimony was of the utmost value to the defense because Rose had told the jury that Becker after leaving the west Forty-Seventh station had come to him and Webber at Sixth avenue and Forty-Third street about dawn, had told of his delight in seeing "that squealer" lying on the floor of the station house and had ordered Webber to put up $1,000 to pay the gunmen.

Mean.

Molly—Have you seen Mabel's engagement ring? Dolly—Seen it? Why I wore it all last summer.

EATON RAPIDS—The handsome large barn on the Mrs. Electa Casler farm, three miles east of this city, was destroyed by fire with all its contents. The barn was one of the largest in this section of the state and the loss is upwards of $6,000, with insurance of $2,000.

ALMA—Mrs. John Campbell, who committed suicide the other day by leaping through the glass door of a Pullman vestibule on a Santa Fe Overland in California, was the wife of a fairly well-to-do farmer living three miles south of here.

HOW'S THIS

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

NATIONAL BANK OF COMMERCE
Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Every man has a lot of old debts due him that he can't collect, and knows he can't collect, and yet talks about them a great deal.

Antoine Deloaia, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."

For sale by all Druggists of Tecumseh,

It is possible to make a great reputation with a little sense; a man with a little sense is really quite a genius.

Philip Desormeau, Prop, the Farmer's Home Hotel, Schaffer, Mich., says: "Last winter I could not sleep nights on account of a bad cough that would start at bed time and keep me awake. I started using Foley's Honey and Tar Compound and was greatly pleased to find that the cough left me, my appetite increased and I slept soundly at night." For sale by all Druggists of Tecumseh.

There are a thousand things the people ought to do, and although they admit it, they will never do them,

FORTUNES IN FACES

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it. Impure blood is back of them all, and shows the need of Dr. King's New Life Pills. They promote health and beauty. Try them, 25 cents at C. A. Wright & Son's.

A man should either be able to keep his temper, or be abe to whip the man he is quarreling with.

A LOG ON THE TRACK

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing indigestion. Michael Hessheimer of Lincoln, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents at C. A. Wright & Son's.

Those riding in automobiles are not as happy and comfortable as those on foot think they are.

R. J. Gunberg, Merchant of Copper City, Mich., says; "For a good many years we have used Foley's Honey and Tar Compound in our family. It will quickly cure a cough or cold and we consider it a safe and sure cure." For sale by all Druggist of Tecumseh.

Laugh when a friend tells a joke; it is one of the numerous taxes you must pay.

SAVES LEG OF BOY

"It seemed that my 14-year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c. at C. A. Wright & Son's.

Some people are so strong on talk that they try to pay their bills with it.

Mrs. Dora Ray, 720 Brord St., St. Joseph, states: I suffered much misery from my kidneys and bladder and all I tried failed to help me. My kidney action was irregular with a burning pain, and I had headaches and dizzy spells, with swollen ankles. I gave Foley Kidney Pills a good trial and improvement followed promptly and in fact, I've felt exceptionally well since taking Foley Kidney Pills." For Sale by all Druggists of Tecumseh

ANNIVERSARY OF CONGREGATIONAL CHURCH AT TIPTON.

The Congregational Church of Tipton celebrated its sixtieth anniversary, as a Congregational Church last Sunday. In the morning Rev. Sutherland D. D. of Lansing the superintendent of the Congregational Churches of the State very kindly came and preached a splendid sermon. Misses Lulah Cook and Lottie Simmons sung solos and there was other special music.

At the close of the services the congregation went out on the lawn in front of the church and a flag which has been owned by Mr. Simeon Whelan for many years was raised on the newly erected flag staff, by three of Tipton's old soldiers, Simeon Whelan R. W. Daniels and Albert Morseman, just as it was first blown out by the wind the old soldiers stepped back and saluted it while the people sang America, after which Rev. F. A. Blake pastor of the M. E. Church pronounced the benediction. The church was nearly full of people including quite a number of old members from Adrian, Clinton, Morenci and Jackson.

In the evening the service was composed of special music and talks by Rev. Sutherland D. D., Rev. A. J. Blair of Jackson, a former pastor and Rev F. A. Blake and a history of the church since 1837 when it was only a small log cabin, near where the center school house now stands. It was then of Presbyterian denomination but fifteen years after it was changed to a Congregational Church. This history was given by A. R. Joseph and included a list of all the pastors and something of the work of each and some interesting points about the charter members.

After the service the people staid for a social gathering and a good time was enjoyed by those present, cards were given to the people with the words, Sixtieth Anniversary of the Congregational Church, October 20, 1852, 1912 Tipton Mich., on one side, and Southern Michigan Congregational Association, Oct. 21, 23, 1912 on the other.

Monday evening was the first meeting of the association. The Church was full of people, among them the K of P's who gave up their meeting and came in a body. Every one received an identification slip with the words "I am at the Top' and in the lower right hand corner the word "Smile." The slips were filled out and pinned on all who entered by Rev Hinzmann and Emma Joseph. The service was called to order by the moderator, A. R. Joseph, Lulah Cook sang a solo and most of the rest was taken up by the sermon preached by Rev. Sutherland which was very good and thoroughly appreciated by those present.

Inspite of the rain Tuesday morning the people kept on coming to that meeting until the church was nearly full at noon. The services that morning was very interesting, the first part was the devotional service led by Rev. Carnes next was the business meeting and then Rev. Sutherland talked for a while on "Matters of State Interest," after that came the Pastors Responsibility for the Benevolence of the church, Rev. James Hyslop, Home Mission week Nov. 17-24, Rev E. J. Sipes of North Adams. Following the Frontier, Rev. H. E. Collin. Providing the Equipment, Rev E. R. Latham of Clinton.

At 12:15 o'clock a bountiful chicken pie dinner was served at the Grange Hall to about one hundred fifty people, nine girls dressed in white waited on table, little place cards were at each plate telling about the association and the convention in gilt letters.

The Woman's Home Missionary meeting met in the upper room and at one o'clock and at two o'clock the regular afternoon meeting began.

This opened with devotional service conducted by Rev. Lucas. Next was our work for the Emigrant by Rev. Carnes of Summerset which was very good and then an interesting heart to heart talk on Our Work for the Depressed Races by Mrs. E. R. Latham, Training the Leaders, Rev. Edwin Ewell; Caring for the Veterans' J. E. Courtes, Open parliament. Problems before the churches in the association. The discussion was opened Mr. C. B. Operlin of Wheatland. After this the communion service was observed and was carried out by Rev. E. R. Latham, Rev. Collins, Rev. J. E. Courter and Dea. A. R. Joseph, Mrs. Bert Crittenden recently presented the church with a beautiful individual communion set in memory of her husband who was a member of the church for many years and this was used for the first time.

Supper was served at 5:30 at the hall to nearly one hundred people although it was raining a little at this time it did not hinder the church being full before the beginning of the evening services at seven thirty. This meeting consisted of a song by all. Prayer and next the reading of the minutes of the meeting and the report of the resolution comittee, Solo, Just for to day Lottie Simmons, Recitation, Mrs. Hoyt Whelan. Duet, Ed Spaulding, Will Spaulding, Lawrence Dibble and Rev. F. A. Blake, talk on Home Missions, Miss. Frances Mercer of Adison.

We were planning to have a missionary give us the sermon of the evening but she was unable to get here so Rev. James Hyslop was asked to help out and he preached a splendid sermon. The last was a duet by Miss Lulah Cook and Mrs. Howard Evans.

The people of Tipton extended to all present a hearty welcome and are very glad things turned out so well. The new sidewalks were finished for the occasion and proved very beneficial after the rain Tuesday morning they hope everyone enjoyed themselves as much as the Tiptonites did.

THE KNICKERBOCKER STOCK COMPANY

The attraction booked for the Bradley Opera House next week commencing Monday night, Oct. 28, is the Knickerbocker Stock Co. featuring Miss Lynne Yoder in a repertoire of standard plays. The company is the same one which has been playing at the Athenaeum theatre, Jackson, all this week. They had four days open between Jackson and Battle Creek and were originally booked here for four nights but owing to the house being rented for Wednesday night they are obliged to make the engagement for three nights only, Monday, Tuesday and Thursday.

Miss Lynne Yoder Leading woman with the Knickerbocker Stock company Bradley Opera House next week.

Special stage settings are carried by the company and they make a specialty of good clean vaudeville between acts, making a continuous performance. The opening bill Monday night is "Wedded and Parted" a domestic comedy-drama by William Dixon. The company comes here well recommended by both Jackson, where they are playing this week and Hillsdale, where they played all last week.

Following the usual costume ladies will be admitted free on the opening night when accompanied by a paid 30c ticket. These tickets must be purchased at the advance sale which opens at Hay's Bakery tomorrow (Saturday) morning.

THE GLEANERS HAVE A MARSHMALLOW ROAST

During the months of August and September the members of Miss Lila VanValkenberg's class of the Baptist church had a contest. The leaders were Lucile Kelly and Ellen Snedicor, and the points contested were for attendance, good attention in class, best lessons etc. There are about sixteen in the class; Ellen Snedicor's side won out and last Friday evening the losing side entertained them all at the home of Harold Kay. The evening was spent in playing games and doing Hallowe'en stunts; pop corn and marshmallows were served for refreshments; needless to say the young people had a fine time.

A GIFT WITH A THOUGHT IN IT

There's one very simple way out of the Christmas shopping problem: don't shop, but sit quietly at home and subscribe for the Youth's Companion. The chances are, too, that no present you could buy for the young friend or the family you delight to honor could confer so much pleasure as this gift of the Youth's Companion for a whole round year—fifty-two weeks' issues, and the fifty-second as keenly anticipated and enjoyed as the very first.

There will be stories for readers of every age; sound advice as to athletics; suggestions for the girl at college or making her own way in the world; good things for every member of the family—all for $2.00—less than four cents a week.

The one to whom you give the subscription will receive free all the remaining issues of 1912, as well as The Companion Window Transparency and Calendar for 1913, in rich, translucent colors. It is to be hung in the window or over the lamp shade. You, too, as giver of the present will receive a copy of it.

Remedy Lies With Women.

The editor of the Delineator says, "Wherever American laws remain unjust to women the fault lies with the women. There is no longer any excuse for women saying they do not know where wrong legal conditions exist. Newspapers, magazines, lecturers, pamphlets, to say nothing of the eight hundred thousand club women of the country, see to it that every injustice has an airing as soon as it becomes evident."

Value of Swimming Lessons.

Florence Shellard, a Windsor school girl, recently demonstrated the value of swimming being included in the school curriculum, when in a most plucky manner she rescued another little girl, aged five years, from drowning in the Thames. Without waiting to call for help, Miss Shellard jumped into the river and went to the rescue of her companion, who had already gone down twice before she reached her.—London Telegraph.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Herald readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

W. C. Witherell, W. Potawatamie St., Tecumseh, Mich., says: "I have had no reason to change my high opinion of Doan's Kidney Pills which I publicly expressed some years ago and I willingly confirm all I have previously said in their praise

I had acute pains across the small of my back and in my hips and often after stooping, a sharp twinge darted through my loins, obliging me to lie down. I was laid in bed for several days and I believe that my trouble was caused by excessive stooping When I learned of Doan's Kidney Pills I obtained a supply at Wright & Son's Drug Store and the contents of a few boxes restored me to good health Since then whenever I have felt in need of a kidney medicine, I have taken this preparation and the results have been very pleasing."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other

C. M. M. Wheelihan, 326 Fort St., Port Huron, states: "I have used various medicines for kidney trouble that has bothered me for some years and I can honestly say that Foley Kidney Pills did more for me than any of them. They relieved me greatly and I will always be pleased to recommend them."

For sale by all druggists of Tecumseh.

SAVED BY HIS WIFE

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is one of that kind "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough. When I was so weak my friends all thought I had a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quincy, tonsilitis, hemorrhages. A trial will convince you. 50cts and $1 00. Guaranteed by C. A. Wright & Son.

Chas. C Collison, a liveryman living at 930 No. 4th St., Saginaw, states: "I had a severe case of acute kidney trouble with pain across my back and irregular kidney action. I finally took Foley Kidney Pills, and in a few days time the pain left my back, my kidney action became regular and today I am entirely free of all kidney trouble."

For Sale by all Druggists of Tecumseh.

400 DIE IN TYPHOON

Disastrous Storm Sweeps Over the Philippines.

A typhoon in the Philippines interrupted the southern telegraph lines for four days. Cebu, one of the islands, has been partially destroyed by the storm. One hundred persons, including three Americans, were killed and 2,000 people are homeless. Six steamers were sunk and a hotel wrecked.

A telegram received here by the military authorities estimates that 400 persons were killed and that damage amounting to $10,000,000 was done on the Island of Cebu. The storm was of hurricane force and leveled thousands of houses.

Reports from Visayas say the storm was unusually severe there. The telegraph wires are down and details from the interior are lacking.

Reports from the Island if Leyte are to the effect that 2,000 houses were destroyed and the hemp, sugar and cocoanut crops ruined. The damage there is estimated at $1,000,000.

PONTIAC—Leaving their mother in attendance at a prayer meeting, Fletcher, fourteen, and Vera, twelve years old, children of Mr. and Mrs. Isaac Baldwin of Bloomfield street, disappeared. Officers have been asked to locate them. The mother is fifty-five years old and declares she has never seen the inside of a theater, but recently learned that her little girl had accepted money for singing on the stage of a local theater. The children's fondness for the stage and the refusal of the parents to permit the children to attend shows is believed, by the mother to have caused the pair to run away. She thinks they will head for some stage outside of Pontiac.

ARREST SHOE THIEF IN BAY CITY, MICH.

Apprehended While Trying to Dispose of His Loot.

Frank Williams, Taken Into Custody, Wanted In Saginaw on Burglary Charge.

Bay City, Mich., Oct. 21.—The local police made an important arrest for the Saginaw police when they captured Frank Williams, giving his age as twenty-four years, after he endeavored to dispose of twenty-three pairs of shoes at a local store. This man proved also to be the same one who was discharged in the circuit court in this city some time ago on a charge of stealing a quantity of butter from a Michigan Central car.

Chief of Police Davis received a "tip" that a man was coming to a downtown store to sell some shoes. When asked how many he had the man said he could sell the merchant twenty-three pairs. Chief Davis detailed Lieutenant Ryan to the store and Williams was taken into custody on his arrival there. With Patrolman Wackerly, Lieutenant Ryan went to the Michigan Central railroad bridge and found one bag of shoes in the same place where the butter, which Williams was charged with stealing, had been hidden. The bag was covered up with a lot of old lumber and brush. The other bag was not far from this place.

Shortly after Williams had been taken into custody a call was received from Saginaw that the S. Krauft shoe store had been robbed and twenty-three pairs of shoes taken.

PERIL IN SUPERIOR GALES

Three Sault Ste. Marie Men Drift About for Three Days.

Sault Ste. Marie, Mich., Oct. 22.—Dr. Alfred Lemon, Frank Oster and Joseph Hobbs, all of this city, arrived here in an exhausted condition after a three days' battle in a launch with storms on Lake Superior. A tug had been searching two days for them, but they reached port without assistance.

Heavy seas had crippled their engine, and they drifted helplessly in the storm for many hours. A blanket was used for a sail until the engine was repaired.

BAR MERCY IN BALKAN WAR

No Quarter Will Be Given by Either Side in the Conflict.

The Sofia, Bulgaria, correspondent of the London Daily Times says that the Balkan war will be a holy war of creeds rather than of races. It will be a war without mercy and without truce; a war of horrors which will be aggravated by the rigors of a Macedonian winter.

According to a dispatch from Constantinople to the Chronicle, Turkey utterly rejects Premier Poincare's proposals for a European conference.

A Podgoritza dispatch to the Chronicle says the Montenegrins captured a Turkish position near Tarabosch and from the heights bombarded that fortress.

A naval combat occurred on Lake Scutari between a Montenegrin and a Turkish steamer, resulting in the retreat of the Turkish boat.

The Bulgarians attacked the Turkish forces between Kustenje and Dupnitza a short distance south of Sofia, and captured important strongholds on Mount Rueff and Mount Tehernascala.

MICHIGAN STATE NEWS.

YPSILANTI—Professor Mark Jefferson, connected with the Michigan State Normal college is one of the party of international geographers who celebrated the sixtieth anniversary of the American Geographical society in New York after a 10,000-mile trip through the United States. Professor Jefferson was one of the speakers at the symposium recently held at the University of Virginia. There are seventy members in the party and the eighteen greatest universities of Europe are represented. The American institutions represented are: Harvard, Yale, Wisconsin, Chicago, Cincinnati, Columbia college, New York; Brigham Young, Provo, Utah; Michigan State Normal college, United States Geological survey, United States weather bureau and United States Society of Civil Engineers.

HOT FLASHES.

Women in middle age often complain of hot flashes. They are at that stage of life when their delicate organism needs a tonic and helping-hand which only Dr. Pierce's Favorite Prescription can give them. Many women suffer needlessly from girlhood to womanhood and from motherhood to old age—with backache, dizziness or headache. A woman often becomes sleepless, nervous, "broken-down," irritable and feels tired from morning to night. When pains and aches rack the womanly system at frequent intervals, *ask your neighbor about*

Doctor Pierce's Favorite Prescription.

Mrs. J. Imhof of 821 S. Bentalou Street, Baltimore, Md., says: "I wrote you about nine months ago, telling you of my condition. I have a fine baby girl—she weighed nine pounds when born. She is my third child and the strongest of them all. My suffering was only for two hours. I took several bottles of 'Favorite Prescription' and one of Dr. Pierce's Smart-Weed. I never had a well day before I took your medicines. I was surprised how well I felt. [illegible] always hungry, and never had a sick stomach. The nurse who was with me said the medicine was wonderful because I got along so nicely after having had so much trouble before. She intends to recommend it to all her suffering patients. Everybody is astonished at me because I only weighed 102 pounds before and now I weigh 135. I have had several ladies come to me and ask about Dr. Pierce's medicine. I am willing to recommend it to all who suffer and want help. If any want information I will be glad to give it."

About the Camel.

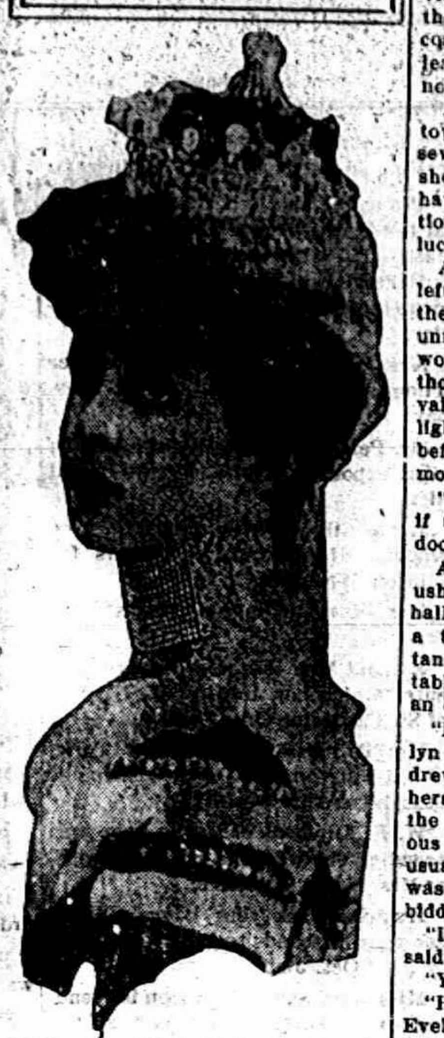
Following is what Count Gleichen says of a camel: "A camel's hind legs will reach anywhere—over his head, round his chest, and on to his hump; even when lying down an evil disposed animal will shoot out his hind legs and bring you to a sitting posture. His neck is of the same pliancy. He will chew the root of his tail, nip you in the calf or lay the top of his head on his hump. He also bellows and roars at you whatever you are doing—saddling him, feeding him, mounting him, unsaddling him. To the uninitiated a camel going for one with his mouth open and gurgling horribly is a terrifying spectacle; but do not mind him, it is only his way. I heard of one or two men having been kicked at various times, but it is the exception, not the rule, for the camel is really a very docile animal, and learns to behave himself in the most trying position with equanimity, though I fear it is only the result of want of brains."

Faults of the Aeroplane.

Commercially the aeroplane is useless in its present state. It cannot carry any great weight, it will not stand any extra strain and is unable to fly unless the weather be almost perfect. Automatic stability is still in an imperfect stage, and the motors are not altogether reliable. Last, but not least, it is a very expensive machine, both in its first cost and in the outlay necessary to keep it in proper condition. These faults, as well as many others, must be overcome before we have a practical flying machine. Danger must be eliminated to a greater degree, and to do this it is necessary to produce a machine that will automatically balance itself. A thoroughly reliable motor and a machine capable of standing any extra strain suddenly placed upon it are other requirements of the future aeroplane.—Saint Nicholas.

DUCHESS MARLBOROUGH

American Noblewoman to Undergo Operation.



At London, England the Duchess of Marlborough, formerly Consuelo Vanderbilt, who was ordered by her physicians last week to take a month's rest at Harrowgate, is about to undergo an operation for appendicitis.

LANSING—The attorney general's department of Michigan is receiving many inquiries to interpret the local option law relative to making cider and wine in dry counties. As yet no formal opinion has been made. The Brewery association is getting out literature which says wine or cider cannot be made in Michigan in local option counties. It bases its report on the decision of the supreme court in the Eberle case at Jackson where the proprietors of a brewery were convicted. Many cider manufacturers in dry counties intimate that the action of the brewers is but a scheme of their own to get business and have asked for an opinion.

GRAND RAPIDS—Frederick Lysholm, the treasurer of the Danish Aid society and the Danish Brotherhood here, has been missing for three weeks. His disappearance was revealed when the officers of the organization notified a Baltimore surety company that they had ordered an audit of books. Lysholm was unmarried. He made no report of the condition of the finances of the societies in over six weeks. The 700 members state that they recently paid their quarterly dues to Lysholm, amounting to $15,000.

GRAND RAPIDS—Rushing excitedly into the Home restaurant, while place was filled with diners, Clarence Jenks, twenty-two years old, made a hasty proposal of marriage to Miss Inez Vulkema, eighteen years old, a waitress, was refused and then killed the girl by shooting her in the back while she was serving an order. He turned the revolver upon himself, the bullet grazing his temple. He made death sure by swallowing two ounces of carbolic acid.

KALAMAZOO—The Kalamazoo supervisors have just appointed a committee to investigate the possibility of erecting a workhouse in this city similar to the Detroit house of correction. The care of prisoners has become a serious question in this county, and it is believed that by the construction of a workhouse similar to the one in Detroit, the problem would be solved.

Tea in Suite A

By Bruce MacDonough

(Copyright, 1912, by Associated Literary Press.)

"Evelyn, you dear thing!" Amy kissed her friend rapturously as they met in front of the tall studio building.

Miss Beers laughed as she returned the greeting with equal warmth. "What are you doing here, country mouse?" she asked.

"Visiting Genevieve Blake; she's my cousin, you know. They have just moved into the building behind you—it's the quaintest place; full of artists and writers and the most charming studios—I helped them move in yesterday, and I've only lost my way twice in the great barn of a building. Come in now and have a cup of tea."

"Some other day, Amy. You must be topsy-turvey up there now."

"No, indeed—the suite is furnished completely. All we had to do was to settle the little things around. Genevieve and Ned have gone down to see their publishers and we can have a cosy time together. I told Mary to leave some tea things—it's her afternoon out."

As she spoke, Amy led the way toward the elevators. "It's on the seventh floor," she remarked as they shot upward. "Genevieve wouldn't have any other—she's very superstitious, you know, and seven is her lucky number."

Amy continued to chatter as they left the elevator and walked down the long corridor. Her cheeks were unnaturally pink and her gray eyes wore rather a strained look — so thought Evelyn Beers, who looked in vain for some trace of the old happy, light-hearted girl Amy Gay had been before she and her husband of a few months had gone separate ways.

"Here it is—suite A—and, I declare, if that careless Mary hasn't left the door open."

Amy pushed the door wide and ushered her friend into a small inner hall. From there it was a step into a tiny reception room furnished in tan and dull blue, with a wicker tea table standing invitingly ready near an open window.

"How charming!" exclaimed Evelyn as she laid her parasol aside and drew off her gloves. Amy busied herself with the teakettle, lighting the lamp underneath with quick, nervous gestures so contrary to her usually tranquil manner that Evelyn was moved to venture upon the forbidden topic.

"I met Allen the other day," she said casually.

"Yes?" asked Allen's wife.

"He looked very down——" began Evelyn, and then stopped short at the look in Amy's face. "I beg your pardon, dear," she ended quietly, "you said you didn't care."

"I don't," declared Amy in a crisp tone.

"Let us talk of other things."

Evelyn proceeded to do so, relating at considerable length the pleasures she had enjoyed at a recent house party in the country.

"Is that where you met Allen?" demanded Amy.

"Yes."

"I thought so—he always goes down to the Delmans'." She stirred her tea thoughtfully and, without lifting the lids that drooped over her eyes, she asked in a low, embarrassed tone: "Did he ask about me?"

"Not a word. I saw very little of him, anyway; he spent most of his time on the bay with Dick Delman."

"Was Kitty Taintor there?" asked Amy.

"Yes."

"I suppose Allen liked that—he used to think a lot of Kitty before he fell in love with me."

"I tell you he didn't have much to do with any one save Dick."

"Of course, you wouldn't tell me, anyway," nodded Amy. "I remember Ben Herring once said that it wasn't human nature to resist Kitty Taintor's charms."

"Nonsense! Do give me another cup of tea, Amy, and tell me what your future plans are."

"I haven't made any," hesitated Mrs. Gay, as she peered into the teacup.

Evelyn was silent. Amy Gay had been rather a spoiled daughter, and it was inevitable even to the most generous friends of the young couple that sooner later Amy's imperious temper must clash with the strong will of her husband. Allen Gay would be tender with his wife, but if he was right in his contention his will would not bend.

"Where is Allen stopping?" inquired Evelyn, after a while.

"Ned told Genevieve and she told me that Allen had removed all his things from the house and had furnished a studio in the city here. I haven't been down to Hillcrest to see if it is so—I might meet him and that would be embarrassing for us both. Some day Genevieve will go down and investigate."

"And if it is true that he has left the house for you to occupy shall you go back there?"

"No!" cried Amy sharply. "You don't know what you ask, Evelyn. Why, all the happiness of my life is bounded by the walls of Hillcrest—we planned the house together."

Evelyn looked bewildered. "But my dear, if you feel that way—why, love cannot have died and perhaps—perhaps there is a chance if you two should meet again."

But Amy's protesting hand silenced her.

"No," she said tragically, "it is all over. I told Allen I never wanted to see him again—and he as much as told me the same thing."

"And you don't want the opportunity?"

Tears rushed to Amy's eyes. "It is too late, Evelyn. He would never forgive me—but—but I shall never be happy again—without him."

"Amy Gay!" Evelyn dropped upon the floor beside her friend.

"Well?" asked Amy.

"If Allen met you half way—would you be reconciled?"

Amy shook her head dolefully. "He never will stir one step to meet me—it must be all or nothing with him. His mother told me that the Gays were always that way."

"And you cannot see your way clear to make the first advances?"

"No—no—I could not bear the thought that he might turn away from me. Let us talk about something else, Evelyn—I want to forget him—I will forget him!"

She rattled the teacups and made a fuss over pouring another cup of tea for her guest. Evelyn Beers arose and straightened her hat before a Venetian mirror. A vista of the adjoining room was reflected in the mirror and what she saw there held Evelyn petrified with wonder.

It was a long room furnished as a studio, and standing before an easel with palette and brushes in his idle fingers was Amy's husband. He wore a paint-stained blouse and as his patient brown eyes met the astonished ones of Evelyn Beers in the mirror, he calmly wiped his brushes and came forward.

Evelyn turned swiftly to Amy.

"I thought you said you didn't know where Allen was," she said accusingly.

"I don't know."

"If you will come here—and look into the next room——"

Amy was beside her in an instant. "Oh!" she cried sharply. "What does it mean?"

She looked from the familiar surroundings of the tea table to the studio furnished with her husband's treasures, saw him standing there, eager-eyed and with hands outstretched. "I must have come into the wrong apartment—it is so like Genevieve's—this little room is exactly like it in every detail—but the studio."

"This is suite A, on the sixth floor," explained Allen Gay, gravely.

"Oh, what a dreadful mistake!" cried Amy with burning cheeks, for the situation had its ludicrous side. "We have eaten your cakes and tea and——"

"I prepared them for you, Amy," he said softly, and as he came forward Evelyn Beers slipped quietly from the room. "I have always thought that some day you might come back—come home to me, and so I've always had this table ready for you—it made it seem as though you might drop in any moment." He laughed awkwardly, but a pulse throbbed in his throat just above his stiff collar.

Amy's fair face was hidden in her hands. "Oh, Allen," she sobbed, "I was too obstinate to meet you half way, and you have come all the way to meet me! Fate must have sent me here, because I would not come myself!"

As his arms closed around her once more she whispered tearfully: "I wish there was some penance I could perform to atone for my wickedness."

"We have both done penance, sweetheart," he said gravely.

EVOLUTION OF THE FARMER

Long Time Before Reason Taught Man to Turn From Hunting to Agriculture.

The first planter, the savage, without helpers, without tools, looking chiefly to safety from his enemy—man or beast—takes poor land. The better lands are loaded with timber, which he cannot clear; they need drainage, which he cannot attempt. He cannot plow, or fell trees, or drain the rich swamp. He is a poor creature; he scratches with a sharp stick, lives in a cave or a hutch, has no road but the trail of the moose or bear; he lives on their flesh when he can kill one, on roots and fruits when he cannot.

He falls, and is lame, he coughs, he has a stitch in his side, he has a fever and chills; when he is hungry, he cannot always kill and eat a bear—chances of war—sometimes the bear eats him. 'Tis long before he digs or plants at all, and then only a patch.

Later he learns that his planting is better than hunting; that the earth works faster for him than he can work for himself—works for him when he sleeps, when it rains, when heat overcomes him. The sunstroke, which knocks him down brings his corn up. As his family thrives, and other planters come up around him, he begins to fell trees and clear good land; and when, by and by, there is more skill, and tools and roads, the new generations are strong enough to open the lowlands, where the wash of the mountains has accumulated the best soil, which yield a hundred fold the former crops. The last lands are the best lands. It needs science and great numbers to cultivate the best lands, and in the best manner. Thus, political economy is not mean, but liberal, and on the pattern of the sun and sky. Population increases in the ratio of mortality; credit exists in the ratio of mortality.—From Emerson's "Society and Solitude."

Dressed for the Occasion.

"Before I take this dress off," said the woman to the home dressmaker, "I want to go into the kitchen and read the riot act to Maria." "Oh, not with this dress on," the dressmaker protested, "She is cooking and the grease might pop——" "Can't help it," the woman interrupted. "Maria needs a lecture. She has been needing it for some time, but I didn't dare deliver it because I hadn't good enough clothes to make it effective. Maria is black and lately from the South. She judges people by the clothes they wear. If I had scolded in my shirtwaist and skirt or even in my old blue afternoon dress, Maria would have scorned me, but with all this finery on I can speak my piece and Maria will be properly impressed, and maybe she will reform."—Philadelphia Ledger.

Puzzles for Patients.

Although the patient had waited half an hour for her interview, the time had not dragged. "I worked on one of those puzzles," she said. "By the way, doctor, you are not a children's specialist! then why do you keep so many puzzles in your reception-room?" "You answered your own question before you asked it," the doctor said. "I keep them to amuse the grown-ups. Most people who feel bad enough to visit a doctor can entertain themselves better with a puzzle than a book or magazine. Every puzzle that has achieved popularity in the last 25 years has a place in that cabinet. Dentists also rely on puzzles to keep waiting patients in good humor, for even toothache will share attention with a good puzzle."

Uncle John's Dog Carriage.

An old darky known as Uncle John and his team of dogs were once a familiar sight to the residents of Nashville, Tenn. They never failed to call a crowd of interested spectators. The old fellow was as proud of his horseless carriage as if he were the owner of the finest touring car in the country, and he paraded the streets with as much joy as the most finished artist in the ranks of the chauffeurs. He had his faithful dogs in good training, using neither reins nor whip, but guiding them by a word of command. He had only to say "Start!" and off they went at the dog trot; "Stop!" and they came to an immediate halt; a motion of his hand and they swung around a corner as deftly as the swiftest little runabout. Usually he had eight dogs in harness and three outrunners, but occasionally the whole eleven were in the traces, and a pretty sight they made.—St. Nicholas.

Mandy's Memorandum

By Rose Seelye-Miller

(Copyright, 1912, by Associated Literary Press.)

Mandy Harrison carefully padded the bottom of the egg crate with papers, slipped the proper square of pasteboard over the padding, put the egg filler in place, and mechanically dropped the great creamy-shelled eggs into their compartments, carefully discarding those not clean, imperfect in shell shape, and those that were small.

"Two dozen unavailable!" she sighed as she dropped the last perfect egg in place. "Two dozen not fit to send, and sixteen, seventeen dozen and eleven that are." She paused thoughtfully. "It'll take two or three days to get enough to finish filling the case. Hens aren't laying so good now, all want to set or have chickens, and I'm owing installments on 'most everything!" Mandy caught up a scrap of bent cardboard, which had slipped from amongst the papers, discovered that it was a picture of herself, which had succumbed to the attack of some infant visitor. She began to scribble.

Installments, I've got to pay:

Father's coffin	$1.00
Doctor's bill	1.00
Ditto on shoes for Sammy	1.00
Ditto on wine for ma	1.00
Shingles for leak	1.00
Putting same on	1.00
	$6.00

"Dear, dear!" she sighed. "The eggs will only net enough to pay those things, not a cent over, even if I get twenty cents for them, and likely's not they won't fetch more than eighteen cents a dozen." Mandy stared at the list before her, but the items remained fixed, not one vanished under her severe scrutiny. "Well, take it, take it all—you old figures you!" then turning the card she began writing on the other end of it. Things I want:

I want a new dimity dress with pink rose buds in it.

I want a big ribbon for my hair.

I want a pair of stockings, absolutely whole.

A pair of pumps with high heels.

A piece of chiffon to fix my old hat.

I want Jim Patterson to come back.

She wrote furiously, punctuating each item with a decisive period at the end, indulging herself just once in her bare life the luxury of mute expression. She paused after re-reading, flushed to the heavy waves of her dark hair, gave the carboard a vicious twist which rent it in two and flung it aside, crushed the remaining egg fillers into the unfilled space of the crate, gathered up her baskets, and rushed down cellar. She came up with a pan of potatoes, which she proceeded to make ready for dinner. So busy was she with her thoughts of the last item on her list, that she forgot everything else; lost in the remembrance of her simple happy life, before her father had died and Jim Patterson had gone away. Jim had come to see her as naturally as the morning sun shone into the kitchen window, but—well, Jim had gone to the city to advance his fortunes. Jim had written, but his letters were not a bit like Jim, and finally she had stopped answering them, not because she had ceased to care, but because she cared too much and felt too proud to continue what seemed to her to be a one-sided correspondence. Mandy's face flushed, and she peeled the potatoes fiercely, flung them into their rinsing with a splash that splattered the water over her face and on to the clean floor beside her.

"Well, for the mercy's sake, Mandy Harrison!" chided a voice from the doorway. "What spite you got against those potatoes? The way you're punishing them, one would think you'd a mortal grudge against them!" Good, fat Mrs. Morris rolled into the kitchen, drew a chair near the egg crate, sat down and lifted her basket to her ample lap.

"I've just got a fit of the tantrum grumps," Mandy [illegible] [illegible].

"You've been crying," Mrs. Morris accused aghast, for she had never seen the brave, high-spirited Mandy cry. "You've never made a fuss about anything."

"I'm not crying—it's just the water splashed into my face," Mandy retorted, plunging the potatoes into the kettle of boiling water with a dash.

Mrs. Morris, noting the surging color in the girl's cheeks, shifted her gaze to the basket she held, said gently, "I'm wondering, Mandy, if it isn't about time you'll be shipping a crate of eggs. I've a few here I don't know what to do with, 'nless you'll let me tuck them into your box here. You can help me with my new dress, Mandy."

"I'll help you with your dress," Mandy responded warmly, "but you just trade your eggs out for groceries. I ship mine because I just have to have the money to pay my installments. If I ever do get things paid, I'll never get anything more that way—though it has been awful good of the trades people to let me pay by littles; but there's never a cent ahead—never!"

"There will be," Mrs. Morris assured comfortably. "Now I'm too penurious to pay for cutting my dress, so I'll just slip these eggs into the crate. You're just born to cut and fit."

She stooped heavily, as she cautiously slid the eggs into the fillers, and after the last space was filled, she caught up the torn photograph, upon the back of which Mandy had made her memorandum, and tucked it well down in the crate to tighten a slight looseness, which might tend to an undue shaking of the eggs. "There—that's as tight as Deacon Pettybuttum's purse strings. Now you nail it up and I'll have Hiram take it along to town this afternoon."

"You're an angel," Mandy declared rapturously as she caught the ample figure in her young arms and squeezed it vigorously. "I'll cut your dress this very day while mother takes her nap."

"Huggings like that can't be called real hygienic," Mrs. Morris gasped, "but they're mighty warming to the heart."

On the following Saturday Mandy received an astounding check for her eggs, and a brief letter of explanation:

"Dear Madam—

"Your eggs are of such fancy quality I have closed them out to special customers, and have contracted for all you can send in future. Guarantee a price as fancy as the eggs themselves, etc."

Mandy gazed at the check. Twelve dollars! Why, that's forty cents a dozen! I'll be able to buy everything, for mother and Sammy!" According to her custom she began making swift figures on a scrap of paper. She crossed out items and replaced them with others, until she had a list, the amount of which tallied with the face of the amazing check.

"See, mother!" Mandy cried, racing into the room where her mother lay, propped in a big chair with many pillows. "See! My check, my letter and my list!"

Mrs. Harrison smiled at the girl's bright chatter, took the check limply, raised herself a little, read the letter and sat upright, then she caught the memorandum Mandy had prepared:

"But daughter!" she protested, wiping her eyes, "there isn't single thing for yourself—you've just got to get some things for yourself!"

"I will," replied Mandy promptly, "next time. I'm going to buy up the neighborhood eggs, and sell them fancy; I'll be a bloated bondholder before long, and you'll see the ribbons and things I'll buy myself, but you're going to have a hammock and a few things you need before I begin to luxuriate." Mandy kissed her mother ecstatically. "It'll be just heaven to have you around again."

Mandy drove into town that afternoon, spending her money happily, though she did shed tears when the doctor refused further payment for his services.

"Everybody is so good," she murmured, as she started down the main street towards home. She was halted by the railroad tracks, the evening passenger train having rolled in. Mandy always liked to watch the train and the people who traveled upon it. She was frankly interested in the drift of people who went past her on the sidewalk just beyond the road where her horse was halted. Suddenly across her vision rose the figure of a man, like, yet unlike the one of whom she had long dreamed. The man caught her look, paused, stepped forward, then hurried to the buggy where the girl sat dazedly looking at him.

"This is surely my lucky day!" cried Jim Patterson's well-known, well-loved voice. "I'm going home with you if you'll let me Mandy." Jim dropped a bundle into the buggy, thrust his suitcase under the seat, and located a big box in front.

"Why, Jim!" Mandy gasped, as he masterfully caught the lines from her limp hand, giving that hand a warm pressure as he did so. He chirruped to the horse until that willing creature took a pace beyond anything within his recent experience.

Not until the vacant country road was reached did Jim permit the slackening of the horse's pace. "Now, Mandy," said Jim, winding the lines over the dashboard, allowing the horse to drive himself, "I want to know why you stopped writing to me. I thought you'd forgotten me."

"I didn't forget—" Mandy stammered, "but I thought—"

"You didn't have any reason to think. You know I'm no writer. I'm just dumb before a sheet of paper, but I'm not tongue-tied. Say, I've got a present for you, and I hope you'll like it for 'twas bought to your own order." Jim foraged for the great bundle. "Look here!" He unrolled before Mandy's astonished gaze, a piece of shimmering white silk, scattered and bordered with the most delicate design in pink rose buds. "And here's a pair of pumps."

"They're white!" cried Mandy," as she touched the dainty things tenderly.

"This box of stuff a saleslady I know packed up for me. I told her I wanted the sort of things a real lady would want for her wedding outfit," Jim laughed happily. "Say, Mandy!"

"How did you ever know, Jim?"

Jim's face became grave as he drew from his pocket a bit of torn cardboard, piecing it together carefully. "Do you remember when that picture was taken?"

"Yes," she quavered, "but I don't know how you ever got hold of it." Then a revealing flash came to her. "Oh! 'twas Mrs. Morris! She stuffed that in to tighten the fillers in the egg crate."

"'Twas Providence," said Jim. "I've done just great, and though I don't very often unpack the eggs, I did chance on that crate, thank heaven!"

Give Liberally to Religion.

Americans are the most liberal contributors to religion in the world. In addition to providing $12,000,000 a year for the redemption of the heathen of other lands, they give to the churches the munificent sum of $127,000,000 a year for their support and maintenance.

Casting the Floating Fly.

It should go without saying that properly and effectively to cast and fish the floating fly it is essential that the tackle be correctly assembled. In this regard I believe the point most in need of emphasis is the question of the right way to fit the reel to the rod; that this should be done so that the reel is underneath the rod with its handle to the right (in the case of the right-handed caster) is, in my experience, the only satisfactory and thoroughly efficient way. With the reel thus placed it is never necessary, when playing a fish, to turn the rod over so that the reel is above, as in the case when the reel is fitted to the rod with the handle to the left. After a fish is struck, if it becomes necessary to use the reel, the rod is simply shifted to the left hand—without the awkward necessity of turning it over to bring the reel on top—and the fingers of the right hand fall naturally upon the handle of the reel.—Outing.

SHOULD SHOW BRIGHT SIDE

Mr. Balfour's Idea of Literature Will Be Indorsed by Many of His Readers.

Mr. Balfour, in proposing the toast of "Literature" at the anniversary dinner of the Royal Literary fund at the Whitehall rooms recently, said:

"I think that literature is less cheerful now than it was when I was young. It may be because I am growing old that I take this gloomier view of literary effort, but still I personally like the spring day and bright sun and the birds singing, and if there be a shower or a storm, that it should be simply a passing episode in the landscape, to be followed immediately by a return to brilliant sunshine. While that is what I prefer I of course admit that the great, the picturesque, the striking storm is a magnificent subject for artistic treatment and is well worthy of the efforts of a great artist.

"I am not quite so sure, however, about the dreary day in which nothing is seen, in which the landscape does not change, in which there is a steady but not violent downpour of rain. I do not say that that ought not to be treated as a subject of literature, but it is not what I ask of literature.

"What I ask from literature mainly is that in a world that is full of sadness and full of difficulty, in which you come through the day wearied, in which you come back from your work wearied, you should find in literature something which represents life which is true in the higher sense of truth or what is imagined to be true, but which does cheer us. Therefore when I ask you to drink the toast of literature I shall myself sotto voce say 'not literature merely, but that literature in particular which served the great cause of cheering us up.'"—London Daily Mail.

MANY HOUSES OLD MAIDISH

Ida Tarbell Coins a Phrase That Seems to Pretty Well Express the Idea Conveyed.

One of the most repellent houses in which I have ever visited was one in which there was from garret to cellar, so far as I discovered, not one article which was not of the period imitated, not one streak of color which was not "right," Ida M. Tarbell writes in the American magazine. It was a masterpiece of correct furnishing, but it was curiously limiting and stifling. You could not escape the scheme. The inelasticity of it hampered sociability—and there grew on one, too, a sense of unfitness. Its clothes were an anachronism! They were the only thing which did not belong.

There is an old fashioned adjective which describes better than any other this preoccupation with things, which so often prevents a woman's coming to an understanding of the heart of her business. It is old maidish. It has often been the pathetic fate of single women to live alone. To minister to themselves becomes their occupation. The force of their natures turns to their belongings. If in straitened circumstances they gave their souls to spotless floors, if rich to flawless mahogany and china, to perfect household machinery. Wherever you find in women this perversion—old maidish is perhaps the most accurate word for her—it is a sacrifice of the human to the material. A house without sweet human litter, without the trace of friends who have no sense of beauty, but who love to give, without the scars of use and the dust of running feet—what is it but a meatless shell?

This devotion to "things" may easily become a ghoulish passion.

Callous Indeed.

"Well, I must confess I am glad to get back home amongst my old kin and friends, where people ain't too busy or too unfeeling or too stuck-up to take some interest in one another," said Mrs. Polley.

"Now, there's them post office folks down to Chicago. I found 'em actually hard-hearted! Why, would you believe it, that man that brings round the letters to Mabel's, he's so queer and standoffish that when he handed me husband's postal card, telling how mother had fell and broke her arm, he never so much as opened his lips to give me one word of sympathy! No, sir, not even enough to say, 'Too bad!'"—Youth's Companion.

Horse-Breeding in Britain.

Two interesting experiments in British horse breeding are referred to in a government report. First, a real attempt is being made to revive the fine hardy local breeds of ponies in Scotland and Wales, or small Welsh cart horses, and of Devonshire pack horses. Mares have been purchased and the county councils will superintend a scheme of scientific breeding. The second experiment is the creation of a new thoroughbred capable of use as a hunter. The animal is being "created" under the most recently discovered Mendalian laws of heredity, with the help of funds generously offered by Captain Part.

How to Make a Man Happy.

Nagging becomes a habit, and the woman who wants to make her home happy will avoid it like the plague.

It never does the slightest good, because if a man is nagged at his faults only increase. He gets tired of being perpetually reminded of them, and of having his shortcomings dinned into his ears.

Women generally nag because they are tired—fagged out and "nervy," but this is no real excuse for it.

Try being sweet, and it will have a much better effect.

Fitness for Marriage.

An idler in the New York Marriage License Bureau noticed that many of the applicants for a license carried bank books. "What's that for?" he asked. "A fellow doesn't have to prove his financial standing in this office before gaining permission to marry, does he?" "He does not," said a clerk, "but many of the people seem to think so. I don't know where they got the idea, but they have it, and scores of the foreigners bent on matrimony back up their other qualifications with a bank book or sometimes even a roll of cash. The women are as anxious to prove their eligibility as the men, and frequently show even greater thrift, their capital overbalancing that of the men by a good many dollars."

HOW'S THIS

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO.,
Toledo O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

NATIONAL BANK OF COMMERCE
Toledo, Ohio.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

Every man has a lot of old debts due him that he can't collect, and knows he can't collect, and yet talks about them a great deal.

Antoine Deloaia, Postmaster at Garden, Mich., knows the exact facts when he speaks of the curative value of Foley Kidney Pills. He says: "From my own experience I recommend Foley Kidney Pills, as a great remedy for kidney trouble. My father was cured of kidney disease and a good many of my neighbors were cured by Foley Kidney Pills."

For sale by all Druggists of Tecumseh.

It is possible to make a great reputation with a little sense; a man with a little sense is really quite a genius.

Philip Desormeau, Prop, the Farmer's Home Hotel, Schaffer, Mich., says: "Last winter I could not sleep nights on account of a bad cough that would start at bed time and keep me awake. I started using Foley's Honey and Tar Compound and was greatly pleased to find that the cough left me, my appetite increased and I slept soundly at night." For sale by all Druggists of Tecumseh.

There are a thousand things the people ought to do, and although they admit it, they will never do them.

FORTUNES IN FACES

There's often much truth in the saying "her face is her fortune," but its never said where pimples, skin eruptions, blotches, or other blemishes disfigure it. Impure blood is back of them all, and shows the need of Dr. King's New Life Pills. They promote health and beauty. Try them. 25 cents at C. A. Wright & Son's.

A man should either be able to keep his temper, or be abe to whip the man he is quarreling with.

A LOG ON THE TRACK

of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and curing indigestion. Michael Hessheimer of Lincoln, Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents at C. A. Wright & Son's.

Those riding in automobiles are not as happy and comfortable as those on foot think they are.

R. J. Gunberg, Merchant of Copper City, Mich., says; "For a good many years we have used Foley's Honey and Tar Compound in our family. It will quickly cure a cough or cold and we consider it a safe and sure cure." For sale by all Druggist of Tecumseh.

SAVES LEG OF BOY

"It seemed that my 14 year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone N. C. "All remedies and doctors treatment failed till we tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, piles. 25c. at C. A. Wright & Son's.

Some people are so strong on talk that they try to pay their bills with it.

Mrs. Dora Ray, 720 Brord St., St Joseph, states: I suffered much misery from my kidneys and bladder and all I tried failed to help me. My kidney action was irregular with a burning pain, and I had headaches and dizzy spells, with swollen ankles. I gave Foley Kidney Pills a good trial and improvement followed promptly and in fact, I've felt exceptionally well since taking Foley Kidney Pills." For Sale by all Druggists of Tecumseh.

O'Brien's boy Danny lost two baseball bats. O'Brien in a day or two supplied the youngster with a third, but accompanied the presentation with this warning: "Now see here, Danny, if yez lose this wan loike yez did the others, O'll take it an' break it over yer head, so Oi will."—Boston Transcript.

WILLIAM H. HILL
Progressive Candidate Congressman at-Large.

MR. VOTER:—The office of Congressman at Large, which represents the entire State, has just been created. Every voter has the right to vote for Congressman-at-Large. It is a State office and your vote for me will not affect any District Congressman. Our State is now represented by twelve Congressmen and two Senators, of which twelve are lawyers and only two are business men. Would it not be well to inject more BUSINESS principles and fewer technicalities into our laws?

My opponent for this office on the Republican ticket is a lawyer and has been in public office at Lansing for a number of years. He was Lieutenant Governor under Warner, when the great commonwealth of Michigan was bankrupt. Has anyone ever heard a word of protest from him as to the inefficiency of our State government during all the years he was in Lansing?

Every voter knows that over 90 per cent of the members in congress are lawyers; that has been true for years. They also know that the laws are so technical that the very men who make them will go into court and a lawyer on either side will argue from one to twenty-four hours as to what the law really means. Then the judge will take from one to ten days to decide the very law that possibly he and the two lawyers referred to helped to place upon the statute books. In fact, the laws are so technical that on occasions when the Supreme Court of the United States has been deciding some important point four learned judges have given opinion one way and five the other, which means that ONE MAN practically makes the law in such cases. I INSIST that it would be better for the people if there were MORE BUSINESS MEN in Congress to help eliminate the technicalities and delays in judicial proceedings.

I find no fault with the lawyer as a professional man. The lawyer, like the physician, engineer and scientist stands as an example of our highest type of especially trained professional men. But the point I wish to emphasize is: There should not be such a large majority of any profession whether doctors, lawyers or engineers. There should be nearer a balance of the different professions, and a larger percentage of business men, in the legislative halls of this country. In view of the increasingly complicated relations, both foreign and domestic, with which our Congress deals, it is, of course, proper that it should be provided with efficient legal counsel. But the percentage is and always has been too large. There should be more consideration of national affairs from a business man's standpoint in our legislative halls.

Mr. Voter, if you feel that a man with forty years' business experience who has traveled into every nook and corner of the United States, thereby giving him a nation-wide view, can serve you better as Congressman-at-Large, representing this whole State than a lawyer who has spent the larger part of his maturity as an office holder at Lansing, SUPPORT AND VOTE FOR ME NOVEMBER 5TH.

WILLIAM H. HILL,
Progressive Candidate.

A Fable.

Once upon a time there was a bold bad man whose whole life was an exercise in revolt. When he entered a shop or establishment with swing doors, one of which was lettered "Pull" and the other "Push," he pushed the one which he should have pulled, and on leaving he pulled the one which he should have pushed. Wherever it was forbidden he walked on the grass and threw orange-peel on the pavement. He smoked in the subway. On railway journeys he put heavy articles on the hat-rack and his feet on the opposite seat, and got out before the car stopped. Yet when he came to die he had just as nice a tombstone as anybody else.

Nests of Various Birds.

The woodpeckers, nuthatches, bluebirds and wrens choose holes for their domiciles; the crows and hawks erect huge homes of sticks in the tops of trees; the warblers place their eggs in deep, cuplike structures; the cuckoos, doves and grosbeaks are satisfied with the flimsiest sort of receptacles (whenever I find eggs of these birds I am fearful they will roll out long before they are hatched), while the thrushes seek the deep recesses of the woods, where they build their homes of small twigs and grape vines.—Exchange.

Frederic Mistral's Health.

Fortunately the alarming rumors current concerning the health of Frederic Mistral prove to have been exaggerated, if not unfounded. The veteran poet had been suffering from a slight indisposition, doubtless due to the heat. A visitor found him in the early afternoon, when his age and the hour might well have counseled a siesta, seated at his desk correcting the proofs of his latest volume, at present in the press, "Les Olivades." Already the poet, greatly to his amusement, has read of his own death in the papers. He says that such premature announcements are so many certificates of longevity. Yesterday an Italian journal published a long and eulogistic obituary, which the poet will doubtless read with humorous relish.—Paris correspondence London Telegraph.

English Sewage Farms.

The sewage system of farming in the six towns of the Burslem district of England has been successful and of considerable interest. The bacterial system has been adopted in favor of the plants, at the fifth a combination of the bacterial system and broad irrigation, and at the sixth the sewage is treated in tanks with ferrozone and afterwards discharged into polarite filters. The crops produced are principally rye, corn, hay, vegetables and roots. In Newcastle excellent results were obtained in growing roots, especially marigolds, which gave a yield of over 40 tons to the acre, without the aid of salt of artificial fertilizers, some of the marigolds being 36 inches in circumference.

FOURTH CLASS POSTMASTER EXAMINATION,

Saturday, November 30, 1912.

The United States Civil Service Commission announces that on the date named above an examination will be held at Tecumseh, Mich., as a result of which it is expected to make certification to fill a contemplated vacancy in the position of fourth class postmaster of class (b) at Ridgeway, Michigan., and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill the vacancy by reinstatement. The compensation of the postmaster at this office was $352 for the last fiscal year.

Age limit, 21 years and over on the date of the examination, with the exception that in a State where women are declared by statute to be of full age for all purposes at 18 years, women 18 years of age on the date of the examination will be admitted.

Applicants must reside within the territory supplied by the post office for which the examination is announced.

The examination is open to all citizens of the United States who can comply with the requirements.

Application forms and full information concerning the requirements of the examination can be secured from the postmaster at Ridgeway and the local secretary at Tecumseh or from the U. S. Civil Service Commission, Washington, D. C.

Applications should be properly executed and filed with the Commission at Washington within 7 days before the date of the examination, otherwise it may be impracticable to examine the applicants.

Maine Is Young Yet.

One thinks of all New England as settled early, but in reality all of that half of Maine lying east of the Penobscot river is newer than the Ohio valley. The first permanent English settler anywhere in that section was Joshua Treat, who established himself in 1759 about where Stockton Springs now is. In 1769 there was not an English settler above Bangor. Even as recently as a century ago, so the census of 1810 shows, nine-tenths of the population of Maine was west of the Penobscot river.

National Poultry Institute.

During the last two or three years special efforts have been made in Great Britain to stimulate the poultry industry, and these have culminated in plans for the establishment and endowment of a National poultry institute. A capital of $41,365 and a yearly grant of $9,733 will be applied to this purpose by the government on condition that the institute shall teach poultry keeping, train expert instructors and conduct research work, the latter to include the use of poultry in reclaiming barren soil. The offer of the development commissioners who have the matter in hand, however, depends upon the raising of an equal sum by private donations.

Already Punished.

With fear and trembling the sinner approached the pearly gates. "Here is where I get it," he said. But the office was closed and a sign, "Walk right in," hung over the portal. To an elderly spirit near by the sinner said: "How's this? I was a wicked man. Don't I have to answer for my sins?" "No," the aged spirit replied. "With Detective Burns operating on earth we feel that it is no longer necessary for us to keep books on people's wrong-doings. Your transgressions have probably been attended to good and plenty already, so step in and make yourself at home."

Gas Engines in High Altitudes.

A gas engine was erected several thousand feet above sea level. The engine did not give the power expected and it was concluded that the loss was due to the altitude of the station. Upon investigation of the theoretical and practical considerations involved it was found that there is a loss of about 1 per cent. of the indicated horse-power for each 1,000 feet of increase in elevation. The effect with a low ratio of compression is slightly less than with a high degree of compression.—Science Conspectus.

GENERAL ELECTION

Notice is hereby given to Qualified Electors of the Township of Tecumseh, County of Lenawee, State of Michigan, That the next ensuing GENERAL ELECTION will be held at The Council Building within said Township, on Tuesday, Nov. 5, A. D. 1912 For the Purpose of Electing the Following Officers, viz.:

WOMEN ELECTORS

In accordance with the Constitution of the state of Michigan and Act 206, Public Acts of 1909, should there be any proposition or propositions to vote upon at said Election involving the direct expenditure of public money, or the issue of bonds, every woman who possesses the qualifications of male electors and owns property assessed for taxes or owns property subject to taxation jointly with her husband, or with any other person, or who owns property on contract and pays taxes thereon, all such property being located somewhere within the district or territory to be affected by the result of said election, will be entitled to vote upon such propositions, provided such person has had her name duly registered in accordance with the provisions of said Act.

THE POLLS of said Election will open at 7 o'clock a. m. and will remain open until 5 o'clock p. m. of said day of election unless the Board of Election Inspectors shall, in their discretion, adjourn the polls at 12 o'clock noon for one hour.

Dated this 14th Day of October, A. D. 1912.

Guy E. Nemire.
Clerk of Said Township.

Title as Long as a Preface.

Many old pamphlets are distinguished by titles as long as prefaces. The author of one, published in 1646, evidently did not share in the modern editor's enthusiasm for short title headings, for this is the name under which his publication was ushered into the world: "Scotlands publick Acknowledgement of Gods Just Judgment upon their Nation for their Frequent Breach of Faith, Leagues, and Solemne Oathes made to their Neighbors of England in former ages, to gratifie their Treacherous Confederates of France."

Humility.

Humility is that line of conduct which is a mean between overbearing pride on the one hand and abject servility on the other, as economy is the middle term between extravagance and avarice. It is the crown of nobility, a ladder to honor and a means of procuring love and esteem. A wise man was once asked whether he knew of any good which is not coveted or any evil which deserves no mercy, and he said: "Yes, they are humility and pride." To despise a proud man is true humility.—Arabian Proverb.

Harsh Criticism.

President Taft rarely says unkind things about the men with whom he comes in contact in public life. But, when he does unlimber for a bombardment, he generally puts in a center shot—hot and irresistible. Not long ago he was talking about an officeholder whom he had discharged for the good of the service. "He was a bad one," criticised Taft. "He had a bad streak all through him. He had the distinction of putting into my mind an idea which nobody else had been able to suggest to me. When he was turned out of his job, I felt that it would be wise to employ an art expert to see whether he had substituted fakes for the oil paintings on the walls of the public buildings in which he had worked."—Popular Magazine.

Nearly Killed by Buck.

William Wosser, a railroad engineer of Sausalito, Cal., was savagely attacked by a buck deer the other day, and probably owes his escape from fatal injuries to the loyalty of his pack of hounds, which succeeded eventually in dragging down the animal. Wosser sighted the deer from an eminence, and inflicted a slight wound. His dogs pursued the animal into a ravine and Wosser followed quite confident, that the wound was fatal. In a clearing in the ravine the buck suddenly charged the dogs, and in the confusion Wosser failed to make good his own escape. Wosser attempted to raise his rifle, but before he could do so the deer was upon him and to save himself he grasped the animal's horns. The maddened and wounded buck did his best to shake the hunter off, and finally succeeded in hurling him to the ground. Three times he gored Wosser in the abdomen, and probably would have killed him but for the hounds.

LENAWEE COUNTY SUNDAY SCHOOL CONVENTION

Held at Britton, Mich.

The twenty-sixth annual Sunday school convention opened here Wednesday morning. The forenoon was entirely taken up by the enrollment of delegates. The afternoon session was carried out according to the program, addresses being given by Prof. D. R. Stilson, Adrian, Fred Wasburn, Benton Harbor, Mrs. B. F. Anderson, Raisin Center. All were very good giving out some very good thoughts. At 5 o'clock occurred the Elementary Workers banquet. Mrs Herbert King of Adrian, the County Primary Superintendent presiding, there were twenty-five present. In the evening Fred Washburn spoke on the "Forward movement in the Sunday School work," which was appreciated by a large audience. One of the special features of both Wednesday and Thursday evenings was the large chorus of sixty voices, under the leadership of Ernest Palmer of Britton, which did its part towards making the convention a success.

THURSDAY SESSIONS

The morning session was taken up by an address on, "Elementary Work and Workers," by Mrs. Herbert King of Adrian, and one by F. R. Fenn of Tecumseh, Secretary of Lenawee Co. Y. M. C. A. on, "The Secondary Department," which were both fine. The business session was then called to order by President Pearce of Morenci. The first item of business was the giving of the different Sunday schools in the County. There were 83 schools enrolled from which the following offering amounted to $116.77.

The following report was given by the Committee on Nominations. President, H. G. Pearce, Morenci; Vice president, E. G. Ramsey, Clayton; Recording secretary, Mrs. A. L. Pangburn, Adrian; Corresponding secretary, Mrs. Alice Condit, Morenci; Executive committee—S. W. Gould, Britton; E. B. Bulter, Morenci; C. H. Mott, Adrian; Department superintendents—Temperence, Julia Reed, Onsted; Home department' Mrs. B. F. Anderson, Raisin Center; Missionary, Mrs. LaVern Smith, Britton; Primary, Mrs. Herbert King, Adrian; Teacher training, Dr. W. F. Hartzog, Tecumseh; Boys work, F. R. Fenn, Tecumseh; Adult class, Dr. Seibert, Adrian. Rural work, Rev Crawford, Raisin. The report of the committee was accepted and the officers declared elected to serve for the coming year. The report of the committee on resolutions made special mention of the efficent work of the different officers during the past year, and the hospitality of the Britton people and Ernest Palmer with his helpers who furnished the singing.

THREE STRONG ADDRESSES

Special mention should be made of the three strong addresses given Thursday by Prof. Obee of Adrian on, "Mission work," Dr. Hartzog of Tecumseh on, "Teachers training" and Dr. Selbert of Adrian on, "The Adult Bible Class." The convention closed Thursday evening with a rousing temperance lecture, "Local option in Lenawee County" by H. H Rood of Detroit, Editor of the Michigan American Issue. Mr. Rood is highly entertaining but more than that he is convincing. One hundred delegates were present. The convention next year will be held at Clayton.

Largest Spearhead Found.

The largest spearhead discovered is on exhibition at the state archaeological museum on the campus of the Ohio State university. It is seven and one-quarter inches long and is of white quartzite, says the Columbus Evening Dispatch. The spearhead was found at Fort Ancient, Warren county. More than eight years ago one part of it was dug up and recently a farmer plowed up the other part. The pieces were joined. When the first part was found Curator W. C. Mills of the museum urged that a search be made for the other part.

Indian's Idea of Weight.

An Indian went hunting one day for deer. After tramping through the woods for some hours he came across a herd and managed to kill one. He shouldered it and started for market, which was some five miles away. Now, of course, the longer he walked the heavier the deer got, and by the time he reached the deer market he was about all in. He hung the deer on the scales and stood looking at it with wonder. Finally he said to the man: "Ugh! Let him hang a while."—Mack's National Monthly.

Those Half Votes.

Half votes in national conventions occur in two ways. First, in the case of contested elections, in which two delegates may be allowed half a vote each in order to compromise matters amicably; second, in the case of certain states, which in order to gratify a large number of eligibles to serve their party, 2, 4 or 6 are elected instead of 1, 2 or 3, and each are allowed only half a vote in order to comply with the total number of votes allowed each state.

Whale in Scotch River.

A whale, supposed to have been frightened up the Forth by the gun practice of warships, daily disports itself in the river in the vicinity of Alloa. The monster has been there for about three months. It is said to be from 18 to 20 feet in length.—London Mail.

Insulted Him.

Mrs. Highupp—"John, I was never so angry in my life as this afternoon, when that lecturer at our club deliberately insulted you." Mr. Highupp—"Insulted me?" Mrs. Highupp—"Yes; he referred to the railroad of which you are president as a common carrier."

Too Much Renunciation.

"How foolish you women are," said Mr. Nagg to his better half. "You don't catch men doing such things as joining 'Don't Worry' clubs." "Of course not," snapped Mrs. Nagg. "Men couldn't give up the pleasure of worrying their wives."

EDWARD BAXTER PERRY

Amongst American Pianists there is perhaps no one of the present time who has completely lived the life of a virtuoso than Edward Baxter Perry, who has travelled all over the United States giving lecture recitals for a number of years. Mr. Perry has been blind from the age of three, but with indomitable will and perseverance has risen superior to his physical infirmity and has earned for himself an enviable position in the musical world. He has always made a firm stand for the highest ideals in his art, and is a man of broad education.

Mr. Perry was born near Boston, and was educated in the public school and for some time at the Perkins Institution for the Blind in South Boston. He began the study of the piano at six years of age, and at sixteen decided to devote himself to music as a profession. After some years of musical study in Boston he went abroad, and became a pupil of Kullah with whom he remained in Berlin, for two years, proceeding then to Stuttgart, where he remained two years under Pruchner. He then passed a season with Liszt at Weimar and one with Madame Clara Schumann in Frankfort. During his sojourn in Germany he had the honour of playing before the Emperor of Germany, being the only American pianist who ever played at the Imperial Court. On his return to Boston he devoted himself for two years to teaching, but his concert engagements became so numerous that at the end of the third year he gave himself entirely to that work and is the only pianist, living or dead, European or American, who ever played twelve hundred concerts in ten consecutive years. Mr. Perry was the originator of the lecture-recital in America.

A bright, clean, *glossy* stove is the joy and pride of every housekeeper. But it is hard to *keep* a stove nice and shiny—unless Black Silk Stove Polish is used.

Here is the reason: Black Silk Stove Polish *sticks right to the iron.* It doesn't *rub off or dust off.* Its shine lasts *four times* longer than the shine of any *other* polish. You only need to polish *one-fourth* as often, yet your stove will be *cleaner, brighter* and *better looking* than it has been since you first bought it. Use

BLACK SILK
STOVE POLISH

on your parlor stove, kitchen stove or gas stove. Get a can from your hardware or stove dealer. If you do not find it *better* than any other stove polish you have *ever* used *before,* your dealer is authorized to refund your money. But we feel sure you will agree with the *thousands* of *other* up-to-date women who are now using Black Silk Stove Polish and who say it is the "*best stove polish ever made.*"

LIQUID OR PASTE
ONE QUALITY

Be sure to get the *genuine.* Black Silk Stove Polish costs you *no more* than the ordinary kind.

Keep your grates, registers, fenders and stove pipes bright and free from rusting by using BLACK SILK AIR-DRYING ENAMEL. Brush free with each can of enamel only.

Use BLACK SILK METAL POLISH for silverware, nickel, tinware or brass. It works quickly, easily, and leaves a brilliant surface. It has no equal for use on automobiles.

German Village Transplanted.

An interesting ceremony took place on Saturday at New Berich, in the principality of Weldeck-Pyrmont, when Prince Frederick laid the foundation stone, not of a new but of an ancient Gothic chapel which formerly stood at Old Berich surrounded by the usual cluster of quaint farmhouses and homesteads. The village of Old Berich, however, is an obstacle in the construction of the Edder River dam, which will have an area of twenty square miles and a maximum depth of 150 feet. The village, which has existed for 300 years, was therefore marked for extinction, and all the inhabitants received notice to leave their houses, which are to be leveled to the ground. New dwellings were erected at New Berich some thirty miles away and some of the freshly painted walls resemble in great measure the deserted village. The church, erected in the twelfth century, has been taken down and the ceremony of Saturday was the first step in its re-erection on the new site.

FOR SHERIFF

To the voters of Lenawee County:

It being impossible for me to see each of you personally, I have determined through these columns to indicate to you that I am a candidate for the office of sheriff on the Republican ticket, and desire your support. I pledge you my word that if I am elected to the office of sheriff, I will come to said office without any pledge or promise for the appointment of any one as deputy, and will confer with the citizens of the respective localities before making such appointments. I invite an inspection of my record as an officer, and promise that in the event of my election, to give said office my very best and honest efforts for the good of the county.

MARRIED

Genevieve Fraser Bawden
to
Robert H. Marsh.

The marriage of Genevieve Fraser Bawden to Robert H. Marsh of Chicago took place at Merced, Calif. Oct. 9th. The bride is well known here a sister of Mrs C. A. Wright, a daughter of the late G. W. Fraser, and a graduate of our high school. Mrs. Marsh is a very charming and talented woman and highly gifted as a conversationalist.

She has recently returned from a two years sojourn in Europe and has always been a favorite in Tecumseh's social circles.

Mr. Robert Marsh formally lived at Nyack-on the-Hudson but now resides in Chicago.

He is a graduate of Columbia College. Mr. and Mrs. Marsh will take an auto trip through the Yosemite Valley and the larger cities along the coast, he having come overland from Chicago in his car. They expect later to extend their trip to Honolulu and Japan.

The best wishes of her many friends are extended to her for a life of happiness.

SURPRISE PARTY.

Miss Loana Stacy was most pleasantly surprised Saturday afternoon when twenty-two of her lady friends dropped in upon her She had started out to take supper at the G. A. R. hall but was notified on the way that she was wanted at home so she speedily returned. The ladies came well laden with good things for a picnic supper and the hours passed merrily away.

They left a little souvenoir of their good will for her. Miss Loana made a few remarks expressing her appreciation of their visit and gift and goodnights were said at a late hour.

FIRE ALARM

About six o'clock Saturday afternoon the fire department was called out by a fire at the home of William Swift. A gasoline explosion causing quite a bit of excitment. The fire was extinguished before the department reached the house. Aside from a badly scorched carpet and smoked ceilings no serious damage was done. Orley Swift had some badly burned fingers as a result of putting out the fire.

VICTOR HANHAM

The sad news came Monday morning of the death of Victor Hanham, eldest son of Mr. and Mrs. Wm. Hanham. The first intimation they had of his illness was Sunday evening when a telephone message announced his serious illness, and that they would telephone later if he grew worse Word came early Monday morning that he grew suddenly worse at 3:30 a. m., and passed away at 4 o'clock of typhoid pneumonia. He was in his 31st year, and leaves a wife, besides his family to mourn his loss. He was the first of nine children to be called home.

IMPORTANT NOTICE

Every person male or female should read the large posters on the Village Bill Boards containing President Taft's picture. The facts stated thereon are records not hear say or campaign plunder, facts and figures from the great record books at Washington. These facts should be taken into consideration when you make your choice next Nov. 5th. No President of the United States ever had as much to his credit as William Howard Taft has got. He was the Brains of the Administration before him the legal adviser, the careful and considerate counselor on all matters of importance that came up during the time from 1900 to 1908. Look at the man square in the face and you can see his ability for doing great things His record is clear, uplifting and full of force The welfare of the American people is his motto. Make no mistake fellow Republicans. Don't follow off a red wagon with a calamity howling driver whose whole aim is Bossism.

Chairman Republican Committee.

No Monument to Eve.

The proposal to erect a statue in honor of Eve may be dismissed without inquiry as to the worth of the woman. It simply wouldn't do. The garb of the first woman of the land does not lend itself both to the statuary scheme and the growing sensitiveness of the public as to the amount of drapery necessary to make a marble person au fait.—Los Angeles Tribune.

TESTED AND PROVEN

There is a Heap of Solace in Being Able to Depend Upon a Well Earned Reputation.

For months Herald readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. What other remedy ever produced such convincing proof of merit?

W. C. Witherell, W. Potawatamie St., Tecumseh, Mich., says: "I have had no reason to change my high opinion of Doan's Kidney Pills which I publicly expressed some years ago and I willingly confirm all I have previously said in their praise

"I had acute pains across the small of my back and in my hips and often after stooping, a sharp twinge darted through my loins, obliging me to lie down. I was laid in bed for several days and I believe that my trouble was caused by excessive stooping. When I learned of Doan's Kidney Pills I obtained a supply at Wright & Son's Drug Store and the contents of a few boxes restored me to good health Since then whenever I have felt in need of a kidney medicine, I have taken this preparation and the results have been very pleasing."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

C. M. M. Wheelihan, 323 Fort St., Port Huron, states: "I have used various medicines for kidney trouble that has bothered me for some years and I can honestly say that Foley Kidney Pills did more for me than any of them. They relieved me greatly and I will always be pleased to recommend them."

SAVED BY HIS WIFE

She's a wise woman who knows just what to do when her husband's life is in danger, but Mrs. R. J. Flint, Braintree, Vt., is one of that kind "She insisted on my using Dr. King's New Discovery," writes Mr. F. "for a dreadful cough. When I was so weak my friends all thought I had a short time to live, and it completely cured me." A quick cure for coughs and colds, it's the most safe and reliable medicine for many throat and lung troubles—grip, bronchitis, croup, whooping cough, quinsy, tonsilitis, hem rrhages. A trial will convince you. 50cts and $1.00. Guaranteed by C. A. Wright & Son.

Chas. C Collison, a liveryman living at 930 No. 4th St., Saginaw, states: "I had a severe case of acute kidney trouble with pain across my back and irregular kidney action. I finally took Foley Kidney Pills, and in a few days time the pain left my back, my kidney action became regular and today I am entirely free of all kidney trouble."

Little Girls in Persia.

The birth of a girl in Persia is received with pity, even by her mother. "Why should I not weep over my little girl, who will have to endure the same miseries as I have known?" she cries. "She is of so little value! Who knows whether her father will not one day throw her out of the window and so silence forever her wailing? And why should he be annoyed? He knows he may do such a thing with impunity. No one cares any more than if it was a cat which had to suffer for his wrath." From the hour of birth the social inequality between the sexes asserts itself. Infant mortality is very high owing to the ignorance and inexperience of the women. Since celibacy is considered a disgrace, girls are often married as young as 10 or 12. In order to reduce the rate of infant mortality some men have suggested that the mother should have a finger cut off every time she lost a child. This cruelty, however, has not been adopted. But that it should have entered into the minds of any Persian men is significant enough.

Oak Mine.

Mines of wood are found in the south of Russia, where they were discovered very recently when the bed of a river was dragged. Not very deep in the earth but covering an extent of 200 square kilometers a forest of oaks was found where it had been buried by some unknown cataclysm centuries ago. The wood is in perfect preservation. The man who found the entombed forest has drawn from his mine many trunks of trees measuring from forty to sixty meters high and at least eighteen inches in diameter. The mine is worth a fortune for the wood is of the first quality and as a result of its long rest underground it has taken the most varied colors, ranging from dark brown to pale rose and running through all the shades of blue, and yellow. One hundred and fifty thousand of the ancient oaks have been turned over to the cabinet makers.—Harper's Weekly.

BULL RING TACTICS

Spain's Great National "Sport" and the Shame of It.

IT IS NOT A TEST OF BRAVERY

The Game of Blind Man's Buff Requires More Courage Than Does the Work of the Toreador—The Poor Hack Horses Are the Real Victims.

The great majority of the spectators were Spanish. Here were young dandies in faultless suits and boots of the most brilliant patent leather. Now enters a woman in the famous mantilla of white lace, reserved solely for the bullfight. There one saw father, mother and little children of quite tender years. A special box, immediately over the door by which the bulls would enter, was reserved for the president of the fight and his friends.

In the ring stood half a dozen policemen. They remained in the arena all through the proceedings, but there were wooden shelters at intervals behind which they discreetly retired when the bull approached. Half a dozen red buckets filled with water stood in a row on the sanded floor. A band, just below our seats, played lively airs.

The audience being now complete, the first matador marched round the arena with his little troupe of picadors (on horseback), toreadors (with red cloaks to wave in front of the bull) and banderilleros, the last named carrying darts which were presently to be planted in the back of the bull.

The toreador is quite a minor personage. The star performer, after the bull, is the matador, who deals the deathblow with his sword. All the other people that I have mentioned are under the control of the matador.

The weapons were now inspected by the president, the men and horses retired and the first bull trotted into the arena. He was a big fellow, rather slow moving, and he stood for some little time in the center of the arena gazing about him at the general scene. The band was playing gayly all this time. A couple of toreadors advanced and set the bull in motion by waving their cloaks just in front of his horns

It is commonly supposed in this country that the toreador is a magnificently brave person who risks his life for the pleasure of the excited populace. That is quite a mistake. The bull never goes for the man, but always for the cloak. So long as the toreador holds the cloak to one side instead of in front of him and has the usual amount of common sense and ability there is no reason at all why he should receive a scratch, and I believe that he very rarely receives even a scratch If he is fool enough to get drunk before he enters the arena, that is another matter. Under ordinary conditions anybody who is pretty good at "blind man's buff" could do the work of the toreador The bull, as a matter of fact, cannot turn so quickly as the "blind man."

After a little of this teasing from the toreadors a picador advanced, lance ready poised. Here is the really cruel part of bullfighting, the part that makes it hideously revolting to all decent people. The horse ridden by the picador is a poor old hack, and it is brought into the arena for no other purpose than to be killed by the bull in the sight of the populace. There is a bandage over one eye so that the horse cannot see the deadly approaching horn of the bull. The picador rides his horse right up to the bull, and the bull is allowed plenty of time to gore the horse to death. Not the slightest attempt is made to save the horse. I want to emphasize this because one had always understood that the horses were killed more or less by accident.

Why are the horses brought in to be killed? Champions of bullfighting will tell you that the death of the horse saves the life of the matador, that it gives the picador an opportunity of inflicting the first wound and that the mere act of goring the horse robs the bull of his natural strength. Twaddle! What the picador does could be done just as well by men on foot or by a man on a trapeze or in fifty ways. The horses are killed to make a slaughter for the crowd, who are angry if they do not see enough blood

The death of the poor horse I will leave you to imagine. It is altogether too horrible and too pitiful for detailed description.

Now comes the turn of the banderilleros. Each has two little darts. These darts must be placed in the back of the bull, just about the end of the neck, from in front of the animal. This requires skill and speed. It is the only part of the whole proceeding which reflects the slightest credit for bravery or agility upon the men in the arena

The bull, after being wounded by the picador, is now carrying the darts of the banderilleros in his back. Naturally he is bleeding profusely and is nearly dead. It is the proud work of the matador to finish him off with one thrust of his sword. He stands in front of the bull, who waits for the thrust with lowered head. The wretched business is quickly over, and the carcass is drawn from the arena by four horses.

That is the story of the Spanish bull fight, told in cold, bald prose. Considered as a test for bravery, I cannot find a better comparison than the one I have already used—"blind man's buff" Considered as a national sport, it would be incredible if one had not witnessed it with one's own eyes.—Keble Howard in London Mail.

Vanilla.

It is curious to read that vanilla was employed by the Aztecs of Mexico as an ingredient in the manufacture of chocolate prior to the discovery of America by the Spaniards and that it was brought to Europe as a perfume with indigo, cochineal and cacao ten years before the arrival of tobacco on our shores. The name vanilla is derived from the Spanish vaina, a pod or capsule. Dampier described it as a little pod full of small black seeds and like the stem of a tobacco leaf, so much so that his men when they found the dried pods at first threw them away, "wondering why the Spaniards should lay up tobacco stems."—Chambers' Journal

HOT FLASHES.

Women in middle age often complain of hot flashes. They are at that stage of life when their delicate organism needs a tonic and helping-hand which only Dr. Pierce's Favorite Prescription can give them. Many women suffer needlessly from girlhood to womanhood and from motherhood to old age—with backache, dizziness or headache. A woman often becomes sleepless, nervous, "broken-down," irritable and feels tired from morning to night. When pains and aches rack the womanly system at frequent intervals, *ask your neighbor about*

Doctor Pierce's Favorite Prescription.

MRS. J. IMHOF, of 321 S. Bentalou Street, Baltimore, Md., says: "I wrote you about nine months ago, telling you of my condition. I have a fine baby girl—she weighed nine pounds when born. She is my third child and the strongest of them all. My suffering was only for two hours. I took several bottles of 'Favorite Prescription' and one of Dr. Pierce's Smart-Weed. I never had a well day before I took your medicines. I was surprised how well I felt—could eat—was always hungry, and never had a sick stomach. The nurse who was with me said the medicine was wonderful because I got along so nicely after having had so much trouble before. She intends to recommend it to all her suffering patients. Everybody is astonished at me because I only weighed 103 pounds before and now I weigh 135. I have had several ladies come to me and ask about Dr. Pierce's medicine. I am willing to recommend it to all who suffer and want help. If any want information I will be glad to give it."

Wedding-Party in White.

The rector of St. Peter's in London was surprised the other day when a bridal procession presented itself with every member of the party dressed in white. Such a thing had never been seen in London before, and, of course, no Englishman would be the first to depart from the established order of things. The audacious breakers of tradition were Australians, a Miss Sheppard and Mr. Sharpe. Most British colonies follow slavishly the customs of the home country. Some of them are more English than the English, if that is possible. But Australia is a long way off, and a generation is growing up there that has not the blind veneration for the customs of England. The comment of the English is that such a costume is extremely suitable in dog days—for Australians.

Corner in Attar of Roses.

As a result of a short crop, restricted harvest through heat and consequent high prices for the flowers, the price of attar of roses is likely to be unusually high this season. Private advices give the Bulgarian crop at 125,000 ounces, against 170,000 ounces last year, but other authorities consider this estimate to be overstated by 100 per cent. At any rate distillers have to pay as much as 5½ cents a pound for the flowers, as compared with 3½ cents a pound last year, and new season's attar is being quoted at $31.90 net an English ounce. It is estimated that 225 pounds of flowers will be required to produce one ounce attar against the average requirement of 160 pounds. Local attempts to corner the supplies threaten to advance prices still further.

Discovering a Two-Cent Error.

It took the City Comptroller's office five days and necessitated an expense of $30 to find an error of two cents in the city's books, according to Comptroller Kotecki, who charges that the records left by the previous administration were so unsystematically kept that it was necessary to trace the accounts back several months before the source of the error could be discovered. "It took all the time of one clerk for five days and much of the time of another during the same time before we finally discovered the error," said Mr. Kotecki. "This is only one instance of what we meet with continually." Mr. Kotecki said that under the new system devised by Deputy Clerk Puelicher the same error could have been discovered in ten minutes.—Milwaukee Sentinel.

Smoking Next to Arson.

An insurance company has sent large display cards to manufacturers and other employers, which bear in bold red letters this warning: "No smoking in this room. Smoking among inflammable materials comes very close to being arson." On the reverse side is printed: "Fires caused by discarded cigar or cigarette stumps probably cost the nation $50,000,000 yearly." In the effort to reduce this source of danger the cards bears the legend: "Besides being a source of fire danger, the habit of smoking in workrooms is a source of inefficiency. Its abolition is a move in the direction of securing greater quantity and better quality of production, as well as in the direction of fire prevention."—New York Tribune.

376 Comets Discovered.

Statistics collected by Borelly, the French astronomer, show that since the sixteenth century 376 comets have been discovered, of which 106 were periodic, and 19 have been seen at more than one return, and 56 have been visible to the naked eye, with 7 that could be seen in full daylight. Nearly two-thirds of the discoveries appear to have been made in the morning before sunrise, and more than half in the second half of the year. The French observatories have led in discoveries, 67 of the comets having been first detected at Marseilles and 46 at Paris, but only 16 at Geneva, which has the next highest record, 15 at Florence, and 14 at the Lick observatory.

First American Ensign.

Cooper ("History of the Navy") writes that "the first ensign ever shown by a regular American man-of-war was hoisted in the Delaware aboard the Alfred by the hands of Paul Jones some time about the last of December, 1775." The only doubts in this incident concern the date and the design of the ensign. On the latter point Harrison ("The Stars and Stripes and Other American Flags," page 105) makes this statement: "It is not known with certainty what flag Jones raised over the Alfred, only that it was one of the rattlesnake designs."

THEIR SENSE OF HONOR

A Double Wedding Where Only One Was Planned.

BY TEMPLE BAILEY.

In the dimness of the little stone church Hilda practiced the wedding march. Now and then a tear dropped on her fingers, but she went bravely on, repeating the hard passages, never resting until the music seemed to drip from her fingers as she touched the keys. When the crash of the last chords came, she rose, and stood leaning over the choir rail, looking down into the stillness and shadow beneath.

"Oh, dear," came her little sighing complaint. "Oh, dear;" and with that she dropped down on one of the cushioned seats and sobbed, tempestously, but silently.

She raised her head as a quick step sounded in the aisle beneath.

"Up there, Hilda?" called a man's voice.

She straightened herself and wiped the tears from her eyes with a rolled-up wad of wet handkerchief.

"Yes."

"I heard you outside." He looked up at the girl. "I heard you practicing the wedding march. Do you know I simply can't see myself keeping step to that thing."

"Why not?" Hilda demanded.

He laughed sheepishly. "Oh, I don't know—perhaps because the bridegroom always looks like such a fool—it's the bride who counts, you know."

"And such a bride," breathed Hilda. Then, after a moment's silence, she made her generous effort, "Such a beautiful bride."

"Look here," said the man below, "come down, I want to talk to you."

With another furtive wipe of her eyes, Hilda descended and selected a pew in the darkest corner of the church. Kent Cartwright sat down beside her. "I want to talk to you," he said. "There's something dreadfully wrong, Hilda."

Her heart seemed to stop beating. "What do you mean?"

"Just this—a bridegroom ought to go happily, joyously to his wedding. I—why, Hilda, I know Margaret's the loveliest girl in the world, I know I'm a lucky fellow, and yet I dread tomorrow—I feel that, if there were any way on earth to get out of it without dishonor, without hurting Margaret, that I'd do it."

Hilda trembled in the silence which followed the fierce, tense sentences. "Oh, how did it happen?" she began, finally.

"It was the usual thing," he said, wearily. "She came here in all the wonder of her city ways—and she seemed like a being from a different planet. You know how I went mad over her—and how I forgot the claims even of my friendship for you. I didn't come to see you for weeks, and it's a wonder you did not break our compact of good fellowship then and there, but you were so sweet about Margaret."

Hilda remembered the agony of those days when Kent, the friend of her girlhood, had deserted her for Margaret Wainwright. Of course, she had not blamed him.

"You were so sweet," he repeated.

Something in his tone startled the listening girl. "You have stage fright, Kent," she said: "it's just the ceremony you are dreading."

"Don't," he interrupted her, "don't try to smooth it over. I've done an awful thing, Hilda Ware—I am going to marry Margaret Wainwright tomorrow, yet there's no one in the world I love but you."

For one moment Hilda's heart leaped. It seemed to her that all the years she would go happily because she had heard Kent Cartwright say, "I love you." Then she rose with quiet dignity. "I don't think you know what you are saying," she said.

"I know," he stood up beside her and looked down into her pale face. "Hilda," he said, sharply, "you've been crying."

"Yes," she said simply, "but we mustn't talk about that. We must talk about what you are to do tomorrow. There is only one way, Kent. You can't break Margaret's heart."

"So I must break my own." His eyes were blazing in his white face. "I had to tell you, Hilda. Oh, it's all a muddle," Kent said. "Sometimes I think that she doesn't care for me—she seems to care only for herself."

Hilda had thought that. Pretty Margaret had lived such a butterfly life, and Kent had followed bewildered in her wake. "I suppose I've got to go on with it," he said, heavily.

Hilda knew that the decision lay in her hands. If she said "Yes," Kent would do his duty, but if she let him know that his feeling was reciprocated nothing could avert a catastrophe.

She tried to speak steadily. "Of course," she said, "you must go on. Tomorrow morning you will feel as brave as a lion. Go, take a long walk and get back to normal."

"Come walk with me," he begged.

"No."

He held out his hand. "Good-by, Hilda."

His voice broke, and, almost tottering, she fled from him up the stairs. "Good-by," she called from the organ loft, and heard him go out of the church.

For an hour she was alone with her agony. Then she went back to her task. With trembling fingers she tried to play, but found that she could not. The twilight came, and the darkness, and still she sat, her head on her hands, her hands on the keys, motionless. Then suddenly there stole out upon the silence of the church the sound of voices.

"It is safest in here," she heard a woman's whisper. "Oh, Phil, why did you come?"

"To carry you away with me," came a man's resolute answer.

"But—I don't understand," Margaret's voice said, wearily. "Three months ago you didn't want me—and you went away—and my heart broke, and then I came up here, and Kent Cartwright was so dear and good and kind—and he loved me—and so—I promised."

"Do you love him?"

"I—I—don't know," she said. "I only know that I dread tomorrow—that if it were not for the fact that I'd break Kent's heart, the wedding should not go on—but it is too late now."

"Too late!" There was exultation in the man's voice. "Why, you are not married to him, and he will thank you when he finds that you haven't let him marry a woman who didn't love him. You and I were made for each other—you know that."

"Yet six months ago," she said, "you went away."

"I went because of a promise I had made my mother. She said that I was too young to know my own mind, that I must have six months' separation to learn whether I really loved you. She wanted me to go without telling you—if you loved me, she said, you would wait."

"And I didn't wait."

"Yesterday I came back—and you were up here, and they told me you were to be married, and I went to mother and asked, 'Why did you let her do it?' and she said, 'If she loved you, she would have waited.'"

"Now that you do, surely you won't break my heart—your heart—Margaret?"

"I must," Hilda could not see Margaret, but in her wavering voice, the catch of her breath, she read the pain that was tearing her friend's heart. "I must," and the girl's voice grew stronger. "I have promised, and I must not make Kent miserable."

"It doesn't seem fair and just," the man's voice entreated. "Perhaps if I could go to him—"

"No," said Margaret; "you must not."

"Oh, but he must," said a tremulous voice from above. "Don't be startled. It's only Hilda. I—I had been practicing in the dark, and I couldn't help hearing. Please—may I come down—I am sure I can straighten things out."

"Hilda," said Margaret, "what shall I do?"

Hilda carried with her a candle which she had lighted in the choir loft. As she came down the aisle toward the waiting people, the light seemed to cast a halo around her head, as if one of the saints from the stained-glass windows had descended to give succor to those who needed help.

"I couldn't help hearing," Hilda said again, as she set the candle carefully on the reading desk. "And I know that the very best way of all will be to tell Kent the truth."

"But tomorrow was to be his wedding day," said Margaret.

Hilda took her hand. "Margaret, dear," she said, "can you hear the truth?"

Margaret stared at her wonderingly. "The truth—what do you mean?"

"This afternoon Kent came to me and told me that he had made a mistake; that he was afraid you did not love him; that he was a plain man and you were unfitted to be the wife of a farmer. He found that—there was some one else—some one he had always cared for."

As Hilda faltered, Margaret cried, rapturously, "Then he wouldn't be hurt—he wouldn't care if I married Philip instead of him?"

"I think he would be glad—to know that you would be happy."

Then for the first time the man spoke. "Who is the girl he loves?" he asked, his pleasant eyes smiling into Hilda's confused ones.

"I sent him away," she stammered, "and he was going to marry Margaret—"

"You dear women," Phil said, "with your sense of honor. What would we men do without you as beacon lights to guide us toward the truth?"

The next day there was a double wedding. Hilda protested that she had nothing ready. But Margaret's elaborate trousseau provided the dainty and lovely garments which were necessary. A white silk from the bride's outfit made Hilda a wedding gown more elegant than any she could have bought for herself. "You gave me my happiness, surely I can give you a wedding gown," Margaret insisted, and Kent added his entreaties that she would accept the gift so graciously offered. "We can make it up to Margaret after we are married," he said, "and I don't want to wait for my bride."

"More Bacon."

Many years ago Congdon's Tavern in Wickford, Rhode Island, was famous for its good cheer, and in "Early Rhode Island" W. B. Weeden has an entertaining tale of John Randolph of Roanoke, who was once a visitor at the inn.

Mr. Randolph was on his way to Newport, and made his journey on horseback with his cousin Edmund, secretary of state under Washington. All the way from New York "ham and eggs" had been the universal fare. At Wickford, Congdon said he would give them clams for supper. The eccentric John of Roanoke rubbed his hands in pleased expectation. Then, appeared the host again, saying the tide was too high for clams, but they should have some capital quahaugs.

"Good heavens," exclaimed Randolph, who did not know that the quahaug is a hard-shelled variety of clam, "more bacon!"—Youth's Companion.

Safe Chauffeuse.

"A strange thing," said a coroner, "is that, among all my automobile fatalities, I've never once had a case where a woman was driving." "So few women drive automobiles," said the reporter. "No, that isn't the whole reason," the coroner demurred. "The percentage of woman drivers is small, but the percentage of woman drivers' accidents is nil. Women as automobilists have no trouble because they drive more prudently than men. I had to laugh when my wife refused to let our daughter learn to run our new roadster, saying she'd be afraid to ride behind the girl. Never be afraid to ride behind a female chauffeur. You may get to your destination a minute or two late, but you'll get there, and you won't arrive in splints or a coffin, either."

New Zealand Leads.

New Zealand, the land of butter and eggs, is in some respects in advance of other countries in the matter of care for domestic animals. It is not customary there for stock to be housed, even in winter, but some protection is necessary for horses and cows in cold or wet weather, especially at night. For this purpose, canvas covers are used, particularly when the animals are left out in pastures exposed to severe weather. During the winter the covers are kept on most or all the time, but in other seasons they are put on at night and removed in the morning. So universal has this custom of covering become that United States Vice Consul-General Henry D. Baker recommends that American manufacturers make a special canvas for the market.

Arrow Poison From Frogs.

The arrow poison used by the Indians of Colombia has been found to be the secretion of the skin of a small frog. The arrows are eight inch palm spines, which are shot from a blow gun and the hunter carries the frog along in a hollow bamboo in order that he may have the poison in a fresh condition. A simple prick of the skin yields the poison drop when needed. When one of the arrows enters the body of even a large animal—such as a jaguar, monkey, or deer—paralysis quickly follows, and the victim is then easily killed. The use of the poison, it is said, does not affect the flesh of the animals killed, which is quite harmless when eaten.

CONFESSES TO ROBBING BANK

Assistant Cashier Has Stolen for Thirteen Years.

SPECULATED IN STOCK MARKET

Sudden Appearance of an Examiner at the First National Bank in Manistee, Mich., Leads to the Confession.

Grand Rapids, Mich., Oct. 28.—John W. Sibben, assistant cashier of the First National bank in Manistee, Mich., confessed that for thirteen years he had been stealing from the institution, to speculate in the Chicago stock market. His defalcations amount to $44,300.

Trusted as Employe.

Sibben is now under arrest. President T. J. Ramsdell and G. Kitsinger and C. A. Hart of the bank have personally made good his shortage. Sibben had been known as one of the most trusted employes of the bank.

The discovery of the defalcations was made when Herbert E. Johnson, a bank examiner, called unexpectedly. He found Sibben working unusually rapidly on the books. Suspecting something wrong, Johnson seized the books. Sibben didn't wait for exposure. He went directly into the office of Vice President George A. Dunham and there confessed. He said in thirty minutes more he could have concealed his shortage from the inspector.

Steals to Aid Son.

Sibben found it difficult in 1896 to meet expenses. His invalid son's doctor bills made him dip into the bank funds. Then he played the Chicago stock market, won a little, went deeper and deeper, and then he plunged, later making heavy investments in worthless New Mexican mines.

Three years ago he resolved never to take any more money after narrowly escaping detection by bank examiners. Since then he had been able to manipulate the books so as to conceal the shortage.

SLAIN TO STOP INQUIRY

Latest Theories on the Bridgeport, Conn., Murder.

Coupled with the reports received from Bridgeport, Conn., police to the effect that Jennie Cavalieri, the young Italian woman, known also as Rose Rossi, was evidently killed for the same reason that Herman Rosenthal was slain in New York—because she "squealed"—the positive statement came from Carl A. Waldron, attorney for the committee of fifteen, that the woman came from a resort at 106 West Twenty-first street, Chicago.

Three weeks ago, this place was raided by federal agents under the leadership of Joseph Meyers, one of the subordinates of Charles DeWoody of the Chicago branch of the department of justice.

A few days before this raid, a man who had been in the Twenty-first street resort is said to have carried a note written in Italian to the police. It was translated by Detective Paul F. Riccio of Assistant Chief Schuettler's office. It proved to be an appeal to the authorities to rescue one of the women from the place or she would be murdered.

It is said to have been signed "Rose." Since the Bridgeport murder the police have learned there was a Rose Rossi registered there. The records show she came to Chicago from Bridgeport, Conn., three months ago.

CONVICTS FIRE PRISON

Binder Twine Warehouse Completely Destroyed.

Mutterings of a "Get Even" Sentiment Frequently Heard Since Flogging of Prisoners.

Jackson, Mich., Oct. 26.—Fire destroyed the binder twine warehouse inside the walls of the state prison here.

The builing contained more than 500 tons of sisal stack and, as the state carries no insurance, the loss will be heavy. The blaze is thought to have been of incendiary origin.

The prisoners were locked in their cells when the flames broke out and made no demonstration.

Warden Simpson was reticent as to the origin of the fire, but would not deny the story circulated by guards and assistant wardens that the fire was of incendiary origin.

A fire trap made from an old cigar box and secreted in the inflammable hemp just before quitting time by one of the convicts is said to be the cause of the conflagration.

The retaliation theory is borne up by the threats made against Warden Simpson when he flogged twenty-five convicts during the rioting some weeks ago.

Mutterings of a "get even" sentiment were heard among the chastised men at that time, according to the underwarden, and only the utmost caution has prevented an attempt at vengeance heretofore.

LANSING — The Michigan mine rescue car, which is to instruct the miners of the state how to act in emergencies, is about to begin its tour of the upper peninsula. The car is the result of the joint activities of the state and federal authorities.

MONROE — The Monroe common council has ordered a special election to be held Nov. 25 to vote on bonding the city for $25,000 for street paving purposes.

BULGARIAN FORCES ARE AT ADRIANOPLE

Take Possession of a Railway Station on Outskirts.

Heavy Bombardment of the City by Bulgarian Artillery—Eighteen Hundred Turkish Prisoners Captured.

The Bulgarians are in possession of Adrianople railway station, and have repulsed another Turkish attempt at a sortie from the city. They add that fresh Bulgarian columns have arrived and are completing the investments of Adrianople.

A part of Adrianople has been set on fire by the Bulgarian artillery which carried on a bombardment, according to dispatches from the vicinity.

The Bulgarian troops have taken the outlying forts of Maras, Havaras, and Sufilar, north and northeast of the city, and have captured a railroad station in the outskirts of the town. Eighteen hundred prisoners have fallen into their hands.

No Officers Among Prisoners.

Eight hundred and sixty prisoners who arrived here from Mustapha Pasha were captured in some of the smaller towns taken by the Bulgarians. The entire absence of Turkish officers among the prisoners captured at Kirk-Kilissen arouses comment, as the first reports represented that the whole garrison had been taken.

The Bulgarian army is reported to be advancing along the whole front and a dispatch to the government organ Mir says the Turks are retreating in panic, while the civilian population is fleeing toward Constantinople.

Kotchavi was captured by the Bulgarians after severe fighting at the point of the bayonet.

Acknowledge Scutari May Fall.

The Bulgarians are said to have captured Nevrekop on the way from Sofia to the sea.

The Turkish minister of war in an interview says that it is probable that Scutari may fall to the Montenegrins, but that its capture is of little importance. He says that Turkey will punish Montenegro as soon as she is done with Servia and Bulgaria.

The Servians have taken Buchitrim and Gilan in their march south from Novi Bacar upon Uskub.

A Turkish battleship, which had been in the bombardment of Varna, came to Constantinople for repairs. There had been an explosion aboard.

Turkish Commander Not Killed.

The report that Mukhtar Pasha, the Turkish commander at Kirk-Kilesseh, was killed is not true. His son was captured by the victorious Bulgars.

The Montenegrins trained the captured Turkish guns on Scutari and the bombardment of that place is expected. Montenegrin emissaries have entered the town to demand its capitulation and the Turks have withdrawn their garrison to the southern heights of Zadrina. This is thought to be the first move toward evacuation.

Joy Rider Sent to Jail.

Coldwater, Mich., Oct. 28.—Leo Newman was sentenced to twenty days in the county jail and fined $50 and $5 costs. Newman was one of the party of joy riders in an auto which ran over Art Cunningham and killed him.

DETROIT—A state incorporation to be known as the Russell A. Alger Memorial association, having for its purpose the collection of subscriptions for the erection of a monument in honor of the general, was provided for by the Detroit common council with the adoption of the report of the special committee of aldermen which was appointed some weeks ago to devise means for the furtherance of the project.

48 STATES WILL VOTE FOR PRESIDENT NOV. 5

Forty-Six Will Choose Congressmen; 29 Governors.

Progressives Have Complete Tickets in Twenty-Two Commonwealths and Keep Rivals on Jump.

Tuesday, Nov. 5, the voters in the forty-eight states of the Union will express their preferences for president and vice president of the United States. In forty-six of the states representatives in the next congress—the sixty-third—will be named. Twenty-nine states will vote for governors and other state officers, and in half a dozen others minor state officials will be elected. Maine, Vermont, Arkansas and Georgia have held their state elections, but the two latter states, on Nov. 5, will elect representatives in congress. Maine and Vermont already have chosen their congressmen, as well as state officers.

The states that will elect governors are Colorado, Connecticut, Delaware, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New York, North Carolina, North Dakota, Ohio, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Washington, West Virginia and Wisconsin.

Electoral Disputes Are Settled.

The electoral disputes arising between the regular Republicans and the Progressives have been settled in practically all of the states. Confusion still exists, however, in regard to some of the state tickets. Straight Republican tickets have been named in all the states except one or two in the south. The Democrats have tickets in all of the states in which elections are to be held. The new third party has put up a separate ticket in all of the states in which the regular Republican party nominees were not satisfactory to the "Progressives."

The Socialists have named candidates for governor and other state officers in twenty-seven states. The Prohibition party has complete state tickets in twenty-one states. In addition, tickets of the Socialist, Labor, Independence, Populist and other minor parties will appear on the ballots in some of the states.

The Progressives, Socialists and Prohibitionists have nominated candidates for congress in many districts, and in others labor unions or federations have indorsed Democrats or Republicans who are believed to be favorable to their cause.

22 Progressive State Tickets.

The Progressives have named complete tickets for governor and other state officers in Colorado, Connecticut, Delaware, Florida, Idaho, Illinois, Indiana, Iowa, Massachusetts, Michigan, Minnesota, Missouri, Montana, New Hampshire, New York, North Dakota, Ohio, Rhode Island, Texas, Utah and Washington.

The Socialist party has complete state tickets in Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New York, North Carolina, North Dakota, Ohio, Rhode Island, South Carolina, South Dakota, Texas, Utah, Washington, West Virginia and Wisconsin.

The Prohibitionists have named candidates for governor and other state officers in Connecticut, Delaware, Idaho, Illinois, Indiana, Iowa, Kansas, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New York, Ohio, Rhode Island, South Dakota, Nebraska, Texas, Washington, West Virginia and Wisconsin.

Many of the states will elect legislatures which will have the naming of United States senators. A total of thirty-three seats in the United States senate will be at stake in the elections. Of these eighteen are now occupied by Republicans and thirteen by Democrats. Two vacancies, caused by the death of Charles J. Hughes of Colorado and the enforced retirement of William Lorimer of Illinois, bring the total up to thirty-three.

BECKER FOUND GUILTY

First Degree Murder Verdict Returned by Jury.

"Guilty of murder in the first degree, was the verdict returned in New York by the jury which has been trying Lieutenant Becker for the murder of Herman Rosenthal.

The jury had been out exactly seven hours and fifty-seven minutes. The length of its deliberations and the frequency of its requests for exhibits, together with unmistakable signs of hot argument in the jury room led most of those who waited at the criminal courts building to believe that there would be no agreement.

So that when the blow finally fell upon the defendant its force was all the more crushing. Even the district attorney himself had said it looked like a disagreement.

This verdict means that the death penalty undoubtedly will be imposed.

MAY LOSE RIGHT TO VOTE?

Nearly 1,000 Workmen on Soo Lock Not Residents, Is Claim.

Sault Ste. Marie, Mich., Oct. 25.—On the ground that they are not residents of the city or county, the right to vote of nearly 1,000 workmen employed on the new third lock [illegible] questioned. Some time ago when it was found to be impossible to secure homes in the city for the men the Great Lakes Dredge and Dock company built some small houses on a strip of land on the river just beyond the new lock for them.

The claim is now advanced that this property is not included in the make-up of any of the four wards by the terms of the charter.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

"TELLS THE WHOLE STORY"

To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat chest and lungs. Stops la grippe coughs and has a soothing effect, Remember the name, Foley's Honey and Tar Compound, accept no substitues. For sale by all druggists of Tecumseh.

DIAZ IS CAPTURED

Backbone of the Mexican Revolution Believed Broken.

Capture of General Felix Diaz by Mexican federal forces near Vera Cruz was officially reported to Washington.

Both Consul Canada and Commander Hughes of the Des Moines cabled the news of the federal victory. Diaz's defeat is taken here to mean the collapse of the entire revolutionary movement which centered in him.

The manner in which the Madero government has made good its claim that Diaz would be crushed is expected greatly to enhance the prestige of the entire administration, both at home and abroad.

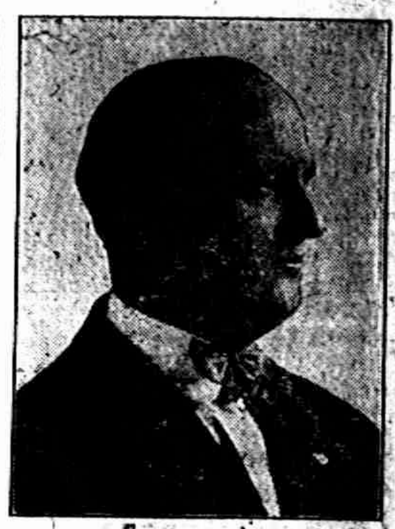
CONGRESSMAN WILLIAM F. WEDEMEYER.



Congressman William W. Wedemeyer of this District is a candidate for re election on the Republican ticket He is serving his first term and has made a good record.

He stands for the tarriff policies that have brought prosperity. He has consistently refused to vote for bills that would destroy the industries of his Congressional District and of the country. But he has, on the other hand, shown his willingness to support scientific and logical revisions that would not destroy the industries of the nation; and accordingly, has stood for the maintenance of the Tariff Board.

He voted for the Bristow amendments to the Sugar Schedule.

He voted for the LaFollette Wool Bill as introduced in the House by Mr. Crunpacker.

Congressman Wedemeyer has championed, in every way possible, the cause of the old soldier.

He has stood for all legislation in the best interests of labor.

He has supported all meaures for the benefit of the Agricultural classes He has stood for the extension of the Agricultural Department and carried on a tremendous corresponedence in getting to the farmers official publications and information that would be of help to them.

He has always had the interests of the business man and manufacturer sincerely at heart, and has, at all times stood for the things which would be of help to them.

He has been steadily and actively "on the job" and has watched out carefully for the best interests of all the people in the great Second District which he represents.

Congressman Wedemeyer never descends to low slanderous attacks upon his opponents. He knows that his own record is clean and does not have to make capital for himself by attacks on others, Nor does he stop in his work to reply or heed to an unwarranted assault made purely for political effect by one, who before he ran for offices, always praised Mr. Wedemeyer to the skies.

William W. Wedemeyer is well known to the citizens of this District. From a poor boy, who had to make his own way through High School and University, he worked up steadily to the position he now holds, He is truly a representative of the people and has their best interests sincerly at heart,

Throughout his political career he has stood for advanced and progressive measures, not only in Congress, but also under Govenor Pingree, when he championed primary reform and direct election of United States Senators, and when he helped to bring about changes in railroad taxation and other reforms, that have meant millions of dollars to the tax payers of Michigan.

MERRY-GO-ROUND

The Merry-Go-Round Club had a merry evening at the home of Mr. and Mrs. J. H. Smith, on Monday. There were eight tables of cards played, Mrs. G. A. Rathbun and Floyd Ager carrying away the prizes. At the close of the games dainty refreshments were served Lavern Smith and wife of Adrian were the out of town guests. A straw vote on the presidential nominees was taken among the men showing Taft 5, Roosevelt 5, Wilson 6. The men did not seem much in favor of woman suffrage.

Man is an Encyclopedia.

A man is the whole encyclopedia of facts. The creation of a thousand forests is in one acorn, and Egypt, Greece, Rome, Gaul, Britain, America, lie folded already in the first man.—Emerson.

GRANT FELLOWS CANDIDATE FOR ATTORNEY GENERAL ON THE REPUBLICAN STATE TICKET.

KISSED THE FLAG

A class of immigrant children were recently graduated from the Baron de Hirsch school in New York, where, in half a year, they had learned to speak well enough to enter the public schools.

During the graduation exercises, when the American flag was borne past the children, one little girl pulled up the folds and reverently kissed them. The flag meant, to her, freedom and safety for the refugee, an end to oppression, and the right to life, liberty and the pursuit to happiness.

This is getting an education at its very roots.

No other knowledge that can be crammed into a child, immigrant or native-born, is so valuable to him and to the community as is the knowledge of the principles of good citizenship and the blessings of self-government.

It is charged that our common schools teach everything under the sun, except the most important thing—good citizenship.

Intimate knowledge of the real purpose of government, of its operation, and of the advantages of its protection to all well meaning people, breeds the highest and sincerest respect for it.

The child cannot be taught too early that his first and sacredest duty is to be a good citizen, a staunch pillar in the temple that shelter mankind in common interest, good order and brotherhood.

The above was taken from the Omaha Daily News and contains a lesson that all should heed and act upon at every available opportunity

Cures baby's croup, Willie's daily cuts and bruises, mama's sore throat, grandma's lameness—Dr. Thomas' Eclectic Oil—the great household remedy.

MORE ABOUT OUR GRAHAM GEM

From November Michigan Patron.

Adrian college people note with interest the fact that the Progressive candidate for sheriff of Lenawee county is Albert Graham of Madison township. Mr. Graham was a student at Adrian college in the "eighties," receiving his commercial certificate there from in 1890. While in college he was a member of the Lambda Phi literary society and is one of the most loyal of this society's members. He has responded to every call from his alma mater and you will find his name on the roll of those subscribing to the fund for paying off the college debt and later to the subscriptions for the purchase of the great organ.

It has been with real pleasure that his old college acquaintances have followed his successes in his farm line. Success here means more than people in the past realized it did for the land holders of this country are only recently being recognized as a much to be envied class. Mr Graham, is a successful prosperous Lenawee county land owner and is well known among Lenawee people. He was secretary of the Lenawee county institute for the first three years of its existence, and by his faithful work here did much for the success of that organization. In loyalty, sincerity, honesty and earnestness, Mr. Graham is not to be outclassed and these are the qualities that win in life and in politics.

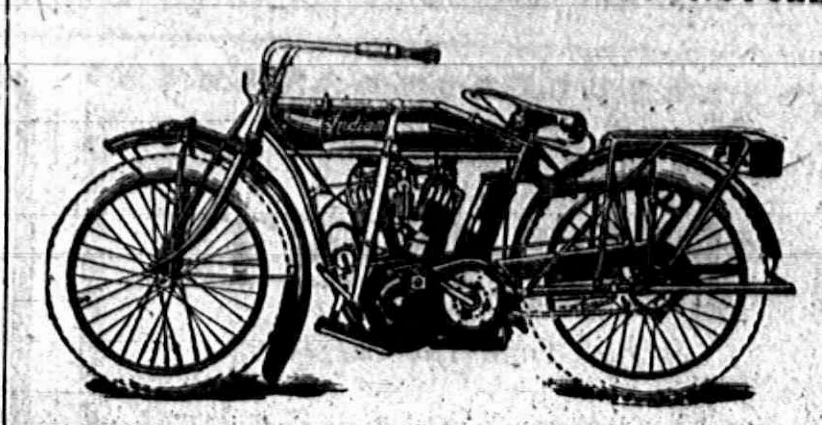
ANNOUNCEMENT
1913 MODELS of the INDIAN MOTORCYCLE



Following the "14 Important Improvements" of 1912, the Hendee Mfg. Company announce no less than a dozen additional new features in their 1913 model of the Indian Motorcycle.

By far the most significent feature of the new machine is the Cradle Spring Frame. It is something entirely new, a radical departure from the conventional bicycle and recent motorcycle systems of "springing." Briefly, the new device consists of the application to the rear wheel of the Indian Cradel Spring device as used on the front fork for the past 3 years.

Extending back horizontally from the frame joint cluster under the saddle, flanking the rear mud guard, are two 7 leaf Chrone Vanadium steel springs The "C" shaped curls at the rear end of these springs are connected by stays to bell cranks on which the rear axle is hung. The forward end of the rear fork has a hinge joint which enables the rear wheel to yield to imperfections of road surface, All shocks are completely absorbed by the leaf springs. The rear wheel can go through almost any verticle motion without affecting the body of the machine. The is no "bottom" to this spring device. The life of the machine is greatly increased.

The Engineering Department of the Hendee Mfg. Co. devoted 18 months of exhaustive test to the Cradle Spring Frame before finally deciding on its adoption for all models of the 1913 Indian.

In addition to the Cradle Spring Frame, the 1913 Indian embodies 10 other important improvements which will be appreciated by motorcycle riders in general Prices remain the same as last year.

New style, single clinch rims; larger tires; wider mud guards, front and rear with larger splashes; casing for upper stretch of transmission chain and curve of sprocket; larger luggage carrier in rear; fitted to all models; foot rests, as well as pedals, regular 4 h. p. add 7 h. p models; foot brake lever fitted on left side now operates band brake as well as the pedal action; larger size multiple disc clutch now fitted to all models alike; improved Indian type saddle,

All 1913 Indian will be chain driven and finished in Indian red only.

Catalogue sent on request.

CHARITY BALL

UNDER THE AUSPICES OF THE KINGS DAUGHTERS.

Fantastic Hollowe'en Decorations, Apollo Saxaphone Quartette, Good Crowd.

The ball given by the Kings Daughters for Charity was held last evening at the Witherall Hall and was one of the most successful and artistic entertainments ever given by this organization.

The work of this society is not caring for the poor of our village, who are looked after by the supervisor, but to assist those who need help over a period of illness and bad luck and who would hesitate to apply for assistance.

The work is done in a very quite manner one not knowing what the other may be doing only as they confer with the President, and there are many who have been thus remembered. Once a year they make a special effort to raise money in order to relieve the poor during the year; and the people of our village have responded generously and this was no exception to the rule. The ladies have spared no time or pains, each one purchasing a ticket for the entertainment thus contributing to the general fund.

The decorations of the hall for the ball, consisted of everything conceivable that could be thought for a Hallowe'en party. The waincoting of the room was of corn stalks with big bunches of husks looking like huge daisies. The Jack-o-lanterns with their red glow, the witches with their broom sticks gave a most weird look to the scene.

The Saxaphone quartette was kept in place and order by two Hallowe'en ghosts. The dining room looked very pretty with Hallowe'en decorations: and salads, sandwiches, coffee, cake and ice cream were served during the evening.

There were card tables ready for those who wished to play. About 60 couples danced to the strains of the Saxaphone quartette which rendered a most delightful program for the evening.

The ladies will net $80.00 which will assist them much for the coming year and are very grateful for any contributions that may be given them during the year, the treasurer being Mrs. Faron S. Anderson.

The WEEK'S DOINGS

Mr. Perry will play here Nov. 6,

TAKE IT IN TIME

Just as Scores of Tecumseh People Have.

Waiting doesn't pay.

If you neglect kidney backache.

Urinary troubles often follow.

Doan's Kidney Pills are for kidney backache, and for other kidney ills. Tecumseh citizens endorse them.

J. B. Smith, E Chicago St., Tecumseh, Mich., says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Twinges of rheumatism, backache stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs. Peter Holan, 11501 Buckeye Road, S. L., Cleveland, O., had a little son with a bad case of whooping cough She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh.

Porto Rico's New Wonder

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and $1.00. Trial bottle free. Guaranteed by C. A. Wright & Son.

ROOSEVELT SEES VISITORS

Ex-President Dresses Himself and Sits Up Almost All Day.

Colonel Theodore Roosevelt, at Oyster Bay, surprised his household by dressing himself without assistance and walking into the dining room where the family was gathered with a demand for breakfast.

He was permitted to remain down stairs the greater part of the day putting in his time in his library. He saw several visitors in the library, among them Robert J. Collier, Finley Peter Dunne and Mark Sullivan, who journeyed down to Sagamore Hill together. The Progressive leader conferred with his leaders over the active part which Collier's Weekly is to take in the remainder of the campaign.

IRON ORE MAKES RECORD

Best Previous Record Likely to Be Beaten This Year.

Lansing, Mich., Oct. 28.—According to the report of mining inspectors of the upper peninsula more iron ore is being shipped this year than ever before. The figures were compiled to disprove the statements issuing from smelting centers to the effect that the ore was becoming scarce and that the smelters and dependent shops would be forced to close for the year.

The largest amount ever shipped in one year heretofore was 44,000,000 tons. In 1911 the shipments were only half that amount. If the present rate of shipments is maintained until the lake season closes, the highest record will be surpassed by over 3,000,000 tons.

WILL VOTE ON OPTION AGAIN

Kalamazoo County Likely to Resubmit Question.

Kalamazoo, Mich., Oct. 29. — That there will be another local option fight in this county next spring became evident when it was generally learned that the board of supervisors, instead of adjourning sine die, fixed the next meeting time for the first Monday in January.

This will permit the board to put before the electors the local option question. Kalamazoo has two local option fights and the general feeling is that if the question is submitted again it will carry in this county.

WOULD LEASE STATE LANDS

Bay City Company Wants to Drill for Oil.

Lansing, Mich., Oct. 26.—At a meeting of the public domain commission the Northern Development company of Bay City asked for leases of three years' duration to drill for oil, gas and coal on the state lands in Bay, Saginaw, Montmorency, Crawford and Otsego counties. At the end of the leases the company is to bid with other concerns for the right to drill for any minerals that might be found. The agreement is similar to the one offered the United Fuel and Supply company of Canada, which the latter refused to accept.

It was finally decided to leave the drafting of the agreement to the state geologist, attorney general, Commissioners Beale, Russell and Carton, and representatives of the company

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal root, and sold by druggists for the past forty years under the name of

Doctor Pierce's Golden Medical Discovery,

gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alterative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease. Sold by druggists everywhere. Address World's Dispensary Medical Association, Buffalo, N. Y.

MR. CHAS. FARRIER, JR., of 332 Woodlawn Ave., Philadelphia, Pa., writes: "I was troubled with my stomach for almost three years. Tried several doctors and most everything anybody recommended to me, but kept getting worse and honestly did not care to live as I was never well even though, at times, I had no pain. My symptoms were as follows: Always tired, my whole body in a throb, belching of gas, pain and soreness in the stomach, vomiting, constipation, could not tell what to eat or what would agree with me, and was melancholy. But after taking Dr. Pierce's Golden Medical Discovery with the 'Pleasant Pellets' it has made me a well man which is something to live for."

NOT WHOLLY VANITY

Why Joe Purchased $10 Worth of Agony.

BY MARTHA M'CULLOCH-WILLIAMS.

"Buy a story, please, sir—a teeny, weeny story," Josephine Mabin called to Latimer half in, half out of his door. "You don't want to be constructively guilty of cruel and unusual punishment—that I know," she ran on, coming inside and moving a little uncertainly toward his desk.

Latimer sprang up, set a chair for her, and made to seat her, but she shook her head. "Dassent—I'd never, never have the courage to rise again," she said, then holding out a small foot in a shoe still smaller, "Johnny—do believe this isn't wholly vanity—the girl who sold them was a hypnotist."

"Where were you going to need such fine foot-feathers?" Latimer interrupted almost savagely.

The offending foot-feathers were fine, indeed—the latest cry of the mode as to shape and stuff. At rest, Joe's foot did look pretty in them—when she walked or tried to, her elastic instep became wooden, her pinched toes were alternately dead or full of savage prickings.

"Sit down!" Latimer ordered, "and tell me the whole story. You surely have not been out with that Parish gang again?"

"The shoes contradict you—that's just why I suffer from them," Joe said with something betwixt a frown and a pout. "Ten dollars' worth of agony! Isn't that tough?"

"Not as tough as the Parish gang," Latimer exploded. "See here, Joe, you know I'm your big brother by appointment—cut them out! I say it! And I mean it—down to the ground."

"I wish I could," Joe said half under breath, then more articulate: "Johnny—I must make you understand. I promised I wouldn't—but you are my other self——"

"What's to understand?" Latimer interrupted.

Joe reached for his hand. "The truth," she said. "I don't like tough ways, nor people—but I have to make a pretense of it—because you see, if I get the story—all my hard times are over. Beckwith himself has promised it."

"But what is the story?" Latimer demanded.

Joe put her lips almost upon his ear, as she answered, "What's behind the Norowill divorce? Parish knows, you see—he's the only one who does know, except the principals. He—he thinks a lot of me, in his way. If I keep letting him think so—and more—he'll surely tell me—when he knows what it will mean."

"You infant!" Latimer interrupted. "Surely you can't think Parish will give away his patron's secrets, even for your beautiful eyes? Why if he did——"

"You can't think I'd sell the story even if I knew it, unless he was willing?" Joe cried, trying to rise, but falling back with a grimace.

Latimer took both her hands. "That shows how fit you are for newspaper work. You can't and won't forget that you're a lady born—above sneaking and sleuthing, and dirty pryings generally. Give it up, child. Let me send you home. Tell me, how are you off? Need money? How much?"

Joe turned away her head, fumbling for her purse. Her eyes were so dim she could barely see to open it. From it she shook into her palm three coppers, a dime, a half dollar and a five-dollar gold piece. "Behold my worldly wealth," she said, trying to speak gayly. "And I can't spend the gold—it's my christening money, you know, kept for luck. But—if only you'll buy a storylet so I can get some shoes——"

"I suppose you can go hungry," Latimer interrupted curtly. "Why won't you give up and go home? You know you can marry Billy Mason——"

"Thank you—I don't want Billy Mason—I would rather be a free lance in New York town with one square meal a week than roll round in the Mason auto all the days of my life," she cried, rising and shutting her lips on a groan. Uncertainly balancing she smiled a gallant smile, saying: "Sorry we can't do business—must hop along to some other office."

"We can do business—we have got to," Latimer said doggedly, pulling some bills from his pocket and trying to thrust them upon her. "Take it—just an advance, you know—you can bring stuff when you get 'round to it," he said, looking carefully over her head.

She smiled at him, but shook her head, saying as she pushed away the money: "Johnny, don't you know charity is demoralizing? Besides you can't afford it—any more than I can afford to take it. Don't worry—my rent is paid to the week-end—and I'm going to dine with Parish—and a chaperone. Think I'll let him propose to me, then tell him I can't say 'Yes,' unless he gives me the story and so makes me independent?"

"If I thought you meant that—I'd shoot him," Latimer growled.

From the door Joe called to him sauclly, "I'll let you know how I speed in the morning—I don't have to pay cash for my 'phone calls."

When she was out of hearing he dropped his head on his desk a minute, swearing great silent oaths. Looking down he saw that she had dropped her story—a pitiful wispy scrawl of cheap paper, less bulky than common. He knew it would not do—that was the trouble. Her stories never would do, even for the cheap and uncritical magazine which claimed his services. Their very virtues fought against them—Joe knew good literature, no less good breeding. The broad splashy effects that thrilled his public were not for her. If her people lacked life they were at the least decently tailored. Yet she was set as the hills on making her way, here in the boiling town, rather than go back to the nagging of a step-mother—naggings whose root was the prosperous Billy Mason!

Latimer had known her from her cradle. Indeed, he had carried her pig-a-back several miles at least. He had never thought of her as a sweetheart. Sweethearting for him, indeed, had always meant Agnes Ware. If she had not thrown him over for his rich uncle he should never have seen New York. His coming had a cogent reason—why under heaven had that willful Joe come likewise?—why, finding herself so unfit, did she foolishly stay?

He bought the poor little story—paying for it from his own spare pocket, but through the mask of the magazine. After the check had been sent by messenger, he felt a bit easier, though still he could not settle steadily to his work. Joe's face, wearing that gallant smile above the pain[illegible] page he read. She stayed with him so persistently; indeed, he shut his desk half an hour early, and went scowling to the tiny chambers he had managed to find in a quiet eddy of the town.

They looked desolate enough, yet he had thought them cosy. Joe was the matter—even there she haunted him. He went out quickly, made his way to the park and walked there with swinging strides, until almost midnight. Then suddenly he felt himself faint with hunger, found an eating place and fed himself decently. Afterward there was another stroll. The moon had come up transforming magically even the sordid town. It was late—after midnight—when he came again to his own door and sat down upon the steps for a last bask in the moonshine, a last cigar.

At first he barely noted a huddled limp figure upon the farther end of the topmost step. It gave him a turn to have it suddenly slip down beside him. Next minute Joe was saying in breaks:

"Johnny—I—you'll have to send me home—after all. I've found out—I won't do—I'm too big a coward."

"How did you make the discovery?" Latimer asked teasingly, laying his hand on her arm.

She drew away from him ever so gently. "Why you see—this way. I got the story—all right—and Parish said I could use it. But—but I found I couldn't do that. Why! Johnny the whole secret is—Mrs. Norrowill loved her husband so she wouldn't stand in the way of his happiness after she found out he loved somebody else. And she—she made believe to flirt with the other man—so her husband would have a clear conscience. Could you—could anybody, crucify a woman who would do that?"

"I know you couldn't," Latimer returned, his heart beating fast. He had heard more than the words—a subtly vibrant sympathy. Joe must know what that other woman felt—was it possible she had loved him, Latimer, all along? She was standing unsteadily upon her poor pinched feet.

"It was so kind of you—sending the check," she murmured. "I had to come and tell you—when they said you were out, I waited. Please fix it so I can go home Saturday—but understand I won't marry Billy."

"No—because you are going to marry me instead," Latimer answered, tucking her hand over his arm. "I am coming for you early in the fall—think you can be ready?"

"I'm ready now—unless you want to send me away," Joe said, so low, so sweetly, Latimer had to kiss her then and there, regardless of time and place.

MICHIGAN STATE NEWS.

ANN ARBOR—Word has just been received here by county officials that Henry Keating, former secretary of the International Iron Molders' Union of North America, had been found dead back of a boiler in Chicago, and that he had been dead about a week. Evidence pointed to suicide, the Colorado officials said. It was Keating, whose home was in Detroit at that time, who came to Ann Arbor and led the Ann Arbor Machine company strike in the spring of 1911 and who about three weeks ago pleaded guilty to embezzling about $300 worth of the union strike funds at that time. He was allowed to settle, and then left at once for Chicago.

OVID—The unprincipled incendiary who has caused a half dozen fires in the business section of Ovid the last three weeks is evidently not a whit dismayed by the action taken by the council in offering a reward of $100 for evidence that will lead to his apprehension. His latest escapade was an effort to destroy the Main street bridge. After spreading kerosene oil liberally over the timbers, he ignited a fuse made of wire and rags, which had been placed on an abutment and attached to the under side of the bridge.

BOYNE CITY—Clifford C. Jones, for the last eighteen months the bookkeeper of the People's Bank of this city, mysteriously disappeared. Mr. Jones has been prominent in social and athletic circles, and no reason can be given for his absence. His affairs at the bank are said to be in in good shape. The cashier of the bank received a note from him saying he would be back in a few days, and asked to have his position saved for him. Mrs. Jones, who met with an accident, is nearly frantic over his absence.

LANSING — The Michigan state railroad commission has granted the L'Anse Bay railroad the right to sell stock. The company is capitalized at $20,000, which is $4,000 per mile. The road is to be five miles in length and is to run along L'Anse bay. The incorporators of the road are M. F. Buttars, M. H. Buttars, John Fraley, George A. Drash and E. C. Hardy.

OWOSSO—Clifford Hubbell, who was a workman at the local station of the Consumers' Power company, came in contact with a wire carrying 10,000 volts while at work. He fell ten feet from a scaffold to the floor and died before a physician could reach him. He was twenty-four years old and a widow and a three-months-old babe survive him.

IONIA—The Grand Trunk railway company has commenced work here on a coal dock, located south of the Grand Trunk tracks and near the Pere Marquette shops. The dock is to be an immense one, several hundred feet long, which leads to the supposition that the Grand Trunk intends making Ionia a terminal for local trains.

OLIVET—Jason E. Hammond, who was the business manager of the Hammond Publishing company of Lansing for ten years and former superintendent of public instruction, has been secured by the trustees of Olivet college to act as financial agent of the local institution.

MORRICE—The new beans are pouring in at the rate of 1,900 bushels a day at the local elevator, which is paying out for beans $4,060.12 daily. The reason of the continued high price is on account of the old beans being cleaned out of the market, according to the buyers.

Warm Floors Insure the Children's Health

Cole's Hot Blast Draft on top of the fire burns the coal from the top—burns the gas, which is wasted with all other stoves.

The force of this down draft forces the heat to the base which is made of steel—cannot burn out—and heats the floor.

Thousands of testimonials have been written regarding the base heating qualities of

Cole's Original Hot Blast Heater

The ideal heating stove is one which radiates all the heat thrown off from the fuel—into the rooms—instead of letting it go up the chimney.

The durable heater is the one which will withstand the severe use, year after year, which a heating stove is necessarily subjected to. Sheet steel is the quickest radiator of heat and is used as radiating surface only in Cole's Hot Blast heater. Wherever the fuel comes in contact with the linings—only first quality gray cast iron is used.

Cast iron withstands the wear of the heat from active combustion better than any other material, and the large, [illegible] steel body and base radiate all the heat into the rooms.

Burns Soft Coal, Slack, Lignite, Hard Coal, Wood and [illegible] fuel.

TURKS READY TO SUE FOR PEACE

Said to Have Admitted Defeat to the Powers.

ASK CESSATION OF HOSTILITIES

Constantinople, Filled with Refugees from Outlying Districts and Fleeing Soldiers, Is Obsessed by Fear.

London, Nov. 4. — There is a dispatch from Constantinople that the Turks have turned to the powers with an admission that they have been beaten and a plea for mediation. This application is said to have been made to the foreign ambassadors in Constantinople and to the powers through the porte's representatives in the chancellories of Europe. Mediation, with a view to the cessation of hostilities, and the opening of peace negotiations with the Balkan allies is said to be the request of the porte.

Fear Grips Constantinople.

The reinforced Turks are turning on their pursuers and fighting between Istranja and Serai, while another division is heading for Tchataldja. It is doubtful if this division, so close pressed are they by the victorious Bulgars, can reach their goal. In the meantime the powers are recognizing the serious situation at Constantinople. The sultan's city is filling up with fugitives from the countryside and Ottoman troops who ran before the allies, and their presence serves to fan the flames of fear that run through the capital.

The third British battleship squadron with coal for a long voyage in the bunkers is steaming eastward from Gibraltar. Although the British warships at Davenport and other places are coaled and ready they did not sail as was expected.

Though there is unwonted activity in and around the foreign office here it was officially denied that the torpedo destroyer squadron that is being overhauled for immediate action at Portsmouth is preparing for any Levant cruise.

King Peter Enters Uskub.

Word has been received here that King Peter of Servia has entered with ceremony the town of Uskub that fell to his fighting men. In the presence of great crowds who cheered enthusiastically he embraced his sons, who have been in the thickest of the fighting. He promised the former Turkish mayor that the Turks would not be harmed under the new regime.

The Greeks took Prevesa on the Turkish side of the entrance to the Gulf of Arta after capturing the heights of Nikopolis, which look down on the Turkish fotress. The Turkish garrison fled, but the Greeks captured 400. A Turkish torpedo boat in the Gulf of Arta was burned.

Former Town Marshal Killed.

Chicago, Nov. 4.—John W. Camphouse, a former village marshal of Maywood, a suburb, was found shot to death in the railroad yards near the village.

CARNEGIE HERO AWARDS MADE

Sixty Names Are Added to the Lengthy List.

ONE IS MAN OF SEVENTY-FOUR

Saved Two Girls and a Man from Drowning—Twelve-Year-Old Texas Boy who Used a Pony to Save Another Lad.

Pittsburg, Nov. 4.—Sixty names were added to the list of American heroes through the Carnegie hero fund commission's awarding of medals. One was made to the widow of an Illinois machinist who sacrificed his life in attempting to save two persons from drowning.

Twenty medals were to residents of Texas, while others were distributed throughout the United States. Six were awarded to residents of Bonavista, N. F.

Dramatic stories were embodied in five and six line items issued by the commission in announcing the awards. For the most part those disclosed exceptional heroism in the humblest walks of life.

Seventy-Four-Year-Old Hero.

One of the heroes was Richard S. Stokes, who was seventy-four years old when he saved two girls and a bank cashier from drowning at Lometa, Texas, July 19, 1911.

There is one of the boy heroes, as told in the words of the commission:

"Robert McDonald, Jr., bronze medal and $2,000 as needed for educational puroses. Logan, a schoolboy, aged twelve, saved William B. Schell, aged twelve, from drowning, Fort Worth, Texas, July 25, 1911. Logan, who could not swim, ran 200 feet, mounted a pony and swam it into the stream toward Schell. When he came up near Logan, unconscious, Logan grabbed his hair and guided the pony to the bank, drawing Schell with him. Shell was revived."

Names an Illinois Hero.

The feat of the Illinoisan who died in trying to save life is told in this award:

"Louis G. Burkhalter, deceased, bronze medal to widow and pension of $55 a month, with $5 a month additional for each of two children until each reaches age of sixteen. Burkhalter, a machinist, died in an attempt to save Ruth E. Mastellar and Veda G. Hemstock from drowning, Bradley, Ill., July 28, 1912."

Of the six residents of Bonavista, N. F., who were awarded bronze medals for saving six men men from drowning Sept. 19, 1907, five were fishermen, the other was Robert Brown, a subcollector of customs. The fishermen were J. Louis Little, James C. Little, William Ford, James Ford and Eli Paul.

STEAL TWO MILES OF WIRE

Thieves Demoralize C. & E. I. Railway Phone System.

Danville, Ill., Nov. 4.—When the C. & E. I. Railway attempted to discard its telegraph system for telephones in operating trains it was found thieves had stolen two miles of the copper wire by climbing poles and cutting the new wires.

All of the wire taken was removed between Thornton and Thornton Junction, just outside of Chicago. Chicago junk thieves are suspected. The wires were "dead" and robbers had little fear of detection. The Wabash railway has closed the 100-mile gap between Montpelier and Detroit, making it possible to talk from Danville to Detroit, 303 miles, without least trouble.

WILSON SUFFERS CRANIAL INJURY

Three-Inch Gash Cut in Head of Democratic Candidate.

GOVERNOR NOT INCAPACITATED

Obstruction in Road Causes Jolt of Automobile Which Throws Occupants Violently Against Top, Wilson's Head Striking Rib.

Princeton, N. J., Nov. 4.—Governor Wilson was injured by being thrown violently against the touring car of Abran I. Elkius, in which he was returning to Princeton after his speech at Red Bank. One of the ribs of the top cut a gash nearly three inches long in the top of his head and he was temporarily dazed by the force of the impact, although not rendered unconscious.

Governor Has Kept About.

After the wound had been dressed the governor continued his journey, reaching his home in Princeton a little after 4 a. m. He has kept about as usual and except for the soreness in his head seemed to be none the worse for his mishap. The dressing of the wound had necessitated the shaving of a circular patch about four inches in diameter on the governor's head. This led him to remark that the principal result of the accident had apparently been to make him prematurely bald.

It was late at night when the governor finally broke away from the reception accorded him by the voters of Monmouth county and he interposed no objection when the driver of the Elkius car, in which he was riding with Captain William MacDonald, hit up a high speed in order to make the journey as brief one as possible.

Obstruction Causes Bad Jolt.

Things went smoothly until the car was a short distance outside of Hightstown. Here there was a mound in the road which had been caused by an excavation across which a telegraph pole cast a slight shadow, which led the driver to think there was no break in the road. The car was running at high speed when it bumped into the obstruction diagonally.

Without an instant's warning the governor and Captain MacDonald were violently jolted from their seats and thrown against the top of the car. The governor's injury was rendered more serious than it would otherwise have been by the fact of his head striking one of the ribs. His injury was on the left side of the top of his head and he fell back on his seat dazed by the shock. Captain MacDonald suffered from a wrenched neck and a bruised head, but was not sufficiently hurt to incapacitate him. The driver succeeded in retaining control of the car.

MENOCAL WINS IN CUBA

Telegraphs the Island Will Prove Worthy of U. S. Confidence.

New York, Nov. 4.—General Mario Menocal was elected to the presidency of Cuba on the conservative ticket. He cabled the following statement to the people of the United States:

"My own success is nothing in comparison to Cuba's demonstration of her ability to hold law-abiding elections, in which her dissapproval of corrupt government was thoroughly established. We feel and will soon prove that we are worthy of that confidence which the people of the United States and the outside world once placed in us.

"MARIO MENOCAL."

PARTY LEADERS ALL CONFIDENT

General Review Shows Chairmen All Claiming Victory.

DEMOCRATS LOOK FOR SWEEP

Managers Pronounce Presidential Contest Most Remarkable in Years —Many Offices and General Governmental Policy at Stake.

New York, Nov. 4.—The general election of 1912 has been turned over to the voters of the United States, in the language of the three principal parties. A cessation of activity in the respective camps, recouping of strength for the final onslaught tonight, and an effort Tuesday by each faction to "get out its vote," mark the termination of a campaign conceded to have had few parallels in the history of the nation.

Throughout the country polling places will open Tuesday with the attention of the entire nation focused upon them. In few states outside the "solid south" are results conceded to be one way or another. Confident claims by Democratic leaders of a sweeping victory are met by emphatic assertions from the Republican and Progressive managers that they expect success, respectively, for their presidential candidates.

The presidency and vice presidency, the house of representatives, the United States senate and the state and local governments of many of the most populous states hang in the balance of Tuesday's elections.

State Fights Keen.

In New York the Progressive-Republican-Democratic fight for the state ticket has been so keen as to render the outcome uncertain until the votes are counted. In many other states the introduction of Progressive tickets has broken up what had been a normal Republican majority, and has made the control of state offices an open question.

Within the last week complete polls of county and state leaders have been made from New York by the chairmen of the three national campaign committees. Upon the predictions of success that have come from the various states each of the party leaders claims, at the conclusion of the last week of the campaign, that his candidate for the presidency has the assurance of success.

All Claim Victory.

William F. McCombs, Democratic chairman, asserted that Governor Wilson will carry the nation by an "astounding majority." Charles D. Hilles, Republican chairman, declared that President Taft was "assured of a majority in the electoral college." Senator Joseph M. Dixon, Progressive chairman, declared that "all indications point to a Roosevelt landslide."

The presidential candidates rest with their active participation in the campagn over. Governor Wilson will vote at Princeton and receive the returns Tuesday night at his home there. President Taft will vote in Cincinnati and remain there at the home of his brother, Charles P. Taft, until the results are known Wednesday morning. Colonel Roosevelt, at Oyster Bay, will vote early and devote the day to rest. Each of the candidates will have a special telegraph wire for the receipt of the election returns.

So far as the chairmen of the Democratic, Republican and Progressive parties are concerned, the campaign is ended. There remain to be carried out detailed plans for "getting out the vote," policing contested election districts and preventing frauds, but these matters are in the majority of cases reposing now in the hands of local chairman and state and district managers.

CONFESSION BY KRAMER

High Diver Makes Clean Breast of Singer Killing.

Breaks Down Under Thirty-Six Hours of "Silent Treatment" in Chicago Jail.

Chicago, Nov. 4.—Broken by thirty-six hours of "silent treatment" Charles N. Kramer confessed that he killed Sophia Singer, the Baltimore heiress found murdered here on Monday night.

Kramer, whose stage name is Conway, added a new feature to the statement made by his wife, Beatrice Ryall-Kramer, known on the variety stage as the "Burlesque Queen." He said that he knocked Miss Singer down in self-defense when she attacked him with a razor after he had rebuked her for making, he said, a suggestion to Mrs. Kramer to go out and meet some men. Kramer exonerated his wife from all blame in connection with the crime.

Kramer, the former clown, high diver and circus acrobat, paced his cell all night, begging for a word from the turnkeys, who refused to vouchsafe him a syllable. He heard his wife' outcries as she made her confession, but could get no information as to the cause or what she said.

Later Captain Noothaar began a systematic passing of Kramer's cell, occasionally saying, "Well, do you want to see me?"

Finally Kramer broke into tears and begged to be allowed to tell his story. First he pleaded to see his wife. It was not allowed.

"Don't send me back to that black cell," he cried. "I'll tell it all."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

The story of a good deed is pretty sure to get out some time but it doesn't travel around as fast as a wild rumor.

Mrs Emma Maier, 627 N. 7th St. Springfield, Ill., says her kidney trouble resulted from an operation: "From then until I used Foley Kidney Pills I did not know what a well day was. Then my backache left me, that tired dragged down feeling was gone, I slept soundly and awoke refreshed. I had no more headache or dizzy spells." Safe and sure. Try them. For sale by all Druggists of Tecumseh.

Chestnuts are now selling at five cents a glass, live weight.

James Therio, Iron River, Mich., says of Foley's Honey and Tar Compound: "This winter both my children and I was troubled with bad coughs. We used Foley's Honey and Tar Compound and it promptly cured us. I can recommend it as a good cough and cold cure." Contains no opiates. For sale by all Druggists of Tecumseh.

A Great Building Falls

when its foundation of health—good digestion—is attacked, quick collapse follows. On the first signs of indigestion, Dr. Ling's New Life Pills should be taken to tone the stomach and regulate liver, kidneys and bowels. Pleasant, easy, safe and only 25 cents at C. A. Wright & Son's.

Wish we could enjoy getting up early in the morning as ardently as we dislike going to bed at night.

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Altson, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at C. A. Wright & Son's

"TELLS THE WHOLE STORY"

To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat chest and lungs. Stops la grippe coughs and has a soothing effect. Remember the name, Foley's Honey and Tar Compound, accept no substitues. For sale by all druggists of Tecumseh.

WATER CANNOT BE "AS FREE AS AIR."

We often hear it said that water should be free as air. And so it is, in lake or brook or mountain spring. But pure, clean, soft water, at a pressure sufficient for the modern home can never be free as air. The lake or river a few miles distant that gave us satisfactory water ten years ago is now polluted by the summer tourists or the permanent settlers on its shores. Because water is as free as air as it flows by the door of the farmer, or rises in the well of the village household, we do not realize how much it costs in the modern city. Along some rivers, even in cities, the residents may still obtain water free if they are willing to transport it from a nearby supply and are indifferent as to its quality. But for a pure supply we must go farther and farther away, and bring water from distant lakes and mountain streams, or pump it from deep wells or filter, at great expense, the waters that were once our joy and tonic. The expense thus entailed, which the user must help to bear, is great enough at best. If the present ratio of waste and leakage continues, the problem will indeed be serious.—From "Water Conservation by Cities," by Edward W. Bemis, in the American Review of Reviews for November.

DOUBLE SUSPECT IS HELD

Man Held for Arson May Be Involved in Killing.

Quincy, Ill., Nov. 4.—William Carpenter was arrested here, and although being held on a charge of attempted arson, in setting fire to his father's house, he will be held until he satisfactorily explains his presence in the neighborhood of Warsaw, Ill., where Miss Ellen Cullenne was murdered and her body burned in her home last Sunday night.

Before the arrest, while officers were looking for Carpenter, his father claimed he was at home Sunday night, but the son acknowledged that he was across the river from Warsaw at the time of the killing and did not cross to the Illinois side until the day following. Carpenter has served several terms in the local workhouse, one term in the Chester penitentiary, and has been in the insane asylum.

Woman Killed by Footpad.

Kansas City, Mo., Nov. 4. — Miss Elma Perrine, thirty-eight years old, teacher in a Bible training school here was shot and killed by a highwayman who had failed in an attempt to rob her, immediately after she had alighted from a street car.

Dynamite Explodes at Fire.

Suffolk, Va., Nov. 4. — Fire of unknown origin destroyed the Parker buggy plant and the H. P. Ousler foundry with $100,000 loss. A dynamite explosion in the foundry drove many people from their homes, but injured no one.

Demented Mother Kills Son.

Wichita, Kan., Nov. 4. — Mrs. Virginia Carey, living near Buffalo, Okla., shot and killed her ten-year-old son in order, she said, to keep him from "growing into manhood in the wicked world." Mrs. Carey has been mentally unsound for some years.

Insurance Agent Held.

Kokomo, Ind., Nov. 4.—E. S. Hall, local agent for a Chicago casualty company, has been arrested here charged with selling insurance policies in Howard, Tipton and Madison counties and failing to report the same to the company.

Confesses He Murdered Wife.

St. Paul, Nov. 4.—Emmet Morgan confessed, according to the police, that he murdered his wife. He gave himself up and said he slew after his wife cut his neck with a razor. He is a waiter.

Stove Suffocates Aged Couple.

Council Bluffs, Ia., Nov. 4. F. Marion Owens, eighty years old, and his wife, seventy-five, were found dead in their home here. They had been asphyxiated by fumes from a coal stove.

A MINISTER'S EXPERIENCES

Our most unique experience, however, was one that followed the receipt of an invitation to candidate in one of the old, aristocratic and wealthy churches of New England. It was such a tempting offer, couched in language that disarmed suspicion. "Only one candidate would be considered at a time," it read—an irresistible bait which scheming trustees have learned to cast in front of desirable men with an almost absolute certainty of getting a "strike." Our hearts beat fast. John lost no time in writing back that we would come at the appointed time.

Feeling that much depended upon appearances, we nearly went into bankruptcy in order to get new clothes. When at last we set forth upon our journey no bride and groom ever looked more dressed for the occasion than we. Reaching our destination late on Saturday afternoon, we went as directed to the hotel. While being shown to our room, two men were passengers with us on the elevator. They were strangers to us and we to them, but it happened that one was a member of the parish committee.

"Yes," he said to the other," we have to hear these candidates for the sake of appearances, but of course we shall consider none of them whatever. When it appears that we have heard enough we shall call Mr. Gilbert. He's Mrs. Ballou's choice, you know."

John looked at me and I looked at John. Both of us felt as though the elevator was suddenly going down instead of up. Was it strange that our enthusiasm was gone by the time the page deposited our suit-cases in our room? The trustee, however, spoke the truth. At this writing, many years later, Mr. Gilbert is still ministering to the spiritual welfare of Mrs. Ballou!—"Candidating With My Husband," in The Ladies' World for November.

ILLINOIS UNIVERSITY ENDORSES STOCK SHOW.

The Hon. Eugene Davenport, in a recent interview, expressed himself as follows, relative to the International Live Stock Exposition, which will, this year, be held from November 30 to December 7:

"It is a mistake to suppose that the promotion of agriculture interests and affects only farmers. The truth of the matter is that other people are more interested and more affected by agricultural progress than are the farmers themselves. Along the line of live stock husbandry the greatest public need is that the common man should enjoy good animal products at a reasonable price. It is a simple proposition when reduced to its lowest terms, but to secure these products at a reasonable price means that every man specializing in live stock must employ every device known, and discover many more not known, and to improve the quality of his product as well as to lessen the cost of production. To this end, no single agency bears greater results than the bringing together each year at the International Live Stock Exposition, Union Stock Yards, Chicago, specimens of the best cattle, horses, hogs and sheep that the world has been able to produce. Such a gathering takes place this fall, and not only farmers but men in all kinds of business enterprise in the country should support and attend the Exposition."

GREAT CURIOSITY

No. I. Vol I, Detroit Free Press, Issued May 5, 1831, in the Territory of Michigan.

DEMOCRATIC FREE PRESS AND MICHIGAN INTELLIGENCER.

There was brought to the Tecumseh Herald office last week, by Miss Etta Rowland, the first issue of the Detroit Free Press, known as "The Democratic Free Press and Michigan Intelligencer." Miss Rowland states that this paper was found by her recently in looking over the papers of her uncle, Wm. Totten, who lived in her family until his death.

To say that it is a great curiosity is needless. Anyone wishing to see it can do so by calling at the Herald office.

The paper is a four page, five column 14 x 20 sheet, the columns being 15 ems wide, while those of the Herald are 13 ems. The type is eight point the same as the Herald. It is an addless paper. It states, however, in this first issue that, owing to a mistake in their order for paper, this issue is much smaller than was intended

Michigan, it must be remembered, was a territory at this time, and the first article in the first column presents to the citizens of Wayne county and the territory the proceedings of the Democratic-Republican meeting called for the purpose of selecting from the citizens of the territory a Democratic-Republican and a friend of the administration, as a candidate for the delegacy.

Following this is the editorial column of which we give a fac-simile:

The Democratic Free Press
and Michigan Intelligencer
Is published every Thursday Morning
by Sheldon M'Knight,
Office, corner of Bates and Woodbridge streets.

TERMS.

To mail subscribers and those who call at the office for their papers, two dollars in advance—two dollars and fifty cents if paid at the end of the year.

Advertising—One dollar and twenty-five cents per square for four weeks—twenty five cents for each subsequent insertion. A liberal discount made to those who advertise by the year. All advertisements will be published until ordered out, and charged accordingly.

For President: Andrew Jackson.

The Man and his Measures:—Equal protection to Agriculture, Manufactures and Commerce—Economy in the public expenditures—A literal construction of the Constitution, with the exercise of express not implied powers—Neither consolidation nor nullification—A firm adherence to DEMOCRATIC PRINCIPLES, to individual and municipal rights to the sovereignty of the states and the SOVEREIGNTY OF THE PEOPLE.

We have adopted the above, as the "standing motto" of the Democratic Free Press from the Ithaca, N. Y., Journal.

PROSPECTUS.

The Democratic citizens of this Territory, having found the two newspapers already established in Detroit completely under the control of the city aristocracy, have been compelled to set up an Independent Press. Forming, as they do, a large majority of the electors of the Territory, they have found no medium through which they could communicate with the public."

We notice the tariff at that time was under discussion as it is now.

It gives the appointments made by the governor and confirmed by the legislative council at the last session. We notice among them Daniel Pitman and Alpheus Kies to be justices of the peace for the County of Lenawee, also Peter R. Adams to be district attorney for the seventh district.

A Bank Note Table is given of the principal bills in circulation in this Territory with their discount in the City of New York, "which will be corrected weekly."

Below we give an ad. for a Horse Boat Ferry which plys between Detroit and the opposite shore:

"The public are informed that the Horse Boat has been thoroughly repaired and will ply regularly between Detroit and the opposite shore. The decided advantages of this conveyance over the sail ferry boats will readily occur to all and it is hoped that the liberal patronage which it has heretofore received will be not only renewed but increased. The boat will leave the foot of Bates street every half hour during the day."

There are many other very interesting articles. We will be very glad to have anyone come in and examine this paper.

NICARAGUA HEARD FROM

Through the the kindness of Mrs. Drake, the Herald prints the following letter which will be of interest to its readers.

Camp Pendleton Leon,
Nicaragua,
Oct. 10, 1912.

Mrs. W. E. Drake,
Dear Mother:

Received a letter from you since I have been down here but suppose you know by the papers that we have been pretty busy down here.

Well! the war is over now and we control everything.

I don't suppose we will get back much before Xmas.

We had quite a war down here I heard several bullets whistle for hum. Co. E. is the Artillery Co. so I was not in the thickest of the fight but could hear it all, and some of us had close calls. At first I did not think we would see any fighting as they fortified themselves at Ninderi on two hills that the railroad runs between, and refused to let trains pass.

We went up there once about three weeks ago with the cannons and several companies of men and they agreed to be good, so we came back, then they changed their minds and refused to let the trains pass again and the Colonel gave them a certain number of days to surrender and lay down their arms. Well, they failed to surrender, so went up, there and got the guns in position at night and shelled the two hills nearly all the next day. This was last Thursday night and Friday, Oct. 3rd. and 4th.

Saturday morning about one o'clock we got up again and shelled the hill while Major Butter's troops and the 1st Battalion charged up the hill from our right and left.

Three men in Co. C. got killed and two or three were wounded. They did not count the dead spicks Rebels but there were lots of them and wounded ones also.

I saw several of the wounded but did not go up the hill so did not see the dead.

When the Marines charged the hill the federals were over on the other side of the hill and what the Marines did not kill the Federals did. We turned the hills over to the Federals and came down here and took Leon Sunday and the Federals took all the small towns.

There are plenty of ownerless horses running around. The Captain of our Company is gathering them up and is going to make a mounted patrol of our company.

Just had dinner and I feel lots better now. While the war was on we did not get much to eat sometimes.

Most of the fellows are loaded down with souvenir rifles, swords, bolos, Machettes, parrots, paroquetts, etc.

I haven't had a chance to get many yet but will collect a few before I come back; not live stock though.

It is very warm here, the sweat is just dripping off me as I write this but I am feeling fine altho I am tanned nearly as black as the natives, but I guess it will wear off.

Hoping you are well and happy, I remain your loving son,

Leslie S. Drake,
Co. E. U. S. M. C, 1st. Prov. Reg.
Nicaragua.

DIGNIFIED DOZEN

The Dignified Dozen was royally entertained at the home of Mrs. Horace Eaton on Saturday, a fine dinner was served to which all did full justice and the usual good time of this crowd was passed.

Mrs. H. Holdridge who has been a member for some time having resigned, Mr. and Mrs. F. E. Bradley were welcomed as permanent members, at this meeting. Each meeting of these Dignified ones is looked forward to with great interest and no one goes away unsatisfied.

MRS. HERBERT RICHART

The funeral of Mrs. Herbert Richart was conducted at her late home Sunday afternoon at 2:30 p. m., Rev. Dr. Hartzog officiating with singing by Mesdames Ruthruff and Hodges.

There was a large attendance the Rebekahs numbering about 40. The beautiful ritualistic ceremony of the order was given at the grave, Mrs. R. S. Moore singing the burial ode. The many beautiful flowers attested to the respect and love in which she was held by all who knew her.

COUNTY CONVENTION OF L. O. T. M. M. AT HOLLOWAY

November 1.

About 30 ladies of Tecumseh lodge L. O. T. M. M. went to Holloway Friday for the Association.

The Tecumseh Ladies gave the initiatory work on two candidates and received much praise for their fine work Despite the inclement weather there was a good attendance. A pot luck dinner was enjoyed at the noon intermission, the Holloway ladies furnishing the hot coffee.

The meeting was a most enjoyable one.

MAJORITY—PLURALITY

Just now it will be of interest to known the exact meaning of the two words majority and plurality.

A plurality of votes is the excess of votes cast for any one candidate who the next highest vote where there are three or more candidates.

A majority of votes, is when one receives more than half the number of votes cast.

PARCELS POST

$10,000,000 Wanted to Establish Parcels Post.

As soon as Congress convenes after election Postmaster General Hitchcock will ask for an appropriation of $10,000,000 as an emergency fund for the establishment of Parcels posts. The $750,000 that has been appropriated will be as a drop in the bucket Since the committee has been making plans for the establishment of the post, contracts have been let for the scales that must be in every post office and this alone will take half of the appropriation and the cost of the new maps necessary, will take the balance. Thousands of delivery wagons and larger offices will be also necessary to carry on this work.

FOUR HELD FOR CONSPIRACY

Terre Haute Registration Frauds Get Into Federal Court.

Terre Haute, Ind., Nov. 4.—Arrests of three precinct registration officials by deputy United States marshals brought the local charges of illegal work in recent registrations before the federal court in Indianapolis. Andrew C. Berkeley, Joseph Jeffers and Theodore Swickark were arrested on federal warrants, charging conspiracy to deprive James C. Leasure of the right guaranteed him by the constitution of the United States.

The arrests were made by D. C. Rankin and Tom Martin of Indianapolis. The men were sent to jail in default of bond and will be given a hearing before Orph M. Hall, United States commissioner. The accused men served registration periods, and, when Leasure appeared to register, it is said he was assaulted and thrown out of the polling place. Federal officers arrested Fred Tosser on a similar charge. He was locked up.

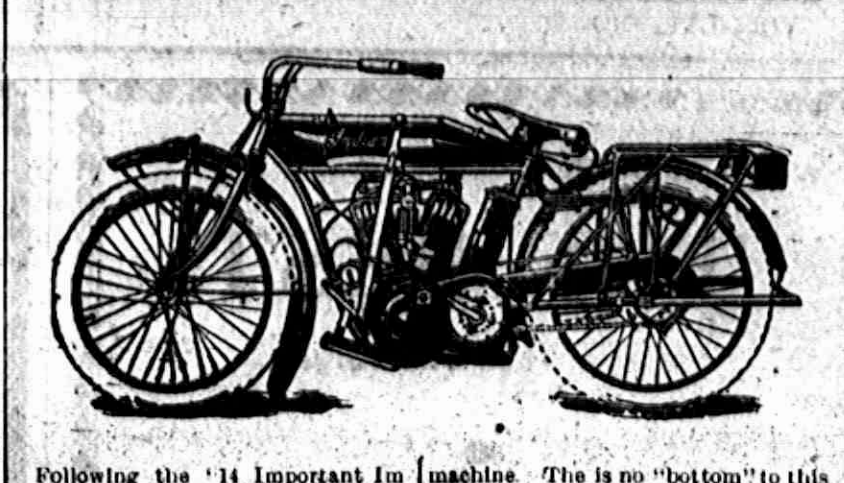
ANNOUNCEMENT

1913 MODELS of the INDIAN MOTORCYCLE



Following the "14 Important Improvements" of 1912, the Hendee Mfg. Company announce no less than a dozen additional new features in their 1913 model of the Indian Motorcycle.

By far the most significent feature of the new machine is the Cradle Spring Frame. It is something entirely new, a radical departure from the conventional bicycle and recent motorcycle systems of "springing." Briefly, the new device consists of the application to the rear wheel of the Indian Cradel Spring device as used on the front fork for the past 3 years.

Extending back horizontally from the frame joint cluster under the saddle, flanking the rear mud guard, are two 7 leaf Chrone Vanadium steel springs. The "C" shaped coils at the rear end of these springs are connected by stays to bell cranks on which the rear axle is hung. The forward end of the rear fork has a hinge joint which enables the rear wheel to yield to imperfections of road surface. All shocks are completely absorbed by the leaf springs. The rear wheel can go through almost any verticle motion without affecting the body of the machine. The is no "bottom" to this spring device. The life of the machine is greatly increased.

The Engineering Department of the Hendee Mfg. Co. devoted 18 months of exhaustive test to the Cradle Spring Frame before finally deciding on its adoption for all models of the 1913 Indian.

In addition to the Cradle Spring Frame, the 1913 Indian embodies 10 other important improvements which will be appreciated by motorcycle riders in general. Prices remain the same as last year.

New style, single clinch rims; larger tires; wider mud guards, front and rear with larger splashes; casing for upper stretch of transmission, chain and curve of sprocket; larger luggage carrier in rear; fitted to all models; foot rests, as well as pedals, regular 4 h. p. and 7 h. p. mopels; foot brake lever fitted on left side now operates band brake as well as the pedal action; larger size multiple disc clutch now fitted to all models alike; improved Indian type saddle.

All 1913 Indian will be chain driven and finished in Indian red only.

Catalogue sent on request.

WHICH?

Today the curtain which rose at the Chicago convention, at the Baltimore convention and again at Chicago, on the political stage with the chief political actors, Taft, Wilson and Roosevelt, each with their individual orchestra, Taft with his dignified orchestra with instruments of solid gold(?) playing stately marches; Teddy with his orchestra containing every known instrument under the sun, with his rag time music, and Wilson with his stringed instruments playing only classical music—today, the curtain falls, and the real actors will assume their places on the stage of life, for the next four years.

Will they fulfil their promises as advertised on the bill boards. It would seem that it makes little difference which one is the leading actor for they have each promised us the millenium. Prosperity and wealth are ours for the next four years for man has promised it.

FRANCHISE GRANTED

At a meeting of the Common Council held Monday evening Messrs, Cole and Stipe of Chelsea were present in the interest of the Gas Franchise for the village of Tecumseh After much discussion the franchise which is for thirty years, was passed. And the question will be submitted to the people in January. The rate fixed upon with fuel at the present prices was $1.25, This subject to change in the price of coal. It is to be completed within two years.

The boys prented Mr. Smith with some fine solid silver, with congratulations on his recent marriage.

GRANT T. FELLOWS

The two cars arrived promptly on schedule time and a good and enthusiastic crowd greeted them. George A. Rathbun first introduced Judge Larwill who spoke for about ten minutes in a very forcible conservative manner of the good that the republicans had accomplished. Following Judge Larwell, Grant T. Fellows of Hudson who is running for Attorney General on the republican ticket said that this was the first time he had ever appeared in Tecumseh to speack in favor of his own election but Tecumseh had always stood by him and he hoped they would at the coming election.

He gave the percentage of republican votes that Roosevelt should have to carry the states of the middle west and the east. He spoke at length of the accusation against Taft that he stands for the trusts citing how two men alone gave half a million a piece to support Roosevelt who are at the head of two large trusts.

He closed his remarks by citing the story of the epitaph on the tombstone of a defunct cowboy, "I have done my dammdest and angels could do no more,"

And this was all that Mr. Fellows could promise.

AMUSEMENTS

"FAUST"

On Wednesday Nov. 13 the Management of the Bradley Opera House offers to the public Manley & Campbell's production, new and up to date in every detail, of Goethe's Immortal Tragedy of Eaust.

There has been, in the past few seasons, such a demand for this play that Messrs. Manley & Campbell grasped the opportunity and have put before the public one often he finest production of that piece ever exploited.

They have secured the services of that renowned romantic actor Geo. G Wakefield, who impersonated the role of "Great Gobs" (The Giant Demon) in the Cat and the Fiddle Company for the past five years.

His peculiar style and his great stature make him the most desirable actor extant for the role of Mephisto and he has been surrounded by a carefully selected and adequate cast, as each member of his supporting company was chosen with especial reference to their fitness for the part, type, age, and appearance being necessary qualification.

Mr. Wakefield is six feet and seven inches in stature and will easily be recognised as the great Mephisto on the arrival day of the company.

The play is in five acts and seven scenes and each act is carried complete by the company.

The costuming is new and beautiful, the Electrical Effects are grand: especially so can this be said of the "Great Broken Scene."

TAKE IT IN TIME

Just as Scores of Tecumseh People Have.

Waiting doesn't pay.
If you neglect kidney backache,
Urinary troubles often follow.
Doan's Kidney Pills are for kidney backache, and for other kidney ills. Tecumseh citizens endorse them.

J. B. Smith, E. Chicago St., Tecumseh, Mich., says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago. I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs. Peter Holan, 11501 Buckeye Road, S. L., Cleveland, O., had a little son with a bad case of whooping cough. She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh.

Porto Rico's New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes, "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and $1.00. Trial bottle free. Guaranteed by C. A. Wright & Son.

MAKES FINAL APPEAL

Roosevelt Asks for Votes for Progressive Party.

Asserts that Both Old Parties Have Failed to Appreciate Needs of the Hour.

Oyster Bay, N. Y., Nov. 4.—As his final appeal on the eve of election Colonel Roosevelt gave out a statement in which he said:

"I wish to appeal as strongly as I can to the men and women of this country, to all good citizens throughout the union, and ask them to support this great progressive movement for righteousness and for fair dealing.

"The Progressive movement is in the interest of every honest man and woman in the land and, therefore, we have the right to ask that all good citizens, without regard to their past political affiliations, shall stand with us in this fight for clean politics, and for the square deal in industry.

"Only the Progressive party has faced the real and vital issues of the day. Not only are both the old parties boss ridden and privilege controlled, but they are wedded to the dead issues of a vanished past, and they show not the slightest conception of the needs of the day or of the steps now urgently necessary to take if grave disaster to the nation in the future is to be avoided."

INDICATES WILSON VICTORY

Straw Vote Shows Him Still in Lead the Country Over.

Chicago, Nov. 4.—Woodrow Wilson will be elected president next Tuesday, if the straw ballots foretell the results at the polls.

For second place, Taft and Roosevelt are running a desperate race. The present indications yielded by the national political canvass conducted by leading metropolitan newspapers are that the three rivals will maintain to the end the same order of running they displayed five weeks ago—Wilson first, Roosevelt second, Taft third.

As to congress, it appears that the lower house will be overwhelmingly Democratic, while the senate looks like almost an even proposition. A Wilson landslide, which seems to be well within the bounds of possibilities, would give the Democrats both branches of congress.

COAL FAMINE FEARED

Shortage of Cars Claimed by Dealers to Restrict Output.

Chicago, Nov. 4.—Another coal famine, greater than the shortage that handicapped Chicago last winter, is imminent, according to local dealers. Prices of all kinds of coal to the small consumer have been raised from 25 to 75 cents a ton.

The railroads are blamed for the present situation, coal dealers averring that an unusual shortage of cars prevents the removal of coal from the mines. There is no shortage in the product, at least in bituminous coal, but the railroads cannot handle it.

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal root, and sold by druggists for the past forty years under the name of

Doctor Pierce's Golden Medical Discovery,

gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alterative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease. Sold by druggists everywhere. Address World's Dispensary Medical Association, Buffalo, N. Y.

Chas. Fairbanks, Jr.

Mr. Chas. Fairbanks, Jr., of 832 Woodlawn Ave., Philadelphia, Pa., writes: "I was troubled with my stomach for almost three years. My symptoms were as follows: Always tired, my whole body in a throb, [illegible] pain and soreness in the stomach, [illegible] could not tell what to eat or what would agree with me, [illegible] But after taking Dr. Pierce's Golden Medical Discovery with Dr. [illegible] Pellets' it has made me a well man which is something to live for."

INJURY OF CZAREVITCH

Russian Officials Say Hurt Resulted from a Fall.

St. Petersburg, Nov. 4.—The first official statement as to the cause of the illness of the czarevitch has been given out. It says that while the heir to the Russian throne was at Belleves in September he attempted to spring into a boat. The distance was too far and he fell short, but nothing wrong was noticed until Sept. 26 when a painful swelling of the groin and bleeding of the abdomen developed.

Three weeks' treatment so reduced the bleeding that the boy was able to try to stand, but on Oct. 11, while he was walking unaided he fell and started the bleeding again on Oct. 15. This caused the whole of the left groin to swell to a point beyond the center of the abdomen. The bleeding naturally caused great anaemia, which will require prolonged recuperation and will possibly interfere with the free use of the patient's legs for a long time.

THINK THREE DEAD IN FIRE

Second Victim of St. Louis Hotel Blaze Formerly Mrs. James Abeles.

St. Louis, Nov. 4.—The second body found in the ruins of the Berlin hotel, which was destroyed by fire, was identified through jewelry as that of Mrs. Helen Harrington-Shepard-Conley-Abeles, former actress, from whom her husband, James Abeles, son of a wealthy St. Louis family, obtained a divorce.

The body was first identified as that of Mrs. C. K. McFadden, a guest in the hotel, and later the ruins were searched for Mrs. McFadden's body as she has not been seen since the fire. Mrs. Abeles was married three times.

Suicide in Niagara Falls.

Niagara Falls, N. Y., Nov. 4.—Christopher Kleehn, a member of the city fire department, committed suicide by leaping into the river and going over the American falls.

Thrown from Auto and Killed.

Humboldt, Ia., Nov. 4.—While attempting to pass County Superintendent Messer west of Humboldt, Chas. Kenning was thrown from an automobile and instantly killed. Three other young men from Manson, Ia., named Coon, Kennedy and Caskey, narrowly escaped death.

Car Shortage Is Serious.

Washington, Nov. 4.—So serious has the car shortage in this country become that the interstate commerce commission has published an appeal to the railroads and shippers of the United States to co-operate in order to avoid serious injury to numerous industries.

OUT OF THE NIGHT

Why Nancy Lost Her Timidity of the Forest.

By JEAN DICKERSON.

The flames whispered about the dogs in the great fireplace and outside of the bungalow the trees lashed to and fro in the strong wind. The rain drummed steadily on the roof without one break in the steady downpour until Nancy tossed her magazine aside and walked the floor to steady her nerves.

She was all alone in this little mountain lodge; all about her was the primeval forest filled with numberless vague terrors of the night.

Nancy was afraid. She had been alone since three o'clock that afternoon when her guest, Mrs. Carruthers, had suddenly left for home in response to a telegram brought through miles of dripping forest by a messenger from Bidwell station.

Timothy Finn, the man of all work, had harnessed the horses to the buckboard and taken Mrs. Carruthers to the station. At the last moment, Timothy's wife, Mary Finn, had climbed in beside her husband, announcing that she had a dozen errands to be attended to in the village and that she would be home with Tim in time to prepare Miss Nancy's dinner.

In the haste of their departure and the last hurried good-bys from Mrs. Carruthers, Nancy did not realize the significance of being left alone in that isolated spot.

When the sound of the wagon wheels had died away and there remained only the rain and the wind and the fire on the hearth she felt a sudden pang of terror at the loneliness.

The Finns were addicted to drink when opportunity offered, and Nancy shuddered as she realized that it might be hours before they returned—and they might not come home until morning!

She had fastened every door and window and had drawn the curtains closely and pinned them at the edges so that no curious eye might discover that she was alone.

She Was All Alone.

Hours passed. She tried to read, but the printed words held no meaning for her. She opened the piano, but the sound of the instrument only intensified the stillness.

The clock in the corner chimed ten and still there was no cessation of the rain nor of the lashing wind.

Nancy thought of her father down in the close, hot city, and she knew he was counting the days till Friday, when he would run up to the lodge for his week's stay. Every other week Simon Mead spent up here in the mountains. There was usually a jolly party of young people here, too, chaperoned by Mrs. Mead, but now she had gone to the city with her husband and Mrs. Carruthers and Nancy Mead had been left alone for a few days.

"I don't care how intoxicated they are if they will only come," declared Nancy for the tenth time, as she listened in vain for the sound of returning wheels. "I simply can't stay here alone all night."

The clock struck 11, and almost as if it had been waiting for that hour there followed the sound of a human voice outside, a man's voice calling for help.

Nancy shuddered. Perhaps it was the Finns coming home. She tiptoed up the stairs that ran to the half story under the eaves and pushed aside a small casement window. The rain fell on her hair and face, but the night air felt cool and refreshing. There was no sound of wheels, but again came the man's voice.

"Bungalow, ahoy! Help!"

It was not the rich brogue of Timothy Finn, nor was it the voice of a backwoodsman that called.

Nancy harkened to its call, shuddering at its growing feebleness, not daring to go forth in answer to it, for she had from a child been afraid of the night with its thousand terrors, and this forest was a maze to her after sunset.

The voice sounded again; it was from the lake. Some man had met with an accident, and perhaps might die unless she could go to his aid.

Then the voice became silent and Nancy uttered a little sob and dashed down the stairs to the coat closet. She wrapped herself in a large ulster belonging to her father and let herself out into the dripping night.

She called once timidly, and the wayfarer heard her and answered with a note of hope in his voice.

Nancy made her way toward the lake, now and then bumping into trees or stumbling over roots, for in the pitch darkness she could not see a hand's breadth before her.

"Here!" said the voice close at hand, and Nancy floundered through the wet leaves until she touched something alive. Suppressing a desire to scream, she asked bravely:

"What is the matter?"

"I believe I've broken my leg—I've been lying here for several hours. I saw the lights of the bungalow, but it was so quiet there I was afraid it was deserted. If you can call one of the men he might help me inside." It was a pleasant, refined voice with a note of authority.

"I will help you in," said Nancy firmly, and she bent down to assist him.

He was a big man, and heavy and whatever agony it cost him to crawl over the hundred yards that led to the bungalow no one but himself ever knew. Nancy went beside him, helping him over the rough places and at the front steps supporting him into the house.

When the door closed behind them he sank forward on the great bear skin rugs and fainted away.

Nancy quite forgot to be afraid.

With an unconscious stranger upon her hands, she thought of nothing else. She ran from medicine closet to pantry and thence to the stove, where she heated a kettle of water. She made him as comfortable as possible on the soft skins on the floor, propped his head with pillows, restored him with stimulants and then sat down and looked at him.

He was a youngish man, perhaps in his early forties, handsome, and evidently well-dressed in spite of the mud that he had accumulated since his fall.

"I am sorry that I cannot send for a doctor just yet," she murmured shyly. "I hope you are not suffering much pain."

"Thank you—a little twinge now and then." He winced as he spoke. "You wouldn't have to go far to find a doctor to-night—I'm Dr. Milbank, the only physician within fifteen miles!"

"Oh, I've heard of you," murmured Nancy.

He nodded. "I was on my way to the Dexter place—they sent for me and I had to leave my horse back there in the woods and walk. I fell over a root and am quite sure I've broken my leg. When your men get around I believe I can direct them how—to—set—it." And with the last words he drowsed off to sleep.

He slept until the gray dawn pierced the curtained windows with a wan light. Timothy Finn and his wife crept home, shamefaced and penitent, and followed Nancy's stern bidding with alacrity. Dr. Milbank awoke to a blazing fire and such rough medical assistance as the girl and her servants could render.

Dr. Milbank remained at the bungalow for several weeks as the guest of the Meads, and when he went away, cured, it was with the image of Nancy Mead enshrined in his heart.

Nancy had quite lost her timidity of the forest at night.

"I can never be afraid of it again nor imagine it filled with horrors," she sometimes says, "for you know I found my husband there!"

And Timothy Finn and his wife take half the credit for this romance to themselves.

KNEW METHODS OF ARMOUR

As a New Employe, Charlie Tole Made Himself Solid With the Eccentric Boss.

When Charlie Tole went to work for the Armours in Chicago, he learned that it was the habit of Philip Armour to get down to his desk every morning at half past 6 o'clock. A month after Tole took his job, Philip returned to town, and the following morning Charlie was at his desk at 6:30 for the first time in his life.

Mr. Armour walked in at 6:33, pinched himself to see if he was awake, and then stared at Tole. Charlie went on with his arduous labors.

"How long have you been working here?" asked the magnate.

"Oh, about a month," replied Charlie carelessly.

"Do you get down to work at this time every morning?" continued Armour, immensely pleased.

"I do," said Charlie, "when you're in town."

This brutal frankness made a hit with Armour, and always after that Tole was one of his favorites.

When Christmas came he called Charlie into his office, produced a handsome gold watch and chain, handed it to Tole, and said graciously:

"You have rendered valuable service to this business, and I think it deserves recognition. I give you this as a sign of my appreciation."

Tole took the watch, examined it appreciatively, and then gravely handed it back.

"No," he said slowly. "I'm sorry, but I can't accept that, Mr. Armour."

"Why not?" asked the big man, in amazement.

"Because," explained Tole, "I've been informed that, if you ever give a man a present, you never raise his salary."—Popular Magazine.

Ever See a Frog's Nest?

In Brazil there exists a species of tree frog (Hyla faber) which constructs in the water a curious nest, or fortification, to protect its eggs and its young from the attacks of fish. Starting at the bottom of a pond, the mother frog erects a circular, tube-like wall of mud, which at the top projects above the surface of the water, where it bears some resemblance to the crater of a miniature volcano. In the water thus enclosed the eggs are laid, and when they have hatched out the young frogs are secure from enemies until they are able to take care of themselves. In the meantime the parents remain in the neighborhood as if on guard.

Which Do You Choose to Be?

If gentle speech and kindly views of life and people, if attractive manners and sympathetic and loving habits of thought are to obtain in old age, they must be practiced in early life. We do not suddenly become transformed.

Wanted to Learn Music in a Hurry.

Some years ago the Jones family had an old organ which had been discarded by the young people of the family, and they sold it to a German family living near by. A few days after the sale one of the little German girls came to the house and asked to see the young lady of the house. Upon her going to the door the little girl said: "Mother wants to know if you can come over this afternoon and teach Annie to play on the organ, as we are going to have company tomorrow?"

VERDICT OF THE VOTERS

Figures Show How They Regarded Rivals.

CHOICE FOR PRESIDENT

Results in Other States Where the Outcome was Uncertain—Eastern Papers on the Face of Early Returns Conceded Victory to Wilson Who Will Have a Big Majority of The Electoral College.

New York, Nov. 6.—It was not long after the returns began to pour in until the Herald and other papers conceded victory for Woodrow Wilson in a majority of eastern states and throughout the south.

At 7 o'clock George W. Perkins and Senator Dixon conceded all eastern states to Wilson. Their only hope for Roosevelt at that hour was that there would be a landslide for their candidate in the west.

The Washington Times, Frank A. Munsey's Washington paper, concedes Woodrow Wilson's election "by a tremendous sweep."

WOODROW WILSON,

Who Will Be Next President of the United States.

Chairman William Barnes, jr., of the Republican state committee, made the statement that Governor Wilson will carry New York state by a majority of between 10,000 and 150,000.

The Evening Mail, one of the Roosevelt organs in this city, conceded the state to Wilson and claimed second place for Roosevelt.

Woodrow Wilson, whose experience in active politics is only a little more than two years old, will be the next president.

The election of Gov. Woodrow Wilson of New Jersey as president and Gov. Thomas R. Marshall of Indiana as vice-president by a safe majority of electoral votes was made certain by incomplete returns received from the country-at-large up to 10 o'clock.

Roosevelt leaders at first claimed Vermont, Georgia and Illinois. The first reports from Vermont were favorable to Taft. Illinois was soon conceded to Roosevelt by a large majority, but Georgia was claimed confidently at Wilson headquarters.

Later returns confirmed the early reports of a Wilson landslide in New York, Maryland, Connecticut, Massachusetts and the southern states, and indicate that he was leading both Taft and Roosevelt in Pennsylvania and several middlewestern states.

Senator Penrose, in Philadelphia, as early as 8 o'clock Tuesday night, conceded the election of Wilson, irrespective of Pennsylvania.

New Hampshire, which earlier reports gave to Wilson, appears to have given Taft a plurality.

With Pennsylvania, Indiana, Ohio and other large states returning only meagre reports, the success of the Democratic ticket in a majority of the heavily-populated states was certain.

At 9 o'clock Tuesday night Chairman McCombs of the national Democratic committee issued the following statement:

"The victory is now complete. I have received reports which are sufficient to elect Mr. Wilson overwhelmingly and he is elected without any of the western states. The returns are coming in so fast I cannot keep up with them. Wilson has Massachusetts, Connecticut, New York, Maine, Maryland, New Jersey and all of the south. We have no decided reports from Illinois. Roosevelt seems a little ahead in Cook county, but Wilson is running 2 to 1 down state. A statement has been sent here that Senator Penrose concedes Pennsylvania. I believe Wilson will carry Pennsylvania and Illinois as well as New York by tremendous majorities. National Committeeman King of Oregon, who is here with me, says Wilson will carry Oregon by a good majority and that we will carry the legislature there."

Shortly after 11 o'clock Democratic national headquarters in New York claimed the following states as certain for Wilson:

Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Indiana, Kentucky, North Carolina, Maryland, Massachusetts, Mississippi, Wisconsin, New York, South Carolina, Tennessee, Texas, Virginia, Oklahoma, New Mexico, Missouri, West Virginia and New Jersey, with a total of 291 electoral votes.

The states where results were reasonably certain gave the following electoral votes:

Wilson 267, Roosevelt 39, Taft 8.

Total in electoral college, 531.

These figures were enlarged by returns during the day.

On returns from states where the result was reasonably certain, it appeared that Gov. Wilson would have almost, if not quite, 400 of the 531 votes in the electoral college, and that Col. Roosevelt would have nearly 100.

President Taft had received 12 votes, those of Vermont, Idaho and Utah, while the 51 votes of Iowa, Minnesota, New Hampshire, South Dakota and Wyoming remained in the doubtful class.

It is also believed that Wilson's big tidal wave will produce enough Democratic state legislators to wipe out the majority in the senate.

The house will continue under Democratic control. The total membership is 456, of which the Democrats will have 225, Republicans 94, Progressives 6, with 80 districts to hear from.

CONNECTICUT

New Haven, Conn., Nov. 6.—Twenty towns in Connecticut gave Wilson 31,570, Taft 27,393, Roosevelt 13,651. Same towns in 908 gave Taft 44,762, Bryan 29,785. Baldwin (Dem.), is leading all candidates for governor.

Danbury, Conn.—Total vote—Taft 1,021, Wilson 1,909, Roosevelt 1,173.

Waterbury, Conn.—Total vote—Wilson 4,425, Taft 3,255, Roosevelt 1,680.

DELAWARE.

Philadelphia, Nov. 6.—All indications point to Wilson carrying Delaware by substantial majority. Democrats will control legislature.

ILLINOIS

Chicago, Nov. 6.—According to early returns Roosevelt carried Chicago by more than 15,000.

Indications are that Roosevelt will carry the state outside of Cook county by 90,000 plurality if the returns continue at the present ratio.

Returns from half the precincts in Chicago indicated that Dunne, Democrat candidate for governor, carried the city over Deneen, Republican, by 65,000 to 70,000 plurality; Funk running third with about 40 per cent of the Republican vote.

Reports from 13 counties outside of Cook county indicated Dunnee (Dem.), had carried nine; Funk (Prog.), three, and Deneen (Rep.) ——.

INDIANA.

Indianapolis, Nov. 6.—One hundred and twenty-five precincts out of 2,172 in Indiana give Taft 8,722, Wilson 18,306, Roosevelt 9,693. Same in 1908 gave Taft 22,277, Bryan 21,927.

MARYLAND

Baltimore, Md., Nov. 6.—Wilson's estimated majority in Baltimore is 3,500 and his plurality 20,000. He ran ahead of both Taft and Roosevelt in every precinct. Roosevelt second and Taft third. Reports show Wilson will carry Maryland by about 40,000.

The Baltimore Star (Rep.), at 8 p. m. said:

"Wilson has carried Baltimore city and the state of Maryland by sweeping pluralities, according to early returns. First returns from the counties were all indicative of a Democrat victory. "Twenty-six city precincts gave Taft 1,106, Wilson 2,884, Roosevelt 2,009."

The Baltimore Sun (Dem.), claims Maryland for Wilson by 40,000.

MASSACHUSETTS

Boston, Nov. 6.—Returns for president from 160 out of 1,102 voting precincts 100 out of 221 precincts in Boston, give: Roosevelt (Prog.), 12,706; Taft (Rep.), 14,629; Wilson (Dem.), 21,114. Same precincts in 1908 gave Bryan (Dem.), 20,960; Taft (Rep.), 27,041.

NEBRASKA

Lincoln, Neb., Nov. 6.—Early indications were that Wilson had carried Nebraska.

NEW JERSEY

Trenton, N. J., Nov. 6.—Early indications show that Wilson will carry his own state by a plurality of 75,000.

NEW HAMPSHIRE.

Concord, N. H., Nov. 6.—Returns from 80 election precincts out of 29[illegible] in New Hampshire give Taft 2,863, Wilson 2,200, Roosevelt 1,222. Same places in 1908 gave Taft 4,124, Bryan 3,138.

OHIO

Cincinnati, Nov. 6.—Wilson has probably carried Hamilton county by 17,000.

Returns from the first five Ohio precincts gave Taft 477, Wilson 294, Roosevelt 165.

With returns from scattered precincts in Ohio received it is believed that Wilson has carried the state by a plurality of perhaps 125,000, and that Cox, Democratic candidate for governor, is elected by an even greater plurality. It is believed the Democrats have elected their state ticket complete and have re-elected 18 out of 21 congressmen. They also have elected from surface indications a large majority in both houses of the assembly.

OREGON

Portland, Ore., Nov. 6.—Indications are that Wilson will carry Oregon by 15,000, with Roosevelt second. The race between Bourne (Ind.), and Selling, (Rep.), for senator, is close. Woman's suffrage will probably carry by a small majority.

UTAH.

Salt Lake City, Nov. 6.—Both the Republicans and Progressives chairmen claim the state for their respective candidates. Chairman Gardner, (Rep.), says Taft carried the state by 19,000, while Walton (Prog.), claims it for Roosevelt by 3,000.

PENNSYLVANIA

Philadelphia, Nov. 6.—Returns during the day indicate that Roosevelt will carry Pennsylvania by 21,000.

WISCONSIN

Milwaukee, Nov. 6.—Indications are that Wilson has carried the state by a large plurality.

SOUTHERN STATES

Atlanta, Ga., Nov. 6.—Returns indicate that Wilson has obtained 110,000, Roosevelt 30,000, and Taft 10,000.

Complete vote for 24 of the 148 counties in Georgia give Wilson 16,294, Taft 822, Roosevelt 1,882.

New York, Nov. 6.—Sun says Wilson carried Virginia by 40,000.

Jackson, Miss., Nov. 6.—Wilson carried Mississippi by large plurality.

Nashville, Tenn., Nov. 6.—Incomplete returns indicate Wilson is polling the usual Democratic majority in Tennessee in a presidential election. Reports from the gubernatorial contest between Hooper (Rep.), and McMillin (Dem.), show the race to be close.

Jacksonville, Fla., Nov. 6.—As is the custom the state voted overwhelmingly Democrat. The Democrat state committe claims all congressmen elected without shadow of a doubt. There was no enthusiasm manifested for Roosevelt and those championing his cause are disappointed at the light vote.

The Victor's Way Of Looking At It

Princeton, N. J., Nov. 6.—When assured that he was called to the high office of president of the United States, Gov. Wilson issued a statement in which he said:

"A great cause has triumphed. Every Democrat, every true progressive of whatever type, must now lend his full force to the fulfillment of the people's hope, the establishment of the people's right, that justice and progress may go hand in hand."

Roosevelt's Remarks On Wilson's Triumph

Oyster Bay, N. Y., Nov. 6.—Shortly before midnight Col. Roosevelt made the following statement:

"The American people by a great plurality have decided in favor of Mr. Wilson and the Democratic party. Like all good citizens I accept the result with entire good humor and contentment. As for the Progressive cause, I can only repeat what I have already so many times said: the fate of the leader for the time being is of little consequence, but the cause itself must in the end triumph, for its triumph is essential to the wellbeing of the American people."

Col. Roosevelt sent the following telegram to Gov. Wilson:

"The American people by a great plurality have conferred upon you the highest honor in their gift. I congratulate you thereon."

President Taft's Comment on Result

Cincinnati, O., Nov. 6.—At the home of Charles P. Taft, his brother, President Taft issued a statement at midnight in which he conceded the election of Governor Wilson.

Commenting on the result of the election President Taft says:

"In this, our great country, it is the duty of citizens who have held office to retire gracefully, quite as much as to perform the work of their office faithfully. That the will of the American people may be realized has been and is now my greatest wish. I am a Republican; I believe in Republican principles, and this is one of them."

MICHIGAN CONGRESSMEN.

Detroit, Nov. 6.—Early but incomplete returns indicate that Michigan elected five Republicans, four Democrats and three Progressives to congress, with one not reported.

The candidates in the lead at this writing were: At large, Kelley (Rep.); first district, Doremus, (Dem.); second, Beaker, (Dem.); third, Smith, (Rep.); fifth, Mapes, (Rep.); sixth, Kelley, (Prog.); seventh, Bell, (Dem.); eighth, Fordney, (Rep.); ninth, O'Conner, (Dem.); tenth, Woodruff, (Prog.); eleventh, Lindquist, (Rep.); twelfth, McDonald (Prog.).

SULZER LEADS.

New York, Nov. 6.—Returns for governor from 753 election districts out of 3,093 in New York state, outside of New York city, give: Hedges (Rep.), 92,821; Sulzer (Dem.), 108,869; Straus (Prog.), 68,909.

POWERS WINS AGAIN.

Middleboro, Ky., Nov. 6.—Caleb Powers (Rep.), has been returned to Congress in the Tenth congressional district over Ben V. Smith (Dem.). This city voted Taft 175, Wilson 336, Roosevelt 285.

TEDDY'S HOME VOTE.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

STUDY IN DETROIT

THE CITY OF COLLEGES WHERE LIFE IS WORTH LIVING.

There was never a time in the world's history when the demand for educated men and women was so great as now; when there are plentiful opportunities for those whose training has fitted them to shoulder responsibilty. This is a natural outgrowth of the modern trend in all lines, where specialization is the order of the day.

Select any line you like and you will find in Detroit abundant facilities for your training. And with these select schools fitting you to take your place in social circles. Dancing, deportment, music, elocution, languages all have their exponents and large following. Classes are available at all hours both day and evening, thus courses of different schools can be combined. Further information can be secured by writing direct to addresses given.

Music study in Detroit is not only increasing yearly, but the quality is also rising. Musicians who have procured their education in Detroit are taking rank with any in the world. Every year bringing press stories of some of them becoming famous. Art schools are also ranking high in their work and amongst the leading conservatories and art academies are:

DETROIT COLLEGE OF MUSIC

occupies a beautiful building most centrally located at 65 Forest ave. east. Its pupils include representatives of widely seperated sections of this country and Canada. Louise Unsworth Cragg, director and head of piano department has studied both here and abroad. She is a teacher of the most advanced methods and is a widely known concert pianist.

Charles J. Cragg has been a leading Soloist and director for many years. As an instructor in singing he enjoys a splendid reputation. The course of public school music and drawing is under Miss May E. Starr. Her pupils are always in demand and readily secure positions. The College grants diplomas and teachers' certificates.

M'DONALD SCHOOL OF MUSIC

is now permanently located at 573 Cass avenue, occupying their own large handsome building. The school was founded in 1909 by Miss Kate McDonald pianist, Charlotte McDonald villionist, Emma McDonald, cellist, and the success of the school is due largely to the grading and examination originated by Miss McDonald.

Mr. Francis A. Mahew head of the piano department has sustained here the enviable reputation as a concert pianist, which he enjoyed in Europe. He is a forceful, enthusiastic teacher with a keen musical knowledge. The school work embraces every branch, with an exceptionally strong normal training course.

Branches: 1341 Grand River avenue, 1951 Woodward avenue, 241 St. Clair avenue, 316 Vinewood avenue.

THE DETROIT SCHOOL OF DESIGN

was founded and organized through the efforts of the Detroit Society of Arts and Crafts by a number of Detroit's foremost citizens in the business and professional world. Its purpose being to develope students with that capacity for directly making use of their training in organized industry where an art education is becoming more respected and more in demand. Courses of instruction are given in design, drawing and modeling, after which when some facility of expression is acquired the student may specialize in interior decoration, illustration, architecture, wood carving and normal art. With these lectures will be given on anatomy, illustration processes, chemistry of Pigments, Theory of Design and Color, and history of art. The Mueseum of Art is located within one block and is open to students for study.

A limited number of scholarships are available and these will be assigned to pupils who by diligence and merit prove themselves worthy.

The school is under direction of Geo. T. Hamilton, late of Philadelphia, where he is widely known as an instructor of high standing.

SCHOOL OF FINE ARTS

begins its third year under the mananagement of John P. Wicker and offers its students the advantages of the best schools, large well lighted class rooms; good models, many of them professional from New York and other art centers; complete academy course along most advanced lines, and class schedule covering training of children under Frederick E. Thompson, illustration under Joseph L. Kraemer, and drawing and painting with composition under Mr. Wicker. Located Fine Arts Building.

PARIS SCHOOL OF FRENCH

Is the only successful school of its kind ever established in Detroit. It was founded over six years ago, and is now enjoying a very prosperous business, having nearly 100 pupils enrolled last year. Mr. B. E. Detigny Gingras with Madame B. E. De Montigny Gingras are superintendents of this school in Fine Arts Bldg.

* * *

Some of the finest instructors of music maintain there own studios, and claim that while diplomas are not issued, pupils may obtain more thorough and higher training, which is being constantly proven by results. Pupils so desiring may select their own teacher with hours to suit, thus securing the highest talent. The following brief notes are for your help.

HOMER WISEMAN

announces eight partial scholarships to talented pupils again this year. Some of the greatest names have been given to music through scholarships of this nature. The earnest pupil who has received these advantages is most likely to prove in turn most helpful in the developing of art.

For nearly fifteen years Mr. Wiseman has been recognized as one of Detroit's most prominent vocal teachers, and many of his pupils are well known as professional singers and teachers. He is director of Detroit Oratorio Society which has appeared with enormous success in many concerts. Studio 106 Broadway.

CLYDE A. NICHOLS

has taught in Detroit for past ten years. During this short period he has produced many excellent singers and a few remarkable soloists, whose training and voice enabled them to step to the front rank of concert and operatic work. The most recent is Mrs. Ray Ruddy, understudy to Marguerita Sylva, in Lehar's new opera, "Gypsy Love." Mr. Nichols is pupil of Geo. Hamlin, tenor Chicago Grand Opera. Studio 270 Woodward.

JENNIE M. STODDARD

has long been recognized as one of Detroit's foremost teachers of singing Miss Stoddard directs the Tuesday Musicale Chorus. The Chaminade Quartet of which she is also a member, and the Northwestern Choral Club. Studio, Valpey Building, 213 Woodward avenue.

ELVIN SINGER

has an international standing as a successful vocal teacher. A native of Vienna he studied under Lamperti of Milan and Sbriglia of Paris.

His Singing is beautiful and artistically correct—thus the pupil may learn by imitation, a most potent factor of success. Mr. Singer was first to present "Puccinis Madam Butterfly" and Liza Lehmann's "Nonsense Songs" in America.

MR. AND MRS. MARSHALL PEASE.

Mr. Pease has been in Detroit for twenty years, the last two having been with the Detroit Conservatory. Many of his pupils are holding prominent positions as church, concert and operatic singers. Out of town pupils can secure his instruction without enrolling through the Conservatory. He is assisted by Mrs. Pease.

KATHERINE MAREE REYNOLDS

has a high soprano voice of mezzo quality and very sympathetic timbre She puts into her work hard study—earnest desire for attaining the best and giving the highest service, which brings rare result. Teaches singing, voice culture, accompanying, sight singing harmony, history of music, choir conducting. Studio 48 Calvert.

ALLICE MAY HARRAH

is especially successful in the training of vocal students in French, German, Italian, Spanish Scotch as well as English for concert, opera and oratorio .Her pronunciation being perfect. She is a pupil of Wm. Couttney New York, Paul Pecquery and G. Sbriglia, Paris and N. Frannert, Dresden. Studio, 213 Woodward.

A. A. LANGLOIS

with studio at 270 Woodward is a singer of ability and a teacher of much experience. Many singers owe their professional career to his efficient and conscientious teaching. Students under his tuition will be guided aright. Mr. Langlois is in his Detroit studio Monday and Thursdays.

CLARA KOEHLER HERBERLEIN

daughter of the late famous critic, composer, and pedagogue, Louis Koehler, and exponent of his methods of teaching, is well known as a teacher, lecturer, and pianist, her work having long since established for her a high reputation both here and abroad.

She is director of the Chamber Music Society of Detroit, prominent in the Detroit Tuesday Musicale as conductor of the Orchestra, and leader of piano ensemble classes. Studios 89 Hancock, E. and Grosse Pointe.

MISS FRANCIS M. CROSSETTE

who has pianoforte studios in the Gladwin Bldg. 270 Woodward, has but recently returned from Paris where she studied four years with the celebrated teacher Wager Swayne. Several years previous to her study abroad the taught in the Detroit Conservatory under directorship of the late J. H. Hahn.

MRS. ROBINA TURNBULL

has an enviable reputation as teacher of piano, many prominent teachers and concert players having had their training with her. As a teacher of harmony she is very proficient making that study part of every student's work. Mrs. Trunbull is regarded a leading instructor and her state following is large. Studio 270 Woodward.

EDWARD O'CONNOR

the well known composer and teacher will open a new studio in Van Husan Bldg. 106 Broadway, where he will teach piano and harmony. Mr. O'Connor is one of the best known younger teachers, and his clientele is growing yearly. He has recently completed writing a mass which will be produced early this fall.

ELIZABETH THORPE

has studios both in Pontiac and the Gladwin Bldg. Detroit. Miss Thorpe is an accomplished pianist and accompanist, and her piano and organ students show most conscientious training. She is a pupil of Alberto Jonas, Berlin, of Frau Breeand Leschetizky in Vienna and Wager Swayne in Paris She endorses Leschetizky method.

MISS ADAH. HEMENWAY

has been a successful teacher of the piano for several years. Miss Hemenway is a student of the late J. H. Hahn and F. L. York. Residence 77 Mt. Vernon ave. Studio 43 Valpey Bldg and 213 Woodward.

MISS LOUISE DAVISON

whose violin studio is located in the Grainger-Hannan Building at 240 Woodward ave. is an excellent violist and recognized as one of Detroit's most successful teachers of this instrument. Miss Davison is well rememebered as a member of the Beethoven Trio, a widely known and appreciated organization.

In dramatic art and elocution you will find given below notes on some of the oldest and finest schools in the country.

THE R. F. HILL SCHOOL OF DRAMATIC ARTS.

After several years on the professional stage with Vaughan Glaser Stock Co., and several road plays Mr. Hill has opened a school for preparing of pupils for the professional stage. Mr. Hill gives his pupils real professional training such as is received only by starting at the bottom and working up.

E. B. R. SCHOOL OF ACTING

occupies the most prominent spot in Detroit, being in the Detroit Opera house block. Large, well-equipped stage and auditorium are, among attractions, giving pupils every opportunity for actual professional experience.

The school was founded 11 years ago by Emma Burtraw Raviler, and was a success from the beginning. They teach stage rehearsals, elocution, vaudeville, make-up, dancing, fencing and language.

Pupils upon the stage and Lyceum platform are holding responsible positions. Mme. Raviler is accurate and untiring in her efforts.

DETROIT SCHOOL OF EXPRESSION

was established in 1888 and has been successful from the first. Its graduates are in many states and Canada. The location is 1191 Jefferson and under the direction of Mrs. Mildred A. Bolt. The school maintains a high standard of excellence in all branches. Elocution, delsarte, philosophy, vocal and physical culture, etc., sophy, Shakespeare, Dramatic Training, Vocal and Physical Culture, Etc. aer taught by the most thorough and best methods obtainable.

MRS. EDNA CHAFFEE NOBLE

will open the 36th year of the Detroit School of Elocution and English Literature in Chaffee Hall 780 Woodward. This is the oldest school of expression under the original director, and its graduates are occupying prominent positions in schools, colleges and on the Lyceum platform.

The Port Huron & Northern Railway Co. has applied for an injunction to prevent the proposed election in Lexington on the grating of a franchise to David Oppenheim, of Detroit, who proposes to build a line from Lexington to Romeo.

JAMES CLARKSON

James Clarkson passed away on the morning of Oct. 24, 1912 after an illness of a few weeks although he had been in poor health for the past year.

Mr. Clarkson was born in Lodi Seneca, Co, N. Y. June 18, 1829. In 1831 his parents Daniel and Deborah Clarkson with their family came west and settled in Macon on the farm that has always been his home.

During his protracted ill health he was most patient and thoughtful for everyone He was always ready to to give encouragement and help to the worthy. He was a true friend and neighbor and will be greatly missed in the community. He leaves a widow and a large circle of relatives and friends to mourn his loss.

"Cold in the dust the perished heart
may lie,
But that which warmed it once can
never die."

MONDAY CLUB.

The meeting of the Monday Club on Monday Oct, 4th was very well attended and was a very interesting session Mrs. Eugene Harris gave a report of the state Federation of Womans Clubs held at Saginaw, Mrs. B. J. Pulver followed with a report of the County Federation, the reports were both fine and the ladies listened with marked attention. The pictures of Rome and Italy formed a pleasing feature of the afternoon.

ADDED PRECAUTIONS TO GUARD STATE PRISON AT JACKSON.

Warden Simpson is taking extra precaution at the prison to guard against further rioting by the prisoners. A new guard tower has been installed and another is in process of construction.

Guards have been trained in the use of firearms for wall service. The public has been warned to keep away from the vicinity after nightfall and any one found near the walls will have to give an account of themselves

CARD OF THANKS.

We wish to express our most heartfelt thanks to all who have ministered to us by words of sympathy and by deeds of kindness during our time of greatest sorrow and to those who remembered our dear one with such beautiful floral offerings, When the time of sorrow comes to them, may they be blessed as we have been with earnest loving friends.

Regular meeting of the Modern Woodmen Monday night, nomination of officers and supper.

Real Estate Transfer

A real estate transfer was completed the first of the week, whereby George Harriott of Macon became the owner of what has been known of late years as the Cheever property just north of the Central School building and later owned by Harry Lee.

This property was formerly owned by Albert Anderson Sr. and was one of the most beautiful places in town with its shrubs and flowers, which were the delight of Mr. Anderson.

Later this was owned by Abraham Handford who sold to Mr. Cheever

Mr. Harriott expects to make this his home.

Among those from out of town who attended the funeral of Miss Lillian Dewey were Messrs Ander, Charles George and Wilfred Dewey of Cambridge, Mrs. McLaugh and daughter Ida, Mr. Nate Navarre of Adrian, Mr. and Mrs. Nelson Dewey and Florence of Raisin and others whose names are mentioned elsewhere.

Honoring her tenth birthday Monday, Nove. 4th Gervaise Ella Mathias was hostess to 14 of her little girl friends, Games, etc. were indulged in until a call was given to hunt for peanuts. Marjorie Rosacrans and Alice Hardenburg having found the largest number were awarded the prizes. A dainty two course supper was then served. Many pretty and useful tokens were left the little miss to remind her of the occasion,

SOLVAY COKE

is much different from other cokes as it is heavier in weight, lasts longer, has less clinkers and bone, costs a little more than other cokes but is much cheaper in the end. Try some and be convinced.

TAKE IT IN TIME

Just as Scores of Tecumseh People Have.

Waiting doesn't pay.
If you neglect kidney backache,
Urinary troubles often follow.

Doan's Kidney Pills are for kidney backache, and for other kidney ills. Tecumseh citizens endorse them.

J. B. Smith, E. Chicago St., Tecumseh, Mich, says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co, Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs, Peter Holan, 11501 Buckeye Road, S. L., Cleveland, O., had a little son with a bad case of whooping cough She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh,

Porto Rico's New Wonder

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and $1.00. Trial bottle free. Guaranteed by C. A. Wright & Son.

C. WHITNEY WATKINS

Progressive Candidate for Governor Fought Like a Trojan.

SMITH SAYS HE'S SAFE

Grand Rapids, Mich., Nov. 6.—That the re-election of William Alden Smith as United States senator from Michigan is assured is the statement given out here, based on special reports to Senator Smith's headquarters.

Statistics, still incomplete, indicate that a Republican legislature will be returned and that Senator Smith will have about 10 votes to spare in the state house. This figure, it is claimed, is a conservative estimate.

CHAMP CLARK RE-ELECTED.

Montgomery, Mo., Nov. 6.—Incomplete returns indicate beyond a doubt that Speaker Champ Clark, of the house of representatives, has been re-elected to congress from this district for the ninth time, defeating W. L. Cole.

Her Ambition.

"Poor Harriet Quimby!" said a New York editor, as he regarded a magazine photograph of the dead flying woman. "She used to work for me, and very good stories she wrote; too. When she took to flying and made a success of it, I said to her: 'I suppose, with all this fame, the dearest ambition of your childhood is gratified, eh?' 'No,' she said, smiling, 'I had no desire for fame in my childhood. I remember a school question, "What is it your highest ambition to be?" The answer I gave to this question was: "Missionary, and if not that, millinery or clerk in candy store."'"

New Engagement Ring.

A new engagement ring will be fancied by the girl who likes unusual and interesting trinkets. Instead of being set with the conventional solitaire, this ring has two sunken stones; one the birthstone of the groom and the other the bride's special luck talisman. There is a hidden clasp under the setting and the ring may be broken apart, between the two sunken jewels. On the inner faces of gold which form the halves of the separated ring are inscribed the names of the engaged pair, or any tender sentiment, never intended for alien eyes.

Dust In Postoffices.

The result of the analysis by Swiss government experts at Berne of samples of what is known as "post office dust," has just been made known. It was feared that the great quantity of this peculiar "post office dust" might be injurious to the postmen and others obliged to inhale it frequently. The postal authorities accordingly collected samples of dust from eight of the principal Swiss post offices. They also collected mail bags from Switzerland, France and Germany. All these were examined with extreme care, and experiments were made upon 70 guinea pigs with the microbes found, with a view to seeing whether any of the animals would die of tuberculosis or other diseases. None of them did. After the prolonged investigations, although a great many different kinds of germs were found, none of them proved to be noxious.

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal root, and sold by druggists for the past forty years under the name of

Doctor Pierce's Golden Medical Discovery,

gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alterative extract which does *not* shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease. Sold by druggists everywhere. CHAS. FENNER, JR.

MR. CHAS. FENNER, JR., of 832 Woodland Ave., Philadelphia, Pa., writes: "I was troubled with my stomach for about three years. Tried several doctors and most everything anybody recommended to me, but kept getting worse and honestly did not care to live as I was never well even though, at times, I had no pain. My symptoms were as follows: Always tired, my whole body in a throb, belching of gas, pain and soreness in the stomach, vomiting, constipation, could not tell what to eat or what would agree with me and was melancholy. But after taking Dr. Pierce's Golden Medical Discovery with the 'Pleasant Pellets' it has made me a well man which is something to live for."

Early Submarine.

The submarine was known in England as far back as the early years of the seventeenth centry, when a submarine was navigated from Westminster to Greenwich by Cornelius Drebel, of Alkmaar, in Holland. Drebel, who enjoyed the patronage of James I., was given an apartment in Eltham palace. The king expressed his intention of accompanying Drebel in one of his submarine voyages, but was dissuaded by his courtiers, who alleged that Drebel was in league with old Nick. Drebel's boat was so constructed that, according to a contemporary writer, "a person could see under water the surface of the water, and without candlelight, as much as he needed to read in the Bible or any other book."

ELECTION RETURNS

Large Crowd at Barrett Hotel

A large crowd gathered at the Barrett Hotel Tuesday evening to here the election returns The crowd was good natured and jolly. As the reports from the different states the democrats grew jubilant and they filled the house with cheers and laughter.

Out of 707 names registered, 702 cast their votes. A few were detained at home by sickness.

HOW IT WENT IN THIS STATE

Heavy Vote Was Polled in Tri-Party Contest

NO CAMPAIGN LIKE IT.

Appearance of the Bull Moose Ticket After Battle Began Changed the Whole Course of Events—Michigan Was One of the Chief Political Storm-Centers of 1912—Party Lines Were Broken as Never Before.

Detroit, Mich., Nov. 6.—Viewed from any angle, the campaign of 1912 was without precedent in the history of Michigan as well as in the nation at large.

Battle lines that were formed immediately after the Chicago and Baltimore conventions, which pitted Taft and Wilson against each other as the leading presidential candidates, were thrown into confusion and the whole course of events changed by the third-party movement which put the Bull Moose ticket in array against both of the old dominant parties.

Since the day of the first Progressive convention at Jackson this state has been one of the chief storm-centers of the campaign nationally, with visible influence upon the state campaign that puzzled all the political prognosticators up to the last hour.

WOODBRIDGE N. FERRIS,

Second Dash for the Governorship at Head of Democratic Forces.

Not in many years were the people so aroused over an election, and the determined forces at work in the tri-party contest did all in their power to bring out the full voting force of Michigan's electorate with the result that a heavy vote was cast throughout the state.

In general the Democrats at least held their normal vote, and in many cases increased it, while the Republicans and Progressives combined polled far more than the normal Republican vote.

On the early returns Taft was running third, with Wilson and Roosevelt close together. Ten precincts out of the 41 in Grand Rapids showed 2,300 for Taft, 1,400 for Wilson and 1,200 for Roosevelt, while Saginaw city, with two-thirds of the returns in, showed Wilson in the lead with 2,300, Taft 2,050 and Roosevelt 1,960.

Adrian gave Wilson 1,094, Taft 718 and Roosevelt 653, and Hudson city Wilson 234, Roosevelt 230 and Taft 183. Both these cities are in Lenawee county, which is inclined to be Democratic normally.

Marquette complete, the first upper peninsula city reporting, gave Roosevelt 956, Taft 709, Wilson 621.

By probably not less than 40,000 plurality Theodore Roosevelt carried the state of Michigan, and the state's electoral vote will be cast for him. Woodrow Wilson ran second, with Taft third.

The vote, as shown by the returns from 483 precincts out of 1,872 in the state, exclusive of Wayne county, is as follows: Roosevelt 51,255, Wilson 40,497, Taft 36,673.

On the earlier returns it appeared that Roosevelt would have not less than 100,000 over his nearest competitor, but as the counties whose population is more largely rural came in, his percentage of lead fell off, and Taft gained.

With the same number of precincts Woodbridge N. Ferris leads by about 5,000, indicating a plurality of 20,000, with Musselman and Watkins close close together. The figures are: Ferris 34,460, Musselman 29,729, Watkins 29,986.

As in the case of the presidency, Ferris's early lead, when the returns were largely from the counties containing more urban population, began to drop when the agricultural counties were heard from. Musselman began to pick up, but Watkins gained still more largely, indicating that the Progressive candidate was polling a large vote just where it was expected his strength would be the greatest—among the farmers.

On account of the tremendously heavy vote cast, the great number of offices voted on, and the fact that there were three parties in the field, resulting in much splitting of votes, the count is very slow.

One feature of the returns is the way the Progressive ticket ran in the upper peninsula. The customary Republican majority of 15,000 to 25,000 has apparently faded away completely; in fact, been turned into a victory above the straits for the Progressives.

Returns on the gubernatorial contest are much slower, but indicate Ferris a winner by a plurality of 30,000 over Musselman, with Watkins third.

FIRST TOWN FOR TAFT.

Boston, Nov. 6.—Acushnet, the first town in the country to report, gives Taft, 104; Roosevelt, 50; Wilson, 52. In 1908 the town gave Taft 118 and Bryan 12.

RACE FOR MAYOR

In Michigan's Chief City Brought Out Record-Breaking Vote.

Detroit, Nov. 6.—When the polls closed Tuesday night almost the entire vote of the city had been cast. No former election day ever showed the registration books so thoroughly checked as was the case Tuesday. The record-breaking vote was due chiefly to three causes, intense interest in local issues, fine weather and the impelling influence of the national campaign.

There were other contributing causes—in many households the husband who as often lost his vote through failure to attend the polls as he voted—found his wife prodding him with the "votes for women" goad and among the political workers the opinion was frequently offered that the big vote in Detroit was due to the fact that the women were active. They induced men to go to the polls who do not always exercise their own suffrage rights.

Oscar B. Marx early took the lead in the mayoralty race, being aided at the outset by returns which consisted only of straight tickets. Complete 2 o'clock counts were very slow. In several from central wards Thompson and Earle showed good gains on the split tickets.

The totals reported from 140 of the 170 precincts, as given above, represent a little more than 25,000 votes. The total vote of the day may be close to 80,000.

"Marx will win by 8,000 to 12,000 votes," said John Gillespie, political manager for Marx, at 10 p. m. Tuesday. "On 75 precincts we now have a majority of 2,400, and the 8 o'clock count will show a steady gain for us."

Mayor Thompson declared that the vote already reported showed him running ahead of his vote of two years ago. The Marx claim of victory by 12,000 did not bother the mayor.

Although Wm. B. Thompson still insists that full returns may keep him in the mayor's chair, his defeat by Oscar B. Marx appears inevitable as the full count of Tuesday's balloting is made in the polling booths.

VOTES FOR WOMEN IN VARIOUS CITIES

Grand Rapids, Mich., Nov. 6.—Early indications are that woman suffrage will lose in Grand Rapids by at least a two to one vote.

Returns from eight out of forty-one are: Yes 905; no 1,577.

Lansing, Mich., Nov. 6.—Early returns indicate suffrage amendment will carry in county.

Jackson, Mich., Nov. 6.—Five precincts out of 10 in Jackson city give woman suffrage plurality of 172.

Flint, Mich., Nov. 6.—Two precincts of Genesee county on the equal suffrage amendment show: 293 for and 220 against.

Holton, Nov. 6.—Woman suffrage: Yes 95, no 92.

Detroit—On woman's suffrage 12 precincts resulted yes 1,018, no 965. Equal suffrage leads in Detroit as the count progresses, but it is quite probable that the result in the state will not be known until the complete returns are tabulated.

WILSON VOTED STRAIGHT.

Princeton, N. J., Nov. 6.—Governor Woodrow Wilson voted the straight Democratic ticket at 10:51 o'clock in the interior of an engine house. He was in the voting booth four minutes, and remarked as he came out that the ballot was so big he "had a hard time finding the Democratic presidential electors."

TAFT VOTED AND SMILED.

Cincinnati, Nov. 6.—President Taft did not arrive at the polling place, where more than 500 persons waited for two hours, until 12:30 o'clock. He remained in the booth five minutes, and came out wearing his magnetic smile. It had been reported that he would vote at 10:30, and a large crowd gathered at that time.

HOW TEDDY VOTED.

Oyster Bay, N. Y., November 6.—Colonel Roosevelt arrived at the polling place in a fire truck house at 12:05 o'clock and a few minutes later had cast his ballot. Seven neighbors accompanied him and he waited 20 minutes until each of them had voted before returning to Sagamore Hill.

Christianity in China.

An army lieutenant held a prayer meeting in a Red Cross hospital in the intervals between fighting at Hankow. At Shanghai a society has been formed, including many of the local leaders, with the object of translating Christian belief into practical politics under the new government; and of its members, all Christians, one of the most prominent is Alexander Y. Ting, trained in an American Missionary college, M. A. and LL. B. of Manchester university, barrister at law of Lincoln's Inn and doctor of law by examination at the hands of the late government in Peking.

To considerations like these add the fact that at least one-third of the members of Dr. Sun's cabinet were Christians, and it is seen that Christianity is already a force in China. One of the five highest officials in the new government recently received a letter of congratulation on his appointment from a missionary of world-wide reputation. In his reply he said that he hoped "that by obeying the voice of heaven and the people he might be able to help to establish a kingdom of God on earth and make the government of the republic pure and righteous."

These details may help one to realize what Christianity in China must mean in the future.—Leslie's Weekly.

English Child an Author.

Mr. Hugh Allan of the London publishing firm of George Allen & Co., has a remarkable little daughter, for whom her father's firm is about to publish an extraordinary book. It is called "A Child's Visions," and is a series of pen and ink drawings. Daphne Allen is a tall, fair schoolgirl, just thirteen. She began drawing when she was only three, and as a child her artistic expression took quaint forms at times. For example, she drew a picture of the Crucifixion —with a steamboat in the background; and illustrations of her visit to Heaven, in a dream, gave an introduction of Father Christmas, with his pack of presents, as the ultimate incident. The subjects chosen for the book are all religious.

WILLIAM J. BURNS

Whose Men Unearthed Plot in Jackson (Mich.) Prison.

EIGHT CONVICTS HELD

Under Examination in Detroit for Dynamiting Plot.

Burns Detectives, Posing as Prisoners, Unearth Michigan Penitentiary Conspiracy.

Detroit, Mich., Nov. 11.—William J. Burns, head of the detective agency which investigated the recent so-called dynamite and fire plot alleged to have been concocted by Jackson prison convicts with the intention of destroying the penitentiary, declared here that his men discovered eight convicts were implicated in the alleged plot and that four of them were leaders in the prison riots which occurred last September.

The men charged with being the ringleaders were turned over to the detectives Thursday for examination, and Burns spent considerable time with the convicts in Detroit. He declined to state where they were being kept.

The detective not only charged the men with the recent destruction of prison binder twine plant by fire, but declared that they had made complete plans to burn up the prison cannery last Thursday.

He said his operatives had learned from convicts that the reason the fire was not started was because the alleged conspirators discovered they could be observed at work through a nearby window.

Detectives, disguised as convicts, are said to have mingled with suspected men for several days.

CURB ON POWER OF INJUNCTIONS

United Labor Not Satisfied with Supreme Court Action.

WILL FIGHT FOR A STATUTE

Samuel Gompers and Other Officers of American Federation of Labor to Press Matter Before Congress.

Washington, Nov. 11.—Although officers of the American Federation of Labor have expressed their delight over the action of the United States supreme court in revising the rules of equity practice in a way that puts a limitation on the issue of injunctions, they will not rest on security thus furnished labor unions.

Continue Fight for Statute.

They acknowledge that many of the good features of the Clayton anti-injunction bill, which passed the house last session but failed in the senate, are embodied in the new rule promulgated by the supreme court, but they intend to continue their fight to have the reforms put on the statute books. The labor unions have been making a long fight to limit the power of injunction. They began as far back as 1889, when the first bill was introduced in congress. It was not until 1901, that any legislation of the sort was passed. Then it passed in rather an interesting way.

Congressman Littlefield of Maine had introduced a bill to amend and strengthen the Sherman anti-trust law. An attempt was made to amend the bill in committee but it failed. Then Representative Livingston of Georgia offered the anti-injunction amendment on the floor of the house and only nine representatives voted against it.

Labor Beats Two Congressmen.

Of the nine men who voted against it, Ex-Speaker J. G. Cannon and Representative Littlefield, have been retired from congress, largely through the active opposition of organized labor. Samuel Gompers carried the fight against Cannon and Littlefield into their respective districts.

Three times an anti-injunction bill has passed the house, but never became a law.

The Federation leaders intend to urge on congress the passage of the Clayton anti-injunction bill. They say that while the new equity rule is helpful, it simply represents a revision of the rules of procedure and that this rule is itself subject to revision at any time, and they prefer to give the new rule the support of a statute.

They Often Do.

Teacher—Tommy, you are too great an idler. Do you know what becomes of people who won't work?

M'MANIGAL TELLS OF DYNAMITE WAR

Declares Iron Workers' Secretary Forced Him into Work.

JOBS PAID FOR BY UNION

Accomplice of McNamara Brothers Testifies as Government Witness, Accusing Many Officers of Bridge and Structural Iron Workers.

Indianapolis, Nov. 11.—Graphic stories of how he caused explosions, how he carried dynamite in suitcases on passenger trains and checked the explosive at railway stations, how he waited to place bombs, and how from every city where he blew up a "job" he sent a souvenir spoon to his wife in Chicago were related by Ortie E. McManigal on the witness stand in the trial of the forty-five accused "dynamite plotters."

"Ping" Was the Password.

"Ping," an alias of Herbert S. Hockin, McManigal said, was the password he gave to labor leaders in various cities, so they would know he was the man sent to do a "job."

He named Frank C. Webb, New York; Michael J. Young, Boston; Richard H. Houlihan, Chicago; James Cooney, Chicago, and Frank M. Ryan, all officials of the International Association of Bridge and Structural Iron Workers, as among the defendants, besides the McNamara brothers, who knew he was employed as a dynamiter.

McManigal charged Hockin with having started him on the dynamiting work. He said Hockin approached him while he was working in Detroit and said:

"You used to work in a stone quarry, and you know how to use explosives. You'll be paid by the union."

Says Hockin Threatened Him.

"I protested," McManigal continued, "but he told me if I didn't do as the executive board said, he'd see that I was boycotted against getting a job. I finally consented."

After he had set his first bomb, McManigal testified, he wanted to get out of the plot, but was coerced into continuing.

"I wanted to work, and for them to let me alone," he testified, "but Hockin kept after me, saying, 'We've got the goods on you now, and you have to keep at it, for we are going to clean out the National Erectors' association.'"

FARMER MOURNS HIS $2,600

Sues "Psycho-Success" Wife, Whose Magic Reached Pocketbook.

Noblesville, Ind., Nov. 11. — Alleging that his wife had wheedled him into giving her $2,600, which he now repents, and that she now has left his bed and board, Charles Noble Trout, a wealthy farmer of Hamilton county, has filed suit for divorce from Emma J. Trout, who, he alleges, is a member of the Psycho-Success club and has taken a correspondence course on mystic formulas, harmonies, hypnotism, magic, etc.

The complaint also states that Trout would frequently find his wife on her knees in the pantry, at exactly 11 o'clock, sending a psychic message to New York. The plaintiff asks an order of court requiring his wife to refund the $2,600 and to grant him an absolute decree of divorce.

Hilles Again Taft's Secretary.

Washington, Nov. 11. — Charles D. Hilles, chairman of the Republican national committee, will return to Washington and take up his former duties as secretary to the president.

TURKS TAKE ARMS FROM THE PEOPLE

Threatened Massacre of Christians Thus Prevented.

NO VIOLENCE REPORTED AS YET

Cholera Rumored to Have Broken Out Among Ottomans in Trenches at Tchataldja—Austria Watches Servia Jealously.

London, Nov. 11.—The Turkish government, realizing what may happen in Constantinople if Nazim Pasha cannot hold the lines, has thrust out a strong hand for orders.

Orders came, speedy disarmament of the populace. Trusted troops are going about among the people taking firearms, knives and daggers from them. These are being stored at the war office.

Issues Reassuring Proclamation.

The minister of the interior has issued a frank proclamation in an attempt to calm the storm which so many feel will break out in the city if the army is again thrown back. He says there is yet hope for the Turks at Tchataldja. He warns the populace to stick to their daily business and promises quick punishment for offenders.

From the British colony comes a signed statement discrediting the reports of massacres at Constantinople and saying that, in view of the circumstances, everything is quiet there.

From the front, where Nazim Pasha still is locked with the Bulgars in his struggle to hold the Tchataldja line of defense, there is rumor that cholera has broken out among the Ottoman fighters.

Austria Watches Servian Advance.

Through north Albania the combined Montenegrin and Servian armies are marching in the general direction of Scutari. A part of this army is moving towards Durazzo from Alessio. The advance of this army is being closely watched in Austria, for Durazzo is on the Adriatic and the Serbs are treading ground that the Austrians have warned the world against.

The correspondent of the Daily Mail at Constantinople hears that the Bulgars are marching toward Gallipolis, where the waters of the Dardanelles meet the sea of Marmora.

If this is true the Bulgarians evidently intend to attempt the capture of the forts along the straits. The Greek fleet will in the event of the success of the Bulgars be able to steam through the Dardanelles up to the very shadows of the mosques of the capital.

Penciled Debts Gilt-Edged.

Kansas City, Nov. 11. — J. K. Zimmerman, a cattleman of Waco, Tex., left an estate valued at $1,140,245. Administrators reported $260,000 of this amount represented loans to Texas cattlemen in sums of $5,000 to $25,000, of which the only record kept was a penciled notation on a slip of paper. All were gilt-edged.

Clement A. Griscom Dead.

Philadelphia, Nov. 11.—Clement A. Griscom, president of the International Navigation company and chairman of the board of directors of the International Mercantile Marine company, died suddenly at his Haverford home here of congestion of the brain.

Indians Face Health Inquiry.

Washington, Nov. 11.—Paul Preble, assistant surgeon of the public health service, was directed to investigate the prevalence of tuberculosis, trachoma, smallpox and other contagious diseases among the Indians of North and South Dakota.

HEAVY GAIN IN SOCIALIST VOTE

That Cast Last Week Nearly Double That of 1908.

'BULL MOOSE' MOVEMENT HURT

Roosevelt Attracted Many Ballots that Otherwise Might Have Been Cast for Debs—Victor Berger's Defeat Lamented.

New York, Nov. 11.—The Socialist vote in the United States at last Tuesday's election was nearly 100 per cent greater than the vote cast for that party's candidates in the presidential election of 1908.

The spread of the doctrine seems not to have been confined to any particular section, nearly every state showing an unusual increase.

Roosevelt Retards Increase.

While rejoicing over the progress made by their cause, many Socialist leaders declare that a still greater showing would have been made had Colonel Roosevelt not inaugurated the "Bull Moose" movement, which attracted many voters from Debs, who has been running for president on the Socialist ticket for years.

It is believed that when all the returns have been canvassed, it will be found that a score or more Socialists throughout the country will have been elected to state legislatures. Kansas has elected one state senator and one member of the general assembly.

From the far south comes the news that in Mississippi Debs received a vote greater than President Taft. In the far west California gave him 66,350 votes, or 37,691 more than he received four years ago.

Minnesota, on the northern boundary line, went a little better with her Socialist vote then in 1908, returning an estimated total of 15,000 Debs ballots. In New York state, the Socialist polled 49,986, an increase of 11,535, and in Pennsylvania they nearly doubled their vote.

Nearly Treble Socialist Vote.

Indiana, Kansas, Nebraska, Arkansas, Louisiana, Mississippi, Virginia and Washington are among the states which trebled or nearly trebled their vote for the Socialist candidates.

A loss which was keenly felt by Socialists, although they pretend to take the result philosophically, was the falling down of their only representative in congress, Victor Berger, who was defeated for re-election in Wisconsin by a combination of Republicans and Democrats. The Socialists, however, nearly doubled their vote in that state.

The Socialist vote cast in some of the counties of West Virginia caused the hair of the leaders of the old-line parties to stand on end. Debs' gain in the state was nearly 500 per cent.

FARM CROP PRICES LOWER

Grains, Potatoes, Cotton, and Hay on Nov. 1 Show Decline in Value.

Washington, Nov. 11. — Average farm prices for corn, wheat, oats, barley, rye, flaxseed, potatoes, buckwheat, cotton, and hay, which represent about three-fourths of the value of all the country's crops, were lower Nov. 1 than they had been in the last five years on that date.

They were 12.8 per cent lower than last year, 3.2 per cent lower than in 1910, 8.5 per cent lower than in 1909 and 1.1 per cent lower than in 1908. They declined 8 per cent from Oct. 1 to Nov. 1, compared with a decline of 1.7 per cent in the same period last year.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

The story of a good deed is pretty sure to get out some time but it doesn't travel around as fast as a wild rumor.

Mrs Emma Maier, 627 N. 7th St. Springfield, Ill, says her kidney trouble resulted from an operation: "From then until I used Foley Kidney Pills I did not know what a well day was. Then my backache left me, that tired dragged down feeling was gone, I slept soundly and awoke refreshed. I had no more headache or dizzy spells." Safe and sure. Try them. For sale by all Druggists of Tecumseh.

Chestnuts are now selling at five cents a glass, live weight.

James Therlo, Iron River, Mich., says of Foley's Honey and Tar Compound: "This winter both my children and I was troubled with bad coughs. We used Foley's Honey and Tar Compound and it promptly cured us. I can recommend it as a good cough and cold cure." Contains no opiates For sale by all Druggists of Tecumseh

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Altson, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at C. A. Wright & Son's

The girl with freckles usually has too much common sense to worry about them.

"TELLS THE WHOLE STORY"

To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat chest and lungs. Stops la grippe coughs and has a soothing effect. Remember the name, Foley's Honey and Tar Compound, accept no substitues. For sale by all druggists of Tecumseh.

BUCKWHEATS VS. PIE

Stack of Whites, and Adams and Eves Won.

By BELLE MANIATES.

Bertha awaited the coming of her caller without much animation.

"He won't come many times," she said to her mother. "The other girls will get to inviting him, and they will feed him with layer cakes and pies and ice cream. The boys say it's just like a poorhouse here. We never give them a thing to eat."

"Well, if that's all they come for, I'd be mighty glad to have them stay away. Pie and cake and ice cream is unhealthy stuff, and I ain't going to have any in my house. This is no eating house."

Mrs. Willets snapped out this declaration and went upstairs to bed at her usual early hour. She relented enough to caution the two young boys, Richard and Bert, not to go into the sitting-room.

"Bertha's going to have a beau," she informed, "and you can sit in the kitchen and study your lessons."

They, obediently went to the kitchen, but did not study.

"Who's coming to see Bertha?" asked Bert.

"Red Reymond. He's been out west for four years, you know. Been a cowboy and shot Indians."

"Oh, I hope Bertha keeps him for a steady."

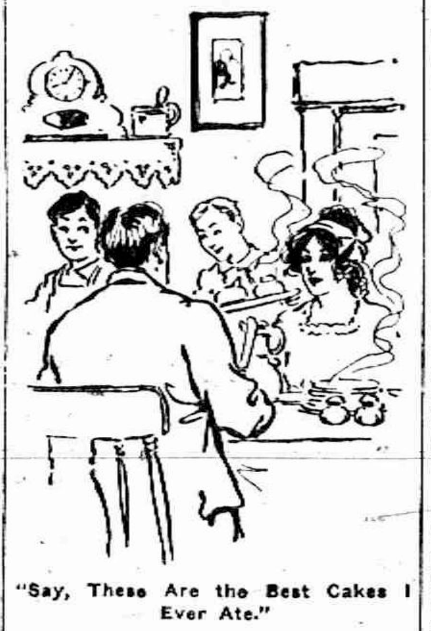
"She won't," replied Richard, who had been eavesdropping, "because ma won't let her make any pies and cake and stuff for him to eat."

"Huh!" commented Bert. "T'ain't likely he's anything like these farmers around here. He won't care for pie and cake."

"Bertha don't seem to keep a fellow long," lamented Richard. "Ned Price only kept company a month. He says he likes fat girls with red cheeks. Bertha's pale and thin, you know."

"That's not a cowboy's style," remarked Bert, who had taken to drawing books from a circulating library. "They like the delicate kind."

"Oh, yes," said the more material Richard, "look at that pancake batter once! It's more than slopping over."



"Say, These Are the Best Cakes I Ever Ate."

"Well, you can't stop it, can you?"

"No; but it's a pity to waste it. Say, Bert, let's bake some cakes. I didn't have half enough supper."

"All right, and we'll make some coffee, too, and set the table and ask Bertha to have her beau out."

The boys immediately set to work and when things were ready they marched into the sitting-room where Bertha, distrait from her mortification at not being able to offer Red cake and pie, was ill at ease and inattentive. She welcomed the diversion of the entrance of the boys.

"Say," said Bert, "Richard and I got hungry, and we are going to have a spread in the kitchen. Don't you folks want to come out?"

"Sure we do," responded Red promptly, rising from his chair with alacrity and following the boys.

Bertha obeyed with some trepidation.

"Oh, Lord!" ejaculated Red when he came into the big, warm kitchen and smelled the coffee. "I do believe that's a stack of buckwheats. I used to dream about them when I was down in New Mexico."

Bertha's spirits rose. The boys had set the table nicely. The coffee smelled promising. There were a pitcher of cream and a jug of syrup on the table.

"Sit down," urged Bert. "I'll bake the cakes and Rich will serve you. Pour the coffee, Bertha."

"Say," inquired Richard, as he laid a golden-brown cake on Red's plate, "what did you call these? A what of buckwheats?"

"Stack," said Red, pouring about a pint of syrup over the cakes. "That's what they call them out west. Wheat cakes is a stack of whites. Poached eggs on toast is Adam and Eve on a raft——"

"Go on, tell more!" applauded Bert, waving a pancake turned excitedly in the air.

Red laughed and betwen cakes he related western tales to the boys' content.

"Say, these are the best cakes I ever ate, but I've just about reached my limit. Coffee's bully, too. It's cheered you up," said Red glancing keenly at the girl's bright eyes. "I was afraid I was boring you."

"No," explained Bert earnestly. "She's been feeling bad all day cause she couldn't give you pie, and cake and ice cream. Ma won't let us have them."

"Good thing she don't. They aren't fit stuff for anyone to eat," declared Red as he went back into the sitting room with the light-hearted Bertha, while the boys ate their cakes, washed the dishes, added more buckwheat to the depleted jar and set things to rights.

"We've got to keep him. He's too good to lose," said Bert soberly.

"Is he coming again to-morrow night, Bertha?" whispered Richard from his bed room as his sister came upstairs at a late hour.

"Yes," she answered happily. "It was just lovely of you, boys, to think of the cakes. He's going to bring you each a present to-morrow."

"It'll be all right for him," prophesied Bert. "You leave the feeding part to us."

The next night the little brothers again ushered themselves into the sitting room.

"We've got some Adams and Eves on rafts," grinned Richard.

"Well, you are the best chefs I know," said Red approvingly, "and you bet you'll get a tip." He handed them each an Indian bow and arrows.

The menu consisted of a big platter of poached eggs on toast. It was Richard's duty to gather eggs and he had hidden a dozen of the day's find. The coffee Red pronounced to be a dream.

"Are you coming to-morrow night?" asked Bert anxiously.

"If your sister will let me," laughed Red.

The next night the young cooks invaded a pot of Boston baked beans that was simmering on the stove, but on the occasion of the next call from their sister's beau, the boys were at a loss for something to prepare.

"Talk about Old Mother Hubbard's cupboard," said Bert dejectedly. "There a'int even pancake batter."

"Well, I just took a turn at the providin' to-day," announced Richard. "I split some wood for old man Lukes and he paid me with two quarts of cider that's just on the turn. It's hid out in the corn crib. And I was down to take Mrs. Dunn her mail and she told me to go to the doughnut jar and help myself. I got six."

"Bully for you, Rich. We'll dip the fried cakes in that dust sugar on the top shelf."

They all grew hilarious together over the cider. Bertha's color rose as did Red's courage.

The next night as sister's beau came up the lane he was met by Bert. "Say" said the boy doggedly. "Before you come in there's something I want to tell you."

"All right, my boy. Fire away."

"You see there a'int anything to eat to-night, and we've run out of coffee, and I thought it only fair to tell you before you came in, so you could turn back if you wanted to. But it ain't Bertha's fault. It's ma that's stingy."

Red stared a moment and then burst into a hearty laugh.

"See here, Bert! You didn't think I came to your house to eat, did you? I came because I love your sister."

"Oh, Gee!" said the boy dancing about excitedly.

"The first time I set eyes on her I said, 'There's the girl for me.' When I called that first night she was so quiet, I thought she didn't like me. I was clean discouraged till you boys broke the ice with your stack of buckwheats."

"Does Bertha know?"

"Well I reckon she does unless she's a mighty poor guesser, but I am going to ask her plumb out to-night, and I hope I'll be too happy to eat."

SLAVES TO FOOLISH CUSTOM

Some Truth in Criticism of Manner in Which American People Spend Their Summer.

The Americans have a delightful country in summer, but they make themselves miserable milling around in it. Great hordes of people travel on anything they can board, and there is a general exodus from wherever one lives to some place where it is just as hot and twice as uncomfortable.

It is as if the Romans of the time of Augustus had all spent the heated term in Norway and Russia, or as if all the Persians of the time of Cyrus had similarly set out every summer for the steppes of Siberia. There is, of course, more facility in travel now, but there is probably no more comfort. The crowds are dense, everything is packed and jammed, and virtually no one is in a good humor from the time he sets out until he returns

This is purely a habit—and a national one. No other country does it, and none ever will. Fashion has something to do with it. An American family with a nice, cool home thinks it must close it through the summer and wander in misery over the face of the earth until it is fashionable to go back to its electric fans and its tile bath.

It is almost pathetic to see an American family return from its exile. The father and mother join hands and dance all over the house. The children fill the neighborhood with shrill shrieks of laughter. The dog barks. The phonograph is turned on. The lights glow. The help scurries about. One would think it a wedding, but it is not. It is home.—St. Louis Post-Dispatch.

ORDER IN WILSON'S PICTURE

Texas Textbook Board Substitute It for That of President Taft.

Austin, Tex., Nov. 11. — The state textbook board has ordered the publishers of the geography that was just adopted for use in the public schools of Texas to remove from that book the picture of President Taft and substitute therefor the picture of Woodrow Wilson.

Members of the board also urged the removal of the picture of Abraham Lincoln from the school history, but the proposition was so vigorously opposed by Governor Colquitt, that it was abandoned. The governor informed the board, of which he was chairman, that rather than have Lincoln's picture eliminated from the history, he would resign from the governorship.

KILLS "PAL" BY MISTAKE

Holdup Man Says He Mistook Partner for Victim in Robbery.

Carrington, N. D., Nov. 11.—George Yakel, aged eighteen years, confessed the murder of his "pal," Ernest Howard, while they were trying to rob a man at a railroad depot here Monday night, according to the police.

Yakel says the intended victim started running and in the excitement Yakel shot at what he supposed was the man with the money, but instead hit his partner, killing him instantly.

Messrs, Cole and Stipe of Chelsea then presented the following franchise for gas and requested that the council grant it subject to the approval of the people at a special election, date of which is to be named later, probably some time in January.

Ordinance Number

Granting to John B. Cole and William E. Stipe, their successors and assigns, the right to maintain the gas works within the Village of Tecumseh, Michigan, and laying and continuing the gas pipes along and across such streets, alleys, sidewalks and public places as the Council may approve in said Village for sale for fuel and lighting purposes, for the period of thirty years:

The Village of Tecumseh ordains:

SECTION 1—The right and privilege of erecting and maintaining gas works, within the Village of Tecumseh Lenawee County, Michigan, and laying and continuing the gas pipes along and across such streets, alleys, sidewalks and public places as the Council may approve in said Village for sale for fuel and lighting purposes to be granted to John B. Cole and William E. Stipe of Chelsea, Michigan and to their successors and assigns, upon the conditions and restrictions hereinafter mentioned, so long as the said John B Cole and William E. Stipe shall supply gas for fuel and lighting purposes, and shall comply with the restrictions and conditions hereinafter mentioned, and not to exceed in all a period of thirty years.

The plant or works for the manufacture of gas shall be erected, maintained and operated within the corporate limits of the Village of Tecumseh.

SECTION 2—This grant is to be made the subject to the following restrictions and conditions, to wit:

First, that the said John B. Cole and William E. Stipe shall within ninety days make and file with the Village Clerk, to be recorded and preserved a written assent by them to the provision and condition hereinafter mentioned.

Second, that the said John B. Cole and William E Stipe shall supply and continue to supply all persons along the line of the main pipes, who may suit aby supply their premises and build ings with service pipes and necessary fixtures and appurtanances, with gas of not less than seventeen candle power test and to supply all customers within the Village of Tecumseh with gas of same quality at a rate not to exceed $1.25 per 1000 feet, Provided, further, that if the price of coal and oil shall advance to exceed twenty five per cent of the present price, the price of gas, may be advanced pro rata in the proportion that the price of coal oil enters into the cost of manufacture of gas. Provided that the rate at which gas is furnished to private customers shall not at any time exceed the average rate paid for gas in other Villages and Cities in Michigan, of corresponding size.

Third, that the said John B. Cole and William E. Stipe shall extend the gas mains whenever a sufficient number of persons residing along the line of the proposed extension shall agree to become consumers of gas to make such extension pay an interest of five per cent. on the investment necessary to make such extension.

Fourth, said John B. Cole and William E. Stipe shall do no permanent injury to, and shall take care not to unnecessarily or unreasonably obstruct any street, pavement, sidewalk, lane or alley, and when they shall open ground to lay pipe or for any other purpose whatever, they shall with all diligence restore the street, pavement, sidewalk or grounds to a condition equally as good as before, and to the satisfaction of the village council, and shall promptly comply with any orders or restrictions of said village council, in reference thereto, and they shall make application to the village council before laying or extending their pipes through any streets, lanes, alleys or public grounds of said village, and shall lay their pipes when making their extensions in such parts of the streets as the village council shall direct. And said John B Cole and William E. Stipe shall make and file, with the village clerk, a bond with sufficient sureties, to be approved by the village council to fully indemnify them and save harmless the village of Tecumseh, from and against all damages or costs which said village may be put to, or sustained by reason of such digging or excavation.

Fifth, that said John B. Cole and William E. Stipe shall have said plant completed and ready to supply customers with gas, within two years from the passage of this ordinance, otherwise this franchise will be null and void and of no effect.

Sixth, this franchise shall take effect within ten days after it i granted.

SECTION 3—This ordinance and the acceptance thereof shall be and constitute a contract by and between the grantees and the village of Tecumseh, provided however that the same may be revoked by the common council at any time unless it shall be submitted to the electors of said Village of Tecumseh, at a regular or special municipal election and shall receive the affirmative vote of three-fifths of the electors of the Village of Tecumseh voting thereon at such election, and upon such proposition women tax payers, having the qualification of electors shall be entitled to vote

2. All expense of any election at which the granting of this franchise shall be submitted to the electors of the Village of Tecumseh, shall be paid by said John B. Cole and William E. Stipe.

Dated at Tecumseh, Mich., this 4th day of November, 1912.

Moved and supported that the gas franchise, as read, be granted. Ayes: Service, Elliott, Look. Fisher, Gillesple, Daisher. Nayes none.

On motion council then adjourned,

HERBERT S. TEMPLE,
Clerk.

A JOURNEY ACROSS THE COUNTRY.

W. C. T. U. to National Convention at Portland, Ore.

The Adrian Telegram of Tuesday Nov. 5 has a fine letter from Mrs. Charles Humphrey discribing the trip across the continent of the White Ribbon Train enroute to Portland, Oregon, for the National Convention of the W. C. T. U. The whole journey abounded in pleasing incidents At the different stopping places the White Ribbons of the city would turn out to greet them with receptions souvenirs or words of good cheer, automobiles were in waiting to take them around the cities and everything that could add to the comfort of the crowd was done for them. When they reached Portland Oct. 18, a reception was tendered them and they were taken on a sight seeing trip in automobiles.

The 39th Annual Convention of the National W. C. T. U, lasted from Oct. 19 to 25 and was one of the best. There were 445 voting delegates present with many visitor

Miss Hughes of New Zealand traveled 7000 miles to be present at this meeting.

AMUSEMENTS

"FAUST"

If on Wednesday Nov. 13 you should notice a handsome and tall, fine appearing gentleman, clad in a long frock coat and a high silk hat you need not wonder who he is.

He will be Mr. Geo. Wakefield, America's tallest and youngest Mephisto of that Tragedy Faust.

Messrs. Manley & Campbell have reasons to congratulate themselves, in having been so fortunate, as to sign Mr. Wakefield for a term of five years as he has proven a great winner for them both financially and artistically.

Wakefield is fortunately happily cast as Mephisto in Faust as he spent several seasons with that master of Mephisto Mr. Lewis Morrison, in the capacity of stage manager and understudy.

He was fortunate in securing the Morrison schooling and during that gentleman's last season, (owing to his extreme ill health) Mr. Wakefield was frequently called upon to play Morrison's role.

Having secured so good a star, Messrs. Manley & Campbell naturally have surrounded Mr. Wakefield with an adequate cast and have also built one of the best scenic productions of this grand Tragedy ever shown to the public.

One of the features of the production is the wonderful soul stirring Brocken Scene which easily surpasses all it's predecessors owing to the great strides made with recent years in the way of stage lighting and electrical effects.

Each act and scene is carried complete by the company; no house scenery being used.

In fact nothing has been left undone to make this one of the best all around productions, both scenically and histrionically.

This is the same cast and production which just recently played Saginaw, Port Huron, Owosso, Flint and will play Adrian and Battle Creek after the engagements here.

ELECTION ECHOES.

Woodrow Wilson is now the topic of essays and comments. He restores the "Virginia dynasty" of presidents which included Washington, Jefferson, Madison, Monroe, W. H. Harrison, Tyler and Taylor. He is the first of Southern birth since the disastrous days of Johnson.

For a party just one hundred days old the Progressives did themselves proud and prove to the people that a new party is necessary and that the Progressives are here to stay.

From the sublime to the ridiculous, one of the first things the president was called upon to do, was to give thanks, and write a thriller on Turkey and cranberries.

They seem to own a pretty strong steam roller in the Democratic party.

Of one thing Taft may boast. He carried the first town heard from in the election, Acuskuet, Mass., the vote running: Taft, 101; Wilson, 52; Roosevelt, 50.

It is currently reported that President Taft, at the close of his term of office, March 4, 1913, will practice law in Cincinnati. Also, it is reported that he may join the New York firm of which Henry W. Taft, his brother, is a member. However, there is time enough to decide this matter in the months to come

The news comes from Texas that Zapatee county in the lower Rio Grande border region, cast 375 votes and every one for Taft. The same county gave Taft a solid vote four years ago

Returns from all but a few of the smaller counties show the Woman Suffrage movement has been well received throughout the state, and that Suffrage has passed by a majority of over 3.500.

Mrs. A. C. Bryan received a letter from her sister, Mrs. Fred Osborn, of Seattle, Wash., last week, telling of casting her first vote for president. Mrs Osborn voted for Wilson and her husband voted for Teddy. No coercion in that family.

TAKE IT IN TIME

Just as Scores of Tecumseh People Have.

Waiting doesn't pay.
If you neglect kidney backache,
Urinary troubles often follow.
Doan's Kidney Pills are for kidney backache, and for other kidney ills. Tecumseh citizens endorse them.

J. B. Smith, E Chicago St., Tecumseh, Mich., says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago. I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs. Peter Holan, 11501 Buckeye Road, S. L., Cleveland, O., had a little son with a bad case of whooping cough. She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh.

Porto Rico s New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and $1.00. Trial bottle free. Guaranteed by C. A. Wright & Son.

FIND ARSON AND DEATH

Chicago Police Called into Fight between Unions.

Man Held for Burning Eight Buildings Makes Confession and Accuses Others.

Chicago, Nov. 11.—Startling revelations of murder, arson and slugging, incidental to a "labor war" were made by a man under arrest for the destruction of eight new buildings valued at $100,000 in the last four months. His confession, reminiscent of that of Ortie McManigal and the story of the McNamaras, is backed by other evidence contained in a memorandum book giving the names and addresses of a score of persons and other data.

Charles Cameron, thirty-seven years old, of 414 South Sangamon street, members of the Painters', Glaziers' and Paper Hangers' Union, is the man making the confession. With James A. Anderson, owner of a garage in the rear of 1062 Dearborn avenue, he was arrested following police investigation of a series of suspicious fires. Paraphernalia used in setting the fires was seized when the capture was effected.

In his confession Cameron declares he was employed to set these fires by the International Brotherhood of Electrical Workers, Local No. 134, because members of a rival union had worked on the buildings. Michael Boyle, business agent of the union, was found guilty with the late Martin B. (Skinny) Madden on extortion charges.

HURLED BENEATH TRAIN

Man Meets Death after Being Struck by Auto.

Clover Leaf Yardmaster, Victim of Unusual Accident, Is Ground to Pieces by Wheels.

Marion, Ind., Nov. 11.—William T. Harvey, forty-one years old, local yardmaster of the Clover Leaf Railroad, was killed in a peculiar accident.

Harvey was standing on the street within a few feet of the track of the Clover Leaf railroad when he was hit by an automobile and hurled beneath the wheels of fast moving passenger train. His body was mangled beyond recognition. J. N. Gibson, a well-known Grant county farmer, was driving the automobile and with him was Otto Wells of Fairmount.

Gibson, it is said, did not see the warning of the flagman at the crossing and did not know a train was approaching until within a few feet of it. He steered his machine, which was moving rapidly, toward the sidewalk, and in doing so struck Harvey. The automobile was demolished, but neither occupant was hurt.

Harvey was the fourth member of his family to meet death on a railroad track. He is survived by his widow and four children. Harvey formerly lived at Anderson.

BETTER NO WIFE THAN BEARD

Refuses to Cut Husband's Hair or Whiskers and He Quits Her.

Elgin, Ill., Nov. 11.—Unwillingness to serve as "lady barber" for her husband, Ernest Miller promptly filed a suit for divorce here against Mrs. Emma Miller. She said for four years after their marriage he never patronized a barber shop. At first he flattered her into cutting his hair and wielding a razor. Later he ordered her to do it.

A while ago she picked up a broom and announced she was through with her tonsorial career, and Miller left.

MINERS' NARROW ESCAPE

Almost Sucked Down by Cave-In from Underground Workings.

Shanokin, Pa., Nov. 11.—John Stenchock and Wally Buronski had a thrilling escape from death as they were completeng a shift at the Natalie colliery. They started from the No. 2 slope with three mules attached to ten wagons. Stenchock rode the leading mule, while his companion sat on the third animal. A cave-in from underground workings occurred.

Hearing the ground break, Stenchock looked back and saw the ten wagons disappear, with the rear mule struggling to retain his footing. Stenchock whipped his mule into a gallop. As the rear mule was sucked into the chasm, Buronski slid over the animal's head and, grabbing the traces of the second mule, was pulled clear of the cave-in.

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal root, and sold by druggists for the past forty years under the name of

Doctor Pierce's Golden Medical Discovery,

gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alterative extract which does *not* shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease. Sold by druggists everywhere. Address World's Dispensary Medical Association, Buffalo, N. Y.

CHAS. FARBER, JR.

MR. CHAS. FARBER, JR., of 332 Woodlawn Ave., Philadelphia, Pa., writes: "I was troubled with my stomach for almost three years. Tried several doctors and most everything anybody recommended to me, but kept getting worse and honestly did not care to live as I was never well even though, at times, I had no pain. My symptoms were as follows: Always tired, my whole body in a throb, belching of gas, pain and soreness in the stomach, vomiting, constipation, could not tell what to eat or what would agree with me, and was melancholy. But after taking Dr. Pierce's Golden Medical Discovery with the 'Pleasant Pellets' it has made me a well man which is something to live for."

Kalamazoo, Mich., Nov. 11.—Frank Leroy Studebaker, thirty-six years old, a prominent stock raiser of Van Buren, Grant county, Ind., where he owns a farm of 1,000 acres, eloped to this city with Miss Vera Katherine Derbyshire, daughter of Mr. and Mrs. Samuel Derbyshire of Fort Wayne, and they were married in the county clerk's office, after obtaining a license, by the Rev. Arba Martin, pastor of the First M. E. church.

The bride gave her age as twenty years. Studebaker has been married once before. The bride's parents are prominent people of Fort Wayne.

VOTE MACHINES IN SCHOOL

Chicago Educator Would Teach Pupils to Cast Ballots.

Chicago, Nov. 11.—Voting machines for the public schools is an idea of Principal William J. Bogan of the technical high schools, which has favorably impressed the board of election commissioners.

Mr. Bogan made a request for two voting machines and sample ballots that the boys in his school may be taught the use of them.

He believes such instructions would impress the young men with the importance of casting ballots at regular elections when they become of legal age.

AUNT POLLY'S DESCENT

She Was Old-Fashioned, But Knew Cupid's Way.

By IZOLA FORRESTER.

Betty was sweeping the hall when the bell rang, and the postman handed in a handful of letters.

"Six for Geraldine," said Betty, sitting down on the stairs. "All valentines. This one feels soft and satiny. That must be from Mr. Raleigh. Wish I were engaged, too, so somebody would send me one like that. I'll never be if I stay here all my life, playing maid to Geraldine, and right-hand girl to Aunt Margaret. I wish, if I ever did have one all my very own, it would say on it, 'To Betty from Jack.'"

The last was in a whisper. Behind her came Aunt Margaret downstairs, eyeglasses at the proper angle, serene and well poised as always.

"Don't neglect the corners, Betty," she said, pleasantly. "Has the mail arrived? Oh, yes. For Gertrude! How popular and loved the child is."

"Certainly," said Betty, vigorously attacking the broom once more.

"Don't be ungenerous, even in thought, Betty. You had better oil the staircase too, today."

Betty stood still for a moment, looking after her aunt, but Mrs. Potter crossed the hall, and went into the dining room to her late breakfast. Jack was just finishing his. With the morning paper propped before him, he wished his mother a perfunctory greeting, and went on reading. Mrs. Potter opened her mail. One letter attracted her attention. It was a curious letter. The envelope was long and narrow and of thin, pale blue paper, with a sort of checkered effect. She opened it, and glanced over the first page, and Jack looked up from his paper at the quick cry of alarmed surprise.

"Who's dead, mumsie?"

"Don't be flippant, Jack. The shock is quite bad enough. I have a letter from your father's sister Polly. A most impossible sort of an old person, Jack. I have not seen her in over fifteen years, not since your father made his fortune out of Potter's Pure Pellets. She lived on a farm somewhere up in Connecticut. Your father was born there, but he got away from the environment as soon as he could fairly toddle."

"What's the old lady writing to you for?"

"Heaven only knows. And she calls me dear sister Maggie. Jack, nobody ever called me Maggie, excepting her."

Jack laughed, and took the letter. The writing was a bit quavering and uncertain, but he made it out. It was a simple, heartful letter, full of sincerity, and a reaching out after one's own people.

"Dear Sister Maggie," it read, "I have been thinking of you and the children for some time, and I do want to see you before the Lord calls me home. So, seeing as you weren't given to visiting, I thought I'd take time by the forelock, and come to see you. I know you will be surprised, but life is short, and my heart strings begin to twangle after some of my own flesh and blood as I grow older.

"Hoping this finds you all in good health, as I am at present, and trusting to be in your midst shortly, I remain,
"Your sister,
"Polly Ann Potter."

"The letter has been delayed, mother," said Jack. "It went to the old address first. What a bully place she lives in, Woodchuck Hill."

"She must be sixty-five, and poor as only those human relics dragging out life in worn-out farm houses can be, Jack. I might telegraph her that we were starting to Florida or Bermuda."

"Oh, nonsense, mumsie. Make the old lady comfy. She's only lonesome. A month here in New York, trotting around with you and Gerry would buck her up fine and dandy."

Geraldine came in dressed for her morning walk through the park. She was a tall, pretty girl, rather pallid, but sweet faced, and well bred.

"Who's Betty helping out of the cab, mother?" she asked. "It looks like Noah's great-grandmother."

"Jack, I am going to faint," exclaimed Mrs. Potter.

"Buck up, mumsie, and be decent," warned Jack, as he opened the door, and faced Betty, loaded with two large covered baskets, and an ancient black leather traveling bag. Betty's face was radiant.

"Here's Aunt Polly!" she announced.

Behind her stood the oddest figure. As Geraldine said afterwards, she did not think there were any people like Aunt Polly left in the world. Tall and spare, head well up, with a wide, genial smile that took in all creation in its approval, she had happy gray eyes and crinky gray hair parted in the middle and drawn down over her ears.

"Well, how are you, folks?" she exclaimed, her voice trembling with tears. "Bless my heart and soul, it's so good to see you all. How your chicks have grown, sister. Been a'feedin' them the pellets regular?"

"Betty, take your aunt's parcels up to the gray chamber. How do you do, Polly. You are very welcome." Mrs. Potter closed her eyes as a martyr should, and pressed a bird peck on the wrinkled cheek nearest her.

"Betty, child, you let them satchels and things of mine alone," ordered Aunt Polly, vigorously. "I never let folks wait on me. Well, Maggie, how be ye, anyhow? You look sort of pindlin'. You'll have to speak up louder, 'cause my hearing's defective. Come nearer, children." She sank down into a rocking chair and beamed on the two. "This is the girl you named Polly Ann after me isn't it?"

"We call her Geraldine, to avoid confusion, Polly." Mrs. Potter passed the point of danger with poise and graciousness. "I think she resembles my side of the family, don't you?"

"She does seem more set up than the Potterses." Aunt Polly smiled, and turned to meet Jack's hearty salute.

"I'm Jack, auntie. How's things down home?"

"Well, fair to middlin', fair to middlin'. I brought you up some Hubbard squashes, and good Beck's Pleasants and nuts, and ginger cookies. I ain't forgot when I was young. I knew the children would enjoy things right from the old place where their father was born."

"So kind of you, Polly," acknowledged Mrs. Potter, sweetly. "Betty, you may remove them to the kitchen."

"Wait a minute; I ain't got a good look at you yet. This is Millie's girl, ain't it? She favors Millie, too."

Geraldine smiled shyly.

"Call me Gerry, auntie. Jack does."

"She don't handsome a bit, does she, Maggie?" Polly said. "Anybody sitting stiddy with you, yet, child?"

"I'm to be married Easter week."

"My, backward, ain't ye?" laughed Polly. "Run along and take your walk. Who's she going to marry, Maggie?"

"A gentleman in a Wall street office."

"You don't tell me. Ain't that too bad! But love goes where it will. Jackie, help your old aunt off with these pesky tight shoes and get my old slippers out of that bag on top. I pretty near lost all my religion wearing them down here."

Jack knelt on the floor, putting on the slippers.

"Mother worries too much."

"Hurries too much?"

"Worries. She has a good many social engagements—"

"I didn't know they'd let Potter's Pure Pellets into New York society," chuckled Polly. "Land, Jackie, I remember when your father used to putter around home over his little dough and sugar pills, and a little pepsin. And he put on the labels they'd cure everything on earth excepting chillblains and boils. Seems queer to think he made a fortune out of them before he died."

"It's about all gone now," said Jack cheerfully. "We're putting on a lot of dog, Auntie, that we can't back up with the veal goods. It's in the air down here."

"Better come home with me. You're a Potter through and through, Jackie. Sitting stiddy with any girl?"

Jack grinned, and shook his head. Out in the hall they could hear Betty's voice singing.

"I want Betty," he said simply. "She sings like an angel."

"Umm. Be a lot of help to you on the farm won't she? She was so glad to see me." Aunt Polly warmed her toes at the radiator, and thought for a minute. Then she said, "I'm afraid I'm too old-fashioned for Maggie and Gerry. They don't take to me, do they?"

She glanced up shrewdly at Jack.

"Have you asked Betty to have ye?"

"She's only seventeen, Auntie."

"Don't you waste time, Sonny. I was in love at sixteen, and we kept a'waitin' and a'waitin' for his folks to die and my old bedridden father to stop needin' me, and by the time they'd all passed over the shining strand, my lad died too, and we'd missed our way somehow along love's post road. Sometimes you can't put much faith in the sign posts along that road. Now, you brace right up to the occasion and ask Betty while she's sweet as a rosebud."

"How long can you stay, Auntie?"

"Well, it depends. A day or so. I come up on a little business besides," said Polly placidly gathering her bonnet and knit muffler, and coat and shawl together. "Mebbe I'll take you home with me, Jackie."

Jack stood where she left him, and Betty came in. Somehow the old lady's simple philosophy of life had put new courage into him.

"Betty," he said, slowly, "Betty, listen. Aunt Polly's offered to put me to work on her woodpile if I marry you."

Betty dropped the broom and dustpan with a bang and looked at him. Jack had always been her hero, ever since the day when somebody had brought her there to live, a little pensioner on her godmother's bounty.

"She's just making fun, I guess," said Betty, with a sigh. "You couldn't cut wood."

"I could learn, dear." Jack's arms folded around her somehow as if they belonged there. "We'd chuck all this city life, and go back home. There's about a hundred and sixty acres there of land waiting for somebody to wake it up. I remember dad telling about it. Would you go with me, Betty?"

Betty turned her head to answer, and met his lips. And so Mrs. Potter found them as she came in the dining room, followed by Aunt Polly.

"Jack, I'm amazed at you," she began, in a repressed, sorrowful tone, but Polly laughed.

"Oh, good land, Maggie, let the children kiss if they want to. It's all my doings. I found one sane member in the family. He's going to marry Betty here, and they're coming to live with their old aunt on Woodchuck Hill, and work the farm on shares, ain't you, Jackie?"

"Back to the farm!" exclaimed Mrs. Potter, despairingly.

"Back to nature," retorted Aunt Polly, forcibly. "When you get back from your Floridy trip, sister Maggie, you'd better run up and stay awhile. We'd be real pleased to have ye."

MADE GOOD "AD" AFTER ALL

Comment of Physician Seems to Contain a Reflection on the Curiosity of the Woman.

Physicians as a rule are strongly opposed to published advertising. This aversion is founded on an old rule of medical ethics and is carried to the extreme of making a doctor who breaks it an object of suspicion in the eyes of his fellow practitioners.

Apropos of this, is the story which Dr. W. H. Hill told on himself, the other day.

"My wife got me into an awful fix," Dr. Hill declared. "You see, she was one of the women appointed or elected at her church to solicit advertising for a benefit cook book. She knew nothing of what a crime it is for a physician to break into print and merely to show that her heart was in the cause, inserted my card with those of merchants, dyers and cleaners and others. When the book came out, Mrs. Hill brought me the first copy off the press and proudly pointed out my advertisement. I will admit that I was somewhat excited. I went immediately to the publishing house and for a consideration got him to paste a white piece of paper over the space allotted to me in every book. When I returned home I was immensely satisfied with my forethought and my sacrifice to the proper thing in practice. Witness what happened a day or two later.

"I met a friend in the profession on the street and he began to smile when he saw me.

"Well, what tickles you?" I inquired.

"'I will have to give it to you, you are mighty clever,' the doc said banteringly. 'The idea of pasting a blank slip over your ad so the women of your church would be bound to see it!'"—Kansas City Journal.

Keeping Brass Looking Well.

The following is given as a means of keeping brass from tarnishing: "Place half an ounce of shellac in half a pint of methylated alcohol, cork tightly. Leave bottle till next day, when the shellac will have been dissolved. Then pour off the clear liquid for use. With it paint the brass, using a camel's hair brush. Best results are obtained if the brass is heated before applying the solution of shellac. The varnish will not be noticed on the brass and the coating thus applied will prevent tarnishing."

39 STATES VOTE FOR GOV. WILSON

New Jersey Man Will Have 429 Electoral Ballots.

ROOSEVELT GETS SIX STATES

President Taft Finishes with Two States and 8 Electoral Votes—Democrats May Control United States Senate.

POPULAR VOTE.	
Wilson	6,398,997
Roosevelt	4,307,305
Taft	3,359,364
Taft (1908)	7,628,908
Bryan (1908)	6,409,104
Wilson's electoral vote	429
Roosevelt's electoral vote	90
Taft's electoral vote	8
States carried by Wilson	39
States carried by Roosevelt	6
States carried by Taft	2

Fuller returns from the election indicate that Woodrow Wilson carried thirty-nine states and has 429 electoral votes. This leaves Roosevelt second with six states and 90 electoral votes, while President Taft has but two with 8 votes to be cast for him.

The latest significant change was the change of places by Illinois and Minnesota. More complete returns took Illinois from Roosevelt and added its 29 votes to the Wilson column, while Minnesota's cornfield voters were found to have gone for Roosevelt, which took the 12 electoral votes out of the Wilson column and gave them to Roosevelt.

There is at present not the slightest doubt as to the lower branch of congress being decidedly Democratic and that the Democratcs will have the largest representation in the history of the party or nation. It merely is a matter of whether the Democrats will have 120, 130 or some other equally large numeral as the index of their majority over all opposition, including Republicans and Progressives.

The latest stack-up showed 291 Democrats, 133 Republicans and 11 Progressives. This would be a clear majority of 135 for the winning party.

United States Senate Still Close.

The Democrats appear reasonably certain of controlling the United States senate, although it will be very close. The Republicans had a majority of seven in the present session with three vacancies. While the Democrats have held their own in the states, the indications are that they have taken two seats away from the Republicans in Colorado, one in Delaware, one in New Jersey, one in Kansas, one in Montana, one in New Jersey, one in Kansas and one in Montana. They may win one in Nevada, while Democrats believe there are chances in Oregon, Tennessee, Iowa and South Dakota. In Illinois the United States senator will have to be elected by a coalition, as the Progressives and three Socialist members of the lower house will hold the balance between the two parties.

The day developed the defeat of three very well known Republican congressmen, Joseph G. Cannon, William B. McKinley and Nicholas Longworth, son-in-law of Colonel Roosevelt, but a Taft supporter.

Situation in Illinois.

All shadow of doubt as to the minor Democrats on the Illinois ticket has been dispelled. They come through with the head of the ticket. Late returns settle definitely that there will be no party responsibility in the next general assembly, say party leaders. No party has a majority with the Progressives holding the balance of power.

Of the twenty-seven congressmen from Illinois, eighteen will be Democratic, three Progressive and six Republican. It is likely that the present Illinois legislature will claim the right of electing a successor to Lorimer, and efforts are being made to get all factions to agree on some Republican, preferably Lawrence Y. Sherman, who defeated Shelby M. Cullom in the preferential primaries.

Composition of Legislatures.

It is conceded unofficially that the next Delaware legislature will have twenty-nine Democrats and twenty-three Republicans. In Massachusetts the Democrats have added the secretary of state to their winning list, the post being won by Frank J. Donoghue, a young newspaper man. The legislature will be Republican on joint ballot by fifty-four plurality.

Returns on Governors.

In 29 states electing governors, the Democrats not only maintained their own, according to late returns, but overthrew majorities in three states, Illinois, Missouri and Nebraska, in which Republicans were the incumbents. In addition, a Democrat was elected to succeed Wilson in New Jersey.

The following results were indicated among others:

Illinois—Edward F. Dunne, Democrat (incumbent, Republican) elected.

Indiana—Samuel L. Ralston, Democrat, (incumbent, Democrat), elected.

Iowa—George W. Clarke, Republican (incumbent, Republican) elected.

Kansas—Arthur Capper, Republican (incumbent, Republican) leading.

Massachusetts — Eugene N. Foss (Democratic incumbent) elected.

Michigan—W. N. Ferris, Democrat, (incumbent, Republican) elected.

Minnesota—Adolph O. Eberhardt (Republican incumbent) elected.

Missouri—Elliott W. Major, Democrat (incumbent, Republican) elected.

Nebraska—John H. Morehead Democrat (incumbent, Republican) elected.

New York—William Sulzer, Democrat (incumbent, Democrat) elected.

Ohio—James M. Cox, Democrat (incumbent, Democrat) elected.

Wisconsin—Governor McGovern, (Republican) elected.

LATE BULLETINS OF ELECTION

San Francisco, Cal. — Corrected figures from Santa Clara county showed that 434 votes had been credited to Wilson by mistake. With this result included, Roosevelt appeared to have a lead of 359 votes in the state.

Chicago—The latest revised returns on the elections indicate that equal suffrage carried in four of the five states voting on the question of giving the vote to women, namely, Arizona, Kansas, Michigan and Oregon. In Wisconsin alone was the proposed amendment defeated.

Indianapolis, Ind.— The Indiana Democrats made almost a clean sweep of all offices of importance in the state. Wilson's plurality may reach 140,000.

Danville, Ill.—Frank J. O'Hair, Democrat, is victor over Former Speaker Joseph G. Cannon for congress in the Eighteenth district by 611 plurality. Vermillon county gave Cannon 718 plurality and Kankakee 544 plurality.

Kansas City, Mo.—Revised figures on the election in Missouri indicate that the plurality of Wilson in the state will reach 75,000. The entire Democratic ticket is elected by large pluralities and the legislature will be overwhelmingly Democratic.

Des Moines, Ia.—Wilson has a lead of 10,794 plurality over Theodore Roosevelt in 57 out of 99 counties in Iowa. The state legislature is apparently Republican by a small majority, which will insure the re-election of Senator W. S. Kenyon.

Champaign, Ill.—Congressman William B. McKinley, manager of the preconvention campaign of President Taft, has been defeated in the Nineteenth district by a plurality estimated from 500 to 800 votes. Mr. McKinley has confirmed the result by sending a congratulatory telegram to Charles M. Borchers, the Democratic candidate, at Decatur.

His Only Patient.

Nurse (to young doctor)—Your practice is waiting, sir. Shall I show him in?—Judge.

G.O.P. HAS LEGISLATURE

Re-Election of William Allen Smith of Michighn Assured.

Ferris Chosen Governor by 25,000 and Roosevelt Carries State by 40,000.

Detroit, Mich., Nov. 9.—Later returns from the state show practically no change in the results announced early. The plurality of W. N. Ferris, Democrat, for governor, will probably increase to 25,000 on the full count.

Roosevelt's plurality over Wilson will be well over 40,000, with Taft about 12,000 behind the Democratic candidate.

Sufficient returns are now in on the legislature to assure the re-election of William Alden Smith to succeed himself as United States senator next January.

The Republicans have elected eight congressmen, the Democrats two and the Progressives two, while woman suffrage has apparently carried by 7,000 majority. It is probable that a Progressive will occupy the lieutenant governor's chair.

BOAT BURNS; MEN ESCAPE

Menominee Fishermen Endangered by Gasoline Explosion.

Menominee, Mich., Nov. 11.—Forest Aneswald and his brother Orvil, local fishermen, had a narrow escape from drowning when their fish schooner burned to the water's edge off Green Island, as the result of gasoline explosion.

The two men put out in a rowboat and after some time were rescued by a passing boat and brought into Menominee, where their burns were attended to. The mother of the men saw the burning boat through a field glass.

Two Arrested on Girl's Charge.

Ann Arbor, Mich., Nov. 11. — Warrants were issued for the arrest of Charles Nicholai and Andrew Keebler, both of this town, on statutory charges sworn to by a fourteen-year old girl. The investigation which led to the arrests was made by Mrs. Bodner, Washtenaw's probation officer. The girl is being detained in the juvenile quarters of the courthouse.

EIGHT CONVICTS HELD

Under Examination in Detroit for Dynamiting Plot.

Detroit, Mich., Nov. 12.—William J. Burns, head of the detective agency which investigated the recent so-called dynamite and fire plot alleged to have been concocted by Jackson prison convicts with the intention of destroying the penitentiary, declared here that his men discovered eight convicts were implicated in the alleged plot and that four of them were leaders in the prison riots which occurred last September.

The men charged with being the ringleaders were turned over to the detectives Thursday for examination, and Burns spent considerable time with the convicts in Detroit. He declined to state where they were being kept.

The detective not only charged the men with the recent destruction of prison binder twine plant by fire, but declared that they had made complete plans to burn up the prison cannery last Thursday.

He said his operatives had learned from convicts that the reason the fire was not started was because the alleged conspirators discovered they could be observed at work through a nearby window.

Detectives, disguised as convicts, are said to have mingled with suspected men for several days.

TAKE TCHATALDJA BY FIERCE ASSAULT

Victorious Bulgarians Capture Fortifications in Charge.

Porte Is Hastening Efforts to Bring About Cessation of Hostilities—Salonika Surrenders to Forces of Greece.

Bulgarians made a swift vicious assault on the fortifications of Tchataldja and won them. The disheartened Turks are now scattered over the twenty-five mile district between these captured lines of defense and Constantinople, and the Bulgarians are pursuing them, capturing some, and killing others. There is now nothing save these disorganized fleeing bands of Turks to stop the Bulgarians in their conquering march toward the capital of their enemies.

Victories Lead to Final Assault.

Flushed with the increasing total of victories, the Bulgarian troops, under the direction of King Ferdinand, decided that it would not be necessary to await the arrival of the reinforcements which have already started from Sofia. The grating hatred which the Bulgars feel toward the Turks fed fire to the zeal of the soldiers and after testing the mettle of the defensive army by pressing them three days King Ferdinand decided on one assault. The Turks had been yieldng to his varied attacks during these days, so he piled all his forces on top of the Turks in a sweeping assault.

The Turks resisted as best they could, but the soldiers are weak from lack of food, disheartened by defeat, and have endured terrific physical hardships during the few weeks of the war and at last were pushed from their positions. The retreat of the Turks began in confusion, which increased as the Bulgarians pressed home their attacks, and at last the Turks broke into a sprint for their capital, throwing away their packs and arms to increase their speed.

Porte Anxious for Peace.

The effect on the Porte is that it is hastening its efforts for peace. The cabinet wants it on any terms, provided it is granted quickly.

The cabinet decided to give free rein to the powers in arranging for a cessation of hostilities.

The loss of the Tchataldja lines of defenses became known in Constantinople just after the war department got news of the surrender of Salonika and news of other Turkish losses throughout European Turkey. Salonika has been making a gallant defense, but the Greeks have been attacking it in so wholesouled a manner that it has been known for several days that the Turkish garrison could not withstand it.

The Turkish commander would not trust his men to surrender, so he and his army simply abandoned the town, burning down several bridges to prevent pursuit.

Look for Massacre of Christians.

The situation for the Turks defending Scutari, makes it appear impossible that there is much hope for them.

The situation in Constantinople is growing in desperation every day. Every Christian who can do so is leaving the capital. There are 600,000 Christians in the town normally. Those who know the Turks and the conditions are sure that a general massacre will start, and that thousands of Christians must lose their lives.

KALAMAZOO — Charles Eggstaff, aged seventy years, who resided in Galesburg fell dead from a chair. Eggstaff had not been in good health for several days, but his sudden death proved a surprise as it was believed he was improving.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Altson, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at C. A. Wright & Son's

The girl with freckles usually has too much common sense to worry about them.

"TELLS THE WHOLE STORY"

To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat chest and lungs. Stops la grippe coughs and has a soothing effect. Obituary

MRS. JOHN CALHOUN

The sad news came to Mr. and Mrs. Daniel Anthony Friday of the death of their daughter, Mrs John Calhoun of Holloway who passed away at 12:30 noon at the hospital in Detroit where she had been for treatment for several weeks. The body was brought to Tecumseh that evening and the funeral was held Monday afternoon at her fathers home, Rev. Crawford of Holloway officiated, with prayer by Rev Weld, Mrs. Weld rendered two beautiful solos.

Stella Anthony was born in Raisin township Nov. 16 1869 and all her life except two years spent in Tecumseh was lived in that locality. On March 24, 1897 she was in united marriage to John Calhoun, who with her parents three sisters and a brother mourn her untimely death.

Now let us gather up the elements of the life of our dear one and weave of them a picture for the walls of memory.

She ran the journey of her life in a few short years, and now, she rests.

"So may she rest in goodly quiet sleep.
We loved her once,
We love her still, and weep.
Not because our sorrow,
Is comforted,
But by shedding tears,
Oftimes we lose our fears,
And the burdened heart.
Gains courage for the morrow."

ADRIAN LOSES THE LION COMPANY WORKS

Adrian is about to lose one of its industries owing to a lack of interest on the part of their business men The men are mostly laid off and the machinery will be sold to satisfy creditors.

Since the recent fire when the plant was totally destroyed, the company have been running on a much smaller basis than before, and they have admitted that the company has "gone up" so far as Adrian is concerned and the shut down will be permanent.

GRANT FELLOWS HONORED

Hudson Gives Him an Ovation

Hudson always loyal to her citizens irrespective of party honored Grant Fellows on Monday evening. It was a complete surprise to Mr. Fellows whom they found seated in his office and greeted him with the blare of bands, shouts and cheers. After the band had played a couple of pieces, the committee in charge waited on Mr. Fellows and took him down stairs.

A procession was formed headed by the committee with Mr Fellows and the business men. They finally reached the new Comstock hotel where the crowd extended to Mr. Fellows their hearty congratulations on his election as Attorney General of the State of Michigan.

Republicans, Democrats and Progressives all joined together in good fellowship. The hall was prettily decorated and Mr. Fellows was presented with a hugh boquet of Chrysanthemums, by the young ladies who had been so active in the work.

Many fine speeches were made and Mr. Fellows responded in a feeling manner. The evening was one of the happiest that Hudson has known for a long time Tecumseh remembered Mr. Fellows with a fine vote and join in Congratulations with his home town.

Deserving of Sympathy.

"I am the mother of 21 children," declared a woman at Tower Bridge police court, who was alleged to be an habitual drunkard, "and I have always made my children's clothes, mended their boots, and cut their hair." "We all sympathize with you," remarked the magistrate, Mr. Cecil Chapman.—London Daily Mail.

George Sidney and Miss Carrie Webber appearing in the new musical comedy "BUSY IZZY" which will be seen for the first time in Tecumseh next Tuesday, November 19, Bradley Opera House.

AMUSEMENTS

GEORGE SIDNEY COMING TO TECUMSEH.

It is the big affair in the realm of musical comedy that tells the plainest and most plausible story of all around success, in those progressive days and that is the reason why theater managers are striving so hard to outshine competition.

"Busy Izzy," which comes to the Bradley Opera house next Tuesday, Nov. 19, with its carload of scenic grandeur and with George Sidney, Carrie Webber and about forty other ladies and gentlemen who have achieved fame in one direction or another by the arts employed towards finishing an entertainment of zest and quality, is perhaps one of the most glaring examples of what managerial extravagance can accomplish for according to authentic reports it fairly outstrips in magnitude of production and overshadows in fun and musical talent any similar enterprise before the public, besides in the general beauty of its female contingent it absolutely excels.

Pretty girlish faces and the magnificence of costume details are potent factions in an up-to date musical comedy and the assurance is given that "Busy Izzy" furnishes a proper appreciation of these requisites. The unstinted praise accorded Mr Sidney and his coterie of funmakers by both press and public is most gratifying to all concerned.

Willett's orchestra of Adrian has been engaged to play for "Busy Izzy" which will assure you of the proper music being played for the twenty big musical hits with the show.

MEN'S CLASS M. E. CHURCH

6th Annual Banquet, Held Nov. 12. 144 in Attendance. Fine Representation of Business Men.

BRILLIANT SPEAKERS.

A very fine banquet of the Business Men's Class of the M. E. church was held in the church parlors Tuesday evening, Nov. 12. It was the largest ever held excepting the first one which had an attendance of 156. There could have been at no previous meeting a greater spirit of unity, cordiality and sweetness, than prevailed at this banquet. At one table alone there were six religious beliefs represented, and yet at no table was there a greater oneness of comradeship. And what was true of one table, was true of all.

While we are glad to hear speakers from out of town, yet we think that Tecumseh, "the biggest little town on earth," can produce as brilliant speakers as can be found anywhere, and, knowing us, they appeal more to our hearts. Beginning with the first speech by Rev. F Hewitt and ending with Rev. Wm. Ward, each one spoke for the uplift of mankind.

The toastmaster of the evening, the pastor of the M. E. church, Rev. Whitney, in an easy happy manner, stated that he appreciated the honor that had been given him and preferred it as it let him out of making a lengthy speech The pithy stories that he interspersed between the speeches, added much to the occasion.

He introduced the first speaker of the evening, the Rev. Hewitt, who is a recent comer. In the short time that he has been here he has made himself very popular, and his earnest, brilliant speech added much to his reputation.

He eschewed all frivolous subjects, and took the larger subject of "Manhood," giving a lengthy illustration taking Bonaparte as the central figure. How he allowed nothing to stand in his way for the accomplishment of his end—love, friendship, honor, all were sacrificed, still the stock phrase, "to be another Bonaparte," is familiar to all and seems to be the aim of so many. Then turning, he said, how much greater it was to attain true manhood for the betterment of a brother. Citing the five candidates for president, he said, according to their intellect and beliefs, they had at heart the good of mankind and wished to do something to round out a perfect life.

The next speaker was "Brother" George S. Tiffany, who is now serving his sixth term as leader of this class, and in his opening remarks, stated that they were all brothers in this class Addressing his speech to the "fellow citizens," he remarked facetiously that this was the first time he had ever addressed the company in this way, as Michigan is now for Equal Suffrage, and he was quite bewildered at first how to express himself—in fact each and every speaker gave the ladies a hit—but, there were no ladies on the program!

He spoke at length of the unity and sweet spirit that had always prevailed in this class, and never once had there been an unkind feeling in their diverse discussions. Mr. Tiffany is loved by every member of the class and is a grand old man for this grand leadership.

Rev. W. M. Ward, the last speaker on the program, a former pastor and the organizer of the class, said, "I am the gladdest fellow here, and being with you awakens so many memories." He related many humorous and pathetical things that occurred during his pastorate here. He gave an idea of his life among the Cornish people in the Northern peninsula and how one dear brother prayed that he "might have gall given him to down the whole bunch." Then, following in the footsteps of Brother Hewitt, he took up the subject of "Man, his Dignity, Mentality and Ideals." He appealed to the new manhood as the man of destiny, and that he was to be the flower of manhood, that he must be big enough to be—a man.

The toastmaster then seemed to play a joke on his brothers, Weld and Hartzog. They had been sitting complacent and happy, over-eating and over-drinking, with the thought that they would not have to use their voices, when like a thunderbolt out of a clear sky, they were called up. The Rev. Weld seemed very timid and frightened and felt like the big drum when it had one big long "bang" Everyone was glad to hear them both with their happy humor and good natured hits at each other, but underlying the humor was that sweet spirit of unity displayed, from those that are striving to reach the highest plane of Christian manhood,

The orchestra, consisting of Messrs. Skinner, Heidenrich, Rogers and West, with Mrs. Hodges at the piano, gave three selections which were much enjoyed by all present. The evening closed by singing "Blest Be the Tie That Binds."

Mrs. Harry Gridley, of Adrian, has been in town this week caring for her father, John R. Fowler, during the absence of Mrs. J. J. Orr in Detroit.

The presention of "Faust" at the Opera House on Wednesday evening was very fine and the electrical effects were wonderful. Each character was well sustained, Faust was the old doctor in his gloomy labratory and then the youngman seeking after the pleasures of the world under the iron hand of Mephisto was a striking character, Marguerite more sinned against them sinning was a pathetic figure and Mephisto though without his hoofs and horns destroyed his devilish nature in every action.

MURPHY—GIBSON.

A very quiet wedding occurred Thursday evening at the home of the bride's parents, Mr. and Mrs. Thomas Murphy, when their daughter, Florence, was united in marriage to Alexander Gibson of Macon, only the members of the two families being present.

Rev. DeSpelder pronounced the words that made them one. The bride was charming in a gown of tan chairmeuse and was unattended The house was beautifully decorated in green. After refreshments were served, the newly wedded ones slipped quietly away on a short wedding trip, after which they will return to Tecumseh and remain until January, then they will go to Walkerville, Ont., where Mr. Gibson will work for the Anthony Fence Co.

The bride is well known in Tecumseh and for a number of years has taught school. The best wishes of al will follow them wherever they go

WIT AND WISDOM

The meeting of the Wit and Wisdom Club was held at the home of Mr. and Mrs. J. H. Smith on Thursday evening with a fine attendance. Miss Marion Rosacrans gave selections of instrumental music, Rev. Hartzog gave a talk on the Mounds of Ohio from a personal knowledge of the same and Supt. McAlpine gave a fine talk on Mounds in various countries and of different kinds.

J. H. Smith presented twelve questions, relative to the good of our town taking a vote on each. F. R. Fenn favored the company with two delightful vocal solos. The evening closed with refreshments and a social good time

T. B. A.

The ladies of the T. B. A. held a very pleasant meeting Thursday evening at the home of Mrs. Nellie Ousterhout. A program was given, the history of the organization being presented by Mrs. Hanley, as this was the 13th anniversary of the order. A social hour was spent and a sum of money was raised for the benefit of Mrs. Eliza Bangs who lately sustained such a serious accident.

ST. PETERS CHURCH

The ladies of the St. Peters church had a very fine time at their dinner Wednesday evening and the White Elephant was a drawing card. An old fashion boiled dinner was served and was much ejoyed by all.

POPULAR YOUNG MARRIED COUPLE HONORED BY SHOWER

The recently married couple, Mr. and Mrs Henry Smith (the bride was formerly Miss Nettie Kaiser) having many friends in Tecumseh among which were the Pythian Sisters, were honored with a shower Wednesday evening at the Pythian Temple.

Refreshments were served at the close of the lodge, after which they adjourned to the Temple where with great merriment Mr. Ziehr seated the couple in chairs at the end of the room, when, turning his back upon them and appearing utterly oblivious of there existance, he proceeded to give a desseration of a young couple, members of the lodge, who had long had matrimony as an objective point and did not wish to share their happiness and also thinking a surprise good to jar their friends with, proceeded one bright day to cross the "river of Matrimony" and incidently the river of Detroit, to accomplish, this happiness.

Mr. Ziehr said he was aware that they had pledged their parents on bended knee not to divulge their secret until they were ready to announce it.

The surprise was sprung Nov. 1 by the announcement of her mother Mrs. Hattie Kaiser, of the marriage. Two can play this game, and now a surprise was ready for them. A large hamper filled with gifts closely wrapped was brought in and they were requested to guess what was in each package, which caused much merriment. Dancing and cards were indulged in and good wishes for their future was given them by all. Mrs. Smith has been a clerk in our stores for a number of years and was considered one of the best. Mr. Smith has always lived in Tecumseh and is a favorite member of the Young Men's Club and belongs to the Electric lighting force of Tecumseh. The best wishes of all go out to them at this time.

BIRTHDAY PARTY.

Tuesday was Mrs. Hattie Minor's eightieth birthday and some of her friends met and surprised her, taking their suppers with them. She received a number of nice gifts and when the ladies left they promised Mrs. Minor if she lived until Nov. 12, 1913 they would all come again.

MISCELLANEOUS SHOWER

About 30 of the friends of Mr. and Mrs. George Witherell met at their home Monday evening and gave them a fine shower towards their new beginning as housekeepers. Beautiful gifts of silver and china and a host of other articles along the line of kitchen furnishing made up the list.

Each one came laden with good things for a picnic luncheon and a very pleasant evening was the general verdict.

The Great Majestic Range

Thanksgiving will soon be here and you should have a good range to get the big dinner on. If you need a range and have never seen the Majestic, don't buy before coming here and looking at our stock. The Majestic, made of malleable and charcoal iron, will outwear any range sold. It has 5 patent features not found any other ranges. It has heavier fire back than other ranges which makes it a coal saver. We can bake with a paper stove pipe, showing that the heat is in the range and not going up the pipe. They cost a little more at first but are cheaper in the long run, as the Majestic will be good years after others are thrown in the junk.

TAKE IT IN TIME

Just as Scores of Tecumseh People Have.

Waiting doesn't pay.
If you neglect kidney backache, Urinary troubles often follow.
Doan's Kidney Pills are for kidney backache, and for other kidney ills. Tecumseh citizens endorse them.

J. B. Smith, E. Chicago St., Tecumseh, Mich., says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago. I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs. Peter Holan, 11501 Buckeye Road S. E., Cleveland, O., had a little son with a bad case of whooping cough. She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh.

Porto Rico's New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and $1.00. Trial bottle free. Guaranteed by C. A. Wright & Son.

BOYS KILLED AND MAIMED BY BLAST

Cigaret Causes Explosion that Ends Their Lives.

Spark Believed to Have Ignited Gasoline in a Tank on Which They Were Sitting.

Detroit, Mich., Nov. 9. — One boy was instantly killed and four so seriously injured that they will die or be maimed for life, when a tank car which had just been emptied of gasoline exploded in Hamtramck. It is said gas from the tank was ignited by a lighted cigarette.

The boys were all from nine to fourteen years old, and had been playing "hookey" from school.

Joe Starzyk, thirteen years old, is dead. Thrown fifty feet through the air, a flaming mass, he landed on a box car with sufficient force to shatter almost every bone in his body.

Joe Tomaszewsik, fourteen years old, was sent to St. Mary's hospital. The skin was burned from his hands, face and scalp and all of his clothes were burned off. If he lives it is expected that he may lose the use of both eyes.

Anthony Chakrovoke, eleven years old, was burned about the face and left thigh. He is suffering from physical shock. He may lose the use of one eye.

Frank and Joseph Sochowicz, thirteen and eleven years old, were slightly burned.

Willie Chachowisk, nine years old, a student at the Holbrook school, Hamtramck, who had "skipped" to play on the railroad tracks, was not injured.

Sylvester Zytowsk, thirteen years old, stood two car lengths away. He was uninjured. Ed. Barnanowski, ten years old, completed the party.

EDITOR NEWETT BOUND OVER

Michigan Man Sued by Roosevelt Furnishes Bond.

Marquette, Mich., Nov. 12.—George A. Newett, owner and editor of the Iron Ore, a weekly newspaper published at Ishpeming, who is charged with criminal libel by Colonel Roosevelt, was arraigned in the court of Justice Samuel Byrne here.

He waived examination and was bound over to the December term of the circuit court in bonds of $500, which at once were furnished. The proceedings were a mere formality.

FOUR HUNTERS ARE DEAD

Two Drown, and Two Others Die of Shot Wounds in Michigan.

Detroit, Mich., Nov. 13.—Four hunting fatalities are the toll of Michigan in one day.

Carl Nelson and George Fehrnbach were drowned near Menominee. Calvin J. Scott of Allegan was mistaken for a deer and killed by O. P. Priest, also of Allegan, near Iron Mountain, and Carl Barnhart was killed when his shotgun was accidentally discharged near Three Rivers.

Train Derailed Crossing River.

Grand Rapids, Mich., Nov. 11.—Running forty miles an hour, Pere Marquette train No. 33, south-bound, was derailed and narrowly missed being thrown into Grand river while crossing the trestle at Lowell, twenty-two miles east of here. The train was late and running rapidly to make up time. As the engine touched the first rail on the bridge it either spread or broke, permitting the train to run fifty feet on the ties. Fortunately all the coaches remained upright.

CANALEJAS IS KILLED

Spanish Premier Assassinated by an Anarchist.

The Spanish premier, Jose Canalejas, was assassinated at Madrid, Spain.

The assassin was captured by the police. He gave his name as Manuel Pardinas Serrato Martin, and said he was a native of El Grado, in the province of Huesca. He is twenty-eight years old, and is believed to be an anarchist. Later he committed suicide.

Martin fired four shots at Premier Canalejas as he was entering the ministry of the interior to attend a cabinet meeting. Two of the shots struck the statesman behind the right ear, and he fell dead on the spot.

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly from the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal root, and sold by druggists for the past forty years under the name of

Doctor Pierce's Golden Medical Discovery,

gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alterative extract which does *not* shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease. Sold by druggists everywhere. Address World's Dispensary Medical Association, Buffalo, N. Y.

MR. CHAS. FAERBER, JR., of 832 Woodlawn Ave., Philadelphia, Pa., writes: "I was troubled with my stomach for almost three years. Tried several doctors and most everything anybody recommended to me, but kept getting worse and honestly did not care to live as I was never well even though, at times, I had no pain. My symptoms were as follows: Always tired, my whole body in a throb, belching of gas, pain and soreness in the stomach, vomiting, constipation, could not tell what to eat or what would agree with me, and was melancholy. But after taking Dr. Pierce's Golden Medical Discovery with the 'Pleasant Pellets' it has made me a well man which is something to live for."

CORRESPONDENCE

TIPTON

There was a special religious and educational service at the Congregational church Sunday. Five schools had exhibits there of things which the children had made. These included drawings, maps, booklets, sewing, mechanical tops, weaving, crochet work, wood carving and agriculture. The schools were the Center, Excelsior, Grub, Pentecost and the Pink. Mr. J. W. Gray of Adrian, the Superintendent of Schools, was there and gave the morning address which was very good and appreciated by a large congregation. The church was full and rows of chairs had to be put in the aisles.

On account of the size of the display, the judges were unable to decide which school won the prize, Sunday. This will probably be announced soon. A prize of two dollars will be given the best exhibit and one dollar to each of the other schools. Each exhibit was trimmed with the schools colors the Excelsior with white cheese cloth and Myrtle, the Pentecost with red and white banners, and the Pink with bands of twisted crepe paper etc.

The children also took part in the service, Miss Ellen Moore, of the Center School, recited the twenty-third psalm, for the first scriptual selection Wade VanValkenburg, of the Excelsior school, repeated the Lord's prayer and Dorothy Taylor recited, the closing prayer. At the beginning of the service, Mr. Gray called the names of the schools, and they each responded by repeating a passage of scripture. Just before closing it was voted to give Rev. Hinzman a rising vote of thanks for his work in getting up the exhibit, which was accordingly done. It was a very pretty and impressive service.

After a heavy meal, take a couple of Doan's Regulets, and give your stomach, liver and bowels the help they will need. Regulets bring easy, regular passages of the bowels.

'TELL AGNES-NOTHING'

But "Telling" Agnes Proved Most Delightful.

BY DOROTHY DOUGLAS.

"Tell Agnes!"

It seemed to John Emery that the only words he had heard during the last fortnight were those two—"Tell Agnes." He had come to believe that his trip to America was planned merely that he might convey endless messages from one sister to the other.

On the contrary, he was going to New York solely on business, and it was more or less of a bore to have to look up all the sisters and uncles and aunts who had gone to America.

It was gross exaggeration on Emery's part to imagine that he had to look up all the relatives who had left the home land. Because he had heard the words "Tell Agnes" so many times he had come to look upon Agnes as a tyranny. But because Agnes was the sister of the girl whom Emery intended to propose to upon his return from America she had to be endured. She had left the home land some months before John Emery had found his way into the friendship of the Doan family.

"There is only one more message I have for Agnes," Mary Doan told him the night before his departure, "and I am telling you because you will see her before my letter reaches her." Mary blushed shyly, and John Emery felt a strange drop in the temperature.

"Tell Agnes that—I am going to marry Billy Wade in September and that I want her to be my bridesmaid."

John Emery never could remember just how he got out of the house and away from Mary Doan's happy blushing face.

"Tell Agnes—nothing!" muttered Emery, as he stepped off the boat on the New York side of the Atlantic. "I will not even look her up now."

"Oh—are you Mr. John Emery?" asked a feminine voice at his side.

Emery looked up from the steamer trunk he had been opening for the customs man.

"Oh, I say!" the Englishman caught his breath. After acknowledging his right to the name Emery, he raised a belated hand to his tweed cap.

"Certainly," Mary Smiled at Him.

"I am Agnes Doan," the girl continued, and Emery knew then why he had found her so beautiful.

"She is so like Mary," he said half under his breath, while he took the hand Agnes extended.

"Mary cabled me to meet you," Agnes was saying, "so that you would not get lost." She laughed and Emery looked up at the sound.

"Just fancy your knowing me," he said with the tinkle of her laugh ringing in his ears.

"Sister sent me a coaching picture taken down at Ilfracombe, and it is so good a likeness that I had no difficulty. Mary tries to keep me from being homesick by telling me about the jolly times—" Her voice trailed off and Emery felt his first emotion for Mary's sister.

"We will go and have a cup of tea," he said quickly, "if you will be good enough to show me about. I have many things to 'tell Agnes,'" he told her, using the familiar words. "I'm sorry," he apologized, noting her blush, "I was quoting your sister."

"I would forgive you anything since you have invited me to have a cup of tea. Fancy," she said in a voice that was not quite steady, "I have not been asked to have a cup of tea since I left home."

"By Jove, that is rough! Isn't it proper for a chap to take a girl to tea here?" asked Emery.

"Ah, perfectly," laughed Agnes, "but it is not tea in New York."

"I see. Then if you've nothing else to do we will have a cup of tea every afternoon that I am here." Emery hardly realized that he awaited an answer to the words. He found Agnes blushing and for the third time during their short acquaintance his heart tripped a beat.

"That will depend," said Agnes, "upon how long you will be staying here."

It suddenly occurred to Emery that it was not going to be a bore to convey messages to Agnes. In fact he felt that telling Agnes was going to prove a most delightful change from business.

When they were seated at a small table in one of the little tea rooms which he learned later was one of many in New York, Emery leaned back in contentment. Agnes' fingers lingered over the teapot and seemed to caress it. Emery found himself slightly jealous of the cups and saucers, then realized that he was foolish, considering the fact that he was in love with the sister of Agnes.

"Is my sister Mary as beautiful as ever?" he heard her asking.

"As beautiful as a wild rose." Emery found that he could speak without bitterness of Mary's beauty. "She told me to tell you that—" he floundered for a second, "that she has made Billy Wade a happy fellow. They are to be married in September, and Mary wants you to be her bridesmaid." Emery breathed more freely now that the hardest of the messages had been given.

"Oh, I am glad!" cried Agnes, then stopped short. Distress was evident in her big, expressive eyes.

"It does not in the least matter," Emery comforted her; "it is no doubt best that Mary did not love me." He looked at Agnes in so direct a manner that the color mounted her cheeks for the third time.

"Also," went on Emery, conscious that his eyes had betrayed his innermost thoughts and desiring to put her at ease, "Mary wanted you to know that there are six pink roses peeping into your casement window, and that she has had your room dressed in pink rose chintz. Lady Maud has a family of seven kittens, and Mike has disgraced himself by going after the Stilwell chickens. The little robin still comes to the window for crumbs and the thrush sings in the apple tree at twilight." Emery drew his breath sharply when he realized that Agnes had brushed her hand swiftly across her eyes.

"Don't!" Agnes put in without turning her eyes toward him. "You make me want to go home. I suppose Mary is still using the old brown teapot?" she went on in an emotional voice.

It was Emery's eyes now that sought space.

"Yes," he said, for the moment unconscious of Agnes. "Mary is pouring tea from the brown teapot. But I suppose it is Billy Wade who is watching her." His glance traveled about until it rested on the slim fingers that had unconsciously fallen on his teacup. He looked at them for a long moment, and while he looked a great change swept over his vision.

"You have not told me whether or not you will take tea with me every day," he told Agnes suddenly.

"Perhaps you would get tired looking at the same hands," she laughingly returned.

"No," he said, "I will not. Will you come?"

"Certainly," Agnes smiled across the table at him. "I will be delighted."

When some six weeks later John Emery wrote a letter to Mary Doan and received an answer from her, there were two familiar words in it. "Tell Agnes," Mary wrote, "that I think you are well worth loving. I wanted her to be my bridesmaid, but a matron of honor is perhaps more dignified."

WEARING SNAKE SKIN GOWNS

Pythons and Anacondas Being Slaughtered to Provide Dresses for Women.

For once fashion has taken a direction which promises to be of general benefit to humanity. Womankind, or at least such as have access to the longest purses, are shortly to use snake skin for garments for quite everyday wear. One can scarcely imagine a more poetic revenge by the daughters of Eve on their old enemy, the serpent tempter.

Whether the new robes will prove as artistic as is expected remains to be seen. They will certainly lend themselves in skillful hands to the emphasizing of whatever graces there may be in the person of the wearer, anw if the fashion thins out the number of these dangerous reptiles all over the world, humanity will owe a debt of gratitude to the inventor of the new modes.

We may yet come to see python skin sold by the yard over the dry goods counters, for the python is a big beast, occasionally reaching, when full grown, 30 feet in length and a foot or more in diameter. Thus, apparently, a single skin might supply enough stuff to make an ordinary gown on modern lines. What the cost will be one cannot yet say. It will obviously be high, for serpents of the largest size are not to be met with every day.

The market price of skins, in view of the coming demand, has already gone up to a very high figure, and in Borneo, Sumatra and all over the Malay archipelago native hunters are scouring the wilderness, tempted by the offers of dealers in Paris and Vienna, and killing and capturing every big snake they meet with.

Properly prepared, snake skin is both soft and durable. The anaconda is already "bespoke" for the latest thing in motor coats, and thus used makes an attractive novelty. Made up in delicate shades of cream color and brown, and lined with satin to match, the material forms most attractive garments, which are especially desirable by reason of their lightness. They weigh almost nothing at all and, it is reported, "never wear out."

Four fair sized skins make a touring coat, but there is some trouble in matching them perfectly.

FEARED SAVAGERY OF MAN

Wild Creatures in Panic When Human Beings Turned Loose Their Destructive Weapons.

During the Civil War a correspondent of the Cincinnati Commercial wrote a book entitled, "Rosecrans' Campaign with the Fourteenth Army Corps." As a record of personal observation, set down while the stirring events were still fresh in the writer's memory, the book has extraordinary interest.

Among other engagements, the author tells the story of the Battle of Murfreesboro or Stone River, which was fought in a wooded and thinly settled country. The wild creatures of the place were frightened by the storm of shot and the roar of the great guns—a fact that leads the author to describe one of the most curious spectacles ever seen upon a battle field.

The men of the Fourteenth Corps were waiting behind a crest, when a brace of frantic wild turkeys, so paralyzed with fright that they were incapable of dying, ran between the lines and tried to hide among the men.

But the frenzy among the turkeys was not so touching as the exquisite fright of the smaller birds and rabbits. When the roar of battle rushed through the cedar thickets, flocks of birds fluttered and circled above the field in a state of utter bewilderment, and scores of rabbits fled for protection to our men lying down in line on the left, nestled under their coats and crept under their legs in utter distraction. They hopped over the field like toads, as tame as household pets. Many officers witnessed the spectacle, and all said it was unique in their experience.—Youth's Companion.

Special Juries for Rhodesia.

As the result of the investigations of the Select Committee, in Salisbury, Rhodesia, a new Juries Ordinance has been framed, providing for the trial of certain criminal cases, involving Europeans and natives, before a judge and special jury numbering five, of whom not less than four shall concur in the verdict. The jury will be selected from a special list designated by the administrator and approved by the legislative council.

CANAL FINISHED BY JULY 1, 1913

Such Is Prediction Made by Chief Engineer Goethals.

PANAMA DITCH DONE ON TIME

Delays in Delivery of Material and Machinery Retard Somewhat—Earth Slides at Culebra Cut Not Very Serious.

Washington, Nov. 18. — Practical completion of the Panama canal by July 1, 1913, is assured, according to the annual report of Colonel George W. Goethals, chief engineer of the Panama canal. On that date, in spite of several slides in Culebra cut during the last year, the excavation in the cut will be completed and by Aug. 1, 1913, the spillway at Gatun dam will be finished. The concrete work about the locks and dredging of channels to the sea will be finished between Jan. 1, 1913 and July 1.

Canal Done on Schedule Time.

Delays in delivery of material and machinery for the gates of the locks have retarded their construction somewhat, though Colonel Goethals believes everything will be done on schedule time in spite of these handicaps.

Sensational importance, not warranted by the facts, has been given to the slides in the Culebra cut during the last year according to Colonel Goethals. While the slides have increased by 3,595,000 cubic yards the amount of material to be removed from the cut this fact will not retard the completion of the excavation or the cost of completing the cut, Colonel Goethals reports.

34,000 Men Work on Canal.

More than 34,000 men are now employed on the canal work. The natural decrease in employes accompanying the lessening of construction on the canal was offset by the inauguration of the work on the fortifications and the docks and piers for the Panama railroad and the general terminal facilities. Of the employes, 5,101 were Americans.

It is recommended by Colonel Goethals that the economy and efficiency commission created by President Taft install a new system of accounting to go into operation when the construction of the canal ends and the operation and maintenance begin.

NURSE WEDS HER PATIENT

Young Kenosha Man Wins Dixon Girl After Illness.

Indianapolis, Ind., Nov. 18.—Cupid used a clinical thermometer instead of an arrow when he shot at the heart of John Ritchie Purnell, son of William H. Purnell, cashier of the First National bank of Kenosha. The young man, who came of age a month ago, has revealed that he was married in Indianapolis, Ind., on Oct. 18 to Miss Hazel Baird, daughter of Mr. and Mrs. Oliver Lee Baird of Dixon, Ill.

It was while Miss Baird, who was a graduate nurse, was seeing him through an attack of typhoid fever in his home in Kenosha that the young man fell in love with her. That was six months ago.

On his recovery Mr. Purnell went to Indianapolis to sell automobiles, and the day after he attained his majority he persuaded Miss Baird to become his bride and move into the apartment he had already furnished for her.

Jamaica Fruit Destroyed.

Kingston, Jamaica, Nov. 18.—There have been almost unprecedented rains here continuously for the past nine days and they are still continuing. There was a five days norther and high southeast winds, both of which destroyed about 25 per cent of the fruit crop.

TAFT AND BARNES HOLD CONFERENCE

Both Hopeful of Future of Republican Party.

DISCUSS CANDIDATE FOR 1916

Talk Is Held at Home of President's Brother in New York and Covers General Situation and Some Details.

New York, Nov. 18.—President Taft and State Chairman William Barnes, Jr., had a long and hopeful talk regarding the future of the Republican party. The discussion included speculation as to the candidate for the presidency in 1916 and planning for party reorganization, in which Mr. Taft will take part, after March 4, 1913.

Conference at H. W. Taft's Home.

The conference was held at the home of Henry W. Taft, where the president had luncheon. Mr. Barnes later said:

"We discussed the general situation and referred to certain plans that are being laid to make the Republican party stronger than ever. The candidacy for 1916 was touched upon, of course, but that is a long time ahead."

Being asked if Mr. Taft will be active in the reorganization of the party when he is no longer president, Mr. Barnes said:

Republicans to Fight On.

"Well, I suppose he will. The president is a Republican, first, last and all the time, and every good Republican is working to a common end. They are fighting for principle and the fight will go on until we carry it through and put it into effect. The principle is safeguarding the constitution and all the Republican party stands for—true popular rule."

HOLDS FARMER RESPONSIBLE

Finds that Auto Driver Knocked Man Under Train Wheels.

Marion, Ind., Nov. 18. — Dr. V. V. Cameron, coroner of Grant county, returned his verdict in the matter of the death of William Harvey, a railway employe who was killed beneath the wheels of a Clover Leaf passenger train in this city a few days ago, and his finding is that James N. Gibson, a prominent Grant county farmer, should be held responsible for Harvey's death.

It was a peculiar accident that resulted in Harvey's death. He was standing on the street within a few feet of the railway track waiting for a passenger train to pass. Gibson, in an automobile, was driving rapidly toward the railroad crossing and it is alleged he did not heed the warning of the street flagman.

Seeing the danger before him, Gibson, it was said, steered his car to the side of the street to avoid a collision with the train, and in doing so struck Harvey in the back and the latter was thrown under the wheels of the train. The case will be investigated by the prosecuting attorney.

OFFICE SEEKER KILLS WIFE

Ohioan Thought Crazed by Defeat, Attempts Suicide.

Mount Vernon, O., Nov. 18. — Believed to be insane as a result of his defeat at the May primaries for the nomination for county treasurer, William B. Magill, a school teacher of this city, shot and killed his wife with a shotgun while she was still asleep and then walked into an adjoining room and attempted to commit suicide by turning the gun upon himself.

Mrs. Magill's head was nearly torn off. Magill probably will die.

WRITES FINAL MESSAGE

Deneen to Make Recommendations to Legislature.

Will Discuss Various Reforms Which Eight Years' Administration Have Shown Necessary.

Springfield, Ill., Nov. 18.—Within a few days Governor Deneen will start work on a message which in accordance with a constitutional requirement he will send to the legislature upon his retirement from office. This message will go to the legislature simultaneously with one from Governor-Elect Dunne.

Governor Deneen will make recommendations for various reforms in the departmental work of the state. In accordance with a precedent set by former governors he will avoid a discussion of the issues of the recent campaign. Propositions which figured in the campaign arguments presumably will occupy a prominent place in the message of the incoming governor. There will be little occasion for any controversy between the present and newly elected governors in their respective messages.

Some of the former governors have simply passed on to the legislature reports and recommendations made by heads of the various departments. Governor Deneen intends to embody in his message the results of his personal observations as well as the recommendations of his department heads, in which he concurs. Under the constitution all state officers must submit reports to the governor ten days before the convening of the legislature in regular session.

Governor Deneen is finding that he has an immense job on his hands in sorting out the personal and official files of his office. He must leave behind him all official papers. During the eight years of his administration he has accumulated 145 boxes of personal papers. His secretaries have already begun to sort out these documents.

The inauguration of Governor-Elect Dunne will take place on Monday, Jan. 13.

NEWCASTLE AFTER PLANT

Commercial Club Mails Proposal to Van Camp Packing Company.

Newcastle, Ind., Nov. 18.—The Newcastle Commercial club, at a special meeting here, framed a proposition to the Van Camp Packing company of Indianapolis to erect its new plant in Newcastle.

The commercial organization has made an unusually liberal proposition and has the backing of three-fourths of the farmers of Henry county, who voiced their approval by telephone before the proposition was mailed.

Dynamite Explosion Kills Five.

Westchester, Pa., Nov. 18.—Five workmen were killed by an explosion of dynamite near here in one of the quarries of the General Crushed Stone company. A laborer was carrying a box of the explosive when he stumbled and the box dropped from his hands.

Actor George Ober Dies.

Yonkers, N. Y., Nov. 18. — George Ober, an actor and producer of outdoor plays, died at his home in Hastings-on-the-Hudson after a week's illness of pneumonia.

Horses Smother in Oats.

Brookins, S. D., Nov. 18.—Five horses were smothered in an avalanche of oats from the bursting of an overhead bin on the farm of John Sloan, near here.

Former Governor Larrabee Dead.

Clermont, Ia., Nov. 18.—Former Governor William Larrabee is dead at his home near here.

POST CARDS TELL OF BOYS' MURDER

Mysterious Case of Homicidal Mania in the East.

JEKYLL AND HYDE RECALLED

Maniac, Who Says He "Has Too Much Money," Confesses Killing Three Boys and Hints That There Are Others.

Buffalo, N. Y., Nov. 18.—Confession of at least three mruders and admission that there are "still more" is the startling disclosure contained in postal cards from a modern "Dr. Jekyll and Mr. Hyde," the murderer of six-year-old Joseph Josephs, received by the police and made public.

The murder of the Josephs boy, whose entire body in badly decomposed fragments was found in a cesspool near his home in Lackawanna, N. Y., after a search of more than a year, the police believe to be only one of a long series of similar crimes committed throughout the country by the man, who, according to his own confession, has an irresistible mania for killing boys.

Find Body from Card.

The gruesome discovery of the Josephs boy's body was made by following the minute instructions contained in the cards.

Young Josephs disappeared on the afternoon of Oct. 12, 1911. His father, George Josephs, a merchant of Lackawanna, insisted the boy had been kidnaped, and a country-wide search was instituted. From time to time the father received anonymous letters warning him to discontinue the search under threat his son would be murdered. Latest developments indicate the murderer took this means of creating the belief the boy still was alive.

Admits Three Murders.

In one postal card, mailed from Boston, the unknown writer speaks of murdering a boy in Central Park, New York. It reads:

"Wednesday night, Dec. 10, 1902, I enticed Michael Ricao Kruck, a newsboy, into the park opposite the entrance to the arsenal police station. I strangled him and just escaped the officer who found him. Three times have I taken life, twelve times have I tried, and cannot help it."

Records in the coroner's office in New York bear out the text of the postal card on the strangling of the newsboy.

Another unsigned card dated Boston, Nov. 9, 1912, and written apparently by the same person, says the writer, "unfortunately, had too much money," and that he was a prominent fraternity man of a high degree, "honored and respected."

Says There Are Others.

"My son," it continues, "is married and happy. Can I under the circumstances give myself up? I can, of course, but there are still more murders I have not told you. Shall I come?"

The final postcard received, postmarked Boston, Sept. 11, 1912, was addressed to Superintendent Regan of the Buffalo police department. It read:

"I am sick of trying to fool myself. I have a homicidal mania. I killed Joey Josephs of Lackawanna, N. Y. I strangled him as I did others. Please advertise the fact. Post it or write for the information. Come to —" Ink smudges make the balance of the card illegible.

Signs "R. Dennison."

The last card, dated New York, Nov. 12, 1912, and signed "R. Dennison," stated the writer would call at the Buffalo police office at 11 a. m. on the 13th. The writer did not keep the appointment.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

The story of a good deed is pretty sure to get out some time but it doesn't travel around as fast as a wild rumor.

Mrs Emma Maier, 627 N. 7th St. Springfield, Ill., says her kidney trouble resulted from an operation: "From then until I used Foley Kidney Pills I did not know what a well day was. Then my backache left me, that tired dragged down feeling was gone, I slept soundly and awoke refreshed. I had no more headache or dizzy spells." Safe and sure. Try them. For sale by all Druggists of Tecumseh.

Chestnuts are now selling at five cents a glass, live weight.

James Therio, Iron River, Mich., says of Foley's Honey and Tar Compound: "This winter both my children and I was troubled with bad coughs. We used Foley's Honey and Tar Compound and it promptly cured us. I can recommend it as a good cough and cold cure." Contains no opiates For sale by all Druggists of Tecumseh.

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Altson, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at C. A. Wright & Son's

The girl with freckles usually has too much common sense to worry about them.

"TELLS THE WHOLE STORY"

To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat chest and lungs. Stops la grippe coughs and has a soothing effect. Remember the name, Foley's Honey and Tar Compound, accept no substitues. For sale by all druggists of Tecumseh.

TCHATALDJA ONCE MORE UNDER FIRE

Sound of Artillery Firing Borne to Constantinople.

NAZIM PASHA IN BRAVE STAND

Turkish Commander Still Seeking to Keep Invading Bulgars Out of Ottoman Capital — Little News Obtainable.

Constantinople Nov. 18.—On the teeth of a west wind coming down the valleys from the Tchataldja forts is borne to the ears of those in the plague-stricken city the sound of far away artillery firing. And the people waiting here with despair in their hearts know that once again the Bulgars are attacking the last defense of the Turk in Europe.

Nazim Pasha's Last Stand.

Up along the winding ways of the railroad, across the countryside where hangs the smoke of burning villages, at the end of the desolate stretches where slow wagon trains filed with the wounded move, Nazim Pasha with his back to the capital is making one more stubborn effort to keep the Bulgars out of Constantinople. The house tops of the capital are black with people straining every ear to the far-off booming. The city is tense with excitement. The frequency of the reports suggests the size of the engagement that is being fought out at Tchataldja.

Little News from the Front.

There comes but little news back to the waiters in the capital city as to how it fares with their general at the front. One dispatch telling that the Turks, attacked on their left flank, threw back the invaders caused momentary joy, but the attitude of the people in general is apathetic and depressed.

GUN MEN'S CASE NEAR END

Lawyers Sum Up for Respective Sides —Justice's Charge Tuesday.

New York, Nov. 18.—Charles G. F. Wahle, chief counsel for "Gyp the Blood," "Lefty Louie," "Whitey Lewis" and "Dago Frank," the gangsters on trial for the actual killing of Herman Rosenthal, addressed the jury for three hours, in summing up the defense. Assistant District Attorney Frank Moss spoke for about the same length of time for the prosecution.

As Justice Goff's charge to the jury probably will be lengthy, the justice will not begin his charge until Tuesday. It is the general belief of the lawyers and laymen who have followed the trial closely that the jury will not require much time to reach a verdict.

OIL FOUND NEAR PANAMA

Field of Twenty Square Miles and Product of Superior Quality.

Panama, Nov. 18.—Mr. King of Seattle, Wash., returned to this city from the interior, and he brings flattering reports of the discovery of oil 178 miles from Panama City, in the region of the Gulf of Darien.

The oil is reported to be infinitely superior to the oil of California. There are twenty square miles of oil beds. Three companies are negotiating with the government for concessions, including the Standard Oil, which has several representatives caring for its interests.

BANDITS TAKEN AFTER FIGHT

Men Who Used Auto In Looting Kansas Towns Resist Arrest.

Iola, Kan., Nov. 18. — The three bandits who impressed a motor car, a chauffeur and a mechanician and went on a raid of farmhouses and villages in this vicinity, were captured by a posse near here and brought to the Iola jail. The men gave their names as Richard Victor, who says he worked in the railroad shops at Argentine, Kan.; W. J. VanBibber and John McCauley.

Before the capture the bandits and the members of the posse exchanged 200 shots.

"BORROWED BABY" ON STRIKE

Peace Restored at Joliet Show When Pay Is Increased.

Joliet, Ill., Nov. 18.—Dinney O'Connell, Jr., seven months old, went on strike. Dinney was employed through his mother to play the role of the "Borrowed Baby" in a play at a local theater. The salary was to be $1 a performance. Dinney proved a big hit.

Before the evening performance his mother declared a walgout. The manager then promised 50 cents more and a bottle of milk each performance.

Oldfield Lowers Mile Record.

San Francisco, Nov. 18.—At Tanforen track, Barney Oldfield twice reduced his previous mile record of 53 seconds. In his first attempt he made a mile in 52 and in the second trial he lowered the time to 50 3-5 seconds.

Obituary

MEMOIR.

Mrs. Pocklington, whose maiden name was Julia Allen was born in the state of New York, Feb. 5th, 1821; and died Nov. 4th 1912, aged 91 years and 9 months. She came to Ridgeway in her young womanhood and was married Oct 29th 1848 to John Pocklington, who passed away from this earth life, Dec. 7 1907. To this union were born seven children, six of whom are living: Eliza, Cornelius, Charles, Mary, Henry and Harriet all of whom were born in Ridgeway and whose homes are Adrian, Holloway and Ridgeway In the home which she so dearly loved, her presence was felt in her devotion and self sacrifice. She was of a quiet and unassuming nature yet her personality drew others to her and she had many friends and was loved by all. She was ever unselfish in her disposition and she ever was looking for a chance to give something to others around her, this was one of her chief pleasures all through life and down to the last, although feeble in body from her advanced age She had been a member of the Ridgeway M E Church for a good many years, although she had not been an attendant at church services for some years. She loved to read and have read to her, the Bible, and good sermons at any time and particularly on the Sabbath day. She ever had warm regard for the church and its interests. She had been failing in strength for some time and after a short illness, she peacefully fell asleep her death was caused by heart failure due to her extreme age.—The funeral services were held at the Ridgeway M. E. Church Nov. 6, 1912.

CARD OF THANKS

The children of Mrs. Julia Pocklington desire to thank all who so kindly assisted them and extended their sympathy at the time of her death and burial also for the floral offerings and music.

RESOLUTIONS OF RESPECT

WHEREAS the great Ruler of the Universe has, in His infinite wisdom, removed from our midst our worthy and esteemed sister Harlette Richart, and,

WHEREAS, It is but just that a fitting recognition of her virtue should be had, therefore be it,

RESOLVED, That the sudden removal of such a life, from among our midst leaves a vacancy and a shadow that will be deeply realized by all the members of our Hive.

RESOLVED, That with deep sympathy with the afflicted relatives of the deceased, we express an earnest hope that even so great a bereavement may be overruled for their highest good.

We request that the lodge charter be draped in mourning for a period of thirty days, and that a copy of these resolutions be furnished the family, and a copy be spread on the records of our Hive.

Called the Marriage Off.

Tears, many tears, have just ended a romance begun five years ago in London, England. The marriage of the couple was to have been celebrated the other day in St. Jerome's Catholic church, the Bronx, New York. The priest, who was to have officiated, was surprised when he was informed that there was not going to be any wedding. The reason was readily forthcoming from the bride-to-have been, who has a sense of humor and hails from County Claire. She stated that her fiance, with a distressed demeanor, had told her he had heard from his mother and that she had not ceased weeping since she heard he had resolved to marry. The girl furthermore heard that his aunt, with whom he lives, had wept day and night at the thought of her nephew as a married man. When her fiance sorrowfully told her that the friend who was to act as best man also had wept copiously at the thought of his becoming a Benedict the ire of the young woman was aroused. "Then they need cry no longer," she snapped, "for there is going to be no marriage."

John R. Nyland,

SPECIAL SERVICES.

The confirmation services at St. Peter's church Sunday afternoon was one of deep interest and was largely attended. Bishop Williams gave a most impressive sermon and his charge to the candidates was such as no one but Bishop Williams could give. He did not expect the impossible for we are human, but that through the gradual growth we might attain perfection.

Those in the class were Mr. and Mrs. Lavern Barrett, Mr. and Mrs. Will Barrett, John Mahaney and Lynn Hardenburg. Special music was given by the vested choir, and Miss Hazel Zimmerman, as soloist of the afternoon, sang in a most charming manner, her sympathetic voice touching every heart

MISS BEN O'LIEL.

A crowded house at the Presbyterian church Sunday evening greeted Miss Ben O'liel who gave a fine talk on "The Blood Covenant," bringing out many wonderful thoughts. A deep interest was shown by all who heard her The choir gave a special anthem and Mrs. Weld sang "I Have a Friend so Precious," as a closing solo. Miss Ben O'liel spoke Monday evening and will speak again tonight assisted by a number of young ladies in costume.

Master of Babel.

I once heard Prof. Paul Vinogradoff—the greatest magician of our time with a historical document—postpone for a fortnight or so some references to an old Scandinavian original source because he "did not at the moment know the language." It was a superstition with all who had the honor to sit at the feet of this inspiring and wonderful man that ten days was for him a generous allowance for the mastery of any live European language. For dead and oriental tongues we gave him an extra week.—Saturday Review.

Her Epigram.

Mrs. Percy V. Pennybacker, the new president of the General Federation of Women's Clubs, is noted for her epigrams.

During the San Francisco convention Mrs. Pennybacker, at a luncheon, said of a society beauty, whose thoughtless, rather than reckless, conduct had caused her to come a cropper:

"I pity the poor silly creature, but, really, her only moments of reflection are those she spends before her mirror."

Killed by Riding Into Wire.

Avon Smith, a young lad of Dinuba, Colo., rode against a barbed-wire which was stretched across a road and cut his throat from ear to ear. Young Smith was riding in the early twilight to the home of a neighbor, and took a road through an open field—one which he has traveled for several years—unaware that a wire had been stretched across the highway that afternoon to keep out teams. The wire was stretched taut and at just a height to strike him across the throat.

Women Draw Big Salaries.

There are said to be at least thirteen women in Boston receiving a salary of $10,000 a year. Several of them are members of the Business Women's club, which is the newest club in that city. Though organized less than a year ago, this club now numbers its members by hundreds. The object of the club is "to promote the common interest of women actively engaged in lines of work directly connecting them with the business life of the community."

Chautauqua Office.

The Chautauqua institution put a new emphasis on religious activities this year, and to further this purpose has created a new office, that of director of religious work. The Rev. Dr. Shailer Mathews, head of the divinity school of the University of Chicago, is to occupy the post.

Looked Like a Mermaid.

"There was a mermaid rumor at our hotel."

"Anything to it?"

"No; it was only a girl sitting on the beach in an extreme hobble gown."

Bags for Clothes.

To pack away clothes where one has not a chest for the purpose, there have been lately invented "moth bags" and "moth sheets." These bags are made to close air tight, and are large enough to hold automobile garments, ulsters or suits; and small sizes come for muffs and furs, says the New York Times. The "sheets" are used for packing rugs and curtains. No camphor need be used with them, for they are already prepared with tar and cedar, and there is also an odorless bag and sheet.

Dry Answer.

Woodrow Wilson, in an interview with a reporter at Seagirt, said with a smile: "Your questions about my campaign are premature. I must organize my thoughts before I answer them. You remind me of William the Conqueror's son Robert. Robert, you know, asked to be invested with the government of Normany in his father's lifetime. But to this demand William the Conqueror replied dryly: 'Is it not my custom to take off my clothes before I'm going to bed?'"

BANQUET.

Tecumseh Grange No. 166 Held Their Annual Harvest Home Meeting Friday, Nov. 15.

INTERESTING PROGRAM.

Tecumseh Grange No. 166 held their annual Harvest Home banquet on Friday evening, November 15, in the Grange Hall, with about 150 present. The members of the Grange are noted for their spirit of cordiality and hospitality, and each guest received a hearty welcome as they entered. It goes without saying that the tables were loaded with good things such as Grangers know so well how to prepare. In fact the banquet was so much enjoyed that it looked at one time as if it would occupy the whole evening and there would be no time left for the program. The tables were very handsomely decorated with chrysanthemums and green vines.

At a signal from the master of the Grange, John Boyce, Worthy Chaplain Snedicor gave the invocation and the banquet was served.

Master Boyce then took up the program and called upon Past Master Bramble to give the address of welcome. Mr. Bramble, who is a very forceful and earnest speaker and who is an enthusiastic and prominent Granger, after welcoming the guests, spoke at length on the great good the Grange is doing. Especially did he emphasize that all topics of the day are discussed in the Grange meetings. The slogan of these times seems to be for the betterment of manhood and womanhood.

A cornet solo by Lester Coller with Prof. McAlpine as accompanist was much enjoyed. Miss Albertine Boyce of Detroit, followed with a solo entitled "Sweetheart," and responded to an encore in a very pleasing manner.

Miss Nellie Mingay gave a fine Scotch reading with variations on the word "Imphm." For an encore she gave "Katie's Answer" in a rich Irish brogue.

Messrs. Camp and Wilson sang "The Stories Mother Told" and as an encore "What the Fiddle Told"

The speaker of the evening, John H. Ketcham, was then introduced. Mr. Ketcham is postmaster at Hastings and also has a farm of 100 acres of which he is quite proud. He is a nominee for master of the State Grange. Mr. Ketcham has many ties to bind him to Tecumseh, as many years ago his father, John Ketcham, resided here. He is a second cousin of Chas. Patterson.

Mr. Ketcham has a fine command of language and was never at a loss to find words to express his ideas. His earnest manner impressed each listener with the fact that he believed thoroughly in his subject and his arguments were very convincing.

The point of each argument was generally driven home with a pithy story, which was received with rounds of applause. His subject was "The Grange as a Watchman." The discourse was almost entirely given in comparing the Grange and its work to do, to a policeman in one of our large cities who stands at the most dangerous point at the intersection of the busiest streets. This policeman, physically perfect, dressed in blue suit and brass buttons with helmet on his head with his white gloves and club, rules absolutely the stream of people and vehicles that come and go with the raise of his hand, here the shake of his head, the dropping of his hand, there the nod of his head. all under stood by the people and followed He sets in motion a never-ending stream or stops one as he wills. "He is the Watchman."

So the Grange stands today, placed as a watchman over the interest of its members. They are the center around which the battle wages, occupying an unique position. They have the knowledge to direct, the power to enforce and the sympathy to render service to all.

He then went on to say what the Grange was able to do, that in forty-eight hours they could reach every member of our legislature. He cited that it was a well known fact that they were back of the movement for woman suffrage, cited the parcel post and rural mail delivery. He wanted them all to remember that there were 60,000 Grangers in the State of Michigan and why should they not succeed! From there he went on to say that the Grange must not rest on its past honors and be vain of what it had done, but go on to greater victories. He spoke at length of the coming question of taxes, how the great corporations should bear their share, as they had not done in the past—it has been borne by the small householders.

The saloon question—he hopes now that we have equal suffrage, Michigan would be a saloonless state (cheers). He said they must be on the firing line against vice also But greatest of all was the plea for co operation and neighborly feeling in small things as well as large, that neighbors must not fight over a line fence or backbite, but be kind and considerate He closed with a strong plea of "Back to the Farm."

The master of the Grange then closed the meeting and the company adjourned for a social time.

Mississippi Convict Farms.

Mississippi's prison farms have not only proved the most humane and beneficial way of handling prisoners, but they have proved most profitable. Every year from four thousand to five thousand bales of cotton, more corn than enough to supply the demand of the farm, bushels upon top of bushels of sweet potatoes, molasses as good as can be found anywhere on earth, peas, vegetables of all varieties, fruits, melons, in fact, everything good to eat, are raised on the state farm, and after paying a profit into the state treasury of from a quarter to half a million dollars, the tables of the convicts are provided with a better fare than many of the free citizens of the state can boast. Mississippi has tried several different ways of dealing with her convicts, but she finds that placing them upon farms is the best method of them all, both for the good of the state and the welfare of the unfortunates who have forfeited their right to be at large.—Jackson Clarion-Ledger.

Warm Floors and Healthy Children Make Happy Homes

There is no better way for you to avoid worry and expense than by insuring your children's health.

Warm floors in the home, which is the children's play house in winter, are assured when using Cole's Original Hot Blast Heater.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

Cole's Original Hot Blast Heater
The Cleanest—Easiest to Care For

Burns Soft Coal, Lignite, Hard Coal, Crushed Coke, Wood and Cobs.

Users of coal must remember that the ordinary heater is a big care to operate. That its smoke and ashes entail dusting, curtain washing and carpet sweeping. Think then of the ease of operation and the cleanliness of Cole's Hot Blast.

Cole's Hot Blast has a guaranteed smoke-proof feed door—open the feed door and the current of air draws the smoke directly across the top of stove to the stove pipe—away from the opening. Contrast this simple, cleanly feed with the side door in an ordinary heater. The side door used on other stoves permits escape of dirty smoke, unpleasant gas and accumulated soot drops from it. If you overfill a side door stove, coal falls to the floor. And note this; you cannot make a side door heater air-tight—an everlasting advantage in favor of Cole's Hot Blast which is air-tight and guaranteed to remain so always.

No fires to build—the fire is never out in this remarkable heater from fall until taken down in the spring.

Better select one today—surely it is the heater you need—

Them That Have Not.

Following over the trail of the charming young social worker whom the city missionary had turned loose on a helpless slum district, the missionary was grieved to hear most of her acts of helpfulness characterized as "blamed foolishness."

"What do you call an act of foolishness in those who seek to uplift you, Mrs. Brown?" he said severely to one complainant.

"Giving a $5 cookbook to a woman whose husband is out of work half the time and can't scratch up more than $6 a week the other half," was the succinct reply.

And the missionary agreed with her. —New York Times.

His Misconception.

A man who was much in need of sleep rolled out of bed during the night. The jar did not awake him thoroughly, and his hand wandered in exploration. It encountered the mesh of some protruding springs and a sturdy iron corner post. "In jail at last," he murmured as he passed away

SOLVAY COKE

will last ton for ton as long as hard coal.

Will burn up clean, will leave no clinkers (like other coke) practically no ash. $2.50 per ton cheaper than hard coal.

Is always just as satisfactory as hard coal.

Price is a little higher than inferior coke but think of the results. Order some and be convinced.

HO! FOR THANKSGIVING

It would pay anyone to take a stroll through the Williamson Bros. packing rooms in their Cold Storage building.

They are now shipping to the East for their Thanksgiving trade. Saturday they were packing a car to send to Connecticut and upon the long racks were two thousand dressed turkeys and a choicer lot has never been seen They were yellow skinned with just right amount of fat to make them delicious, showing through.

Formerly the turkeys were shipped in the old fashioned way, in barrels without sorting. Now, by the new method they have nice clean pine boxes of different sizes, lined with parafine paper. In the larger sized boxes are packed the young Tom turkies with legs left on, alternating from one end to the other. The hens are packed differently, side by each. then with the parafine paper folded over like a box of fine candy. They are nailed up and on the outside, is the Williamson stamp, "Pride of Michigan," The weight is marked in a corner, the turkeys averaging the same weight. They were sorted as to weight and grade. They had danced their last "turkey trot,"

MISS HELEN JAMES

Entertained Younger Set

Mrs. Alfred James Jr. of Detroit entertained at tea Tuesday Nov. 12, for her daughter Miss Helen. The house was very beautifully decorated with the autumn idea, of berries pines autumn leaves and Chrysthemums. In the receiving line we notice Miss Helen Manton Clark a cousin of the late Mrs DeWolf, often in Tecumseh, Mrs. Fred C. Stoepel formerly Miss Anna Sutton of Tecumseh, Mrs. Walter P. Manton also a cousin of Mrs. DeWolfs, Dr. Winnifred DeWolf and Mrs. Donald James the bride.

A very handsome picture of Miss Helen appears in the Sunday News Tribune. We almost feel like claiming her as a Tecumseh girl as her father and mother were both Tecumsehites and Helen has spent many years here with her grandparents. She is a most beautiful and charming girl and is a great favorite with the younger set in Detroit.

SOCIAL EVENING

The Odd Fellows and Rebekahs had a social evening and dance at the close of the Rebekah lodge Friday night, with a good attendance. Light refreshments were served and dancing was prolonged until a late hour.

A most delightful evening was passed by the brothers and sisters of the two lodges.

Mrs. Jack Staulter and Percy Heidenreich furnished the music.

MISCELLANEOUS SHOWER

About twenty of the young friends of Miss Mary Denzie met at the home of Mr. and Mrs. Mahlon Reynolds Thursday evening and gave her a Miscellaneous shower. She received a host of presents suitable for housekeeping.

Miss Denzie is soon to be married to Merlow Packard.

Fine refreshments were served to the company and a pleasant evening was enjoyed.

SUNSHINE DAY

Sunshine Day was observed at the home of Mrs R. B. Gillespie on Monday afternoon. This day is an annual event with the Monday Club, each one contributing something for a box to be sent to the county house for the benefit of the inmates of that institution. There was a fair attendance and a fine lot of goods were received. The program of the day consisted of papers by Mrs. O. B. Finch, Mrs. N. A. Howland, Mrs. M. A. Zimmerman and Mrs. G. S. Tiffany, each treating on some foreign conquest 264-133 B. C. At the close of the business meeting a picnic supper was served. Miss Ben O'liel was the guest of honor.

The box that the ladies of the Monday Club were filing on Sunshine day for the inmated of the County House will be open this week at the home of Mrs. R. B. Gillespie for any contributions that may be made by the members or any others interested.

THIMBLE PARTY

Miss Sarah Platt entertained the members of the Thimble Club Monday evening. There were eight present and the eveninig was spent with the busy needle and social chat. Light refreshments were served.

BIRTRTHDAY PARTY

Miss Nerissa Fitzsimmons entertained the "Holy Terrors" on her 12th birthday Monday. A jolly time was had in presentation of gifts, games and sports. Refreshments were served and everyone wished her many returns of her birthday.

TAKE IT IN TIME

Just as Scores of Tecumseh People Have.

Waiting doesn't pay.

If you neglect kidney backache,

Urinary troubles often follow

Doan's Kidney Pills are for kidney backache, and for other kidney ills. Tecumseh citizens endorse them.

J. B. Smith, E Chicago St., Tecumseh, Mich., says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago. I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name Doan's and take no other.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs. Peter Holan, 11501 Buckeye Road S. L., Cleveland, O., had a little son with a bad case of whooping cough. She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh.

Porto Rico's New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and $1.00. Trial bottle free. Guaranteed by C. A. Wright & Son.

FIRST WOMAN ELECTOR

Mrs. Helen J. Scott of Tacoma Has Unique Honor.

© by Scott studios.

Mrs. Helen J. Scott of Tacoma, Wash., bears the distinction of being the first woman ever nominated for presidential elector in the history of the United States. She will cast her vote for Theodore Roosevelt at the electoral college. Mrs. Scott has been an active worker in the Progressive ranks, but her chief interest nevertheless centers in her home and her children. By all her Tacoma friends she is known as a "home woman." She is the wife of Horace G. Scott, a lawyer. She was born in Michigan, but has been a resident of Tacoma since 1893. She is the mother of two children, a boy and a girl. Mrs. Scott is president of the Monday Civic club, member of the Tacoma day nursery's executive board and the board of the Interstate Federation of Women's Clubs.

SWAN SONG BY TAFT

Executive to Retire Next March Makes Remarkable Talk.

Speech on "The President" at Lotos Club, New York, Ranges from Grave to Gay.

New York, Nov. 18.—President Taft sang his "swan song" as chief executive of the nation. As the guest of the Lotos club the president responded to the toast "The President" in a speech which many of his hearers considered the most remarkable he has ever made.

He shifted from grave to gay, from the philosophy which he said four years in the White House had taught him, to a discussion of problems which faced the nation. He laughed at the outcome of the election; smiled when he spoke of some of the plans of President-Elect Wilson, and touched with gentle sarcasm on William Jennings Bryan.

In his serious moments the president earnestly advocated the admission to the halls of congress of members of a president's cabinet; declared that a six year term in the presidency was long enough for any man; advocated strongly the placing in civil service of practically every officer in the government service and hinted broadly that congress should provide for ex-presidents, so that they need not lower the dignity of the position they have held when they enter private life.

His chief regret, the president said, was that he had been unable to influence the United States senate to ratify the arbitration treaties with France and Great Britain.

In spite of that fact he asked his audience to believe that he would leave office with the deepest gratitude to the American people for the honor they had given him and with the belief that enough progress had been accomplished in his administration to warrant him feeling he had done real good for his country.

His humorous references to the burdens of the White House, to his successor, and to Mr. Bryan brought forth round after round of applause.

"Health and success to the able, distinguished, and patriotic gentleman who is to be"—and he raised his glass while his hearers rose to their feet—"the next president of the United States."

Heir Poisoned by Mistake.

Little Rock, Ark., Nov. 16. — Dr. Phillip William Dupree's eight-months-old son, who died Wednesday night as a result of a nurse giving the child carbolic acid by mistake for wine, is said to have been heir to a $4,000,000 estate in France. A coroner's jury reported a verdict to the effect that the poisoning was accidental.

30 KILLED IN WRECK

Freight Train Crashes into an Excursion Train in Louisiana.

It is now known that thirty persons were killed and fifty injured in a wreck on the Yazoo and Mississippi Valley railroad when a freight train crashed into an excursion passenger train bound from New Orleans to Woodville, Miss.

Five of the coaches of the passenger train were burned and many of the wreck victims are believed to have been cremated.

The wreck occurred near Montz, La., about seventy-five miles north of New Orleans. A train carrying many of the injured and a number of the dead has arrived in New Orleans. The more seriously injured were placed in the Charity hospital.

Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

MRS. LILA B. HAWKINS, of Zeus, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble and I was getting very bad but, thanks to Doctor Pierce's medicines, I am well and strong again. I took only three bottles of 'Favorite Prescription,' and used the 'Lotion Tablets.' I have nothing but praise for Doctor Pierce's wonderful medicines."

A Sudden Shock.

"What's the matter with the landlord? Sun stroke?"

"The doctor fears the worst. Seems a guest went up to him and told him he was perfectly satisfied with the accommodations."

MICHIGAN STATE NEWS.

BAY CITY—William L. Dommer, while taking his thrasher out of his barn in Frankenlust, twisted his neck, causing a hemorrhage which resulted in his death. As he turned the thrasher gave a sudden jolt and something snapped in Dommer's head. He didn't notice any ill effect at the time and continued his journey. He had covered but a short distance when he began to feel dizzy and, stopping his machine, he got out and lay down on the grass along the roadside. A few minutes later three friends happened along. He told them what the trouble was and they carried him to his home. His condition continued to grow worse and he died a short time after a physician arrived.

LANSING — Young Roy Brown, fifteen years old, was shot in the abdomen with a rifle by his brother, a year older. The boy was hunting rabbits near home when the accident occurred. The wounded lad was bending over a hole and his brother was standing at his side when the rifle was accidentally discharged. Young Brown was hurried to Lansing for an operation. The doctors were unable to locate the bullet, however. He is in a serious condition but may recover. His injury was aggravated by his refusal to give up the quest for the rabbit and his continuance in the hunt until he was unable to walk from loss of blood.

CADILLAC — Martin Lazelle, a resident of Hoxieville, seventy years old, was found dead under the feet of his team of horses which he had been hitching. Heart trouble was the cause of death. Lazelle had lived the life of a recluse for fifteen years in his shack in a clearing on the outskirts of the village, and in all that time had never made friends with anybody. It has been told that the silent man came here from the southern part of the state and that there is still property there in his name. He never went back home after coming here and never received visitors. He was unmarried.

DURAND—Being made the victim of a hunting accident, Clarence Berry, the fourteen-year-old son of William Berry of Durand, lies fatally injured in St. Mary's hospital, Detroit. In company with Freeman Atherton, the boy was near Durand and had leaned his 22-caliber rifle against a tree. A moment later he caught his foot in the brush and the rifle fell to the ground and was discharged, the bullet passing through the lad's body just below the heart and coming out near the backbone.

KALAMAZOO — Declaring that the present attendance at the Kalamazoo college has reached the highest mark in its history, President H. L. Stetson says that before many more students can be accepted it will be necessary to erect two or three more buildings. He says that action should be taken at once and the matter may come up at the next meeting of the college board. The school is just completing a new gymnasium.

GRAND RAPIDS — After tripping on the top step of the cellar stairs while descending with her year-old babe in her arms, Mrs. A. Gallup fell headlong eighteen feet to the cement floor. To protect her infant she made no effort to save herself and struck squarely on her head. The child was uninjured, the mother's body acting as a cushion. Mrs. Gallup suffered concussion of the brain and is not expected to live.

FLINT — The important local option question will be submitted to the voters of Genesse county for the third time at the election next spring. At an adjourned session of the board of supervisors petitions for a resubmission of the proposition containing 2,783 signatures were presented and favorably acted upon in the adoption of the report of a special committee appointed to pass on the regularity of the petitions.

LANSING — The distressing epidemic of smallpox at Mason reached an alarming stage. Secretary Dixon of the state board of health is making a personal investigation of the cases. Children are not allowed to attend school unless they are vaccinated. The epidemic will likely become general throughout the county as several cases were reported at Leslie. Dr. Dixon left immediately to diagnose the cases.

YPSILANTI — Postmaster Richard Owen has just received a letter from the secretary of the treasury at Washington stating that the new postoffice in Ypsilanti would be at the corner of Adams and Congress streets. No word has been received, however, as to when building operations will be commenced.

TRAVERSE CITY — The Frank Fowler post, G. A. R. No. 286 at Fife Lake, has been disbanded on account of diminishing numbers and the advanced age of the few remaining members. The post flag was presented to the public school.

SIX KILLED BY BLAST

Big Powder Works at Aetna, Ind., Are Blown Up.

Six men were killed and twenty injured in an explosion in the Aetna Powder company's works at Aetna, Ind., twenty-five miles east of Hammond.

The dead are: William Halpin, thirty years old, married, Miller Ind.; Oscar Carlson, twenty-five years old; George Smith, thirty years old; three unidentified men.

The death list may be higher. The bodies of the dead were blown to pieces, and the only means of learning the exact number of victims is to take a census of the 200 inhabitants and see who is missing.

Bashful.

A buxom farm lass was recently called as a witness in a case in a Yorkshire county court. The girl happened to mention that her sweetheart knew something about the matter. "Oh," said the judge, "then I think we had better call him to court!" The girl blushed furiously. "It won't be any good, sir," she protested. "Ah'm fair put to it to get him to court when we're alone, an' Ah'm sure he won't do it before all you gent'emen!"—London Mail.

A Pointer.

Two thieves were breaking into a door when the master of the house, hearing them, looked out of the window and said: "Friends, come a little later. We are not yet in bed."—"Humor of Spain."

Tragedy at Italian Wedding.

A distressing incident marred a pretty Neapolitan wedding the other day, and threw several families into mourning. Signor Meninno, a rich country squire, started out for the parish church for the purpose of marrying off his only daughter, a pretty maiden of nineteen. Instead of rice, Meninno, in pursuance of an old custom prevalent in the Neapolitan provinces, had filled his pockets with fireworks, and carried in his hands three big handkerchiefs full of bombs, which he intended to explode at the church door on the exit of the bridal party. While he was at the head of the merry procession of boys and girls, decked out for the occasion in all manner of fantastic costumes, the bombs suddenly exploded with terrific force. Meninno himself was blown to pieces, the bridegroom and many others who had been bidden to the wedding feast were flung to the ground and fearfully mangled, and the adjacent dwellings were shaken to their foundations as by an earthquake.

Improvement in Scotch City.

A complete clearance has been made of the old bay area in Port Glasgow, Scotland, and in place of ancient buildings mostly huddled together without intervening air space, there now stand modern tenements lining wide streets. All the houses are suitable for the working classes, and are in one, two, three, and four apartments. The carrying out of the scheme was rendered practicable through the generosity of the late Mr. James Lithgow, who gifted to the town £10,000. The total cost of the building scheme is about £100,000, and it has taken three years to complete.

Nothing in It.

Richard Harding Davis, a few days before his marriage, was talking to an editor about the decay of the short story. "The short story has been degraded and commercialized and cheapened," he said, "till there's no money in it any more—till it stands on a par with American music. A famous American musician was a witness in a case the other day. 'What's your occupation?' said the judge. 'Composer, sir,' the musician answered. 'No joking here, young man,' the judge growled, 'I want to know how you make your living.'"

WILSON GOES FREE

Charges Against Former Illinois Representative Are Dismissed.

An echo of the Lee O'Neil Browne bribery scandal was sounded in Judge Kersten's court in Chicago when a charge of perjury against Robert E. Wilson was dismissed. The prosecution was dropped on the motion of Assistant State's Attorney Victor P. Arnold.

The charges against the state representative grew out of his testimony in the Brown trial, wherein he denied having handed money to four other representatives in a bathroom in a hotel at St. Louis as payment for the election of William Lorimer to the senate.

FACES FRAUD CHARGES

Julian Hawthorne, Josiah Quincy and Others on Trial.

In New York city the federal government called for trial in the United States district court what it considers one of its most important cases growing out of alleged misuse of the mails. It involves the integrity of the so-called Hawthorne group of mining stocks and brings to the bar as defendants men of national reputation.

They are five in number—Julian Hawthorne, son of the novelist Nathaniel Hawthorne; Josiah Quincy, former mayor of Boston, and assistant secretary of state in the Cleveland administration; Albert Freeman, a promoter; Dr. William J. Norton, a nerve specialist, and John McKinnon, secretary-treasurer of the Hawthorne companies.

All were engaged, directly or indirectly in the sale of stock in the Hawthorne Silver and Iron Mines company and allied concerns in the Cobalt field in Canada, and were indicted in New York in January last for alleged use of the mails to defraud investors.

The government contends that at least $3,000,000 accrued from the sale of securities; that sales were effected through misrepresentation of the character of the properties and that notwithstanding promises, no dividends have been paid.

The defendants maintained that they have been the victims of a ruthless crusade on the part of the post-office department.

WIND WRECKS A TOWN

Martinsville, Ill., Struck by a Severe Storm—One Killed.

At Martinsville, Ill., at least one woman is dead, and a score of residents of the city and vicinity are injured as the result of a violent wind storm during the night. Thousands of dollars' worth of damage was done to property by the storm. Wires are down throughout this section, and it is feared that other fatalities have occurred.

Mrs. George Baker, an aged woman, was killed in the city. The house of Joe Ryan, near the Baker place, was overturned. All the members of the family were injured.

LORIMER UNDER KNIFE

Doctors Remove Patient's Appendix at Hospital In Chicago.

William Lorimer was operated upon in Chicago for appendicitis at the Presbyterian hospital. Dr Arthur Dean Bevan and Dr. S. R. Slaymaker performed the operation on the former senator. Dr. J. B. Herrick and Dr. I. C. Herd administered the anaesthetic.

The operation was performed in the private pavilion of the hospital. A statement given out after the operation said that Mr. Lorimer stood the operation in good shape, and there was no doubt as to recovery.

ALPENA—Conrad Siersema, who was nineteen years of age, dropped dead from heart failure. He had spent the evening with his chums. He was born with a weak heart as a result of which his face was of a purple hue since infancy.

TCHATALDJA UNDER BOMBARDMENT AGAIN

Sound of Artillery Firing Borne to Constantinople.

Turkish Commander Still Seeking to Keep Invading Bulgars Out of Ottoman Capital — Little News Obtainable.

A dispatch dated Constantinople, Turkey, says:

On the teeth of a wind coming down the valleys from the Tchataldja forts is borne to the ears of those in the plague-stricken city the sound of far away artillery firing. And the people waiting here with despair in their hearts know that once again the Bulgars are attacking the last defense of the Turk in Europe.

Nazim Pasha's Last Stand.

Up along the winding ways of the railroad, across the countryside where hangs the smoke of burning villages, at the end of the desolate stretches where slow wagon trains filled with the wounded move, Nazim Pasha with his back to the capital is making one more stubborn effort to keep the Bulgars out of Constantinople. The house tops of the capital are black with people straining every ear to the far off booming. The city is tense with excitement. The frequency of the reports suggests the size of the engagement that is being fought out at Tchataldja.

Little News from the Front.

There comes but little news back to the waiters in the capital city as to how it fares with their general at the front. One dispatch telling that the Turks, attacked on their left flank, threw back the invaders caused momentary joy, but the attitude of the people in general is apathetic and depressed.

The firing which excited the city was apparently a preparatory infantry attack.

Persons who have arrived in the capital report unexplained movements of the Turkish troops behind the Tchataldja lines. One person says that several thousands have been leaving the lines and several hundreds of others are moving towards Constantinople.

Reports Bulgarian Repulse.

This dispatch from Nazim Pasha, who is commander at the front, has been issued

"The battle, which began with a Bulgarian infantry attack, continued until an hour past sunset. The enemy, who advanced particularly to the front of our right and center, was repulsed by our infantry and artillery fire. Three Bulgarian batteries were destroyed."

The sultan telegraphed his congratulations to Nazim Pasha, who replied, saying that his majesty's message was received with cheers by the troops, whose condition and morale are excellent.

Ambassadors Take Precautions.

The ambassadors of the powers met at the Austrian embassy to discuss the desirability of landing contingents from the warships, owing to the fact that the battle at Tchataldja has evidently begun. The chiefs of the Turkish gendarmerie were invited to attend and the meeting decided to land men to guard the approaches to the Pera district and the embassies.

The men came ashore in full campaigning kit, bringing a Maxim gun. The official explanation of the measure states that it is intended to check the nervousness caused by the firing.

Bulgaria's Peace Terms.

Bulgaria's terms of peace to Turkey consist of seven stipulations.

Included in the first stipulation is the surrender of the Tchatalja army and its withdrawal, guarded by Bulgarians.

The second provides for the evacuation by the Turks of Adrianople, Scutari, Monastir and Janina.

The third calls for payment of a war indemnity.

The fourth demands the surrender of conquered territory.

The fifth calls for the internationalization of Constantinople.

The sixth and seventh provide for opening the Dardanelles and making Saloniki a free port.

FIND SCHRANK INSANE

Verdict of Experts on Assailant of Colonel Roosevelt.

At Milwaukee, Wis., John Schrank, who shot Theodore Roosevelt in front of a hotel here, and who subsequently pleaded guilty to a charge of assault with intent to kill, was declared insane by a board of physicians appointed by Judge Backus.

Five of the best known physicians in Wisconsin conducted an investigation to determine the mental state of the prisoner.

Decision of the doctors was unanimous and means that Schrank cannot be tried for the attempted murder of Colonel Roosevelt, but will be committed to the Northern Hospital for the Insane at Oshkosh.

Schrank probably will remain in the asylum for the rest of his life, as he cannot be released unless it is shown that he is completely cured and will not be subject again to an attack like the one that caused him to attempt the life of the former president on the night of Oct. 14 last.

STORM BUFFETS BOAT

City of Mackinaw II Fights Huron Gale Thirteen Hours.

Waves Sweeping Ten Feet Over Vessel's Bows Flood Cabins; Drive Lookout to Shelter.

Alpena, Mich., Nov. 16.—The D. & C. steamer City of Mackinac II had the worst trip in her history.

Leaving Cheboygan at 10:30, she ran into a heavy northeaster out in the lake and unable to turn around had to proceed on her way to this port. Endeavoring to round Thunder Bay Island at the entrance to the bay, she was forced to drop back several times and finally had to head into the lake many miles to gain a quartering course for the bay.

Off Thunder Island the waves dashed ten feet over the bow of the boat, flooding her cabins and forcing the lookout to shelter. Besides the mountainous waves, a driving snowstorm added to the difficulties.

The life savers on Thunder Bay island manned their life boats, in readiness to go to the steamer's assistance.

The quarter deck at the stern of the boat and railing on her bow were badly smashed. The steamer arrived here at midnight, the usual seven hour run having taken thirteen hours.

PANIC ON LAKE BOAT

Steamer Puritan, Bound for Chicago, Driven Back By Gale.

St. Joseph, Mich., Nov. 16.—The steamer Puritan of the Graham & Morton line, which left for Chicago in a heavy nothwest gale, was forced to turn back after an hour's struggle over the tremendous seas. Waves breaking over the vessel crushed overhead ports of the forward deck, shattering windows and poured great quantities of water into the main cabin. The wireless rigging also was torn away.

Passengers on board, numbering about a dozen, were panic-stricken when the water in the cabin became knee deep, but no one was seriously injured.

SUFFRAGE VOTE IS PLACED IN JEOPARDY

Shame to Throw Out Ballots on Granting Vote to Women.

Judge Wisner Declares That Short Ballots Complied with Spirit of Constitution.

Lansing, Mich., Nov. 18. — Circuit Judge Charles H. Wisner of Flint came to the supreme court to examine the papers filed in the suffrage case. Previous to the judge's arrival it was reported the judge was to cite the complainants in the case for contempt of court because they charged him with delay. An examination of the papers filed brought forth the statement from the judge that the facts were not stated incorrectly.

Judge Wisner is indignant at the report of slowness on his part. He says the petition was filed late Thursday afternoon and that the opinion was handed down Friday morning at the opening of court.

"It will be a shame if the contested votes are thrown out," said the judge. "As long as the people knew what they were voting for the constitution was complied with."

PRODUCED FIFTH OF COPPER

Output of Upper Peninsula Was 219,840,000 Pounds in 1911.

Lansing, Mich., Nov. 18.—According to the report on the copper industry compiled by Professor Hore of the Michigan College of Mines and the staff of the geological and biological survey, Michigan produced 219,840,201 pounds of copper out of a total of 1,097,232,749 for the whole United States last year. Arizona now leads the states in copper production.

There was stamped 10,979,827 tons of ore, running twenty pounds to the ton. The cost of production ranged from 7.17 cents for Ahmeek to 15.56 cents for Tamarack.

DEER HUNTER WOUNDED

Farmer Near Onaway Gets Bullet of His Companion's Rifle.

Millersburg, Mich., Nov. 19. — William Wilson and John Irwin, farmers living near Onaway, went into the woods on a deer hunt. They had separated and neither knew of the other's proximity when a deer was started.

Both shot at the fleeting animal at the same time. The bullet from Wilson's rifle struck Irwin, penetrating both hips. The wounded man was taken to a hospital in Saginaw and is reported in a dangerous condition.

FOUR GUNMEN TO DIE

Murderers of Gambler Herman Rosenthal Sentenced to Death.

New York, Nov. 20.—The four gunmen, "Gyp the Blood," "Whitey" Lewis, "Dago Frank" Cirofice and "Lefty Louie" Rosenweig, were convicted in the first degree by a jury in Judge Goff's court.

The convicted men will have to die in the electric chair for the murder of the gambler, Herman Rosenthal.

Nearly Killed by Coal Gas.

Grand Rapids, Mich., Nov. 18.—Mr. and Mrs. Frank Loomis returned from New York and started their coal stove. The chimney had become clogged during the summer, and the gas backed up and filled the house. When Mrs. Loomis was awakened in the morning she was barely able to attract the attention of a neighbor, who threw open the windows and summoned medical aid. Mr. Loomis is still very ill.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, Ohio.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

The story of a good deed is pretty sure to get out some time but it doesn't travel around as fast as a wild rumor.

Mrs. Emma Maier, 627 N. 7th St. Springfield, Ill., says her kidney trouble resulted from an operation. "From then until I used Foley Kidney Pills I did not know what a well day was. Then my backache left me, that tired dragged down feeling was gone, I slept soundly and awoke refreshed. I had no more headache or dizzy spells." Safe and sure. Try them. For sale by all Druggists of Tecumseh.

Chestnuts are now selling at five cents a glass, live weight.

James Therio, Iron River, Mich., says of Foley's Honey and Tar Compound: "This winter both my children and I was troubled with bad coughs. We used Foley's Honey and Tar Compound and it promptly cured us. I can recommend it as a good cough and cold cure." Contains no opiates. For sale by all Druggists of Tecumseh.

Wish we could enjoy getting up early in the morning as ardently as we dislike going to bed at night.

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Aitson, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at C. A. Wright & Son's

The girl with freckles usually has too much common sense to worry about them.

"TELLS THE WHOLE STORY"

To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat chest and lungs. Stops la grippe coughs and has a soothing effect. Remember the name, Foley's Honey and Tar Compound, accept no substitues. For sale by all druggists of Tecumseh.

HAD HEARD OF THE BANDITS

Great English Actress Thus Explained Why She Had Put Her Money in Her Trunk.

Some person may find it hard to believe this story, but it is true, every word of it.

When Irving and Terry, the celebrated English artists, came to Kansas City in the spring of 1900 it was their first tour this far west. From Kansas City the company went to St. Joseph and the trip was begun about 10 o'clock in the morning. Miss Terry was standing near her train at the Union depot, talking to Laurence Irving, a son of Sir Henry. Presently Miss Irving's maid approached and whispered to the actress that she needed $5 to pay for some drayage and other incidentals.

"I haven't that much," said the actress. "Laurence, lend me $5."

The younger Irving immediately responded, but out of curiosity asked the actress what she had done with her money.

"In my trunk," said Ellen Terry.

"In your trunk!" ejaculated Mr. Irving. "Why in your trunk?"

"Train robbers!" said the actress. "Don't you know that Missouri is noted for its train robbers?"

And it was no jest. As a matter of cold fact, about all that any member of the Irving and Terry company had ever heard about Kansas City was the town's intimate relations with the James boys.—Kansas City Star.

GREAT CROP IN DOUGHNUTS

Supply of Kansas Wheat Made Into That Delicacy Would Satisfy World for Many Years.

A Kansas miller has figured that if the present Kansas wheat crop were baked into loaves of bread, each eight inches long, there would be 6,400,000,000 loaves. If these loaves were laid in a line end to end they would stretch out a distance of 833,333 miles; three times the distance from the earth to the moon, with 113,000 miles to spare. Laid in line on the earth's surface they would girdle the globe 33 times and have enough left over to lay two lines from New York to San Francisco. Baked into ordinary griddle cakes they would make a stack 900,000 miles high, and if a man should undertake to get away with the stack, eating a griddle cake every 15 minutes for 16 hours every day, he would have to live live something over 25,000 years to finish the meal. As the flour necessary to make a loaf of bread will make ten fat doughnuts, if the Kansas wheat crop were worked into flour and baked into doughnuts, there would be 64,000,000,000 doughnuts. That would be 43 doughnuts for each man, woman and child at present living on the globe.

New Pest of Flowers.

The presence of the diaspis pentagona, which destroys the mulberry tree, and thus menaces the silk industry, has become so serious in France, that the government has prohibited the importation of Italian cut flowers from May 1 to November 1 of each year, the period during which the pest comes to maturity. During the year 1911 Italy exported 6,198,720 pounds of fresh flowers, valued at $1,521,390. Of this amount, continental countries took nearly all.

The Italian ministry of agriculture and commerce, in order to protect the florists of Italy and elsewhere, has recently published a list of plants which are recognized as subject to the infection of the pest. It includes roses, carnations, violets, the lotus, japonica, catalpa, the ceanothus americanus, woody nightshade, spindle bush, mulberry, jasmine, hop, persica, salva and many others.

REAL ORIGIN OF THE PEARL

Science Has Rudely Shattered Poetic Idea That Has Been Held For Centuries.

For many centuries, even until comparatively recent times, it was the common belief that pearls were drops of dew that gained entrance into the shell of an oyster, and were there transpired into lustrous gems. Arab and Indian divers still believe that at certain seasons oysters come to the surface and suck in the rain-drops that later become pearls. Science, however, has rudely shattered this poetic fancy, and discovered the real origin to be a worm. Dr. Hugh M. Smith gives some interesting information on this subject in the National Geographic Magazine.

We now know that almost any foreign body—a grain of sand, a bit of mud or shell, a piece of seaweed or a small animal—may by its irritation cause the mollusk to cover it with nacre and make it the nucleus of a pearl; but the largest part of the annual pearl-crop of the world is due to parasites that normally pass a part of their life-cycle within the shell of the pearl-oyster.

Minute spherical larvae of marine worms known as Cestodes become embedded in the soft tissues, as many as forty having been found in one Ceylon oyster. As the result of irritation, the oyster forms a protecting sac about the intruder, and then, if the larva dies, its body is gradually converted into carbonate of lime, and the pearly mass proceeds to grow with the shell.

If the larva lives, it may pass into the body of the strong-jawed trigger-fishes which prey on the pearl-oysters, there undergoing further development. Ultimately it reaches the body of the great rays, which in turn eat the trigger-fishes. In the rays the worms attain full development, and produce larvae that are cast into the sea and find lodgment in pearl-oysters. Thus the cycle is begun once more.

We may literally accept the saying of a celebrated French investigator, that "the most beautiful pearl is in reality only the brilliant sarcophagus of a worm."

[illegible] in Arabia.

New light on Arabia is being shown by the installation of a modern electric plant in the palace of the sultan at Oman. This is the first instance of the operation of electricity of any sort in that country. The innovation was brought about by an electrical promoter from Hyderabad, India. He also has obtained permission to operate a commercial lighting and power plant, and will proceed to erect the buildings at once. One set of machines will be run at night and the other in the day, principally for the purpose of propelling fans. Electric fans are welcome in Arabia. Fans are badly needed, for the old methods of "punkah-pulling" had been complicated by the difficulty in obtaining energetic pullers. Power will be furnished by oil engines, and direct current will be used. All equipment probably will be of German manufacture. One of the recent purchases made at Cairo, Egypt, by the sultan of Lahej, an Arabian sultanate, is an electric dynamo to be installed at his highness's palace at Lahej, eighteen miles northwest of Aden.

City Drinks 23,000,000 Gallons Beer.

Consul General Ifft writes that the Nuremberg breweries during 1911 produced 21,631,368 gallons of beer, of which 7,589,656 gallons were brought into the city and 6,181,956 gallons exported. The city consumed 23,039,068 gallons, or a trifle more than 69 gallons for each man, woman and child. The retail price of beer in Nuremburg averages six cents per quart.

HAPPENINGS IN OUR NEIGHBORING VILLAGES

Hudson has been the scene of some dark deeds that have stirred them up, not a little. The concrete work on Mechanic Street was finished up last week and as usual, obstructions were placed to keep teams from travelling on the soft concrete.

But some miscreant took down these obstructions and drove a single horse over the concrete leaving a deep rut, besides the holes cut by the horses hoofs. Should the evil doer ever be found out he certainly would not escape well merited punishment.

From Hillsdale, we read that new screens are being put up at the windows of the post office. As the season of flies is past it is thought that is being done to keep out the democrates, which is the worry in official circles since the late election.

The Reading Hustler has a neat way of putting things as see, "Dave Bland Spon a spin with Kimes Ford car last Friday. Dr. Jells curb stopped a straight shoot for the front door of his house but the sudden strain on the front wheels and axle put the machine on the rheumatic list for a day or so.

Saline has been voting on the bonding of the town for water works and the proposition has finally carried by a majority of 121 there were 113 women voters, excitement ran high and now that it is decided all are satisfied an go on together to enjoy the privileges that this will bring. Now the council will proceed to get all matters in shape so that when construction work begins in the spring there will be no delay.

The Page Fence Company of Adrian have been placing a new loom in their factory. Mr. J. Wallace Page has been working on this for the past two years and it is now being tested for speed and capacity; should this prove successful as is anticipated the company plan to build six more and place them in their works, with these added hours they expect to triple the output. This will mean much to the city of Adrian as more men will be needed to carry on the work.

The new proprietor of the Manchester house in Manchester, Mr. Enoch Silkworth has opened up the house to the general public after it had passed through many peculiar experiences. He has made many repairs and is still at work to make it an up to date hotel. The merchants about town are enjoying the privelege of meeting in the office, evenings for general visiting and to meet the travelling salesmen.

Henry J. Stahl is looking for clerks for the country store, he will open up at the Presbyterian Church Fair, Friday Dec. 6.

EXHIBIT OF TURNER PRINTS

Arrangements have been made with the Horace K. Turner Associates for an exhibit in Tecumseh of the famous Turner prints. The exhibit will be held in the intesests of the public schools, to instil a regard for the best in art and to furnish additional good reproductions for the schoolrooms. An admission fee will be asked and orders upon which a discount is allowed, will be taken. The discount and admission fees to be invested in prints for the schools.

These pictures are in monotone and color and are absolutely permanent; they would make excellent Christmas gifts. The prints will be exhibited Nov. 27, 28, 29; at the Library.

It has been announced that Lonis Roosbragger of Dayton, Ohio, a well known business man and secretary of the Dayton baseball club of the Central league, and Howard E. Holmes will act as manager and will do all the catching as in now planned.

CHANGING OF LANDMARKS

HOMES OF MANY YEARS STANDING MADE MODERN

The passing of the old landmarks in Tecumseh has its pathetic side and recalls many memories. The LeBaron house has been a landmark for nearly sixty years and the Bissell house for about fifty.

It is well for us not to forget these old settlers, and the passing of these landmarks bring forcibly to our minds that they made Tecumseh what it is. Where can you find a street like Chicago for a Main street? broad, lined with trees and the perfect drainage it has always enjoyed, by the slope from Judge Stacy's home to the Hayden Mill.

The LeBaron house built by Judge LeBaron over sixty years ago has undergone very few changes and is a type of the early architecture of those times, an upright and wing. Now, with the change of the newer architecture part of the house is being made into a bungalow by Tribou LeBaron of Toledo and his sister Mrs. Chas. Morley, who will occupy it in the near future. The old part remaining as originally built.

The Bissell house was built by Mrs. C. M. Bissell, Mrs. E. B. Wood's mother, later Mrs. Wm. Tilton, and was designed as a gallery for Daguerratypes, Ambrotypes and Tintypes which were then in vogue. This was built some fifty years ago and has remained practically the same all these years. The old reception hall is now quite modern as of late no house is quite complete without one

The property was lately purchased by Dr. Hardy and has been remodied having an addition on the west side with reception and office rooms for the Doctor's special use, and the remainder of the house reconstructed following the modern ideas of a pleasant home

"BUSY IZZY"

A good crowd greeted "Busy Izzy" at the Opera House Tuesday evening.

The play was full of mirth provoking passages and the audience proved a most appreciative one. The choruses were fine and the various costumes were most beautiful. The wonderful electric effects, added much to the various scenes.

Willett's orchestra of Adrian discoursed most charming music, and added much to the pleasure of the occasion. As a jolly rollicking comedy, "Busy Izzy" was all right.

MONSTER PREPARATIONS FOR THE 1912 INTERNATIONAL LIVE STOCK EXPOSITION UNDER WAY.

Preparation for the International Live Stock Exposition, which will this year be held from November 30th to December 7th, is no insignificant task. Hundreds of artisans consume a month or more in carrying out plans laid down long previously. Material by the train load is consumed, and each year finds new ideas adopted for the benefit of show men and the comfort of visitors. In these preliminaries thousands of dollars are expended, practically all of which is merely seasonable investment.

On the eve of the opening of the Exposition interest was never as keen. All over the country a host of exhibitors are getting live stock into show condition. Breeding and fat stuff is receiving finishing touches at the hands of the master fitters and feeders of the country, loading day being anxiously awaited. The public sees only the culmination of this titanic effect.

MISS BEN O'LIEL

The entertainments given by Miss Ben O'liel this week at the Presbyterian church have been unique in character and very entertaining. She possesses a pleasing personality and her personal knowledge of her subject added much to the interest. A number of the young people of the church appeared in costumes of the different classes or castes and helped largely in a better understanding of the life of the country from the desert, the shepherd, the village and the city.

Financially this was a success and Rev. Weld deserves much credit for bringing to the people of Tecumseh an entertainment of this character and the people showed their appreciation by their fine attendance.

TAKE IT IN TIME

Just as Scores of Tecumseh People Have.

Waiting doesn't pay.

If you neglect kidney backache,

Urinary troubles often follow.

Doan's Kidney Pills are for kidney backache, and for other kidney ills. Tecumseh citizens endorse them.

J. B. Smith, E. Chicago St., Tecumseh, Mich., says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago. I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs. Peter Holan, 1501 Buckeye Road, S. E., Cleveland, O., had a little son with a bad case of whooping cough. She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh.

Porto Rico s New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and $1.00. Trial bottle free. Guaranteed by C. A. Wright & Son.

FIRST WOMAN ELECTOR

Mrs. Helen J. Scott of Tacoma Has Unique Honor.

© by Scott studios.

Mrs. Helen J. Scott of Tacoma, Wash., bears the distinction of being the first woman ever nominated for presidential elector in the history of the United States. She will cast her vote for Theodore Roosevelt at the electoral college. Mrs. Scott has been an active worker in the Progressive ranks, but her chief interest nevertheless centers in her home and her children. By all her Tacoma friends she is known as a "home woman." She is the wife of Horace G. Scott, a lawyer. She was born in Michigan, but has been a resident of Tacoma since 1888. She is the mother of two children, a boy and a girl. Mrs. Scott is president of the Monday Civic club, member of the Tacoma day nursery's executive board and the board of the Interstate Federation of Women's Clubs.

MICHIGAN STATE NEWS.

ALBION — Three boys attending the Albion high school, who were placed in disgrace temporarily by the school board for "stacking" the books in the high school Halloween night, have dropped out of school altogether rather than bow to certain restrictions placed on them by the school authorities, and two of them expect to attend school in Charlotte. The boys piled every book in the entire high school department, some 1,500 volumes, besides tablets and other school paraphernalia, in one big heap in the assembly room, demoralizing the school routine for nearly a week and causing $25 loss to the students. The board barred them from athletics and required them to pay the damage they had done and report regularly to the board with their report cards.

CHEBOYGAN—The handsome new Cheboygan county jail was opened for inspection by the public. Two years ago the state board of corrections condemned the old jail and refused to allow prisoners to be confined in it. Attempts were made at that time to bond for a new jail, but the voters turned down the proposition. Prisoners were therefore sent to the Emmet county jail at Petoskey. Last spring the supervisors put the question of bonding for $10,000 before the people and it carried. The new jail is up-to-date, having separate quarters for men, women and children and a padded cell. It is equipped with shower baths. Sheriff Watson, recently re-elected, for the first time will have decent quarters in which to confine prisoners.

LANSING—Nearly five thousand persons, the long list including a large number of women, are hunting deer in Michigan woods this season. Game Warden Oates has reports showing that 2,465 hunters have crossed the Straits of Mackinac into the upper peninsula, and it is estimated an equal number are camped in the northern counties of the lower peninsula.

BATTLE CREEK—Positively declaring that he was unable to secure any coal from the trusts because he would not join the Battle Creek dealers in a combine of prices, J. A. Smith gave out information against local dealers that will prove very damaging. The aldermanic investigating committee subpoenaed twelve prominent coal men.

ANN ARBOR—George L. Sweet, for a number of years the efficient manager of the Western Union Telegraph company's office in this city, is leaving shortly for a much-needed vacation of several months, which he will spend in Florida in the hope of regaining his health. He will be succeeded here by C. C. Maxson of Toledo.

PETOSKEY — The dangerous injuries sustained by John Stimpson, fifty-six years old, when a tree he was felling struck him, breaking his legs in five places and hurting him internally, resulted in his death at Petoskey hospital. He celebrated his birthday anniversary one week before the accident, which occurred Saturday.

BOYNE—A. Coates, who had been for several years the roadmaster of the Boyne City, Gaylord & Alpena railroad, was killed east of Gaylord while working with the road construction train which is building the line to Alpena. He was crushed between two cars. His widow and three children are in this city.

GRAND RAPIDS—A number of Grand Rapids and western Michigan Democrats celebrated their victory here with a big banquet at the Pantlind. National Committeeman E. O. Wood of Flint, John T. Winship of Saginaw and William P. Nisbett of Big Rapids were the principal speakers.

MUSKEGON—Louis Fortino, a cigar dealer of this city, was fined $15 and costs for selling cigarettes to a fourteen-year-old school boy. This is the first arrest made in connection with a crusade that the bureau of social service and the school board is waging against violators of the state law.

BATTLE CREEK — Simply because a patent sprinkling system did not work, fire destroyed a warehouse valued at $1,000 here belonging to the Postum Cereal plant. The metal values on the apparatus withstood the heat until the entire building was in flames.

Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

MRS. LILA B. HAWKINS, of Zeus, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble and I was getting very bad but, thanks to Doctor Pierce's medicines, I am well and strong again. I took only three bottles of 'Favorite Prescription,' and used the 'Lotion Tablets.' I have nothing but praise for Doctor Pierce's wonderful medicines."

TITTABAWASSEE IS RAGING!

Water Seventeen Feet Above Low Mark at Midland.

Midland, Mich., Nov. 16.—Tittabawassee river has risen to seventeen feet above low water mark. Thirty-nine hours of steady rain has raised the river to within nine inches of the top of the levee.

Unless weather conditions change, a disastrous flood, rivaling that of last May, is predicted.

The Purse.

The invention of the purse was doubtless contemporaneous with that of money. The purse is mentioned in Old Testament history as a part of a traveler's outfit. When the disciples spoken of in the gospels were sent forth to preach they were commanded to take neither gold nor silver nor brass in their purses.

HOW TO TAKE A SUN BATH

Treatment Is Declared to Be a Sure Cure for Many Varieties of the Ailments of Humanity.

The sun bath is rapidly gaining popularity. It was not unknown to the Romans, who indulged in sun baths to cure gout and rheumatism. The buildings they erected in their villas for the sunray treatment were styled solariums.

All that is needed is the sun; but it should not be allowed to beat down upon the head, which should be covered. The prospective sun-bather should get into an ordinary bathing costume and lie down in a convenient spot on a rug. Care should be taken to secure a position well out of the wind, and, of course, the body must be moved about every ten minutes to avoid undue burning of any specific part of the anatomy. Also, a bath should never by any chance last longer than an hour. Dizziness, extreme excitement, even faintness will be the inevitable result should this warning be disregarded.

The sun bath is said to be an almost infallible cure for certain skin diseases, for undue corpulence and run-down nerves.

Perhaps the cult of the sun bath is more popular at a small place near Berlin, where the adherents of the new and simple cure have formed themselves into an association.

GOOD HORSES STILL NEEDED

Raisers May Have Little Fear That the Supply Is Shortly Likely to Exceed the Demand.

The recent war game demonstrated the dearth of horses suitable for months in a section once famous for the excellence of its native horses. This community was scoured for suitable animals, and none was to be had, and the government agents said that the same conditions obtain elsewhere throughout the country, handicapping the army authorities greatly.

There is the germ of a profitable idea for our farmers in these facts. The man who has grazing facilities, and who will turn a part of his endeavors to the raising of a general purpose type of saddle horse, will not only reap a substantial money reward, but will perform a patriotic mission, not for the army, but for humanity.

The "honk" of the motor car need bring no fears to the men who will go into the perfecting of a type of horse to be known as the York state saddle horse. The aeroplane need cast no shadows over the project. Improve the horse. The better he becomes adapted to man's wants the more docile and safe, the more beautiful, the greater will the demand for him grow.—Troy Standard Press.

The Leader.

All, I think, will allow that these attributes should belong to a friend of the constitution: First, that he should be of free descent by both parents, so that the disadvantage of birth may not imbitter him against those laws which preserve the democracy. Second, that he should be able to show that some benefit has been done to the people by his ancestors; or, at the worst, that there has been no enmity between them which would prompt him to revenge the misfortunes of his fathers on the state. Third, he should be virtuous and temperate in his private life, so that no profligate expense may lead him into taking bribes to the hurt of the people. Next, he should be sagacious and able to speak—since our ideal is that the best course should be chosen by the intelligence and then commended to his hearers by the trained eloquence of the orator—though, if we cannot have both, sagacity must needs take rank before eloquence. Lastly, he must have a stout heart or he may play the country false in the crisis of danger or war.—Aeschines (389-314 B. C.).

Too Big an Insult.

Angrily the head of the haberdashery concern stormed into the employment agency and demanded an interview with the manager.

"I understand," he said, "that you have been recommending as A1 collectors certain young men whom you represent as having collected money from us. If they can get it from us, they can get it from anybody. That's the way you make it appear, consequently your clients land good jobs."

With visions of possible libel suits rising before his guilty conscience, the agent attempted self-justificatoin.

"You are considered pretty hard nuts, you know," he said.

"Oh, that's all right!" said the man. "It ain't that I'm kicking about, but not one of your men has ever collected a dollar at our shop, and it don't do any good to lie about it."

Wireless Power Generated by Hand.

A new form of generator has been developed by the United States signal corps for use with its portable wireless telegraph sets. It consists of a small generator, the motor of which is driven by hand cranks through a suitable gearing. Two cranks are provided, so that two men may drive the motor at the same time, and if necessary four men may be employed—two at each handle. Low and high speed releases are provided, which disengage the driving gear when the speed rises above or falls below a predetermined limit, so that the motor may be kept at a fairly constant speed. The generator is capable of turning out about 200 watts, and it is light enough to be packed on a mule. The portable generating set has a sending capacity of about 15 miles.

New Life-Saving Jacket.

A public test was recently carried out in the Thames, at London, England, of a new life-saving jacket. During the demonstration this apparatus was used by a woman and three men. The garment consists of a loose sack, about the length of an ordinary lounge jacket, having a ribbing fitted with a substance of greater buoyancy than cork. It is so constructed that the heads of the users are completely out of water, thus permitting them to take food while in the water.

Some Task to Count Money.

The task of counting the millions of coins collected for the London hospitals by the ten thousand lady flower-sellers on Alexandra day occupied a staff of 400 men. The collecting boxes filled three large rooms.

Record of Hard Drinkers.

Every German town will hereafter keep a record of hard drinkers, and doctors will have to report all persons who are addicted to habitual intoxication.

FIVE MEN ARE CAUGHT IN $1,500,000 DEAL

Federal Officials Allege Operations Are Fraudulent.

Alleged Stock and Bond Swindle, International in Scope, Unearthed at Cleveland, but Kept Quiet.

Federal officials began arrests in a stock and bond swindle which they say is being operated in nearly every large city in the world at a profit to the promoters of more than $1,500,000.

Five of those arrested were indicted by the United States grand jury at Cincinnati last month. The men, it is alleged, operated against individuals and corporations that desired to place stocks and bonds on the open market.

Those indicted by the grand jury on the charge of using the mails to defraud were:

F. D. Minyard, now in Cleveland.

J. Gordon Malcolm, who went to Canada before the indictments were returned.

Thomas Fishwick, now in Boston.

George Hannaford, now in Chicago.

J. N. Long, now in Buffalo.

Offices Are Raided.

At Rochester federal officers raided the offices of the American Redemption company and took all persons found there into custody. They will be taken before United States Commissioner E. C. Smith in that city.

The offices of Horace D. Hastings & Co. were raided in Cleveland, and F. D. Minyard, the manager, was arrested in connection with the operations of F. D. Minyard & Co., brokers, of Cincinnati.

A. Bruce Crane of the Hunter & Crane brokerage firm was arrested at Newark, N. J., as the local agent of the American Redemption company. Crane was taken before United States Commissioner Stockton and held in $5,000 bond.

Arrest Is Made In Chicago.

George S. Hannaford, 6503 South May street, Chicago, was arrested by the federal authorities, charged with being a principal in the extensive fraudulent bond scheme alleged in an indictment returned by the federal grand jury in Cincinnati. Hannaford was at once arraigned and held in bonds of $2,000 by United States Commissioner Foote, to appear for trial in Cincinnati.

Fishwick was arrested in Boston and Mason G. Worth was taken into custody at New York.

Stenographer Gives Evidence.

Much of the evidence against the indicted men was furnished by a woman stenographer who worked in the Cleveland office. Her name has been withheld.

It is alleged that the scheme operated by the accused companies had international scope, and extended into England and the colonies. Postoffice inspectors have been to London and investigated the branch offices there, and they declared that it works hand in hand with offices in America and Canada.

ANDERSON GOES TO JAPAN

Is Named Ambassador to Succeed Charles Page Bryan.

Larz Anderson who is now United States minister to Belgium, has been named ambassador to Japan, to succeed Charles Page Bryan, whose resignation was announced a few days ago.

Through the Japanese embassy it was learned that Mr. Anderson would be satisfactory to the Japanese government, and his appointment will be announced at once by President Taft.

GOVERNMENT IS WINNER

"Bathtub Trust" Case Decided by the Supreme Court.

At Washington Monday the government won its suit in the United States supreme court in the so-called "bathtub trust."

The court held that the "license agreement" of enameled ware manufacturers was in violation of the Sherman anti-trust law.

BUILDING COLLAPSES

Two Bodies Taken from the Ruins—Others Are Injured.

Detroit, Mich., Nov. 18.—Three workmen were buried in the ruins of a partly constructed building at [illegible] and Antoine streets, which suddenly collapsed.

Two bodies were removed from the debris shortly after the accident occurred. Four other workmen were injured seriously.

FORGIVENESS.

"I can forgive, but I cannot forget," is only one way of saying, "I will not forgive." A forgiveness ought to be like a canceled note, torn in two and burned up, so that it can never be shown against a man. There is an ugly kind of forgiveness in the world—a kind of hedgehog forgiveness shot out like quills.

MADGE ELLIS, NURSE

Put Her Duty Before Anything Else.

By ROSALIE G. MENDEL.

Nurse Ellis rushed up the boarding house stairs, burst into the little hall bedroom and exclaimed to her roommate, "Hurrah! My typhoid case is declared cured. I'm discharged and Glenn Garnett has asked me to celebrate my freedom from the tyranny of a cranky patient by going to the theater with him this evening. Isn't that jolly? I'm just aching in every bone for a good time—especially with Glenn."

"Well, you certainly deserve it after the strenuous siege you have had," answered Sue Darrow as she pinned her cuffs in her nurse's costume. "I only hope you manage to leave before another call comes for you. You're such a popular little nurse that you are always in demand."

"If the superintendent of the hospital, the assistant superintendent and all the doctors took sick I would refuse to go on duty tonight," exclaimed Madge as she combed her long golden hair. "This is the fourth evening Glenn and I have made arrangements to spend together and every time I've had a 'hurry call' at the last minute. Fate could not be so unkind as to spoil this long anticipated pleasure again."

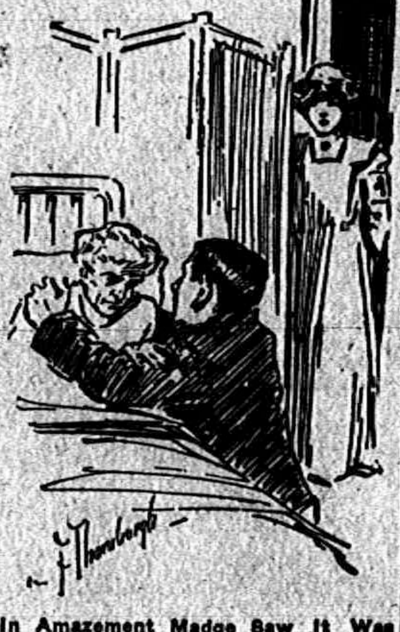
Good-bye, dear," said Sue, as she grasped her suit case to report for night duty. "Have a good time, and tomorrow you can tell me all about your lark."

Just as Nurse Ellis finished dressing in her new white serge suit and becoming picture hat the telephone gave a long, loud ring. Madge stared at it and then said defiantly: "I won't! I won't answer it." Another and another ring and then she grabbed the receiver and called, "Well?"

"This is Dr. Burns," came the answer. "I have an emergency operation at the hospital that I wish you to report on at once."

"I—I can't tonight, doctor," faltered Madge. "It's impossible. Get one of the other girls."

"What's that? You're not refusing me? Come, come, girl. You are the only one I'll have for this case. I'll call for you in my machine in twenty minutes."



In Amazement Madge Saw It Was Glenn.

"I hate to say 'No,' but—oh—I simply can't 'go on' again tonight."

"I guess you are not yourself. This is the first time you haven't been ready to fly at a summons day or night," said the puzzled doctor.

"I know, but I am worn out, body and soul; I need this one evening for myself."

"I'm sorry and disappointed," said the doctor as he hung up the receiver.

Madge sat down in the low rocking chair and had a good cry. Then she flew to the telephone, called Dr. Burns, and told him that she had changed her mind and that she was ready to report on the case. He answered, "Good, I knew you were too loyal a little soul to fail me."

Then she telephoned to Glenn. "It's impossible for me to keep our engagement. Am dreadfully sorry. Another operation, and—"

"Madge Ellis," answered Glenn, indignantly, "I won't listen to a refusal. You have simply got to go with me tonight. You're not the only nurse in the world. It's ridiculous that we can't have one evening together."

"I can't, Glenn. Don't urge me any more. If you do I'll cry in just a minute. You go and take some one else."

"You know you are the only one I care to go with."

"It's as hard for me as for you, Glenn. But a nurse's duty comes before anything else."

"I see it does," answered Glenn angrily. "You really don't care enough about going, Miss Ellis, otherwise you could arrange it. Good-bye."

Madge quickly changed her new white suit and hat for her nurse's costume and was waiting at the window when Dr. Burns drove up.

"You're a treasure, little girl," he said, grasping her hand in his big ones. "I have a daughter of my own and I can see there was a special reason why you wanted to be off duty tonight."

"'He' is a special reason," said Madge plaintively, through tears that would come.

"This case," went on the doctor, "is of a little old lady who, it seems, came from the country to surprise her son. In crossing one of the downtown strets she got confused and was thrown to the ground by a truck. I fear she is seriously injured. As yet we have not been able to locate her son. She is as fine as a piece of Dresden china and you are just the girl to pet and take charge of the frightened, lonesome little body."

The operation was a dangerous one. Through the long, hard night the patient's life hung on a thread. But in the morning she was better. Miss Ellis sought her couch for a well-earned rest when released from duty. She awoke after a refreshing sleep and hastened to her patient's bed.

A young man kneeled at the bedside, his arms clasped about the fragile little old lady, who was contentedly stroking his hair. The young man looked familiar. In amazement, Madge saw it was Glenn!

As Madge stood in the doorway Glenn glanced up. He went over to her, grasped both her hands, and leading her to his mother's side, said, "Mother, this is Madge, the dear little girl I have written to you about." Then, turning to Madge, he added, "Dr. Burns told me that your skillful and devoted attention did as much to save my mother's life as the operation. Madge, I can't express my gratitude. What can you think of a selfish brute like me who so cruelly reproached you for doing your duty? How you must despise me."

"I don't exactly despise you," murmured Madge, putting her hand on his sleeve. "And I think you have the dearest mother in the world."

"Then let her be your mother, too," begged Glenn fervently. "You need a mother's love, and I need yours."

GOOD AND EVIL EMANATIONS

All of Us Constantly Sending Out Thoughts According to Our Character and Nature.

Man is like the wireless telegraph. He is constantly sending out messages of peace and power, of harmony or discord, friend thoughts or enemy thoughts. These messages are flying from him with lightning speed in every direction, and they arouse in others qualities like themselves.

We are all wireless mental stations, and are all sensitive to the things to which we have made ourselves akin by our thoughts and life.

If we have developed the coarser side of ourselves, living an animal life, we are sensitive to the animal vibrations and influences that come to us; in proportion as we have educated the brute out of ourselves do we become sensitive to the rays of good.

Many of us have not yet learned to protect ourselves from the conflicting currents of radiated thought from others that are playing all about us. Thought obeys a law as inexorable as that of mathematics. No love can return in exchange for a hatred thought; but if your thought is freighted with love, love will come back to meet its own. To have friends we must show ourselves friendly. To be loved, we must love.

If the God within you—the ineffable spirit of love, of charity—speaks to a man, although he may be a criminal, the God will come out of him to meet it; but if you fling out diabolical satanic forces—hatred, jealousy, envy—they will arouse and call out the devil from the victim of your thought radiation. Good will come out to meet good, evil in response to evil; hatred comes out to meet hatred, love to meet love, because they are affinities. —Orison Swett Marden in the Nautilus Magazine.

WAS WAITING CHANCE

Clerk Quick to See Opportunity, Though It Had Come to Him Accidentally.

EARS AS VALUABLE AS EYES

Chance Remark Showed Young Clerk a Way to Advancement, and Some Thought and Knowledge of His Business Made Rest Comparatively Easy.

The sales manager of a large furnace company whirled in his chair as a question was asked him.

"How did I get here?" he queried in reply. "Simply through keeping my ears open. I overheard a remark one day and then set my brain to work. That's all.

"But to enlarge," he continued. "At the time I was a $10 a week clerk. I didn't see much of a chance before me; a fellow never does unless he looks hard for it. And the trouble with most young fellows is that they are always too eager to believe that there isn't any chance for them—but that's got nothing to do with the story.

"One day I happened to go to the water tank, near the president's desk, for a drink. A little conference was going on and what I heard was this:

"'But the fact remains that we've got to cut road expenses five per cent. The men aren't turning in enough orders to justify the expenditures.'

"'I know that,' the general manager answered, 'but how are we going to do it? We can't get along with fewer salesmen. Every possible item of expense is cut to the very bone right now. And so——'

"It was then that I went back to my desk, but I carried the conversation with me. It had made an impression on me and I saw that there was a way for advancement in that office—for some fellow who could solve problems just like that. And when I went home that night I still was carrying that thought. When I went to bed it kept sleep away.

"The next morning I sought the president's desk. My eyes were a bit heavy, but there was the excitement of conquest in them—I had found my idea.

"'Mr. Richards,' I began, 'I chanced to hear a remark yesterday that made me think. You desire to save five per cent on your traveling men in some way. I know how to do it.'

"He turned in his chair and gazed at me quizzically.

"'Very well,' he said at last, 'I'm listening.'

"'Well,' I began, 'your salesmen are just selling one thing, aren't they? All they do when they get into a town is to go to the local furnace man and stock him up on furnaces and then sit down to wait for the next train. Did you ever take into consideration that there are enough furnace supplies to keep your men busy selling all the time? Why don't you try the proposition of adding a line of supplies to your line of furnaces?'

"He looked at me for a moment in surprise. Then he smiled and motioned me to a seat.

"'Sit down,' he said; 'you've got a better idea than I thought you had. Now let's talk this thing over more fully.'

"Well, the result was that the line of supplies was put in. They did more than was expected of them. They paid every cent of the sales expenses, leaving all the profit on the furnaces clear. It wasn't long after that before I was consulted about some other little matter pertaining to the road. And now—well, now, I've a real little job, that of directing the whole road mechanism of the selling of these furnaces and what goes with them. Moreover," he added with a wink, "I'm drawing more than $10 a week."

Consider Only Things That Matter.

When you come to think of it, there is no sense in allowing a 50 cent broken pane of glass to interfere with your fitness for a piece of work which may bring in $100. But I find many men sin in the same way as myself. They lack in emotional self-control. They are ready to fight night and day for a detail, whilst a great purpose, such as the best way to expand business, has to be content with odds and ends of time. The kind of sin which does as much as anything else to destroy opportunity is absurd sin.

You can see it in students. An intelligent foreman has decided to sit for the examination for assistant factory inspectors. Two days before the date fixed he feels a pain internally, and at once begins to worry about himself. He fears he will be too unwell to sit, that all his tuition fees will be wasted, and that his future chances of an appointment will be nil. His fears are realized to the extent of sitting but failing to qualify. A little more pluck, light-heartedness, hope, and philosophy might have carried him through.

Just watch your mental output for a week, and see how far you waste valuable energy. Learn to center on the things that matter.—Exchange.

Getting to the Front.

The man who wishes to get to the front must not spend too much time turning to see what the men back of him are doing.

The Lost Wurz.

Gregory is the kindest hearted person in the world, and always ready to do a good turn for anybody, be it friend or stranger. The other day he was in a Third avenue car, standing because there was no vacant seat, when a dignified old man rose, indicated the place he left with a courteous bow and got out at Forty-second street. Gregory accepted the seat, but hardly had taken it when he noticed a neat package on the floor. With a bound he was up and after the departing passenger. The car had started, but the old man looked around at sound of the shouting and Gregory let fly the parcel; the paper slipped off, a long string of link sausages sal'ed through the air and lassoed the old gentleman's silk hat, dangling over his face, which grew purple with rage. In the same moment the kind-hearted Gregory felt himself seized by a strong clutch and a wail broke upon the car, as a stout German woman lamented her lost treasure.

"You throw oud mine Wurz!" she cried over and over; mine echt German Wurz I take mine daughter once! Ach, where ist now mine Wurz already?"—New York Times.

A cheerful temper, joined with innocence, will make beauty attractive, knowledge delightful, and wit good-natured.—Addison.

Toledo's Greatest Department Store

The Store of Quality and Good Service

If you care for a store of quality, quality service and quality merchandise, for a store that deals in nothing "cheap," but always carries dependable goods at lowest consistent prices, we ask you for your patronage when in Toledo.

Six mammoth floors are given over to the best that goes to furnish the home and clothe its members. We are specialists in clothing the man and boy as well as the woman and girl. One entire floor is given to the showing of rugs and carpets and another to furniture and draperies, making perhaps the most complete stock in the city.

While in the city we ask you to visit our rest room on the sixth floor, where you may have all the conveniences so appreciated by the tired shopper, large easy chairs, magazines, free telephones, wash room and toilet. On the same floor is undoubtedly the finest restaurant in the city, where unaccompanied ladies can go with the most perfect propriety. Combination lunches are served for 25c, 35c and 50c, which we have never seen equaled in any city for the prices.

For the Next Two Weeks we call your attention to our Annual Thanksgiving Sale of Suits; 250 Suits divided into three lots:

SWINDLER TAKEN IN ATLANTA CLUB

Henry Ames VanAuten Arrested on Many Charges.

WANTED IN WESTERN CITIES

Smooth Confidence Man, as President of Large Companies, Has Unsavory Record in Illinois and Michigan.

Atlanta, Ga., Nov. 25. — Claiming that he is a graduate of Yale, a member of an influential family and that at five different times he has been president of big coal concerns, Henry Ames Van Auten of New York city was arrested at a leading Atlanta club to answer the charge of passing worthless checks at various places. The latest complaint comes from Jackson, Mich., where Van Auten, as president of a coal company, secured a large sum and disappeared.

Society Man Spent Money Freely.

Van Auten has been here several days. He spent money freely, met many people and secured the entree to a leading club. When arrested he was entertaining some ladies and discussing the Harvard-Yale footrall game.

When arrested Van Auten tried to tear up some papers in his pockets, but was prevented. Among the papers was a telegram, just received, telling him that assistance could not discussing the Harvard-Yale football was signed "Sister."

Van Auten, who also goes by the name of Harry Andrews, is charged with leaving bad checks in Chicago, Detroit, Grand Rapids and other western cities.

Served Time in Marquette Prison.

Detectives allege that Van Auten has served time in Marquette prison, his release being secured by prominent people. After his release he became president of a big coal company at Jackson, Mich., and it is alleged that he ruined it by selling forged stock under the name of Andrews.

Van Auten takes his arrest coolly. "I have gone such a pace. I have burnt up my tires," he said, "but I'm sport enough to face the music, and it may be well to add that when you dance there is the fiddler to be paid."

TAFT HONORS SOLDIERS

Five Given Medals of Honor at the White House.

Four of Them Took Part in the Hunt and Capture the Filipino, Pirate Chief, Jikiri.

Washington, Nov. 25.—Five young men, officers and enlisted men in Uncle Sam's active military force, called at the White House to receive the highest award that can be given an American soldier, the medal of honor.

Four of them from the Presidio, San Francisco, brought memories of the hunt and capture of the Filipino pirate chief, Jikiri, in 1909; while the fifth, a cavalry officer, who had helped to protect the town of Douglas, Ariz., last year, heard modestly of his riding into a rain of bullets to stop a fight that threatened the lives of Americans.

The soldiers decorated for "deeds of galantry in action" were: First Lieutenant Archie Miller and Second Lieutenants Arthur H. Wilson and John T. Kennedy, all of the Sixth cavalry; Quartermaster Sergeant Joseph Henderson, an enlisted man, of troop B, Sixth cavalry, and Captain Julian Gaujot of the First cavalry.

MISS HELEN TAFT HONORED

Ball Given for Her by Tivoli Club at Panama—Notables Attend.

Panama, Nov. 25.—The Tivoli club gave a ball in honor of Miss Helen Taft, who is a member of Secretary of War Stimson's party, which is now on a visit to the canal zone. The affair was one of Panama's greatest social events of the season. Among those present were Secretary of War Stimson, all the members of the canal commission, army officers, diplomats and prominent Panamanians.

MISS HELEN TAFT.

President Porras held a reception in honor of Secretary Stimson and Miss Taft.

Shelby Man Indicted.

Shelbyville, Ind., Nov. 25.—Matthew Swinford of Shelby township has been indicted by the Shelby county grand jury on a charge of assault and battery with intent to kill U. E. Tindall, an attorney of this city. Swinford lived on Tindall's farm and, it is alleged, the men had trouble a few weeks ago and that Swinford struck the attorney on the head with a spade. Swinford has been placed under $500 bond.

FIERCE FIGHTING NEAR ADRIANOPLE

Turkish Garrison Said to Be on Point of Surrender.

REINFORCEMENTS ARE SLOW

Tension in European Circles Over Developments of Past Two Days Is Extreme and Spark May Start Conflagration.

London, Nov. 25.—The fierce fighting that raged around beleaguered Adrianople when the Turkish garrison attempted a sortie has continued and the allies say confidently that the Turks in the city are on the verge of surrender.

Coming through country almost impassable because of the floods and through passes that are choked with snow are the reinforcements for the Bulgars and Serbs, both in front of Adrianople and battling on the Tchataldja lines.

Heavy Guns That Bulgars Need.

With them they are bringing the heavy field guns that the Bulgars need so sorely in their attempt to pierce the lines held by Nazim Pasha.

And while they wait the Serbs, upon whom has fallen the brunt of the siege of Adrianople since the Bulgars swung down to Tchataldja, continue to pour a heavy shell fire into the forts.

The Vienna Reichspost prints a dispatch that purports to be inspired by Archduke Francis Ferdinand or some of his advisers that he is returning from his conference with the Kaiser in Berlin convinced that if there should be more than mere talk in the quarrel between Austria and Servia over a strip of sea coast then Germany will stand shoulder to shoulder with Austria.

Warships Steam Down Danube.

With a flotilla of Austrian fighting craft steaming down the Danube to anchor off the capital of the country whose relations with Austria are so strained, with troops marching to the borders of that country, with fighting men called to arms in Germany and Russia, the situation is one of the most nerve racking tension.

The approach of the Danube flotilla to Belgrade is an especial source of worry to diplomats, who realize what might happen if anything that might be interpreted as hostile should occur while that flotilla was in the sight of the Serbs' capital.

13 KILLED; 183 INJURED

Football Fatality Record Exceeds that of 1911.

Chicago, Nov. 25.—Thirteen killed and 183 injured constitute the toll of the gridiron during the season of 1912.

The death list exceeds by one those of 1908 and 1911, but continues small despite the fact that 1912 rules for the college sport recall the old style plunging game.

More injuries were reported this year than during 1911, which in a way may be charged to the new game, but the total is far from the record of 1909, with its list of thirty killed and 216 injured, or of 1910, when twenty-two succumbed and the injuries' mark reached 499. These were recorded under the old rules, in force this season in a slightly modified form.

Mrs. Lesh Faces Charges.

Sedalia, Mo., Nov. 25.—Mrs. Pansy Ellen E. Lesh, charged with poisoning two Missouri women eight years ago, was arraigned in the criminal court here to plead to the charge of murder in the first degree.

HOCKIN IS JAILED BY U. S. JUDGE

Bond of Secretary of Iron Workers' Union Doubled.

IS INVOLVED IN CONSPIRACY

Labor Leaders Denounced by Jurist for Publishing an "Outrageous Contempt of Court"—Judge Ousts Magazine Writer.

Indianapolis, Nov. 25.—It was a day of unexpected and sensational developments in the "dynamite conspiracy" trial.

Herbert S. Hockin, one of the chief defendants and the secretary and treasurer of the International Association of Bridge and Structural Iron Workers was taken to jail. His imprisonment was due to his failure to increase his $10,000 bond to $20,000, ordered by the court after a witness had said he was in the employ of a detective and had been since soon after the Los Angeles Times explosion, "and was not to be trusted day or night by any one." Hockin is the successor of J. J. McNamara, the dynamiter, as an official of the union.

Another Charge Against Hockin.

Hockin was also accused of having told a witness of overhearing John J. McNamara talk to President Lynch of the International Typographical union, "about an explosion on the Pacific coast."

Judge A. B. Anderson, in charge of the trial, said the bond of Hockin was increased "because Hockin had deceived every one."

Miss Mary Field, a Socialist writer present in the courtroom, was denounced by the district attorney as an anarchist and was put out of the court by the judge, who ordered her not to return. She had published an article in the union's magazine charging that the prosecution of the dynamiters was being "conducted by the steel trust masquerading as the government."

Attorneys Disavow Article.

Attorneys for the defendants disavowed knowledge of the article written by Miss Field. United States Senator John W. Kern was among the counsel who repudiated the article and its charges.

All of the officials of the union now on trial, including Frank M. Ryan, the president; J. T. Butler, Buffalo, vice president; M. J. Young, Boston, and P. A. Cooley, New Orleans, were denounced for countenancing publication of the article in the union magazine. The article was called by the court "an outrageous contempt of court."

EUGENE V. DEBS INDICTED

Fred Warren and His Attorney Arrested on Same Charge.

Fort Scott, Kan., Nov. 25. — On a federal indictment returned here against Eugene V. Debs, Socialist candidate for president; Fred D. Warren, editor of the Appeal to Reason, a Socialist newspaper published at Girard, Kan., and J. I. Sheppard were arrested here by a deputy United States marshal.

The indictment charged "obstruction of justice by inducing witnesses to leave the country."

Szabo Case Near Jury.

Middletown, N. Y., Nov. 25.—It was expected the case against Burton W. Gibson, the New York lawyer charged with the murder of Mrs. Rose Menschik Szabo at Greenwood Lake, July 16, would be placed in the hands of the jury today.

CHICAGO AT THE TOP

Shown to Be Most Healthful Great City in World.

Official Figures Place Municipality at Head of List, with London Second.

Chicago, Nov. 25.—Figures collected by the Chicago health department averaging the death rates for ten years of all the great cities, show Chicago to be the most healthful in the world. There is a comfortable lead over London, the second city of the world in point of health.

The department's report concerns only the fourteen cities of the first magnitude, with more than 1,000,000 inhabitants. In order of their eminence from the health standpoint they rank:

Cities—	Population, 1910.	Death rate, 1901-1910.
Chicago	2,185,283	14.7
London	7,537,196	15.1
Berlin	2,053,049	16.3
Buenos Aires	1,270,234	*16.4
Paris	2,722,731	17.8
Philadelphia	1,549,008	17.9
New York	4,766,883	18.0
Vienna	2,107,981	18.5
St. Petersburg	1,577,892	24.5
Moscow	1,493,600	27.1
Calcutta	1,031,206	*31.0

*Last five years only data available. Data for Tokio (1,622,856) and Constantinople (1,160,000) not available.

The department ventures to speak a word for Chicago's wind. The bulletin declares the high winds make for air purification and better ventilation of buildings and in that way constitute one agency for keeping Chicago's death rate low.

THE WEATHER

Indiana and Illinois — Fair today; fair and slightly warmer tomorrow; moderate northwest winds becoming variable.

Lower Michigan—Generally fair today and tomorrow; moderate northwest winds becoming variable.

Wisconsin—Fair today; local snows in north portion tonight or tomorrow; fair in southern portion; moderate variable winds.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

The story of a good deed is pretty sure to get out some time but it doesn't travel around as fast as a wild rumor.

Mrs. Emma Maier, 627 N. 7th St. Springfield, Ill., says her kidney trouble resulted from an operation: "From then until I used Foley Kidney Pills I did not know what a well day was. Then my backache left me, that tired dragged down feeling was gone, I slept soundly and awoke refreshed. I had no more headache or dizzy spells." Safe and sure. Try them. For sale by all Druggists of Tecumseh.

Chestnuts are now selling at five cents a glass, live weight.

James Therio, Iron River, Mich., says of Foley's Honey and Tar Compound: "This winter both my children and I was troubled with bad coughs. We used Foley's Honey and Tar Compound and it promptly cured us. I can recommend it as a good cough and cold cure." Contains no opiates For sale by all Druggists of Tecumseh.

when its foundation of health—good digestion—is attacked, quick collapse follows. On the first signs of indigestion, Dr. Ling's New Life Pills should be taken to tone the stomach and regulate liver, kidneys and bowels. Pleasant, easy, safe and only 25 cents at C. A. Wright & Son's.

Wish we could enjoy getting up early in the morning as ardently as we dislike going to bed at night.

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Altson, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at C. A. Wright & Son's.

The girl with freckles usually has too much common sense to worry about them.

"TELLS THE WHOLE STORY"

To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat chest and lungs. Stops la grippe coughs and has a soothing effect. Remember the name, Foley's Honey and Tar Compound, accept no substitues. For sale by all druggists of Tecumseh.

Comedian Relates Story That Would Seem to Be Almost the Limit Even in That Line.

Raymond Hitchcock is to be credited with this story, says the New York correspondent of the Cincinnati Times Star. He deserves it, for of late he has milked cows from the wrong side, fussed with his wife on the deck of an ocean liner and been kicked into the water by a motor boat in his hunt for first page position and something better than a No. 4 headline. "An old friend of mine came to me last winter," said Hitchcock, "and asked me to get him tickets to the show in which I was then appearing. 'I would if I could, old chap,' I said, 'but honestly, I can't get 'em for you. I have no account at the box office. The only way in which I can get you tickets would be to pay for them out of my own pocket.'

"'Aw,' said he, 'any old place will do. I don't care where I sit. See if they won't let you have a pair for me. Explain to 'em that I'm an old friend.'"

Mr. Hitchcock admittedly lost his temper. He pulled a five-dollar bill out of his pocket and walked toward the box office window. They had been standing in the theater lobby. "I'll prove to you," he said, sourly, "that I have been telling the truth." And to the man behind the cash register: "Two seats at a dollar and a half each." And then he handed them to the persistent pass grafter. "Now," said he, "I hope you're satisfied."

"'Yep,' said the other. 'I am, and my wife will be tickled to death. But, gee, my sister-in-law will be disappointed because I only got two.'"

Size and Strength.

Increase of population is not necessarily a good thing of itself, nor is a low birth rate necessarily a bad thing.

Increase of population does not even make any necessary additions to the national strength.

England would be a stronger nation than she is today if her population had not out-run her food supply. Many thoughtful observers believe the same true of Germany.

Patrons of the prize ring used to say that a man weighing 180 pounds weighed enough. A man of that weight was deemed big enough to encounter any adversary, and additional weight was thought as likely to be a hindrance as a help.

The rule may hold good with nations as with men, though to be sure no one knows where to draw the line. But the nation which is much too big to feed itself has taken on a handicap, to say the least.

Jealousy Ended in Murder.

A shocking crime was committed at Bourne End, England, the other day. Dora Hussey, a good-looking girl, about seventeen years of age, employed in a newspaper shop was proceeding from her brother-in-law's house at the close of the day, when she was met by a man to whom it is stated she had been engaged, but with whom some difference had arisen. After a few words, the man is alleged to have fatally cut the girl's throat with a razor, the head being nearly severed from the body. The assailant then turned the weapon upon his own throat.

Horse in Serious Trouble.

An exciting incident occurred at Tweed Dock, Berwick, Scotland, the other day. A horse yoked to a cart was being backed towards the dock side in order to take a load from a ship lying alongside. The animal went a step too far, with the result that the horse and cart fell into the ship. Fortunately the hold was not large enough to admit the cart, but considerable difficulty was experienced in getting the horse ashore. Ropes were tied around the animal's feet, and it was drawn up to the dock side.

FORTY OR FIFTY DEAD

Slight Fire Causes Panic in Picture Show in Spanish Town.

Bilboa, Spain, Nov. 25. — During a bioscope show in a circus here a film blazed up. There was a wild stampede among the audience, which consisted almost wholly of women and children, and the exits were instantly jammed and the panic-stricken young ones caught in a trap.

The attendants and the police were helpless and their efforts at rescue met with poor success. One woman and between forty and fifty children were killed and several women and children injured. The operators extinguished the flames and the building did not catch fire.

HUSK CORN FOR CHURCH

Preacher Drives Wagon While Members of His Flock Work to Pay Debt.

Carmi, Ill., Nov. 25.—To pay off the church debt eighteen women members of the Baptist church drove to a corn field and husked thirty bushels of corn in thirty-three minutes.

The Rev. E. M. Ryan, pastor, drove the wagon, while the women husked the corn, which a local dealer bought for $1 a bushel.

Origin of the Word "Picnic."

Fanny Merritt Farmer, cookery editor of the Woman's Home Companion, presents in the August number of that periodical a number of recipes for good things to prepare for picnics. In the course of her article she gives the following explanation of the origin of the word "picnic."

"Years and years ago, when such outings were being planned, it was customary to have a list passed among those who were to furnish the things to eat and drink, and each one picked out the thing she was willing to supply. It was then 'nicked' off the list. This form of making and signifying your choice became known as pick and nick, which soon was changed into picnic, and in due time the word picnic was applied to the entertainment."

The Wedding Ring.

There are many people who probably do not know that the wedding ring has not always been a plain circle of gold. In bygone days it was set with rich jewels and worn on the first finger of the right hand.

There is a popular superstition about the wearing of the wedding ring on the third finger, and that is that there is a vein that runs direct from that finger to the heart.

But that is by no means the real reason. It is not one of superstition but one of religion. The minister who performs the service used to put the ring first on the thumb saying: "In the name of the Father;" whent on the first finger he said: "And of the Son;" and on the second: "And of the Holy Ghost." Then the amen was reached with the third finger and the ring was put on forever.

Never Too Late to Die.

It's never too late to commit suicide. Mr. Janos Meryessi jumped off the suspension bridge at Budapest because at the age of eighty-four he thought he should soon me unable to support his father, who was one hundred and ten years old. Mr. Meryessi was pulled from the Danube, more dangerous to him than flowing Hunyadi Janos, and a public subscription was organized for the three. But in 1892 a Russian, one Mr. Bulan, killed himself at the age of one hundred and six. He left a letter bewailing the stupidity of modern days. The young Roman gentleman of classic times who killed himself because he was tired of doing the same thing did not wait till he was over one hundred to confirm his suspicions, says a Boston Herald writer.

NORWOOD STOCK CO.

The Norwood Stock Co. presented "The Circus Girl" at the Opera House last evening. It was very nicely played and was a good rendition of the story.

The parts were well taken and every one was interested in the story of the little waif who was the central figure.

To-night "The Night Riders" will be presented and Wednesday night, "Her Fatal Love."

SALINE OBSERVER.

The last issue of the Saline Observer was under the new management Sim E. Wilson. While making no promises as to the future of the paper, he says he will let it speak for itself as time goes by.

The plant is to be moved to more convenient rooms as soon as a good location can be found. An electric motor will be installed to drive the presses, the Observer will be an independent paper.

We wish Mr. Wilson success in his new venture and shall watch with interest the changes that may appear from week to week.

Real Estate Transfer

H. W. Stevens of Tecumseh with Billings and Thompson of Adrian affected a sale Friday, of the John E. Nemire farm of 120 acres to Mr. Conkling of Weston, Mich. Consideration $12,000.

WHOLESALE DEMAND.

Nat Goodwin and a friend were walking along Fifth Avenue one afternoon when they stopped to look into a florist's window, in which there was an artistic arrangement of exquisite roses.

"What wonderful American Beauties those are, Nat," said the friend delightedly

"They are, indeed," replied Nat.

"You see, I am very fond of that flower," continued the friend "In fact, I might say it is my favorite. You know, Nat, I married an American beauty."

"Well," said Nat drily, "you haven't anything on me. I married a cluster."

WOMAN SUFFRAGE.

Suffrage triumphant in the near future is the prophecy of Dr. Anna Shaw, President the of National American Womans Suffrage Association held in Philadelphia recently This meeting was held in Independence Square and was filled to its capacity, men predominating in the crowd and listening with close attention to the speeches.

Already the papers are beginning to talk of utilizing the vote of women in promotion of various reforms, what will probably happen will be the united work of women in the work against the Liquor Traffic and vice and for the betterment of woman everywhere.

High School Notes

This is test week!

Miss Harris was unable to attend to her school duties Monday morning.

Kenneth Pennington has left school.

The German II class had a test Tuesday morning.

The Latin I class had a test Friday morning.

The Sophomore class are going to have a party at the home of Donald Hall Friday evening.

GRANGE

An enthusiastic crowd gathered at Grange Hall last Friday night to vote for State Grange officers. For the first time in history of the Grange in Michigan, every Granger can go to his own Grange Hall this year and vote for State Grange officers without attending the meeting of the State Grange.

An entire township and board was represented, the Worthy Master acting as Supervisor, the Secretary was Township clerk, Miss Edith Smith was assistant clerk and Mrs. C. W. Benedict was Justice of the Peace.

Our new "fellow citizens" received some needed lessons in correct voting and the manner of conducting an election. Mrs. C. H. Bramble was certainly the most rapid and independent voter in the crowd.

TOWN AND CIVIC IMPROVEMENT CLUB.

The meeting of the Town and Civic Improvement Club at the Parish House Friday afternoon was very well attended, and the men were not backward in accepting their invitation to be present. Mrs. Geo. S. Tiffany presided in her usual happy manner. At the close of the business meeting a fine picnic supper was served, after which speeches were made by Reverends Hewitt, Hartzog and Weld complimenting the ladies on their past achievements and hoping for and suggesting many more improvements in the future.

Miss Albertine Boyce of Detroit and Miss Ruth Kimball of Clinton each favored the company with solos, in their usual very charming manner.

The meeting was a great success in every respect and much enjoyed by everyone present.

The Oleander City On Treasure Island.

FROM SAM JAY.

Galveston, Texas,
Nov. 15, 1912.

Dear Editor:—

Old Dame Rumor has it that when Lafitte, the bold buccaneer, made his headquarters on Galveston Island in earlier days, he buried vast sums of gold and treasure in the sand, hence the monaker, "Treasure Island," but what preying pirate has not cached glittering gold and how many credulous folk have searched for it in vain.

The treasure is found, not in the sand and shell of which the island is composed but in the surrounding waters which yield oysters and fish from shrimps to tarpons and transport cargoes to and from all parts of the world. It is found in the salubrious climate, fine surf bathing, excellent shelled roads, magnificent hotel accommodations and good cheer of the people which attracts visitors and tourists with gold to distribute.

Please do not get the impression that this is a dirty old mudhole of a seaport. Nothing of the sort. It is one of the prettiest towns in the Southwest and being unique in its location, has many desirable features not seen in inland towns. The entire site of the city, comprising 4600 acres, has been raised several feet since the disaster of 1900 an immense seawall, boulevard and causeway constructed which required several millions of money and eight years in building.

There are still remaining some 4000 acres to be filled to grade and built up The causeway, which is two miles long and connects with the mainland, is in itself no small accomplishment and has excited the admiration of world famous engineers as well as ordinary people.

The streets are fairly wide and clean paved with asphalt, block or shell and usually lined with rows of red and white oleanders, palms of all kinds and sizes, roses hibuscus, linden and live oak trees.

There are several extra wide avenues with esplanades of oleanders and palms down the center, monuments, fountains, etc., which makes an interesting, perspective and excites ones admiration of the artistic and beautiful.

The grounds surrounding residences —even the poorest house has a flower garden—are filled with luxurious and fragrant vegetation, such as roses, lilies, violets, geraniums, periwinkles, phlox, ferns, cactus, cannas, cape jessamine, chrysanthemums, etc., etc. Plentiful also are the climbers of which the most fragrant—according to my olfactory sense—are the rambler rose, honeysuckle and sweet jessamine. Small shade and flowering trees, including the catalpa, Spanish mimosa, chinaberry, linden, fig, orange and Texas oak dot the landscape in hit and miss fashion but the palms and oleanders are predominant. The dark, glossy leaved magnolia with large, white blossoms, very common on the mainland, does not thrive here—neither does the ham and egg tree.

Evidences of the fact that the idea city beautification has made a wonderful appeal to the urban imagination during the past few years, are abundant and unmistakable. It is true of every section of the country that the people are interested in improving physical, social, ethical esthetical conditions of communities in which they live and there is no more certain sign of a towns decadence than the lack of a movement to beautify it.

The general inferance is that such a town or city either has no hope in its own future or that it is populated largely by those who have no better concern than that of fattening themselves and with no aspirations higher than that of making money. Should you desire to leave the magnificence of the residence section and turn to the sordid side, a walk along the docks and waterfront streets brings one in contact with commerce and labor, ships and sailors, longshoremen, English bluejackets, South American limejuicers, Mexican peons, negro dockwollopers, U. S. Marines, hoboes, business men, bums, boats and booze galore.

BLACK SILK LIQUID STOVE POLISH

This is the Stove Polish YOU Should Use

IT'S different from others because more care is taken in the making and the materials used are of higher grade.

Black Silk Stove Polish

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware dealers.

All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

SAVE THE STOCK
by feeding Dr. Holland's Medicated Stock Salt.
Dont' feed the worms. Ninety per cent of the stock have them.

Worms, like buzzards, are found where there is decay. The food upon which they flourish is the slimy product of undigested food in the stomack and intestines of stock affected with indigestion. The ingredients we have united with salt are especially adapted to stimulate the digestive organs, sweeten the stomach and bowels, neutralize foul gases and deal a death blow to worms

DR. HOLLAND'S MEDICATED STOCK SALT is a Conditioner, Blood Purifier and Worm Destroyer. It makes more Flesh, Milk, Wool, Muscle and Energy from the same amount of feed than can possibly be obtained by any other remedy.

Salt is the Base or Filler of this Preparation.

Each Prescribed Dose is guaranteed fully Medicated.

Just as Scores of Tecumseh People Have

Waiting doesn't pay.

If you neglect kidney backache. Urinary troubles often follow. Doan's Kidney Pills are for kidney backache, and for other kidney ills, Tecumseh citizens endorse them.

J. B. Smith, E. Chicago St., Tecumseh, Mich., says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago. I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs. Peter Holan, 11501 Buckeye Road, S. E., Cleveland, O., had a little son with a bad case of whooping cough. She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh.

Porto Rico's New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. TRAIN MEN ON STRIKE

Leave Work in Big Pennsylvania Steel Plants.

Demand Advance of 70 Cents a Day and Threaten Repetition of Big Homestead Disturbance.

Pittsburg, Nov. 25.—Six hundred more train men employed in the yards and mills of the steel corporation plants have quit. Nearly 1,000 trainmen are out in the Homestead and Edgar Thompson plants and at the Carrie furnaces. The men demand an advance of 70 cents a day.

The seriousness of the present strike was fully realized when officers of the steel company said the three big plants may be forced to shut down. This would put in idleness 20,000 men, the combined working forces of the plants. The men, gathering in groups in the streets of Homestead and Duquesne, assert they will force the company to accede to their demands or start the biggest strike since the Homestead strike and riots of 1892.

Since the Homestead strike of 1892 the mills of the Monongahela and Turtle Creek valley have maintained the open shop and the Carnegie's first, and the Steel corporation officials later, repulsing all attempts to unionize.

REMOVE BAN ON POLITICS

Suffrage Association Permits Officers to Take Part in Campaigns.

Philadelphia, Nov. 25.—Officers of the National Women's Suffrage association can take part in partisan politics in any state if they want to. After a long and spirited debate at the organization's convention, an amendment prohibiting such participation was overwhelmingly defeated.

Up to the time Miss Jane Addams seconded the nomination of Colonel Theodore Roosevelt in the Progressive convention at Chicago, it had been the unwritten rule in the association that officers should hold aloof from partisan politics, except in states where women had the right to vote. The proposed amendment, it was declared, was aimed at Miss Addams, and she accepted the challenge and fought the proposition with vigor.

Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

MRS. LILA B. HAWKINS, of Zeus, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble and I was getting very bad but, thanks to Doctor Pierce's medicines, I am well and strong again. I took only three bottles of 'Favorite Prescription,' and used the 'Lotion Tablets.' I have nothing but praise for Doctor Pierce's wonderful medicines."

Hymn Led to Matrimony.

To that great hymn, "Lead Kindly Light," have been attributed many strange moral and temperamental effects, but the hymn's first known excursion into the realms of romance was crowned at Los Angeles, Cal., one night recently, with the marriage of Deputy City Prosecutor William D. McConnell and Miss Elizabeth Belle Oliver, a prominent society and club girl, was celebrated. McConnell and his bride both possess excellent voices. One Sunday after a white-gloved freckcoated Cupid disguised as an usher had seated McConnell in the same pew with Miss Oliver and her mother, the young attorney was unable to find a hymn book, and Miss Oliver proffered half her hymnal. Together her clear contralto and his powerful tenor swelled and soared through the triumphant notes of the hymn often spoken of as the greatest ever written. When the singers were introduced it was practically all over with them.

Curious Resemblance.

The attention of the numerous visitors to the Natural History museum of London was recently directed to the remarkable resemblance between the specimen of the huge African elephant and the small shrew mouse. A distinguished naturalist suggested the comparison and as a result it was found that practically every bone, blood vessel, muscle and nerve in the elephant was found to be the same as in the mouse, which is about two inches in length. A stuffed mouse has recently been placed between the forefeet of the elephant to show the curious resemblance.—Boys' World.

Dr. Cook May Try Again.

To the first newspaper man who called on Dr. Cook in Berlin the explorer said: "My lectures in Germany will not be given for the purpose of making money. I hope simply to make my work known." The reporter says: "Cook has modified his claims. He no longer says, 'I reached the pole,' but 'On April 21, 1908, I arrived at a point on an ice floe which, according to my calculations could be designated as the north pole.'" Cook also spoke hopefully of an expedition to the farthest north point by Zeppelin balloon.

Bars the "Marseillaise."

The kaiser refuses to listen to the revolutionary strains of the "Marseillaise." Since he came to the throne he has never allowed the French national hymn to be played at his court, at any of the state theaters or by any German naval or military band. When he entertains the French ambassador at dinner or receives him in state and wishes to pay him musical honors, he orders the musicians to play the old "Marche de St. Denis," which is in every sense of the word a Bourbon hymn.

Enforce Wireless Telegraph Law.

A fine of $100, the first to be imposed under the wireless telegraph law of 1910, was recently collected from the captain of the coastwise steamer Sabine, for sailing without a wireless operator. The law requires all vessels that carry more than fifty passengers and crew, and to go two hundred miles or more without stopping, to be equipped with wireless apparatus and to have a wireless operator.

MAKING THE HOME UNHAPPY

Too Frequent Losses of Temper Result in Much Misery Which Might Easily Be Avoided.

Possessing apparently all the essentials that make for comfort, ease, and happiness, more than a few homes fail to give this expected result, and someone has asked: What is generally the cause of this?

To put it very plainly, unnecessary exhibitions of temper more quickly than anything else mar the harmony of a home. There may not be open strife, but temper, as little rifts within the lute, give out incessant discords. Brothers and sisters, each, perhaps, with an unconscious craving to manage or suppress the other, may never have been taught to realize the powerful influence of tact, and their little comments and bickerings will quickly rouse disputes that may make the onlooking parents heartsick. The husband and wife, tired with the work of the day, irritated that their wishes have not been carried out, that on them fall annoyance and duties which they feel should belong to others, that difficulties seem ever in their path, and so on, will perhaps voice their displeasure and strike a responsive note of irritation in the rest, and quickly the whole atmosphere is charged with the poison of bitterness and resentment.

A little more care in restraining temper, especially about the trivialities and nonessentials of happy existence, and the peace that should reign in a home, whatever its material setting, would more often be left undisturbed. Exhibitions of temper in children, no matter what the cause, should always be taken as a fault to be eradicated. This does not crush the spirit of indignation at wrong, or weaken the fighting instinct, but it does aid in averting hasty judgments, and give time for viewing the case from many points.—Exchange.

IS NO LONGER PUT FIRST

Much Truth About Health in Article That Probably Is Meant to Be Humorous.

Health is a matter which was once very popular, but it has long since grown into disfavor. In these strenuous days the securing of health consumes altogether too much time. It cannot be acquired without detention from business. Not only does it interfere with business, but with pleasure as well.

Health requires too much sleep, too much fresh air, too much food of a vulgar simplicity and too many clothes which are more comfortable than stylish. Health is like anything else. In order to have it one must give attention to securing it, but when the securing of money engrosses all of one's time, manifestly health must take a back seat. We still have traditions about health much like the traditions about the soul, but these take a secondary place. Doctors, like ministers, are called in only when it is too late.

Health made a manful struggle for supremacy with bank balances, but it lost out.—Life.

Hittites in History.

Students of history are deeply indebted for the great progress which has recently been made in the discovery and interpretation of the art and religion of the ancient, mysterious and well-nigh forgotten Hittites, and their true relation and perspective in history. German excavation at Boghaz-Kenij have shown that this long-unknown town—probably the site of the Cappadocian city of Pteria—was for centuries the capital of a powerful kingdom, which, with its allies, was a dominant force in Asia, on equal terms with the rulers of Babylonia and the Pharaohs, and driving them out of Syria.

The names of seven or eight Hatti kings have been preserved, and several of them are now more than names. Other finds give strong testimony to the influence of Babylonian culture as far north as Cappadocia, and show that a long period of development must have preceded the condition of society ruled over by these Hatti kings, some archeologist believing that it extended over more than 2,000 years.

Finger Stall for Child.

Every mother of a small son knows how well nigh impossible it is to keep a bandage on his finger. Also, how frequently little boys' fingers are in need of bandaging. Before throwing away old kid gloves cut off the good fingers for "finger stalls" for the boy. Cut the under side short, but let the top run back to the wrist of the glove; then split this strip to form straps to fasten around the child's wrist with a small safety pin. These stalls will be quite large enough to cover the bandaged finger of a small child and will save endless time and worry, says Mothers' Magazine. For larger children use fingers from a man's glove.

Repartee.

It is perfect, when it effects its purpose with a double edge. Repartee is the highest order of wit, as it bespeaks the coolest yet quickest exercise of genius at a moment when the passions are roused.

Voltaire, on hearing the name of Haller mentioned to him by an English traveler at Ferney, burst forth into a violent panegyric upon him; his visitor told him that such praise was most disinterested, for that Haller by no means spoke so highly of him. "Well, well, n'importe," replied Voltaire, "perhaps we are both mistaken."

Watches Found in Lake.

Interest in the robbery of a Kirkcaldy (Scotland) jeweler's window, which took place about a month ago, was revived, when it became known that two boys the sons of an official on Raith estate, while fishing in Raith lake, had hooked two gentlemen's watches from amongst the mud at the bottom. As a number of gold watches were among the proprety stolen from the jeweler's shop, it was supposed this might be part of the booty. Information was conveyed to the police, who, however, state that the watches are not those which were stolen in the recent burglary. How the watches came to be in the lake is a mystery.

Telephone as Nursemaid.

At Platte Fougere lighthouse station, Guernsey, the baby is put out on the common to sleep in the open air. In the pram is a cigar box containing a telephone transmitter and a clock. Wires running to the house enable the busy mother to listen for baby's cry at intervals of work, or continuously if seated at the table. The ticking of the clock indicates that the transmitter is working properly.—London Strand.

ENGINEERS GET RAISE OF WAGES

Board of Arbitration Does Not Grant All Demands.

OTHERS MAY ASK INCREASES

Firemen and Other Employes Expected to Come Forward Asking Higher Pay—Railroads Will Seek Higher Freights.

Washington, Nov. 25.—The thirty thousand locomotive engineers of the eastern railroads have won their fight for an increase in wages. The board of arbitration between the railroads and the engineers in its award now made public does not grant all of the engineers' demands, but establishes minimum wages which amount to a substantial increase on most of the roads.

May Mean More Demands.

The award by the board of arbitration probably brings the fifty-two railroads of the east face to face with demands for increased wages by the firemen and other employes.

Notwithstanding the increase in compensation, the representative of the engineers' board dissents from the award and says the settlement accepted by it can be only temporary. The award is retroactive, running for only one year from May 1, 1912. This means that within five months the railroads of the east probably will be confronted by further demands from the engineers and again may have to meet the possibility of a strike.

The railroads estimated that the demands on the part of the engineers if granted would entail an additional expenditure of $7,172,000 a year. If the same percentage of increase were granted to other employes the additional expense would amount in all to $67,000,000.

The board of arbitration expresses the opinion that this total is too high, but it does not attempt to give exact figures as to the additional burden that the award may impose upon the railroads of the east.

May Try to Raise Freight Rates.

The findings of the arbitration board are regarded here as practically insuring a renewed attempt on the part of the railroads to raise freight rates. The chief contention of the railroads in opposing the engineers' demands was that they were unable financially to meet the increased compensation asked. The board of arbitration waives this question aside and holds that if the railroads are not able to pay a fair compensation to their engineers with existing rates there is just cause for them to open again the question of an increase in rates with the interstate commerce commission.

P. P. Morrissey the representative of the organized engineers on the board, expresses bitter opposition to this compulsory arbitration plan and the indications are that it will raise a mighty protest from the labor world. The engineers' representative finds fault also with other features of the award, particularly the failure of the board to uphold their demands for standardization of wages and for different pay for different classes of engineers.

Features of the Award.

The more important features of the award are: A minimum wage of [illegible] per 100 miles or less for engineers in passenger service, with an overtime rate of 50 cents per hour with an average speed of twenty miles per hour; a minimum of $4.75 for engineers in through freight service per day of 100 miles or less, with overtime pro rate after ten hours; 25 cents additional per day in local freight service, and $4.10 per day of ten hours or less in switching service. All existing rates higher than these minimum are continued in force.

MRS. LINDLOFF LOSES PLEA

Woman Convicted of Son's Murder Is Denied New Trial by Judge.

Chicago, Nov. 25.—Judge Windes denied a motion for a new trial in the case of Mrs. Louise Lindloff, convicted of having poisoned her son Arthur with a compound of arsenic and barium.

Appeal to the state supreme court probably will be made. Mrs. Lindloff's punishment had been fixed at twenty-five years in the penitentiary.

FIND GAS IN DAVIESS COUNTY

Drillers Are Burned When Torches Ignite Unexpected Flow.

Washington, Ind., Nov. 25.—Excitement is intense in Reeve township, following the discovery of a strong flow of gas on the old Griffin farm. This flow was encountered at a depth of 375 feet, in what is known as the Loogootee sand. The well has been capped, awaiting instructions from the officials of the J. H. Duffy Oil and gas company of Pittsburg, which opened the well.

The discovery of the gas at the depth it was encountered was wholly unexpected and the drillers were not prepared to take care of the flow. The gas ignited from the torches about the derrick and the housing was destroyed by fire, together with the clothing of the drillers.

Fireman Killed in Collision.

Danville, Ill., Nov. 25.—W. D. Donaldson, fireman, was killed and three other trainmen were injured when two Chicago and Eastern Illinois engines, running light with cabooses, collided head on.

NO SPECIAL SESSION

Governor Osborn Will Not Call Legislators Together.

Makes Announcement After Conference with Governor-Elect Ferris.

Lansing, Mich., Nov. 23. — "There will not be a special session of the legislature," announced Governor Osborn, after a two-hour conf[illegible] the incoming governor and I are in accord as to legislation Michigan needs and I am going to leave it to him to take these matters up with the new legislature." Turning to the man who will succeed him Governor Osborn added: "It is all right for me to say that, is it not?" and Mr. Ferris replied, "Surely. I think we have a good understanding on these matters."

Mr. Ferris will come to Lansing a few days before Jan. 1, but he will not take up his residence here. He announces, however, that he will put all his time in on the job.

The state institutions will receive a visit from the new executive between now and the first of the year. Mr. Ferris announces that he proposes to make the rounds and inquire into conditions in order to ascertain just what the situation is in each of them.

RAM GOES ON RAMPAGE

Tries to Reach Man Through Window, Then Batters In Door.

Hastings, Mich., Nov. 23. — While engaged in repairing some shoes in his home in Hope township Frank Horn roused the anger of a huge ram, which made a furious charge through a window, smashing the glass and part of the window frame. Horn was unaware of the presence of the buck until he heard the crash of glass and saw the head of the infuriated animal.

Unable to reach his prey through the window, the ram withdrew his head and began to batter the door. Knowing that the door could not stand the strain, Horn rushed to the telephone and summoned the neighbors to his rescue. Half a dozen men responded and after considerable risk succeeded in lassoing the animal, which they tied up until Lewis Acker, his owner, came after him and offered to settle damages.

FIRE IN ROYAL OAK, MICH.

Town with 2,000 Inhabitants Has No Water Supply.

Detroit, Mich., Nov. 26.—Flames swept the village of Royal Oak. The town, which has a population of about 2,000, is without water supply.

Early reports were that many houses had already been destroyed and the flames driven by the high wind were said to have gained momentum and the destruction of the village was feared.

RAYNER LOSES IN H[illegible] BATTLE WITH DE[illegible]

Maryland Senator Dies [illegible] National Capital.

His Illness Covered a Period [illegible] Years, but Complications [illegible] About Six Weeks A[illegible] Sketch of Career.

[illegible] in Washington, a victim of neuritis.

Senator Rayner's illness covers a period of five years. Complications began about six weeks ago and his serious illness dates from that time. He attempted to enter actively into the Democratic campaign and met Bourke Cochran in joint debate at Baltimore late in September. The effort exhausted him and he became seriously ill immediately afterward.

Senator Rayner was one of several men whose names William J. Bryan suggested as suitable candidates for the presidential nomination.

Senator Rayner was one of the ablest men and most fearless fighters in either house of congress. He was a steadfast believer in progress. He consistently championed the direct election of senators and he consistently fought the Aldrich tariff and currency plan.

Born of Jewish Parents.

Senator Rayner was born at Baltimore April 11, 1850, of Jewish parents. His father was William S. Rayner, descended from a long line of able Jews who settled in Baltimore in the early days. Senator Rayner always kept in close touch with the liberal Jewish element of the country.

Senator Rayner went outside his faith for a wife. He married Miss Frances Jane Bevan in 1871. Their children have been reared in the faith of their mother.

Senator Rayner married soon after he was graduated from the University of Virginia. He rose rapidly in the practice of law. In 1878 he was elected to the lower house of the Maryland legislature. He served one term. Eight years later he was sent to the state senate. He did not competel his term, and in 1878 he was elected congressman. He served three full terms in congress, but not successive terms.

In 1899 he was elected attorney general of Maryland. He served until 1903. Two years later he was eledted to the United States senate. He was re-elected last year.

Conducted Admiral Schley's Case

Rayner's service, which first brought him into wide public notice was when he conducted the case of Admiral Winfield Scott Schley before the naval court of inquiry in the famous Sampson-Schley controversy in 1901.

The whole influence of a powerful naval and bureaucratic cabal was turn against Schley, as indeed it had been turned from the beginning of the Spanish war. A persistent effort had been made to mold Admiral Sampson into the outer semblance of a hero and a great naval strategist, but destiny foiled that plot when it took Sampson out of the fighting line on the morning of Cervera's dash at Santiago.

In conducting Schley's case before the naval court of inquiry, Rayner vindicated his client, tore the cabal to pieces and covered himself with glory. The collapse of the bureaucratic witnesses against Schley, under Rayner's grueling cross-examination, is still remembered by those who are interested in naval affairs.

HOLLAND — Peace was finally restored at Hope college when the thirty-six members of the A class were reinstated upon handing in written apologies for taking part in the annual class rush. As a result no more class rushes will be tolerated.

COURTNEY IS STILL HELD FOR ROBBERY

Arraigned in Flint for Genesee Burglary Job.

Must Face Charge of Robbing Mount Morris Postoffice Five Years Ago.

[illegible] the Detroit jail, will be brought to this city for arraignment on a charge of burglarizing the postoffice at Mount Morris five years ago.

At the time of the issuance of the warrant against him here, Courtney was under arrest in Macomb county on suspicion of having been implicated in a postoffice safe-blowing job at New Baltimore. While awaiting trial he broke jail at Mt. Clemens and skipped to California, where he was later recaptured. The trial of his case at Mt. Clemens resulted in a disagreement of the jury. A chance of venue was later granted, and at the second trial at Port Huron last week the accused was acquitted. Instead of being released, however, he was held for the Genesee county authorities under the five-year-old warrant.

During nearly all the time he was held for the New Baltimore burglary, Courtney was confined in the Detroit jail as a precaution against the second attempt on his part to regain his freedom, and rather than take any chances in that direction Sheriff Parkhurst will have him returned to Detroit after his arraignment here, pending the trial of his case in the local circuit court.

TAKES BLAME FOR THEFT

Actor Sentenced to Prison for Larceny of Diamond.

Grand Rapids, Mich., Nov. 25.—Harold Knowlin, charged with attempted theft, was sentenced to Ionia reformatory by Superior Court Judge Stuart on a plea of guilty, for a term of one to five years with a recommendation of three years.

Knowlin came here with his wife from Muskegon where they left a theatrical company with which they were engaged. They visited a local jewelry store to look at diamonds and Knowlin attempted to conceal one of the unset stones. Knowlin assumed all blame and pleaded to save his wife from conviction. Her case was continued.

M. A. C. FULFILLS MISSION

City Pupils Take Farming and Farmers Other Courses.

Lansing, Mich., Nov. 25.—The annual report of the Michigan Agricultural college shows that the institution housed 1,702 pupils last year. It cost $489,714 to dispense lessons in agriculture, dairying, engineering, domestic science and other courses to that number. The figures show that college is still fulfilling the purpose for which it was founded, agriculture, as that course proved the most popular.

As a rule, the city students take up that course while many farmer boys pursue the other branches of which engineering is the most popular. One student from New York city, who never saw a farm, is taking the "Ag." course.

LANSING — Figuring according to the applications for licenses filed with the secretary of state, there are twice as many motorcycle enthusiasts this year as last. Three thousand six hundred and sixteen secured licenses this year, and but 1,800 in 1911. A large percentage of the machines are owned by Detroit people. The records show that 40,000 owners of automobiles secured licenses in 1912, as compared with 27,000 applications in 1911.

TURKEY REJECTS THE TERMS OF THE ALLIES

Porte Refuses Conditions Proposed by Balkans.

Harshness of Demands Is Too Much for Proud Ottoman and He Will [illegible]

The Turkish government has rejected the terms of the allies. The troops of Nazim Pasha in Tchataldja forts took up their arms again. And in Constantinople, once more, there comes the sound of artillery fire, telling the people of the sultan's city that the fighting is on again.

Allies Asked Too Much.

The action of the Ottoman government comes as no surprise to diplomats. The surrender of Adrianople, Scutari, Janina and Driba, and the evacuation of the Tchataldja lines, the terms under which the allies said they would forego their entrance into Constantinople, made too bitter a pill for the proud palate of the Ottoman.

The official announcement of the terms simply said:

"The porte, finding the Bulgarian conditions for an armistice unacceptable, has ordered Nazim Pasha to resume military operations."

The grand vizier, Kiamil Pasha, spoke bitterly of the harshness of the terms. He said that he had received them from the Russian ambassador. Turkey's acceptance of them was impossible, he said.

War Carried Upon Waters.

There comes word of a naval engagement between a Turkish cruiser and Bulgarian torpedo boats in the Black sea, where each side claims the victory.

There is evidently fighting going on in the waters of the Marmora sea, for the sound of firing could be heard off the southern entrance of the Bosphorus in Constantinople.

Athens received a dispatch telling of the victory of her troops over the defeated Turkish troops falling back from captured Monastir. The Greeks say they caught up with and cut to pieces the rear guard and then pressed on to engage the main body near Florina, where there was a heavy battle. No details of the result of the fighting had reached Athens.

Three classes of the Austrian reservists have been called out, says the Chronicle's Vienna correspondent. About 300,000 men, he says, have been massed around the Servian frontier and steady preparations are going forward in Galicia.

"It is reported that the Don Cossacks have been mobilized and that the Russian authorities are holding all available rolling stock on the lines running to the Austrian frontier," says a dispatch to the Daily Mail from Vienna. "Five large bridges spanning the Danube here have been closely watched. The sentries have been doubled to prevent tampering with the bridges. On the whole, safety depends on the railway communications with the northern part of the empire.

$1,930,000 FOR HOE BOOKS

Greatest Library Sale In History Is Brought to an End.

In New York City the auction sale of the Robert Hoe library, the greatest event of its kind in history, ended with the disposal of the last volumes in part IV.

The proceeds of the entire sale will amount to about $1,930,000, falling just a few thousand dollars short of the $2,000,000 total which was predicted by experts when the selling of the great library began a year and a half ago.

TAKE IT IN TIME

Just as Scores of Tecumseh People Have

Waiting doesn't pay.

If you neglect kidney backache.

Urinary troubles often follow.

Doan's Kidney Pills are for kidney backache, and for other kidney ills.

Tecumseh citizens endorse them.

J. B. Smith, E. Chicago St., Tecumseh, Mich, says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago. I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs. Peter Holan, 11501 Buckeye Road, S. E., Cleveland, O., had a little son with a bad case of whooping cough. She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes Indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh.

Porto Rico's New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and $1.00. TRAIN MEN ON STRIKE

Leave Work in Big Pennsylvania Steel Plants.

Demand Advance of 70 Cents a Day and Threaten Repetition of Big Homestead Disturbance.

Pittsburg, Nov. 25. — Six hundred more train men employed in the yards and mills of the steel corporation plants have quit. Nearly 1,000 trainmen are out in the Homestead and Edgar Thompson plants and at the Carrie furnaces. The men demand an advance of 70 cents a day.

The seriousness of the present strike was fully realized when officers of the steel company said the three big plants may be forced to shut down. This would put in idleness 20,000 men, the combined working forces of the plants. The men, gathering in groups in the streets of Homestead and Duquesne, assert they will force the company to accede to their demands or start the biggest strike since the Homestead strike and riots of 1892.

Since the Homestead strike of 1892 the mills of the Monongahela and Turtle Creek valley have maintained the open shop and the Carnegie's first, and the Steel corporation officials later, repulsing all attempts to unionize.

REMOVE BAN ON POLITICS

Suffrage Association Permits Officers to Take Part in Campaigns.

Philadelphia, Nov. 25.—Officers of the National Women's Suffrage association can take part in partisan politics in any state if they want to. After a long and spirited debate at the organization's convention, an amendment prohibiting such participation was overwhelmingly defeated.

Up to the time Miss Jane Addams seconded the nomination of Colonel Theodore Roosevelt in the Progressive convention at Chicago, it had been the unwritten rule in the association that officers should hold aloof from partisan politics, except in states where women had the right to vote. The proposed amendment, it was declared, was aimed at Miss Addams, and she accepted the challenge and fought the proposition with vigor.

CALLS FRIEND; FOUND SHOT

Beloit (Wis.) Postmaster Seriously Wounded in Suicide Attempt.

Beloit, Wis., Nov. 25.—D. B. Worthington, postmaster and principal owner of the Beloit Daily News, was found on the floor of the postoffice with a bullet wound in his head. A revolver was found near by.

Although seriously injured, it is believed that Worthington may recover. Just before the shooting occurred, Worthington had telephoned friends at the Elks' club, asking them to come to the postoffice.

Will Ask Slayer's Parole.

Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pierce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such cases. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

MRS. LILA B. HAWKINS, of Zeus, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble and I was getting very bad but, thanks to Doctor Pierce's medicines, I am well and strong again. I took only three bottles of 'Favorite Prescription,' and used the 'Lotion Tablets.' I have nothing but praise for Doctor Pierce's wonderful medicines."

Hymn Led to Matrimony.

To that great hymn, "Lead Kindly Light," have been attributed many strange moral and temperamental effects, but the hymn's first known excursion into the realms of romance was crowned at Los Angeles, Cal., one night recently, with the marriage of Deputy City Prosecutor William D. McConnell and Miss Elizabeth Belle Oliver, a prominent society and club girl, was celebrated. McConnell and his bride both possess excellent voices. One Sunday after a white-gloved frock-coated Cupid disguised as an usher had seated McConnell in the same pew with Miss Oliver and her mother, the young attorney was unable to find a hymn book, and Miss Oliver proffered half her hymnal. Together her clear contralto and his powerful tenor swelled and soared through the triumphant notes of the hymn often spoken of as the greatest ever written. When the singers were introduced it was practically all over with them.

Curious Resemblance.

The attention of the numerous visitors to the Natural History museum of London was recently directed to the remarkable resemblance between the specimen of the huge African elephant and the small shrew mouse. A distinguished naturalist suggested the comparison and as a result it was found that practically every bone, blood vessel, muscle and nerve in the elephant was found to be the same as in the mouse, which is about two inches in length. A stuffed mouse has recently been placed between the forefeet of the elephant to show the curious resemblance.—Boys' World.

Dr. Cook May Try Again.

To the first newspaper man who called on Dr. Cook in Berlin the explorer said: "My lectures in Germany will not be given for the purpose of making money. I hope simply to make my work known." The reporter says: "Cook has modified his claims. He no longer says, 'I reached the pole,' but 'On April 21, 1908, I arrived at a point on an ice floe which, according to my calculations could be designated as the north pole.'" Cook also spoke hopefully of an expedition to the farthest north point by Zeppelin balloon.

Bars the "Marseillaise."

The kaiser refuses to listen to the revolutionary strains of the "Marseillaise." Since he came to the throne he has never allowed the French national hymn to be played at his court, at any of the state theaters or by any German naval or military band. When he entertains the French ambassador at dinner or receives him in state and wishes to pay him musical honors, he orders the musicians to play the old "Marche de St. Denis," which is in every sense of the word a Bourbon hymn.

Enforce Wireless Telegraph Law.

A fine of $100, the first to be imposed under the wireless telegraph law of 1910, was recently collected from the captain of the coastwise steamer Sabine, for sailing without a wireless operator. The law requires all vessels that carry more than fifty passengers and crew, and to go two hundred miles or more without stopping, to be equipped with wireless apparatus and to have a wireless operator.

MAKING THE HOME UNHAPPY

Too Frequent Losses of Temper Result in Much Misery Which Might Easily Be Avoided.

Possessing apparently all the essentials that make for comfort, ease, and happiness, more than a few homes fail to give this expected result, and someone has asked: What is generally the cause of this?

To put it very plainly, unnecessary exhibitions of temper more quickly than anything else mar the harmony of a home. There may not be open strife, but temper, as little rifts within the lute, give out incessant discords. Brothers and sisters, each, perhaps, with an unconscious craving to manage or suppress the other, may never have been taught to realize the powerful influence of tact, and their little comments and bickerings will quickly rouse disputes that may make the onlooking parents heartsick. The husband and wife, tired with the work of the day, irritated that their wishes have not been carried out, that on them fall annoyance and duties which they feel should belong to others, that difficulties seem ever in their path, and so on, will perhaps voice their displeasure and strike a responsive note of irritation in the rest, and quickly the whole atmosphere is charged with the poison of bitterness and resentment.

A little more care in restraining temper, especially about the trivialities and nonessentials of happy existence, and the peace that should reign in a home, whatever its material setting, would more often be left undisturbed. Exhibitions of temper in children, no matter what the cause, should always be taken as a fault to be eradicated. This does not crush the spirit of indignation at wrong, or weaken the fighting instinct, but it does aid in averting hasty judgments, and give time for viewing the case from many points.—Exchange.

IS NO LONGER PUT FIRST

Much Truth About Health in Article That Probably Is Meant to Be Humorous.

Health is a matter which was once very popular, but it has long since grown into disfavor. In these strenuous days the securing of health consumes altogether too much time. It cannot be acquired without detention from business. Not only does it interfere with business, but with pleasure as well.

Health requires too much sleep, too much fresh air, too much food of a vulgar simplicity and too many clothes which are more comfortable than stylish. Health is like anything else. In order to have it one must give attention to securing it, but when the securing of money engrosses all of one's time, manifestly health must take a back seat. We still have traditions about health much like the traditions about the soul, but these take a secondary place. Doctors, like ministers, are called in only when it is too late.

Health made a manful struggle for supremacy with bank balances, but it lost out.—Life.

Hittites in History.

Students of history are deeply indebted for the great progress which has recently been made in the discovery and interpretation of the art and religion of the ancient, mysterious and well-nigh forgotten Hittites, and their true relation and perspective in history. German excavation at Boghaz-Keni have shown that this long-unknown town—probably the site of the Cappadocian city of Pteria—was for centuries the capital of a powerful kingdom, which, with its allies, was a dominant force in Asia, on equal terms with the rulers of Babylonia and the Pharaohs, and driving them out of Syria.

The names of seven or eight Hatti kings have been preserved, and several of them are now more than names. Other finds give strong testimony to the influence of Babylonian culture as far north as Cappadocia, and show that a long period of development must have preceded the condition of society ruled over by these Hatti kings, some archeologist believing that it extended over more than 2,000 years.

Finger Stall for Child.

Every mother of a small son knows how well nigh impossible it is to keep a bandage on his finger. Also, how frequently little boys' fingers are in need of bandaging. Before throwing away old kid gloves cut off the good fingers for "finger stalls" for the boy. Cut the under side short, but let the top run back to the wrist of the glove; then split this strip to form straps to fasten around the child's wrist with a small safety pin. These stalls will be quite large enough to cover the bandaged finger of a small child and will save endless time and worry, says Mothers' Magazine. For larger children use fingers from a man's glove.

Repartee.

It is perfect, when it effects its purpose with a double edge. Repartee is the highest order of wit, as it bespeaks the coolest yet quickest exercise of genius, at a moment when the passions are roused.

Voltaire, on hearing the name of Haller mentioned to him by an English traveler at Ferney, burst forth into a violent panegyric upon him; his visitor told him that such praise was most disinterested, for that Haller by no means spoke so highly of him. "Well, well, n'importe," replied Voltaire, "perhaps we are both mistaken."

Watches Found in Lake.

Interest in the robbery of a Kirkcaldy (Scotland) jeweler's window, which took place about a month ago, was revived, when it became known that two boys the sons of an official on Raith estate, while fishing in Raith lake, had hooked two gentlemen's watches from amongst the mud at the bottom. As a number of gold watches were among the proprety stolen from the jeweler's shop, it was supposed this might be part of the booty. Information was conveyed to the police, who, however, state that the watches are not those which were stolen in the recent burglary. How the watches came to be in the lake is a mystery.

Telephone as Nursemaid.

At Platte Fougere lighthouse station, Guernsey, the baby is put out on the common to sleep in the open air. In the pram is a cigar box containing a telephone transmitter and a clock. Wires running to the house enable the busy mother to listen for baby's cry at intervals of work, or continuously if seated at the table. The ticking of the clock indicates that the transmitter is working properly.—London Strand.

ENGINEERS GET RAISE OF WAGES

Board of Arbitration Does Not Grant All Demands.

OTHERS MAY ASK INCREASES

Firemen and Other Employes Expected to Come Forward Asking Higher Pay—Railroads Will Seek Higher Freights.

Washington, Nov. 25. — The thirty thousand locomotive engineers of the eastern railroads have won their fight for an increase in wages. The board of arbitration between the railroads and the engineers in its award now made public does not grant all of the engineers' demands, but establishes minimum wages which amount to a substantial increase on most of the roads.

May Mean More Demands.

The award by the board of arbitration probably brings the fifty-two railroads of the east face to face with demands for increased wages by the firemen and other employes.

Notwithstanding the increase in compensation, the representative of the engineers' board dissents from the award and says the settlement accepted by it can be only temporary. The award is retroactive, running for only one year from May 1, 1912. This means that within five months the railroads of the east probably will be confronted by further demands from the engineers and again may have to meet the possibility of a strike.

The railroads estimated that the demands on the part of the engineers if granted would entail an additional expenditure of $7,172,000 a year. If the same percentage of increase were granted to other employes the additional expense would amount in all to $67,000,000.

The board of arbitration expresses the opinion that this total is too high, but it does not attempt to give exact figures as to the additional burden that the award may impose upon the railroads of the east.

May Try to Raise Freight Rates.

The findings of the arbitration board are regarded here as practically insuring a renewed attempt on the part of the railroads to raise freight rates. The chief contention of the railroads in opposing the engineers' demands was that they were unable financially to meet the increased compensation asked. The board of arbitration waives this question aside and holds that if the railroads are not able to pay a fair compensation to their engineers with existing rates there is just cause for them to open again the question of an increase in rates with the interstate commerce commission.

P. P. Morrissey the representative of the organized engineers on the board, expresses bitter opposition to this compulsory arbitration plan and the indications are that it will raise a mighty protest from the labor world. The engineers' representative finds fault also with other features of the award, particularly the failure of the board to uphold their demands for standardization of wages and for different pay for different classes of engineers.

Features of the Award.

The more important features of the award are: A minimum wage of $4.25 per 100 miles or less for engineers in passenger service, with an overtime rate of 50 cents per hour with an average speed of twenty miles per hour; a minimum of $4.75 for engineers in through freight service per day of 100 miles or less, with overtime pro rate after ten hours; 25 cents additional per day in local freight service, and $4.10 per day of ten hours or less in switching service. All existing rates higher than these minimum are continued in force.

FIND GAS IN DAVIESS COUNTY

Drillers Are Burned When Torches Ignite Unexpected Flow.

Washington, Ind., Nov. 25.—Excitement is intense in Reeve township, following the discovery of a strong flow of gas on the old Griffin farm. This flow was encountered at a depth of 375 feet, in what is known as the Loogootee sand. The well has been capped, awaiting instructions from the officials of the J. H. Duffy Oil and gas company of Pittsburg, which opened the well.

The discovery of the gas at the depth it was encountered was wholly unexpected and the drillers were not prepared to take care of the flow. The gas ignited from the torches about the derrick and the housing was destroyed by fire, together with the clothing of the drillers.

NO SPECIAL SESSION

Governor Osborn Will Not Call Legislators Together.

Makes Announcement After Conference with Governor-Elect Ferris.

Lansing, Mich., Nov. 23. — "There will not be a special session of the legislature," announced Governor Osborn, after a two-hour conference with Governor-Elect Ferris.

"I find the incoming governor and I are in accord as to legislation Michigan needs and I am going to leave it to him to take these matters up with the new legislature." Turning to the man who will succeed him Governor Osborn added: "It is all right for me to say that, is it not?" and Mr. Ferris replied, "Surely. I think we have a good understanding on these matters."

Mr. Ferris will come to Lansing a few days before Jan. 1, but he will not take up his residence here. He announces, however, that he will put all his time in on the job.

The state institutions will receive a visit from the new executive between now and the first of the year. Mr. Ferris announces that he proposes to make the rounds and inquire into conditions in order to ascertain just what the situation is in each of them.

RAM GOES ON RAMPAGE

Tries to Reach Man Through Window, Then Batters in Door.

Hastings, Mich., Nov. 23. — While engaged in repairing some shoes in his home in Hope township Frank Horn roused the anger of a huge ram, which made a furious charge through a window, smashing the glass and part of the window frame. Horn was unaware of the presence of the buck until he heard the crash of glass and saw the head of the infuriated animal.

Unable to reach his prey through the window, the ram withdrew his head and began to batter the door. Knowing that the door could not stand the strain, Horn rushed to the telephone and summoned the neighbors to his rescue. Half a dozen men responded and after considerable risk succeeded in lassoing the animal, which they tied up until Lewis Acker, his owner, came after him and offered to settle damages.

FIRE IN ROYAL OAK, MICH.

Town with 2,000 Inhabitants Has No Water Supply.

Detroit, Mich., Nov. 26.—Flames swept the village of Royal Oak. The town, which has a population of about 2,000, is without water supply.

Early reports were that many houses had already been destroyed and the flames driven by the high wind were said to have gained momentum and the destruction of the village was feared.

MICHIGAN OFFICERS FREED

Murder Charges Against Two Members of National Guard Dismissed.

Jackson, Mich., Nov. 26.—Judge Parkinson in circuit court, nolle prossed the cases against Captain Frank L. Blackman and Private Howard Jackson of the national guard, who were charged with murder in connection with the fatal shooting of John Elsy, a Syrian, during the outbreak at the state prison last September.

ROCHESTER — While he was returning from Detroit with the proceeds of a load of produce, John Mason, a prominent Rochester farmer, was waylaid near his home by four men, badly beaten with clubs and robbed of $32.

RAYNER LOSES IN HIS BATTLE WITH DEATH

Maryland Senator Dies in the National Capital.

His Illness Covered a Period of Five Years, but Complications [illegible] About Six Weeks Ago—Sketch of Career.

Senator Rayner of Maryland died in Washington, a victim of neuritis.

Senator Rayner's illness covers a period of five years. Complications began about six weeks ago and his serious illness dates from that time. He attempted to enter actively into the Democratic campaign and met Bourke Cochran in joint debate at Baltimore late in September. The effort exhausted him and he became seriously ill immediately afterward.

Senator Rayner was one of several men whose names William J. Bryan suggested as suitable candidates for the presidential nomination.

Senator Rayner was one of the ablest men and most fearless fighters in either house of congress. He was a steadfast believer in progress. He consistently championed the direct election of senators and he consistently fought the Aldrich tariff and currency plan.

Born of Jewish Parents.

Senator Rayner was born at Baltimore April 11, 1850, of Jewish parents. His father was William S. Rayner, descended from a long line of able Jews who settled in Baltimore in the early days. Senator Rayner always kept in close touch with the liberal Jewish element of the country.

Senator Rayner went outside his faith for a wife. He married Miss Frances Jane Bevan in 1871. Their children have been reared in the faith of their mother.

Senator Rayner married soon after he was graduated from the University of Virginia. He rose rapidly in the practice of law. In 1878 he was elected to the lower house of the Maryland legislature. He served one term. Eight years later he was sent to the state senate. He did not competel his term, and in 1878 he was elected congressman. He served three full terms in congress, but not successive terms.

In 1899 he was elected attorney general of Maryland. He served until 1903. Two years later he was eledted to the United States senate. He was re-elected last year.

Conducted Admiral Schley's Case

Rayner's service, which first brought him into wide public notice was when he conducted the case of Admiral Winfield Scott Schley before the naval court of inquiry in the famous Sampson-Schley controversy in 1901.

The whole influence of a powerful naval and bureaucratic cabal was turned against Schley, as indeed it had been turned from the beginning of the Spanish war. A persistent effort had been made to mold Admiral Sampson into the outer semblance of a hero and a great naval strategist, but destiny foiled that plot when it took Sampson out of the fighting line on the morning of Cervera's dash at Santiago.

In conducting Schley's case before the naval court of inquiry, Rayner vindicated his client, tore the cabal to pieces and covered himself with glory. The collapse of the bureaucratic witnesses against Schley, under Rayner's grueling cross-examination, is still remembered by those who are interested in naval affairs.

HOLLAND — Peace was finally restored at Hope college when the thirty-six members of the A class were reinstated upon handing in written apologies for taking part in the annual class rush. As a result no more class rushes will be tolerated.

COURTNEY IS STILL HELD FOR ROBBERY

Arraigned in Flint for Genesee Burglary Job.

Must Face Charge of Robbing Mount Morris Postoffice Five Years Ago.

Flint, Mich., Nov. 25.—James Courtney, who is at present a prisoner in the Detroit jail, will be brought to this city for arraignment on a charge of burglarizing the postoffice at Mount Morris five years ago.

At the time of the issuance of the warrant against him here, Courtney was under arrest in Macomb county on suspicion of having been implicated in a postoffice safe-blowing job at New Baltimore. While awaiting trial he broke jail at Mt. Clemens and skipped to California, where he was later recaptured. The trial of his case at Mt. Clemens resulted in a disagreement of the jury. A chance of venue was later granted, and at the second trial at Port Huron last week the accused was acquitted. Instead of being released, however, he was held for the Genesee county authorities under the five-year-old warrant.

During nearly all the time he was held for the New Baltimore burglary, Courtney was confined in the Detroit jail as a precaution against the second attempt on his part to regain his freedom, and rather than take any chances in that direction Sheriff Parkhurst will have him returned to Detroit after his arraignment here, pending the trial of his case in the local circuit court.

TAKES BLAME FOR THEFT

Actor Sentenced to Prison for Larceny of Diamond.

Grand Rapids, Mich., Nov. 25.—Harold Knowlin, charged with attempted theft, was sentenced to Ionia reformatory by Superior Court Judge Stuart on a plea of guilty, for a term of one to five years with a recommendation of three years.

Knowlin came here with his wife from Muskegon where they left a theatrical company with which they were engaged. They visited a local jewelry store to look at diamonds and Knowlin attempted to conceal one of the unset stones. Knowlin assumed all blame and pleaded to save his wife from conviction. Her case was continued.

M. A. C. FULFILLS MISSION

City Pupils Take Farming and Farmers Other Courses.

Lansing, Mich., Nov. 25.—The annual report of the Michigan Agricultural college shows that the institution housed 1,702 pupils last year. It cost $489,714 to dispense lessons in agriculture, dairying, engineering, domestic science and other courses to that number. The figures show that college is still fulfilling the purpose for which it was founded, agriculture, as that course proved the most popular.

As a rule, the city students take up that course while many farmer boys pursue the other branches of which engineering is the most popular. One student from New York city, who never saw a farm, is taking the "Ag." course.

LANSING — Figuring according to the applications for licenses filed with the secretary of state, there are twice as many motorcycle enthusiasts this year as last. Three thousand six hundred and sixteen secured licenses this year, and but 1,800 in 1911. A large percentage of the machines are owned by Detroit people. The records show that 40,000 owners of automobiles secured licenses in 1912, as compared with 27,000 applications in 1911.

TURKEY REJECTS THE TERMS OF THE ALLIES

Porte Refuses Conditions Proposed by Balkans.

Harshness of Demands Is Too Much for Proud Ottoman and He Will Fight to the Bitter End Rather Than Yield.

The Turkish government has rejected the terms of the allies. The troops of Nazim Pasha in Tchataldja forts took up their arms again. And in Constantinople, once more, there comes the sound of artillery fire, telling the people of the sultan's city that the fighting is on again.

Allies Asked Too Much.

The action of the Ottoman government comes as no surprise to diplomats. The surrender of Adrianople, Scutari, Janina and Driba, and the evacuation of the Tchataldja lines, the terms under which the allies said they would forego their entrance into Constantinople, made too bitter a pill for the proud palate of the Ottoman.

The official announcement of the terms simply said:

"The porte, finding the Bulgarian conditions for an armistice unacceptable, has ordered Nazim Pasha to resume military operations."

The grand vizier, Kiamil Pasha spoke bitterly of the harshness of the terms. He said that he had received them from the Russian ambassador. Turkey's acceptance of them was impossible, he said.

War Carried Upon Waters.

There comes word of a naval engagement between a Turkish cruiser and Bulgarian torpedo boats in the Black sea, where each side claims the victory.

There is evidently fighting going on in the waters of the Marmora sea, for the sound of firing could be heard off the southern entrance of the Bosphorus in Constantinople.

Athens received a dispatch telling of the victory of her troops over the defeated Turkish troops falling back from captured Monastir. The Greeks say they caught up with and cut to pieces the rear guard and then pressed on to engage the main body near Florina, where there was a heavy battle. No details of the result of the fighting had reached Athens.

Three classes of the Austrian reservists have been called out, says the Chronicle's Vienna correspondent. About 300,000 men, he says, have been massed around the Servian frontier and steady preparations are going forward in Galicia.

"It is reported that the Don Cossacks have been mobilized and that the Russian authorities are holding all available rolling stock on the lines running to the Austrian frontier," says a dispatch to the Daily Mail from Vienna. "Five large bridges spanning the Danube here have been closely watched. The sentries have been doubled to prevent tampering with the bridges. On the whole, safety depends on the railway communications with the northern part of the empire.

$1,930,000 FOR HOE BOOKS

Greatest Library Sale in History Is Brought to an End.

In New York City the auction sale of the Robert Hoe library, the greatest event of its kind in history, ended with the disposal of the last volumes in part IV.

The proceeds of the entire sale will amount to about $1,930,000, falling just a few thousand dollars short of the $2,000,000 total which was predicted by experts when the selling of the great library began a year and a half ago.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Take Hall's Family Pills for constipation.

The story of a good deed is pretty sure to get out some time but it doesn't travel around as fast as a wild rumor.

Mrs. Emma Maier, 627 N. 7th St. Springfield, Ill., says her kidney trouble resulted from an operation: "From then until I used Foley Kidney Pills I did not know what a well day was. Then my backache left me, that tired dragged down feeling was gone, I slept soundly and awoke refreshed. I had no more headache or dizzy spells." Safe and sure. Try them. For sale by all Druggists of Tecumseh.

Chestnuts are now selling at five cents a glass, live weight.

James Therlo, Iron River, Mich., says of Foley's Honey and Tar Compound: "This winter both my children and I was troubled with bad coughs. We used Foley's Honey and Tar Compound and it promptly cured us. I can recommend it as a good cough and cold cure." Contains no opiates. For sale by all Druggists of Tecumseh.

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Altson, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them," he writes, "my stomach, head, back and kidneys were all badly affected and my liver was in bad condition, but four bottles of Electric Bitters made me feel like a new man." A trial will convince you of their matchless merit for any stomach, liver or kidney trouble. Price 50 cents at C. A. Wright & Son's.

The girl with freckles usually has too much common sense to worry about them.

"TELLS THE WHOLE STORY"

To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat chest and lungs. Stops la grippe coughs and has a soothing effect. Remember the name, Foley's Honey and Tar Compound, accept no substitutes. For sale by all druggists of Tecumseh.

INDIVIDUAL FACTOR IN HEALTH

Something to Which In This Generation Too Little Attention Has Been Devoted.

The greatest event in medicine was the discovery of the germ origin of a large number of diseases.

That discovery has already enabled the world to stamp out several epidemics, and in time will enable us to stamp out all contagious diseases.

But for that splendid advance, a price was paid—as always. A part of that price was the neglect of the individual factor in resistance to disease.

There are infections which no health can avoid. But in a larger proportion of cases a person in full vigor and training will pass unharmed through infections which will overwhelm a weaker individual.

We are just now rediscovering the value of physical vigor and vitality, of the health which is not merely an absence of infectious disease, but a joyous and capable performance of every reasonable task.

Some day, afar off, we may combine the sanitary perfection of the Panama Canal zone with the physical perfection of the ancient Greeks. To help even a little in bringing about such an event is worth all the efforts we can put forth.

Value of a Car Ticket.

Thomas A. Winterrowd, city building inspector, believes he has the prize "tightwad" story.

A North Delaware street man called Winterrowd by telephone.

"My wife is getting ready to come downtown," said the man, "and I want you to have an application for a building permit made out ready for her, so she can get right down to the city comptroller's office and get the permit without delay. She is coming down on the North Illinois street car line and she wants to get right back home on a transfer over the North Pennsylvania street car line."

Winterrowd had the application all ready, and the woman failed to appear.

"I suppose," said Winterrowd, "the woman either lost her street car ticket or else is waiting for a cool day so she can walk down and back and save her ticket."—Indianapolis News.

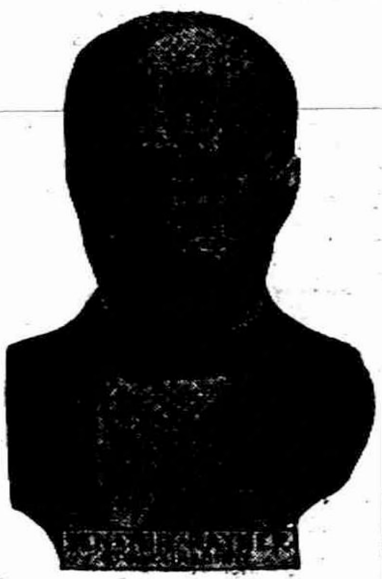
Eye For Business.

In one of the missions along North Ninth street the other evening sat a man, who apparently had tarried too long in drinking places. As the meeting advanced he livened up and put a quarter in the tambourine as it was passed along. This caused a chorus of approval from the workers, one of whom went down to the man and besought him to give a testimony.

After some hesitation the man arose to his feet and in a choked voice related his experiences. Finally he spoke of the many saloons catering to the thirst and stated his desire to see all, excepting one, put out of business. A chorus of "Amens" greeted this statement, but not quite satisfied, one of the workers asked him why he would leave one and destroy all the rest. Slowly the man rumbled forth, "So I could run it myself."—Philadelphia Record.

Big Population May Cause War.

It is pointed out in the report of the Malthusian league that the enormous increase in Germany's population (about 1,000,000 annually) is very likely to drive her into war owing to the necessity for new markets, but a report of the royal Prussian statistical land bureau has shown that the physical deterioration due to overcrowding in the large towns is so bad that in Hamburg the recruiting efficiency has fallen 42 per cent., and in Berlin to 39 per cent. of its proper value. On the other hand the recruiting efficiency of France (where population is on the decline) has increased, and Mr. Hilaire Belloc contends that France is much better equipped for war than Germany.



FACES FRAUD CHARGES

Julian Hawthorne, Josiah Quincy and Others on Trial.

In New York city the federal government called for trial in the United States district court what it considers one of its most important cases growing out of alleged misuse of the mails. It involves the integrity of the so-called Hawthorne group of mining stocks and brings to the bar as defendants men of national reputation.

They are five in number—Julian Hawthorne, son of the novelist Nathaniel Hawthorne; Josiah Quincy, former mayor of Boston, and assistant secretary of state in the Cleveland administration; Albert Freeman, a promoter; Dr. William J. Norton, a nerve specialist, and John McKinnon, secretary-treasurer of the Hawthorne companies.

All were engaged, directly or indirectly in the sale of stock in the Hawthorne Silver and Iron Mines company and allied concerns in the Cobalt field in Canada, and were indicted in New York in January last for alleged use of the mails to defraud investors.

The government contends that at least $3,000,000 accrued from the sale of securities; that sales were effected through misrepresentation of the character of the properties and that notwithstanding promises, no dividends have been paid.

No Answer.

Senator Borah was talking at a dinner in Boise, about an embarrassing question that he had been asked at Chicago. "The question," he said, smiling, "went unanswered. It was like little Willie's query. A young gentleman was spending the week-end at little Willie's cottage at Atlantic City, and on Sunday evening after dinner, there being a scarcity of chairs on the crowded piazza, the young gentleman took Willie on his lap. Then, during a pause in the conversation, little Willie looked up at the young gentleman and piped: "Am I as heavy as sister Mabel?"

AMUSEMENTS

NORMAN HACKETT IN HIS NEW PLAY "THE DECEIVER"

December 5

The engagement of Michigan's famous young actor Mr. Norman Hackett has come to be regarded as an annual event in this city which never fails to arouse the keenest interest of our best people. No actor has ever made himself more deservedly popular with Tecumseh theatre goers than Mr. Hackett. He has always given us good plays-well staged and supported by excellent casts. Furthermore he is a Michigan man, a graduate of Ann Arbor and is one of the leaders on the American stage, so that Tecumseh is proud of him and glad to show its appreciation whenever he honors us with a visit. This season he is to give us his new play, "The Deceiver," and O. Henry story which has been dramatised by another Michigan man, Donald C. Stuart, now a professor at Princeton University.

Mr. Hackett has been waiting two years to produce it and finally did so recently at Grand Rapids where it made a great success. The first night audience went wild with enthusiasm and contracts were signed the next day for Mr. Hackett's exclusive use of the play. He will set aside "Satan Sanderson" in a few weeks and play "The Deceiver" entirely but appreciating the loyalty of Tecumseh people to him he is giving us "The Deceiver" as a special favor ahead of the big cities, so that it promises to be the theatrical event of the year and a large party of Mr. Hackett's friends from Detroit and Ann Arbor will come to Tecumseh to see him in the new play.

The Grand Rapids press said of it: "'The Deceiver' is cheerful, thrilling, and entertaining. It gives Mr. Hackett the best part he has ever had and he has never done better work.' From the interest already displayed the house will be packed to capacity so that the wise ones will reserve seats early.

WOMAN SUFFRAGE.

Woman Suffrage seems to be hanging in the balance and fears are entertained that it is lost in the State of Michigan. A petition for a recanvas is being prepared, and a secret conference of men and women is to be held in the State capital, this is not only a conference of women but men also are interested. While nothing definite can be said as to the outcome yet the suffragists do not seem at all discouraged.

Burglar Got It All.

Early one recent Saturday morning, a man residing at East Melbourne, (Vic.), was startled to see a man in his room, and cried out, "Hullo, what are you doing there?" The man threw the light of an electric torch on the speaker, and, covering him with a revolver, asked, "What is your money?" "I haven't got any," replied the householder. "I am one of those unfortunates who have none." The burglar kept him covered with the revolver, and after waiting for a moment or two, said, threateningly, "Don't follow me," and backing towards the door, went out. A few minutes afterwards the householder aroused the house, and on searching the place it was found that almost every drawer in the house had been turned out, but the only property missing consisted of $25 in cash and a gunmetal watch.

The Oleander City On Treasure Island.

FROM SAM JAY.

CONTINUED FROM TUESDAY'S ISSUE

There was a time when Galveston was filled with saloons, dives, crooks and adventurers of all sorts, but now a clearly defined line is drawn and maintained. To be sure there are plenty of saloons downtown but the law allows one for every five hundred population and there are none at all in the residence section. I do not see much disorder or inebriety, no open flaunting of the scarlet, no crowded tenements with half-starved people and no place that is not safe for a citizen with a clear conscience.

The Galveston plan of civic government by commission is a practical success and has been applied by several other progressive towns throughout the country.

I said "other progressive towns." Get that? There are some narrow minded individuals, who, by absorbing literary twaddle from misinformed and overzealous writers, form an erroneous idea that Southern towns are not progressive and for those who are thus afflicted I would recommend a little travel with eyes open and mind alert for the reception of correct impressions. "Old Prog" works overtime in Texas. To be sure, there is an abundance of oral and written bombast about it but that's all in the game and "the game is never out until it is played out."

My first experience and impressions of the city—Texans pronounce it with the accent on the middle syllable—when I first visited it two years ago, was anything but favorable. 'Twas on a Saturday night-niggers night—and through ignorance of location and customs, I strayed into the "black belt." Negroes of all shades, shapes and sizes in couples, companies, regiments and brigades.

Like many other products and peculiar features of the South, the negro is quite necessary for the prosperity of the Caucasian race.

Looking through a mariners spy glass, Galveston is some port—greatest cotton port in the world—and there is reason to believe that the Panama Canal will increase the tonnage and valve. The daily receipts of cotton for export during October and November have averaged 30,000 bales and the total receipts for the season up-to-date have been (2,000,000) two million bales.

Some cotton eh?

At 500 lbs. per bale and at 15c per lb. this would amount to ($150,000,000) one hundred fifty million dollars.

Some Kale, eh?

The season's receipts of wheat up to the present writing are 4,000,000 bushels. Agriculturally speaking, the island is no good except as a buying and shipping center for the simple reason that there is no soil, space nor inclination to raise produce and nearly all supplies are shipped from the mainland. From my own gastronomical viewpoint, it is all to the good for there is plenty of fish, oysters and fowl in and on the waters of the Gulf, Bay and inlets and the price is not excessive if one does not care to angle, seine or hunt. During the latter part of October I planted a small garden in our back yard, which had been soiled and fertilized, for the double purpose of playing at my old hobby, also having Fall vegetables for the table and was surprised to see the lettuce, radishes, turnips, custard plants and yampertaters bursting up through the soil in three days from sowing.

About Thanksgiving Day there will "slathers and slashin's of eatin's and drinkin's" as Paddy said

Articulating about architecture, the city is interesting, presenting all styles from eighteenth century Spanish haciendos, ante-bellum, mansions with huge Corinthian or Georgian columns, present day palaces with park landscaped grounds, merchants and workingmens pretty homes to negro shacks. Some of the houses are built up on stilts, as it were, for the ground floor is sometimes left open or unfurnished and seldom occupied.

Of manufacturing there is none with the exception of brooms and beer and judging by the cleanliness of streets, walks, ect, and the girth and averdupois of the human bipeds, one would say that the major portion of both products was consumed at home.

Socially, there is always much activity among the creme d'elite, ultra fashionable, would be's and can't be's. Uncle Sam's warships visit the port occasionally and the navy man usually creates a furore among the fair sex. At present the Tacoma is anchored here. Politically, we are all "Dimmycrats." Roosevelt and Taft each polled or pulled a few votes out of this town but the Republicans consist mainly of negroes and Federal office holders who have their mitt out for lucre and who usually maintain a discreet though painful silence.

Botanically shouting, there is a superabundance of flowering shrubs, bulbs, vines and small trees but everything must be planted, soiled and nursed as the sand itself grows nothing but Bermuda grass and cockleburrs. But don't forget the palms and oleanders.

Duration of Twilight.

The duration of twilight, which depends primarily on the height of the atmosphere, varies with the latitude of the place, the season of the year and the elevation of the observer. In the higher latitudes, it lasts longer, because the sun is inclined at a more acute angle in setting. Near the equator at sea level it does not last more than half an hour, while in latitude 40 degrees it continues for from an hour and a half to two hours. At high altitudes, where the amount of air above the observer is small, the period is much reduced. The length of time may be computed from the fact that twilight continues until the sun is 18 degrees below the horizon at sea level. It follows that at about 50 degrees north latitude in midsummer there is twilight all night.

Fell From Performer's Back.

While Karl Richards, aged eighteen years, was clinging to the back of Signor Cameroni, a professional wire performer, during a daring glide across Saratoga lake, recently, the youth lost his hold and plunged 125 feet into the lake. The water, fortunately, was deep where Richards fell. He was made unconscious but boats were dispatched to the scene and the youth was rescued from drowning. Cameroni had been making exhibitions of crossing the lake and raving on a wire, hanging to a pulley by his teeth. Richards volunteered to cross with him on his back. The thrilling mishap was witnessed by thousands of persons, some of the women fainting.

The Summer Camp.

Colonel Gilford Hurry, commissary of the National Guard of New York, was condemning an officer who, on an annual encampment, had fussed too much over his comfort. "A famous editor," he said, "watched this officer one night during the last encampment, as he showed the boys how to fold their clothes, how to spread their bedding, how to wrap themselves in their blankets, how to drape their mosquito netting and so forth; and finally when the officer took leave, the editor called after him: 'Hey, you've forgotten something.' 'What have I forgotten?' 'You haven't heard 'em say their prayers and kissed 'em all goodnight.'"

What might have been a serious runaway Tuesday noon was averted by the prompt action of the bystanders. A man drove up in front of Mc Cann Bros. store and leaving his team unhitched went inside, As the 11:30 train came in, the team started and went in between the walk and the hitching posts, They were caught in time to save a runaway but two hitching posts were broken down, it was surely a most careless action on the part of the owner of the team.

ROYAL BAKING POWDER

Absolutely Pure

[From a series of elaborate chemical tests.]

Comparative digestibility of food made with different baking powders.

An equal quantity of bread (biscuit) was made with each of two kinds of baking powder—cream of tartar and alum—and submitted separately to the action of the digestive fluid, each for the same length of time.

The percentage of the food digested is shown as follows:

Bread made with Royal Cream of Tartar Powder:

99 Per Cent. Digested

Bread made with alum powder:

67 Per Cent. Digested

Royal Baking Powder raised food is shown to be of greatly superior digestibility and healthfulness.

If you neglect kidney backache, Urinary troubles often follow Doan's Kidney Pills are for kidney backache, and for other kidney ills. Tecumseh citizens endorse them.

J. B. Smith, E. Chicago St., Tecumseh, Mich., says: "I gladly confirm my endorsement of Doan's Kidney Pills given some years ago. I use them occasionally when I feel in need of a kidney medicine and they never fail to act as represented. I was caused a great deal of suffering by pains in the small of my back and when the attacks were present, it was all I could do to attend to my work. When stooping, I became very dizzy and spots of fire seemed to flash before my eyes. I rested poorly and in the morning when I got up, was unrefreshed. I doctored and used remedies of various kinds, but received no benefit until I began taking Doan's Kidney Pills. They made me feel like a different person, completely ridding me of my trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States

Remember the name—Doan's—and take no other.

Twinges of rheumatism, backache, stiff joints and shooting pains all show your kidneys are not working right. Urinary irregularities, loss of sleep, nervousness, weak back and sore kidneys tell the need of a good reliable kidney medicine. Foley Kidney Pills are tonic, strengthening and restorative. They build up the kidneys and regulate their action. They will give you quick relief and contain no habit forming drugs. For sale by all druggists of Tecumseh.

Mrs. Peter Holan, 1150 Buckeye Road, S. L., Cleveland, O., had a little son with a bad case of whooping cough. She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. For sale by all Druggists of Tecumseh.

Porto Rico s New Wonder.

From far away Porto Rico come reports of a wonderful new discovery that is believed will vastly benefit the people. Ramon T. Marchan, of Barceloneta, writes "Dr. King's New Discovery is doing splendid work here. It cured me about five times of terrible coughs and colds, also my brother of a severe cold in his chest and more than 20 others, who used it on my advice. We hope this great medicine will yet be sold in every drug store in Porto Rico." For throat and lung troubles it has no equal. A trial will convince you of its merit. 50c and $1.00. MICHIGAN STATE NEWS.

LANSING—A number of experts in the employ of the state tax commission have been doing field work for several months in the western part of the upper peninsula, and as a result the assessed valuation of general property in these counties—Dickinson, Gogebic and Iron—will be boosted approximately $15,000,000. The total increase may reach $17,000,000 when the Dickinson county work is completed. It is understood that most of the increases will be on timber property.

MUSKEGON—For the second time Lincoln Estes, a resident of Lakeside, has commenced suit against the Muskegon Driving Park association to secure the property he transferred to the company when it was organized. He deeded the land on the condition that if the association failed to continue to give race meetings and fails it would revert back to him. In the previous trial, over a year ago, the land was awarded to Estes.

BATTLE CREEK—Roy Hopkins, who is a publisher, had O. L. Allen, a business man, arrested here on a charge of assault and battery. It is said that the trouble arose over a belief held by Allen that Hopkins had given the stockholders of the Riteway company some information which led to their securing warrants for the arrest of C. T. Allen, the president of the Riteway company, on a charge of fraud.

LANSING—L. L. Wright Michigan state superintendent of public instruction, and Governor-Elect Ferris have been invited to meet with the newly-elected members of the next legislature at the Northern Michigan Normal school at Marquette. The upper peninsula people wish to acquaint the new public officials with the needs of the upper peninsula as regards legislation.

MONROE — By using the long-distance telephone from Detroit Conductors Frank Stoner and Charles Calkins and Engineers Albert Sunley and Charles Toulenton of the Lake Shore railroad pleaded guilty to the charge of speeding trains within the city limits over the six-mile ordinance mark. Justice Barthelote imposed a fine of $30.45 on each.

KALAMAZOO—Because he threw Miss Fannie Corbin out of a window when the two had a quarrel, Andrew Woods was sentenced to serve twenty-five days on the road gang. The woman alleges that Wood, who roomed at her house, came home insanely intoxicated and threw her out of the window after she had tried to quiet him.

GRAND RAPIDS — Grand Rapids common council has passed the vehicle light ordinance. No vehicles other than those owned by the city and hospitals can carry colored sidelights. A Detroit firm recently sold hundreds of red and green sidelights here, which must now be eliminated. Auto owners are in revolt.

SAULT STE. MARIE—While he was playing about the tracks in Algonquin, a suburb, Michael Cravitch, six years old, was run down and almost instantly killed by a Soo line train. His skull was fractured and he was hurled thirty feet from the spot where he was struck.

KALAMAZOO—It has just recently developed that the milk dealers of Kalamazoo and the milk producers in the city have joined together in the plan to boost the price of milk in this city. The future price will be eight cents, one-half of which will be paid to the producer.

BALDWIN—Frank Soulliere, of this place, received a charge of birdshot in the face from a gun in the hands of Tony Danzico. Both men were hunting and Danzico, becoming excited, shot when his companion was in range. Soulliere is not seriously hurt.

FOUR GUN MEN GUILTY

Must Die in Chair for Murder of Herman Rosenthal.

At New York city "Gyp the Blood," "Lefty Louis," "Whitey Lewis and "Dago Frank" Cirofici, the gun men charged with the murder of Gambler Herman Rosenthal, all were found guilty of murder in the first degree by a jury in the supreme court. The jury deliberated only an hour and ten minutes.

The quick verdict came as a surprise to everybody. The jury in the case of Charles A. Becker, former police lieutenant, deliberated nearly seven hours before reaching a verdict. He is now in Sing Sing, sentenced to the electric chair for having instigated the murder.

Are You Blue and Worried?

Nervous? Some of the time really ill? Catch cold easily and frequently suffer from biliousness or headache? The reason is that your system does not rid itself of the poisons in the blood; just as impossible as it is for the grate of a stove to rid itself of clinkers. The waste does to us exactly what the clinkers do to the stove; make the fires burn low until enough clinkers have accumulated and then prevent its burning at all. Your liver is sluggish—you are dull and heavy—sleep does not rest, nor is food appetizing. In this condition illness develops. Doctor Pierce's Golden Medical Discovery eradicates the poisons from the body—a glyceric alterative extract made from bloodroot, golden seal and mandrake root, stone and queen's root, without the use of alcohol. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood.

MRS. BLAKE.

MRS. BENJ. BLAKE, of Port Dover, Ont., Box 36, writes: "I have been a great sufferer for years from throat trouble, catarrh, indigestion, female troubles, bloating, constipation and nervousness—at times I would be in bed, then able to be up again. Was under many different doctors' care, and would get better for a little while, then I would go down with chronic inflammation all through me. For nineteen years I had this poison in my blood. After trying nearly everything I got worse. I read in The People's Common Sense Medical Adviser of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I have taken the 'Golden Medical Discovery' and 'Pleasant Pellets,' and have used five bottles of Dr. Sage's Catarrh Remedy. I am now able to do my work and walk with pleasure. I feel like a new woman. I enjoy everything around me and thank God for letting me live long enough to find something that made me well again."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

RACE NOT GOING BACKWARD

Proof That the Men of Today Are at Least Taller in Stature Than Their Ancestors.

Some time ago when it was wished to use some ancient suits of English armor for a pageant it was found that they were all too small for the use of the average man. Now comes a similar story from Germany. The custodian of a castle near Innsbruck, a man slightly under the average height, says that he has tried on every suit of armor in the castle and that they are all too small for him. The custodian of the castle of Vodus, who is of still lesser stature, says the same thing of the armor under his care, and we are reminded of the low doors and short beds that are so distinguishing a feature of old Gothic houses.

Is it possible that the human race is increasing in stature? It would seem so. We can hardly account for this on the ground of athletics, seeing that the old knightly pirates of the days of chivalry were athletic enough. Physical vigor was their stock in trade.

It is said that very few men nowadays can draw the old long bows of the English archers, the bows that were capable of sending an arrow through a steel breastplate. But so far as stature is concerned we seem to have the better of our buccaneering ancestors.

Clever Japanese.

Honolulu Japanese have developed a new industry in the local fisheries now all but monopolized by them. They are buying up all the surplus aku, when big catches are brought into the market, which they manufacture into a peculiar article of dried fish for export to the mainland. They have erected a plant in the rear of the Fisheries Company's place at the market, where they clean, boil and then sun-dry the fish, making an article that is said to keep well, besides being quite palatable.

UP TO HIM TO DO SOMETHING

Deacon Woods Willing to Get Busy Immediately in the Hope of Disarming Fate.

"I notice Mrs. Simmons is having a new porch put onto her house," said Deacon Wood, polishing his glasses.

"Yes," said his wife, "she always wanted one clear across the front of the house, but Silas never would build one, so the first thing she did with some of the insurance money was to have one."

The deacon looked at his paper thoughtfully for a moment, then remarked:

"The Widder Davis is setting out a good many flowers, isn't she? She keeps getting seed catalogues at the postoffice."

"Yes," replied his wife, "her heart's been set on a posy-garden a good many years, but I should almost think 'twould make Jed Davis turn over in his grave. He always thought flowers was such a foolish waste of time and money."

For a time the deacon was silent; then he said, "Wasn't that a new rubber-tired buggy I saw Prunella White in yesterday?"

"Yes," said his wife, with animation, "and I'm glad she's got it at last. She rode round for years in an old farm wagon, though Leander could well afford a decent buggy for her and the girls, but if he'd a' lived they'd never have had one."

For a time the deacon remained sunk in thought; then he asked:

"If you had a considerable sum of money to do just what you wanted with, Mandy, what would you get?"

"I'd have me a hardwood floor in that kitchen," his wife said, firmly. "I never scrub that old floor but what I run my fingers full of slivers."

"Mandy," said her husband, with fervor, "you'll see the carpenters at work on that new floor tomorrow mornin'." And the deacon resumed his paper with a sigh of relief.—Youth's Companion.

EAT PIE AND HAVE NO FEAR

Eminent Medical Authority Has Come Forward to Defend the Great American Edible.

Again pie-eating defended—this time in the New York Medical Journal.

"In its proper place," says the Medical Journal, "pie is not only a palatable but a nutritious staple, an excellent vehicle of carbohydrates and fruit. It is not essentially indigestible, and demands only proper mastication and insalivation to insure lack of discomfort."

In other words, if we chew pie as persistently as we chew the rag about the indigestibility of pie we shall find it as sweetly digestible as it is blandly delectable.

"Pie crust," this authority goes on to say, "is only flour and lard, the latter being replaced usually by chicken fat by those who object to any form of pork. Delicacy of manipulation is required in the making of the crust, and such delicacy depends paradoxically upon great digital strength, for only the strong have a genuine lightness of touch."

Thus is expressed the armor-plate crusts so often the product of the deft but weak "manipulation" of slender, pretty and youthful brides, as compared with the flaky, sea-foamy kind turned loose by older and stiffer-fingered mothers. But wait a moment; we can eat and even live in comfort upon our sweet girl graduates' pies after all, for the paper continues: "A soggy paste, however, made by frail fingers, is only aesthetically objectionable, for resolute chewing will deprive it of its terrors."

Now, however, comes the curse of the pie matter. We customarily "finish off" with pie and cheese after we have had a hearty dinner and enough; but if we eat lightly and then have pie, or make pie and cheese answer for a whole meal, there is not the slightest ill effect from it.

Things Everlasting.

This lesson I learn from the past; that grace and goodness, the fair, the noble, and the true, will never cease out of the world till God from whom they emanate ceases out of it; that the sacred duty and noble office of the poet is to reveal and justify them to men; that as long as the soul endures, endures also the theme of new and unexampled song; that while there is grace in grace, love in love, and beauty in beauty, God will still send poets to find them, and bear witness of them, and to hang their ideal portraitures in the gallery of memory. God with us is forever the mystical name of the hour that is passing. The lives of the great poets teach us that they were the men of their generation who felt most deeply the meaning of the present.—James Russell Lowell.

Sure Book Preservative.

United States Consul Hanna of Georgetown, New Guiana, presents the following as a sure exemption from damage by cockroaches, wood ants and other destructive insects. He says that books painted with a compound consisting of one-half ounce of corrosive sublimate, one ounce of carbolic acid and two pints of methylated spirits every three or six months are exempt from the ravages of vermin, whether in the tropics or in cooler climates. To make the formula thoroughly effective, he says that the books should be painted all over the outside when closed and inside thoroughly at the seam of both back and front covers, and that with this treatment the most valuable archives can be kept in good condition.

Bicycles in France.

The number of bicycles in France appears to be on the increase, judging from the latest returns for 1911, which give a total of 3,002,620, as compared with 2,697,406 of the previous year. The total revenue from the tax on bicycles last year amounted to upward of nine millions of francs, or about half a million francs more than in 1910. The ten departments having the greatest number of bicycles last year were those of the Seine, with 309,759; Nord, 159,656; Seine-et-Oise, 97,271; Gironde, 75,890; Pas-de-Calais, 70,610; Seine-Inferieure, 62,997; Maine-et-Loire, 60,265; Saone-et-Loire, 58,595; Seine-et-Marne, 55,594; Loiret, 54,519. The department with the smallest number was that of Lozere, with only 2,920 cycles.

An Anti's View.

Dr. Lyman Abbott, in an anti-suffrage argument in New York, told an anecdote. "I once asked a little girl," he said, "if she knew what a suffrage was. "Yes, sir," she replied. "Well, what is it, then?" said I. "The wife of a sufferer," said she."

JUDGE AUGUST C. BACKUS

Who Ordered John Schrank Committed to Insane Asylum.

SCHRANK SENT TO ASYLUM

Prisoner Listens Intently to Report of the Alienists.

At Milwaukee, Wis., John Schrank was ordered to be committed to the Northern Hospital for the Insane at Oshkosh by Judge A. C. Backus, after about a dozen witnesses had offered testimony in connection with the shooting of Colonel Roosevelt.

The commission of alienists investigating the mental condition of Schrank reported unanimously that the assailant of Colonel Roosevelt is insane.

The prisoner listened intently to the report of the commission of alienists, which was read by the chairman Dr. Richard Dewey. The report consisted of several thousand wards and started by setting forth the personal and family history of the defendant. It contains a long statement to Chief of Police Janssen on the day following Schrank's arrest. The concluding part consists of a lengthy address by Schrank to the commissioners, in which he apologized for causing unpleasantness in asking them to pass a verdict on a case which should have been tried by a higher than an earthly court. He went on to review his delusions.

WAR ON RACE SUICIDE

Government Makes Many Arrests in Nation-Wide Crusade.

Physicians and agents who exploit drugs conductive to race suicide were made the target of a nation-wide crusade by the government. Simultaneously postoffice inspectors and United States marshals in seventy-two leading cities conducted raids which landed nearly 200 persons in the government net.

Those arrested are charged with using the mails to promote criminal medical practices or the sale of drugs and instruments used for illegal purposes. Each case is based on the use of the mails to solicit business or dispose of wares.

FARMERS FIGHT LABORERS

Clash With a Railroad Construction Gang Near Lima, O.

Near Lima, Ohio, an army of 200 Allen county farmers, rallying around an American flag and armed with picks and shovels, fought off a construction gang of the Chicago and Erie Railroad company and refilled a grade crossing cut, thus undoing work which had cost the railroad thousands of dollars.

The clash was a result of the railroad's refusal to keep the highway open while a bridge across the Erie double-tracking was in course of construction. Blood flowed freely in the general fight between the farmers and the railroad laborers, although no one was seriously hurt.

DIES IN ELECTRIC CHAIR

Italian Murderer Put to Death in the Ohio Penitentiary.

At Columbus, Ohio Dominic Selvaggio, an Italian, was electrocuted for the murder of three of his countrymen in September, 1911. Selvaggio made only one request before he died, that he be allowed to kiss a crucifix.

Selvaggio and Rocco Lavecchio, alias Klawetch, who was electrocuted a week ago, were charged with the murder of Anton Viscari and Anton and Jim Amberlinio.

CONGRESS MEETS FOR SWAN SONG

Assembling at Noon Is Scene of Joy and Sorrow.

DEAD VICE PRESIDENT MISSED

Present Chiefs to Go to Scrap Heap —New Leaders Will Take Reins and Begin on Program of Much Work.

Washington, Dec. 2.—With the usual procedure in the house, but with a substitute for the late Vice President James S. Sherman wielding the gavel in the senate, the sixty-second congress met at noon.

It was a scene in which exultation and pathos strangely intermingled. There was a smile of triumph on the faces of the Democrats, a brave effort to conceal the sting of defeat on the part of the Republicans.

Prominent Figures in Contrast.

On the one hand, Clark and Underwood in the house and Martin, Clarke and Lea in the senate, are preparing for a record of Democratic government to assure the continuance of their party in power. On the other hand are such figures as Cullom in the senate and Cannon in the house, who have spent a lifetime in the public service and who have been relegated to final retirement by their constituents.

"The old order passeth, giving place to new." The men who have been re-elected await the future with confident hope, foreseeing opportunities for advancement up the ladder of congressional fame. The members cast upon the political scrap heap recall past glories, prepare to return to the practice of their professions or to work on the farm, and in a few instances search for soft federal jobs.

Little of importance was done in either house. Both houses adjourned almost immediately after being called to order out of respect for memory of notable men who have died since the last adjournment.

President Taft's first message, dealing with foreign relations, will go to congress Tuesday. His second message, dealing with general subjects, will be submitted Friday, according to present information.

Bitter Pill for Republicans.

It will be a session of crimination and recrimination on the part of the Republicans and the Progressives. It will be a session marked by a determined effort on the part of the Democrats to establish harmony in their ranks and present a united front in connection with the important legislative matters to be considered during the sixty-third congress. There will be an airing of political "dirty linen" by the Republicans and Progressives and a satisfied silence displayed by the Democrats.

Legislation? That will be of secondary importance under the peculiar conditions which exist. The Democrats, feeling they have been intrusted with power, will insist that nothing be done until the new administration assumes control of the government. They will want the credit of the national reforms the country is demanding. The Republicans, smarting under the repudiation they have suffered, will be disposed to transfer all responsibility to the shoulders of the Democrats.

Program for New Legislation.

The constructive legislation to receive immediate attention will include:

The Works amendment to the constitution providing for a single six year presidential term.

The Borah bill creating a department of labor.

The Sheppard-Kenyon bill prohibiting the shipment of liquor into [illegible]hibition states.

The Burton bill regulating [illegible] power.

The bill reforming conditio[illegible] employment of seamen.

The bill limiting contributi[illegible] presidential campaigns.

The bill for the care of [illegible]dents of the United States.

Politics and legislation will [illegible] the only matters considered [illegible] the session. On Wednesday [illegible]ate will proceed to the impe[illegible] trial of Judge Robert W. Arch[illegible]

FINISH GREAT ROPES

Steel Cables for Elevators in Highest Building in World.

Trenton, N. J., Dec. 2.—The John A. Roebling Sons' company of this city has completed the construction of more than thirty-four miles of wire ropes which will be used in operating the twenty-eight elevators of the Woolworth building, the highest in the world.

The distance of 780 feet from the curb line to the top of the building, embracing fifty-five stories, will be multiplied many times by the length of the ropes.

Young Knox Resigns Post.

Washington, Dec. 2.—Hugh S. Knox, son of Secretary of State Knox, has resigned as secretary to his father and will enter business in Pittsburg.

PLAN TO REDUCE LIVING EXPENSE

College Man Suggests Establishment of City Markets.

WOULD CUT OUT THE JOBBERS

Legislation Tending That Way to Be Introduced in New York Legislature—Co-Operative Store for Washington.

New York, Dec. 2.—The establishment of city markets at which food products shall be sold by auction to retailers and consumers is the remedy for the high cost of living proposed by Horace Bruce, head of the Columbia university inquiry into the subject.

Best Means of Reducing Costs.

He told the members of the Brooklyn Philosophical association at the Long Island business college that this was the best means of cutting down unnecessary costs in distribution, as it would do away with the jobbers.

Legislation calling for the establishment of city markets in New York will be introduced at the next session of the legislature and Mr. Bruce asked support for the bills.

Will Open Co-Operative Store.

Washington, Dec. 2.—A co-operative store for the members of the army, navy, marine corps, national guard and revenue cutter service will be opened in Washington today. Already 1,000 subscribers have been obtained to the efforts to reduce the high cost of living. The establishment is the third of the kind to be opened in the United States for members of the services named. At first only uniforms, furnishings and equipment will be sold, but it is planned to deal eventually in all sorts of wares.

Shock Causes Widow's Death.

Kenosha, Wis., Dec. 2.—Mrs. Anna Nestrour died here as a result of the shock of witnessing the death of her husband a year ago. He died of hydrophobia.

PROTOCOL SIGNED FOR AN ARMISTICE

Truce Is to Last through Negotiations for Peace.

EXACT TERMS NOT GIVEN OUT

Turks Are to Keep Adrianople and Lose Salonica—Allies to Demand Payment of $240,000,000 Indemnity.

London, Dec. 2.—The protocal for an armistice was signed by the plenipotentiaries of Bulgaria and Turkey at the neutral town of Baghchetsch, near the Tchataldja lines. The armistice is to last as long as the preliminary peace negotiations continue. The protocol has the approval of the Ottoman government.

Exact Terms Not Public.

Though, so far, the exact terms of the preliminary peace agreement have been kept secret, it is pretty generally known what hey are. Turkey keeps Adrianople but loses Salonica. She may also keep Dedeagatch on the Aegean and consequently the control of the Adrianople-Dedeagatch. The allies, according to a Sofia dispatch, will demand that Turkey pay a war indemnity of $240,000,000.

The armistice stipulates that the garrisons of Adrianople and Scutari shall receive daily rations sufficient for each day during the cessation of hostilities. The news that the Adrianople garrison was included in the agreement came as a surprise and the concession by the Bulgars is taken to mean that they genuinely desire to arrange a lasting peace as quickly as possible.

The plenipotentiaries at Baghchetsch have all during their long conference impressed upon one another the fact that it will be to the loss of both sides if the powers step in as mediators now.

Turkish Fleet in Dardanelles.

Constantinople, Dec. 2.—A Turkish fleet of nine vessels has arrived in the Dardanelles at 6:30 o'clock Sunday evening.

Bulgars Board Greek Transports.

Athens, Dec. 2.—An official statement says a force of Bulgarian troops from Salonica boarded nineteen Greek transports and were disembarked with east and precision at Dedagatch.

AMERICAN WARSHIPS IN EAST

Montana About to Make Series of Visits in Syria.

Washington, Dec. 2.—The armored cruiser Montana, detailed with the Tennessee to look after the safety of Americans in Asiatic Turkey, left Port Said for a series of visits on the coast of Syria, according to dispatches received at the navy department. The Montana will visit Alexandretta, Mercine and Latakia, before going to Beirut, in order to ascertain whether Americans in these ports are safe and to learn what measures the local authorities have taken for the protection of Americans along the coast and in the interior districts.

The Tennessee, which stopped at Malta for coal, is now enroute to Syria.

Ready to Oblige.

Little James, while at a neighbor's, was given a piece of bread and butter and politely said, "Thank you."

"That's right, James," said the lady. "I like to hear little boys say 'Thank you.'"

"Well," rejoined James, "if you want to hear me say it again you might put some jam on it."—Washington Post.

WILSON FAVORS DELAY

Thinks Inaugural Show Should Come in Pleasant Weather.

Would Take Oath of Office March 4, but Postpone Ceremonials Until Late April.

Hamilton, Bermuda, Dec. 2.—Governor Woodrow Wilson is willing to take the oath of office as president of the United States without ostentation on March 4, and that the formal ceremonials that every fourth year attract thousands of citizens to Washington be postponed until the last Thursday in April.

To that extent he has indorsed the propaganda in favor of a later inauguration, which has been advocated in and out of congress in order that the event might be conducted at a time when the weather usually is propitious at the national capital.

Many persons have urged the president-elect to sanction a postponement of the inauguration ceremonies, without realizing that this cannot be done without an act of congress, and that it is impossible now to change the forthcoming ceremony so far as the taking of the oath is concerned.

ASKS PARDON OF MARRIN

William T. Jerome Intercedes for Convicted New York Swindler.

New York, Dec. 2.—Former District Attorney William T. Jerome went to Albany on Wednesday last and in person presented to Governor Dix the application of Frank C. Marrin, alias Judge Franklin Stone, for a pardon. Marrin is serving a term of from fifteen to twenty years in state's prison for swindling Mrs. Caroline Barry of Brooklyn. He has served about five years of this term. There also is conviction in the United States district court standing against him on another charge.

Marrin was the head of the Storey Cotton company, which collapsed in 1905 with a loss of over $1,000,000 to its stockholders.

M'FARLAND-MURPHY FIGHT

The Two Pugilists Will Meet in Kenosha, Wis., Dec. 16.

Kenosha, Wis., Dec. 2.—Once more it is planned to stage the battle of South Bend, the thriller that was put on last winter in the Indiana town, but this time the scene will be laid at Kenosha, but the principals, Packey McFarland and Eddie Murphy, will be the same.

Articles were signed by Emil Thiry for Packey and Mickey McBride for Murphy, and the show will be put on Dec. 16.

"MUSIC HATH CHARMS"

Orchestra Plays for Indian Murderer Before Execution.

San Francisco, Dec. 2. — Ed Williams, an Indian, was hanged after the prison orchestra had given a three-hour concert for his benefit in the death chamber.

The Indian murdered his consort, Inez Brooks, in a frenzy due to liquor, and shot several other persons. He was reprieved several times, but recently he announced that he did not want any mcre reprieves—that he wished to be hanged promptly, if at all.

Boy Finds Father Hanging.

West Orange, N. J., Dec. 2.—When David Ilgin went out to the barn to call his father, Benjamin Ilgin, to dinner, he found him hanging from a halter rope and still struggling. Before help reached the barn Ilgin had ceased to struggle.

Drives off a Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In an attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place' Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cts. and $1.00. Trial bottle free at C. A. Wright & Son's.

REVEAL HOCKIN AS TWO-FACED

Spied on Dynamiters While Ostensibly Helping Them.

BURNS DETECTIVES ON STAND

One Asserts He Learned Chicago Man Sent Funds to McNamara Accomplice—Reason for Delay In Arresting McNamara.

Indianapolis, Dec. 2.—That Herbert S. Hockin, secretary of the Iron Workers' union, acted as their spy in running to earth the dynamiters of the Los Angeles Times building was the testimony given by William J. Burns and his son, Raymond J. Burns, in the trial of the forty-five men indicted for conspiracy.

Both detectives asserted they knew the identity of the dynamiter, McNamara, five months before his arrest, but allowed him his liberty in the hope of catching the "men higher up" in the plot.

Chicago Man Mentioned.

Raymond Burns' testimony involved Edward N. Nockels, secretary of the Chicago Federation of Labor. The junior head of the detective agency asserted Hockin told him Olaf A. Tveitmoe of San Francisco, one of the indicted men, was paying money through Nockels to M. A. Schmidt, alleged to have been one of McNamara's aids in the actual dynamiting. Schmidt has not been apprehended.

The witness also described "shadowing" J. B. McNamara and McManigal to Toledo and to Detroit, where he with three other detectives, arrested the dynamiters on April 12, 1911.

W. J. Burns Tells of Work.

William J. Burns said in the summer of 1910 he was employed to investigate explosions at Peoria, Ill., and in Indiana Harbor, Ind. He was on his way from San Francisco to Los Angeles when the Times building was blown up and the next day he was employed by the mayor of Los Angeles to trace the dynamiters.

Burns testified that on the day after the explosions he told Mayor Alexander that J. J. McNamara and Olaf A. Tveitmoe were behind a plot to kill him (Burns) because of his activity in a San Francisco graft investigation, and because Burns had procured a photograph of Tveitmoe dressed in the prison clothes of the Minnesota penitentiary and had published the photograph on the coast.

USE OF MOURNING BORDERS

There Are a Few Set Rules, But Individual Taste Practically Decides the Question.

The average person chooses her mourning borders by individual taste rather than by rule and rarely changes the width until second mourning.

Good taste avoids the flaunting of grief and rarely countenances a border wider than a quarter of an inch, even for a widow. Even this is a trifle wide; three-sixteenths of an inch is a better width for widows, parents or children, and an eight of an inch for a sister or brother.

The paper used is dead white linen of plain weave and lusterless. It is bad form to have a mourning border on striped or fancy paper, even though the color is kept white. Where a transparent paper is liked, as for foreign correspondence or to save postage, besides the border there is a separate lining of black tissue paper for each envelope.

Addresses and monograms are often stamped in unrelieved black. Some persons prefer them embossed in relief without color, especially if there be telephone and telegram numbers in addition to the address. When these are all in black they look less overpowering if a miniature receiver and telegraph pole and lines are used instead of the word telephone or telegram.

As mourning borders are expensive, the stationery of grief is costly. It can rarely be had by the pound as other papers, but sometimes is cheaper by the box, containing several quires. As there is usually a reduction for getting a large quantity, it pays to lay in a supply.

Correspondence cards carry the same borders as writing paper. When there are no engraved acknowledgments these cards are quite large enough for a few words of appreciation. Sometimes a sentence is written across the top of the visiting card.

Black bordered envelopes to fit the visiting card should be bought by the hundred, as the card will do social duty during the entire period of mourning.

Snail Lives Without Air.

While the snail has lungs, heart, and a general circulation, and is in every respect an air breathing creature, it can nevertheless exist indefinitely without inhaling the least breath of air, the element that is usually considered the essential to existence in all creatures supplied with lungs. "To all organized creatures," said Leppert, "the removal of oxygen, water, nourishment, and heat causes death to ensue." When that statement was made Leppert did not appear to consider the snail as one among the great host of "organized creatures," for experiments by Spallanzani have proved that any or all the usual life conditions can be removed in the case of the snail without terminating its existence or in any way impairing its functions. The common snail retreats into his shell on the approach of frosty weather, and the opening of mouth of its shell is hermetically sealed by a secretion which is of a silky texture and absolutely impervious to air and water. In this condition it is plain that it is deprived of three of the four elements of life mentioned above—air, water, and nourishment.

HAS A LARGE VOCABULARY

Number of Words Used by Small Child Will Surprise One Who Is Not a Close Observer.

How many words does the ordinary child know? Fifty? Wrong. A hundred? Wrong again. Five hundred, for a wild guess? A little nearer, but not much. The truth is that people underestimate the number of words their children can speak.

Take a paper and pencil, follow the child for several days, several weeks, putting down every new word that is uttered. You'll find out some things that will surprise you. And when the word "child" is used, it does not refer to a boy or girl of seven or eight, but one of three.

An investigation recently made by following a child at that age and noting every word that was used, showed that it had memorized 1,771 different words. They covered practically everything with which the child came in contact, and were words the child had never heard before.

Another investigation of words used by children between 1 year and 19 months old showed that the lowest vocabulary that was reported included the use of 60 words. The highest was 232 words. From two years on, the vocabulary of a child increases rapidly, until at three years the average child has a vocabulary of at least 1,000 words.

"The Brave Old Oak."

Whether its branches show green against a dark-blue sky—gold where the sunlight touches them—whether its leaves show magenta in the light of the setting sun, or black and silver in the moonlight, there is no tree of them all to compare with the oak. All a summer's day you may lie stretched beneath it, so strong and so friendly, not to you only, but to all the little lives that swarm about its roots. All kinds of busy creatures, ants, spiders, daddy-long-legs, beloved of your childhood, go scurrying over you on this errand and that, as unafraid, almost, as if you were dead. A feeling of kinship comes to you: a knowledge that all this life about you in oak and grass and insect, and the good dog lying at your feet, is but a little part of the ageless flux and reflux: soothingly as a cool hand on an aching head, there comes to you the realization that soon, fears, hates, and loves forgotten, your tired body shall rest under the trees all the days and all the nights.—Atlantic.

Looking Ahead.

The hotels in the west end of London were somewhat crowded—somewhat—during the busy summer months, and service in some of the restaurants was slow.

One morning a big well-dressed man walked into one of the hotel dining-rooms and pounded on the table. A waiter came over.

"Breakfast bill of fare!" ordered the big man.

The waiter gave him one and stood at attention, whereupon the guest proceeded to order a most ornate breakfast. When he had finished he looked over on the waiter's record of the order and approved it.

"We'll serve it right away, sir."

"Serve it right away!" roared the big man. "Who asked you to serve it right away? I'm ordering this breakfast now for tomorrow morning."

CALENDAR AND DIARY

A free 1913 Dairy and wall calender for our readers.

We take pleasure in announcing that any reader of this paper can secure a valuable pocket diary for 1913 by sending four 1 cent stamps to D. Swift & Co., Patent Lawyers, Washington, D. C.

STATE MEMORIAL READY

Illinois Shaft at Andersonville to Be Dedicated.

Dec. 28 Is Date Set and Governor Deneen and State Officers Will Be Present.

Chicago, Dec. 2.—The Illinois memorial to soldiers of the state who are buried in the national cemetery at Anderson, Ga., is to be unveiled and dedicated by Governor Deneen and representatives of the state on Dec. 20.

The Illinois-Andersonville monument commission met at the Hotel Brevoort, accepted the completed memorial from the contractors and after consultation with Governor Deneen fixed the date for the formal dedication.

Governor Deneen and his staff, the state officers, members of the Andersonville commission, a joint committee of the general assembly, and a detail of the Illinois national guard will journey to Andersonville to participate in the ceremonies.

The monument was authorized four years ago by act of the general assembly and an appropriation of $15,000 was made for its erection.

It was made by Charles J. Mulligan and is classed as the most imposing of the fourteen state monuments now erected in the Andersonville cemetery. State Architect W. Carbys Zimmerman supervised its construction at the national cemetery. It was built by the Trigg marble and granite works at Rockford, Ill.

There were 889 known Illinois soldiers confined in the Andersonville prison during the Civil War who are buried in the national cemetery, over which the Illinois memorial commands a sweeping view. In all 14,000 men, who died as prisoners are buried there.

The monument is of bronze, upon a pedestal of Montello granite. It is a stupendous figure pointing the terraces of marked graves to new generations, represented by figures of a young boy and girl. At each end of the base stand the figures of veterans carved from the granite, in solemn contemplation of the scene.

The members of the commission are: A. H. McCracken of Chicago, chairman; Louis F. Lake of Rockford secretary and treasurer; Captain G. J. George of Springfield, vice president; William H. Hainline of Macomb, and Captain J. M. Swales of Jacksonville. All of the commissioners were prisoners of war.

AMUSEMENTS

MICHIGAN'S GREATEST ACTOR COMING IN "THE DECEIVER."

What promises to be the most important theatrical event of the season is the announcement that Norman Hackett, Michigan's celebrated young actor, has been secured for a return date for one night only at the Bradley Opera House, Thursday Dec. 5 in his greatest and latest success "THE DECEIVER." The state of Michigan is peculiarly interested in this production as nearly every one vitally connected with it hails from the State. Mr. Hackett, the Star, is a native of Detroit, a graduate of the University of Michigan and probably the most prominent actor now before the public claiming Michigan as his home.

The dramatizer, Donald Clive Stuart is a Michigan man, a graduate of Princeton University, and now a teacher of the Drama there.

The entire production was made by the well known theatrical magnate, E. D. Stair, who is a native Wolverine and Mr. Hackett's leading lady, Genevieve Cliffe, was born in Port Huron, so that it is a distinctly Michigan enterprise and its production in this city should arouse the loyal interest and support of our local theatre goers. The play was one of the genuine successes in Grand Rapids last week where Mr. Hackett gave it for four performances.

Judging by the demand for seats a crowded house will welcome Mr. Hackett, and as it is seldom this city is visited by so prominent actor as Mr. Hackett no one can afford to miss the treat in store for them. He will bring the complete production of the play to the city including massive sets of special scenery for each act. A special 6 foot car is required to carry the production. The electrical effects are said to be of the very finest, in fact the production throughout is claimed to be one of the best ever carried by Mr. Hackett.

EAT CHOCOLATE WITH FRUIT

Ideal Food Combination According to Writer Who Claims to Know Whereof He Speaks.

Some silly things have recently been said about chocolate, which have attempted with some air of authority to discount its value as an article of food, says the Lancet. Practical experience of course long ago decided in favor of the view that chocolate is a good sustaining food, and this finding is not surprising, having regard to the food substances which well-made chocolate contains.

Chocolate has been employed for its staying powers and its nutritive properties with considerable success in army maneuvers.

Chocolate can only do harm, in common with all good foods, when eaten to excess. Chocolate contains from 27 to about 60 per cent of sugar, from 20 to 45 per cent of fat, from 4 to 12 per cent of nitrogenous matter, from 2 to 3 per cent of mineral matter, and about 0.75 per cent of theobromine. It is therefore sweetmeat, food and stimulant.

Thus far the Lancet. Now comes Dr. J. Sim Wallace, an eminent London dentist, with a letter asserting that chocolate does a vast amount of harm, especially to the teeth, by being eaten between meals and before going to bed. He says it should be eaten toward the end of a meal and should always be followed by fresh fruit.

BACHELOR NOT BETTER OFF

Investigation Into New Zealand Workers' Condition Disproves Theory That Some Have Held.

As the result of investigations carried out by the New Zealand department of labor among 2,000 householders, it was found that the worker with no family spends very nearly the same sum weekly on food as the heads of families, but saves in rent, clothing and other items, and at each week end has a surplus of 39 cents, says the London Globe. Apparently he buys more luxuries in the way of food than his coworker, who has a family, and his average expenditude on clothing is also higher. The family man pays $1 more rent a week, 17 cents more on food, 23 cents on clothing and 67 cents on other items. His fuel and light expenses, however, are relatively lighter to the extent of 24 cents per week. The worker, however, has no surplus at the week end. The figures generally indicate, as may be expected, the favorable position, as far as expenditure is concerned, of the families possessing few, if any, children.

Severe Shock Not Fatal.

Two Mount Vernon, N. Y., men after being knocked down by 11,000 volts of electricity the other day got up and walked away. One of them was slightly hurt, and the other is apparently uninjured. The men were walking on top of a freight car in the freight yard of the New Haven railroad at Mount Vernon, when one of them accidentally touched one of the feed wires that transmit power to the electric trains. The shock knocked him down. In falling he struck his brother, whose shoulder hit the same wire. There was another flash and one of the men's shirts caught fire as he fell. Both men climbed down from the car and walked to the entrance of the freight yard, where they waited for an ambulance to take them to the hospital.

Old School Mayor.

Henry T. Hunt, the young reform mayor of Cincinnati, is a Yale man, and at a recent Yale banquet he told a story about a mayor of the old school. "This mayor," he said, "was as cynical as he was corrupt. A schoolmate visited him one day and asked for a job. 'Well, Joe,' the mayor answered heartily, 'the very next job I have to give away, you shall get.' Joe waited about a year, then he ventured to call on the mayor again. 'How about that job?' he said reproachfully. 'You told me a year ago that I was to get the very next job you had to give away.' The mayor, with a cynical smile replied: 'But I've had none to give away, Joe. I've sold them all.'"

CONTINUED FROM TUESDAY'S ISSUE

Whispering gently about Galveston girls and those of South Texas generally, they are delightful dreams of beauty, grace and charm and it is impossible or improbable that I can describe in detail the representative types, gowns, etc. I'll just say briefly that one does not see the "languishing Southern beauty" so much written about but instead a bright eyed, alert and active maid or matron who can manage a house, a horse, a man, an auto or a boat and I'll wager a bunch of bananas against a Pittsburg stogie that she could also write an essay, deliver an address or possibly jump a ten-rail fence without re-arranging her toilet. By no means are you to infer t at all the handsome and accomplished women are in Texas or the Southland. Nay, Nay, Pauline. Once upon a time there were and I am inclined to think there are yet some excellent specimens around Tecumseh, Clinton and Man-chased her.

No doubt the readers of "Old Reliable" suffer from ennui in perusing these attempts by a tyro but I trust they will be received in the same spirit as that in which they are written and I also rise to remark with some emphasis that more than one-half of the stories about Texas that you and I have ever read are pure fiction and deliberate falsehood, written by dreamers and romancers who never lived in the state or by others who have an axe to grind. Some novelists have said that it is the home of the cigarette, the bad man, the cowpucher, the land crook, the negro, the Mexican outlaw, the razorback and of idleness, drink and damnation. I'll admit that these evils exist today in some parts and at one time—say forty years ago—when a man pulled up stakes and journeyed to Texas, his neighbors chalked "G. T. T." on his door or gatepost which ment, "Gone to Texas," and he was given up as one eternally dammed or lost, for the entire Southwest was supposed to be anything and everything but a good country.

It is a wonderful land of variety, natural resources, mild climate and a cosmopolitan, democratic people who, by strenuous efforts and real accomplishment, are making this old world better for the coming generations. A land of sunshine, fruits and flowers, of pleasure and progress, of products and producers, of hustlers, business men and industries of all kinds.

'Twould hardly be wise to advertise like a certain Arizona hotel which displays the following sign:—"Free board and lodging on any day that the sun don't shine," for we have some unpleasant weather occasionally but the majority of daylight is sun-kissed and the nights are bathed in mellow moonlight. And while our northern friends have stopped making ice and started to burn coal and wear overcoats, we are enjoying the fag end of our Summer apparel, spending our accumulation of kale—if perchance there should be any clinging to us—and the glad hours in the open air, just flavored with a suggestion of frost, the sunshine not too cool, and Autumn flowers making the landscape radiant with color. Adjectives lose their power when it is undertaken to describe the beauties of Galveston and of South Texas Autumn weather. I begin to suspect that I have eaten the lotus fruit, which creates a desire to remain forever, according to Ulysses

"In the hollow lotus land,
To live and lie reclined,
On the hills like gods together,
Careless of mankind."

Perhaps, during some of my gastronomical orgies, some Texas friend has slipped me a lotus.

Every town and section has its own peculiar features and those of Galveston have struck me on the funny bone so to speak. The streets are designated by letters and numerals, and fearing that the alphabet would be exhusted before all cross streets were named, the commissioners added a half to the letters. For instance, M½ and P½ avenues.

And I laughed at the two wheeled grocers carts, the three mule cotton trucks, the houses on stilts, the jolly sailor and contended negro, but my exultation and merriment was followed by dismay and sorrow when I found no black soil or loan, no surrounding agricultural country, no manufacturing industries, no large shade trees and no razorbacks or hillbillies.

In a few words, it is just a prosperous ports and peoples playground, as the blatant booster and ballyhoo bawler would say in circus vernacular.

And don't forget the palms and oleanders.

Sincerely yours,
Sam Jay.

WIT AND WISDOM

About 50 of the members of the Wit and Wisdom Club and their guests met at the pleasant home of Mr. and Mrs. Fred Rosacrans, Monday evening.

A musical program of unusual merit was given. Prof. McAlpine gave the opening number, a piano selection from Schubert in his most delightful manner, and very kindly responded to an encore Elmer Slayton gave a vocal solo and was also encored, responded with a charming love song. Mrs. Weld then favored the company with the reading of a letter from Toko, the Jap who wrote of his troubles with Mr. Vacuum Cleaner in his capacity as house servant. Miss Hazel Zimmerman's solo, "I hear You Calling Me" was given in a most charming manner, and her encore, "Sleep My Baby Coon," was fine. A piano duet by Mesdames Wood and Hodges was rendered in their own most delightful manner, and the company would gladly have listened to another selection. The last number on the program was a solo, "Mavourneen" by Miss Ruth Kimball of Clinton, with her mother as accompanist at the piano. Her singing was most heartily encored, and she responded in a very graceful manner. Later she favored the company with another selection.

After light refreshments were served a social visit was enjoyed by all, and the guests departing felt that they had been most royally entertained.

SNYDER—NIDY

Married in Vicksburg, Wednesday Nov. 27, James Snyder of Tecumseh, and Miss Bessie Nidy of Vicksburg. They will be at home in Tecumseh in the home near the L. S. & M. S. depot, that Mr. Snyder had ready for his bride. They arrived in town Monday, Congratulations.

IMPROVEMENTS AT THE CANDY KITCHEN

The rooms lately vacated by Dr. Steinhoff over the Candy Kitchen, are now under going repairs, for the occupancy of Charles Melonakas and clerks. The paper hangers were busy Monday.

The room for the manufacture of their candies will be moved up stairs, where a complete suite of rooms is being prepared for them. Later the room in the rear of the store will be thrown into the ice cream parlor, and in the spring a fine plate glass front similar to J. J. Pulver's, will be put in.

The Candy Kitchen has become one of the standard business places on our street, and in its continual improvements keeps abreast with the times. Its constant increase in business shows the appreciation in which it is held by the people of Tecumseh.

PACKARD—DENSI

Married in Adrian Saturday, at the Baptist Parsonage by the Rev. Edward Simpson, Merlow Packard and Miss Mary Densi, both of Tecumseh. The couple were accompanied by Mrs. Martha Cochrane of Adrian, and Miss Eva Erhart of Tecumseh. They will go to housekeeping in the home of the groom's parents, Mr. and Mrs. Oscar Packard. Saturday evening 64 of their friends gave them a miscellaneous shower! There were 17 guests from Adrian. They received many fine present. A bountiful three course supper was served.

ONLY ONE "BEST"

Tecumseh People Credit Where Credit is Due

People of Tecumseh who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Tecumseh people. Here's a case:

Mrs. C Stevenson, Wyandotte & E. Potawatamie Sts, Tecumseh, Mich, says: "I cannot say too much in praise of Doan's Kidney Pills in return for the great benefit they gave me. I never used another remedy that did me so much good. Since 1906, I have taken Doan's Kidney Pills on several occasions, getting my supply at Wright & Son's Drug Store, and they have acted as a tonic to my kidneys. The first symptons of kidney complaint in my case was, a sharp, shooting pain across the small of my back which made it almost impossible for me to lie down. Someone advised me to give Doan's Kidney Pills a trial and I did so. After I had taken this remedy a short time, my pains and aches disappeared and gravel that had been a source of constant suffering, no longer troubled me, in fact, I felt like a different person. I have since recommended Doan's Kidney Pills to a number of my friends and shall continue to do so"

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no ther.

The Secret Terror

The haunting fear of sickness and helplessness is the secret terror of the working man. Health is his capital. Kidney diseases sap a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Sold by all druggists of Tecumseh.

Foils a Foul Plot.

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr. King's New Life Pills, and end such abuse of your system. They gently compel right action of the stomach, liver and bowels, and restore your health and all good feelings. 25c at C. A. Wright & Son's.

Dr. Wm. Sadler, author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey and Tar Coompound is a reliable household medicine for coughs and colds, equally effective for children and for grown persons. Take it when you feel a cold coming on. It will avert danger of serious results and cure quickly. No harmful drugs, Sold by all druggists of Tecumseh.

TACKLE BLAST MYSTERY

Burns Detectives to Probe Fatal Waukegan Explosion.

Fulminate Caps Reported Found Near Wrecked Factory—No Trouble with Labor.

Chicago, Dec. 2. — The William J. Burns Detective agency which solved the mystery of the dynamiting of the Los Angeles Times and brought the perpetrators to justice, has been retained to investigate the explosion of the starch mill at Waukegan. The plant belongs to the Corn Products Refining company. As a result of the explosion last Monday eleven men lost their lives and twenty-two were injured.

An inquest to determine the cause of the fatalities was opened by Coroner J. L. Taylor. A separate investigation probably will be made by the Austrian consulate, as many of the victims were Austrian subjects. The insurance companies, holding policies aggregating more than $100,000 on the plant also are conducting an inquiry.

The report was current that a number of fulminate of mercury caps such as are commonly used in detonating dynamite were found in the vicinity of the plant following the explosion.

Superintendent Ebert announced that the destroyed building will not be rebuilt, as there is a duplicate in another part of the yards.

The superintendent said the company has not had troubles with labor.

FIVE INJURED IN CRASH

Passenger Train Collides with Light Engine at Columbia, Conn.

Willimantic, Conn., Dec. 2.—Another accident was added to the list of recent accidents on the New York, New Haven and Hartford railroad. A passenger train for New Haven on the air line division smashed into a light engine in the yards at Columbia, a short distance east of here. Five people were injured, including Miss Emily Pierson, the wealthy suffragette organizer of Cromwell, Conn.

Both of the engines were smashed to junk, but none of the coaches left the track and the passengers were injured by being thrown between the seats. The railroad officials explain that a round house hostler ran the light engine out on the main tracks just in time to get in the way of the passenger train.

STEPSON HELD FOR STABBING

Farmer Living Near Anderson Is Found in Pool of Blood.

Anderson, Ind., Dec. 2.—Joseph G. Goodwin is in jail charged with assault and battery with intent to kill his stepfather, Enoch Delp, in a battle which occurred in front of the Pence livery barn. The stepfather has seven knife wounds about the body, two of which are regarded as dangerous.

Delp, who is fifty-five years old, bled profusely as a result of one of the knife gashes, which severed a vein in the wrist. He was found lying in a pool of blood by the police. It is alleged that both men wielded long pocket knives.

Danbury, Conn., Dec. 2.—Miss Annette Kellerman, the swimmer, was married to her manager, James R. Sullivan, here last Tuesday.

Are You Blue and Worried?

Nervous? Some of the time really ill? Catch cold easily and frequently suffer from biliousness or headache? The reason is that your system does not rid itself of the poisons in the blood; just as impossible as it is for the grate of a stove to rid itself of clinkers. The waste does to us exactly what the clinkers do to the stove; make the fires burn low until enough clinkers have accumulated and then prevent its burning at all. Your liver is sluggish—you are dull and heavy—sleep does not rest, nor is food appetizing. In this condition illness develops. Doctor Pierce's Golden Medical Discovery eradicates the poisons from the body—a glyceric alterative extract made from bloodroot, golden seal and mandrake root, stone and queen's root, without the use of alcohol. No matter how strong the constitution the stomach is apt to be "out of kilter" at times; in consequence the blood is disordered, for the stomach is the laboratory for the constant manufacture of blood.

MRS. BLAKE.

MRS. BENJ. BLAKE, of Port Dover, Ont., Box 88, writes: "I have been a great sufferer for years from throat trouble, catarrh, indigestion, female troubles, bloating, constipation and nervousness—at times I would be in bed, then able to be up again. Was under many different doctors' care, and would get better for a little while, then I would go down with chronic inflammation all through me. For nineteen years I had this poison in my blood. After trying nearly everything I got worse. I read in The People's Common Sense Medical Adviser of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy. I have taken the 'Golden Medical Discovery' and 'Pleasant Pellets,' and have used five bottles of Dr. Sage's Catarrh Remedy. I am now able to do my work and walk with pleasure. I feel like a new woman. I enjoy everything around me and thank God for letting me live long enough to find something that made me well again."

Dr. Pierce's Pleasant Pellets regulate liver and bowels.

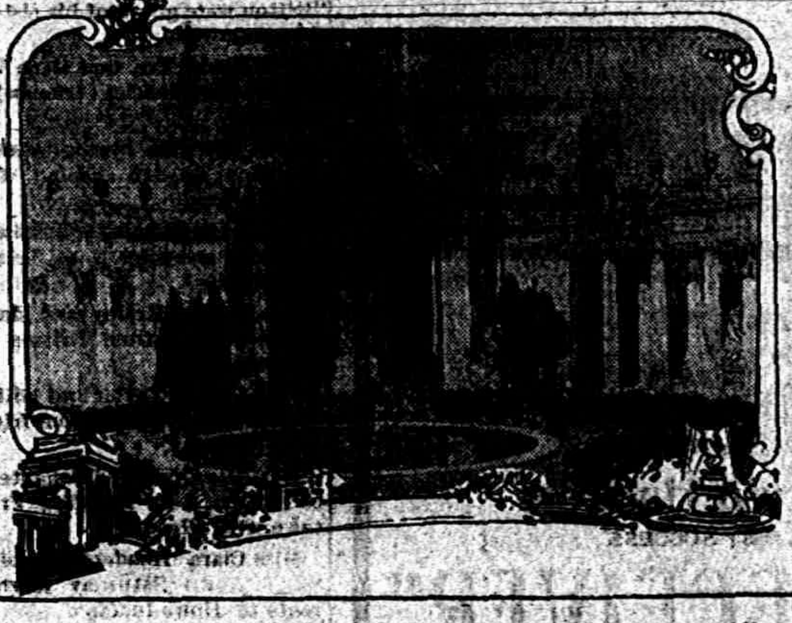
PRESIDENT CHARLES C. MOORE OF THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION PRESENTING DEED TO JAPAN'S SITE TO COMMISSIONER GENERAL HARUKI YAMAWAKI.

HIS Imperial Japanese Majesty's Commissioners to the Panama-Pacific International Exposition dedicated Japan's site in the Presidio Reservation on Wednesday, Sept. 18, in the presence of more than 10,000 people. The ceremonies were highly impressive and were deeply appreciated by the representatives of the Japanese Government Commissioners, Haruki Yamawaki, Goichi Takeda and Yashikatsu Katayama. The deed to the site was presented by President Charles C. Moore to Commissioner General Yamawaki, who accepted it in behalf of the Japanese government.

SITE SELECTING CEREMONIES OF HIS IMPERIAL JAPANESE MAJESTY'S COMMISSION TO THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

JAPAN was first of the foreign nations to select a site at America's great Panama-Pacific Exposition at San Francisco in 1915. The extensive area which has been dedicated to the Japanese government display, five acres, will permit the adornment of the grounds surrounding the Palace of Exhibits with wonderful Japanese trees and shrubs, presenting the landscape effects that in Japan have attracted the attention of tourists and nature lovers from all parts of the world. The Palace of Exhibits will cover an acre of ground in the center of this Japanese garden. The Japanese government will spend $1,000,000.



NICHE IN THE COURT OF THE FOUR SEASONS, PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

EACH of the four corners of the Court of Four Seasons will be adorned with groups of statuary symbolical of the seasons—Spring, Summer, Autumn and Winter. The sculpture will be set in niches screened by colonnades and mural paintings, also suggestive of the seasons, will form the background for the setting. The Court of Four Seasons will be 340 feet square. Mr. Jules Guerin, the noted artist, has charge of the color plan, and the designer of the court is Mr. Henry Bacon of New York.

FINE ARTS PALACE, PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

THE Fine Arts Palace will be one of the most beautiful structures in its architecture as well as in its location at the Panama-Pacific Exposition. The building, 600 feet in length from north to south, will be semicircular in form and will have as its central motive a low dome arising from a unique base. Forming the foreground will be a great lagoon surrounded on three sides by a sunken garden, which will be designed in romantic Italian architecture. Here will be assembled the notable paintings of history.

HIRAM G. M'GILL DIES

Transfusion Operation Fails to Save the Life of Chicagoan.

Milwaukee, Dec. 2.—Hiram G. McGill, fifty-three years of age, superintendent of the second division of the Postal Telegraph-Cable company, with headquarters in Chicago, died at a Milwaukee hospital following a short illness, the result of stomach trouble.

An effort was made to save Mr. McGill's life by the transfusion of a pint of blood from the veins of his son.

Serious Quarrel Over Joke.

A species of fishing fish is the himantolophus. It also fishes with a line, throwing out a ramifying tentacle, whose luminous branches spread out fanlike, their light giving effect being like that of a fuse.

LOSES EYE IN AUTO CRASH

Hiram Logsdon, Prominent Evansville Politician, Is Injured.

Evansville, Ind., Dec. 2. — Hiram Logsdon, one of the most prominent attorneys and Democratic politicians of Evansville and recently appointed probate commissioner, lost his right eye and was otherwise injured while riding in his electric auto, driven by his wife, when it was struck by a street car.

Mrs. Logsdon lost control of the machine. She suffered a sprained ankle. Flying glass from the auto window penetrated Mr. Logsdon's eye. He at one time represented Spencer and Warrick counties in the state senate.

Ironing Tablecloths.

The effect of a lovely linen tablecloth is often spoiled by the network of creases caused by folding it. In the future when ironing the cloth fold it once through the middle, roll and tie with a piece of tape. In this manner there will be but the one crease and the tablecloth will lie flat and smooth upon the table.—Indianapolis Star.

CONGRESS MEETS AT NATIONAL CAPITAL

Assembling of Body Is Scene of Joy and Sorrow.

Present Chiefs to Go to Scrap Heap—New Leaders Will Take Reins and Begin on Program of Much Work.

At Washington Monday, with usual procedure in the house, but with a substitute for the late Vice President James S. Sherman wielding the gavel in the senate, the sixty-second congress met at noon.

It was a scene in which exultation and pathos strangely intermingled. There was a smile of triumph on the faces of the Democrats, a brave effort to conceal the sting of defeat on the part of the Republicans.

Prominent Figures in Contrast.

On the one hand, Clark and Underwood in the house and Martin, Clarke and Lea in the senate, are preparing for a record of Democratic government to assure the continuance of their party in power. On the other hand are such figures as Cullom in the senate and Cannon in the house, who have spent a lifetime in the public service and who have been relegated to final retirement by their constituents.

"The old order passeth, giving place to new." The men who have been re-elected await the future with confident hope, foreseeing opportunities for advancement up the ladder of congressional fame. The members cast upon the political scrap heap recall past glories, prepare to return to the practice of their professions or to work on the farm, and in a few instances search for soft federal jobs.

Little of importance was done in either house. Both houses adjourned almost immediately after being called to order out of respect for memory of notable men who have died since the last adjournment.

President Taft's first message, dealing with foreign relations, will go to congress Tuesday. His second message, dealing with general subjects, will be submitted Friday, according to present information.

Bitter Pill for Republicans.

It will be a session of crimination and recrimination on the part of the Republicans and the Progressives. It will be a session marked by a determined effort on the part of the Democrats to establish harmony in their ranks and present a united front in connection with the important legislative matters to be considered during the sixty-third congress. There will be an airing of political "dirty linen" by the Republicans and Progressives and a satisfied silence displayed by the Democrats.

Legislation? That will be of secondary importance under the peculiar conditions which exist. The Democrats, feeling they have been intrusted with power, will insist that nothing be done until the new administration assumes control of the government. They will want the credit of the national reforms the country is demanding. The Republicans, smarting under the repudiation they have suffered, will be disposed to transfer all responsibility to the shoulders of the Democrats.

Program for New Legislation.

The constructive legislation to receive immediate attention will include:

The Works amendment to the constitution providing for a single six year presidential term.

The Borah bill creating a department of labor.

The Sheppard-Kenyon bill prohibiting the shipment of liquor into prohibition states.

The Burton bill regulating water power.

The bill reforming conditions of employment of seamen.

The bill limiting contributions in presidential campaigns.

The bill for the care of ex-presidents of the United States.

PRESIDENT'S MESSAGE

It Deals Entirely with Foreign Relations of the United States.

A note of warning to European powers which by indirect means continue to discriminate against American trade; a strong appeal to the congress to uplift the great foreign policies of America above mere questions of partisanship; a triumphant vindication of the diplomacy of the administration, which is characterized as that of "dollars versus bullets"; a masterful pride in the enormous expansion of American trade as a result of the foreign policies of his administration, and an earnest appeal for joint action by congress and the executive to open new markets for American industries—these are the more striking features of President Taft's fourth annual message, sent to congress.

The message is the first of a series of such communications which he will make to congress in the early days of the session, and deals entirely with the foreign relations of the United States.

Johnson's Case Advanced.

At Washington the U. S. supreme court advanced for hearing on Jan. 6 the case against Jack Johnson, the negro pugilist, charging a violation of the white slave act.

GIBSON JURY DISCHARGED

Reports Mistrial in Case of Lawyer Charged with Murder.

At Goshen, N. Y., after deliberating all night, the jury in the case of Burton W. Gibson, charged with the murder of his client, Mrs. Rosa Menschik Szabo, reported to Justice Tompkins that an agreement on a verdict was impossible.

The jury was discharged. The court will fix the date for a new trial.

IONIA—In the Ionia county circuit court Robert Crowe of Belding pleaded guilty to attempted criminal assault and was sentenced to one to ten years in the Ionia state reformatory.

YOUTH IS ARRESTED DRESSED AS A GIRL

Police in Sarnia See through His Disguise.

Fred Buchanan, Arrested in Sarnia, Suspected of Swindling in Michigan Cities.

Port Huron, Mich., Nov. 30.—Wearing a blue beaver hat with coat and waist to match, a pair of long brown gloves, a heavy veil and all the other feminine trappings, Fred Buchanan, aged eighteen years, is under arrest in Sarnia, and the police believe him to be the youth who has worked a clever swindling game between Port Huron and Detroit.

One week ago young Buchanan, it is alleged, boarded a Rapid car in this city, after escaping from the officers in Sarnia, and went to Mount Clemens, where he telegraphed to the Mooney brothers in this city, asking that $20 be sent him at once, signing the name of Bert Mooney, one of the three brothers, to the message.

Bert Mooney had left for Detroit that day, and when the brothers received the message, they immediately telegraphed the money.

Some time ago Buchanan was arrested in this city on suspicion of having robbed a safe, but was released in consideration of the fact that he had saved a boy from drowning the same day.

SURVIVED BY 13 CHILDREN

Winfield Cowles, Daring Riverman, Dies in Alma.

Alma, Mich., Nov. 30.—Winfield Cowles, a pioneer resident of this city, dropped dead from heart disease in the city hall.

Cowles was the father of fourteen children, thirteen of whom survive their father. He was an old riverman and was known as one of the most daring that ever took a drive down the Pine river, and at times hundreds of people would gather to see him shoot the dam on a log.

Cowles was born in St. Joseph county sixty-six years ago. He came here before he was twenty and has resided here ever since.

AUERBACH ON TRIAL

Chicagoan Hopes to Clear Name From Charge He Murdered Fisher.

Grand Rapids, Mich., Dec. 4.—Determined to make a bitter legal fight for his liberty and to clear his name, C. M. Auerbach of Chicago strove for an impartial jury at the opening of his trial in the circuit court. He is charged with the murder of his partner, Harry Fisher, a wealthy Chicagoan, but declares Fisher accidentally killed himself while hunting on his ranch near Baldwin.

Developments are expected at the trial, inasmuch as Prosecutor Cutler declares he has found new evidence to make "the state's case complete."

MICHIGAN'S HUNTING TOLL

Number of Victims Slightly Below Average for the Season.

Calumet, Mich., Dec. 2.—Seventeen men and boys were shot and killed, drowned or died of exposure while hunting in northern Michigan woods during the season just closed.

This is slightly lower than the average for the hunting season. Several were victims of hunters who shot at "moving bush."

Gravel Barge Turns Turtle.

Port Huron, Mich., Nov. 30. — The barge Hustler, carrying gravel between Port Huron and Windsor, is reported as having turned turtle at Algonac, drowning two members of the crew.

CAN'T TAKE OVER FAIR

Railroad Commissioner Defines State's Position.

Has No Authority to Assume Organization's Debts If Members' Consent Was Obtained.

Detroit, Dec. 3.—According to Railroad Commissioner G. W. Dickinson, who is also general superintendent of the Michigan state fair, there is considerable misunderstanding regarding the status of the annual show and the manner in which it is conducted.

There has been some agitation of late for the state to take the fair over and handle it as a public institution, and Governor Osborn has been quoted to the effect that this should be done. Commissioner Dickinson says this would be impossible unless all the members of the association consented. On the other hand, he says, every voter is eligible to become a member upon the purchase of a membership ticket.

Most of the agitation for taking the fair over by the state was started because it would make the association eligible to receive the $1,000 given annually by the federal government to state fairs owned and managed by states. Mr. Dickinson says this would be but a drop in the bucket, and that the United States should give the amount anyway because exhibits are received from all parts of the country.

The fair association is about $200,000 in debt at the present time. The state would not be able to take over the fair because it has no authority to assume the indebtedness.

BUYS ABANDONED VILLAGE

North Michigan Man Still Has Faith in Huron Bay.

Lansing, Mich., Dec. 3.—Axel Erickson recently purchased of the state land department fifty-four lots in the village of Huron Bay. The tract secured by Erickson covers nearly the entire village. The sale sounds the death knell of one of the most promising villages in the upper peninsula a couple of decades ago.

The town was platted in the early nineties, when the Iron Range and Huron Bay railroad was being promoted. The promoters "fell down" on the job, however, and the village never amounted to much. Its inaccessibility caused the early comers to leave their possessions and go away. Erickson says that he will remodel some of the old houses and make a roadhouse of them.

ENGINEER IS BADLY HURT

Leaps from Locomotive as Cars Crash Into It Near Traverse City.

Grand Rapids, Mich., Nov. 30.—Michael McNierney, Pere Marquette engineer, has been brought to a local hospital suffering from internal injuries received in a collision at Traverse City.

He jumped from his engine when a wild string of cars crashed into it. His shoulder, nose and arm were broken, his skull was fractured and he sustained internal injuries.

Romeo Nonogenarian Claimed.

Charlotte, Mich., Dec. 3. — Wallace Coykendall, aged nearly ninety years, for many years a well known business man of Romeo, Mich., died at the residence of his daughter, Mrs. James Brown here. The body was taken to Romeo for burial.

ST. JOHNS — While he was playing in the yard with her brother, Elsie, the four-year-old daughter of James Stephens, fell into an open cistern and before the little one could be recovered she was dead. She was the only daughter.

PATRICK FREED FROM PRISON AT SING SING

New York Lawyer Gains Release after Long Fight.

Accused of Having Forged Will and Poisoned Aged Millionaire in Order to Gain Possession of Half His Fortune.

Prison doors opened for Albert T. Patrick at daybreak and he went forth a free man to again join his wife, who is awaiting him in New York city.

Governor Dix had pardoned the man from Sing Sing prison.

In 1900 the aged millionaire, William Marsh Rice, died in his New York home under suspicious circumstances and Patrick was convicted of the murder and sentenced to be electrocuted. By successive appeals he staved off death while in the Sing Sing death house and finally, the Friday before the week during which Patrick was to be electrocuted, Governor Higgins commuted the death sentence to imprisonment for life.

John T. Milliken, a wealthy banker and broker of St. Louis, who married Patrick's sister, has worked indefatigably for Patrick and it was his influence with the governor that saved Patrick from the death chair.

Mr. Milliken told Governor Dix that he would place $100,000 on deposit in a New York city financial institution which could be "turned over to charity if Patrick within one year after his release does not prove absolutely his innocence."

Facts Concerning Rice's Death.

William Marsh Rice, a childless widower, died in the Berkshire apartments, 500 Madison avenue, on the evening of Sunday, Sept. 23, 1900. He had been a recluse. His only attendant was his valet, Charles F. Jones, who was arrested for murder, turned state's evidence and said that he had chloroformed Rice at Patrick's behest. Jones received immunity and was released. Since then his wanderings have been vaguely reported, and not long ago, it was said, that he had made a confession exculpating Patrick.

In 1896, Mr. Rice, then eighty-four years old(had made a will leaving the bulk of his fortune to the William Rice Institute, "for the advance of science, art and literature," in Texas, to which he had already given more than $1,500,000. The theory of the prosecution was that Patrick and Jones entered into a conspiracy to forge a new will giving Patrick half of the estate, and that, the will having been made, they then conspired to kill Rice.

Coroner Stopped Funeral.

When Rice was found dead on that Sunday evening, there was no suspicion that Lawyer Patrick had murdered him. Not until four days later when the funeral was stopped by order of the coroner and the body was sent to the morgue, did Patrick learn that he was a suspect.

DETROIT — Because all of the members of the Carriage, Wagon and Automobile Workers' union desire a shop committee and the employers professing to see in this demand a move to establish the "closed shop," have refused the request, about 1,000 union men have gone on strike here. Five plants of the American Auto Trimmings company and the Briggs Manufacturing company are affected.

BIG RAPIDS—After being charged with the murder of P. H. Ackley, a Norton township farmer, seventy years old, Mrs. Lydia Van Tassel, seventy, and George Hunter, sixty-five, were arrested at Carson City. Mrs. Van Tassel was formerly Ackley's housekeeper. The farmer's body, partly clad, was found last Thursday about a mile from his home.

Drives off a Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In an attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times." writes Mrs. George W. Place' Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cts. and $1.00. Trial bottle free at C. A. Wright & Son's.

Could Shout for Joy

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless suffered for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatism, Electric Bitters have no equal. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at C. A. Wright & Son's.

HYDE FOUND GUILTY

Convicted of Forcing Banker Robin to Loan $130,000.

At New York city Charles H. Hyde, former city chamberlain, was found guilty of bribery. It was charged that he had forced Joseph G. Robin, head of the Northern bank, to loan $130,000 to the crumbling Carnegie Trust company when that institution's capital had been impaired.

CHARLES H. HYDE.

Robin testified that Hyde threatened to withdraw the city's deposits from the Northern bank if he refused to transfer the $130,000 to the Carnegie Trust company. William J. Cummins was the dominant power in the Carnegie company, but was in financial straits. Hyde was his friend and, it is charged, was trying to aid

THE COMING OF THE PARCELS POST.

What it means to the Post Office Service in added work, more carriers in every way is the question that is now agitating the people,

Preparations have begun in the various offices, though they are still in the dark as to what changes will be necessary for the working of the new system in added facilities and helpers. Merchants have been receiving letters of inquiry asking the amount of business the department will have to handle the number of pounds they expect to send out daily.

It is estimated that one hundred millions of stamps will be distributed the first year. There are 12 different designs of stamps of as many different values from 2 cents to $1.00 all printed in red ink, also postage due stamps from 1 cent to 25 cents in value, printed in green ink with various designs, from the post office clerk to the automobile service. With the coming of the new year, a new era in post office work will be inaugurated.

Don't let the baby suffer from eczema, sores or any itching of the skin. Doan's Ointment gives instant relief, cures quickly. Perfectly safe for children. All druggists sell it.

Dog Justice.

A dog had been worried by another dog of greater size and strength, and when he returned to his home it was observed that he abstained from half the proportion of his allotted food and formed a kind of store of his savings. After some days he went out and brought several dogs of the vicinity back and feasted them upon his hoard. This singular proceeding attracted the attention of his master, who observed that all the dogs went out together. Following them, he found they proceeded to the outskirts of the town, where the leader singled out a large dog, which was immediately assailed by all the guest dogs and severely punished.—St. Louis Globe-Democrat.

The Downward Path.

An American traveler returned from rural England brought over a refreshing bit of theory regarding the modern sliding scale of class distinction.

His part of the country, an old man explained to the American, had gone to the dogs through the "flattery" of well meaning folk, which was best illustrated by the changing manner toward farmers' wives.

"When 'twere 'dame' and 'porridge' it were rale good times," the old fellow enlarged; "when 'twere 'mistress' and 'broth' 'twere worser a great deal, but when it come to 'ma'am' and 'soup' it were werry bad indeed."—Youth's Companion.

TRIP TO TEXAS.

Looking after Texas Dirt.

Dear Herald:

I just returned from my trip down in McAllen, Texas, and as I agreed to write you and give an account of my trip so here it goes. The trip was made for the express purpose of seeing whether or not the country was like it was represented to be, by the gentlemen who are selling the lands to people in this part of the country. They made great claims for the lower Rio Grand country, and I in the company of Mr. and Mrs. Phelps of Galesburg, and Lew Sterling of Stanton, Mich., joined the excursion at Kansas City Nov. 20. It was quite a large company who went, most of them from Iowa, Kansas, Missouri, and a better natured bunch of excursionists was perhaps never seen.

The trip was made on schedule time and without any mishap. The service was first class, and I want to say right here that every promise made by the company was fulfilled even to the chicken dinner. The train was a special, running from 30 to 60 miles an hour over the Missouri Kansas and Texas Ry. Every person had a good berth and all meals were taken on the train.

It had been claimed that all sorts of things would be seen in the lower Rio Grand valley, that the people would see farms producing from $300 to $500 per acre, that flowers would be seen in bloom, that a fine climate would be encountered, that Alfalfa fields would be seen producing six to nine crops per year. They were pretty large claims, but every claim was verified, nothing claimed by the company was overdrawn,

The people were simply astounded, they saw things they did not dream possible. They saw cabbage patches yielding $400 to $500 per acre. They saw onion fields yielding a net-profit of from $300 to $500 per acre, snap beans which yields from $200 to $300 per acre, and fields of head lettuce which yields from $700 to $1000 per acre and only occupy the ground for seven to eight weeks. They saw lands which produced three cutting of sorghum for feed of which produced four to five ton per acre which sells for $12 to $14 per ton, or a yield of from $120 to $140 per acre and then the ground is turned over and planted to cabbage, lettuce and onions which yields from $400 to $600 per acre, Alfalfa which had been cut five times and would be cut three times more this year, the last cutting is permitted to go to seed, and left on the ground to go to seed again.

We had the pleasure of seeing Hon. Wm. J. Bryan's farm of 240 acres, Mr. Bryan has a fine place down in that country and is now making preparations of building a $25,000 home, he has a fine house now,

The lower Rio Grand valley is the garden spot of the world. It is the place where one can work out of doors every day in the year, when one can make a living easier than any where else in the world, where the country is so prolific that the Frisco lines have ordered 2000 new refrigators cars to handle the produce and crops which are raised then.

The interurban road is being built to handle and take care of the business which is growing by leaps and bounds. When the crops yield from ten to fift[illegible] ton per acre, the wagon hauling is getting pretty heavy and the interurban is being built to belt truck section and deliver the products to the steam roads. The products are taken to Kingville by rail where the cars are iced and they are sent by fast freight to eastern and northern markets, much of which goes to Galveston then by boat to market. All the products are handled by the Growers Association and the very best prices are obtained.

TO BE CONTINUED

Anatomy Among the Ancients.

It has been pointed out that the statues and plaques carved in stone and wood to be seen in the Gizeh museum prove that the priest mummifiers of Memphis 6,000 years ago possessed a profound knowledge of anatomy. Science therefore, as Lockyer remarks, is as old as art, and they have advanced together. Another remarkable fact in this connection is that excavations in Italy have brought to light scores of finely finished surgical instruments for certain operations, which are in almost every particular of form like those reinvented in modern times and used by the most advanced surgeons of today.—Harper's.

Oldest Hospital in Europe.

Perhaps the oldest hospital in Europe is the Hotel Dieu, in Paris, which is said to have been founded in 660. True to its device, "Medicus et hospes," not only the sick, but also pilgrims and mendicants, regardless of age, sex, condition, creed or nationality, were admitted at all hours of the day and night. No regulations controlled their admission or departure. It was the most important of the forty-eight hospitals which existed in Paris in 1788 and in which during that year (according to the report of the commission consisting of Baily, Tenon and Lavoisier) 35,000 sick and poor were cared for.—Dietetic and Hygienic Gazette.

A Born Champion.

"I understand your boy has the makings of a champion pugilist."

"I really believe he has. He positively won't fight with anybody he isn't sure he can whip."—Louisville Courier-Journal.

Jane Austen at Bath.

Bath, where the memory of Jane Austen was commemorated by the erection of a bronze bust in the pump room, was the home of the novelist for four years. She removed there from Steventon with her parents in the spring of 1801 and resided successively at 4 Sydney terrace, Green Park buildings and 25 Gay street. After the sale of the family effects at Steventon Jane writes to a friend: "My father and mother, wisely aware of the difficulty of finding in all Bath such a bed as their own, have resolved on taking it with them. All the beds, indeed, that we shall want are to be removed."—London Spectator.

Longevity in French Villages.

A remarkable record of longevity is to be found in some of the rural parishes of France. In the village of St. Thomas de la Fliche there have been only fourteen parish priests in three hundred years, the fourteenth being still in possession. The parish of St. Germain du Val, in Paris, has had only three pastors in one hundred years, while that of Givry en Argonne has had but five in 130 years.

AMUSEMENTS

NORMAN HACKETT

Tecumseh's favorite actor in legitimate drama Norman Hackett appeared at the Opera House last evening before a full and enthusiastic audience staging his new play "The Deceiver."

The many curtain calls attested to the fine work he did in this play. The first act possibly was a disappointment to many, not in the acting, but that many are not fond of wild western scenes, but this first act was the key to the rest of the play, the second, third and fourth acts were laid in South America.

The climax of the play was unexpected and so tense was the interest at this point, that the dropping of a pin could have been heard in the Opera House, when Norman Hackett the deceiver still deceiving, informed his adopted mother that her real son died defending the honor of a woman when the reverse was true.

The characters were all well taken. Burton Robbins the Spanish father of the heroine, is a nephew of J. D. Robbins of our town.

The WEEK'S DOINGS

THE MACON DRAIN

That the big Macon drain will be completed by July 1913 is the prophecy of Roy Auchanpaugh deputy drain commissioner, who has just finished an inspection of undertaking now in progress in Dundee.

Work is going on at both end of the mammoth ditch as rapidly as possible. Altogether over three miles of channel varying from 30 to 50 feet in width and from 8 to 10 feet in depth is now completed and partly filled with water, with great piles of dirt on the banks, the drain resembles a canal.

Dry Baled Shavings

are much superior to straw for bedding as they are warmer, much cleaner and ton for ton will go nearly twice as far. They are put up in bales of 50 and 90 lbs., and are very clean having no sticks, etc.

Price, delivered $10 a ton or $9 not delivered.

Come down and see them or phone 52 for a few bales.

MERRY-GO-ROUND

The Merry-go-Round Club was entertained Monday evening at the home of Mr. and Mrs. Thomas Mc Cann. There were nine tables of 500 played, Herbert Temple received the gentlemens prize winning 7 games out of ten played, Mrs. R S. Moore won 8 out of the ten winning the ladies prize. Refreshments were served after the games.

The out of town guest was Mrs. Adolph Breitenweisher.

NO NAME CLUB.

The No Name Club met with Mr. and Mrs. Fred Aldrich Tuesday evening. There were four tables of cards. Mrs. C. B Chase carried away the ladies' prize and O. G. Hunt that for the gentlemen. Light refreshments were served and a pleasant hour enjoyed by all.

RESEARCH CIRCLE

The open meeting of the Research Circle was held Tuesday evening at the home of Mrs. John Heesen with a fine attendance. There were quite a number of invited guests who enjoyed the entertainment very much.

The first on the program was a short story of the life of Thomas Bailey Aldrich read by Mrs. John Kingan for Mrs. Quackenbush who was unable to be present on account of illness. The paper was a most interesting one and was followed by a resume of his story. "Two Bites at a Cherry" in Mrs. Carrie Bryan's most happy manner, as a story teller she certainly excells and one does not need to read the book for further knowledge of the story. Mrs. J. B. Kennedy was next on the program, with the life story of Bret Harte, which she gave in a very pleasing manner, it was the story of a grand character and one which will long be remembered by the stories he gave to the public. "The Luck of the Roaring Camp," one of his most forceful and pathetic stories was then read by Mrs. Milburn Keysor, whose reading was so realistic that one could see the crowd of rough men as they gathered around the cabin where Tommy Luck was born and the final scene when the floods came and old Kentuck and Luck passed over to the great beyond together.

The hostess of the evening and the Committee in charge, next appeared with dainty refreshments, after which a social chat ended a most delightful evening.

ONLY ONE "BEST"

Tecumseh People Credit Where Credit is Due

People of Tecumseh who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Tecumseh people. Here's a case.

Mrs. C Stevenson, Wyandotte & E. Potawatamie Sts, Tecumseh, Mich., says: "I cannot say too much in praise of Doan's Kidney Pills in return for the great benefit they gave me. I never used another remedy that did me so much good. Since 1906, I have taken Doan's Kidney Pills on several occasions, getting my supply at Wright & Son's Drug Store, and they have acted as a tonic to my kidneys. The first symptoms of kidney complaint in my case was a sharp, shooting pain across the small of my back which made it almost impossible for me to lie down. Someone advised me to give Doan's Kidney Pills a trial and I did so. After I had taken this remedy a short time, my pains and aches disappeared and gravel that had been a source of constant suffering, no longer troubled me. In fact, I felt like a different person. I have since recommended Doan's Kidney Pills to a number of my friends and shall continue to do so."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Secret Terror

The haunting fear of sickness and helplessness is the secret terror of the working man. Health is his capital. Kidney diseases sap a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Sold by all druggists of Tecumseh.

Foils a Foul Plot.

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr. King's New Life Pills, and end such abuse of your system. They gently compel right action of the stomach, liver and bowels, and restore your health and all good feelings. 25c at C. A. Wright & Son's.

Dr. Wm. Sadler, author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey and Tar Coompound is a reliable household medicine for coughs and colds, equally effective for children and for grown persons. Take it when you feel a cold coming on. It will avert danger of serious results and cure quickly. No harmful drugs. Sold by all druggists of Tecumseh.

John R. Carroll, Syracuse, N. Y. former official local iron workers union.

Spurgeon P. Meadows, Indianapolis, Ind., business agent of the local council of the International Brotherhood of Carpenters and Joiners.

WOLGAST LOSES ON FOUL

Ritchie Is Given the Decision in the Fight in California.

Through a fog at Daly City, Cal., a wildly excited throng of fight fans carried from the roped arena their first pugilistic lightweight champion. Willie Ritchie was hoisted on the shoulders of his supporters and his victory was so unexpected that seven thousand spectators made the hills echo with their exulting shouts.

With the sixteenth round, having only two seconds to go, Champion Wolgast fouled Ritchie and the referee was quick to raise the local lad's glove in token of victory.

Wolgast had the best of the fight up to the critical sixteenth round.

U. P. MERGER MUST DISSOLVE

Opinion Handed Down by the United States Supreme Court.

At Washington the U. S. supreme court, in an opinion announced by Justice Day, held that the Union Pacific Railroad company by the acquisition of stock in the Southern Pacific company, had erected a combination in violation of the Sherman anti-trust law.

Judge Day, rendering the opinion, indicated that the court would enter a decree to dissolve the combination and also an injunction to prevent the Union Pacific from voting Southern Pacific stock.

PETOSKEY — Becoming blinded by snowballs thrown by boys on the sidewalk, Charles Adams, nine-year old son of Mrs. Evelyn Adams, lost control of a bobsled he was steering. His two sisters, Elithe, fifteen, and Corinth, thirteen, and brother David, three years old, were slightly hurt and the sled was demolished. Charles was carried home, where it was found he was not seriously injured. It is considered remarkable that all the party escaped without broken bones.

HASTINGS—For going gunning for his neighbor's pigs, Ardean W. Young, a Barry township farmer, paid $53. For some time, Young said, he had been annoyed by pigs owned by Charles Mahoney. A large black sow came into his yard and killed chickens. Young blazed away with his shotgun, killing the porker. Mahoney caused his arrest.

Young paid Mahoney $30 for his pig, and also circuit court costs amounting to $23.

For The Nervous Woman,

Or the woman who experiences hot flashes nothing is so good to soothe, quiet and calm the nervous system as a pure glyceric extract of native medicinal plants, and made without alcohol, which has been sold by druggists for the past forty years, and most favorably known as Doctor Pierce's Favorite Prescription. In younger years some women suffer from dizziness, or fainting spells, hysteria, headache, bearing-down feelings and pain. All these symptoms of irregularity and female disturbance are relieved by the use of this famous "Prescription" of Doctor Pierce.

As a powerful, invigorating tonic "Favorite Prescription" imparts strength to the whole system, and in particular to the organs distinctly feminine. For over-worked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, it is an excellent appetizing cordial and restorative tonic.

"My disease was called retroversion," writes MRS. LYDIA MCDONALD, of Mecosta, Mich., Route 1. "I had nervous chills and numb spells and they would leave me very weak. Then I had inflammation and the doctor said I had a floating kidney. I doctored seven months with our family physician. He said I would have to have an operation. Then I stopped taking his medicine. After taking three bottles of Dr. Pierce's medicines I have not had any nervous chills or weak spells. I am better than for years.

"My daughter is now taking the 'Prescription' and Dr. Pierce's Golden Medical Discovery, also the 'Pellets' for nervousness and weak, tired feeling. These remedies have helped her ever so much in a short time. We have great faith in your medicines for female troubles."

MRS. MCDONALD.

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement.

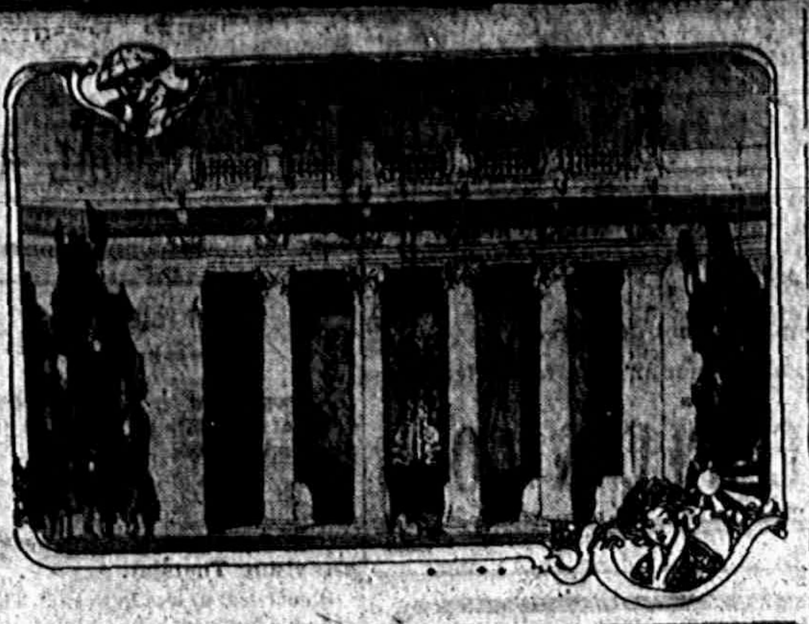
ALMA—Owing to a great deal of conflicting evidence at the coroner's inquest which caused a suspicion that foul play might have caused the death of Fred Bruce, who was found dead in an outhouse Sunday morning, with a shotgun wound in his body. Prosecuting Attorney Goggin ordered a post mortem on the body. The course of the shots was found to have been downward, while the position of the body seemed to show that the shots would have taken an upward course if he shot himself.

COLOMA—An unexpected explosion in a moving picture show in this village caused the destruction of a block of buildings and injury to several persons, one of whom is seriously hurt. Fire in the moving picture show followed the explosion and four women were hurt in the rush to escape. Joseph Humphrey, the film operator, suffered very serious burns. The local firemen were unable to subdue the flames and help from the Benton Harbor fire department was sent before the fire was extinguished. A northwest wind carried the flames to adjacent buildings. The property loss was $15,000.

GRAND RAPIDS—Accidentally setting on fire a pair of gloves which she was wearing and cleaning with gasoline, Mrs. Nellie Comstock, thirty-two, was so seriously burned about the arms that amputation of both hands may be found necessary. Mrs. Comstock approached a gas stove which ignited the gloves. She saved her own life by rushing from the house and rolling herself in the snow before the flames reached her face and she inhaled them. Her arms were cooked.

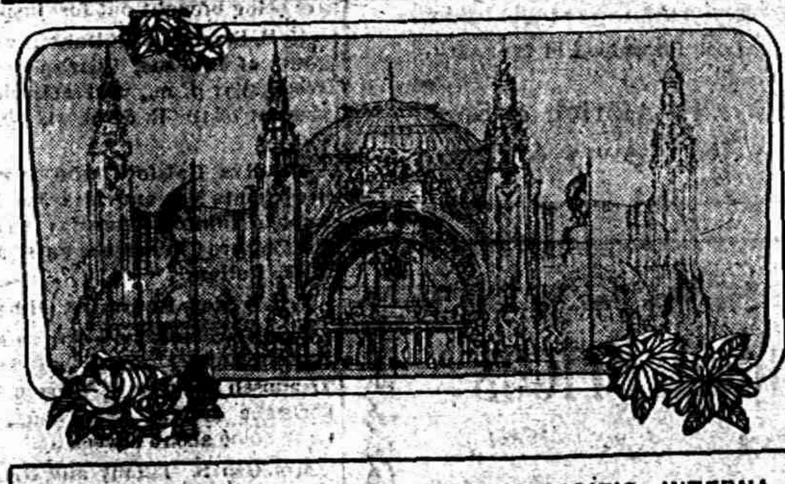


STUDY OF THE COURT OF THE FOUR SEASONS, PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

TO the west of the great Court of Honor at the Panama-Pacific International Exposition will come the Court of Four Seasons, one of the most elaborate and beautiful of the great interior courts that will lie between the huge exhibit palaces of the main group. The walls of the court will be partly formed by the palaces of Liberal Arts and of Education and by the two great wings of the Palace of Agriculture and partly by the classic colonnades and peristyles that will connect these buildings. The Court of Four Seasons, in classic Italian architecture, is designed by Mr. Henry Bacon of New York, designer of the Lincoln Memorial. In harmony with the title of the court there will, in each of its four corners, be set groups of statuary symbolical of the seasons—Spring, Summer, Autumn and Winter. The sculpture will be set in niches screened by colonnades. Mural paintings, also suggestive of the seasons, will form the background for the setting. Mr. Jules Guerin, the noted artist, has charge of the color plan. The Court of Four Seasons will be 340 feet square.

SERVICE BUILDING, FIRST STRUCTURE TO BE ERECTED BY THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

BIDS have been let for the Service Building, the first structure to be erected upon the Panama-Pacific International Exposition site. The structure will be three stories in height and will be occupied by the exposition force during the building of the great fair. It will be 150 feet square with an interior court of 58 by 104 feet. The environing grounds will be picturesque with flowers, fountains and statuary. The first floor will be occupied by the auditor, treasurer, railroad exhibits, admissions and concessions, police, information, telegraph and emergency hospital departments; the second floor will be occupied by the architectural, mechanical, electrical and civic engineering departments; the third floor will be used for blue printing, photograph and color studios. It is expected that the building will be completed by the first of the year.



HORTICULTURAL BUILDING, PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

ONE of the most notable buildings at the Panama-Pacific International Exposition at San Francisco in 1915 will be the great Palace of Horticulture, constructed of glass, covering over five acres, or two city squares in extent, and surmounted by a dome 150 feet high. The Palace of Horticulture will be set in a great tropical garden near the main entrance to the exposition grounds. It will be 672 feet long and its greatest width will be 320 feet. An impressive nave eighty feet high will run the length of the building and paralleling the central nave on either side will be two side aisles fifty feet in height. At the main entrance to the building a huge arch will be adorned with classic bas-reliefs suggestive of the purpose of the structure. The entrance and interior of the Palace of Horticulture will be decorated with trellises upon which flowering vines will be trained. When the exposition opens the Horticultural Palace will appear as if set in the heart of a marvelous garden. Although wood will be used in connection with glass the Palace of Horticulture will be in every sense a glass palace; it will be the largest glass structure ever built. During the night illuminations at the exposition the vast surface of the building will present unusual and beautiful reflections.

MICHIGAN STATE NEWS.

JACKSON—Full and complete confessions of the plot to burn Jackson prison, which culminated in the destruction of the sisal warehouse in October, have been obtained from four of the convicts now held in confinement in Detroit, it is learned here. It is believed the whole conspiracy will be cleared up and the details made public within the next day or two. The confessions of the four men agree in all essential particulars and all unite in fixing the responsibility for the warehouse fire upon an inmate of the prison whose name they give. According to the story, this convict secured a candle from the hall master's office, concealed it for several days, and finally before quitting work one evening lighted and placed it in the warehouse in such a position as to set fire to the inflammable material in the storeroom.

RAYNER'S SEAT TO JACKSON

Maryland Governor Appoints Taft Man United States Senator.

W. P. Jackson, Republican national committeeman from Maryland, was appointed United States senator by Governor Goldsborough at Annapolis as the successor of the late Senator Isidor Rayner, who died in Washington.

The appointment of Mr. Jackson cuts a Democratic majority in the senate down to one. Governor Goldsborough appointed Mr. Jackson at the request of his friends, who are loyal to President Taft.

LEADERS GATHER FOR BIG ROUNDUP

Chiefs of Progressive Party Assemble in Chicago.

COL. ROOSEVELT WITH THEM

"Bull Moose Special" Brings Foremost Spirits to Confer on Permanent Party Organization and Campaigning.

Chicago, Dec. 9. — A train of ten cars, the last one tagged "Bull Moose special," pulled into the city at noon, bearing Progressives from New York and neighboring states to the party's conference which is to be held Tuesday and Wednesday. Colonel Roosevelt, Oscar Straus and Frank A. Munsey were in the same Pullman. A dozen women were in the company of 200.

Progressives to Pull Ahead.

The colonel repelled the inquisitive with "not a word, not a word." But conversation with other leaders of the pilgrimage made it plain that whatever conciliatory action the Republican party may take to get a unified fighting front for 1915, the Progressives are going right ahead with their own program. It was evident that nothing short of complete surrender and acceptance of their political faith will be tolerated by the Progressives and that no friendly overtures may be expected from them.

Oscar Straus, for instance, thus commented on the aim of the Washington conference of the twelve Republican and Progressive governors:

"The only way to reconstruct the Republican party is through the Progressive party. The latter alone embodies the spirit of Lincoln and Lincoln Republicanism. Our aim is to get rid of the bosses and come back to the people. The Progressive policies are the broad highway along which the Republican party must come back if it comes at all."

Purpose of the Gathering.

Mr. Munsey phrased in this manner the purpose of this week's roundup at Chicago, which set out to be a party conference but virtually will be a national convention:

"The intention is to discuss ways and means of developing the party, of solidifying the organization and of laying plans for future campaigns," he said.

Everett Colby of New Jersey through it would be demonstrated at Chicago that the Progressives were not a "one man party."

In the car Canatha with Colonel Roosevelt, Mr. Munsey and Oscar Straus were Paul Block, Henry L. Stoddard, Bainbridge Colby, Douglas Robinson and Mr. Robinson's son-in-law, State Senator Alsop, and Mrs. Alsop of Connecticut, the colonel's nephew, Theodore Douglass Robinson, the new state chairman, and Timothy L. Woodruff.

Perkins on Ground Early.

George W. Perkins came here on Saturday to arrange things. George W. Kirchwey and John A. Kingsbury also came Saturday and will have proposals to lay before the conference. W. Bourke Cochran and Lucien Lonheir, Nassau county chairman, came by the Twentieth Century Limited.

Miss Mary Dreier, who was a delegate to the national Progressive convention, and Miss Alice Carpenter are already in Chicago conferring with Miss Jane Addams about the part women are to play in the proceedings. Jane Addams will preside over one of the sessions.

DIES OF BROKEN HEART

Retired Merchant Had Accidentally Killed His Best Friend.

San Francisco, Dec. 9.—Walter S. Cocks, a retired business man of fifty-five, died of a broken heart following the accidental killing of his friend, James J. Hyland, Nov. 14.

On that date Cocks was awakened by some one breaking a window of his house and seizing a revolver went to investigate. Encountering a man he supposed was a burglar he fired, killing Hyland. Cocks, when he looked at the body, found that he had killed his lifelong friend. Hyland, who lived next door, had mistaken the house for his own. Cocks never recovered from the shock, although no blame was attached to him.

PATRICK TO TAKE UP OUTDOOR WORK

Will Labor on Brother-In-Law's Farm in Missouri.

SEEKS TO GET NORMAL OUTLOOK

John T. Millikin to Place Central Figure of New York's Famous Murder Case on Place Near St. Louis.

St. Louis, Mo., Dec. 9. — Albert T. Patrick is to be a farmer, starting today.

The central figure in New York's famous murder case, recently pardoned from Sing Sing prison, will don his old clothes and for a time will keep his hands busy and his mind at rest, helping to harvest the corn crop on the farm of his millionaire brother-in-law, John Milliken, who owns a large estate at Eureka, Mo.

Seeks Benefit from Outdoor Life.

Patrick believes the outdoor work will help him to regain a normal perspective of the world outside of prison walls and give him an opportunity to plan his future in practical solitude.

Patrick, accompanied by his sister, Mrs. John T. Milliken, motored to Eureka from St. Louis, a distance of about twenty-five miles. There he saw Milliken, his brother-in-law, who has spent a fortune obtaining his release, for the first time since he walked through the gates at Sing Sing a free man.

Millikin and Patrick to Confer.

Neither Patrick nor Milliken intend to say anything about Patrick's future plans, about his visit at the Milliken farm, until they have had a thorough understanding. Milliken is adverse to having Patrick attempt to probate the Rice will of 1900, and says he will try to persuade Patrick to give up any plan of the kind.

Patrick is to go to Denver soon to see his mother and daughter. The daughter was four years old when her father was imprisoned and now is sixteen years old. His mother, Mrs. Edward T. Patrick, is seventy-four years old.

HOLD TWO AMERICANS

Attacked by Mexicans, They Send for Aid and Fire on Rescuers.

El Paso, Tex., Dec. 9.—E. J. Long and Oscar Langendorff, American mining men, are in jail at Parral, Mex., accused of murder, according to letters received in El Paso. The letters explain that the camp of the two men was attacked by bandits and they sent to Parral for aid.

The Parral chief of police and a band of civilians responded, and when they arrived without uniform the Americans thought they were bandits and fired on them. The chief of police was killed and the Americans were arrested.

Break Up Mormon Meeting.

London, Dec. 9.—The Mormon missionaries have of late been very active in Ipswich and vicinity. This has aroused considerable feeling against them and ended in disorder when one of their meetings was broken up by a mob. The missionaries were forced to ask police protection from bodily injury.

Huntington, W. Va., Dec. 9.—Five men are dead and one seriously injured, following the explosion of a boiler in a sawmill in Wilsondale, Wayne county.

CASH STRIKE AID USED FOR BOMBS?

Government Makes This Charge against Iron Workers.

"HIGH WIND" WRECKS BRIDGE

Federal Attorneys Attempt to Show that Money Raised for Strikers Was Used for Explosives.

Indianapolis, Dec. 9.—In an effort to show that large portions of the funds appropriated by the International Association of Bridge and Structural Iron Workers for the series of strikes which, beginning in 1905 and continuing up to the present year, marked the effort to unionize work done by firms employing nonunion men, was paid for dynamiting buildings and bridges, the government cross-examined several of the defense's witnesses.

Patrick F. Farrell, of New York, former members of the union executive board, testified that $10,000 was contributed to the New York district council of iron workers on account of a strike there, but he denied it was used for improper purposes.

"High Winds" Wreck Bridge.

Asked about a letter to John J. McNamara in which, referring to organizers, he said, "it takes good, hard cash to push them along," Farrell replied he meant only that the men required pay for the work.

On Feb. 3, 1908, a drawbridge in construction for the city of New York at Pelham fell into the bay because some of the supporting guys had been removed. The next day Farrell wrote to McNamara, "I inclose a newspaper clipping about what the high winds did last night."

The witness said he understood the wind had blown down the structure.

"As an official of the international union, did you ever appropriate money for buying nitroglycerine or dynamite, or did you know McNamara was engaged in dynamiting?" asked Senator John W. Kern for the defense, on direct examination.

"I never heard of it until McNamara was arrested," said Farrell.

Blast on Superior Dock.

Fred J. Mooney, an iron worker of Duluth, testified that he told J. J. McNamara that labor conditions at Duluth were "slavery."

Three days after the blowing up of a steel unloading rig on the docks at Superior, Wis., in August, 1910, Mooney said he wrote to McNamara "real dynamiters" had visited there.

BUY FARM IN OIL SEARCH

Indianapolis Company Contemplates Leasing Brown County Land.

Columbus, Ind., Dec. 9. — A company recently formed by Indianapolis capitalists for the purpose of prospecting for gas and oil in Brown county has bought the George Allison farm near Nashville, and it is said will buy or lease a total of 1,000 acres in Brown county and some in Bartholomew county.

Former Auditor of State Billheimer and Will Gardner of Indianapolis are members of the company. More or less gold has been found in Brown county from time to time, and it is the belief of the natives that the new company may find paying quantities of the yellow metal while prospecting.

Bumper Crop of Corn.

Foosland, Ill., Dec. 9.—The fourteen farms on the Foos estate of 1,370 acres will raise about 54,800 bushels of corn this year.

WOMAN INJURED ON A GUNBOAT

Officers Probe Mystery at Mare Island Navy Yard.

TWO STORIES OF THE AFFAIR

Woman Said to Have Fractured Skull by a Fall—Another Report Brings Beer Bottle Into Play.

Vallejo, Cal., Dec. 9.—A naval board was convened at the Mare Island navy yard to investigate an affair on board the United States gunboat Vicksburg, which resulted in the removal of Mrs. Andrew Muller, wife of a Vallejo saloonman, in an unconscious condition from the vessel.

It was reported that Mrs. Muller had fallen down the gangway of the Vicksburg.

Findings Sent to Washington.

The session of the naval board was held behind closed doors, with Commander Richard Douglass of the supply ship Glacier presiding. All of the officers of the Vicksburg were questioned, and a report of the findings o tfhe board was forwarded to the department in Washington.

It is alleged by the police of Vallejo, who conducted a separate investigation, that they have evidence to show Mrs. Muller did not fall down the gangway, as at first reported, but that she was struck on the head by a beer bottle, hurled by the wife of an officer with whom she had been dining.

Another Woman In Party.

A second woman, included in the midnight dinner party, it is understood by the police, is an employe of a candy store in San Francisco. The identity of the two officers alleged to have entertained the women on the gunboat has not yet been made public.

The visit of the women to the gunboat is said to have resulted from an acquaintance formed at a ball given on the Vicksburg Thanksgiving eve by the officers and crew.

Mrs. Muller's skull was fractured, but she is not believed to be fatally injured.

SHIP FREED FROM ROCKS

Steamer Easton Is Pulled Off the Dangerous Iroquois Reef.

Duluth, Minn., Dec, 9.—The steamer Easton of the Booth line escaped from the clutches of the Iroquois reef during the night and proceeded under its own steam to Port Arthur. All aboard are safe. The boat had been fast on the rocks since 5:30 Thursday morning.

Lightering the ship's cargo, consigned to Port Arthur and Fort William, was sufficient to allow the vessel to back off into clear water. Captain Hawkinson's examination of his vessel brought to light no serious injuries, and by a wireless message he reported the boat's release and safety.

JURY HAS AUERBACH CASE

Fate of Alleged Slayer of Harry W. Fisher in Doubt.

Baldwin, Mich., Dec. 9.—The case of O. H. Auerbach of Chicago, charged with the murder of his employer, Harry W. Fisher, is in the hands of the jury. The scene of the shooting was visited by the jury.

In their closing arguments attorneys for the defense laid special stress on the assertion that the prosecution had offered nothing but circumstantial evidence to implicate Auerbach with Fisher's death

Drives off a Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In an attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Piace' Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cts. and $1.00. Trial bottle free at C. A. Wright & Son's.

Greatest Y. M. C. A. Conference

The Tenth Annual Y. M. C. A. Boys Conference was held at Grand Rapids November 29th to December 1st. The importance of this conference cannot be determined by its large delegation. Boys gathered from 110 cities and villages throughout Michigan until Grand Rapids found itself a host to 750 guests. The leading features of the Conference were the Banquet given in Press Hall Friday night; the Saturday morning session at which nine boys delivered addresses; and the Sunday afternoon Rally at the Fountain street Baptist church. This last was notable for at this meeting 307 boys signed "Forward Step" cards and 76 for the first time made decisions to lead Christian lives.

Tecumseh was honored by having a representative on the program. Seymore Orr delivered a five minute address at the Saturday morning session on, "The Relation of the Boy to His Community." In it he said: "The four leading institutions in a community are the home, church, school and business interests. I think a boy's first interest and duty should be for his home, second for his church third for his school, and lastly for business; but it seems that things are not always what they should be; the desire for and pursuit of the almighty dollar seems to come first.

"In each of these institutions a boy's interest should be sufficient for him to accomplish his purpose and not slight one for the other.

"Although they don't always realize it, yet in every community the boys are being watched. People, especially the business men, are watching the boys of their community for prospective positions and each fellows measure is taken.

"Self control is one the most essential and probably one of the hardest things obtainable for any boy, but, having gained this there is almost no limit to the things he may accomplish.

"A boy having good principles has a greater chance to use his influence in his community than any other person, because that boy found in more places, he goes about more and has many chances to use his influence to work some good.

"The boy's future conditions are almost wholly dependent upon his community; it is its decision of his ability that will count; therefore, the boy has as great a need for the community as the community for the boy."

The leading speakers of the Conferance were: James A. Whitmore and D. George J. Fisher both of New York City. Besides Seymore Orr, Tecumseh was represented by Leon McLacklin and Harold McClure.

AND STILL THE COUNT GOES ON.

The latest reports from Lansing are to the effect that Roosevelt has carried Michigan by a plurality of 66,768 over President Taft who claimed a plurality of 1,493 over Wilson.

Roosevelt electors, received 219,012, Taft 152,244, Wilson 150,700, Debs 23,311, Chapin 8,923 and the Socialist Labor had 1,252 this last is more that double the vote received Debs in 1908.

The Prohibiturists have lost nearly half of their former vote.

BEATS THE RECORD

The Crops of the Country the Greatest for Many Years

This year is credited as being the most productive year in the history of the country, according to the annual report of Sec. of Agriculture, Wilson in comparison with other years the gain is over 100 per cent. This would be a most effective means of reducing the high cost of living.

The farmer now stands first instead of being the laughing stock of the people as of yore, as he brings his knowledge to bear on the best ways and means in perfecting and raising the best of everything. The estimated value of the crops of 1912 are: Corn, $176,000,000; Hay, $861,000,000; Cotton, $860,000,000; Barley, $125,000,000; Rye, $24,000,000; Rice, $20,000,000; Buckwheat, $12,000,000; Sugar, $117,000,000; Poultry, $870,000,000; Animals, $1,980,000,000.

"THE CALL OF THE RAISIN"

Oh; How long the time does seem
Since that eventful day,
When I left the Raisin's winding
stream
To wonder far away.
The cattle on its banks were lowing
In pastures rich and green,
But its stream kept onward flowing
As for ages it has been.

Midway between the mouth and source
There stands a thriving town;
For brave Tecumseh 'tis named of
course;
Resting-place of General Brown.
Who led the troops in Toledo's war;
Michigan's hope, and pride,
Gaining the Upper Penisula for
Land but six miles wide.

Some-time I will wend my way
Back to that village where,
There; are some cranks now old and
gray,
But minds still young and fair;
Who never fall into a rut,
There whole lives there to spend,
And the beauties of the future shut
Out of life unto the end.

Those cranks are saviours of the race
Without whom, all would be
Locked in monopoly's embrace,
And restricted liberty.
But their influence we keenly feel
All through this much loved land;
The peoples' rights, the common weal,
Is for what thoie cranks all stand.

So come and be a crank with us
Come, get into the strife,
With old injustice pick a fuss;
Don't be a dead-head all your life.
Oh; come and strive for better things,
Oh; come and do your best;
To usher in that Paradise
Where all men will be blessed,

Michael Eckert.

TRIP TO TEXAS

Looking after Texas Dirt

There is no danger of over production as the irrigated section of that country comprises only a comparatively small area, and the vegetables are raised when they cannot be raised in any other section of the country. For instance the onions and cabbage are put in, in November and taken care in March. Nothing of that sort is being produced east or north, and of course the products of the south bring a fancy price. After the vegetables are taken off, corn, cotton, sorghum and crops produced in this country are put in. Corn produces two crops if one cares to raise it, and then have time to put in the winter vegetables.

Mr. Bryan says a real estate agent can't lie about this country, and after one sees it he will agree with Bryan.

By raising the vegetable crop in the winter time when the east and north are out of business so far as producing anything is concerned absolutely no time is lost. It is a twelve month crop country in the fullest sense. I could fill this paper full with instances where people are simply living easy and getting rich. The crops of course are raised by irrigation. The water is taken out of the Rio Grand river, which always furnishes an abundant supply for that section, and the water is muddy. Being muddy it of course carries a big quantity of silt and this keeps the ground enriched.

The San Juan sugar plantation has grown cane on the same ground for 18 consecutive years, and the ground is not impoverished, the silt which carries 86 per cent fertilizer enriches the land.

The country is full of new and thriving towns. The school houses, churches and business buildings are of substantial character, and bears all evidence of prosperity and thrift. The Frisco line are making lots of improvements in that section, and this in its self is good evidence of what capital think of the country. The weather is fine all the time, there is on the average 340 days of sunshine and every day is a week day.

The land in its raw state is covered but not thickly with a growth of cactus and mesquite, but it is not hard to clear off and as there is no sod to break up or rot, the ground can at once be put into garden. The stuff taken off in clearing is worth the cost of clearing in posts and wood. The mesquite which predominates is much like the hedge in the country being all heart, and once in a while an ebony tree which is left for shade and evergreen beauty.

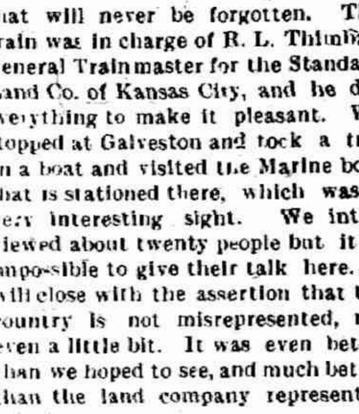
The country is absolutely level and the roads are finest ever seen. Autos are thick in that country, for the roads are smooth no rocks at all and the upkeep is very low as there is nothing to puncture tires.

The people of San Juan gave the excursionists a grand welcome at the Court house in the evening of our arrival, they are very hospitable and are absolutly contented. After two days stay in the land of plenty, the excursionists were taken to Brownville, Texas, where we stayed all day Sunday.

Mr. Philips and myself went over the river to Mexico, saw a bull fight, saw 4 bulls, 5 horses and one man killed, it was a barbarons sight, never want to see another. We also went to the cemetary where the rich were buried, and if they don't pay their rent, they are taken up and their bones are thrown in the bone yard.

It was a most interesting trip, one that will never be forgotten. The train was in charge of R. L. Thimball General Trainmaster for the Standard Land Co. of Kansas City, and he did everything to make it pleasant. We stopped at Galveston and took a trip on a boat and visited the Marine boat that is stationed there, which was a very interesting sight. We interviewed about twenty people but it is impossible to give their talk here. I will close with the assertion that the country is not misrepresented, not even a little bit. It was even better than we hoped to see, and much better than the land company represented it to be.

Respt'. Yours,
J. B. Coller.
Galesburg, Mich.



A NEWSBOY'S CONTRIBUTION.

"Here's a penny for the Anti-Tuberculosis League," said a little newsboy stepping up to the visiting nurse of a western league, who was selling the Red Cross Christmas seals in one of the moving picture theaters.

"Here, take one of the seals," said the nurse, as the boy dropped the penny in front of her.

"Aw, I an't got no use for de seal, but I wan's to give youse de penny 'cause youse did so much good for me mudder," replied the lad, running away before he could be questioned further.

SUCCESSFUL FAIR

After the long preparation for their fair by the ladies of the Presbyterian church, they were well rewarded as it proved a great success.

Before the fair was held they gave afternoon parties called "10c parties" where they met for a social visit the hostess serving light refreshments. By these parties they raised about $30 which more than defrayed their expenses so that the amount raised by the fair and supper was clear gain, making the nice sum of $200 to the good.

The display of aprons and other fancy articles was exceptionally good. Homemade candies were duly appreciated especially by the juvenile members of the crowd.

The supper was a most appetising one and netted about $60. The ladies may well be proud of their efforts for this cause.

"Carborundum first was produced by a chemist who, while experimenting with electricity, happened to place carbon electrodes connected with a dynamo into a bowl containing some crushed coke and clay.

ALSBERG TO SUCCEED WILEY

President, Taft and Secretary Wilson Pick Man.

Washington, Dec. 9.—President Taft and Secretary of Agriculture Wilson have decided on the appointment of Dr. Carl Alsberg, a chemist, in the bureau of drugs and plants, as chief of the bureau of chemistry, a position that has been vacant since the resignation of Dr. Harvey W. Wiley.

Dr. Asberg's nomination will be sent to the senate probably before the Christmas holidays. The president and Mr. Wilson hope it will be confirmed.

ZIEGLER HEIR TO WED SOON

Youth Who Inherited $14,000,000 to Marry Miss G. V. Watson.

New York, Dec. 9.—William Ziegler, heir of the late William Ziegler, who became of age on July 20 last and came into possession of a fortune of $14,600,000, will on next Wednesday marry Miss Gladys Virginia Watson.

Young Ziegler, who is not the son of the late "baking powder king," but only his adopted son, will make his childhood playmate in Brooklyn one of the richest brides in the world. Young Mr. Ziegler is a son of G. W. Brandt of Davenport, Ia., who was half-brother of the late William Ziegler.

What a Jubilee Is.

Some years ago, before Queen Victoria's death and about the time that the queen's jubilee was to be celebrated, the following conversation between two old Scotchwomen was overheard one day on a street corner in London:

"Can ye tell me, wumman, what is it they call a jubilee?"

"Well, it's this," said her neighbor. "When folk has been married twenty-five years that's a silver weddin' and when they have been married fifty years that's a golden weddin', but if the mon's dead then it's a jubilee."

AMUSEMENTS

"THE THIEF" WELL PLAYED

"The Thief", Henri Bernstein's story of how a wife pilfered 6,000 francs to buy finery, under the mistaken notion that if she were gowned as well as the most fashionable of her sex, she would be the more certain of retaining the love and admiration of her husband, opened the week-end engagement at the Lyceum Thursday. Bernstein is a French writer who delights in dealing with things that appeal to the heart, in other words the inner secrets of home life. In this instance he pictures a beautiful woman madly in love with her husband. This in itself should not be considered unusual, but the methods she adopts to insure a reciprocal sentiment are the things that lent interest to the story and grip the attention of the appreciative theatregoer.

"The Thief" will appear here next Tuesday, December 17, with the same cast and complete scenic production which played Toledo last Aug. The production will be given here exactly as presented for one year at the New York Lyceum Theatre.

WE'RE ALL BUYING IT

One of Our Sister Village Industries "Sure Pop"

Pop corn has come to the front of late as one of the most profitable crop, and the factory of Hart & Howell of Brooklyn, is placed on a most substantial basis. It was started four years ago by H. L. Hart, a merchant of Brooklyn, and Ralph Howell a traveling salesman of Jackson.

The first year there were only 54 cases of the corn packed. This year over 5000 bushels have been raised which will not supply one third of the demand. Sure Pop is now an assured fact for another winter. Tecumseh people are much pleased as it has become a great favorite with so many.

For Unbelievers.

THE EAGLES

BANQUET AND DANCE AT THEIR AERIE MONDAY EVENING DECEMBER 9

A most delightful evening was that of last night when the Eagles and their friends met for a banquet and dance at their Aerie.

Dancing and card playing was indulged in for a short time when the call came to fall in and March to the dining room. A scene of beauty was here presented, Six long tables with their snow white drapery and green vines trailing among the dishes. Three glass candelabra on each table with Japanese shades of pink, yellow and green.

At each plate an Eagle napkin, with a carnation and place card and the necessary silver appointments. The effect was certainly charming.

A most appetizing menu consisting of chicken patties, fried potatoes, bread and butter, cabbage salad, pickles, coffee, ice cream and wafers was then served to 125 members and guests of the order; Mrs Alex Reid catering.

A merry hour was spent at the tables after which the company adjourned to the hall where the dancing and card playing were prolonged until a late hour.

The music was furnished by Mrs. Edna Staulter and Will Coller. Albert Gamble calling the changes.

The committees in charge deserve much credit for the success of this meeting: they were: Banquet, W. E. Barrett, G. J. Ziehr, Invitation, W. H. Wescott, Thos. Boyd, Music, C. A. Staulter, F. G. Smith, Joe Hanna Decorations, Homer Marsh. P. M. Slater, B. A. Lawrence, John Gaston

Tecumseh People Credit Where Credit is Due

People of Tecumseh who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Tecumseh people. Here's a case:

Mrs. C Stevenson, Wyandotte & E. Potawatamie Sts, Tecumseh, Mich., says: "I cannot say too much in praise of Doan's Kidney Pills in return for the great benefit they gave me. I never used another remedy that did me so much good. Since 1906, I have taken Doan's Kidney Pills on several occasions, getting my supply at Wright & Son's Drug Store, and they have acted as a tonic to my kidneys. The first symptons of kidney complaint in my case was a sharp, shooting pain across the small of my back which made it almost impossible for me to lie down. Someone advised me to give Doan's Kidney Pills a trial and I did so. After I had taken this remedy a short time, my pains and aches disappeared and gravel that had been a source of constant suffering, no longer troubled me, in fact, I felt like a different person, I have since recommended Doan's Kidney Pills to a number of my friends and shall continue to do so."

For sale by all dealers. Price 50 cents. Foster-Milburn Co. Buffalo, New York, sole agents for the United States.

OUSTED AS A HUGGER

Girls Get Position of Public School Head.

East Peoria Teachers Say Superintendent Persisted in Efforts to Caress Them.

East Peoria, Ill., Dec 9.—Denounced as a human vampire, J. L. Robertson, superintendent of the East Peoria public school, was compelled to resign. Four of the girl teachers had filed their resignations to take effect if he was not ousted, alleging that the superintendent persisted in trying to hug them. Seven other teachers filed similar charges, but they did not offer to resign.

The teachers who decided that they could not remain if Robertson was retained were Misses Vesper Parker, Kate Williams, Bertha Allen and Mary Gish. They wrote to the school board a month ago, denouncing Superintendent Robertson and demanding his release. They asked to be relieved if he was not dropped.

Receiving no answer the quartet wrote a second letter to the board and this was supported by a large number of the leading citizens, who attended a special meeting of the board and saw that Robertson was given his freedom. The board in addition accepted the resignation of the four teachers and selected four others to take their places.

This action increased the ill feeling against the board and a reconsideration was demanded. Walter Poundy, one of the leading citizens of the community, was allowed to speak at the public meeting and he voiced the feeling of the audience when he said:

"If you men continue to disregard the rights of these girls to reclaim their positions as teachers, I will be one to take legal action to see that they are given justice. I am not saying this from any selfish impulse, but in the cause of morality."

For The Nervous Woman,

Or the woman who experiences hot flashes nothing is so good to soothe, quiet and calm the nervous system as a pure glyceric extract of native medical plants, and made without alcohol, which has been sold by druggists for the past forty years, and most favorably known as Doctor Pierce's Favorite Prescription. In younger years some women suffer from dizziness, or fainting spells, hysteria, headache, bearing-down feelings and pain. All these symptoms of irregularity and female disturbance are relieved by the use of this famous "Prescription" of Doctor Pierce.

As a powerful, invigorating tonic "Favorite Prescription" imparts strength to the whole system, and in particular to the organs distinctly feminine. For over-worked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, it is an excellent appetizing cordial and restorative tonic.

MRS. MCDONALD.

"My disease was called retroversion," writes MRS. LYDIA MCDONALD, of Mecosta, Mich., Route 1. "I had nervous chills and numb spells and they would leave me very weak. Then I had inflammation and the doctor said I had a floating kidney. I doctored seven months with our family physician. He said I would have to have an operation. Then I stopped taking his medicine. After taking three bottles of Dr. Pierce's medicines I have not had any nervous chills or weak spells. I am better than for years.

"My daughter is now taking the 'Prescription' and Dr. Pierce's Golden Medical Discovery, also the 'Pellets' for nervousness and weak, tired feeling. These remedies have helped her ever so much in a short time. We have great faith in your medicines for female troubles."

Dr. Pierce's Pleasant Pellets induce mild natural bowel movement.

LONG JOBS FOR 20,000

That Number of Workers Go under Civil Service.

Order Issued by President Taft Affects All Skilled Employes in the Navy Yards.

Washington, Dec. 9.—More than 20,000 skilled workers in the navy yards throughout the United States were placed under the protection of civil service by executive order of President Taft. The president's order was issued with the approval of the civil service commission and in accordance with an opinion by Attorney General Wickersham.

No employes below the grade of skilled mechanics will be affected by the order. A recent conference of navy yard commandants recommended that the men be placed in the classified service.

Tool makers, electricians, stone cutters, machinists, masons, moulders, ordnance men, plumbers, and others will be affected.

The order must become effective not later than June 30, next. It affects all navy yard employes except common laborers.

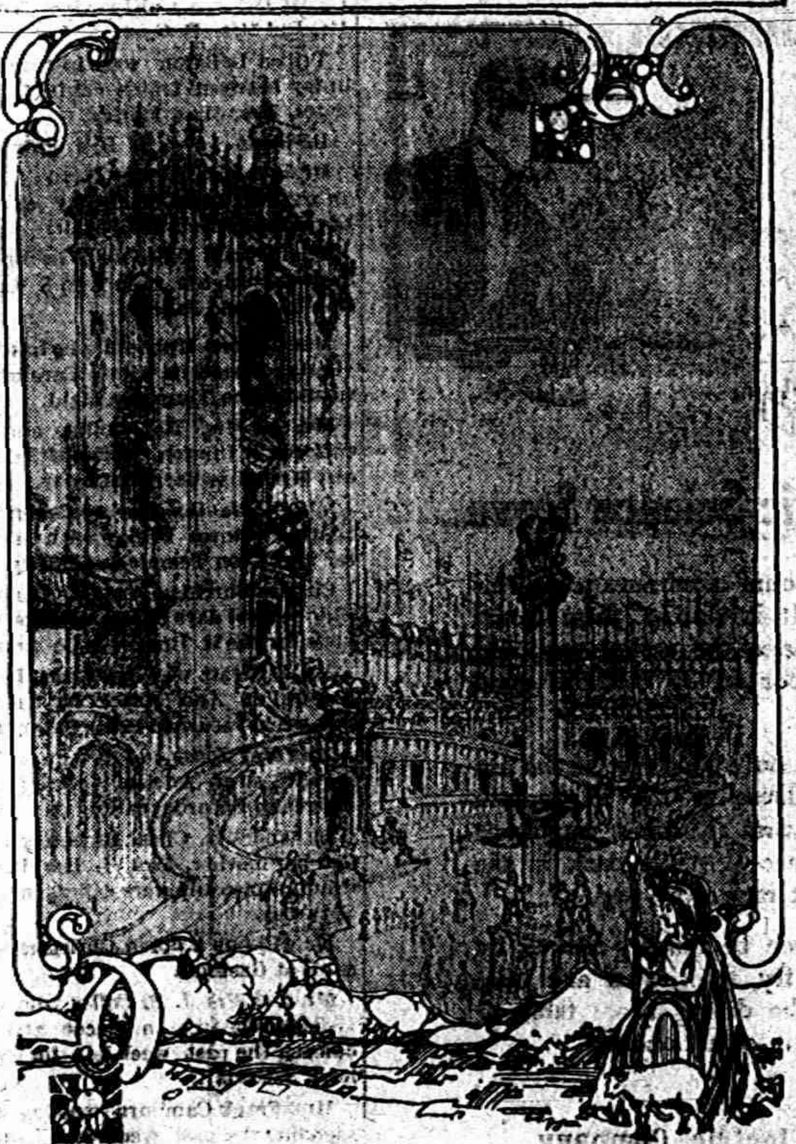
TOWER OF THE ADMINISTRATION BUILDING, PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

FROM an architectural viewpoint the dominating feature of the Panama-Pacific International Exposition will be the huge tower of the Administration building. Rising 375 feet in height and flanked on either side by the domes, towers and minarets of the eight great exhibit palaces, the huge tower will be at all times the most conspicuous feature of the Exposition City. From San Francisco harbor it will appear as the central feature in the great rectangle of exhibit palaces, whose sky line will be 110 feet in height, whose domes will rise 144 feet and whose lesser towers will be 175 feet in height. From afar this central group will appear almost as a single palace, four-fifths of a mile long and 1,200 feet in width; nearer at hand it will be found that the exhibit palaces are interspersed with great open courts, each designed by notable groups of America's foremost architects. The inner courts will express the highest ideal of the architect, the sculptor, the colorist and the landscape gardener. The Exposition palaces will be the loftiest ever constructed; the grouping of huge buildings will give an effect of almost inconceivable massiveness and grandeur. At the base of the tower, which will occupy an acre in extent, will be a huge arcade beneath which visitors may enter from the main exposition entrance into the grand Court of Honor. This court, which will be 700 by 900 feet in its greatest dimensions, was designed by McKim, Mead & White.



EAST COURT, PANAMA-PACIFIC INTERNATIONAL EXPOSITION.

THE great East Court at the Panama-Pacific International Exposition is designed for pageantry surpassing the famous Durbar of India. It will constitute a suitable setting for oriental or modern drama upon a colossal scale. From a huge staircase or from the tops of its encircling walls the visitor to this "Court of Joyousness" will be enabled to witness the pageants that will be a feature of the exposition. The main tower of the court will contain a great pipe organ, with echo organs in the smaller towers; within the center of the court will lie a basin containing groupings of classic statuary, dancing figures, fauns, satyrs and nymphs. Electric scintillators will play upon fountains at night. Tropical shrubs and flowers will contrast with the sterner effect of the colonnades, statuary and facades of the court. In its architecture the East Court, which will lie among the main group of exhibit palaces, will resemble the oriental phase of the Spanish-Moorish architecture.

STEPS ARE TAKEN TO END THE BALKAN WAR

Greece Names Her Delegates to Peace Conference.

Negotiations for Settlement Begin Next Friday in London and Probably Will Be Hurried Through.

Greece finally yielded and named her delegates to the London peace conference and there comes word from Constantinople that she has signed the armistice.

Though this latter report has not been verified the Greek guns seemed to have been silenced and with the end of the fighting on the Aegean islands the curtain is finally dropped on the war in the Balkans.

Balkan Trouble About Over.

There now seems to be every reason to believe that the peace negotiations will be hurried through and the Balkan trouble will no longer be a menace to Europe's peace. Servia, it is thought, has come down a little from her high horse and is willing to submit her claims to the powers.

Negotiations Begin Next Friday.

Negotiations begin in London on Friday and will be supplemented by the ambassadorial conference proposed by Sir Edward Grey.

A dispatch from Servia says that it is learned from an authoritative source that Bulgaria will demand that her frontier shall extend from Media on the Black sea on the north through Scutari and Tchorlu to the gulf of Sanos on the south.

500 TURKS BUTCHERED

Terrible Atrocities Charged to the Bulgarian Irregulars.

News has been wired to their respective governments by the German, French, English and Italian consuls of inhuman massacres of unarmed Moslems by the Balkan Christian soldiers in the environs of Saloniki, says the Vienna correspondent of the Daily Telegraph, who describes the horrors as the most appalling of any known in history. The massacres, he avers, were accompanied by indescribable tortures and indignities.

An undated Saloniki dispatch says that official reports of the atrocities committed by the Bulgarian irregulars make terrible reading. It is alleged that a party of 500 Mohammedans were shot down. Greek soldiers with difficulty managed to rescue the women and children.

PROBE FOR BOGUS BUTTER

Federal Grand Jury Begins Investigation in Chicago.

At Chicago the federal grand jury began an exhaustive investigation into alleged wholesale violations of the internal revenue laws in the making of oleomargarine.

The inquiry surrounds, it is said, the W. J. Moxley company, against which a number of indictments are said to be pending as the result of a previous investigation.

NEW PARTY TO STICK

Roosevelt Says It Will Battle for Social Justice.

The Progressive party will run on its own tracks and fight for the enactment of social justice legislation in state and nation. There will be no alliances with old parties.

This was the announcement made by Colonel Theodore Roosevelt. He voiced the sentiment of other new party leaders in attendance at the Progressive party national conference, which opened at the Hotel La Salle.

"The idea of entering into an agreement with any other political party is farthest from our thoughts," asserted United States Senator Joseph M. Dixon, chairman of the national committee.

Colonel Roosevelt was even more specific in outlining his personal views at a joint meeting of the state committee and Progressive legislators elect of Illinois. He said it was "idle folly" for the Republicans to attempt to lure back Progressives into an organization "unfit for honest men to be in."

The public meeting of the Progressives was held in the LaSalle banquet hall on the nineteenth floor. Senator Dixon presided and after a short address presented Colonel Roosevelt, who had prepared a speech outlining his views regarding the party's future course.

DAYTON GRAFT UNEARTHED

Gamblers in Ohio City Said to Have Paid "Hush Money."

At Dayton, Ohio, a special grand jury will be called to investigate the city administration.

Evidence of graft came to light two days ago when it was learned that gambling had been conducted in one of the leading clubs in the city and that the man who operated the game had been paying from $60 to more than $100 a month for "hush money."

WOMEN IN STRIKERS' PLACES

Toledo Company Will Fight Demands of Men with Them.

At Toledo, Ohio, a number of Hungarian women took the places of striking coremakers in the plant of the National Malleable Castings company here. The men ask an increase from 16 to 21 cents per hour to 30 to 35 cents per hour. About 150 men are on strike.

The company is instructing the women and will fight the strike with them.

GOVERNORS VISIT TAFT

Over a Score Take Luncheon at White House.

A score of governors moved on to Washington from the Richmond conference to be luncheon guests of President and Mrs. Taft and participate in a special conference on rural credits and farmers' co-operative banks in the east room of the White House.

President Taft, who is deeply interested in the subject, has made many speeches in favor of the plan and months ago urged every state executive to make a close investigation of it with a view to the adoption of uniform legislation by the states.

In addition to the governors who have been in attendance at the conference just ended in Richmond the president sent invitations to the four governor's elect now serving out unexpired terms in congress.

Secretary of State Knox, Secretary of the Treasury MacVeagh, Myron T. Herrick, American ambassador to France, and Senator Fletcher of Florida, who are keeping close watch on the progress of the credit plan, also attended.

ELEVEN KILLED IN WRECK

Disastrous Rear End Collision Takes Place in Ohio.

A most disastrous railway wreck occurred in Ohio on the Cincinnati and Muskingum Valley branch of the Pennsylvania railroad two miles from Dresden, when C. & M. V. passenger train No. 43, from Trinway to Zanesville, crashed into the rear of the Cleveland, Akron and Columbus local train from Millersburg to Zanesville, killing eleven people and seriously injuring six.

The dead are: Mrs. B. A. Emerson, Zanesville, and her two small children; Jacob Burgy, Zanesville, father of Mrs. Emerson; Henry J. Haskell, traveling salesman, Zanesville; Henry Balbian, woolen manufacturer, Dresden, O.; Max Harris, Lodi, O.; L. H. Baney, brakeman, Zanesville; Henry Bartles, Albion, Mich.; Wilbur Ludwig, Zanesville; Mrs. Nellie Taylor, Zanesvile.

UNWRITTEN LAW WINS

J. Beall Snead Is Acquitted of Murder of Captain Boyce.

At Fort Worth, Tex., J. Beall Snead was found not guilty of the murder of Captain Al G. Boyce Sr.

Snead shot Captain Boyce to death on Jan. 13 in Fort Worth soon after Snead had returned from Winnipeg, Can., with his wife, with whom Al Boyce Jr., son of Captain Boyce, had eloped.

Snead claimed self-defense, and also a conspiracy on the part of the Boyces to rob him of his wife. The jury recognized the latter as an unwritten law plea.

British Demands on Canal Tolls.

At Washington the formal demand upon the government of the United States either to repeal the act of congress granting free passage through the Panama canal to American ships engaged in coastwise trade or the submission of the controversy to arbitration was made by James Bryce, ambassador of Great Britain, in a lengthy statement presented to Secretary of State Knox.

JACKSON—Albert Parmeter, who was a lifelong resident of Jackson county, was found dead in bed. He was sixty-five years of age, and his father, Cyrus Parmeter, was one of the early settlers of Jackson county.

GRASS LAKE—The Reverend A. A. Wood, pastor of the First Congregational church for the last year, has resigned, his resignation to take effect Jan. 1. He will go west and engage in farming.

LEAVES TARIFF FIGHT FOR HIS SUCCESSOR

Taft Turns Over Further Revision to Wilson.

Urges More Battleships and Indorses the Scheme of Currency Reform —Has Praise for Supreme Court and Army.

President Taft will make no effort to have congress reduce the tariff. In a "general" message submitted to congress the president clearly indicated his intention of leaving further tariff revision to Mr. Wilson and the congress selected at the recent election.

"I have regarded it as my duty," said President Taft, "in former messages to the congress to urge the revision of the tariff upon principles of protection. It was my judgment that the customs duties ought to be revised downward, but that the reduction ought not be below a rate which would represent the difference in the cost of production between the article in question at home and abroad, and for this and other reasons I vetoed several bills which were presented to me in the last session of this congress.

"Now that a new congress has been elected on a platform of a tariff for revenue only rather than a protective tariff, and is to revise the tariff on that basis, it is needless for me to occupy the time of this congress with arguments or recomendations in favor of a protectice tariff."

Other Matters Discussed.

Mr. Taft deprecated the new policy of one battleship a year instead of two, and indorsed again the scheme of currency reform proposed by the national monetary commission.

The president did not approve the plan for immediate autonomy for the Philipines and independence in eight years, as proposed in a bill pending in congress.

Conservation was lightly touched the president recommending the amendment of bills now before congress so that water power companies which dam navigable rivers will contribute to the improvement of these streams.

He declared that no radical change in the Sherman anti-trust law was needed, and praised the supreme court for its recently announced changes in rules of equity procedure. In this connection the president asked congress to pass legislation which would allow the supreme court to formulate rules of procedure, and predicted that such action would facilitate justice in those courts and reduce the cost of litigation to the public.

The Panama canal was dismissed in a few words, the president prophesying its opening in the latter half of 1913.

To Build Up Militia.

The army the president discussed at some length. He praised the army legislation of the last congress, but said that provision should be made by law so that the nation's foreign regiments may be always maintained upon a war footing, and he urged the passage of the pending militia pay bill, designed to make service in the militia more enticing, and showed that the home army will be nothing more than a "skeleton" until congress provides that it be concentrated in fewer posts than are now maintained.

In addition to his advice in regard to legislation and his opposition to pending measures, the president discussed the prosperity of the nation, its financial condition and the proposed system of a national budget showing proposed expenditures and revenues; and called attention to the balance in the general fund of the treasury of almost $170,000,000.

WANTS ELECTRIC ROAD

Allegan Has Visions of Another Rail Outlet.

Pere Marquette Receivers and Holland Interurban Magnate Planning New Project.

Allegan, Mich., Dec. 10.—The people of Allegan and vicinity are all agog over the possibility of securing an electric railway outlet, and it is not unlikely that the present developments will soon bring something tangible. Dudley E. Waters, one of the receivers of the Pere Marquette railway, has just been here, accompanied by Benjamin Hanchett, head of the Grand Rapids-Holland interurban, making observations. It is known that Mr. Hanchett has for some time been looking over the Allegan branch with wistful eyes, and their visit is taken to mean that the receivers are planning some arrangement with Mr. Hanchett's company whereby this line will be electrified.

The Business Men's association of Saugatuck-Douglas has called a meeting for Wednesday for the purpose of furthering a project of a line from that section to the county seat, surveys and estimates for which have been made. Some people here are connecting this plan with the recent talk of a branch of the Kalamazoo-Grand Rapids line from Plainwell to this city.

TWO OFFICERS REMOVED

Governor Acts on Charges Made in Case of Sixteen-Year-Old Girl.

Lansing, Mich., Dec. 10. — Sheriff William H. Brown and Prosecuting Attorney Henry Y. Miltner of Missaukee county have been removed from office by Governor Osborn on the ground of malfeasance in office, and the resignation of James E. Wright, one of the superintendents of the poor of the county, has been demanded.

This is the outcome of the charges that the county officers had been involved in an attempt to spirit out of the county the sixteen-year-old girl, Myrtle McNeil, who is now in the industrial school at Adrian as a moral delinquent.

Others in Missaukee county may also be brought into the case in the near future.

OLD BANK DIRECTOR DEAD

Aaron Brewer of Grand Rapids Taken at 92—Michigan Native.

Grand Rapids, Mich., Dec. 10.—Aaron Brewer, ninety-two years of age, a Michigan pioneer and oldest bank director in the state, is dead here. He was born near Plymouth, Wayne county, Feb. 26, 1821. He married Jane Freeman, daughter of a Wayne county pioneer, and came to Kent county and hewed his home out of the forest fastness in 1840.

He was one of the first directors of the Grand Rapids Savings bank and had served on the board since the incorporation of the institution forty-two years ago. He is survived by two sons, who live here, and five grandchildren.

Coughing at Night

One bad cough can keep the whole family awake at night. Phil Disorneau, Schaller, Mich., says: "I could not sleep at night on account of a bad cough, and I was very weak. I used Foley's Honey and Tar Compound, and soon the cough left and I slept soundly all night."

For sale by all druggists of Tecumseh.

Men are never old as long as they can enjoy the noise made by a crowd of young football rooters.

Drives off a Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In an attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New *Discovery*. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place' Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections, Price 50 cts. and $1.00. Trial bottle free at C. A. Wright & Son's

Could Shout for Joy

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless suffered for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatism, Electric Bitters have no equal. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at C. A. Wright & Son's.

MERRY CHRISTMAS
AMERICAN RED CROSS
1912
HAPPY NEW YEAR

CHRISTMAS SEAL ENVOI

By William L. Ninabuck

(With apologies to Kipling.)

When our last Seal is disposed of, and the workers are weary and tired;
When the millionth message is carried and the remnant heap has been fired
We shall rest and faith we shall need it, lie down a whole night or two
Till the Spirit of Human Kindness shall set us to working anew.
And those that have bought shall be happy, and those that have sold beside,
To know that their million pennies are stemming the White Plague tide:
Are bringing and teaching the Lifecode, nurse and sunshine and air,
Assuring the dwellers of death haunts that Hope is still young and fair.
And no one shall wreak a havoc and levy against the game,
Not when the curse of the plague-heart would point his eternal shame!
But all for the joy of working shall move toward a far-hung star
For the health of Man as Man sees it, for the God of things as they are.

One day only:—7 Bars 5c Ivory soap for 25c, not delivered and good Saturday only. Williamson Bros.

The Domestic Science Stove

THE recreation hours oftentimes teach valuable lessons. It is during these hours that things are done the easiest way, and thus you learn many labor saving methods good for every day use.

The electric grill not only adds ease to the fun of making fudge or cosiness to the impromptu luncheon, but it also teaches the most important lesson in domestic science—how to cook in the easiest, cleanest and least expensive way.

Anything you wish can be quickly cooked by it. You can grill, boil, fry, toast, stew and bake griddle cakes—all on the dining room table or on the little table in your own boudoir.

Obituary

MRS. JOHN VANVLEET

Sarah Isadora Luce was born in Rome Township Feb. 9, 184[illegible], the daughter of Samuel and Eliza Beebler Luce, was married to John VanVleet Dec. 12, 1867 coming at once to Ridgeway, where she has always resided except eight years spent in Tecumseh. She died at the home of her son Jared Wednesday Dec. 4, 1912, her husband, one son and two grardsons, also one sister, Mrs. Mary M. Trim of Adrian, survive her.

She was a member of Tecumseh Eastern Star. As a neighbor and friend she was loved and respected by all who knew her, and will be missed indeed in her own home community

CARD OF THANKS.

We wish to extend our sincere thanks to neighbors and friends for their kindness during the sickness and death of our dear one. Also for the beautiful floral offerings and to the choir for their singing.

John VanVleet,
Jared VanVleet,
and family.

MRS. ELSIE E. ROWLAND

Just a few weeks ago Mrs. Elsie Rowland left Tecumseh full of hope and anticipations of a pleasant winter in California with her friend Mrs. Abbie Fisher and now she has passed to the Great Beyond. She visited in Chicago and Tomah, Wisconsin with her sons before starting on her long journey little thinking that this was to be their last meeting on earth. The trip was a pleasant one and Mrs. Rowland enjoyed it very much but evidently it was too much for her and a short time after reaching her destination she became ill, passing away Monday morning.

All too quickly the message flew over the line that brought grief and sadness to so many hearts that had hoped that the winters sojourn in the land of flowers would bring health and happiness to their loved one,

Tecumseh has been her home since childhood and here she made a host of friends who mourn her sudden taking away. Her three sons, Lamont of Chicago, Paul and Ed of Tomah, Wis. and her sisters Mrs. Carrie McCollum of Tomah and Mrs. John Heesen of this place and one brother Charles Bell of Jackson survive her.

Edward Rowland her husband passed away several years ago. Also one son and a daughter. Thus the human links snapped asunder on earth are forged anew in heaven.

MRS. FANNIE COMSTOCK

"Aunt Fannie died this morning," this was the word we received Monday as we met Mr A. James on the street. For over a year she has been such a sufferer and has spent most of the time on a sick bed, for a long time she was with her niece, Mrs Alfred James, until it seemed best for her to take treatments at the hospital in Adrian, going at last to Bixby's where she passed away to the country where there is no more pain.

As we write we think of her as we knew her in her girlhood, in her happy years of wifehood, and later in her widowhood, for our acquaintance dates back for many years, and always she was the same pleasant social friend and companion, for she was a great traveler over our country with her husband, and was one who saw and heard that which was most interesting, and was able to impart her knowledge to her friends. And now she sleeps, and we who loved her, speak softly, that we may not waken her to longer suffering and pain.

Her funeral was held in Adrian Wednesday at 2 o'clock p. m. from the home of Mr and Mrs. A H. Wood Rev. C. H. Channer officiating, burial in Adrian, beside her husband and child who passed away several years ago.

RURAL CARRIER EXAMINATION

At Adrian Michigan, for Lenawee, County. Saturday, January 11, 1913.

The United States Civil Service Commission announces an examination on the date and at the places named above, as a result of which it is expected to make certification to fill a vacancy in the position of rural carrier at Palmyra, Michigan, and other vacancies as they may occur on rural routes at post offices in the above named county, unless it is found to be in the interest of the service to fill the vacancy by reinstatement, transfer, or promotion The usual entrance salary for rural carriers is from $600 to $1,000 per annum. Age limit, 18 to 55, on date of the examination.

THE MACON DRAIN

To be a Boon to Farmers is Predicted by Edward Bodette the Contractor

It is the prophecy of Edward Bodette the contractor on the big Macon drain, that the value of farms in Ridgeway and surrounding districts will be increased in value from $25 to $50 pr. acre.

He claims this to be an ideal district for agriculture and when the ditch is completed and the lands relieved of the surface waters, there is no question but what the farms will be much enhanced in value.

It is hoped that the dredging work will be finished by July 1913 but much depends on the state of the weather, this open season has been a bonanza for them to keep on with this work.

RESEARCH CIRCLE

The Research Circle held its regular meeting Tuesday afternoon, when the following program was presented with Mrs. Morley as leader, Mrs. A. W. Mills gave a paper on Walt Whitman and his poems, which was very interesting. Mrs. Wescott's paper on Edward E. Hale was given in a very pleasing manner, and was followed by Mrs. Andrew Wilson who spoke of John Burroughs and his writings. The closing paper on James Russell Lowell was given by Mrs. G. R. Newsome, Prof. McAlpine will speak at the next meeting on "Our Course in Agriculture."

JUST ONE PROBLEM SOLVED

Several years of recognized leader ship in the everlasting pursuit of automobile perfection are concentrated in the 1913 exemplification of the truly invincible "FORD."

It has been a clearly demonstrated fact, that you get more miles over any condition of roads for the least cost of maintenance of any machine manufactured and up to the present minute

Every third car is a Ford. Nearly 180,000 have been manufactured and delivered.

1913 touring car (5 passenger) $600.
1913 roadster (2 passenger) $525
and this includes all equipment.

Satisfy yourself that this is the biggest value on the market today.

TAXES

Tax payers are wearing a more smiling face this year, as the percentage is very much lower than last year. Last year being $17 pr. M and this year $13.90.

STATE GRANGE

Grangers are watching with interest the vote for the head of the Grange at the meeting of the Soo. At present Baker seems to be ahead with John B. Ketcham a close second.

The latter was selected by the recent primary as the sole candidate for the honor.

The possible overthrow of the primary which is a newly acquired system of selecting officers and the possible election of Herbert F. Baker as Master loomed large Tuesday night before the delegates who were assembled ready for the opening meeting. N. P. Hull the present incumbent is also a candidate for re-election, The fight lies however between Baker and Ketcham,

The Convention seems to be in a fighting mood as battles have waged over the four vacancies of the executive committee however the election of Jerry Lawson of Soo, Geo. B Hooten of Fruit Ridge, W. F. Taylor of Oceana county and C. S. Bartlett of Pontiac seems to have settled this point.

Another controversy that is anticipated is when the board of directors of the Patrons Mutual Fire Insurance Co. which is a Grange Auxillary have their meeting. B Lincoln of Harbor Beach in behalf of the disgruntled policy holders will demand a change in the by-laws to permit the 9,000 policy holders to vote direct on the election of officers and directors.

AMUSEMENTS

"THE THIEF"

With a remarkable cast, headed by Miss Marion Sherwood, Henri Bernstein's "The Thief" will be seen at the Bradley Opera House on Tuesday Dec. 17 It can safely be said that "The Thief" will go down in annals as one of the most popular strong dramatic plays that have ever visited Tecumseh.

A consuming ambition to appear attractive and well dressed in the eyes of her husband, coupled with the forgivable feminine predisposition to a harmless flirtation forms the simple thread of the story that winds its self into an amazing tangle of domestic infelicity, The story is said to be one of intense dramatic situations. It is drama too, of the highest order, powerful, gripping with a confirming sense that just such circumstances and conditions are so subtley connected in "The Thief" are not impossible with normal characters, placed under somewhat abnormal life relations.

In a criticism of the play, The Arkansas Democrat of Little Rock, Ark. has this to say: "In the presentation of "The Thief" at the Kemper Theatre last night the players were admirably cast. As Marie Louise Voysin, the erring wife, Miss Marion Sherwood, gave a most acceptable accounting of herself. She classes high with an emotional actress. Her work here has not been surpassed on a local stage this season, except, possibly by Mrs. Leslie Carter. In the second act which is tense from beginning to end she was seen in a thorough test and her work brought repeated and merited encores. In the third act where she makes her final appeal to her husband, she gave a powerful touch of realism to her part.

To add a sense of the completely artistic, the stage setting through out was well adapted and elaborate, making the play as a whole one of the notable theatrical offerings of the year!"

"The Thief" is in the same class of plays as "The Third Degree;" "Lion and Mouse;" "The Wolf" and "Paid in Full," in fact "The Thief" is under the same monagement as "Paid in Full" which played here last winter, "The Thief" is given with a complete scenic production and is playing in nearly all of the surrounding cities at $1.50 for the best seats. This being the case an Ann Arbor where the attraction plays tonight. Heres the best seats are only $1.00 and the balance 75, 50, and 25c. Patrons seeing "The Thief" will see one of the strongest plays of the winter. The cast, like "The Wolf," consists of only six people, but every one star in their particular line.

Tecumseh People Credit Where Credit is Due

People of Tecumseh who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Tecumseh people. Here's a case:

Mrs. C Stevenson, Wyandotte & E. Potawatamie Sts, Tecumseh, Mich., says; "I cannot say too much in praise of Doan's Kidney Pills in return for the great benefit they gave me. I never used another remedy that did me so much good. Since 1906, I have taken Doan's Kidney Pills on several occasions, getting my supply at Wright & Son's Drug Store, and they have acted as a tonic to my kidneys. The first symptoms of kidney complaint in my case was a sharp, shooting pain across the small of my back which made it almost impossible for me to lie down. Someone advised me to give Doan's Kidney Pills a trial and I did so. After I had taken this remedy a short time, my pains and aches disappeared and gravel that had been a source of constant suffering, no longer troubled me. In fact, I felt like a different person. I have since recommended Doan's Kidney Pills to a number of my friends and shall continue to do so."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Secret Terror

The haunting fear of sickness and helplessness is the secret terror of the working man. Health is his capital. Kidney diseases sap a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Sold by all druggists of Tecumseh.

Foils a Foul Plot.

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr King's New Life Pills, and end such abuse of your system. They gently compel right action of the stomach, liver and bowels and restore your health and all good feelings. 25c at C. A. Wright & Son's.

Dr. Wm. Sadler, author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey and Tar Coompound is a reliable household medicine for coughs and colds, equally effective for children and for grown persons. Take it when you feel a cold coming on. It will avert danger of serious results and cure quickly. No harmful drugs. Sold by all druggists of Tecumseh.

ATHLETIC BRIDE-ELECT

Miss Constance Warren, Who Will Rough It on Honeymoon.

Photo by American Press Association.

Miss Constance Warren of New York and Count Guy de Lasteyrie, who will marry on Dec. 19, are going to rough it. As soon as they are wed they are going hustling in the mountains of California. From her father's fine house on Fifth avenue, from the count's apartment in the Ritz-Carlton, they will dwell together in a tent for awhile or, wrapped in blankets, will have the canopy of heaven for their covering. Miss Warren, daughter of Mr. and Mrs. George Henry Warren, is famous in New York and in Newport as a swimmer, a horsewoman, a tennis player and a pedestrian. The athletic count is the grandson of General Lafayette, which is to say that he is brave, gallant and devoted to sport.

MICHIGAN STATE NEWS.

LANSING—David R. Wright, who is an employe of the Michigan School for the Blind here, made application to the industrial accident board for damages against the state. Wright is the first man to present a claim against the state under the new law. He was struck in the eye with a piece of flying coal while at work. Infection caused him considerable trouble with his eye, he declares. The workmen's compensation act makes the state and all municipal bodies liable for injuries to their employes whether they elect to come under the act or not. His will be the first personal injury for which the state has been held liable in its history.

MOUNT PLEASANT—A dispatch sent by a San Francisco undertaker to the Exchange bank of this city announced that the body of Charles M. Brooks was lying in his establishment and asked for instructions. Mr. Brooks was a director of the Exchange bank and it is supposed he met a sudden death while west. His only son, Dr. Stratton D. Brooks, president of the University of Oklahoma, was notified and the body will be brought here for burial. Mr. Brooks had been identified with the city and county for forty years and no man in the country was more highly regarded.

NATURE'S ESSENCE....Extracted From Forest Plants.

Nature's laws are perfect, but disease follows if these laws are not obeyed. Go straight to nature for the cure, to the forest; there are mysteries here that we can fathom for you. Take the bark of the wild-cherry tree, the root of mandrake, stone, Oregon grape root, queen's root, bloodroot and golden seal, make a scientific, non-alcoholic extract of them with just the right proportions and you have

Doctor Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this pure glyceric extract and alterative of the greatest efficiency and without the use of a particle of alcohol.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic.

"Some time ago I got out of health—my stomach seemed to be the seat of the trouble," writes MR. EZRA WILLIAMS, of Belleville, Kans. "I commenced to doctor with all the doctors at home as well as with other specialists on stomach and digestive organs. None seemed to do any good—in fact, most of the medicines did me harm. Finally, I wrote to Dr. Pierce, Buffalo, N. Y., who replied, stating that I had liver complaint with indigestion and constipation, and advised Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.'

"The 'Discovery' and 'Pellets,' have 'put me on my feet again'—seemed to be just what I needed. I could not have recovered without them."

E. WILLIAMS, ESQ.

Dr. Pierce's Pleasant Pellets are for liver ills.

GRAND RAPIDS—W. L. Hammond, who is the trustee for the Handy Things company of Ludington, was given a judgment of $19,751 in United States district court here against the Stearns Salt and Lumber company of Grand Rapids and Ludington. The case involved the claim for preferential bankruptcy payment and had been pending one year.

GRAND RAPIDS—The Grand Rapids Ministers' conference has refused to indorse the social centers movement which has been inaugurated here. The action, it was explained, is due to the dangers which the clergymen fear lurk in the social dances which are permitted at the weekly gatherings of the neighborhoods.

CHARLOTTE—Having been charged with having written threatening letters to Pearl Starkweather, his rival in the affections of an eighteen-year-old Benton township girl, Arthur H. Holmes, a well known young man of this city, was arrested and taken to Grand Rapids by the federal authorities. Holmes will have his examination before Judge Sessions Tuesday.

ALLEGAN—Prosecuting Attorney Stone has requested Judge Cross to nolle prosse the charge of manslaughter now pending against Deputy Sheriff John Kiels, who shot and killed Ted Geering at Douglas last summer while making an arrest. He gave as a reason for this action that he has obtained sufficient evidence to prosecute Kiels on the charge of murder. Judge Cross granted the petition and Kiels' trial is set for the December term.

AT LOVE'S LANDING

Artificial Lights Unnecessary at This Dock.

By IZOLA FORRESTER.

"But I don't see any landing at all, mother," called Winona, peering into the darkness as the boat nosed up shore. "How do they know where to stop?"

"Did you expect a full-sized dock with a waiting band to welcome us? Be careful, Bee. The plank is narrow."

"Plank?" giggled Winona, edging along it, after her mother and sister. "I think it's a straw. Oh, dear!"

Her foot turned sharply, and before she could regain her balance, she had slipped off the narrow gangplank the men had thrown ashore. Beatrice and her mother were on the bank. A carriage waited farther up on the level ground, with two faint lamps glowing in the night. As Winona's quick-stifled cry sounded, some one sprang past the others, and went in after her; some one tall, and obviously young, who never stopped to explain or argue.

Beatrice never forgot that scene. The old river steamboat, with swinging oil lamps on her lower decks, the blurred faces of the boatmen as they held lanterns over the water trying to help the two in the narrow strip between the boat and the shore, and finally Winona's face, with the light flashing on it, as she was lifted out of the water.

"What can I say?" exclaimed Mrs. Vaughan, when she held out her hands to the man who had saved willful, careless Win. "You are Stanley, aren't you? There is no need to ask that."

Only Beatrice caught the flush on his face at the name. He tried to speak, but they were lifting Winona into the carriage. Her mother turned again to speak to him and he had gone. Only the silent old darky coachman remained, and he could only shake his head over questioning.

"Marse Stanley done gone ter bed. Dat's Marse Phil Walling. He come along ter be sure I got here safe, and de boat's was on time."

Mrs. Vaughan was silent. The carriage rolled on up the old road to Twin Oaks. She had not been home since her marriage, twenty-four years ago. The place had gone to her stepmother after the major's death, and later to her son, Stanley Tisdale. It was at his invitation she was able now to visit Twin Oaks, and while it carried its own wound with it, the invitation had been a welcome one. She wanted the girls to see the old place. Fifty miles up from Savannah it lay, one of the few old plantations left along the river. Her mother had named it "Love's Landing," when she had come there herself a bride from the north.

"Our Guests," He Corrected.

She wondered who Phil Walling was. Stanley had never mentioned him in his letters. She had liked the letters. They seemed frank, manly, full of the old-time spirit she loved. Almost, as she had read them, a half-formed hope had grown up in her mind that one of the girls, either quiet Bee or Winona, would find a permanent home at Twin Oaks before the visit was ended.

The next morning after breakfast, Winona went down through the rambling old gardens to the river, her cheeks still pale, her lips pressed together in quick hot anger, and after her, protesting, explaining, went Phil Walling.

"Why didn't you write to mother yourself, and tell the whole disgraceful story, and save us this—this trouble?"

She faced him at last, leaning back against one of the old oaks. In her hair was a flower. He could not help thinking how its creamy petals matched her own skin, and intensified the copper of her hair.

"What was the use? Poor Stan won't live long anyway. We have always been friends. I only bought Twin Oaks from him to save it from going under the hammer. He knows it is his home as long as he lives, and to tell the truth, we've been happy here. I love the place. His mother was mighty good to me when I was a poor little kiddie around here. So was the major."

"But why did you let us come here as his guests?"

"Our guests," he corrected gently. "It is an honor, and Stan begged to see you all again."

"Must he die?" All at once her dark eyes grew pitiful.

"Not if he lets up in time. He's gone the pace fairly fast."

"Perhaps it is right, after all, our coming. Mother is wonderful as a nurse, and so is Bee. I'm not, one bit."

"I'm so glad," murmured Phil, fervently.

The next month found a new regime at Twin Oaks. Mrs. Vaughan took the reins from Phil, firmly and gently, and began to sway things her own way.

Stanley, weak of will and rebellious, found himself powerless between her laws and Bee's tender nursing. After the first two or three battles had been fought out and won, and he found he could sleep without trying the major's favorite remedy, found that the days could be made sweet, rational, clear of horrible day dreams and haunting pain, he began to watch Bee.

"I've made a mess of everything, haven't I?" he growled one day, when he was allowed to sit up and be wheeled out on the upper gallery.

"Not quite," said Bee, softly, smiling sideways at him from her embroidery.

"I've lost Twin Oaks, and everything I owned. I'm a beggar dependent on Phil Walling's friendship. He's bully, isn't he, Bee?"

"Were'nt you good to him when he had nothing?"

"But that doesn't matter. I let the place run down until there wasn't a cent coming in from it, and it used to be worth thousands a year to the major. It went at less than fifteen thousand, Bee, and I'll never get it back."

"Yes you will." Bee laid aside her work, and crossed to him. "Mother and Phil have agreed on a splendid plan. She's going to buy out a half partnership for you, and start you all over again. Isn't that a chance?"

"But why? The whole place should have been hers by right, Bee. The major knew it, too, but he never would give up after she had married against his wishes, and she's not the sort to ask forgiveness, is she? It's heaping up the obligation this way, and I'm not worth it."

"You've got to be worth it," said Bee with sudden courage. "If we all work to help you, and stand you upon your feet, you've just got to run now and win the race."

Stanley bent forward, his hands reaching for hers. "Do you tell me to win, Bee, do you? You know what it means to me now. Do you?"

"Oh, look," whispered Bee, parting the thick vines and looking down into the garden. "Phil and Win are telling mother something, and—and they're holding hands, Stan!"

"So are we, sweetheart," said Stanley. "It's love's landing."

SAW SHOWERS OF SPIDERS

Distinguished Scientists on Record as Having Noted the Remarkable Phenomenon.

Gilbert White gives an account of a spider shower that continued for nearly a whole day. Darwin saw one at sea. Each spider was supported, it appears, by a tiny parachute composed of a few threads of almost invisible gossamer.

Spider showers have from time to time been made the subject of scientific reports in this country. One of them gives this description of the phenomenon:

On the morning of this shower there had been some electrical disturbance. There had been one loud peal of thunder but no rain. At ten o'clock there was observed a number of spiders that ran over the coat sleeves of the observer. He brushed off several trails of gossamer web.

Upon looking about he discovered that the houses, walls and trees showed these webs dangling from them, and that other gossamer webs were continually falling from above and adding to the accumulation.

By midday a fence was festooned from point to point of its triangular rail tops with a ribbon-like ladder of gossamer, and this continued to become broader and broader as the tiny creatures continued to run along this ladder, each spider increasing the breadth by adding its own contribution of another silken thread.

All along this ladder the spiders were running in an excited and hurried manner, as if they had lost their way in a strange country. Some, in proceeding over their improvised road, made mistakes and got into the bordering webs of the garden spiders, by whom they were speedily devoured.

At one o'clock the clouds vanished, the sun came out, and the observer noticed that some of the spiders had begun to reascend into the atmosphere. Fixing his gaze upon one of them, he observed that as it left the gossamer pathway it selected a clean spot on an iron railing and, gathering its legs closely together, projected its spinnarets, several threads that extended outward and stretched upward from nine to twelve inches. Then this parachute seemed to show a buoyant tendency, and suddenly the tiny creature let go of the iron rail, or was lifted off it, and quickly vanished into the air.

Getting Married.

"Getting married is like gathering mushrooms." The speaker was N. C. Goodwin, the well-known comedian. He smiled and added: "The only way to find out whether you have got the real thing or poison is to swallow it—and wait."

GOVERNOR COLE BLEASE

Latest Picture of Executive Who Defends Negro Lynching.

RICHMOND, VA.—A most sweeping resolution repudiating the remarks of Governor Blease of South Carolina in support of lynch law, was adopted by the governors' conference—14 to 4. Governor Blease, snapping his fingers in the faces of the other governors, declared he did not care a whit what the convention did or left undone.

LANSING—State Bacteriologist Helm has not as yet been able to find any poison as yet in the stomach of Fred Bruce of Alma which was sent here for analysis. Bruce was found dead in an outhouse at his home with a gunshot wound. The authorities suspected poisoning but the analysis apparently disproves their theory of foul play.

WHITELAW REID DIES IN LONDON

Passes Away at Dorchester House after Long Illness.

KING GEORGE INFORMS TAFT

Wealthy Diplomat is Sincerely Mourned Here and Abroad—Working Newspaper Man and Owner of New York Tribune.

London, Dec. 16.—Whitelaw Reid, the American ambassador, who has been ill from asthma for several months and who has been in bad condition ever since his return from America in October, died at Dorchester House. The physicians gave the cause of death as asthma following exhaustion.

King Sends Equerry to House.

King George was informed immediately of Mr. Reid's death and he sent Sir Harry Legge, an equerry, to Dorchester House to express the condolences of their majesties. The king also sent a cablegram of condolence to President Taft.

Mr. Reid was unconscious since Saturday night. Mrs. Reid, his daughter, Mrs. John Hubert Ward, and four physicians were at the bedside when the end came. Mr. Reid persisted in the hopes for the recovery of her husband till the very end and when realizing that he was dead her extreme grief brought on hysteria and she required the attendance of two physicians.

Message from King George.

Washington, Dec. 16.—Government officials and members of the diplomatic corps were shocked over the news of Ambassador Reid's sudden death. President Taft learned of the ambassador's death and this cablegram was received at the White House from King George:

"The President of the United States of America, Washington:

"It is with the deepest sorrow that I have to inform you of the death of Mr. Whitelaw Reid. As your ambassador in this country his loss will be sincerely deplored, while personally I shall mourn for an old friend of many years' standing, for whom I had the greatest regard and respect. The queen and I sympathize most warmly with Mrs. Whitelaw Reid in her heavy sorrow.

(Signed) "GEORGE, R."

Mr. Taft sent this message:

"His Majesty, George V., Buckingham Palace, London:

"Your Majesty's sad news of the death of Mr. Whitelaw Reid has just been received by me. Mr. Reid's death is a loss to both countries, for his services as ambassador were exceptional in the closer friendship that he secured between them through his own personality. His intimate knowledge of both countries, his profound respect and love for England, entirely consistent with the highest loyalty on his part to this country, gave him peculiar influence for good in his great station. I sincerely thank your Majesty for your message and your expressions of sympathy and respect.

(Signed) "WILLIAM H. TAFT."

The president sent a personal message to Mrs. Reid extending the sympathy of himself and Mrs. Taft and praising the services of Mr. Reid. The message closes: "We hope that the thought of the great name he leaves will in time mitigate your grief."

In London Since 1905.

Whitelaw Reid has been the ambassador to the court of St. James since the outset of President Roosevelt's second administration, in 1905. Previously he had become eminent as a journalist and a scholar and many honors had fallen to him in the course of a long and busy life.

He was born near Xenia, O., on Oct. 27, 1837. His father, Robert Charlton Reid, had married Marian Whitelaw Ronalds, a descendant of the Clan Ronalds of the Highlands of Scotland.

In 1856, Whitelaw Reid became principal of the graded schools in South Charleston, O., and saved enough to buy the Xenia News. He was minded early in his career to become a journalist. As editor of the News he displayed talent and attracted the attention of the leaders of the young Republican party in his state. He advocated the nomination of Abraham Lincoln in 1860 and was a powerful spokesman in Mr. Lincoln's campaign.

Mr. Reid later became the city editor of the Gazette of Cincinnati. At the outbreak of the Civil War he joined the staff of General Morris in West Virginia and later the staff of General Rosecrans.

He also acted as war correspondent for the Cincinnati Gazette, writing over the nom de plume "Agate." He was the only correspondent that witnessed the battle of Shiloh from its start to its finish, and it was his account of this battle that stamped him as a correspondent of the first rank. His ten column story in the Cincinnati Gazette was widely copied.

In 1862 he became the correspondent of the Gazette at Washington. His report of the proceedings of the impeachment of President Johnson attracted the attention of Horace Greeley.

WILSON AGAIN AT HOME

Bermudian, with President-Elect Aboord, Arrives Today.

Outing Being Over, Next Chief Executive Hastens Back to Take Up Duties in New Jersey.

New York, Dec. 16.—The Bermudian, bearing President-Elect Wilson, docked here today.

Governor Wilson will go at once to the Waldorf, where Mrs. Wilson and her daughters will stay to attend the Southern society dinner on Tuesday.

Governor Wilson will probably leave for Princeton Tuesday afternoon to be present in Trenton on Governor's day. He will return to the city that night and be a guest at the dinner of the Southern society.

Governor Wilson's daughters qualified as pilots under the direction of Captain J. W. McKenzie. They took turns at the wheel guiding the Bermudian through the heavy seas. They kept their footing and held the wheel in a way to call forth the praise of Captain McKenzie.

"BUTTER TRUST" MUST STAND FIRE

Government Files Suit against Elgin Board in Chicago.

MANY DEFENDANTS ARE NAMED

Sweeping Charges of Conspiracy to Fix Prices Arbitrarily Are Made by Wickersham—High Cost of Living Considered.

Chicago, Dec. 16.—The Elgin board of trade, popularly known as the "Butter Trust," and the American Association of Creamery Butter Manufacturers, was attacked by the federal government in a civil anti-trust suit filed here for the dissolution of both concerns.

Government Charges Conspiracy.

Sweeping charges of a conspiracy to fix arbitrarily the price of butter in the interest of the big manufacturers and cold storage concerns and to the detriment of the farmer, other small producers and the consuming public, are made by Attorney General Wickersham.

Butter-making has drifted to the large manufacturers, the natural increase in volume of business has been curtailed and prices to the people have been enhanced, especially during the winter season, by the operations of the "conspirators," according to the government's petition in equity.

Names Many Individuals.

The following are named as defendants:

Elgin board of trade; Charles H. Potter, Elgin, Ill.; H. C. Christians, Richfield, Wis.; J. P. Mason, Elgin; Colvin W. Brown, Elgin; A. C. Hawley, Jerseyville, Ill.; American Association Creamery Butter Manufacturers (unincorporated.)

James A. Walker, Chicago; George F. Haskell, Lincoln, Neb.; William D. Hoard, Fort Atkinson, Wis.; George L. McKay, Chicago; E. H. Forney, Abilene, Kan.; Henry Bridgeman, Duluth; Joseph M. Rushton, Omaha; Charles Harding, Omaha; Arthur S. Hanford, Sioux City, Ia.; Carl W. Kent, Kansas City, Mo.; Henry A. Page, Toledo, O.; Samuel Schlosser, Plymouth, Ind.; William A. Tilden, St. Paul; Samuel P. Wadley, Dubuque, Ia., and W. T. Sherman White, Chicago.

Would Enjoin Other Practices.

Aside from the dissolution of the two organizations, the government seeks to enjoin the defendants from appointing a price-fixing committee; from fixing prices; from quoting or publishing figures purporting to be "market prices," unless they are based upon bona fide sales of butter; from demanding that the Elgin price be used as a basis in making contracts for butter; and from making fictitious or "wash sales" of butter to mislead as to the actual price at which butter is being sold.

Morals Commission for Minneapolis.

Minneapolis, Minn., Dec. 16.—A permanent public morals commission was appointed by Arthur W. Selover, president of the city council, under a provision recently adopted by that body. The commission is composed of seven men and two women.

AVIATOR KEARNEY LOST IN PACIFIC

Young California Newspaper Man Perishes with Him.

LAST SEEN NEAR POINT DUME

Hydroplane Vanishes from Gaze of Rancher into Haze Over Ocean—Searching Parties Sent Out from Santa Barbara.

San Francisco, Dec. 16.—Not a trace has been found of Horace Kearney, the aviator who started Saturday with Chester Lawrence, a young newspaper man, to fly in a hydroplane from Los Angeles to San Francisco.

The last seen of Kearney's flying machine was Saturday afternoon about 2 o'clock, by J. H. Lumken, a rancher, near Point Dume, the northern limit of Crescent bay, in Los Angeles county.

Last Seen of Hydroplane.

Lumken saw the hydroplane about a mile off shore and 300 feet in the air, but it soon disappeared in the haze. From the direction it was headed, it would have cleared Point Dume by at least a mile.

Everything leads to the conviction that Kearney and his passenger went to their death off the Southern California coast Saturday night when a furious southwester began to pile up a huge sea. Although they were provided with life preservers these would have been useless in a heavy sea.

It was Kearney's intention to take up more fuel at Ventura, but nothing was seen of him there. He had hoped to make the trip in nine hours of flying.

Searching Parties Unsuccessful.

At Santa Barbara thousands flocked to the beach to witness his flight over the bay and when he did not appear at nightfall searching parties were sent out.

It was thought by friends of Kearney that he changed his course, and that he landed in the Malibu country. But every portion of that section has been searched for traces of the missing aviator and without results.

1,000 OHIO MINERS STRIKE

Walkout of 17,000 More Threatened as Wage Meeting Ends.

Wheeling, W. Va., Dec. 16. — One thousand miners in the East Ohio coal fields struck. The adjournment of a conference here after failure to reach an agreement between miners and operators in eastern Ohio may mean that 17,000 more men will strike.

The conference continued five days, the dispute being over advanced pay for a certain class of work, which the operators refuse.

$50,000 Fire at Cairo.

Cairo, Ill., Dec. 16. — Fire which started probably from a short electric connection destroyed the plant of the Farmers' Handy Wagon company, causing a loss of more than $50,000. Besides the plant, $2,000,000 feet of long leaf yellow pine, Oregon fir and California redwood were reduced to ashes.

Drives off a Terror

The chief executioner of death in the winter and spring months is pneumonia, Its advance agents are colds and grip. In an attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place' Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." The Even Heat Makes All Rooms Comfortable

Cole's Original Hot Blast Heater is so perfect in construction that fire and heat keeps all night, even with cheapest soft coal. When the draft is opened in the morning the fuel put in the night before will burn for two or three hours.

No other stove will give these results—fire never goes out and the rooms are kept at even temperature day and night.

COLE'S HOT BLAST—for Hard Coal—SAVES HALF

The perfect control of the drafts, the slow economical combustion and the large, sensitive, radiating surface makes it the most economical and best Hard Coal stove made.

Cole's Hot Blast is the modern heater and will save its cost in fuel every winter. Burns Soft Coal, Slack, Lignite, Hard Coal, Wood and lighter fuel.

Select the size you want now while stock is complete.

Price $12.00 and upward according to style and size.

HAPPENINGS IN OUR NEIGHBORING VILLAGES

Britton had a narrow escape from fire Wednesday of last week when fire was discovered in the rear of the Lee building. How it originated is not known but it is thought to have started from the excelsior in a barrel of horse collars. A large force of men responded to the call of "fire" and the flame was soon extinguished.

There was a high wind at the time and Britton had a narrow escape from another conflagration.

The prisoners at the County jail at Adrian seem to be on the rampage and it is thought an attempt was made last Wednesday night to break jail, as several fastenings in the cell block were found loose.

The prisoners were noisy and profane when the Deputy Sheriff was called. They were later locked in the inner corridor and threatened with more severe measurers if the noise was repeated. Henry Davey held for horse stealing has caused much trouble and is thought to be the leader.

Five weeks ago E. L. Metcalf head of the Fountain City Ice Cream Co. of Morenci decided that he needed a new building for his growing business; also conceived that Morenci needed a Skating rink. He at once gathered together all the available building force of the village and others from outside and the building is nearly finished for use, The building is made with concrete walls and the floors are finished only the inside work remains to be completed.

A $700 electric organ has been installed and the opening of the building is set for Christmas when it will be celebrated with a dance. This is a two story building 50x150.

A roomy rink being on the second floor. The first floor is practically under ground as it is built on a sloping ground so the second floor opens from the street. The basement is to be used for the ice cream manufacture.

A meeting of the Lenawee County Association of Modern Maccabees was held in Hudson last Wednesday evening with the Arbutus tent, The degree team of Adrian Lenawee Tent of 21 Sir Knights were present.

A six o'clock dinner was served by Lady Maccabees to 75 Knights after which work was put on in the I. O. O. F. hall,

The next County Camp will be with Tecumseh Tent March 3rd, 1913.

ONE CENT POSTAGE

An effort is being made to reduce the postage on letters to one cent, it being claimed that half the postage now paid is a tax on the user, Congress will be asked to provide for it as it is thought that the creation of a one cent rate would mean additional business. John Wanamaker former post master general is one of the strongest believers in this change. The business men throughout the country are strong for the one cent postal rate.

A new bill providing for one cent postage will be introduced early in the session of Congress and a strong effort made to secure its passage.

HURRAH FOR HUDSONS COUNCIL!

Evidently Hudson's Council have the right kind of a backbone, and refuse to be bull dozed by contractors who do not live up to their contract.

The proceedings of the council as published in our last issue, were of much interest to the tax paying public, because of the action taken in settlement with the paving contractors, who were refused full payment because pavements were not up to the specifications.

The specification called for a bituminous covering for the concrete which would be substantial and durable. The covering used on Grove street did not fill these specifications. Some of the pavement was not satisfactory in other respects. Hence the withholding of a portion of the payment.

The public will endorse the council in insisting on good service.—Hudson Post.

MERRY CHRISTMAS HAPPY NEW YEAR

RED CROSS XMAS SEALS BRING FRIENDS IN NEEDS

A large, rugged looking man stepped before a Red Cross Seal booth and looked at the display of seals with more than usual interest.

"And those will help the folks that are suffering with consumption?" he asked. He was told that was the idea.

"Then," he said, reaching down in his pocket, "here's where I get some seals. My wife," he explained, "died the year after we were married. She died of consumption. We were so happy, and I had done everything I could for her, but I didn't have much money then, and times were hard. I lost my job, too, because I got to work so late. You see, I had the housework to do, and that took a lot of time, and they docked and finally fired me. I couldn't blame the company, but it was pretty hard. Right in the dead of winter, too! I could not get her the things I would have liked to, and there was no one to help me. Not a soul, for I was a stranger in a strange city, and so was my wife She died in the spring," he added, as a tear trickled down his face. "And now I'm going to buy some of these seals so some other poor fellow can get help if he needs it like I needed it." And he did.

The Domestic Science Stove

THE recreation hours oftentimes teach valuable lessons. It is during these hours that things are done the easiest way, and thus you learn many labor saving methods good for every day use.

The electric grill not only adds ease to the fun of making fudge or cosiness to the impromptu luncheon, but it also teaches the most important lesson in domestic science—how to cook in the easiest, cleanest and least expensive way.

Anything you wish can be quickly cooked by it. You can grill, boil, fry, toast, stew and bake griddle cakes—all on the dining room table or on the little table in your own boudoir.

Sad Death

Mrs. Jewett Wheelan Ends Life With Carbolic Acid.

ILL HEALTH, CAUSE OF ACT

The sad news came Saturday evening of the untimely death of Mrs. Jewett Wheelan of Tipton. Mr, Wheelan was in town and returning at night found the house dark, he called to Mrs. Wheelan but receiving no answer began to search for her, going into the bedroom he found her lying face downward on the bed.

Dr. Rice was called and at once detected the oder of Carbolic acid. On looking around a glass and spoon were found in the kitchen on the table where she had mixed the dose She had returned the bottle to its place and gone to her bedroom where she was found.

Her daughter, Vera, thinking her mother was in town with the father was spending the afternoon with her grandmother.

Mrs. Wheelan had been in poor health for some time and they were preparing to go South after the holiday season. The shock was a terrible one to the husband and friends, and the sympathy of the community goes out to them all.

The funeral was held in Tipton today.

Tom Butler Kicked by a Horse

MAY PROVE FATAL

Sunday evening Tom Butler who was at the barn doing the night chores failed to come in and the hired man was sent to see what detained him, he found him lying insensible in a pool of blood in the stall of his horses, where he had been kicked in the face, the left eye being totally destroyed. He had been in poor health for some time and the horses had not been driven as usual. He still remains in an unconscious condition, Dr. Lusky is in attendance.

Just a week ago his father passed away leaving him and his sister Nancy on the farm,

MRS. CHARLOTTE A. REED

The death of Mrs. Reed, mother of Dr. W. D. Reed who has been in ill health for a long time occurred Friday noon from a stroke of paralysis.

Mrs. Reed had passed most of her life in Manchester, residing there for over 40 years, her husband died about 25 years ago For the last two years she has resided in Tecumseh, her home being near that of the Doctor, A more tender and thoughtful son a mother could not have, showing this in his watchfulness and kindness never letting a day go by without a little chat with her or inquiring for her welfare. Beside Dr. Reed she leaves another son Herbert Reed of Brooklyn and five grandchildren The funeral services were held in Manchester Monday.

MRS ORVILLE KEMP

Henrietta Larzalere daughter of Hiram and Sarah Larzalere was born August 6, 1839 in Franklin, Mich, and died December 13, 1912 at the home of her daughter, Mrs Joseph Hanford of Tecumseh.

On the 21st day of February 1862 she was married to Orville Kemp. To this union were born three daughters and one son. The eldest, Mrs. Cooley now lives in California, Miss Pearl Kemp and Mrs. J. Hanford with whom she has lived for the past three years. The son Ernest died in Colorado in 1897. Besides her husband and daughters she leaves to mourn her loss one sister who was with her when she died, four grand children, and a brother in California.

She was a regular attendant at the Methodist Episcopal church having joined in 1874 and to the very last her faith was strong, that she was going to the better land where there is no sickness, death nor parting with friends.

CARD OF THANKS.

ONLY ONE "BEST"

Tecumseh People Credit Where Credit is Due

People of Tecumseh who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Tecumseh people. Here's a case:

Mrs. C Stevenson, Wyandotte & E. Potawatamie Sts, Tecumseh, Mich., says: "I cannot say too much in praise of Doan's Kidney Pills in return for the great benefit they gave me. I never used another remedy that did me so much good. Since 1906, I have taken Doan's Kidney Pills on several occasions, getting my supply at Wright & Sons Drug Store, and they have acted as a tonic to my kidneys. The first symptons of kidney complaint in my case was a sharp, shooting pain across the small of my back which made it almost impossible for me to lie down. Someone advised me to give Doan's Kidney Pills a trial and I did so. After I had taken this remedy a short time, my pains and aches disappeared and gravel that had been a source of constant suffering, no longer troubled me. In fact, I felt like a different person, I have since recommended Doan's Kidney Pills to a number of my friends and shall continue to do so."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Secret Terror

The haunting fear of sickness and helplessness is the secret terror of the working man Health is his capital. Kidney diseases sap a man's strength and vitality, They lessen his earning capacity Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles The genuine are in the yellow package. Refuse any substitute Sold by all druggists of Tecumseh.

Foils a Foul Plot.

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr. King's New Life Pills, and end such abuse of your system. They gently compel right action of the stomach, liver and bowels and restore your health and all good feelings. 25c at C. A. Wright & Son's.

Dr. Wm. Sadler, author of "The Cause and Cure of Colds," says that common colds should be taken serious ly, especially when they "hang on." Foley's Honey and Tar Coompound is a reliable household medicine for coughs and colds, equally effective for children and for grown persons. Take it when you feel a cold coming on It will avert danger of serious results and cure quickly. No harmful drugs, Sold by all druggists of Tecumseh.

Doctor Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this pure glyceric extract and alterative of the greatest efficiency and without the use of a particle of alcohol.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of PUBLIC APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic.

"Some time ago I got out of health—my stomach seemed to be the seat of the trouble," writes MR. EZRA WILLIAMS, of Belleville, Kans. "I commenced to doctor with all the doctors at home as well as with other specialists on stomach and digestive organs. None seemed to do any good—in fact, most of the medicines did me harm. Finally, I wrote to Dr. Pierce, Buffalo, N. Y., who replied, stating that I had liver complaint with indigestion and constipation, and advised Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' The 'Discovery' and 'Pellets' have 'put me on my feet again'—seemed to be just what I needed. I could not have recovered without them."

JUDGE ANDERSON BLAMES OFFICERS

Criticises Local Authorities for Their Inactivity.

M'NAMARA'S ATTACK IS READ

Prosecutor in Dynamite Conspiracy Trial in Indianapolis Tries to Show Iron Workers' Union Upheld the Plotter.

Indianapolis, Dec. 16.—"If the local authorities had done their duty there wouldn't have been any need of a trial here now," said Judge Anderson at the dynamite conspiracy trial.

Few Local Prosecutions.

The arraignment of the authorities followed Peter J. Smith's testimony. Smith's lawyer sought to show that while the government charged a "reign of terror" had existed in Cleveland on account of the iron workers' strike, there were few prosecutions in the local courts.

District Attorney Miller said "next to Los Angeles, Cleveland suffered more than any other city on account of terrorism."

The "reign of terror," Mr. Miller said, consisted of fifteen explosions at nonunion jobs and numberless riots and assaults. Smith, who was president of an iron workers' local, was charged with complicity in causing the explosions. He admitted having been implicated in assaults, but in "self-defense."

Acknowledges Some Truth.

Sixteen witnesses, including two little girls, have testified against you," said Mr. Miller. "Did they not tell the truth?"

"Some told the truth," replied Smith, "but I didn't cause the explosions."

John J. McNamara's attacks on the authorities for causing his arrest were read in connection with charges that the present defendants approved what he had said.

CLIMBS HIGH AND DIES

Illinoisan in New York Gets Into Wrong Building.

New York, Dec. 16.—Thomas Moore, who is said to be a member of the Elgin, Ill., board of trade, was found dead at 228 West One Hundred and Eighth street. The body was in a sitting posture and Dr. J. H. Pippens said death had been caused by the exertion of climbing the six flights of stairs.

The body was identified by Mrs. Henrietta Boyer, 8 West One Hundred and Eighth street. She said Moore was an old friend and was in New York visiting friends. It is thought he got in the wrong building by mistake and sat down to rest before descending the stairs when death overtook him.

Greensburg Young Man Has Narrow Escape from Death.

Greensburg, Ind., Dec. 16.—Charles Adams, son of Mrs. George Adams, writes his mother from Cincinnati that he narrowly escaped from probable injury or death in the recent fire that destroyed the Gibson house. Adams was attending a business college on the thirteenth floor of the Trust building which adjoined the hotel.

The structure seemed doomed. Adams and several others on the floor were able to reach the elevator which carried them to the ground floor. The elevator only made one more trip after Adams had been carried down.

TO LOWER PRICE OF EGGS

Housewives' League to Undersell Dealers on Streets in New York.

New York, Dec. 16.—Unless the retail dealers lower the price of eggs and keep it down to a normal figure, the housewives of five boroughs will, at the end of three days, go out in the streets with carts and wagons and undersell them.

This announcement was made by Mrs. Julian Heath, national president of the Housewives' league, which numbers 800,000 women at least in the United States and nearly 100,000 in this city alone.

FINDS AUERBACH IS GUILTY OF MURDER

Michigan Jury Convicts Chicago Man of Murder.

Penalty Is Imprisonment for Life—Auerbach's Attorneys Will Probably Take Appeal.

Baldwin, Mich., Dec. 10.—Oscar M. Auerbach of Chicago, business partner of Harry W. Fisher, who was found shot to death near here Sept. 20 last, was found guilty of murder in the first degree by a jury which had been out for twelve hours.

The verdict, under the Michigan statute, gives life imprisonment as the only penalty.

Auerbach collapsed when he heard the finding of the jury, and again after he was taken from the court room.

When his attorneys recovered from their surprise they asked for a stay of proceedings and stated that they might file a motion for a new trial. The case undoubtedly will be taken to the supreme court.

The motive for Auerbach's crime as accepted by the jury was to profit, with his victim's wife, from the $200,000 life insurance carried by the man slain after loans of $72,000 had been satisfied.

Auerbach was sentenced to penitentiary at Jackson, Mich., for life. In committing him Judge Withey said:

PEACE DOVE'S CHANCE

St. James Palace, London, and Premier Venizelos.

Premier Venizelos of Greece is now in London ready for the formal peace conference to end the Balkan war. Although Greece is still fighting Turkey, having refused to sign an armistice, Premier Venizelos will attempt to take part in the peace conference. His peculiar status makes him an interesting figure.

25 CONTESTS PROBABLE

Organization of Illinois Legislature Is at Stake.

Attack to Be Made Against Those Who Have Election Certificates, Progressives Particularly.

Chicago, Dec. 16.—Twenty-five contests—at least—will be filed against the holders of certificates of election to the Illinois house of representatives. This revelation came from the inside of camps where the plotting and counter plotting is in progress concerning the organization of the general assembly and the election of two United States senators.

The latest announcement of a proposed contest came from LaSalle county, where William F. McNamara declared his intention of contesting the election of Lee O'Neil Browne, William M. Scanlan, and Ole F. Benson. The contest is directed in particular against Benson, who nosed out McNamara by about forty votes. The rules of the game prescribe that the contest must be filed against all three of the returned winners. There is serious possibility that Browne will be unseated by a recount of the ballots and Scanlan is not worried.

The contention of McNamara is that the ruling of the state canvassing board in the Miller and Kirkpatrick cases means the certain award of a seat to him and the end of Benson as a legislator. Similar claim is made in the Fourth district, in Chicago, where William Ostrom, Republican, announces his determination to oust Henry M. Ashton, Democrat.

There is to be a general attack upon the bulk of the Progressives who get certificates of election, based upon the allegation to be presented that the Progressive party had no right to a party circle and that legislative candidates in that column had no right, therefore, to three votes each under the cumulative voting system.

The possibility now arises, it is understood, that the real effort will be to eliminate all contestants and contestees from participation in the organization of the house or in its deliberations until their contests shall have been settled. It was the statement in Democratic quarters that the Progressives would have to abide by this policy if they wish to be consistent with the demand in the Republican national convention by the Roosevelt forces that contested delegates be eliminated from voting in the contested delegate cases.

$500,000 FIRE IN PATERSON

Explosion Starts Flames that Destroy Five Large Stores.

Paterson, N. J., Dec. 16.—An explosion from an unknown cause, started a half million dollar fire here. The fire began at 6:45 a. m. in the department store run by John J. Diskon, on the corner of Main and Van Houten streets. It completely destroyed the big five-story building in which Diskon's store was located and swept across the street into several four story buildings.

Joseph Pup, a night watchman in the employ of the Diskon department store, was on the third floor when the explosion took place. So rapid was the spread of the fire that Pup had to get out of a third story window to save his life. He jumped to some guy wires, holding up an overhanging sign, and dropped into a tarpaulin held by firemen. His two legs were broken. The fire destroyed in all five buildings and damaged a number of others.

NEW PARTY MEET IS BROUGHT TO AN END

Roosevelt Returns East after Progressive Conference.

Party Would Make Big Fortunes Source of Income—Commission to Investigate Abroad—Matter of Membership Dues Passed On.

Colonel Roosevelt said his last "goodby" to Chicago loyalists when he swung aboard a Lake Shore train bound eastward.

He left Chicago convinced that the machinery of the new Progressive party is in working order for a four years' steady campaign, the culmination of which, his admirers say, will be his nomination again for president in 1916. This is the result of the three days' conference here, now ended.

In the organization scheme George W. Perkins of New York, Medill McCormick of Chicago, Senator Dixon of Montana and William Flinn of Pennsylvania will be the guiding hands.

As with the old party organizations, the executive committee will have the last word in planning the future of the party.

Hits at Multimillionaires.

A plan decided upon at a session of the national committee hits at multimillionaires. It is comprehended in the authorization of a committee of seven, who are to go abroad this spring to study the operation of social justice laws in force in the old world. The executive committee is to make up the membership of this commission.

The commission is to take up the income tax question and a graduated inheritance tax.

The Socialist party plan for dues for membership in the new Progressive party was passed up to the executive committee to work out, if that body deems it wise.

In the scheme of the party machinery a clause was inserted in the plan adopted by the national committee providing for the recall of officers of the national body. This may be instituted upon petition of 25 per cent of the membership. Politicians say the old parties may now depose an officer by a majority vote.

Provides for Initiative.

The initiative is also provided for in the report. A 25 per cent petition will operate to cause the national committee to take up any particular proposition such as a percentage of its members deem necessary. The 25 per cent petition is to be directed first to the chairman of the executive committee asking him to act. If the chairman fails then the entire membership of the national committee is to meet and take the proposition up.

Other features of the national committee report contemplate:

Permanent headquarters established in New York with a branch in Washington.

Legislative reference bureau created. To be directed by three experts who will work for uniform social justice laws in all states and in the national congress.

Money pledged by national committeemen for maintenance of bureau, and guarantee of annual support made.

Bureau to Be in Washington.

The legislative reference bureau proposed will be in Washington, D. C., and be in charge of three experts. The executive committee was authorized to name a committee of three to supervise the installation of the reference bureau. Miss Jane Addams, Dr. Charles McCarty of Wisconsin and William Allen White of Kansas probably will be named on the committee.

FOUR DIE ON GALLOWS

Quartet of Murderers Executed in Oregon State Prison.

At Salem, Ore., four men, Frank Garrison and Noble Faulder, condemned murderers, were hanged in the penitentiary simultaneously. Immediate preparations were made to execute the other murderers, H. E. Roberts and Michael Morgan.

The trap was sprung under Roberts and Morgan an hour later. Roberts made a statement before he climbed the scaffold, saying that he had been hounded by officers and his mind unbalanced by work over an emery wheel while in prison. Morgan protested his innocence to the minister who accompanied him to the death chamber.

WOMAN LEAPS 11 STORIES

Body Smashes Skylight Over Officer of St. Louis Surety Company.

At St. Louis Friday Mrs. Clara Schumann, wife of Herman M. Schumann, a cafe owner of 718 Market street, who resides at 3511 Wyoming street, jumped from a window on the fifteenth floor of the New National Bank of Commerce building at Broadway and Pine streets, landing on a skylight over the offices of the Burlington Railway building in the courtway, eleven stories below.

Her body broke a great hole in the skylight and would have crashed through into the offices of the Surety company had it not been for a heavy wire netting over the glass. She had been despondent over ill health.

CONGRESSMAN IS UNSEATED

Charles C. Bowman of Pennsylvania Must Give Way to Democrat.

At Washington Representative Charles C. Bowman of the Eleventh Pennsylvania district, was unseated in the house by a vote of 153 to 118 in favor of G. B. McLean, his Democratic opponent, who charged corrupt practices in Bowman's election.

The contest was over the election of 1910 and gives to McLean the salary and allowance for the term.

PEACE CONFERENCE ON

Delegates Called to Order in St. James Palace, London.

At London, Eng., Sir Edward Grey, the British foreign secretary, opened the peace conference at St. James palace at noon and the sessions began at 1 o'clock.

The delegates are expected to get down to the real purpose of their meeting by Tuesday, when the business meeting will be held. As matters stand, now, the only possibility for a serious hitch in the negotiations will be Bulgaria's stand on the disposal of Adrianople. This promises to be a matter which will require the greatest delicacy in handling, as the present outlook is that Bulgaria will demand Adrianople or withdraw from the negotiations.

The Paris Temps prints the following interview with M. Daneff, president of the Bulgarian sobranje:

"This is a matter which interests Turkey and Bulgaria exclusively and is in no way a European question. We shall not recede from our claim to Adrianople and if Turkey refuses to abandon the place it will be ours in a few days, as the people are without meat, salt and petrol. We shall recommence the war on Turkey's refusal to give up Adrianople. We are willing to discuss the ideas which may be submitted by the powers in regard to the Adriatic sea and the Aegean Islands."

AVIATOR IS DROWNED

Kearny and a Newspaper Man Undoubtedly Lost Lives.

Horace Kearny, Kansas City aviator, who tried to fly in a hydro-aeroplane from Los Angeles to San Francisco with his passenger, Chester Lawrence, a Los Angeles newspaper man, almost certainly was drowned in the Pacific ocean.

A pontoon of the hydro-aeroplane Snookums was picked up by a motor boat off Redondo beach and towed into Santa Monica by a party of fishermen. Thirty hours' continuous search for Kearny and Lawrence has been without result.

CHARLIE ROSS' MOTHER DIES

Fate of Her Kidnaped Boy Has Never Been Solved.

At Philadelphia, Pa., Mrs. Sarah Anne Ross, the mother of Charlie Ross, who was kidnaped thirty-eight years ago, died at her home here today, aged seventy-eight years. She was the widow of Christian Ross.

The fate of Charlie Ross, who was stolen when he was four years old, has never been learned, although numberless clews from all sections of this country and Europe were followed by detectives employed by the distracted parents.

BRINGS CONVICTS BACK

Three Returned to Jackson from Marquette Prison.

New Evidence Said to Be Cause of Move—Davison Arson Case Postponed.

Jackson, Mich., Dec. 17.—Convicts Edward Dillard, Carl Lastrenge and Louis Ranger, who were implicated in the recent plot to burn the prison binder twine warehouse, were returned to Jackson prison from Marquette. They were brought back by Deputy Sheriff [illegible] and Officer Sykes of the prison, and will probably appear as witnesses in the trial of Joseph Davison charged with the burning of the binder twine plant.

New evidence, which has just been unearther, is said to have caused the move. What the new evidence is the officials refuse to state. The examination of Davison, which was set for Dec. 19, has been postponed until Dec. 27. Should he be held to the circuit court he will be tried at the January term.

GETS OUT OF KLONDIKE

Oscar Rothenburg Tells of Hardships Encountered by Party.

Saginaw, Mich., Dec. 17.—Oscar Rothenburg, who has been in the Klondike since the first big rush for gold, has arrived home to spend Christmas, but his trip was not without the greatest hardships. He walked 130 miles over snow and ice to reach Skagway, where he took a boat for Seattle, reaching the states Thanksgiving.

It was in October that Rothenburg left his camp at Chicken Creek. The ice was running heavy in the Yukon and the passenger boat could not make any headway. Dog teams were secured from Dawson and five men started on the trip. They walked fifty miles to the Stuart river, traveled along that river twenty-five miles until they struck the government road. They traveled 330 miles to White Horse, where they took a train to Skagway. Two members of the party could not continue and were left behind.

FACES SUIT FOR $18,000 FEES

Deposed Clerk of Federal Court Blames Errors in Bookkeeping.

Detroit, Mich., Dec. 17.—Walter S. Harsha, former clerk of the now defunct United States circuit court here, who was deposed from office in April, 1909, after holding that position for twenty-seven years, is defendant in a civil suit in the district court, to recover $18,000 excess fees alleged to have been received from litigants.

The suit is the outcome of investigations by Charles F. DeWoody, special assistant to the attorney general, covering a period of nearly five years. Of the excess fees, about $10,000 already has been returned by Harsha, who, through his attorney, has steadfastly maintained there was no intent of wrongdoing, but that errors crept into his bookkeeping.

URGES COMBINE OF TWO STATE BOARDS

Tax Commission Recommends Merger of Self and Assessors.

Valuation of Six Counties Has Been More Than Doubled in Last Two Years.

Lansing, Mich., Dec. 16.—The state tax commission, in its biennial report to the governor, makes a number of recommendations for changes in the tax laws.

In the first place it would have the commission and the state board of assessors, now two separate bodies with the same membership and duties closely related, combined.

At present the commission is able to work but five months in each year, and a change in this law so that more time be allowed for the work is recommended. It is also recommended that the terms of supervisors be changed so as to begin July 1. At present the supervisors have but two months in which to make their assessments, while with the change proposed they would have nine months.

It also wants authority to compel any person or company to make a sworn statement of its property at any time; to compel all corporations to make an annual sworn statement by April 1, and to change the assessment of any person or firm before it is actually spread on the rolls.

Regarding the new mortgage tax law, the repeal of which is advocated, the board says:

"Mortgage credits assessed on the general tax rolls of 1911 amounted to $39,148,509, which at the average rate of taxation for the state yielded approximately $810,765.62. Under the new law mortgage credits paid from the date the act went into effect, Aug. 1, 1911, to June 30, 1912, the sum of $495,389.50. This included mortgages recorded prior to Jan. 1, 1912, upon which the law permitted the recording tax to be paid.

During 1911 the commission made the following increases after holding reviews in each county named: Kalamazoo, $10,500; Marquette, $25,773,950; Alpena, $3,345,865; Midland, $678,670; Charlevoix, $5,013,671; Gogebic, $23,399,942; Iron, $13,058,400; Dickinson, $3,711,700; total $74,992,698; decrease in Mackinac, $80,750; total net increase, $74,911,948.

During 1912 the commission held hearings and made increases as follows: Dickinson county, $3,521,992; Genesee, $20,116.29; Gogebic, $8,490,494; Ingham, $28,870,975; Iron, $3,911,457; Kalamazoo, $33,180,896; Total, $98,092,112.

STRING ON OIL LEASES

Reported Transfer of Contracts Must Be Approved by Commission.

Lansing, Mich., Dec. 14.—The public domain commission is investigating the reported assignment of the oil contracts which the state recently made with the Northern Development company to the new company known as the Great Lakes Oil and Gas company.

"We want the lease to remain with Michigan people," said Land Commissioner Huntley Russell. "Personally, I think it would be a good thing for the state if some big company got the leases, because it could afford to carry on a big business and thus increase the royalties of the state. In two states the Standard Oil is not allowed to operate. The commission hasn't completed the formality of signing the leases yet, and there is a clause in the leases that provides they cannot be transferred without the written consent of the commission."

Drives off a Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In an attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place, Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." The Domestic Science Stove

THE recreation hours oftentimes teach valuable lessons. It is during these hours that things are done the easiest way, and thus you learn many labor saving methods good for every day use.

The electric grill not only adds ease to the fun of making fudge or cosiness to the impromptu luncheon, but it also teaches the most important lesson in domestic science—how to cook in the easiest, cleanest and least expensive way.

Anything you wish can be quickly cooked by it. You can grill, boil, fry, toast, stew and bake griddle cakes—all on the dining room table or on the little table in your own boudoir.

AMUSEMENT

"THE THIEF"

"The Thief" given at the Opera House Tuesday evening was one the finest along this line ever given in Tecumseh.

The theme was tragic throughout and held the audience spell bound, wondering what would be the next developement. The characters were all well sustained but the whole interest centered around Miss Marion Sherwood in her wonderful rendition of Marie Louise Voysin, the thief. Her idolatrous love for her husband being the cause of her wrong doing.

Fernand in his boyish infatuations for Madame Voysin became an easy victim when she tried to hide her sin by his self sacrifice. His part was a difficult one, but he sustained it in a fine manner and is worthy of much praise.

Madame Voysin's confession to her husband and the denoument in the drawing room when Fernand is banished from his home was wonderful and the final triumph of love was a fitting ending to this great play.

The part of Madame Voysin is a strenuous one and in the first season that it was put upon the stage, three leading ladies were worn out with the strong acting.

Coming

MUTT & JEFF

After considerable corresyondence and at last a guarantee, Gus Hill's original production of "Mutt & Jeff" will be seen in Tecumseh. The date is set for Monday December 30. "Mutt & Jeff" is a big musical comedy founded on the world famous cartoons of Bud Fisher

More than five hundred prominent newspapers throughout the country are running the clever Fisher cartoons daily. THAT NEWSPAPER IS PAYING A BIG BONUS FOR THE PRIVILEGE OF GETTING THE FISHER CARTOON; BECAUSE IT ATTRACTS ITS READERS, because it has proven the biggest success since cartoon pictures have become a feature in daily papers. Million of people open their morning paper at the "funny page" to see what new stunt "Mutt and Jeff" are up to. You can then imagine with what pleasure the people look forward to seeing those two funny fellows in real life, depicted by clever flesh and blood actors, who are physically fitted to properly portray every movement that Bud Fisher has conceived to be funny. "Mutt and Jeff" has actually created a sensation never before known in theatrical history. In New York City where the play ran to record business at the Grand Opera House at the Manhattan Opera House; in Chicago where it ran fourteen weeks to phenomenal business; in Boston where it ran fifteen weeks to actual capacity, in every city large or small in the entire country wring from the most conservative critics the inviable title of being the greatest financial and and artistic success in a quarter of a century,

"Mutt & Jeff" is one of the best musical comedies on the road today. The company carry a special carload of scenery and electrical effects and numbers over 40 people. It is understood that negotiations are under way for Willett's Orchestra of Adrian for that night. It is safe to say that "Mutt & Jeff" will be a biggar hit here than that "The Newlyweds" last winter.

MONDAY CLUB

An open meeting of the Monday Club was held at the home of the President, Mrs. F. B. Wood Monday afternoon,

There was a large attendance and the program was exceptionally, good consisting of papers and musical numbers. A piano quartette played by Mesdames Wood, Hodges, Look and Pratt was much enjoyed, this was followed by a paper on Roman Women by Miss Beth Widney, Mrs. Orr a paper on the Roman Home and Mrs. Jay Morse told of the Roman Boy, these papers were deeply interesting to all.

Miss Hazel Zimmerman and Ellsworth Ellis then favored the company with a vocal duet in a most charming manner, a vocal quartette consisting of Mesdames Ruthruff and Moore and Messrs Fenn and Ellis was given in such a pleasant manner that an encore was given them and they responded with a Christmas Carol.

Light refreshments were served at the close of the program.

Just One Problem Solved

Several years of recognized leadership in the everlasting pursuit of automobile perfection are concentrated in the 1913 exemplification of the truly invincible "FORD."

It has been a clearly demonstrated fact, that you get more miles over any condition of roads for the least cost of maintenance of any machine manufactured and up to the present minute.

Every third car is a Ford. Nearly 180,000 have been manufactured and delivered.

1913 Ford, 5 passenger touring car,	$600
1913 Ford, 2 passenger roadster,	$525

and this includes all equipment.

Satisfy yourself that this is the biggest value on the market today.

Tecumseh People Credit Where Credit is Due

People of Tecumseh who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Tecumseh people. Here's a case:

Mrs. C Stevenson, Wyandotte & E. Potawatamie Sts, Tecumseh, Mich, says: "I cannot say too much in praise of Doan's Kidney Pills in return for the great benefit they gave me. I never used another remedy that did me so much good. Since 1906, I have taken Doan's Kidney Pills on several occasions, getting my supply at Wright & Son's Drug Store, and they have acted as a tonic to my kidneys. The first symptons of kidney complaint in my case was a sharp, shooting pain across the small of my back which made it almost impossible for me to lie down. Someone advised me to give Doan's Kidney Pills a trial and I did so. After I had taken this remedy a short time, my pains and aches disappeared and gravel that had been a source of constant suffering, no longer troubled me. In fact, I felt like a different person. I have since recommended Doan's Kidney Pills to a number of my friends and shall continue to do so."

Cheapest accident insurance—Dr Thomas' Eclectic Oil. Stops the pain and heals the wound. All druggists sell it.

"I suffered habitually from constipation. Doan's Regulets relieved and strengthened the bowels, so that they have been regular ever since."—A. E. Davis, grocer, Sulphur Springs, Tex.

LANSING — The Michigan state highway department has received word from counties of St. Clair, Sanilac, Allegan and Ingham to the effect that they are to vote on the county road system at the coming election. The department is sending letters to all county officials urging them to adopt the system. Forty-five counties are now under the county system.

JACKSON—Jason E. Fuller, who was charged with driving a horse until it dropped dead, was found guilty in justice court and sentenced to thirty days' imprisonment in the county jail, in addition to a fine of $40. In default of the payment of the fine he is to serve an additional sentence of not to exceed thirty days.

YPSILANTI—The handsome dwelling house of Mayor Frank A. Norton burned to the ground with all its contents. Mayor Norton and his family were awakened just in time to escape with their lives and a few clothes. The loss which is partially covered by insurance, will reach between $3,000 and $4,000.

PETOSKEY—As he stood serenely before a mirror shaving himself at the J. B. Dimling residence at Brutus, where he boarded, Peter Prevost, a blacksmith, about fifty-five years old, dropped dead of apoplexy. Prevost came to Brutus three months ago, presumably from Charlevoix.

A WOMAN'S WISDOM.

The worried mother wakes up to hear her baby's heavy breathing—a little cough—perhaps the croup or whooping cough. She does not want to send for the doctor when perhaps the trouble does not amount to much. Finally she thinks of that medical book her father gave her, The Common Sense Medical Adviser, by R. V. Pierce, M. D. She says "just the thing to find out what is the matter with the little dear." Two million households in this country own one—and it's to be had for only 31c. in stamps—1,000 pages in splendid cloth binding. A good family adviser in any emergency. It is for *either sex*. This is what many women write Dr. Pierce—in respect to his "Favorite Prescription," a remedy which has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength.

MRS. ZURBERT AND BABE.

"My desire is to write a few lines to let you know what your valuable medicine has done for me," writes MRS. MARGARET ZURBERT, of 323 S. Bentalon Street, Baltimore, Md. "Before the storck came to our house I was a very sick woman. I wrote you for advice which was kindly given and which made me a different woman in a short time. After taking the first bottle of 'Favorite Prescription' I began improving so that I hardly knew I was in such a condition. I did my own housework—washing and ironing, cooking, sewing, and the worst of all nursed three children who had whooping cough. I hardly knew of the advent ten minutes before—so easy was it. The baby is as fat as a butter-ball. Dr. Pierce's Favorite Prescription is the best medicine for any woman to take when in this condition. I recommend it to all my friends."

CHARACTER.

Characters are achieved — not received. They grow out of the substance of a man's soul. They are not put on as a beggar might put on a stolen coat. They mature like fruit from the vital fluids of the tree. They grow with use. A false limb wears out, wastes with use. A natural limb grows stronger and better with use. Character is an achievement.—C. H. Fowler.

AMBASSADOR REID IS SUMMONED BY DEATH

Passes Away at Dorchester House after Long Illness.

Wealthy Diplomat Is Sincerely Mourned Here and Abroad—Working Newspaper Man and Owner of New York Tribune.

Whitelaw Reid, the American ambassador to Great Britain, who has been ill from asthma for several months and who has been in bad condition ever since his return from America in October, died at Dorchester House. The physicians gave the cause of death as asthma following exhaustion.

In 1856, Whitelaw Reid became principal of the graded schools in South Charleston, O., and saved enough to buy the Xenia News. He was minded early in his career to become a journalist. As editor of the News he displayed talent and attracted the attention of the leaders of the young Republican party in his state. He advocated the nomination of Abraham Lincoln in 1860 and was a powerful spokesman in Mr. Lincoln's campaign.

Mr. Reid later became the city editor of the Gazette of Cincinnati. At the outbreak of the Civil War he joined the staff of General Morris in West Virginia and later the staff of General Rosecrans.

Famous as War Correspondent.

He also acted as war correspondent for the Cincinnati Gazette, writing over the nom de plume "Agate." He was the only correspondent that witnessed the battle of Shiloh from its start to its finish, and it was his account of this battle that stamped him as a correspondent of the first rank. His ten column story in the Cincinnati Gazette was widely copied.

In 1862 he became the correspondent of the Gazette at Washington. His report of the proceedings of the impeachment of President Johnson attracted the attention of Horace Greeley, who persuaded Mr. Reid to accept a place on the political staff of the Tribune. His post was leading editorial writer, with a salary next to Mr. Greeley's.

In 1872 after the nomination of Mr. Greeley for president, Mr. Reid was made editor-in-chief of the Tribune. After Mr. Greeley's defeat and retirement from active life, Mr. Reid, on the strength of his reputation as a successful editor and newspaper manager, borrowed enough money to buy proprietory control of the paper.

Weds Miss Elizabeth Mills.

In 1881 he married Elizabeth, the daughter of D. Ogden Mills, a Californian of great wealth, who removed to this city. The results of the marriage were two children, Ogden Mills Reid, who recently succeeded his father in the active control of the Tribune, and Jean Reid, now Mrs. John Ward of London.

No arrangements have as yet been made for the funeral, but Mrs. Reid is anxious that the body be sent to America as soon as possible, this week if it can be done.

It is unoficially announced here that John Hays Hammond, the millionaire mining engineer, will be appointed to fill the vacancy at the court of St. James caused by the death of Ambassador Whitelaw Reid.

DAYTON GRAFT UNEARTHED

Gamblers in Ohio City Said to Have Paid "Hush Money."

At Dayton, Ohio, a special grand jury will be called to investigate the city administration.

Evidence of graft came to light two days ago when it was learned that gambling had been conducted in one of the leading clubs in the city and that the man who operated the game had been paying from $60 to more than $100 a month for "hush money."

Kings Named John.

John I. of the "eastern empire" was poisoned by a servant: John IV. was deposed and had his eyes put out; John V. ruled only in name and lived in constant dread of assassins: John VI. was deposed and died in prison One of the Swedish Johns was driven out of his kingdom by his subjects and another was belittled and defeated at every turn. John I. of France had a short and disastrous reign, and John II. was a prisoner of the English for years. A long list of Johns have changed their titles when taking on kingly robes because of the superstition that a "John" ruler cannot be otherwise than unfortunate.

Starboard and Port.

Why do the sailors call the right hand side of the ship "starboard" and the left hand "port?" For the answer it is necessary to go back to the days of the Norsemen and Saxons. In the viking ships the warriors hung the "bords," or shields, on the side of the ship above the places for their oars. The viking himself held the steer oar, which was fastened to the right hand side of the stern. Thus the right hand side of the ship became known as the steer side, and as the bords of the warriors were hung there it was called the "steerboard," or starboard side, while the lower, or lurking side, became the larboard. Bord eventually became corrupted into port.

Wonderful Descent.

"Ever hear Wallaby tell about his remarkable descent?"

"Descended from a hundred earls, s'pose?"

"Naw; volplaned down 400 feet in a monoplane."—Washington Herald.

SUITS FOR OIL LANDS

Government to Proceed Against the Southern Pacific Railroad.

Several suits for the recovery of oil lands in the state of California valued at $500,000,000 are about to be filed against the Southern Pacific's part of the Harriman system, and others by the federal government, according to the annual report of Attorney General Wickersham, just submitted to congress.

"The legislation under which that company obtained its grants of public lands expressly excepted mineral lands other than lands valuable chiefly for iron or coal," says the report.

FOUND DEAD IN FIELD

Exposure Proves Fatal to Woman Who Wandered From Home.

St. Johns, Mich., Dec. 9.—The dead body of Mrs. Henry Fehr, a German woman, was found in a field a few rods from her home. Mrs. Fehr, who lived with her aged husband on a farm a mile from this city, left her home early the previous evening, but neighbors were not notified of her disappearance until morning, when a search was immediately instituted. Physicians are of the opinion that the woman died from exposure, as the night was very cold.

She had been insane at intervals for a number of years and doubtless it was during a period of dethroned reason that she wandered away.

SPARKS TO BE TRIED AGAIN

Gratiot Judge Holds Plea in Bar Does Not Prevent.

Alma, Mich., Dec. 9.—Circuit Judge Searl held that the plea in bar filed by the attorneys for Frank Sparks, the Alma man charged with a serious statutory crime, would not bar the action, and Sparks will go on trial Wednesday. He was tried early in the term on a similar charge, the court directing a verdict of not guilty. He was rearrested. The present jury being disqualified, a special panel has been drawn.

Old practitioners say this is the first plea in bar ever filed in a criminal case in Gratiot county.

Beaten and Robbed of $4,490.

Burlington, Ia., Dec. 16.—C. R. Easterday, a farmer living near Marengo, Ia., was beaten and robbed of $4,490 at the Union station. He will recover.

HELEN GOULD TO MARRY

Philanthropist Daughter of Railroad King Engaged.

Fiance is Finley J. Shepard of St. Louis, Active in Railroad Management.

New York, Dec. 16.—Helen Miller Gould, sister of George J., Frank J., Howard and Edwin Gould and the Princess De Talleyrand-Perigord (Anna Gould De Castellane), and who is celebrated not only because she is one of the richest women, but also on account of her practical philanthrophies, is to be married, probably next month, to Finley J. Shepard of St. Louis, an active railroad man who is assistant to President B. F. Bush of the Gould lines, Missouri Pacific, Iron Mountain and Denver and Rio Grande. Miss Gould is forty-four years old. Her fiance is forty-five.

The announcement of the engagement was made by George J. Gould at his home, Georgian Court, Lakewood. Mr. Gould gave out merely this formal statement:

"Mr. and Mrs. George J. Gould announce the engagement of their sister, Miss Helen Miller Gould, to Mr. Finley J. Shepard of St. Louis."

He smilingly declined to give any details concerning the engagement or the plans for the wedding, saying, "There will be nothing more, except that this engagement is most pleasing to Mrs. Gould and myself." Miss Helen Gould herself and other members of the family were equally reticent.

Twelve Hurt as 20 Buildings Burn.

Pittsburg, Pa., Dec. 16.—Fire, believed to have been of incendiary origin, destroyed twenty stables, warehouses and residence in Braddock. Scores of men, women and children were rescued by firemen, twelve of whom were injured. The damage was $150,000.

SEE "FIRE BUG" TRUST

Great Plot Said by Police to Cover Middle West.

Arrest of Chicago and South Bend Men Exposes Alleged Arson Conspiracy.

South Bend, Ind., Dec. 16.—The exposure of an alleged "arson trust," composed of insurance adjusters and operating throughout the entire middle west, causing scores of fires and many thousands of dollars' loss, will, it is said, follow the arrest of Ben Kahn, former South Bend merchant, and Ben Franklin of Chicago, accused of firing the clothing store owned by Kahn April 12.

The two men, arrested in Chicago, now are held here in default of bonds of $20,000 each, the largest bail ever demanded in the history of a St. Joseph county court.

Prosecutor Chester R. Montgomery, who, with Captain of Detectives William Cassiry, has been working on the case, declared the trial will bring out the fact that insurance adjusting concerns sometimes setting fire to heavily insured mercantile establishments on a commission basis. Franklin is charged with being the operative for the alleged "firebug" combine. Kahn, who owned the store, is accused of engaging the fire adjusters to cause the explosion and fire.

Following the fire April 12 indications of incendiarism were so strong that local detectives shadowed Kahn constantly. On the evidence obtained the grand jury returned indictments against Kahn and Franklin.

ALPENA — Frank William Gilchrist, for a good many years prominent in the lumber business, north and south, and owner of extensive vessel interests on the great lakes, died in Memphis from uraemic poisoning.

HASTINGS—Owing to an alarming epidemic of measles among pupils, the board of education of Freeport has ordered all schools closed until Dec. 30.

Church Notes

The Presbyterian church was beautifully decorated in the Xmas greens a full house was present to listen to the Xmas concert. The solo work and accompaniments of the organist, Mrs. J. Q. Look were exceptionally fine. Each number was well rendered and the two chorues with their joyous music touched and charmed every heart. Miss Brush may well be proud of the results of her hard work.

The last chorus "Sing Oh Heaven" by Simper was one of the best ever given. The choir consisted of 15 voices.

The following program was rendered at the Presbyterian church Sunday morning at 10 and at the 5 o'clock Vesper Service.

MORNING

Organ Voluntary Mrs. J Q. Look

The Baptist church was full to over flowing for their Annual Xmas concert An unique program was given differing materially from any previous ones. A quartette and 30 voices of young ladies and men made up the two choirs. The chorus work was fine and showed the thorough drill they had had. The opening number the processional with the young ladies in white with large red bows, as they came marching up the aisle singing, seemed to wake at once the Xmas spirit. Pausing to bow before the altar the quartette took up the refrain, and they then passed down the aisle and resumed their places. The program was much enjoyed by every one present and and was pronounced the best ever given,

Processional—Christmas March Song
Chorus—"It came upon the Midnight Clear"

Solo—"Glory to Heavens Eternal King"-Mr. Ellis
Chorus and Quartette—"Shout the Glad Tidings."

The Methodist church was well filled for the five o'clock service and a short musical program was given with an Xmas address by the pastor. The music was exceptionally fine through out and was much enjoyed by all. The following program was given:

Anthem—The choir
Vocal Solo—Lynn Rogers
Vocal Solo—Miss Ruth Kimball
Saxaphone Solo—Glenn Tansley.

Parliament.

The name "parliament" is derived from the French word "parler," to speak. The word was originally written "parlement," as in French, and although the spelling has gradually changed, the pronunciation remains the same. The earliest mention of the word "parliament" in the English statutes is in the preamble to the statute of Westminster in 1272. For the origin of the institution itself we must go back to Anglo-Saxon times, when it flourished as the witenagemot. In the reign of Henry III. parliament was formally separated into the two houses of lords and commons, and the deliberations were conducted in separate chambers.

WHY DO BOYS SMOKE?

This question has passed the rounds of the press at different times and has been as often answered but only in part as we look at the matters, remembering that children are great imitaters. The girls want to do as mother does and the boys want to follow fathers example, I put the question in this form: "Why shouldn't boys smoke?" Their fathers and grand fathers smoke. so do their uncles, their big brothers and cousins, the young man with whom their older sisters keep company, the great majority of the men they meet on the street smoke, smokers everywhere, in Banks, in Stores, in Offices. They enter other homes than their own and find smokers enjoying pipes, cigars or cigaretts and some of the homes are christian homes. They see christian men smoking on the streets and in public places and we have known preachers to smoke, and school teachers, Bible characters and Sunday School Superintendants.

Boys have sharp eyes and take notice of the habits of their elders children naturally think that what minds must be manly and that what christian men make a daily practice of doing cannot be bad; they therefore conclude that it is manly in them to smoke and why shouldn't they think so? When a smoking father punishes his small son for smoking, the father and not the son should have received a good sound spanking. If not, why not? A man who will sell tobacco in any form to a minor should never be find but should be imprisoned for at least 30 days for each offence and any man who will teach any boy to smoke should be given the same treatment Are we too radical on this subject? If so show us.

WILL CARLETON DEAD

Our Michigan Poet Passed Away Wednesday Evening at His Home in Brooklyn N. Y.

The sad news has been received of the sudden death of Will Carleton, from an attack of pneumonia, at the age of 67 years,

He was born near Hudson, and received the degree of Bachelor of Science at Hillsdale College, and later had the degree of Master of Arts conferred upon him.

He was connected with many newspapers, and at the time of his death was the Editor of Everywhere published in Brooklyn.

As a poet he has endeared himself to the hearts of the people through out the United States and Europe, where he has lectured and read from his own works.

The ballad that made his name famous was "Betsy and I are out," which was first published in the Toledo Blade in 1871, and was copied in nearly every paper in the country. He has always kept the farm where he was born and brought up, and every year has made a special visit and spent the night in his old room. Michigan will mourn the loss of their Poet and friend.

"Generally debilitated for years. Had sick headaches, lacked ambition, was worn-out and all run-down. Burdock Blood Bitters made me a well woman."—Mrs. Chas. Freitoy, Moosup, Conn.

Man's Power in Nature.

"Victory over things is the office of man. Each man is a new power in nature. He holds the key of the world in his hands—no truth which he cannot see."

R. & S. M

Blanchard Council No. 33 R. & S. M. held a very interesting meeting last Tuesday evening. A 6 o'clock dinner being first on the program, the time was then given up to a smoker and games in the Club room until 7:30, when the Council convened in the Temple. The Super Excellent degree was conferred most excellently on four candidates. The election of officers resulted in the re-election of the entire corps as follows.

The Human Body's Tireless Organs.

Man has within him a stationary engine called his heart, which, with its veins and arteries, constitutes a perfect system of hydraulics, compared with which man's best work is clumsy, intricate and wasteful. The lungs are a working bellows, the most perfect method of sanitary ventilation. The stomach is a working vat of marvelous perfection. The brain is a wondrous condenser, and the skin is a great working evaporator, with reserve automatic appliances ready for extra work in moments of need. All these are in action at all times, day and night, tireless, unceasing, self winding and repairing, for seventy years or more.

Where Love Is.

A little girl was lost on the street and was brought into the police station. The officers tried in every way to learn her name. Finally one of the officers said:

"Tell me, little girl, what name does your mother call your father?"

"Why," responded the child innocently, "she don't call him any names; she likes him"—Youth's Companion.

Drives off a Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In an attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place' Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cts. and $1.00. Trial bottle free at C. A. Wright & Son's.

FICKLE AS SHADOWS

Heroine and Fool-Woman in Mix-Up.

By BRYANT C. ROGERS.

Young George Benedict had come to town on a matter of business, and was one of the thousands walking the crowded streets. Fate willed it that a minute or two before he was to pass a certain grocery the grocer lifted up his voice and shouted at his delivery boy:

"What's the package on the counter?"

"Tea, I guess," replied the boy.

"Yes, and you left it there from your last delivery, you careless wretch. It should have gone with Mrs. White's order. Take it and hustle?"

The boy seized the package and ran. He jumped from the door without regard to pedestrians, and he struck young Benedict in the shoulder and knocked him into the gutter. As he went down, the victim cut his hand on some object carelessly thrown out, and a man paused long enough to wrap a handkerchief around it and say:

"Better get to the drug store around the corner. That's a rather bad cut."

The wounded man was looking for the place. At the corner he asked a woman waiting for a car to redirect him, and the moment the woman caught sight of his bloody hand she uttered a scream and started to run. A fool thing to do! Fifty men heard that scream and stopped dead still.

"There! There!" she cried as she pointed at young Benedict.

That was enough. The fifty made a rush for him, and fifty more came up. There was but one interpretation to be put on the fool-woman's words. They didn't give him time to explain—even to hold up his bleeding hand. Most of his clothing was torn off in five minutes, and then he was beaten down, and there were cries for a rope to lynch him. Peaceful and law-abiding citizens became human tigers almost in a moment.

Miss Hope Guest was motoring to town to do some shopping. As the machine turned a corner she saw the crowd, and in her impulsive way she ordered the chauffeur to push right along into it. She never let anything exciting pass. A dog fight? Some one hurt? A rat to be let loose for the dogs?

"Have you any idea who he is?"

"It's a man—a man!" she shouted as she drew nearer.

"We'd better get out of this!" advised the driver.

"No! No! Go nearer! Oh, they are killing him! You ruffians! You brutes!"

With that she was down among them, striking right and left with her parasol.

You can create a mob in thirty seconds. You can still it in the same time if you strike the right moment.

"You two men lift him into the machine!" ordered the girl as she pointed to the two nearest.

"You don't know what he did!" growled one of them.

"But I know what you brutes have done! Lift him in."

The crowd cheered! Queer thing a crowd is. It is as fickle as the shadows racing over a lake. A policeman came pushing his way through the press to say:

"See here, Missy, I've got to take him to—"

"Drive on, James!" was the curt command to the chauffeur; and the mob was left behind in a moment to shout the inquiries at each other:

"Who is she?"

"Where's she taking him?"

"Where's the woman that screamed?"

"Say, fellers, who begun it?"

And in three minutes the mob had dissolved and one could not have told that human passions had been let loose there.

"Home, as fast as you can!" said the girl to the chauffeur.

There was an object on the floor of the tonneau. One had to look twice to make sure that it was a human being, or the remnants of one. Rags—blood—dirt! The mob had made a football of it. Men who had kicked it were now quietly seated in their offices.

"Faster! Faster! Now stop here until I telephone mother and the doctor."

They could not say whether they were carrying a dead or a living man into the house. It was half an hour before the doctor could say:

"There's a spark of life left, and he's got about one chance in twenty. You must have a nurse here."

"Please telephone for one," replied Miss Hope.

"Have you any idea who he is?"

"Not the slightest."

"Then he may be a tramp for all you know, but I can tell you he isn't. He's a gentleman, for sure. There are a dozen points to prove that. What had he done?"

"I didn't ask and didn't care. If I'd had a pistol I would have shot some of them down!"

The doctor had an evening paper with him when he made a call at 9 o'clock. He handed it to Miss Hope without a word. When she had read the article relating to the mob she exclaimed:

"I don't believe it! There's some mistake!"

"Mobs are often mistaken. Your patient is making a fight to live. We ought to find out who he is."

"Not just yet, doctor. I took him from that mob, and I feel that I own him."

"Romance—romance!" laughed the doctor as he went his way.

It was the fifth day before the patient opened his eyes to look about him and then fall into a restoring sleep. It was the ninth before he whispered his identity. Yes, he was a gentleman, and had Miss Hope kept track of the papers as well as she kept track of her patient she would have seen all about the "Mysterious Disappearance," and further learned of the efforts of the police to solve a mystery.

"We must speak now," said the doctor as he brought a paper.

"Not quite yet," she pleaded. "I want to hear his story from his own lips. Besides, when a girl has faced a mob to rescue a young man—"

"I'd feel that way myself, young lady. His broken ribs are bothering him, and the bruises and cuts are a fine assortment to look at, but he may spin his yarn in a couple of days more."

It was told to eager listeners. Every word carried conviction, and when it had been finished there was something more. The patient had to express his gratitude, and that's where the voice went down and the lip trembled and the tears came. Perhaps there were tears in other eyes as well.

"It's so queer that my folks haven't come," he said.

"Why—why, I didn't want 'em to!" replied Miss Hope in the frankest sort of way.

"Oh!"

"I'd rescued you, and—and—"

"Well, let it go for a few days. They haven't much to worry about. They may offer a reward for me."

"Oh, but they have, and of course I shall claim it. I can't go 'round facing mobs for nothing, you know."

It was six weeks before young Benedict departed for his widowed mother's home. She had been to see him, and it was she who took him away, still limping a bit. She was grateful, too, and she had come prepared to say to her son:

"I was in hopes you'd wait a year or two more, but when a fool-woman and a heroine of a girl get mixed up with the life of a young man—"

"I'm coming back in a fortnight to ask her father's consent!" he cut in as they drove away.

The Nutshell.

The residents of a certain suburb of Chicago were for a time governed by a passion for giving sweet, poetical names to their "estates." There was one such man who built a handsome villa, calling it "The Nutshell." Thus was the home introduced to his friends and it became widely known. To the surprise of all, therefore, the name was one day suddenly changed to "Sylvan Nook," and a flood of inquiries soon began to pour in.

"Why have you given your home a new name?" a friend asked. "What was the matter with 'The Nutshell?'"

"I got sick of being joshed about it," said the owner, with a sigh. "There isn't a boy within two miles hereabouts who hasn't stopped and rung the doorbell to ask if the colonel was in."—Lippincott's Magazine.

The Domestic Science Stove

THE recreation hours oftentimes teach valuable lessons. It is during these hours that things are done the easiest way, and thus you learn many labor saving methods good for every day use.

The electric grill not only adds ease to the fun of making fudge or cosiness to the impromptu luncheon, but it also teaches the most important lesson in domestic science—how to cook in the easiest, cleanest and least expensive way.

Anything you wish can be quickly cooked by it. You can grill, boil, fry, toast, stew and bake griddle cakes—all on the dining room table or on the little table in your own boudoir.

ONLY ONE "BEST"

Tecumseh People Credit Where Credit is Due

People of Tecumseh who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Tecumseh people. Here's a case:

Mrs. C Stevenson, Wyandotte & E. Potawatamie Sts, Tecumseh, Mich., says: "I cannot say too much in praise of Doan's Kidney Pills in return for the great benefit they gave me. I never used another remedy that did me so much good. Since 1906, I have taken Doan's Kidney Pills on several occasions, getting my supply at Wright & Son's Drug Store, and they have acted as a tonic to my kidneys. The first symptoms of kidney complaint in my case was a sharp, shooting pain across the small of my back which made it almost impossible for me to lie down. Someone advised me to give Doan's Kidney Pills a trial and I did so. After I had taken this remedy a short time, my pains and aches disappeared and gravel that had been a source of constant suffering, no longer troubled me. In fact I felt like a different person, I have since recommended Doan's Kidney Pills to a number of my friends and shall continue to do so."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no ther.

The Secret Terror

The haunting fear of sickness and helplessness is the secret terror of the working man. Health is his capital. Kidney diseases sap a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Sold by all druggists of Tecumseh.

Foils a Foul Plot.

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr. King's New Life Pills, and end such abuse of your system. They gently compel right action of the stomach, liver and bowels, and restore your health and all good feelings. 25c at C. A. Wright & Son's.

Dr. Wm. Sadler, author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey and Tar Coompound is a reliable household medicine for coughs and colds, equally effective for children and forgrown persons. Take it when you feel a cold coming on It will avert danger of serious results and cure quickly. No harmful drugs, Sold by all druggists of Tecumseh.

MICHIGAN STATE NEWS.

KALAMAZOO—Kalamazoo police officers were greatly amazed when they learned that "Whitey" Black, known also as "Whitey" Prevert, would secure his release from the asylum for criminal insane at Ionia. Black was sent up to Marquette prison from this city fifteen years ago for assisting in robbing the Richland bank. Black played the daring part in the Richland robbery. It was Black who stood in the middle of the street shooting at anyone who appeared and at people as they looked out of the windows after the explosions in the bank took place.

KALAMAZOO—In order to take care of the increased business that will come to the postoffice after the first of the year, Postmaster Colman announced that several new carriers would be appointed to the force and possibly several drivers added. It is believed that the business in the department will be almost doubled by the parcels post law, because Kalamazoo merchants have already planned to do a catalogue business.

LANSING—Governor Chase S. Osborn applied to Governor Dix of New York for a requisition on Frank Wodynaka, wanted in Saginaw for wife desertion and abandonment. The papers were secured by Prosecutor Browne. The chief executive also requested a requisition for Glen Bishop of Kent county from Governor Tener of Pennsylvania. He is wanted for grand larceny. Both men are under arrest.

TRAVERSE CITY—After having been taken into custody here a dozen times or more and then released on account of his age, Shirley Frederich, nine years old, was taken in charge by the police on suspicion of being implicated in several crimes ranging from house-breaking and shoplifting to bicycle stealing. Steps will be taken to place him where he will be compelled to reform.

BATTLE CREEK—Mrs. Mary Pittsford, who is thirty-five years old, has been placed in the county jail, charged with the murder of August Sandusky, a watchman, forty-five years old, who died as a result of bullet wounds inflicted during a quarrel. Jealously probably caused the shooting, which occurred in Sandusky's home, where Mrs. Pittsford was employed as housekeeper.

GRAND RAPIDS—Frequent and undenied rumors prevail in local railroad circles that the Grand Trunk railroad is backing the new Grand Rapids and Kalamazoo interurban road, which it desires as a western Michigan outlet for its Chicago traffic. The roadbed is being built better and straighter than the ordinary interurban road, which adds strength to the report.

A WOMAN'S WISDOM.

The worried mother wakes up to hear her baby's heavy breathing—a little cough—perhaps the croup or whooping cough. She does not want to send for the doctor when perhaps the trouble does not amount to much. Finally she thinks of that medical book her father gave her, The Common Sense Medical Adviser, by R. V. Pierce, M. D. She says "just the thing to find out what is the matter with the little dear." Two million households in this country own one—and it's to be had for only 31c, in stamps—1,000 pages in splendid cloth binding. A good family adviser in any emergency. It is for *either sex*. This is what many women write Dr. Pierce—in respect to his "Favorite Prescription," a remedy which has made thousands of melancholy and miserable women cheerful and happy, by curing the painful womanly diseases which undermine a woman's health and strength.

MRS. ZUBERT AND BABE.

"My desire is to write a few lines to let you know what your valuable medicine has done for me," writes MRS. MARGARET ZUBERT, of 323 S. Bentalon Street, Baltimore, Md. "Before the storck came to our house I was a very sick woman. I wrote you for advice which was kindly given and which made me a different woman in a short time. After taking the first bottle of 'Favorite Prescription' I began improving so that I hardly knew I was in such a condition. I did my own housework—washing and ironing, cooking, sewing, and the worst of all nursed three children who had whooping cough. I hardly knew of the advent ten minutes before—so easy was it. The baby is as fat as a butter-ball. Dr. Pierce's Favorite Prescription is the best medicine for any woman to take when in this condition. I recommend it to all my friends."

IT WAS ONCE HERS

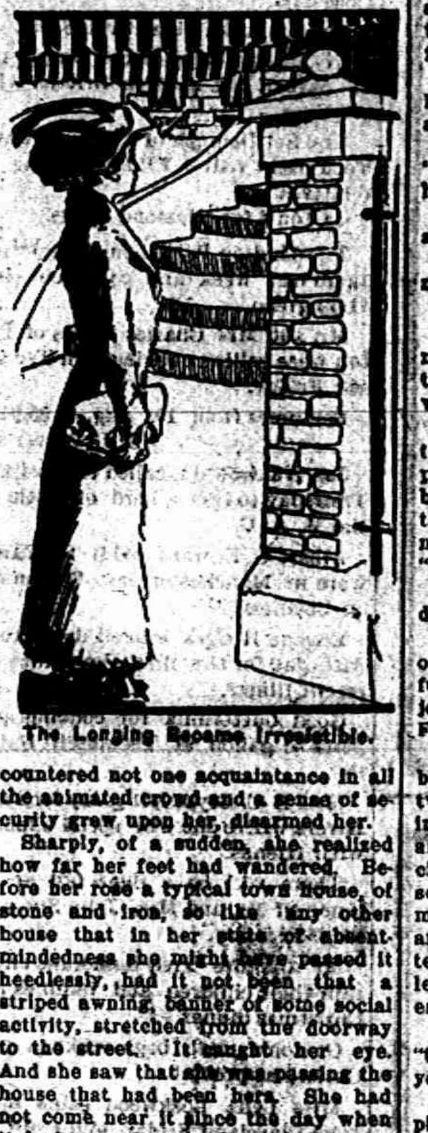
Unbidden Guest in House Once Her Own.

BY EMMEL BEE.

"Who could have expected such a change in a few hours?" thought Mrs. Pennington, loosening the sumptuous fur coat which two years before had cost more than her present annual salary. The coat was warm, the air pulsing with vitality, and as she walked toward the radiant western sunshine, some of its glow penetrated to her heart. "I will walk home," she said to herself, with an unconscious grimace toward a passing trolley car already crowded. "I ought to walk more, since that is an exercise which not merely costs nothing, but is economical. Isn't it funny that carfare is something to be saved!"

There was but one pleasant route by which to reach her destination, a small room on the top floor of a boarding house, and that was by way of Fifth avenue, a thoroughfare which she usually avoided. Today she entered it courageously. Suppose she might meet some one who would remember and recognize her? She could endure the pang of being spoken by an old-time acquaintance. However, she sighed and then smiled—she had learned to smile bravely—there were more who remembered yet failed to recognize. Once a woman whom she had entertained, one of a troop who had passed as friends, had caught her eye and carelessly looked away. Words could not have said more plainly: "You are no longer one of us—why bother about knowing you?" Mrs. Pennington had been bewildered, frightened, indescribably hurt, and after that day had shunned every haunt of her former life. Even the two or three true friends still surviving from it she saw but seldom, preferring not to accept hospitality which she could not return, and scorning the fringe of a social fabric of which she had once been a shining thread.

But today some sweet indifference to the "slings of fortune" carried her past the old familiar places. She encountered not one acquaintance in all the animated crowd and a sense of security grew upon her, disarmed her.



The Longing Became Irresistible.

Sharply, of a sudden, she realized how far her feet had wandered. Before her rose a typical town house, of stone and iron, so like any other house that in her state of absentmindedness she might have passed it heedlessly, had it not been that a striped awning, banner of some social activity, stretched from the doorway to the street. It caught her eye. And she saw that she was passing the house that had been hers. She had not come near it since the day when it had ceased to be her dwelling.

It seemed to her that she turned into a living ache. With her eyes fixed upon a distant point, she forced her way for some hundred feet until the pain had gone, and except for a heavily beating heart, she was herself again.

To that house had she come, a bride expectant of the joy of living. In that house had she lived all of her wedded life. There had she ostensibly ruled in the midst of luxury. And there, for seven years she had striven to hide from the keen eyes of the world the horror of her marriage, living with feverish gayety in a gay set, smiling in public upon her husband, shielding him, dreading him.

It had been a place of bitter disillusionment, and yet a great longing crept upon her to go back to the house, her house, to enter its door once more, to behold what manner of people were in possession now, to stand again in her rooms. Would they be greatly changed? The building had been sold with all its furnishings; perhaps these were still much as she had left them. The longing became irresistible. Slowly she retraced her steps. People were coming and going at the house; apparently it was nothing more formidable than somebody's "at home."

With remarkable calm she entered. If necessary, she could explain to the hostess who she was and what had impelled her to come.

She heard her name announced. She moved toward the hostess who was repeating charming sentences to several women at once, and who clasped her hand with partial attention and a smile which detained the unbidden guest scarcely a dozen seconds. In another moment Mrs. Pennington was moving among the throng.

What she could see of the place showed little change. Evidently the newcomers had been satisfied with her taste. There was a pretty girl pouring tea from a Sheffield pot which had been an heirloom in her family, at a table which had been a wedding gift. She accepted a cup of tea. As she had expected, the spoon was from her silver; they had changed the monogram. It was almost stupefying to look about the room to see all these strangers in her rooms. In absurd resentment she glanced toward the hostess, just in time to catch a perturbed gleam in the lady's eye.

Without being able to hear a word of what she was saying to someone whose glance was also toward Mrs. Pennington, the latter knew she was suspected. Until that instant she had fancied herself ready to come forward with ready grace and explain. At that instant she felt every social instinct and acquirement desert her. In the presence of all the silent symbols of her old life she was unnerved.

She droped into a chair, her cheeks guiltily crimson, wondering what might be about to happen, feeling perfectly powerless to cope with whatever might be. As she seated herself, the chair moved slightly, brushing against a gentleman who had been standing with his back toward it. He turned quickly, glanced at the occupant who was oblivious to him, and stared.

In another moment he was exclaiming in a voice low and moved by some agitation. "Mrs. Pennington! Of all wonders!"

She looked up, with a rush of gratitude for salvation, to see the one man in the world whom she had forbidden to see her. There he was, fastidious of dress as ever, clear-skinned, cleareyed, holding out a strong, kind hand.

"Mr. Blunt!" she answered, scarcely above her breath.

"Where have you been hiding?" he exclaimed. "People have forgotten that you are alive—all but me."

She smiled. "I work for my living now, which means that I am not for society, nor society for me. I work in an office. I was on my way home when, quite accidentally, I dropped in here."

"In an office!" he repeated, amazed. "You, Mrs. Pennington! But—how fortunate for me—I didn't know you knew the Barbers."

"I don't," she replied, and to his amusement accounted for her presence. "I think you have saved me from ejectment," she concluded. "I know they were doubtful of me."

For a moment he could not trust himself to speak. Then, "I don't come here often—because of the associations. There are associations for me, too." He was looking straight at her and she could not meet his eyes. Mrs. Pennington remembered their last meeting. He had chanced to come upon herself and her husband during a wretched scene. Chivalry had prompted him to her defense. All involuntarily her eyes had answered with gratitude. Pity on his part had been succeeded by a deeper feeling. Once he betrayed this, and she sent him from her presence. With a white face, he had accepted the rebuke and never erred again. In her great misery she had been able to forget him, to forget that she longed sometimes to see him.

"You were unkind once," he said in a low tone. "I do not wonder. But in the time that has passed, have you forgiven me?"

She was silent, and he added, "Perhaps you have not thought of me at all?"

"I have thought of you," she said, "as a memory that I would not relinquish."

"Think of me, not as memory, but as a man."

She smiled. "It is all a memory now, my former life and associations."

"But it may become reality again."

She rose. "I must go. Dinner at my boarding house is served at six-thirty, and who comes late fares the worse."

He moved with her toward the hostess whose perplexity, as she spoke a parting word, was not wholly hidden by smiles. "You are sure to be late this evening," he said, as Mrs. Pennington was about to withdraw. "Won't you dine with me?"

She hesitated, murmured her address and fled.

With what grief had she viewed her old home, with what longing and wistfulness entered it, and now with what joy she was speeding from it! Surely Fate had led her steps that day.

That night she dined in a fashionable restaurant for the first time in two years, wearing a wonderful gown imported from Paris two years before and never worn. She ate the deliciously prepared food, perfectly served, listened to subdued strains of music. The ease of it enveloped her and the time of struggling was forgotten. Through the enchanted hour she learned, moment by moment, that her escort was her lover.

"Will you come back," he asked, "to the life in which you belong? Will you come with me—my wife?"

Her lips were tremulous with happiness. "Ask if I will enter Paradise," she said.

The red-haired girl was being teased about the color of her hair.

"My hair is not red," she said indignantly; "it is burnished gold."

"Really!" said her best friend. "What carat?"

SOL SMITH'S STAGE DEBUT

As the Body of King Henry in the Play "Richard III." He Didn't Make a Hit.

Sol Smith used often to tell of his adventures when as a boy he first invaded the theater, according to the Green Book. On one occasion he contrived to make his way behind the scenes and unperceived hid himself in a large box, which he found in the carpenter's gallery, and closed the lid. For more than an hour he lay concealed, waiting for the curtain to go up. When it did he was delighted to find that by lifting the cover of the box he could see all that was going on below. The play was "Richard III," and all went well till the second act, when he heard four or five men making their way directly to his hiding place.

Sol had barely time to close the lid when they took up the box and profanely remarking on its great weight, proceeded to take King Henry's coffin downstairs. Upon the stage they went, followed by Lady Anne and the troupe of mourners. She lamented loudly and Sol perspired in secret. Through all the famous courting scene he managed to keep quiet, but as the live corpse was carried "to Whitefriars" and upstairs again the awkward supers turned and tumbled and tipped the coffined majesty so that they injured him severely and he cried out. The passage was dark; the bearer were frightened and, dropping their precious burden, gave Sol a chance to slip out of his coffin and into the street.

The intelligent auxiliaries were certain there was a ghost in the box and Smith, with a keen appreciation of the necessity for a dramatic ending for the story, solemnly asserted that the four supers never entered the playhouse again, but immediately joined the church and one of them became a famous preacher, whose special hobby was the sin of theater going, against which he assured his hearers he had, when a young man, a most mysterious and supernatural warning.

Nebraskan Visits His Son in Washington and Before Leaving for Miami, Fla., Expresses Himself Forcibly on Baseless Newspaper Yarns and Empty Gossip.

Wasington, Dec. 23.—William Jennings Bryan after being the guest of his son, William J. Bryan, Jr., in Washington, where young Mr. Bryan is a student in Georgetown university law school, left for Miami, Fla.

Mr. Bryan was manifestly annoyed by a story printed in some of the papers that he had asked President-Elect Wilson to appoint him secretary of the treasury and would be satisfied with nothing else. This article purported to quote from the letter written by a friend of Mr. Bryan in Lincoln.

Annoyed by Idle Rumor.

"I do not intend to be annoyed by more idle rumors," said Mr. Bryan, but it was evident from the way he spoke that he was annoyed by the latest one. "Whenever you have any written statement made by anyone that is worth answering I will be glad to answer it, but you need not come to me with rumors about what some 'friend' has said or written."

Mr. Bryan complained bitterly to some of his friends while here about the treatment he was receiving at the hands of some of the newspapers. He referred to a recent statement published in some of the newspapers that he had taken an option on a suite of rooms in a big office building here and would publish his newspaper here and direct a propaganda from Washington. Mr. Bryan declared there was a veiled intimation in the story that he was coming to Washington to establish himself with the object of trying to coerce the Democrats in congress or the administration. He said there was no truth in the statement that he had made any such plans.

May Be Secretary of State.

A few men in congress, who are very close to Mr. Bryan, confirmed what he said in refutation of the story that he desires to be secretary of the treasury. These men are all agreed that Mr. Bryan will be secretary of state in the cabinet of Mr. Wilson. One senator said that Mr. Bryan could probably have had the secretaryship of the treasury if he had desired it. He said that Mr. Bryan had once remarked that while he might like to be secretary of the treasury for the opportunity it would give him to carry out some of his ideas of government, he declared at the same time that his nomination for that office would probably precipitate a panic and for that very reason he would not desire the place.

EARTHQUAKE AT REGGIO

Italian City Is Shaken Violently—Destroyed in 1908.

Messina, Dec. 23.—There was a violent earthquake here and at Reggio Di Calabria at 2 a. m. The people are panic stricken and are camping outdoors.

The shock was very severe at Reggio, which, if it had been rebuilt after the last great earthquake would probably be now in ruins, but the inhabitants are still living in the temporary wooden huts and were uninjured.

Reggio, which is across the straits from Messina, was practically destroyed in the great earthquake of Dec. 28, 1908. Out of a population of [illegible] in the city of Reggio some 7,000 lost their lives and in the province of Reggio 15,000 out of a population of [illegible] perished.

FIREBUG SHOOTS PURSUERS

Nineteen-Year-Old Boy Terrorizes Colony Near Vandalia.

Vandalia, Ill., Dec. 23.—James Jackson, nineteen years old, terrorized the Jympsum neighborhood, twelve miles north of Vandalia, when he set fire to two houses, one belonging to his mother and the other to his grandmother, and shot and wounded six of his pursuers.

Constable Carroll and posse finally captured Jackson near the last house he burned. He was in a dazed condition and his clothes almost burned off. Jackson was brought to Vandalia. He is in a serious condition.

Rebuked, Boy Slays Man.

Morris, Minn., Dec. 23.—That Olaf Christopherson, aged seventeen, has confessed the killing of Rev. John Oling of Donnelly, is the statement of officials of Stevens county. "When he said, 'son, you're not earning your board,' why, I just up and shot him dead," are the words attributed to the lad.

Many Die in Theater Fire.

Brussels, Belgium, Dec. 23.—Fire destroyed the leading moving picture theater here; many were killed, ten bodies so far having been recovered.

SWALLOWED WHISTLE BLOWS

Instrument Lodges in Throat, and Every Breath Plays It.

Rushville, Ind., Dec. 23.—Ralph Johnson, fourteen years old, son of Mrs. Mollie Johnson of Milroy, swallowed a whistle and every time he breathed the whistle blew.

Milroy physicians feared the whistle had lodged in the boy's windpipe and that he would choke to death. He was brought here in an automobile to be examined by a specialist, but before he arrived the whistle had passed into the stomach.

The whistle was an ordinary referee's whistle such as is used in football games. The top of it came off when the youngster had it in his mouth.

BRYAN PAYS A VISIT TO PRESIDENT-ELECT

Long-Expected Conference Held in Trenton, N. J.

Trenton, N. J., Dec. 23.—William J. Bryan reached Trenton for the long-expected conference with President-elect Wilson. Speaker Champ Clark will visit Governor Wilson next Tuesday. Governor Wilson telegraphed Representative Underwood and was waiting to hear fom him as to a convenient date for a conference.

Senators O'Gorman, Hoke Smith, Gore and other prominent Democratic leaders also will be here for conferences.

Whether Mr. Bryan or any of the prominent Democrats being mentioned for places in the cabinet will be appointed probably will not be definitely known until a few days before inauguration day. Governor Wilson said that very likely he would not make a single announcement of important until about March 1.

TAFT SEES GOOD TIMES

Predicts Era of Prosperity Under Democratic Administration.

St. Augustina, Fla., Dec. 23.—President Taft in a speech here congratulated the south upon the election of a Democratic president, and predicted nation-wide prosperity under the new administration. The president spoke in the Masonic Temple and frequently was interrupted by applause. He closed with a remark that caused general laughter.

"The only sorrow I have," he said, "is the thought that there will break in upon the people, and some individuals, the fact that there are not enough offices to go around.'

SIX SUSPECTS TAKEN IN JEWEL HOMICIDE

Chicago Police Capture Four Men and Two Women.

Chicago, Dec. 23.—Four men and two women are under arrest charged with the brutal murder of J. H. Logue, diamond merchant in the McVicker's building, and also are suspected of nearly all of the daring safe blowings and automobile robberies and murders that have taken place in Chicago in the last ten days.

Property valued at thousands of dollars has been recovered. It includes revolvers, 500 bullets, razors, drills, saws, masks, powder, dynamite, or, as the police say, anything required to commit any crime that was ever known in the United States.

The pisoners are:

Clyde Stratton, said to be an escaped convict from Ohio penitentiary.

Mrs. Johnson, said to be the wife of a man named Johnson, who is serving twenty years in prison for safe robbery. Mrs. Johnson is said to have posed as Stratton's wife.

H. B. Hampton, declared by the police to be a yeggman with many aliases.

Mrs. H. B. Hapton.

Frank Williams, said by the police to have a prison record.

Automobile chauffeur, whose identity the police refuse to reveal; detectives say they have evidence that this chauffeur drove the men around nights when the robberies were committed.

All of the prisoners were captured in a flat at 4436 Clifton avenue in the heart of the Wilson avenue district.

FURNESS LINER SINKS AT SEA

Twenty-Two Sailors, Including Captain, Are Drowned.

FIVE SAILORS ARE SURVIVORS

Fated Ship, Bound from Halifax to St. Johns, N. F., Springs Leak and Is Unable to Round Cape Race—Only One Lifeboat Lowered as Ocean Claims Its Prey.

Montreal, Que., Dec. 23.—The Furness liner Florence was wrecked near Cape Race Friday morning, and twenty-two sailors, including the captain, drowned. The Florence was bound from Halifax to St. Johns, N. F., and after touching there was to have proceeded to Liverpool.

She put out from Halifax in rough weather and had sprung a leak before nearing Cape Race, taking in enough water to cause her to labor in the heavy seas encountered, but no danger was anticipated, Captain Barr being of the opinion, so the survivors state, that on St. Johns being reached the damage could be speedily repaired.

Captain Takes Only Course.

Late Thursday night the seas became more heavy and the Florence showed a tendency to become unmanageable, but the effort to round Cape Race and make for St. Johns was the only course open to the captain, as it would have been unsafe to head the steamer about in view of the heavy cross seas and her damaged condition.

Early Friday morning the water in the hold gained steadily in spite of all the pumps could do and finally the water made such headway that it was seen the vessel could not last much longer and Captain Barr ordered the lifeboats to be lowered, after being hastily provisioned. One lifeboat was launched, in which were the second mate and four other sailors. The second mate noticed an enormous wave coming and cast adrift just in eime to avoid being pooped, after which he was driven by the force of the storm away from the vessel. The wave in question broke right over the Florence, sweeping her from stem to stern, and the survivors think some must have been washed overboard, for they distinctly heard a loud cry above the raging of the storm. No attempt was made, so far as they could see, to launch a second boat, but the Florence rapidly settled and within half an hour foundered.

Survivors Drift for Two Days.

The boat with the survivors was kept head on to the wind and sea, the men in her remaining adrift for two days with but little idea as to their whereabouts. Finally they were sighted by chance by a small steamer bound for St. Johns and were brought to that port in an exhausted condition and taken to the local hospital, where every attention is being paid them. The remainder of the crew, twenty-two in all including the captain, have, it is not doubted, all been lost. There were no passengers on board.

Joke Leads to Penitentiary.

Kansas City, Mo., Dec. 23. — Mrs. Mabel Benson of White Water, Kan., was sentenced to five years in the penitentiary because she forged a $45 check on a dare offered by her sister-in-law. Mrs. Benson's husband, Joseph Benson, is a civil engineer. She has two small children.

Gives Blood to Save Twin.

Orion, Ill., Dec. 23.—Ten surgeons were present when Don Wright gave of his blood to his twin brother, Arthur, in order to save the latter's life.

Chicago Trial Board Officials Plan Drastic Action.

UNITED POLICE ARE DEFIANT

Refuse to Reveal Secrets of Organization—Civil Service Board Seeks Details of an Alleged $50,000 "Slush" Fund Which Is Supposed to Have Disappeared Recently.

Chicago, Dec. 23.—Aroused by the defiant attitude of the members of the United Police, who refuse to reveal secrets of that organization, the city civil service commission has determined to take drastic steps intended to uncover details of the alleged $50,000 "slush" fund.

Edward Drennan, recording secretary of the police organization, who is no longer a member of the department, telephoned to Commissioner Elton Lower that he would not appear when summoned as a witness. Attorney Michael J. Ryan for the United Police refused to answer questions of the commission when called as a witness.

Deny Knowledge of Fund.

Other officials who were called to the stand were Patrick E. Dwyer, president; Frank N. Lasser, vice president; Frank T. Ford, financial secretary, and Matthew J. Hoff, treasurer.

All denied knowledge of a "slush" fund collected by an assessment of $20 on each policeman. The funds are supposed to have disappeared with the disappearance of William F. Stine, former head of the organization.

Assistant Corporation Counsel Hornstein said a court order would be asked to force the witnesses to testify.

DIES AS HOME BURNS

Pana, Ill., Man Stricken with Heart Disease at Fire.

Springfield, Ill., Dec. 23.—W. L. Cohenour, a prominent citizen of Pana, Ill., who had served several terms as a member of the board of supervisors of Christian county, died of heart trouble after having done all that he could, with the help of neighbors and friends, to save his burning home.

The fire had gained big headway when discovered, and the house was destroyed with a total loss estimated at $10,000. Mrs. Cohenour is in a serious condition from the shock and grief of her loss, and is not expected to live.

GEN. SICKLES' SON TO REPAY

Stanton Sickles Agrees to Make Good $28,000 Trust Fund.

Albany, N. Y., Dec. 23. — Stanton Sickles, son of General Daniel E. Sickles of New York, promised to see the state is reimbursed for all funds unaccounted for by his father as chairman of the New York state monument commission, totaling about $28,000.

At the conclusion of a half hour's conference between Deputy Attorney General Kellogg and young Mr. Sickles, it was announced that an agreement had been reached for the postponement of legal proceedings on the part of the state to recover the money.

Six May Be Drowned in Blizzard.

Dunkirk, N. Y., Dec. 23.—A tug belonging to the Desmond fishing fleet, with six men aboard, was caught in a blizzard three miles out and is believed to have foundered.

The Domestic Science Stove

THE recreation hours oftentimes teach valuable lessons. It is during these hours that things are done the easiest way, and thus you learn many labor saving methods good for every day use.

The electric grill not only adds ease to the fun of making fudge or cosiness to the impromptu luncheon, but it also teaches the most important lesson in domestic science—how to cook in the easiest, cleanest and least expensive way.

Anything you wish can be quickly cooked by it. You can grill, boil, fry, toast, stew and bake griddle cakes—all on the dining room table or on the little table in your own boudoir.

UNDER APPLE TREE IN OLD ORCHARD

Trespasser Was Not One of the "Seven Sleepers."

By CATHERINE COOPE.

Joan sped down through the riot of flowers to the foot of the garden path; there, she stopped to catch her breath before continuing on through the hawthorn lanes that led to the fruit orchard. Her wide garden hat had slipped from its nest of spun gold ringlets and her heart beat joyously with the pulse of spring.

She stood for a moment poised under the old ivy-covered arch that admitted her to the orchard and drew in long breaths of delight. The great gnarled trees were weighted with blossoms and the air was heavy with the sweetness of their perfume.

Joan made a swift dart and with the agility of a squirrel climbed into the topmost branches of her favorite tree. There she sighed happily, then laughed at the shower of pink and white petals that her ascent brought down.

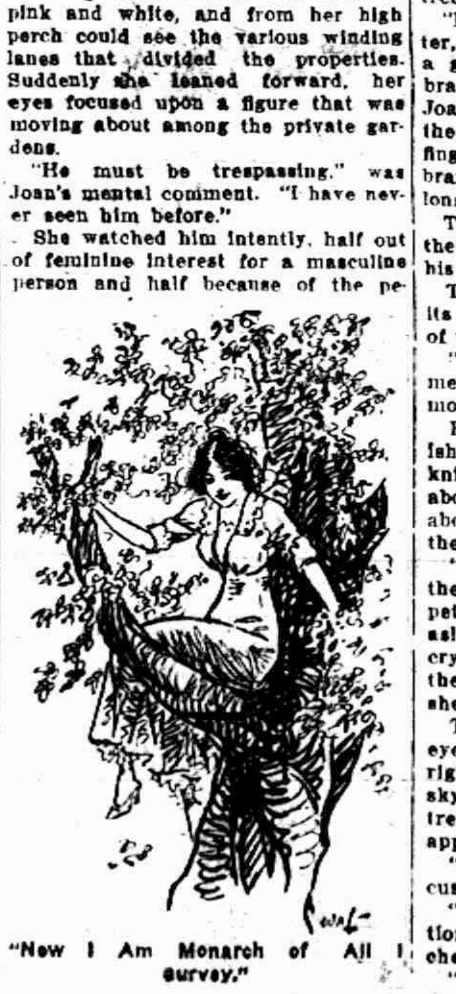
"Now I am monarch of all I survey," she told herself gleefully, and settled herself in the secure seat the gardener had made for her.

Because their orchard was only a sixteenth part of the original orchard that had been the pride of the onetime Lamberth estate, it was not walled in, but merely inclosed by hawthorn hedges. Joan regretted that necessity had called for a division of the property, yet she rejoiced that the lot which her grandmother had purchased possessed the most beautiful tree in the entire orchard.

She gazed out over the vista of pink and white, and from her high perch could see the various winding lanes that divided the properties. Suddenly she leaned forward, her eyes focused upon a figure that was moving about among the private gardens.

"He must be trespassing," was Joan's mental comment. "I have never seen him before."

She watched him intently, half out of feminine interest for a masculine person and half because of the peculiar actions of the man. He stood quite still for moments at a time, apparently gazing at the wonder of the orchard, but suddenly he would dart toward a specific tree and make numerous circuits about its base.



"Now I Am Monarch of All I survey."

Joan began to fear for his sanity and for her own safety. Certainly his actions were not those of an evenly balanced man. She felt reasonably sure that neither an insane nor a sane man would catch sight of her in her bower of thick foliage, but her heart beat rapidly.

"You never can tell," she told herself "what any man is likely to see."

With considerable trepidation she watched the man drawing gradually nearer and nearer to her retreat. Would he or would he not venture within her grandmother's private orchard? Joan felt reasonably sure now that the trespasser was mentally unbalanced.

"He is coming in!" Joan caught a sharp breath and drew up into the branches of her tree. He seemed to catch sight of the great tree the moment he stood within the arch and made straight for it. As he came forward, Joan again drew a quick breath. The man was undoubtedly good to look at and his shoulders were big and broad. He had taken off his cap and the sun shone on a head of thick, red-brown hair. Joan's grandmother had a miniature of a man with just such a head of hair.

The girl in the tree-top sighed, partly because she felt a strong desire to drop twigs down on the good-looking young fellow whose wanderings had brought him into her garden.

"But I do not dare," she told herself and realized that her fear of the man had vanished. "I suppose his eyes are brown," Joan decided. She leaned forward cautiously and watched him prowling about the foot of the tree. Suddenly he threw himself down on the wide bench that encircled the tree.

"Discovered!" she heard him mutter, and peered down to see him draw a great knife from his pocket. He brandished it about and the blood in Joan's veins stood still. He opened the evil-looking blade and ran his finger along it. Joan gripped the branches to keep from tumbling headlong out of the tree.

The man was silent for a moment, then he began very calmly to carve his initials in the bark of the tree.

The blood in Joan's veins took up its course and she drew a long breath of relief.

"Rather nervy, however," she commented, forgetting that her grandmother abominated slang.

Evidently the young man had finished his carving for he returned his knife to his pocket and cast a glance about the orchard. Seeing no one about, he threw himself full length on the soft turf and prepared for a nap.

"I certainly hope he is not one of the seven sleepers," Joan thought petulantly, "my left foot is already asleep—Oh-h!" She uttered a half cry and tried to drag her foot from the crutch of the branch into which she had pressed it.

The young man below blinked his eyes in the sunlight, then sat bolt upright. His eyes, blue as the summer sky, gazed up into the branches of the tree as if an apparition had suddenly appeared.

"My foot is caught," cried Joan, accusingly, "and you did it!"

"I!" The man's breathless ejaculation brought the color to Joan's cheeks. She frowned.

"Besides," he continued. "you have been trespassing for the last half hour."

A slow smile dawned in the man's eyes, as if he were glad that he had been watched for so long a time. Joan blushed furiously at herself, then retreated behind a mask of light fabrication. "I suppose you were going to take some of the apple blossoms for a wedding or something—so I kept my eye on you," she finished, lamely.

"Not both eyes?" he questioned, with a merry look. He was suddenly serious. "But this is not getting your foot out of the branches of my grandfather's tree." He climbed up with a quick movement and placed himself beside her before Joan could gasp indignantly:

"Your grandfather's tree, indeed! It is my very own grandmother's tree and she did all her courting under it on that very branch," Joan informed the young man's back, "but she didn't marry the man."

He turned about, having extricated her ankle from the crutch and gazed back at her.

"In that case," he informed her, "it was your grandmother who jilted my grandfather because he lost all his money and had to sell the Lambreth estate."

"She did no such thing," retorted Joan. "She gazes at his minature every day in this world." She cast a quick glance at him. "I know now," she exclaimed, "you look exactly like that miniature."

"My grandfather was very handsome," laughed young Lambreth; then growing serious again, he continued: "When he sent me to England he told me very particularly to look for this tree, which he said bore the best apples in the whole orchard, also to look closely to see his initials carved with those of the only girl he ever loved."

"When the estate was cut up into building lots," said Joan, taking up the thread of the story, "my grandmother made a bid for this especial piece because it had that tree on it."

"I have carved my initials on it," said Lambreth, "and they look a bit lonesome." His eyes met her appealingly.

"We will go in now and have tea and a proper introduction from my grandmother, and after that we will discuss whose initials would look well entwined with yours."

"That discussion will be short. Come," he said, "give me your hands —I want to help you down from the apple blossoms."

Artistic Envelope Linings.

Casting about him for some new object to decorate, the imp of extravagance has hit upon the lining of envelopes and turned out a most artistic piece of work. Envelopes lined with colored paper have long been in common use on the continent of Europe, but never before found favor in America. These new envelopes are lined with satin, the part which is exposed on tearing them open being handpainted with flowers. The work is done by deft Japanese artists and—is it necessary to say?—they are expensive.

His Catch.

A man with a fishing pole sat on the river bank near the Atchison waterworks intake. "How many have you caught?" some one asked him. "When I get another I'll have one," he replied.—Kansas City Star.

CHRISTMAS PARTY

The Christmas party given Christmas night, under the auspices of the Young Men's club, deserves most special mention as being one of the prettiest parties of the season. The hall was beautifully decorated in greens with a fine snowfall making them most beautiful, Christmas bells and other red decorations.

There was a fine attendance and under the inspiring music of Service's orchestra the young people "tripped the light fantastic toe" until a late hour. The orchestra was certainly fine, each member was an artist along his special line and the combined harmony was most exquisite. The fact that the musicians were our own Tecumseh boys made it all the more appreciable.

This Club has given several entertainments this season and deserve much credit for the good things they have given the public and this party was among the best.

Refreshments were served in the Young Men's Club room with Mrs. Alex Reed as caterer which was sure proof that everything was perfect.

CHRISTMAS DINNER PARTY

Mr, and Mrs. A. Dewey entertained friends at dinner—Christmas day. Covers were laid for 16 and a five course dinner was served. Among them were Mr. and Mrs. Clarence Witherell Mrs. and Mrs. G. H Tansley. Alma and Glenn, Fred Bailey, Mr. and Mrs. VanDusen of Detroit, Miss Bernice Colbath of Hudson, Harry Dewey of Plymouth, Ind.

A very pleasant day was spent and before the guests departed light refreshments were served.

QUEEN TO VISIT MONKS

Olga of Greece Will Break Ban Lasting 1,500 Years.

VIENNA, ITALY—The Neues Tagblatt's Athens correspondent says Queen Olgo of Greece intends to visit twenty-one monasteries on Mount Athos, eighty miles southeast of Saloniki, thus breaking the rule prohibiting women to visit the sacred mountain, which has been strictly observed for 1,500 years.

"The monks on the mountain," continues the correspondent, "on many occasions have refused to permit royal ladies to visit them, always excusing themselves behind the legend that the Virgin Mary with her infant Christ visited the mountain and that no woman had been allowed to do so since.

"Now that the Greeks have conquered the territory and the king and queen proposed a visit to the mountain, the monks summoned their council and decided that they had no course but to rescind the rule."

JOHNSON AMONG WEALTHY

Black Champion Said to Have Bought Bungalow at Lake Geneva.

Chicago, Dec. 21. — Jack Johnson, champion heavyweight pugilist of the world, has purchased the bungalow of the late Helen M. Sherman as a present for his new wife, Lucille Cameron. The place is one of the beauty spots of the Lake Geneva district. It is built on the most commanding point on the lake shore and is between the residence of Henry J. Evans, director of the National Biscuit company, and a dozen other large enterprises, and the home of Julian Rumsey. Not far away is the summer home of John J. Mitchell, president of the Illinois Trust and Savings bank.

Johnson paid $35,000 for the property, it is said, making the purchase from the Sherman estate without his identity becoming known.

The Even Heat Makes All Rooms Comfortable

Cole's Original Hot Blast Heater is so perfect in construction that fire and heat keeps all night, even with cheapest soft coal. When the draft is opened in the morning the fuel put in the night before will burn for two or three hours.

No other stove will give these results—fire never goes out and the rooms are kept at even temperature day and night.

COLE'S HOT BLAST—for Hard Coal—SAVES HALF

The perfect control of the drafts, the slow economical combustion and the large, sensitive, radiating surface makes it the most economical and best Hard Coal stove made.

Cole's Hot Blast is the modern heater and will save its cost in fuel every winter. Burns Soft Coal, Slack, Lignite, Hard Coal, Wood and lighter fuel.

Select the size you want now while stock is complete.

Price $12.60 and upward according to style and size.

Special arrangements have been made with the management of the "Mutt & Jeff" company coming to the Bradley Opera House, Dec. 30, to sell 25c tickets for children under 12 years of age. These tickets are not reserved but will be on sale at Hay's Bakery in order to avoid the crowd buying tickets the night of the show. These arrangements are made in nearly all the places where the attraction plays and is done in order to give the children a chance to see this big musical comedy and still not have to buy their tickets at the Opera House. The 25c tickets will be on sale there however for parties who cannot get theirs earlier. Remember these seats are not reserved.

AMUSEMENT

MUTT & JEFF

"Mutt and Jeff" the musical sensation of the age and the most talked of show of the year will be the attraction at the Bradley Opera House, next Monday evening December 30.

"Mutt and Jeff" is taken from Bud Fisher's world famous cartoons and added to that a carload of special scenery and a company of over 40 people and wonderful electrical effects and you have the production complete that has set the whole world of theatre going people talking. Where ever this great drawing card has been playing theatres don't seem to be large enough to accomodate the masses that have tried to see these two funny fellows.

Nothing produced in years as good as "Mutt and Jeff." The most gorgeous scenic and costumed production of the age. One big laugh which continues for two and a half hours. The costumes worn by the ladies of the "Mutt and Jeff" company are the most gorgeous gowns exhibited on the American stage.

Three acts full of pretty girls, catchy songs, novel dances and special scenery and effects. Willett's orchestra of Adrian are engaged to furnish the music. You know what that means. Seats are now selling fast—get yours early.

CHRISTMAS EXERCISES

Raisin Fractional District No. 1 west of town, under the management of Lawrence Welch teacher gave a fine Christmas entertainment at the close of the school for the holiday vacation.

A fireplace and Santa Claus were the most prominent features and the presents for each one gave most unbouded pleasure. A very interesting program was also given, which reflected much credit on Mr. Welch showing his painstaking work in giving only the best.

The friends and neighbors who visited his school on this occasion are loud in their praise of the happy occasion.

Tecumseh People Credit Where Credit is Due

People of Tecumseh who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Tecumseh people. Here's a case: Mrs. C Stevenson, Wyandotte & E. Potawatamie Sts., Tecumseh, Mich., says; "I cannot say too much in praise of Doan's Kidney Pills in return for the great benefit they gave me. I never used another remedy that did me so much good. Since 1906, I have taken Doan's Kidney Pills on several occasions, getting my supply at Wright & Son's Drug Store, and they have acted as a tonic to my kidneys. The first symptoms of kidney complaint in my case was a sharp, shooting pain across the small of my back which made it almost impossible for me to lie down. Someone advised me to give Doan's Kidney Pills a trial and I did so. After I had taken this remedy a short time, my pains and aches disappeared and gravel that had been a source of constant suffering, no longer troubled me. In fact, I felt like a different person, I have since recommended Doan's Kidney Pills to a number of my friends and shall continue to do so."

The Secret Terror

The haunting fear of sickness and helplessness is the secret terror of the working man. Health is his capital. Kidney diseases sap a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Sold by all druggists of Tecumseh.

Foils a Foul Plot.

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr. King's New Life Pills, and end such abuse of your system. They gently compel right action of the stomach, liver and bowels, and restore your health and all good feelings. 25c at C. A. Wright & Son's.

Dr. Wm. Sadler, author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey and Tar Coompound is a reliable household medicine for coughs and colds, equally effective for children and for grown persons. Take it when you feel a cold coming on. It will avert danger of serious results and cure quickly. No harmful drugs. Sold by all druggists of Tecumseh.

WILL TRY MRS. LUCAS ON CHARGE OF MURDER

Aged Woman Held without Bail In Lansing, Mich.

Lansing, Mich., Dec. 23.—Mrs. Mary Lucas, the aged woman who recently confessed she had caused the death of Mrs. Pauline Fingle, one of her boarders, of whom she was jealous, by giving her poison in a cup of chocolate, and who was suspected by the police of being a rival of Belle Gunness in the art of murder, was bound over without bail to the circuit court to stand trial on a charge of murder.

Mrs. Lucas' confession came after Mrs. Fingle had died in her arms screaming that Mrs. Lucas had poisoned her. The motive lay in her jealousy of John Borena, who told the police he sought to wed Mrs. Lucas. The latter admitted she had given Mrs. Fingle a cup of chocolate containing a large quantity of aconite, and then assumed the attitude of a stoic and refused to give the police more information.

Twenty years ago Mrs. Lucas and her husband were practicing attorneys here. Both disappeared and a few years later Mrs. Lucas returned and informed acquaintances her husband had died suddenly while they were living in the west. The police believe he did not die a natural death. As the result of his death she became the owner of considerable property and ceased the practice of law, but recently she had been living in a squalid apartment.

Guilty In Second Degree.

Buffalo, N. Y., Dec. 23.—After twenty-six hours' deliberation the jury in the case of J. Frank Hickey, on trial for the murder of seven-year-old Joseph Josephs, of Lackawanna, Oct. 12, 1911, brought in a verdict of murder in the second degree.

Wonderful Cures Reported in Germany.

The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. In Germany a new school of physicians has arisen which throws out almost a whole of the pharmacopeia and relies on an adaptation of the method of wild animals in curing themselves. . . . N. Y. World.

It was Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., who first advocated the extended use of some of our native roots, such as: Golden seal and Oregon grape root, mandrake and queen's root, black cherrybark. These are the chief ingredients in Doctor Pierce's Golden Medical Discovery, which has been so well and favorably known for nearly half a century. A harmless cleanser and stomach tonic that nature has provided.

J. D. Matheson, Esq.

J. DONALD MATHESON of Ossining, N. Y. says: "I suffered for over five years with what the doctors told me was disordered condition of the stomach, associated with a catarrhal condition of same, and nervous heart. I had tried enough sur. bismuth, gentian, rhubarb, etc., to float a ship and naturally thought there was no cure for me, but after reading what eminent doctors said of the curative qualities of the ingredients of 'Golden Medical Discovery' I gave it a fair trial. Took the 'Discovery' and also the 'Pleasant Pellets,' and can truthfully say I am feeling better now than I have in years. I cheerfully give permission to print this testimonial, and if any 'doubting Thomas' writes me I will 'put him wise' to the best all-around medicine in the country to-day."

Water and Pine Needles.

When the cold winds blow after the snow falls, the needles on the pine trees that cover the mountains like a great shaggy coat drop off. They protect the snow from the rays of the sun and retain it on the mountainside until well into the summer. When one digs in these forests it is sometimes possible to find as many as ten to fifteen layers of snow and ice between blankets of pine needles from which the water melts slowly and steadily to feed the streams.—Exchange.

AN OUTLAW'S BRIDE

Or the Hunt for the Bad Man of Kalem.

BY DONALD ALLEN.

They said of Mildred Drew that she was a frivolous girl, and now that she was as good as engaged to Stephen Hazleton, they continued to say the same old thing. They did add, however, that Stephen, being three years older and being a conservative young man, would steady her down.

It's nothing against a girl that she is frivolous. It simply means that she refuses to worry about the things that her mother does; that she doesn't want to tie herself up too soon; that she is falling in love with a new chap every week or two to study the male sex; that she is romantic by nature, and refuses to take the world as seriously as others.

Whether folks liked it or not, Miss Mildred went right on being frivolous. She thought a great deal of Stephen Hazleton, but when he started out to lecture her on frivolity she always tossed her head and replied that there were plenty of other good men in the world, and that at exactly ten o'clock the next forenoon she would be found walking the top of the back yard fence.

The evening before Miss Mildred went down to the country to visit her aunt, Mr. Hazleton spoke of having their engagement announced in the papers.

"Why, when were we engaged?" she asked.

"Months ago."

"I never heard of it!"

"But I have asked you to be my wife."

"And I have answered that I didn't know whether I would be or not. No, sir, there is no engagement. I may see some one down in the country that I like better."

Stephen took things very mildly and refused to contest the point that evening, or to be perturbed for the succeeding three days. Then happened what always happens with a conservative young man who has gone along thinking he had a sure thing of it and laughing at would-be rivals. The green-eyed monster clutched him by the throat and he found himself the most wretched man in the state. He did not known until that hour how much he loved the girl. She had denied the engagement that he had looked upon as a settled thing. She was frivolous, but she had spells of being very much in earnest.

"I Am Looking for Some One."

Stephen had asked for a daily letter. He didn't get it. Instead he got one at the end of the week, and its contents did not satisfy his yearnings at all.

"Arrived," read the epistle. "Aunt glad to see me. Dear old soul! Cows, calves, sheep and pigs. Also windmill. Also strawberry shortcakes. Have got two freckles on my nose, and there is an actor boarding at the next farmhouse. I can hit a frog with a stone every time, and hope you are well."

That actor! Who was he? What business had he there? Would he have the cheek to scrape an acquaintanceship with Mildred and flatter her that it was her mission to reform the stage?

He had never heard Mildred say that she would like to become a great actress and give Sarah Barnhardt tips, but throw her into the society of an actor for two weeks and how would it be? And there would be piano men, sewing machine agents and tin peddlers driving around the country in droves.

Mr. Stephen Hazleton stood it for three days and then started out to have matters settled. He did not notify Miss Mildred Drew by letter, telephone or wireless that he was coming. He just threw a few things into a grip and started off. He knew she left the train at a village called Kalem, and in time he reached the place. Only then did it occur to him that he didn't know the aunt's name. He thought Miss Mildred had talked about her Aunt Eliza, but that was no guide to him now. There might be a dozen Aunt Elizas around there.

There had been a sort of reign of terror around Kalem for the last three weeks. Horses had been stolen, houses entered and farmers held up on the highway. The sheriff and constable had been very active, but had accomplished nothing, because they had not looked in the right direction. The editor of the Kalem Weekly said they hadn't, and editors are always right about these things. "Look for some one that no one would suspect," was his advice.

A constable was at the depot when Mr. Hazleton stepped off the train, he being the only passenger to alight. After a look around he leaned up against the depot building.

"Ha!" whispered the constable.

Here was a man that no one would suspect. He was a stranger, and he had an honest look. According to the editor, he should be the outlaw. He didn't seem perturbed at sight of the officer's nickel-plated star, but that was a case of cheek! Indeed, he advanced with a laugh to say:

"I am looking for some one, and don't know the name."

"That's rather funny," replied the officer as he felt to see if his handcuffs were in the usual hind pocket.

"I know it," smiled Stephen. "A young lady of my acquaintance in the city came down here a few days ago to visit her aunt."

"And who is her aunt?"

"That's the very thing I want to find out."

"Humph! How are you going to find out about anybody if you can't tell her name?"

"That's what occurred to me just as I stepped off the train. I think the young lady referred to her relative as Aunt Eliza."

"Well, I don't know any Aunt Elizas nor Uncle Peters."

"No? I think she must live outside the village, as she has cows and pigs. Perhaps my best way will be to take a highway and follow it for two or three miles."

"Unless you think it better to go back to town by the next train!" was the suggestive reply.

Mr. Hazleton had come down to rescue Miss Drew, and he took up his grip and started off.

The constable had found the right man at last, and he was soon in communication with the sheriff.

Mr. Hazleton hadn't reached the first farmhouse outside the village when he found a posse of six men calling upon him to halt and give an account of himself. He could have convinced that gang in ten minutes that he was a respected member of humanity, but what did he do but take to his heels and seek the fields. He was commanded to halt, but his wings grew faster at the command. There were some good runners among his pursuers, but they couldn't overhaul Stephen. The best they could do was to keep him in sight most of the time and to waste many bullets firing at him.

Mr. Hazleton skipped over fences, jumped ditches and flew across vales. Why, he didn't stop to ask himself. Every man of the posse knew why the chase continued, however. They were after the Bad Man of Kalem, and they meant to get him dead or alive.

Even a stern chase and a long chase cannot continue indefinitely.

There came a time when Stephen Hazleton staggered out of a bit of woods and made for a barn about ten rods behind a farm house. The big doors were wide open, and as he wabbled in he bumped against a girl coming out with a dozen or more eggs in her apron.

"Stephen!"

"Mildred!"

"What is it?"

"They—they want to arrest me!"

"Oh, goodie, goodie! How nice! How romantic! Stevie, I'll fight to the death for you and then marry you afterward!"

And Aunt Eliza is a witness to the fact that the posse didn't get Stephen until they first got the eggs, and that when they did get him they apologized handsomely for the mistake.

The actor? Oh, he had come and gone. He found the country too rich for his blood.

Miss Mildred's promise? She kept it. All she had been waiting for was for Stephen to show that he had the makings of an outlaw in him to give a romantic turn to events.

No Place for Him.

He had been very ill, but, on becoming convalescent, the doctor ordered him to Southport. The day following he returned home.

"Why, John," said his wife, "whatever brought you back so soon"

"Eh, lass," he replied; "I couldn't stop there; it's a terrible place!"

"Na, surely, the doctor said—"

"Never mind what he said. I'll tell you what I saw. After I'd gotten lodgings I went for a walk, an' th' first 'lectric car I saw was labeled 'Infirmary,' and it was full of folks an' all; an' by gum! there comes another a minute later labeled 'Cemetery,' so after that I comes home. I'd had enough."

A Hoary City.

The ruins of Macchu Pichu, a city probably built by the Megalithic race, who preceded the Incas, were discovered by Hiram Bingham on his 1911 expedition to Peru. The ruins are on an almost inaccessible ridge, 2,000 feet above the Urubamba river. They are of great beauty and magnificence, and include palaces, baths, temples, and about 150 houses. The huge blocks of white granite, some of them 12 feet long, were so carefully cut that they match perfectly. Though no mortar or cement was used to hold the stones together, the walls have withstood the elements for at least 2,000 years.—The Argonaut.

"Scotched."

An English general was in company where some Scotch gentlemen were present. After supper, when the wine was served up, the general rose and addressed the company in the following words: "Gentlemen, I must inform you that when I get a little too much drink I have an absurd custom of railing against the Scotch; I hope no gentleman in company will take it amiss." With this he sat down.

A Scotch gentleman immediately rose, and, without seeming the least displeased, said: "Gentlemen, I, when I have drunk rather freely, and hear any person railing against the Scotch, have an absurd custom of kicking him out of the company; I hope no gentleman will take it amiss." It is said that on that occasion the Scotchman had no opportunity for the exercise of his talents.

Assurance of Security.

'Tis sweet when the seas are roughened by violent winds to view on land the toils of others; not that there is pleasure in seeing others in distress, but because man is glad to know himself secure. It is pleasant, too, to look with no share of peril on the mighty contests of war; but nothing is sweeter than to reach those calm, undisturbed temples, raised by the wisdom of philosophers, whence thou mayest look down on poor, mistaken mortals, wandering up and down in life's devious ways.—Lucretius II.

New Yorker in the Provinces.

"Don't tell them out in the provinces that you are a New Yorker," remarked an old-time "drummer" to a younger commercial traveler, "or they will stick you half the time. Here's an instance: I was just starting home from a city in the far-west, and a few minutes before train time broke the glass in my watch. There was a watchmaker's shop opposite the station, and I rushed in with a request for hasty repairs, as I was just starting for New York. The watch mechanic looked me over, and apparently sized me up as a New Yorker. He went to his bench, fooled around for a minute or two, snapped the case shut, handed me the timepiece and demanded 50 cents. I poked the watch in my pocket and caught the rear platform as the train rolled out. When I looked at the watch an hour later there was no sign of a crystal in it."—New York Tribune.

BROKAWS WILL AIR MARITAL TROUBLES

Wife of the Millionaire Wants Big Counsel Fees.

New York, Dec. 30.—William Gould Brokaw, millionaire, and his wife, Mrs. Mary Blair Brokaw, soon will air their martial troubles in court in a suit and counter suit for absolute divorces. In each petition three charges of statutory offenses are made, and in each case both parties enter sweeping and emphatic denials.

These facts were disclosed when application for a counsel fee of $16,000 was made to Supreme Court Justice Aspinwall in Brooklyn by Mrs. Brokaw, who says she is tired of being shadowed over Europe and America, and therefore proposes using the counsel fee, if it is allowed, to prosecute a suit for absolute divorce against her husband.

Mr. Brokaw's counsel undertook to show that his wife is better off financially than he, and Justice Aspinwall reserved decision, intimating he would deny or reduce the counsel fee if he found that the defendant's financial condition warranted it.

Mrs. Brokaw now is receiving alimony of $15,000 a year under a separation decree granted by Justice Putman in the supreme court at Mineola two years ago.

He Certainly Had Nerve.

The man is considerable of a bore. He was calling on a girl the other night and had stayed so long that she was somewhat fatigued. About midnight he began to talk about his health.

"I'm not well," he said; "it's just my nerve that is keeping me up."

She couldn't resist the temptation. "That's what's keeping me up, too," she said.

A few minutes later he said he guessed he'd have to go.—New York Telegraph.

TWO LOSE LIVES IN NEWPORT FIRE

Flames Do $200,000 Damage at Watering Place.

Newport, R. I., Dec. 30.—Two persons lost their lives, sixteen families were driven from their homes, ten buildings were completely destroyed, as many more partly damaged, and property damage that will probably amount to between $200,000 and $300,000 is the result of the most distastrous fire that has ever visited this city!

The persons losing their lives were Mr. and Mrs. Frank S. Health, an aged couple, tenants in the old Governor Bull house on Spring street, one of those destroyed. Their charred bodies were found near the rear wall of the house.

The fire, which started evidently from spontaneous combustion among the paints and oils in the George A. Weaver company's big hardware store, was fanned for a time by almost a gale of wind. It spread with great rapidity and it was only with the greatest difficulty that the entire fire department succeeded in checking the flames.

Mortality in War.

War, called by the great Erasmus "the malady of princes," has had so many victims we will never be able to reckon them up. However, it is computed that up to the middle of the nineteenth century no fewer than 6,860,000,000 men perished on the field of battle. In all probability the estimate is under rather than over the mark.

FEDERAL PRISON AWAITS 38 MEN

Convicted Dynamiters to Be Taken to Fort Leavenworth.

TRAIN ON SECRET SCHEDULE

Long Trial in Indianapolis Ends with Wholesale Convictions — All but Two of Defendants Found Guilty—Matter Grew Out of Widespread Campaign of Explosions.

DYNAMITE PLOT VERDICT AND ITS EFFECTS.

Thirty-eight labor union men, including President Frank M. Ryan and Vice President John T. Butler, of the International Association of Bridge and Structural Iron Workers, found guilty in bomb case and may face prosecutions in cases involving explosions, 100 of which were disclosed at Indianapolis trial.

Penalty for convicted men, sentences, either nominal term or of thirty-nine and a half years for each defendant, at discretion of the court.

Thirty families separated and wives cry as convicted men are placed in jail.

Iron workers' union left with only two international officials who are not now in jail.

William J. Burns says he is after men still higher up than those convicted.

Samuel Gompers says he will not comment on verdict now or hereafter.

Frank M. Ryan, in jail says: "Greater men than we have been incarcerated. In olden days they used to cut off the ears of honest men."

Indianapolis, Dec. 30.—The federal prison at Fort Leavenworth, Kan., is to receive all the convicted "dynamite conspirators" who, when Federal Judge Anderson shall have sentenced them, are found to be condemned to terms longer than one year.

A special train will go by a secret route. Details as to its arrival at Leavenworth are not to be made public. It was learned that United States Marshal Edward Schmidt, who will accompany the prisoners, already had prepared for a special train, which will leave as soon as possible after the sentences.

Appeals May Cause Delay.

A delay in the arrangements may be occasioned by appeals which may act as stays on the execution of the court's judgments.

The thirty-eight men found guilty of transporting explosives illegally on passenger trains, endangering life and property, are held in the Indianapolis jail in the meantime.

Thirty-nine and one-half years is the maximum punishment for any one prisoner. It may vary from that maximum to any shorter imprisonment or money fine that the court may wish to impose.

Daniel Buckley of Davenport, Iowa, and Herman G. Seiffert of Milwaukee were acquitted and immediately discharged by Judge Anderson.

List of the Guilty.

Those found guilty, all but one officials or former officials of the iron workers union, are:

Frank M. Ryan, Chicago, John T. Butler, Buffalo, Herbert S. Hockin, Detroit, Olaf A. Tveitmoe, San Francisco, Eugene A. Clancy, San Francisco, Phillip A. Cooley, New Orleans, Michael J. Young, Boston, Frank J. Higgins, Boston, J. E. Munsey, Salt Lake City, Frank C. Webb, New York, Patrick F. Farrell, New York, John H. Barry, St. Louis, Paul J. Morrin, St. Louis, Henry W. Legleitner, Denver, Charles N. Beum, Minneapolis, William F. Reddin, Milwaukee, Michael J. Cunnan, Philadelphia, Richard H. Houlihan, Chicago, James Cooney, Chicago, James H. Coughlin, Chicago, William Shupe, Chicago, Edward Smithe, Peoria, Ill., James E. Ray, Peoria, Ill., Murray L. Pennell, Springfield, Ill., William O. Bernhardt, Cincinnati, Wilford Bert Brown, Kansas City, William J. McCain, Kansas City, Frank K. Painter, Omaha, Peter J. Smith, Cleveland, George Anderson, Cleveland, Michael J. Hannon, Scranton, Pa., Edward E. Phillips, Syracuse, Charles Wachmeister, Detroit, Frank J. Murphy, Detroit, Fred J. Mooney, Duluth, Ernest G. W. Basey, Indianapolis, Fred Sherman, Indianapolis, and Hiram R. Kline, Muncie, Ind., former organizer for the United Brotherhood of Carpenters.

These convictions, coming on a scale unprecedented, in a federal court, were an aftermath of the killing of twenty-one persons in the blowing up of the Los Angeles Times building on Oct. 1, 1910. McNamara and his brother, James B., the Times' dynamiter, are convicts in California; Ryan and his fellow officials, former associates of McNamara, are federal prisoners here.

Two Are Not Ironworkers.

Two of those convicted were not affiliated with the iron workers' union but they were found guilty of joining with the iron workers' officials in promoting the conspiracy. One of these is Olaf A. Tveitmoe, San Francisco, a recognized labor leader on the Pacific coast the testimony against whom was that he aided in causing explosions at Los Angeles, wrote letters about them and referred to them as "Christmas presents" after the fatal explosion at Los Angeles, and that he aided in concealing evidence wanted in California. He is secretary of the California Building Trades council.

Hiram R. Kline, Muncie, Ind., the other member of another union, convicted, was formerly an organizer for the Union Brotherhood of Carpenters and Joiners in Detroit.

Another token of the Los Angeles explosion came in conviction of J. E. Munsey, who was charged by the government with harboring James B. McNamara for two weeks in Salt Lake City, while that dynamiter was fleeing from the scene of his crime.

All in Conspiracy.

Many of those convicted were charged with knowing only of local explosions on the work of contractors who refused to recognize the union, but were thus brought into the general conspiracy. Ryan, John T. Butler, a vice president of the union, Buffalo; Eugene A. Clancy, San Francisco; Frank C. Webb, New York; Michael J. Young, Boston; Philip A. Cooley, New Orleans; Henry W. Legleitner, Denver, and Charles N. Beum of Minneapolis were all convicted as having appropriated out of the union's funds $1,000 a month with which McNamara paid for explosions. Herbert S. Hockin, who resigned as secretary of the union only a few weeks ago, who was branded as the "Iago of the conspiracy," in having helped to instigate the plots and employing Ortie E. McManigal to carry them out, while afterwards "betraying his fellow conspirators" to promote his own interests, stands among the most prominent of those convicted. He figured almost daily in the testimony.

TIE POLICEMAN TO POLE

Batter His Face Till He Fires Revolver Through Coat Pocket.

Evansville, Ind., Dec. 30. — Claude Johnson, a special merchant policeman, was tied to a telephone pole with a rope by three men early in the morning. Then his face was beaten almost to a pulp and he was otherwise injured.

Johnson fired through his coat pocket and shot one of the rowdies in the arm. The wounded man is said to be Alf Sauer. The police found Sauer, but the physicians forbade him being removed from his home.

The rowdies disarmed Johnson and before leaving him tied to the post, put the muzzle of his revolver against his brow and invited him to pull the trigger.

PRESIDENT BACK ON NATIVE SOIL

TRIES TO MAKE RECORD TRIP

Object Is to Ascertain Just How Quickly One Can Get from Colon to Washington—Colonel Goethals Returns with Party—Key West Presents Executive with Cake of Ice.

Washington, Dec. 30. — President Taft endeavored to establish a speed record for the trip from Colon to Washington, via Key West, for the purpose of seeing just how quickly the trip may be made.

Two battleships, Arkansas and Delaware, bearing President Taft and his party, dropped anchor at Key West, Fla., at 10:30 Sunday forenoon. Rosy from his sea trip and smiling at the welcome extended him, the president landed at the naval pier at 11:15. The president's appearance backed up his statement that he had had a very pleasant trip. He also expressed himself as pleased with the way the Panama canal is being pushed to completion and said it was a wonderful work.

Colonel Goethals with President.

Colonel Goethals accompanied the presidential party from Colon and on to Washington. His presence is regarded as an indication of the intention to establish a provisional government in the canal zone at an early date.

On arriving at the pier in Key West the presidential party was driven to the railroad station, where the Key West Fish company presented the president with a cake of ice. There were fifty ponds of mackerel in the ice, though.

At the station Charlie Taft, the president's second son, was persuaded to tell of the trip. "We had a delightful trip," he said, "but it's good just the same to get back to the United States."

WEDEMEYER BREAKS DOWN

Michigan Congressman Physically and Mentally Stricken.

Panama, Dec. 30. — William W. Wedemeyer, a Michigan congressman, who at one time was the American consul at Georgetown, British Guinea, a graduate of the University of Michigan and a member of the Panama congressional committee which has been investigating conditions here for some time, is suffering from mental and physical breakdown. The congressman was at first taken to the Ancon hospital, but was afterwards removed to the Taboga sanitarium, where nobody was allowed to call on him.

The congressman is in such poor health that the doctors have prescribed absolute rest and it is uncertain whether he will be able to return with the congressional party. It is thought that the strenuousness of the presidential campaign and his personal defeat for re-election is partly accountable for Mr. Wedemeyer's breakdown.

JERRY SULLIVAN TALKS TO WILSON

Iowa Man Waylays Next President in Washington.

TELLS WHAT HIS PEOPLE WANT

Thinks Bryan Must Be on Cabinet List or Western People Will Be Grievously Disappointed—Wants to Know About Curbing Some Trusts that Farmers Deal With.

Princeton, N. J., Dec. 30.—Governor Wilson has reached home in prime condition. He has fully recovered from his recent cold.

He was joined in Washington, where there was a stop-over of an hour, by Jerry I. Sullivan, a Des Moines lawyer who once ran for governor of the state. He brought aboard a boom for William J. Bryan as secretary of state and a boomlet for himself. Governor Wilson frankly admitted that he did not know whether or not his visitor had been mentioned for a cabinet position and Mr. Sullivan just as frankly admitted that he had been mentioned for secretary of the interior. Mr. Sullivan also said that the farmers out his way want to know what Governor Wilson is going to do with the International Harvester "trust" and other companies of that kind with which they have dealings. He said the governor assured him that so far as he is concerned the Baltimore pledges for the regulation of competition will be carried out.

Bryan Must Be in Cabinet.

In the opinion of Mr. Sullivan it would be dangerous for President-Elect Wilson to leave Mr. Bryan off his cabinet list without letting the people know the reasons that prompted him.

"We need a man," he said, "of his experience at the president's side to handle the big questions of the secretary of state's office—questions like the Panama canal and others of interest and importance. The folks out my way will be greatly disappointed if Mr. Bryan's doesn't get that job."

Governor Wilson declined to develop the suggestion offered at the Staunton banquet that the Philippines will presently cease to be our frontier. As for his remarks respecting those whom it might be necessary to educate into progressive ways of thinking he said he had no particular person in mind other than those who are reactionaries.

Godspeed from Staunton.

Half of Staunton was at the railroad station to see the governor away, and Mrs. Wilson got an ovation as they boarded the train. As a parting gift the pupils of St. Francis Catholic school sent a miniature ship of state with the governor's photograph on the jib and an angel on the mainsail. The deck was strewn with roses, daffodils and violets.

The governor will go to Trenton this afternoon.

Take Hall's Family Pills for constipation.

A man sometimes sees things from a different point of view after his wife makes up her mind.

The Busy Woman's Day

It begins early, ends late, and is full of work. She often has kidney trouble without knowing it. Her back aches, and she is tired and worn out, sleeps poorly, is nervous, no appetite. Her bladder gives her trouble too. Foley Kidney Pills will cure all that and make her strong and well. They are the best medicine made for kidney and bladder disorders.

Drives off a Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In an attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place' Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cts. and $1.00. Trial bottle free at C. A. Wright & Son's.

Could Shout for Joy

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless suffered for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatism, Electric Bitters have no equal. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at C. A. Wright & Son's.

Political arguments lose more friends than they make votes.

Croupy Coughs and Wheezy Colds.

The quickest simplest way to rid the children of dangerous croupy coughs and wheezy stuffy colds is to give them Foley's Honey and Tar Compound. It gives almost instant relief and stops a cough promptly. It soothes and heals. Contains no opiates. Sold by all druggists of Tecumseh.

TRYING COURTSHIP

Love-Making on a Fire Escape Ends Happily.

By CLYDE JOHNSON.

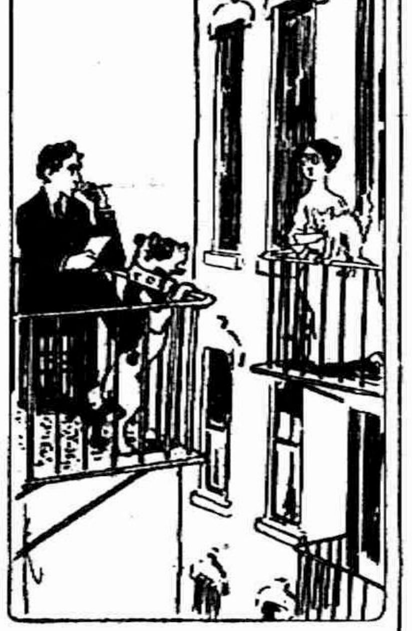
A woman thirty years old who invents poetry, has a cat and a canary, scorns the hobble skirt and has taken a vow never to marry, comes so near being an old maid that she may be herewith graded in that class.

A man thirty-two years old, who feels that he has a mission to write a book, and who keeps a bulldog, owns seven different canes—has a cuckoo clock and laughs at the idea of woman being intelligent enough to vote, will pass in any country as an old bachelor.

Her name was Amanda Jane Dillon—good old-fashion Amanda Jane—and when addressed by her landlady she wanted the Jane to follow the Amanda in natural sequence. She had an income, and she had a rented flat and a cook. The cook was also rented by the month.

His name was Perry Chase Perry. His parents had so named him when a red-faced infant, knowing that the day would come when he would want to chase himself around the block, and thus giving him an early start. He had an income, and he had a rented flat and a cook. Same financial arrangement with his cook as Miss Dillon had with hers.

When Amanda Jane, as she may now be called, called to look over a "To Rent" flat the janitor called her attention to the fact that it was on the sixth floor and no elevator. Therefore, she would not be bothered with orphans seeking homes or brokers in search of advice; also, that a fire escape was at one of the dining room windows and ready for business day and night. It would be her escape. It was wide and roomy, and she could lay down a Persian prayer rug and take out a chair and have a little roof garden all to herself. Something in the poise of her head—the uplift of her eyebrows—the click of her heels on the stairs, told him that she had a soul for poetry. If he were right, and he had never taken a barber for a poetess yet, what a place for inspiration that fire escape would prove in the long summer afternoons and evenings. Amanda Jane signed a year's lease.



"I'll Move Out Tomorrow."

When Perry Chase Perry called to look at a flat next door to that just rented by Amanda Jane, the janitor went through the same process, with slight variations. There was the fire escape on one of the dining room windows. There was the freedom from callers; there was a grand view of a lumber yard and a brewery; there was the outdoor snuggery in which, even without a prayer rug, one could sit and draw in inspiration by the yard. Something told that janitor that Mr. Perry Chase Perry had a head for literature, like Richard Harding Davis and if he was right, and he had never been wrong about such things, why—

Mr. Perry Chase Perry signed a year's lease.

There was one oversight on the part of both janitors, and there was one thing neither lessee failed to take into consideration.

There were two flats. There was a distance of ten feet between them but the building of the escapes had cut the distance down to six. Therefore, when Amanda Jane got out on her escape, and Perry Chase Perry got out on his, they would look into each other's eyes and read the longings there. This fact was discovered in about four days after they had moved in.

As dinner was finished and the sun went down and the bob-o'-links were getting ready to bob, Amanda Jane sought her bower, taking her cat along; also a pad and pencil. Inspiration might come at any moment, and poetic inspiration must be caught on the fly.

Five minutes later Perry Chase Perry appeared in his bower, followed by his bulldog and one of his seven canes. He also had a pad and pencil. He was out there to invent a title for his book. He wasn't satisfied to let it go under the head of "No Name." A stray cat can be called by any old name, but it's different with a book. He had got seated and touched the end of the pencil to his tongue before he looked up.

"Great snakes, a woman!"

"Mercy on me, a man!"

"And an old maid, or I'm a goat!"

"And an old bachelor, as I live!"

"By George, but I'll move out tomorrow, lease or no lease!"

"He'll either go or I will!"

There might have been more mental exclamations between the couple but for the cat and dog. They caught sight of each other, and the one began to spit and the other to bark. It has ever been so and always will be. In a minute the hubbub caused twenty heads, male and female, to appear at twenty different windows, and the mouths belonging to those respective heads opened to emit words of different lengths and meanings. The bleached blondes led the procession, as usual:

"Git on to his dorg!"

"Put your dough on pussy!"

"He's getting bald-headed!"

"She's living on anti-fat!"

Mister Perry Chase Perry chased in. In the morning he would lick every tenant in his flat and then sue the landlord for enormous damages.

Amanda Jane chased in. In the morning she would also see a lawyer. She would not only see one about the landlord, but about the man who had so brazenly occupied the other fire escape. Had he remained in his rooms all would have been well. It was because of him she had been insulted in that outrageous manner and she would lay her damages at $20,000 and not a cent less.

When morning came, however, no one visited a lawyer and no suits were begun. A night's reflection had brought different plans. For the next three evenings the escapes were vacant, and the twenty tenants who were watching for more fun gave up in despair. On the fourth evening Amanda Jane and her cat and pad and pencil reappeared. Five minutes later Perry Chase Perry and his bulldog and cane and pad and pencil showed up.

"There she is!" he whispered to himself.

"The brazen thing!" she whispered to herself.

"Darn an old maid, anyhow!"

"He's been jilted for sure!"

The cat and the dog saw each other from the first, but made no hostile moves. They are not to be depended on to act twice alike under the same circumstances. It was very quiet. Amanda Jane sat with her head down and thought and thought and made strenuous efforts to find a rhyme for the word "huckleberry," and Perry Chase Perry invented and rejected a dozen different names for the book he would some day write. Just one tenant looked out of her window, and after a peer and a peek she drew her head in and mused to herself:

"Now, then, why don't they coo and be sensible? I never heard of two people falling in love on a fire escape, but it can be done."

There was just five minutes more of the heavenly peace, and then the bull dog suddenly remembered the cat. The cat had climbed up on the railing of the escape and was blinking her eyes in sleep. The bark of the dog, and the rush he made gave her a scare and she lost her hold and went down to destruction.

Screams from Amanda Jane—screams, and then she fainted.

Cuss-words from Perry Chase Perry and then his fool of a dog leaped the railing and went down after the cat. He wasn't going to let any grimalkin bluff him.

Ten minutes later Amanda Jane recovered consciousness. She was lying on the lounge in her sitting room, and Mr. Perry Chase Perry was bathing her face with camphor brought in by a tenant—bathing her face with a mother's care and saying to the other:

"Poor girl! If she dies I can never forgive myself!"

"My cat!" exclaimed Amanda Jane as she sat up.

"Dead, and so is my bulldog!"

"But you—you—"

"I rushed up here without a second's delay."

"But your dog?"

"What is the welfare of a bulldog compared to that of a lady?"

"You are so, so kind!" sighed Amanda Jane as she let him hold her hand.

Three evenings later, as one fire escape held both people, that same woman looked out of her window again and saw them and drew back to smile and say:

"I knew they could fall in love, and they have! Why, folks can fall in love up a tree if they only make up their minds to it!"

Girl Hotel Waiters in Mississippi.

The anti-tipping law enacted by the Mississippi legislature at its recent session has had the effect of causing hotel proprietors in several towns in the Bayou state to dismiss male waiters and employ girls. Male waiters, it is said, did not take kindly to the new law and ignored the orders of the hotel managers not to accept tips.

The statute imposes a penalty of $100 on the owners or managers of hotels and restaurants who permit their employes to receive tips or gratuities from guests, each tip constituting a separate offense. Not wishing to come in contact with the "hot end" of the law the hotel men took drastic measures when their male waiters persisted in violating the provisions of the law and discharged them and employed girls.

The new law not only penalizes hotel proprietors who permit employes to receive tips, but it provides for a fine of $50 on waiters who accept gratuities. Persons who give tips are also liable to a fine of $50.—Shoe Retailer.

NOT HIS TIME FOR REVENGE

Circumstances Seemed Favorable for the Moment, but the Luck Would Not Hold.

Aboard the great ship the silence of despair reigned. She had struck on an uncharted reef, and, owing to the heavy sea, the boats had either been stove in against the ship's side or swamped in the attempt to lower. A stalwart passenger stole up to the captain's side.

"Do you think, sir," he asked, "that there is the slightest chance of our being saved?"

"Look here," said the skipper, in tones of disgust, "that's the sixth time you've asked me that question. Why, you great lubberly brute, I believe you're the biggest coward aboard!"

"S—sh! No, I'm not," protested the burly one. "But, look here. You see that old duffer standing by the rail? Well, he's my rich uncle, and all my life I've had to put up with his cussed cantankerousness. But if the ship's going down, and there's no hope, I'd like time to give him one good, sound kick to square the little account I owe him!"

Just then a rescue ship appeared on the scene and above the joyful shout the raucous voice of the old man by the rail was heard, commanding his dutiful nephew to fetch his hot water bottle from his water-logged stateroom.

Carnegie Institute.

The Carnegie Institute, Washington, was founded by Mr. Andrew Carnegie January 28, 1902, when he gave the board of trustees the sum of $10,000,000 in registered bonds, yielding 5 per cent. annual interest. He stated, in general terms, that his purpose was to "found in the city of Washington an institution which, with the cooperation of institutions now or hereafter established, there or elsewhere, shall in the broadest and most liberal manner encourage investigation, research and discovery, show the application of knowledge to the improvement of mankind, and provide such buildings, laboratories, books and apparatus as may be needed." Mr. Carnegie added $2,000,000 to his gift in 1907.

MURDERS HIS WIFE AND MOTHER-IN-LAW

Edward Hart of Lagrange Arrested at Brother's Home.

LaGrange, Ind., Dec. 30.—Edward Hart, who shot and killed his wife, Mrs. Rena Hart, aged twenty, from whom he was separated, and her mother, Mrs. Sarah McBride, aged fifty-eight, at the home of the latter here, was captured four hours after the shooting, at the home of his brother, Louis Hart, in LaGrange. He is now a prisoner in the LaGrange jail.

After the shooting, Hart made a dash into the country to evade the officers, but a few hours later returned to the home of his brother, where he was arrested by Constable Samuel Erb. Hart, who is thirty years old, admitted to officers that he borrowed the revolver with the deliberate intention of killing his wife, because they could not "get along together."

Mrs. McBride was instantly killed. She was shot as she slept. Mrs. Hart, awakened by the report, ran from her bedroom, to be shot down by her husband. Her death occurred two hours later. Hart has been employed in a livery stable, and had been married only a few months. Their baby, lying in its mother's bed, was left unharmed.

EXPLOSION KILLS SURVEYOR

Officer Had Taken Office Only Previous Day.

Bicknell, Ind., Dec. 30.—Frank Stewart, twenty-six years old, county surveyor, was instantly killed and William Pryor, aged twenty-one, his assistant, was fatally injured in an explosion in the Tecumseh mine, near here. The men had gone into the mine to make a survey when the explosion occurred. Pryor was found unconscious two hundred feet away from the scene of the explosion, and it is believed he crawled there to summon aid. Had the explosion occurred in the daytime many persons would have been killed.

Stewart was a graduate of the Boston School of Technology and Pryor was an Australian. Both were unmarried. Stewart was elected last November and only the previous day qualified as county surveyor.

BURLINGTON FIGHT FOR FEES

Railroad Seeks to Regain $110,885 Paid State Under Protest.

Springfield, Ill., Dec. 30.—The Chicago, Burlington and Quincy Railroad company filed a petition in the circuit court for an injunction to restrain Secretary of State Doyle from turning into the state treasury $110,885 collected as fees when the company asked for a continuation of its special charter.

The money was paid under protest and the company seeks to prevent the money from going into the treasury before the court has decided that the company must pay the amount under the laws of the state. The money was surrendered with the understanding that the matter would be taken into the courts for final settlement.

BANDITS COME TO GRIEF

Son Is Killed and Father Captured by Colorado Officials.

Grand Junction, Col., Dec. 30.—J. B. Lindsley and his fifteen year old son, Joseph, held up J. E. Quear, manager of the Loma Canning Company, in his office and after two hours extorted from him a check for $5,000.

A few minutes later, while standing guard outside a bank while his father was trying to get the check cashed, the boy resisted capture at the hands of Sheriff Steve Nicholls and deputies, and was killed. The father was captured.

STRATTON'S "PAL" CAPTURED

Dudley and "Indianapolis Billy" Wanted for Blowing Bank Safe.

Chicago, Dec. 30.—Clyde Stratton, master of the richly furnished Clifton avenue flat recently raided, may expect to be joined for the winter in the Columbus, O., penitentiary by his pal, Herman Dudley, with whom a decade ago he became notorious as a member of the Harry Slater gang.

Dudley and "Indianapolis Billy," alias William Miley, were arrested in South Bend, Ind. The couple are charged with blowing the safe of the Munn bank of Portage, O., on Nov. 19 last.

In Dresden.

At the principal railway stations and at other important centers in Dresden illuminated index signs have been placed for the convenience of strangers. Every street corner is conspicuously labeled in blue with the name of the street and the numbers of the houses included in each block. When trailers are used in the street car service they are employed as smoking cars and have side pockets of porcelain at each seat to hold cigar stubs, etc., which would otherwise be thrown into the streets.

Mileage of the Blood.

The mileage of the blood circulation reveals some astounding facts in our personal history. Thus it has been calculated that, assuming the heart to beat sixty-nine times a minute at ordinary heart pressure, the blood goes at the rate of 207 yards in the minute, or seven miles per hour, 168 miles per day and 6,320 miles per year. If a man of eighty-four years of age could have one single blood corpuscle floating in his blood all his life it would have traveled in that same time 5,150,800 miles.

Napoleon's Tomb.

The windows in the chapel of the Invalides in Paris, where the great Napoleon lies buried, are of a singularly translucent amber glass. When the sun shines full upon them the rays are transmuted into gold, and they fall like a ladder of light upon the bronze sarcophagus of the conqueror until he seems glorified from the skies.

Regardless of Price.

At the antiquary's shop:

"I am commissioned, monsieur, to buy a Louis XIV console; have you one?"

"No. I have one that is a Louis XVI."

"Oh, that will answer. I am buying for a rich American. A matter of two Louis is nothing to him."—Paris Gaulois.

AMUSEMENT

MUTT & JEFF

The Musical Comedy of "Mutt and Jeff" as given at the Opera House Monday evening was one of the jolliest ever given in Tecumseh.

Mutt and Jeff were quite in evidence and their characters were well sustained. The acting throughout was fine and the chorses were of the very best.

Each musical number was received with enthusiastic applause and from start to finish, it was one continual round of laughter. The old proverb, "A little nonsense now and then is relished by the best of men" was fully verified as everyone felt better for the evening's entertainment.

SLUMBER PARTY

Girls did you ever attend a Slumber party and did you slumber? Miss Harriet Teachout was hostess to six of her girl friends last Saturday evening. After doing the picture shows and other attractions of the town, they gathered around the fire for a social chat before retiring for the night. The final disposition of the company was at last achieved, and there followed the usual stunts for such an occasion, but sleep at last settled down upon the happy company and held them close until the break of day. It was a jolly crowd that gathered around the breakfast table later on. Those present were the Misses Myrna Service, Josephine Orr, Gertrude Scudder of Macon, Florence Aten and Lydia Babcock. Two others who were to be present were detained by illness.

GRANGE

Friday evening the Grangers enjoyed a very pleasant meeting it being the annual gathering of the young people who are home from their schools for the holiday vacation.

Various stunts were indulged in and prizes given. That for whistling a tune after eating 6 crackers without drink was won by Clara Chritchett. The most popular girl Clara Valdron the most beautiful girl was given to 17 girls. Roy Bramble won in the eating contest with Earl McNiel, both being quite hearty. Mrs. Harold Hoag won the prize for the best nail driving. Being a married woman she has had much practice along this line.

CHRISTMAS MUSIC AT ST. PETERS CHURCH

The program for Christmas music as given in the last issue of the Herald was given at St. Peters church Sunday afternoon to a crowded house. Each number was given in a most enthusiastic manner, the spirit of the theme, inspiring each singer. A number of solos were rendered in most effective manner and the duet by two male voices was especially fine.

THE OLD "LEGIT" OBJECTS

Scene In Moving Picture Theater Too Much for His Idea of the Dignity of the Stage.

An old "legit" reeled into the street from out a ten-cent moving picture theater, his hand to his head, and exhibiting all the symptoms of having received a mortal blow. Two or three sympathetic citizens, one of them the usher of the theater, rushed to his assistance, asking if he was hurt much and wondering if they should call for an ambulance. The old man turned fiercely on the usher and replied:

"Of course I am hurt much—mortally wounded—look at that!"

He pointed dramatically to a poster which announced that "The Merchant of Venice" was being performed within.

"I went in to see that masterpiece even as a moving picture, for I am without prejudice, and know that pantomime is a great art—but what do I see? A Portia that wears an Irish lace collar around her head for a Venetian cap, who skips through her part like a frisky soubrette, and when the manufactured scene showing her visit to the Duke of Bellario is introduced, and the duke with a goodly amount of dignity evidently tells her with lips that are hidden by whiskers what she is to do nods her head gayly and says, her movement of lips showing the words plainly, 'That'll be fine.' Shade of Shakespeare! Had he been buried in this country he would have risen today to expire again in agony."

Oyster Can Change Its Sex.

At the Academy of Science in Paris recently Edmund Perrier, director of the Museum of Natural History, submitted a series of singular researches by M. Danton, who has discovered that the sex of an oyster often varies in the same subject without apparent cause.

Another fact ascertained by M. Danton is the triumph of femininity among oysters, the male being the inferior and weaker sex, and as food conditions change for the better or worse, they transform themselves from one sex to the other.

Work of Chemical Engineer.

Great is the debt that the new south owes to the chemical engineer, whose contributions are enumerated by a writer: "The utilization of the formerly wasted cotton seed in oil making and the employment of the pressed hulls as a cattle feed; the production of glycerin from cotton seed oil; the use of the vast clay and shale beds in brick and tile manufacture; and the opening up of deposits of phosphates and phosphate rock that yield commercial fertilizers. Through his experiments and advice the pine forests formerly destroyed in obtaining turpentine may now be saved, while lumber, as it has been pointed out that turpentine can be obtained from waste sawdust slabs and old trees or stumps cut down or blown down by storms. High grade oak ties for railroad use may be made to last longer than before and low grade lumber (such as loblolly pine) can be made as efficient as untreated oak by simply impregnating the timber with creosote oil, and it is now a thriving industry throughout the south."

A REMINISCENCE OF EVENTS OF SIXTY ODD YEARS AGO

Editor Herald:—

The following which I clip from one of our local papers has made old Father Time turn backward in his flight and take me with him back to the days when I went "nut gathering" back in my dear old Tecumseh home.

Nut Gathering—W. H. Funk of Burnett, has just returned from a visit back to the old home in Indiana, and brings with him as memento of the trip, hazel, beech and hickory nuts such as he used to gather as a boy. He has presented an exhibit of the nuts to the Chamber of Commerce.

I cannot express in words the pleasure it would have given me to have been in Tecumseh at nutting time this fall and gone with some of the youngsters on their nutting expeditions and helped them. I presume, however' that much, if not all, of the patches of hazel bush of my boyhood days has been cleared off. I remember a nice patch just north of the house where I was born and just west of the old tannery pond and at the edge of which was one of our "swiming holes," another nice patch was up just east of the present cemetery. I wonder if the walnut and butter nut trees from which we used to gather nuts are still standing. Four large walnuts on the flat just west of the tannery and a few more just north of the old tannery floom

Perhaps it would not be a pleasure to me to visit these old familiar spots I would find them so changed. Notwithstanding this I think that it would afford me much pleasure to meet the few which are left of those I know in those long ago days and face to face talk over the events of which I can now only think and write.

And now my thoughts go back to those happy days when we would have family reunions at the homes of some of the relatives either in Tecumseh or in the country when and where we youngsters had our fill of good things to eat at their dinner hour and "topped off" with nuts, apples, pop corn and cider.

I am going to try and call to mind a piece I learned and spoke for the first time from the rostrum in the old court house, before an audience composed of many of the "first citizens".

It is just possible that some of my old schoolmates who are living and who may read this may remember.

THE TURKEY'S FATE

At midnight on the hen house roost
The turkey dreamed of that dark hour,
When greasy gravy drowned the goose
With a most wondrous power,
In dreams he gobbled in and out,
In dreams he strutted all about,
At last he heard old Jerry say,
Tomorrow is Thanksgiving day,
The fattest turkey we can find,
We'll take and leave the lean behind.
His heart grew faint. his drumsticks beat,
While Jerry grabs him by the feet
"Oh Jerry, Jerimiah You,
Are going to roast me on the fire,
After you wring me by the neck,
Pull all the feathers from my back
My wish bone you are going to split,
Then turn me round upon the spit.
If you say no, then I say yes,
For gobbling turkeys sure can guess."
The father stood outside the gate
And cried in exstacy,
Strike, ducks and geese both sons and sires,
Strike, light and kindle all the fires
Thanksgivings coming, strike.

W. P. Stocking.

HAD FOLLOWED THE ADVICE

Lecturer Probably Was Not Proud of the Immediate Effect of His Discourse to the Students.

At a certain well-known medical college there is a staff lecturer who is never tired of dilating on the advantages of doctors being able to sleep at odd minutes. The gentleman in question, be it added, is as prosy in the enunciation of this theme as he is insistent upon it; wherefore he is affectionately known as "Cap-Naps."

He was for the hundredth time enlarging on his pet topic at the close of a long ninety minutes' discourse, something like this:

"And let me again impress upon you, young gentlemen, the prime necessity of training yourselves to that invaluable habit of sleeping here, there, and everywhere, whenever an unexpected fifteen minutes offers itself to recuperate your often exhausted energies. It may be in a car, with a ride ahead and no one at your elbow to annoy you. It may be in your consulting room, between calls—at first, you know, there may be intervals! It may come anywhere, any time; but seize the opportunity whenever you feel you are bored, perhaps with what is going on around you—when you feel your time is being unprofitably employed."

And then, from the back bench, came two loud, unmistakable snores!

Antiquity of Tennis.

Tennis is probably one of the most ancient ball games, and was a sport long before cricket was dreamed of. Though undoubtedly not existing during the Arthurian period, tennis, or as it was called "tenes," is mentioned in the Arthurian legends, written in 1500, and the Knights of the Round Table were pictured as engaged in the sport when the weather was too hot for tourneys or jousts. From a very simple beginning, and through many centuries, the intricacy of the game's rules have been developed. Its present name seems to be a corruption of the term "tenes," which the server used in the same way "ready" is called out now. In the beginning the name was "jeu de paume," taken from the fact that the ball was struck with the hands instead of with a racket. Later the hand was encased in a glove and still later the glove was covered with strings, running criss-cross, from which condition there was but a short step to the short-handled racket. In feudal times the courts were merely open grass plots, oftentimes the lawn of a castle, and not till late in the seventeenth century was the court inclosed.

Warm Floors and Healthy Children Make Happy Homes

There is no better way for you to avoid worry and expense than by insuring your children's health.

Warm floors in the home, which is the children's play house in winter, are assured when using Cole's Original Hot Blast Heater.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

Cole's Original Hot Blast Heater

The Cleanest—Easiest to Care For

Burns Soft Coal, Lignite, Hard Coal, Crushed Coke, Wood and Cobs.

Users of coal must remember that the ordinary heater is a big care to operate. That its smoke and ashes entail dusting, curtain washing and carpet sweeping. Think then of the ease of operation and the cleanliness of Cole's Hot Blast.

Cole's Hot Blast has a guaranteed smoke-proof feed door—open the feed door and the current of air draws the smoke directly across the top of stove to the stove pipe—away from the opening. Contrast this simple, cleanly feed with the side door in an ordinary heater. The side door used on other stoves permits escape of dirty smoke, unpleasant gas and accumulated soot drops from it. If you overfill a side door stove, coal falls to the floor. And note this, you cannot make a side door heater air-tight—an everlasting advantage in favor of Cole's Hot Blast which is air-tight and guaranteed to remain so always.

No fires to build—the fire is never out in this remarkable heater from fall until taken down in the spring.

Better select one today—surely it is the heater you need—

ONLY ONE "BEST"

Tecumseh People Credit Where Credit is Due

People of Tecumseh who suffer with weak kidneys and bad backs want a kidney remedy that can be depended upon. Doan's Kidney Pills is a medicine for the kidneys only, and one that is backed by willing testimony of Tecumseh people. Here's a case: Mrs. C Stevenson, Wyandotte & E. Potawatamie Sts, Tecumseh, Mich., says: "I cannot say too much in praise of Doan's Kidney Pills in return for the great benefit they gave me. I never used another remedy that did me so much good. Since 1906, I have taken Doan's Kidney Pills on several occasions, getting my supply at Wright & Son's Drug Store, and they have acted as a tonic to my kidneys. The first symptoms of kidney complaint in my case was a sharp, shooting pain across the small of my back which made it almost impossible for me to lie down. Someone advised me to give Doan's Kidney Pills a trial and I did so. After I had taken this remedy a short time, my pains and aches disappeared and gravel that had been a source of constant suffering, no longer troubled me. In fact, I felt like a different person. I have since recommended Doan's Kidney Pills to a number of my friends and shall continue to do so."

For sale by all dealers. Price 50 cents. Foster-Milburn Co, Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Secret Terror

The haunting fear of sickness and helplessness is the secret terror of the working man. Health is his capital. Kidney diseases sap a man's strength and vitality. They lessen his earning capacity. Foley Kidney Pills bring back health and strength by healing the disease. They are the best medicine made for kidney and bladder troubles. The genuine are in the yellow package. Refuse any substitute. Sold by all druggists of Tecumseh.

Foils a Foul Plot.

When a shameful plot exists between liver and bowels to cause distress by refusing to act, take Dr King's New Life Pills, and end such abuse of your system. They gently compel right action of the stomach, liver and bowels and restore your health and all good feelings. 25c at C. A. Wright & Son's.

Dr. Wm. Sadler, author of "The Cause and Cure of Colds," says that common colds should be taken seriously, especially when they "hang on." Foley's Honey and Tar Compound is a reliable household medicine for coughs and colds, equally effective for children and forgrown persons. Take it when you feel a cold coming on. It will avert danger of serious results and cure quickly. No harmful drugs. Sold by all druggists of Tecumseh.

MRS. STOCKER SPENDS CASH

Parts with $780,000 for Diamonds, Yacht, Clothes, Jewelry, Etc.

San Francisco, Dec. 30.—Mrs. Clara Baldwin Stocker, daughter of old "Lucky" Baldwin, who inherited half of his $22,000,000, reached here to spend New Years. She is just back from an eastern shopping trip during which she expended for diamonds, a yacht, gold and silver ware, a wardrobe and other things $780,000.

Mrs. Stocker came here in her new private car, which she has just brought from the east. It has among other features an orchestral organ with pipes. Mrs. Stocker frankly said she is out for a good time and that money is only good to spend. She takes a childlike pleasure in all her new things and especially in the private car, which she shows to all visitors.

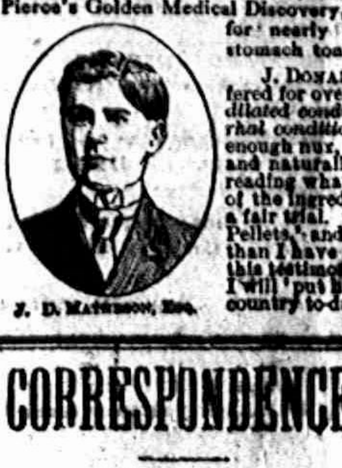
Ancient Cups.

The cups of the Assyrians closely resembled our saucers. Every noble man and gentleman had his own cup and cup bearer, the latter of whom always accompanied him to a feast, carrying before him the cup of gold, silver, crystal or marble, which his master used only on state occasions. Saucers for cups were introduced in the latter part of the eighteenth century and at first, were greatly ridiculed, the persons who employed them being said not to be able to drink without having two cups.

Wonderful Cures Reported in Germany.

The use of simple herbs as remedies instead of the more concentrated and usually more dangerous inorganic substances, has been revived very widely of late. In Germany a new school of physicians has arisen which throws out almost a whole of the pharmacopeia and relies on an adaptation of the method of wild animals in curing themselves. . . . . *N. Y. World.*

It was Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., who first advocated the extended use of some of our native roots, such as: Golden seal and Oregon grape root, mandrake and queen's root, black cherrybark. These are the chief ingredients in Doctor Pierce's Golden Medical Discovery, which has been so well and favorably known for nearly half a century. A harmless cleanser and stomach tonic that nature has provided.



J. D. MATHESON, ESQ.

J. DONALD MATHESON of Ossining, N. Y. says: "I suffered for over five years with what the doctors told me was *dilated condition of the stomach, associated with a catarrhal condition of same, and nervous heart.* I had tried enough nux, bismuth, gentian, rhubarb, etc., to float a ship and naturally thought there was no cure for me, but after reading what eminent doctors said of the curative qualities of the ingredients of 'Golden Medical Discovery' I gave it a fair trial. Took the 'Discovery' and also the 'Pleasant Pellets,' and can truthfully say I am feeling better now than I have in years. I cheerfully give permission to print this testimonial, and if any 'doubting Thomas' writes me I will 'put him wise' to the best all-around medicine in the country to-day."

Discreditable Point.

It is in every way creditable to handle the yard stick and to measure tape; the only discredit is in having a soul whose range of thought is as short as the stick and as narrow as the tape.—Harvey Wood.

LOVE'S FURLOUGH PROVES A WINNER

Proof That Dreams Sometimes Reach to the Reality.

By IZOLA FORRESTER.

"It's only to be absolutely sure."

Suzanne did not look at him as she spoke. It was far too hazardous. But Don was taking it very calmly. He regarded her with unblinking eyes from his perch on the veranda rail.

"But we stay engaged?"

"Oh, yes," Suzanne assented, cheerfully. "I don't mind, do you? It's only to—to test our feelings, Don. Don't you understand? I'm going with the Janeways for a week, and you may stay here and fish or sail; do just what you like."

"So generous of you," murmured Don.

"Why not? I want you to be happy."

"Yes, you do? You know I can't be happy without you."

"We don't know for sure, yet." Suzanne was very firm, but gentle. She felt sorry for Don, but when it came to a serious question like this, she felt it far better to put it to the test. "It isn't as if we were breaking the engagement, Don, dear. It's just a sort of furlough, don't you see? We'll keep it a secret and both be free to do as we please."

"Which means you'll trot all over Tressac Island with Carl Janeway."

"You are at perfect liberty to do the same with any girl here."

"But that's the rub, Sue. You know I don't give a rap about any other girl here, and you want a chance to try out Janeway."

Suzanne pursed her pretty lips reprovingly.

"Sometimes you seem like a big, overgrown cub, Don; you do, really. Mr. Janeway is a perfect stranger to me—"

"Blanche has been writing to you for a month to come and meet her brother. Don't I know?"

"Well—I'm going," smiled Suzanne. "And you may do just what you please about it."

"May I?" Don asked grimly, with a swift safe glance at her. "I'll remind you of that when you come back."

"Well—I'm Going."

"Don't be too rash, or maybe I won't come back."

"Ah, Sue, don't say that?"

But Suzanne merely laughed, and rose from the deep arm chair. She knew perfectly well how charming she was, and how she held Don Hamilton's heart on her own pink palm. And the very surety had begun to bore her. It had been unfortunate, their falling in love so soon, at the beginning of the summer season, and now at early fall, it seemed an old story.

Blanche had succeeded in arousing her curiosity over her wonderful explorer brother. Don had never explored any unknown territory except her own heart. She would go down to Tressac Island and see this celebrity, and without Don. And she went.

The whole island was owned by the Janeways. It lay like a beautiful green emerald far out in the lake. After the excitement and restless life at the seashore resort Suzanne found it folding a spell of enchantment about her, the peace and dreamy langor that hung over the entire place.

It was the fifth day. She had written one letter to Don—one only. Was not love on a furlough? And not a word had she heard in reply. It was queer of Don to act that way. He had no perspective on life, she told herself. Carl Janeway was keen on perspectives.

"We can never hold the reality in our grasp, try as we will," he told her. "Do we not ever reach for the dream?"

"I suppose we do," Suzanne assented, faintly, but she remembered uneasily how tangible had been the realization of Don's dream. She did not meet Janeway's glance. They were just landing after the daily sunset canoe trip. She watched him now, as he lifted the canoe as easily as an Indian guide. He was like an Indian, too, in his tall, lithe build, black hair, and odd, dark eyes that never seemed to close. Blanche had said he was interesting. Suzanne found him more than that. Vaguely, he fascinated her. She loved to sit in the canoe, gathering water lilies on a lake that had turned to gold and amethyst and ruby red under the sunset splendor, listening to his tales of a world-wide quest. That was what he called it, a quest after fortune. Blanche had taken pains to tell her he had found it.

"When are you leaving Tressac, Gray Eyes," he asked suddenly.

"Saturday."

She waited while he hid the canoe under the trees. It was twilight now. A faint breeze stole over the lake, perfume laden. Up at the lodge they were lighting the long Chinese lanterns around the porch. And suddenly, without warning, Janeway's arms closed about her.

"But you will not go—not now. You know the same as I do that this is the end of the quest."

Swiftly, recklessly, Suzanne's palm struck out and cuffed the famous explorer's nearest ear even while she evaded his lips. And then, picking up her skirt, she ran straight for the shelter of the lantern's glow.

"I'm going tomorrow, Blanche," she exclaimed, finding her hostess alone there.

"Oh, sooooon, dear; why? Here's a letter for you, anyway. From the shore, too!"

Suzanne read it through once twice, every word sank deep into her conscience. It was from Don.

"I think you had better stay longer. I am going up to Canada with the Wheatons in their car. The day you left I took a wrong header in diving and struck my shoulder. Lucky it wasn't the neck, eh? Have been laid up ever since. Head grazed a rock, too."

"Blanche, I am going now, tonight. Don's badly hurt. I'm sorry, but I must go."

"Don?"

Then Suzanne raised her head and for the first time publicly announced her engagement. Back there under the pines, when another man's arms had closed about her, she had found out what Don Hamilton's love meant to her.

"So you see I must go," she added, hurriedly. "Aunt Isabel is there at the hotel, but he will want me. And—and—I don't want him to try to go on this motor trip."

"But I thought you liked Carl, dear?"

"Did you?" Suzanne laid her arms around the other girl's shoulders. "Blanche, you know what funny people we women are, don't you? I didn't know until tonight which one I cared for, but now I do, and I want to get back to Don just as soon as the boat will take me."

"There's a train at 8:18 and you can catch the ferry over in 15 minutes. Don't talk, Sue, just rush. I know how you feel."

Don Hamilton opened his eyes widely at the vision that stood by his hammock beside Aunt Isabel's portly one. It was Suzanne, a long motoring cloak thrown back, showing her still in her brown khaki suit.

"Don't hug him too hard, child. He's all bandaged," protested Aunt Isabel, but Don did not mind the pain. He only heard her voice in his ear.

SOURCE OF HIS INSPIRATION

Not From Great Singer in Naples, but From Phonograph Came the Famous Tune.

Once there was to be a Salamis that should make it doubtful, when the name was heard, whether it was the mother city that was meant or its daughter in another land. So today when an Italian boy or girl appears in Boston schools, it is uncertain whether the child hails from the Italy of the Caesars or from "Little Italy" down round North Square. The author of "Panama," a recent book relating to the isthmus, found the same question arising in the Canal Zone.

While we were stuck on a mud bank, fighting mosquitoes, an incident occurred that illustrates how perversive is progress. One of the deckhands who looked like an Italian was enlivening his job by stitching a patch on a pair of overalls by singing the duke's song from "Rigoletto." And he sang it well. He had a rich barytone. His voice evidently had not been trained, but he sang true. Sitting there on a dry-goods case, beating time against it with his bare heels, he threw into his singing a large measure of the airy nonchalance, the very spirit of the song, that is so often lacking in the performance of professionals.

"Now listen to that," the captain said. "That's the real Latin for you. Music born in him. I don't suppose he can read or write. But once, when he was a little shaver, back in Italy, his father took him to the opera in Naples, and he heard some great artist sing that. And he remembers it still; sings it down here in the jungle, without any accompaniment but his heels, a lot better than an English or an American university man could sing it with an orchestra."

"Let's get him to tell us about it," I suggested.

The captain called him up, and asked him where he was born.

"New York," he said.

"Mulberry street?" I asked.

"Sure."

"Where did you learn that song?"

"Oh, that? That's a Caruso song. I learned it out of a phonograph."—Youth's Companion.

One of Nature's Freaks.

The village of Villarimboud, Switserland, were awakened during a thunderstorm one night recently by the violent pealing of the church bells. Going out, they found part of the church had been wrecked by lightning. The bells, however, were till in position and, whether owing to an electric current or a fitful wind, they continued to ring till daybreak.

WOULD RETAIN ART TREASURE

English Antiquarians Up in Arms at Prospect of Loss of Cromwell's Staircase.

London antiquarians are up in arms against a proposal to sell to wealthy Americans the famous carved staircase in what is known as Cromwell's house, Highgate Hill, a fine seventeenth century mansion, presented, according to tradition, by Cromwell to his eldest daughter Bridget.

Cromwell house is a red brick house faced with stone. A boundary stone in the adjoining wall bears the date of 1614, and this is generally accepted as the year of its construction. The house was occupied at one time by General Ireton, Cromwell's son-in-law, and it is suggested that it formed part of the dowry of Cromwell's eldest daughter Bridget.

The whole of the internal ornaments bear evidence of military occupancy. Unfortunately the greater portion of the drawing room ceiling was destroyed by fire nearly a century ago, but some exquisite woodwork has been revealed during recent renovation.

The main staircase, which is the immediate subject of concern, is of handsome proportions, and bears at its various corners beautifully carved figures of soldiers of the commonwealth period. The handrail is of distinctive molding, whilst the balustrades are rich with cleverly executed devices emblematic of warfare. Handsomely carved oak pendants appear at intervals above the staircase.

"Going Out to See a Man."

Artemus Ward, about half through his lecture, announced a recess for fifteen minutes, so as to go out and "see a man." H. R. Tracey, a Washington editor, seeing an opportunity to improve upon the joke, sent these lines to the platform:

"Dear Artemus: If you will place yourself under my guidance, I'll take you to 'see a man,' without crossing the street."

A restaurant keeper at that time in Washington was named Aman, to whom Ward was taken, and found Aman luxuriating at the well-laden refreshment board. Everybody "caught on" to the phrase, and, getting up between the acts and "going out to see Aman" became contagious.
